

SUMMER STEM CAMPS

Ages 3-7, Including Kindergarten & 1st Grade

Community Programming • Serving Hillsboro for 20+ Years!

The Wonder Within: Session 1

5 Weeks • June 15-July 16 • Monday-Thursday • 9:00-11:45 AM

Children will explore the body's major systems and organs through hands-on science investigations. Campers will create a life-sized human model, conduct engaging experiments, and discover what happens inside the human body. Perfect for curious kids who love biology and science! **\$1125**

Roots & Shoots: Session 2

5 Weeks • July 20-August 20 • Monday-Thursday • 9:00-11:45 AM

Through the Jane Goodall Institute's Roots & Shoots program, children explore their community through the lens of humans, animals, and the environment. Campers develop compassionate leadership skills through project-based learning, including: creating a habitat for monarch butterflies, partnering with the local animal shelter, improving green spaces, and organizing a community food drive! **\$1125**

Enroll in Both Sessions & Save: ~~\$2250~~ \$1995

Finding Art in Nature

Choose One Session: June 15-17 • July 20-22 • August 10-12 • 12:30-2:30 PM

Children explore creativity using natural materials through messy, hands-on art experiences. **\$170**

Gardening With Ms. Nicole

Choose One Session: June 22-24 • August 17-19 • 12:30-2:30 PM

Children will be immersed in the world of plants and gardening through hands-on projects inspired by beloved children's books that cultivate a love of the earth. **\$170**

To enroll visit: www.elmhillsboro.com

Payments are accepted for all camp tuition.

HILLSBORO SCHOOL DISTRICT DOES NOT ENDORSE OR SPONSER THE ACTIVITIES AND/OR INFORMATION CONTAINED IN COMMUNITY FLYERS
