**HELLO ALL (The Group of 9,220+ and growing):**

**CANADA - VOTE CAREFULLY!!**

**Pollsters and pundits** insist that the Conservatives and Liberals are in **deadlocked** in the 2019 election race. That is **hard to believe** considering the **vast difference between how the two parties plan to govern over the next four years.**

The **Conservatives** have proposed a **common-sense, reasonable plan to reduce spending on non-essential programs** (such as subsidies to corporations) to finance tax reductions while maintaining core services and working to balanced budgets.

The **Liberals** continue to **strike fear in Canadians (fear of a climate crisis; fear of any reductions in government spending)** and to spend even more to create a **false appearance of prosperity.** Liberals will **increase borrowing** due to budget deficits **by \$94 billion over the next four years**, raising our federal debt from the current \$768 billion to \$862 billion.

To put that in perspective, based on a modest 3.2% interest rate, we are **currently paying \$24.6 billion per year in interest.** The Liberals plan to increase that to \$27.6 billion by 2023.

That is scary. In **2015, the Liberals promised** us the accumulated **deficits over the next four years would be \$24.1 billion.** Their actual record was **\$71.8 billion.** They **missed their target by \$47.4 billion** or nearly a double **(+97%) overrun.**

What the **Liberals promise, and deliver are very different.** A Liberal organizer stated in 1986: **“Tell them anything to get elected and do what you want when you win”.** Trudeau has clearly followed this!

**Canada cannot tolerate another four years of “reforming Canada” to Justin Trudeau’s globalist ideals.** The concerns and well-being of Canadians come first and are being ignored by our current government.

Despite **Herculean efforts to dumb us down** by forcing us to accept **globalist declarations** that there is a consensus of scientists and therefore

climate change science is settled, **most of us know that there is no such thing as a “consensus” in science.** Science is an unending search for truth.

The Liberals’ ridiculous argument is that **a proposition must be true because many people believe it,** often concisely encapsulated as: **"If many believe so, it is so."**

A **Liberal majority or a Liberal minority** following the upcoming election will be a disaster for the unity of Canada and will **drive the west rapidly towards “independence”** from the rest of the country. **Canada – vote carefully!!**

(With input from an article by **John Feldsted** in Winnipeg)

## **OUR READERS' COMMENTS SECTION**

**1. From a Reader:** Hello Again Canada, pay attention to the facts. The energy industry generates \$114 Billion of GDP compared to \$18 Billion in the auto industry, yet many Canadians think the auto industry generates more revenue. I've said it before and I'll say it again, if Canadians think that the oil and gas industries are unimportant they have no understanding of economics and will soon wonder how they will pay for their social programs! The Liberal government under our unscrupulous, corrupt Prime Minister Justin Trudeau (with the complicit approval of our treasonous, disloyal Senate) has destroyed Western Canada's energy industry purely to support his so-called climate crisis of which there is none. The fact is that poll results indicate that some 15 % of Albertans still believe that Trudeau should be re-elected? Unbelievable that we continue to have even Albertans that are still stupid enough to vote for this scoundrel? For the good of Canada, Trudeau must NOT be re-elected. Wake up everyone!

**2. From a Reader:** I think it is time we built a WALL, not on our southern borders but on the Ontario Manitoba border and tell Quebec and Ontario ADIOS. We get nothing from them, it is only take, take, take! It is time for the West to separate and declare ourselves a country. The only pipeline Quebec wants is the one carrying money from Ottawa to Quebec City. I am eighty two years old and had enough of the Trudeau's and Ottawa.

**3. From a Reader (in Winnipeg):** Have you ever considered the possibility of western conservatives pulling a Lucien Bouchard? Quebec MPs from both

Liberal and PCPC ranks left their parties and formed BQ way back when. They were an official party in the next election. If the MPs elected in Alberta, Manitoba and Saskatchewan were to band together and form the Conwest Party, or Westcan party they would, like the BQ, have a separate voice in Parliament. Their voices would not be lost in the din of Ontario and Quebec CPC members. They would have separate official status, money, equipment access to the library and resources of Parliament and all the trappings an official party enjoys. They could collaborate with the CPC on policy and votes, but could no longer be ignored by the CPC, Parliament or the media. Even if Alberta members have to go it alone, it is an idea that need pursuing. Once established, CPC MPs from other western provinces could cross the floor and join. Just an application to Elections Canada for official recognition would set a lot of hair on fire. Even with a CPC majority, there is a risk that the west will take tenth or lower place in government policy. We can change that.

### **ACTION ALBERTA - WHO WE ARE**

We are a group of deeply concerned, unpaid Alberta resident volunteers. Our work is intended to educate, inform and motivate all Canadians to be visible and vocal regarding the unequal, unfair and discriminatory treatment of Alberta by our Federal Government. Alberta's energy sector is the most important driver of the Canadian economy and its health directly impacts the standard of

living of every Canadian. Unfortunately, that is not happening under our current Federal government!

Please **share** this email with your contacts so we can turn this unfair, inequitable, unjustifiable travesty around for the good of all Canadians. If you would like to submit information or articles, please send them to me.

**Thank you for ALL of your support and interest!**
