HELLO ALL (The Group of now 10,000+ and growing):

MERRY CHRISTMAS AND A HAPPY NEW YEAR!

With the holidays almost upon us, we are featuring an expanded Readers'
Comments Section. This will be our last newsletter until 2020.

Merry Christmas and a Happy New Year to all!

OUR READERS' COMMENTS SECTION

1. From a Reader: I found an interesting Youtube video. Ronald Reagan warned us about this back in 1964. Then it was Russia, Vietnam and the Democrats, today it is the UN and the Trudeau Liberals. I am very unnerved by what I think has been forgotten. I will never support the idea of war but it is true that we must be prepared to fight for our freedom. Click here

2. From a Reader: I agree with your reader that the greatest threat facing Canadians is not climate change, but climate change ideology, which is decidedly anti-capitalist and anti-human. The climate change elites tell us that the only option to we have to save the planet is to limit the freedom, human rights and prosperity that we enjoy in Canada. Canadians need to wake up and look down the road of global socialism and” eco-justice” that Trudeau is leading us to. Please share with your readers a glimpse of the human freedoms that are in jeopardy if we continue to follow Trudeau in this insanity. Click here

3. From a Reader: I think Kenney is being far too soft with the Federal Government. We expected him to be Alberta’s champion. First he takes our major bargaining chip - separation - off the table and then talks about a "fair deal" with the very villains who have been happily and knowingly screwing us forever. $611 billion since 1960. Kenney wants a wishy washy fair deal (and maybe to be PM). Albertans want freedom and independence!!! No more economic slavery!!!

4. From a Reader: Nobody that I know actually trusts central Canada anymore. A typical Albertan family of four is paying $20-25,000 in excess taxes every year so the Feds (Liberals and yes Conservatives too) can give it to Quebec and the East to buy votes. If your grandchildren ask "Did you recognize how unfair this was?" (Their levels of service in virtually all areas are better than ours, yet we pay them). And "Why didn’t you do something about it?" What will your answer be? Or will you offer to pay their share which will surely be $50-60,000 per family per year by then? This will limit their opportunities and jobs and reduce their standard of living in order to grant it to others in the East. Not fair! Most people are not opposed to helping others but this is different.
this is different - with them having theirs hands in our pockets and helping themselves to what they think is fair. That works for no one- and longer term hurts even the recipients!

5. From a Reader: Please excuse my sarcasm but one of the other advantages of Confederation is the fact we get to pay more to protect the inept Eastern manufacturers. If you drive a Japanese truck purchased for $45,000 in 2019 you paid about $5,700 in extra tariffs and fees. If you ride a Specialized bicycle built in Taiwan (I believe) which cost $4,000 (I know it sounds dumb but I have one of these - now 11 years old) you paid $868 in tariffs and fees. If you think I should apologize for buying such bike - a waste or extravagance in many peoples' opinion, I would first explain that is much better value than $100,000 -$110,000 in excess taxes that my wife and I paid to Ottawa so they can buy Eastern votes.

6. From a Reader: How in the world does Kenny think there can be a “fair deal” when before he even gets out the door from discussing Alberta’s problems with Trudeau, Justin calls a press conference to demonize Alberta by saying we don’t care about CLIMATE CHANGE!! They’re clearly counting on carbon tax money to keep their spending addiction satisfied. He and his money hungry Liberals will never stop bashing Alberta until we open our cheque books further, not vice versa. We can’t leave confederation tomorrow but we’d be fools not to start preparing.

7. From a Reader: I saw part of Justin Trudeau’s interview with Lisa LaFlamme and found myself screaming at the TV as I listened to his Act 2 – Scene 1 drama inflicted narrative and observed his continued condescending attitude and air of superiority towards the West. Hypocrisy drips from the man!

8. From a Reader: Justin Trudeau was very unhappy that the Liberals gained no seats in Saskatchewan or Alberta. In addition, his support from aboriginal communities was declining rapidly. He decided to visit a small aboriginal town in Alberta to demonstrate his support and improve on the Liberal polling numbers. He knew he could get some wide media exposure if he could provide support the community in a tangible way. Upon arriving in the village and after the usual greetings, he immediately asked what were the most pressing needs. “We have two basic needs, honourable Sir,” the village leader replied. “Firstly we have a small hospital but no doctor.” “Chief”, he said, “as the Prime Minister of this great country I will fix that problem right now.” The CBC camera was rolling and Trudeau whipped out his smartphone and made a call.
camera was rolling and Trudeau whipped out his smartphone and made a call. After speaking for a while he hung up and told the chief not to worry any longer, a doctor would be assigned and sent to the village very soon. Then he asked, "And what is the second problem?" "...Secondly Sir, we desperately need cellphone service because there is none anywhere in this village."

9. From a Reader: The largest oil refinery in Canada, fed by Saudi oil, secretly abandons its emissions plan. Not a peep from Greenpeace. Not a tweet from Catherine McKenna. Not a threat from Gerald Butts. No NGO lawsuits. Because it’s owned by the Liberal Ivings. Like the mafia, no-one touches them. Click here

ADDITIONAL READING/ VIEWING

In closing, here is additional information on the problems we are facing and the need for us to take remedial action immediately to right our sinking ship.

ACTION ALBERTA - WHO WE ARE

We are a group of deeply concerned, unpaid Alberta resident volunteers. Our work is intended to educate, inform and motivate all Canadians to be visible and vocal regarding the unequal, unfair and discriminatory treatment of Alberta
by our Federal Government. Alberta’s energy sector is the most important
driver of the Canadian economy and its health directly impacts the standard of
living of every Canadian. Unfortunately, that is not happening under our current
Federal government!

Please share this email with your contacts so we can turn this unfair,
inequitable, unjustifiable travesty around for the good of all Canadians. If you
would like to submit information or articles, please send them to me.

Thank you for ALL of your support and interest!
