HELLO ALL (The Group of 8,520+ and growing):

CANADA HAS BECOME BIZARRO WORLD - UPSIDE DOWN!

As you know, one of the **big issues in the upcoming federal election** will be **“Climate Change”** and how the government will try to “fix” it for the World with a **tax on carbon dioxide or CO2**.

But let’s put CO2 in **perspective!**

And CO2 is **vital for plant growth** and its increase over the last 150 years has caused the planet to **“green up”, with surplus crops everywhere**.

Your listeners should **ask their friends and their politicians the simple question:**

What percentage of the atmosphere is carbon dioxide?

Most will guess, **10% to 30%**, with some even guessing as high as **60%**, believing that if CO2 increases by much more, **we will not be able to breathe!**

Do you know the answer?

Well here is where the **little boy asks the Emperor why he is wearing no clothes!**

The answer is **0.04%** of the atmosphere is CO2. That is **4 parts per 10,000 parts**. And of the 4 parts, **more than 3 parts are CO2 that naturally occurs in nature and less than ½ of the fourth part out of 10,000 is man-made**.

Think about that for a moment! In order to **try and curb CO2 by less than 1 part in 10,000**, the **Liberals, the Greens and the NDP** are prepared to **destroy Canada’s chief driver of GDP – the Canadian oil and gas industry**. And this is all in an attempt to meet the ridiculous targets for CO2 set in the Paris Accord – to which **China, India and Russia – three of the largest CO2 emitters in the World** are not subject until 2030.

Give me a break! Canada has become BIZARRO WORLD.

Canada has the natural resources that other countries would fight over – yet we are damaging our natural resource economy almost beyond repair with this foolishness.

Is it any wonder that cries for **separation are on the rise in Alberta and Saskatchewan?**

Imagine if the oil sands were in Quebec – there would be pipelines going everywhere and CO2 would NOT be an issue!

FEDERAL GOVERNMENT SCRAPS 100 YEARS OF DATA ON CLIMATE CHANGE - WHY?

A new report from Ottawa-based Blacklock revealed that Environment Canada omitted a century's worth of observed weather data in developing its computer models on the impacts of climate change. Blacklock's report notes that many of the temperatures scrapped by Environment Canada were higher in the past than today's temperatures. [Click here](#)

THE FEDERAL ACTION PLAN FOR OFFICIAL LANGUAGES

Did you know that the federal government has a plan to spend **\$2.654 billion dollars on bilingualism over the five years 2018-23**? That's an **average of about \$530 million per year**. It's real and is set out in official documents here: [Click here](#)

OUR READERS' COMMENTS SECTION

1. From a Reader: Socialism & Welfarism are twins – once you get the citizens of a country to think that welfarism is the correct policy, you have signed the country's death warrant. Canada is well on the way to that status, I'm sorry to say. We won't be long behind Venezuela.

2. From a Reader: This last Saudi oil scare should have wakened some Easterners to the need for oil from **their own country!** A pipeline would be the answer although the Quebec government obviously likes rail cars which can blow up their towns.

3. From a Reader (in Calgary): We are in the fight of our lives and I fear for the future of our once great nation should the Liberals get a second term. Even if the Conservatives win in October I am not optimistic that the structure of Confederation can/will be changed to the extent required to give Alberta a fair and reasonable return on its efforts and resources. If Trudeau is re-elected, then Plan B must immediately be the proposed Equalization Referendum and

Constitutional Conference. When (not if) that is rejected by our eastern centric colonial masters then the only viable next step will be a Secession Referendum in concert with Saskatchewan.

4. From a Reader: Thanks for all that you are doing to raise Albertan's and Canadian's awareness about the devastation that Justin Trudeau's virtue signalling climate policy has wrought on our energy industries. Irrespective of who wins the election on October 21, Canada has some very serious problems to address and our Economic Education Association is hosting an 'Essentials of Freedom' conference to address 'Meeting the Unity Challenge' Please see my invite to you and your followers below:

Friends: Please see John Robson's Invite to our conference [Click here](#) We are planning to host/facilitate an intelligent, respectful discussion of the challenges facing our country and the options that are being proposed to deal with them. Irrespective of who wins election 2019, the fact remains that Alberta has sent around \$600 BILLION more to Ottawa than has been sent back and many in the east continue to thwart Alberta's efforts to develop and export our most valuable resource: fossil fuels: This is the second time in many of our lifetimes that a liberal government led by a Trudeau PM has destroyed a generation of Albertans accumulated wealth along with the hopes and dreams of hundreds of thousands of families and businesses. Please join us in Red Deer to help insure that it never happens again.

ADDITIONAL READING/ VIEWING

In closing, here is additional information on the problems we are facing and the need for us to take remedial action immediately to right our sinking ship.

ACTION ALBERTA - WHO WE ARE

We are a group of deeply concerned, unpaid Alberta resident volunteers. Our work is intended to educate, inform and motivate all Canadians to be visible and vocal regarding the unequal, unfair and discriminatory treatment of Alberta by our Federal Government. Alberta's energy sector is the most important driver of the Canadian economy and its health directly impacts the standard of living of every Canadian. Unfortunately, that is not happening under our current Federal government!

Please **share** this email with your contacts so we can turn this unfair, inequitable, unjustifiable travesty around for the good of all Canadians. If you would like to submit information or articles, please send them to me.

Thank you for ALL of your support and interest!
