HELLO ALL (The Group of now 10,000+ and growing):

THE TIME FOR EQUALITY ACROSS CANADA HAS ARRIVED!
(By: Rob Hunter  
Calgary, Alberta)

I am a self-employed manufacturer's rep., and have been for forty years. I see the destruction to Alberta businesses first hand on a daily basis, and it is sad to witness. It need not be this way. I am referring to all businesses not just the oil patch related ones. It all trickles down in our Province, unfortunately, and many business in the retail and wholesale sector are simply hanging on, waiting for something to change. Right now, they do not have much hope.

I have never seen it this bad and it is all due to the policies of the Liberal Government of Justin Trudeau. Alberta businesses have weathered many storms, and have always been very resilient. That is what entrepreneurs do. This time though they are not only up against the usual external forces, they are up against their own government. They are being attacked from within and that is a very tough storm for anyone to weather.

Giving up is not an option though, it’s not in our DNA, so it's time to fight back. That is what is starting to happen on an unprecedented level, and I believe it is only the beginning. The bear has been poked, one time too many!!

I couldn’t agree more with the article of Michael Lambros. He makes the point perfectly by pointing out that there is a much broader issue at hand than just pipelines, equalization payments or carbon taxes.

What is required is a major shift in the way Canada functions. It is about total EQUALITY for not only Alberta, but all Provinces. This will require a total re-write of the Canadian Constitution to make Canada a fair and equal country to all of it's citizens. At present it is not. Everything is set up to favor Quebec at the expense of the rest of the country, and that simply is no longer acceptable and it must stop. It never was acceptable, but unfortunately it was accepted. No more!!

We need to decide as a country, not just Alberta, if we want to be a country, or a bunch of separate entities trying to pretend we are one country. We don't even have free trade between our Provinces! How can that be
considered a country? That is only one of the many issues that need to be dealt with to make Canada fair, but it is an important one. The issues are many, and they have been well documented by Action Alberta.

The question now is, how do we deal with them? How does Canada deal with them? Does the rest of Canada even want to deal with them? The time to find out is now, not six months or a year or two years from now. It is now! If the rest of Canada is unwilling or unable to grasp that fact, then Alberta must act alone. But it must be now or this will all get put on the back burner once again. We cannot allow that to happen.

Mr. Kenny cannot allow that to happen, but unfortunately his enthusiasm for pursuing these goals seems to be dwindling slightly. He needs to be kept aware of what is at stake, and he must not be allowed to be thrown off course.

Pursuit of equality within Canada is job one for the Premier at present, but he must not lose sight of what plan B is if that fails. Plan B is secession from Canada by Alberta and Canada needs to clearly understand that this is not just an idle threat.

He needs to put a timeline on action from the rest of Canada to get this process moving and make it very clear that dithering is not an option. He needs to reinforce the fact that Alberta will move to plan B very quickly unless we get a firm commitment to proceed with constitutional reform without delay.

This is not rocket science, it is just an agreement on constitutional reform to make all provinces equal, operate as one country made up of Provinces supporting each other and our Canadian interests, and to put Canada first over and above all foreign interests and influences.

It is not up to Trudeau and the Liberals, or the Quebec elitists to decide when and how we proceed, it is up to the rest of Canada. Continuing as a divided country is also not an option. The infighting must stop and stop now! The rest of the world is laughing at us as we implode and destroy ourselves as part of the Trudeau plan. We can either let him win, or we can collectively stop him. It is up to the rest of Canada to decide if they want to be part of the solution or not.
be part of the solution, or not.

Simply put, I **no longer want** to be part of a country in which 33% of the population supports a lying, cheating, destructive criminal. I **no longer want** to be part of a country in which 64% of the population is dumb enough to vote against the hand that feeds them. I **no longer want** to be part of a country who’s population is dumb enough to destroy itself in the name of fictitious manmade climate change, while the rest of the world does basically nothing in that regard, and then criticizes us for not doing enough.

The rest of the world is using Canada as the useful idiot, as we **self-destruct** while they reap the rewards of our self destruction. When is the rest of Canada going to **wake up** and not only **take our country back**, but **take back our place in the world**?

We were once the envy of the world, and under Trudeau and the Libs., we have very quickly lost that position. We are now the laughing stock! Is the rest of Canada, willing to change that? That is the real question!!

**ECONOMIC EDUCATION ASSOCIATION OF ALBERTA ("EEAA") – 7th ANNUAL CONFERENCE**

The 7th Annual Conference of the EEAA will be held in Red Deer, Alberta on November 15/16, 2019 at the Cambridge Hotel. About **20 exceptional speakers** [Click here](#) will discuss all aspect of both separation and confederation. With the recent Federal election, this conference could not be more timely.

