HELLO ALL (The Group of now 10,000+ and growing):

THE FUTURE OF CANADA?

Talk of **western separation**, or **Wexit**, as some are calling it, percolated on Tuesday, a day after voters returned the federal Liberals to power but with a **minority government**. The Liberals managed to hang onto seats in Ontario, Quebec, Atlantic Canada and British Columbia, but **Alberta and Saskatchewan are Conservative blue** except for one NDP riding in Edmonton.

The **VoteWexit Facebook** page with its motto “**The West Wants Out**” has more than 142,000 members and counting. And an **online petition** calling for a western alliance and Alberta to separate has been backed by nearly 26,000 people so far.

Grant Fagerheim, CEO of oil company Whitecap Resources Inc., says **Alberta and Saskatchewan's contributions to the Canadian economy have not been respected**. He says he's not surprised there has been talk of western separatism, but whether that amounts to anything is another matter.

“**I don't believe** at this particular time, whether you live in Saskatchewan or Alberta, that people would say **they're Canadian first** at this time.”

Fagerheim said historically he's been a federalist, but “**I can't say I'm a proud Canadian at this particular time.**”

(From an article by the Canadian Press) [Click here](#)

THANKS FOR ASKING!

Here is a **letter to Ontarians** regarding “**Why are Albertans so angry?**”

It is hard to describe what I am feeling today to you after being a **patriot and loving a country for 58 years** ...but I will try below.

For a moment **let's pretend** that the following has happened or is happening to the **condo construction industry and auto industry in Ontario**:

The **price of the condos and autos** being produced **dropped by 70%** in a period of a few months. Companies building these products have been doing

.

massive layoffs.

In response **Mr. Trudeau** steps up and does the following to these industries:

(a) **Raises corporate taxes** on these businesses.

(b) **Accuses** these Ontario companies of breaking tax laws and being crooks.

(c) Imposes **new layers of carbon tax** with more to follow with no consultation.

(d) **Stops you from transporting** the autos Ontario has produced **to port** and stops you from selling any condos and building any new ones.

(e) **Imposes a shipping ban** preventing only ships picking up cars from docking in Canada. All other tankers can dock as well as hundreds of cruise ships.

(f) Passes legislation which states that **future condo and auto construction is no longer approved by the Province of Ontario** but is now approved by Parliament. This likely means that you will **never build another car or condo again.**

(g) Is about to **enshrine aboriginal rights** with bill 232 so that no condo project or car can be built in Ontario without approval of all First Nations. This means **nothing will likely get built.**

(h) Announces that by 2050, the Ontario **condo construction and auto industries will end.**

(i) The government **buys the highway** that transports your produced cars to port and then stopped twinning it as it is too dangerous to the environment. However, you are puzzled as the 60 year old twin highway right beside it has **never had an accident.**

As Ontario slides in to a recession you see **Alberta buying new cars from the US and Japan.**

Then after the above actions you see your prime minister give an **election sneech in Quebec in French** promising to impose more taxes and **stop the**

speech in Quebec in 1998 promising to impose more taxes and stop the "big bad Ontario condo and auto barons".

You see him meet with a **16 year old Norwegian** who is traveling the world trying to shut down the auto and condo industry and **he fully endorses her**.

You watch Quebec and British Columbia announce that **no further Ontario cars can be sent through their provinces**. Your prime minister **fully supports them**.

Then, in the last week of the election campaign you see your prime minister standing in Quebec giving a speech at a podium with a sign on the front saying "**Let's build a strong Quebec**".

Around you all you can see is **30% building vacancy** and your dear friends and clients being **laid off**. On top of all of the above, let's pretend as a reward for the above indifference and attacks that **Ontario has sent \$600 Billion more in transfer payments to Ottawa** than what Ontario has every received.

If all of the above happened to you and the families around you and the province of Ontario that you love....how would you feel today my friend?

**That is exactly how Albertans feel.
But thanks for asking.**

ECONOMIC EDUCATION ASSOCIATION OF ALBERTA ("EEAA") – 7TH ANNUAL CONFERENCE

The 7th Annual Conference of the EEAA will be held in Red Deer, Alberta on November 15/16, 2019 at the Cambridge Hotel. About 20 exceptional speakers [Click here](#) will discuss all aspect of both separation and confederation. With the recent Federal election, this conference could not be more timely.

