30 YEARS OF GLOBAL WARMING FORECASTS ALL FAILED
HELLO ALL (The Group of 8,545+ and growing):

THE TRUDEAU LIBERALS ARE DESPERATE AND THAT MAKES THEM DANGEROUS - Spencer Fernando

The Trudeau Liberals are now a desperate party. And while that’s a sign of how much they’re struggling to deal with the mounting scandals and growing anger felt by millions of Canadians, it’s also a sign that this election is going to get mired further and further into the gutter.

One thing that makes the Liberals so dangerous, and often so politically effective, is that they are willing to say and do literally anything to hold onto power. If someone told you a month ago that Liberals would be defending someone who wore blackface at least three times, you would have dismissed it out of hand. It would have seemed impossible. It would have seemed insane. Yet here we are. Blackface is now just a ‘mistake,’ and ‘not really a big deal,’ when Justin Trudeau does it.

After four years in office, a time in which they rarely discussed gun crime and in fact weakened laws that prevent gang crime (the true source of gun violence), the Liberals all of the sudden pretended that we are all living in the United States, using the same rhetoric of the US gun control movement, despite the fact that the laws are entirely different here.

They released an ad that is brutally manipulative, and demonizes law-abiding Canadian gun owners, while conveniently leaving out any mention of gangs.

They used the police to block journalist Andrew Lawton from Liberal events, even blocking him from an event that was supposedly open to the public. These are the acts of a desperate political party that can see power slipping away. But, those of us who want the Liberals to be defeated must not make the mistake of assuming that their desperation equals their defeat.

Gerald Butts is many things, but there is no denying that he is a ruthless and talented political tactician. Justin Trudeau may be manipulative and dishonest at a level we’ve never seen before in a PM, but he also maintains a core base of supporters that have stuck with him through everything,
including the blackface debacle, and he continues to show the ability to get media attention at a whim.

**Trudeau and Butts must not be underestimated.** In their desperation they will attack anyone and everyone, demonize millions of Canadians, make up outrageous lies, dig up dirt, throw people under the bus, and say and do literally anything to hold onto power.

**The Conservatives are not guaranteed anything,** and any lead they may have in the polls is not secure. This election is going to be brutal and ruthless right to the very end, and we all need to prepare ourselves for that.

**Complacency is Justin Trudeau's best friend right now,** and that's why we must not let up until the election results are in.

**OUR READERS' COMMENTS SECTION**

1. **From a Reader:** Hello Canada. Weep for our once proud, vibrant, entrepreneurial, self reliant city of Calgary Alberta, known today by many as "Detroit North", filled with bankruptcies, failing businesses and overtaxed private citizens. Over $50 Billion dollars of what once was Canadian Energy investment headquarters based in Calgary has indeed fled to the Permian oil fields of West Texas. As a result, the U.S. is now the biggest exporter of energy in the world, while Trudeau's energy policies are destroying our own energy industry. How deplorably sad that Canadians stupidly elected this corrupt,
industry. How deplorably sad that Canadians stupidly elected this corrupt, incompetent little Marxist owned by Quebec, to create this disgusting result. It must not happen a second time. Wake Up Canada!

2. From a Reader: It would seem Alberta and Saskatchewan are an island of reason in a world consumed with climate hysteria. The problem is the majority of the people demanding action have no idea how their lives are going to be impacted in order to meet the goals they are all demanding. Perhaps a detailed list should be drawn up of the sacrifices that will be required to meet these extremist climate goals. Another idea might be to put the information provided and have some top climate scientists endorse it and have it put as an ad in all the major Canadian newspapers.

3. From a Reader: If our “leader” in Ottawa could do something other than dither in hypocrisy he could take a look into foreign interference in our national elections…instead we (Alberta and Kenny) have to do the dirty work. A total failure in “leadership" by a nation-destroying clown who could care less about Alberta and hasn’t a clue about much else outside of his juvenile politics.

4. From a Reader: I am not sure if this would be appropriate to find its way into your (awesome) newsletter, but this is a topic that is front and centre in our national election, so awareness is critical of the exploitation of youth now being employed by these globalist zealots. For me, this child abuse crosses the line. Click here

5. From a Reader: Hello Canada. There are several Canadian conditions that must be corrected or completely "disappeared" if Western Canada is to remain in our so-called confederation. Multiculturalism, Bilingualism and Equalization must be completely renegotiated or removed completely. Uncontrolled Immigration must be stopped and a quota built on economic conditions established. Bills C-48 and C-69 must be repealed and pipelines built to both the BC Coast and to a suitable port in Eastern Canada, otherwise there are no logical reasons for the West, particularly Alberta and Saskatchewan, to remain in this bizarre relationship. We ignore realism at our peril. Wake up Canada. Trudeau must not be re-elected, otherwise it is indeed time to "file for divorce"!

6. From a Reader: After having had the distinct displeasure to listen to Cross Country Check-Up on CBC yesterday, enduring the tomfoolery of Elizabeth May, who espouses such a radical vision of making Canada CO2 inert that it will leave our economy in tatters, I am most afraid that these hysterics being
spread about this so called climate crisis, continually being broadcast at a fever pitch by the CBC, will have a massive impact on our upcoming election. In fact, our election is being hijacked by this single essentially global issue, leaving all other truly relevant national topics in the far shadows of irrelevance. It is not unlike the situation in the UK, where Brexit is omnipresent and real governing currently relegated to the sidelines, leading to poor government and future voter choice. Reality TV has taken over politics and the greater the drama and shock statements, the higher the ratings and votes. We as a nation are completely losing sight of reflective reasoning, the carefully weighted balance between rights and responsibility and overall decency and decorum. Something valuable has been lost in our society when decent people like Andrew Sheer are vilified and demonized for political gain and truly deviant behavior so easily excused.

Today I would like to send you this link to a well written fact based opinion that points to the overall benefit of increased use of hydrocarbons is making the world a better place and lifting people out of poverty. Perhaps Elizabeth May should take note. Click here

ACTION ALBERTA - WHO WE ARE
We are a group of deeply concerned, unpaid Alberta resident volunteers. Our work is intended to educate, inform and motivate all Canadians to be visible and vocal regarding the unequal, unfair and discriminatory treatment of Alberta by our Federal Government. Alberta's energy sector is the most important driver of the Canadian economy and its health directly impacts the standard of living of every Canadian. Unfortunately, that is not happening under our current Federal government!

Please **share** this email with your contacts so we can turn this unfair, inequitable, unjustifiable travesty around for the good of all Canadians. If you would like to submit information or articles, please send them to me.

**Thank you for ALL of your support and interest!**