*All of us from ACTION ALBERTA will be there! We hope to see you there as well.*

When? Friday and Saturday November 15 and 16, 2019  
Where? The Cambridge Hotel, Red Deer, Alberta  
REGISTER [Click here](#)

---

**OUR READERS' COMMENTS SECTION**

1. From a Reader: I live in Ottawa and work for the a federal government
1. **From a Reader:** I live in Ottawa and work for a federal government department. I agree with you. The majority of the population living between Windsor and Montreal have little awareness or care for Alberta and Saskatchewan. Moreover, to many, whenever there’s mention of Western Canada it’s almost synonymous to a mention of the moon. I myself, have witnessed federal departmental spending on programs and, at one time, did a comparison of the funding of programs to all the provinces. In every case, I would see funding in the following order. Lists of funding organizations and companies by pages. Quebec 10 pages, Ontario 3 pages, and other provinces 1 page or less. Years ago I saw how the federal bureaucracy over represented by francophone put Quebec ahead of all other provinces all the time. Not to mention the equalization redistribution of wealth. When we look at all of this, Quebec gets the lion share all the time. I’ve always felt that this was terribly unfair and the public has no awareness of what has been going on. I truly hope that western provinces will, finally, put an end to this injustice.

2. **From a Reader:** We are seeing a continuous exodus of energy companies to our southern neighbor and no doubt this is a result of the federal election. This federation called Canada is not working and the provincial government must take action immediately to either leave or demand a completely different relationship. The longer we wait the more job losses will result and our living standard will continue to decline. Your government (UCP) must initiate this process immediately. We cannot withstand another 4 years of these types of policies coming out of the East.

3. **From a Reader:** We are now “in a war” with our fellow Canadians that we never wanted. It’s beyond sad and horrifying but we MUST mobilize every possible lever. An Alberta pension plan, police force, trade policies etc etc etc. We start as Quebec of the West and proceed from there. Angry, despondent but ready for the battle.

4. **From a Reader (in Edmonton):** I am a 68 year old Edmontonian and I love your newsletters. I find them to be interesting and informative. I wish that the whole separation movement would become an Alberta Political Party that I could campaign and vote for. How can we make this happen? I did vote for Jason Kenney and I have written to him but he is a federalist and won’t change his mind. He needs to help Albertan’s get rid of equalization payments and he needs to help with the separation movement. If it’s one thing I wish for is that we become a separate country before I die.
Anyways, keep up the great work. You inspire me to keep going. I hope that...
Anyways, keep up the great work. You inspire me to keep going. I hope that Alberta and the West become a great superpower and boom again.

5. From a Reader: According to #3 reader’s comments, Greta Thunberg’s press agent and Mr. MacBain, founder of the European Climate Foundation, who was also Chair of the Board for Trudeau’s Foundation, are all connected and definitely smells of collusion. Now, one might suggest that it was not coincidental that Greta was touring Canada, promoting climate change smack dab at the same time that the federal election was happening and Trudeau was behind in the polls? Is it not suspicious that Gerald Butts resurfaced to lead Trudeau’s election campaign and having connections with Daniel Donner, might have orchestrated her touring Canada in order to distract voters by fuelling the climate change frenzy which Trudeau would exploit and as a result submarine our energy crisis? What is the real story?

6. From a Reader (in High River, Alberta): For visual support to our country and Trudeau and Quebec, I strongly suggest everyone turn their Maple Leaf flags upside down as well as THE QUEBEC FLAG. Buy one and use it! It will gather attention nationally folks. No doubt the Quebec flag upside down! If that is too much. Buy the old "Red ensign Dominion of Canada" flag to replace the dirty Liberal Canada flag. Your choice. Visual makes more impact than speech at this point.

ACTION ALBERTA - WHO WE ARE

We are a group of deeply concerned, unpaid Alberta resident volunteers. Our work is intended to educate, inform and motivate all Canadians to be visible and vocal regarding the unequal, unfair and discriminatory treatment of Alberta by our Federal Government. Alberta’s energy sector is the most important driver of the Canadian economy and its health directly impacts the standard of living of every Canadian. Unfortunately, that is not happening under our current Federal government!

Please share this email with your contacts so we can turn this unfair, inequitable, unjustifiable travesty around for the good of all Canadians. If you would like to submit information or articles, please send them to me.

Thank you for ALL of your support and interest!