When? Friday and Saturday November 15 and 16, 2019

Where? The Cambridge Hotel, Red Deer, Alberta

REGISTER [Click here](#)

OUR READERS' COMMENTS SECTION

1. From a Reader: Greta Thunberg's press agent, as of May 2019, Daniel Donner, works from the office of the: **European Climate Foundation**, founded by **John H. McCall MacBain**. Name sound familiar? John H. McCall MacBain was the **Trudeau Foundation's Chair of the Board**. But there is more. Remember the fiasco over the **\$928,000 donation to the Trudeau Foundation**? That was the McCall McBain Foundation, **the one Greta's press agent "works out of"**. The Trudeau Foundation attracted no foreign donations from 2008-2013, about \$53K in 2014, \$428K in 2015 and \$535K in 2016. According to the charity, the Switzerland-based McCall MacBain Foundation has been responsible for the majority of the increase in foreign donations. **MacBain, a Canadian businessman, is a founder of the McCall MacBain Foundation and chairman of the Trudeau Foundation**. MacBain is the 75th richest person in Canada and has a net worth of \$1.37 billion, according to Canadian Business magazine. So **the people who are funding Greta's interference with our economy and election are the same people who donate more money than anyone to the Trudeau Foundation**. Do you understand the massive push behind all the climate activism during the election now? **This is 100% foreign-funded third party election interference.**

2. From a Reader: I hope Kenney has his war chest loaded and his plan ready. I Googled the famous Shakespeare speech from Henry the Fifth that he gave before the battle of Agincourt. The English were outnumbered by the French by five to one, but the English defeated them. I love that speech, but at the moment it is especially inspirational.

3. From a Reader: Thank you for your engagement and leading the charge on taking action to support the interests of Albertans. I am a business owner (real estate, community development and home building) and a former senior executive of Canada's largest real estate company ... My view is that our federation is flawed, and that Alberta will never be treated fairly, even if a federal conservative government is elected. We will be taxed and regulated without representation, and similar to the American Revolution, separation is the only valid option. We need a declaration of independence. I respect your efforts to work within the current political reality, but that reality needs to change. I plan to get engaged in working for this goal, and put my energies into this effort. I hope we find many inspired leaders to see this become a reality.

4. From a Reader: I'm thinking of you all with gratitude for the time consuming, emotional, hard work you did on the newsletters. They were informative, educational and a very important and meaningful effort to raise awareness of the seriousness of election related issues. I'm sad tonight because I think tomorrow's election result will change Canada forever. The analogy I think of is water dripping into a glass. It drips, and drips, and drips and it's no big deal until there is ONE drip that overflows the glass. As the drips continue ... and the water continues to run over the edge of the glass, it's impossible to recapture the water and put it back in the glass. The result: the water, the glass and the environment are never the same again. When I think of all the "hits" (as in drips) Alberta has taken, not just recently, but for years by the Federal Government and Quebec, tomorrow's election results could be the drip that overflows the glass. Should that happen, like leaving an abusive relationship, it would be time to plan a safe exit. I hope that doesn't happen but if it does, how can I help?

5. From a Reader: With all the facts in front of them, Canadian voters voted 64% against the fossil fuel industries and against Alberta and Saskatchewan. The only way we will ever see these industries have a hope of survival is to find another way the get our products to the world markets that want and need them. It will not happen by living in denial and pretending that somehow we are going to convince the 64% (and rapidly growing) of Canadian voters who do not want to ever even consider supporting those industries. It will not happen by pretending that the 64% will ever care about Alberta and Saskatchewan or these industries. Our politicians (Mr. Kenny and Mr. Moe in particular) are also foolish to believe that it will ever happen. They need to stop the rhetoric and face the reality of the situation. It is time to find another way and staying in Canada ain't it. Our situation within Canada is only going to get worse. It's time to admit it and to tell kit like it is. Mr. Trudeau, the lying, cheating, arrogant elitist moron, is not the problem. It is definitely the other 64% of Canadian voters that are the problem. We will never change that. Stop trying to do so. We have what the world wants. Let's get it to them. The rest of Canada can find their own way to survive. We need to find ours. We have run out of options within Canada and within Confederation. That will NEVER change.

6. From a Reader (in Calgary): I am sure Justin Trudeau will be on one of his two planes today to meet with Husky to discuss saving "Canadian Jobs".

7 From a Reader: Based on todays comments from Trudeau and his

FROM A READER: Based on today's comments from Trudeau and his spokespersons, there will be no quarter given on their climate plans for transition to a carbon free economy. The comment of the day had to be that Ottawa is now listening and western Canadians will be provided a "just transition" to the new economy. It is clear the divide between Laurentian Canada and western Canadians, especially in Alberta and Saskatchewan, is a gap too far to bridge, with no room for compromise. The sooner Albertans demand a referendum on a declaration of independence, the sooner Albertans can get on with building a bright and prosperous future.

ADDITIONAL READING/ VIEWING

In closing, here is additional information on the problems we are facing and the need for us to take remedial action immediately to right our sinking ship.

ACTION ALBERTA - WHO WE ARE

We are a group of deeply concerned, unpaid Alberta resident volunteers. Our work is intended to educate, inform and motivate all Canadians to be visible and vocal regarding the unequal, unfair and discriminatory treatment of Alberta by our Federal Government. Alberta's energy sector is the most important driver of the Canadian economy and its health directly impacts the standard of living of every Canadian. Unfortunately, that is not happening under our current Federal government!

Please **share** this email with your contacts so we can turn this unfair, inequitable, unjustifiable travesty around for the good of all Canadians. If you would like to submit information or articles, please send them to me.

Thank you for ALL of your support and interest!
