HELLO ALL (The Group of 3,609+ and growing):

We are a group of deeply concerned, unpaid Alberta resident volunteers. Our

work is intended to educate, inform and motivate all Canadians to be visible and vocal regarding the unequal, unfair and discriminatory treatment of Alberta by our Federal Government. That motivation should naturally flow from the fact that Alberta's energy business is the most important driver of the Canadian economy and its health therefore impacts, either negatively or positively, the standard of living of every Canadian.

SOME THOUGHTS ON THE FUTURE OF ALBERTA AND CANADA

Recently, I was asked to put down some of my thoughts about what is now happening in Canada and the problems that Alberta and Canada are facing. I have decided to share them to our Group.

Here is a brief list. Most of these points are ones of which you will be fully aware, while several others are more obscure (at least in my mind).

The bottom line is that FOR ALBERTA, Canada is not only broken, but totally broken. Since its formation in 1905, Alberta has effectively been a colony of Eastern Canada and the systemic problems of such a relationship have become increasingly apparent. Pile on top of that, the fact that we are currently being governed by amateurs in Ottawa running an inappropriately focused, leftist government agenda for the primary purpose of pleasing the United Nations.

So here is my summary list in two parts:

THE OBVIOUS PROBLEMS (THE ONES WE ALL RECOGNIZE)
