

ELM Summer Camps 2026

The Wonder Within (Session 1): \$1125

5 Weeks, June 15th-July 16th, M-TH 9:00-11:45

Children will journey into some of the body's major systems and organs. This camp includes creating a life sized human model, tons of hands-on science experiments, and a deep dive into what happens within! The perfect camp for those who have an interest in biology (and those who don't know they do, but will soon)!

Roots & Shoots with Jane Goodall (Session 2): \$1125

5 Weeks, July 20-Aug 20th, M-TH 9:00-11:45

Through the program of Roots & Shoots, a Jane Goodall Institute, children will explore their community through the lens of humans, animals, and the environment. The emphasis is on developing compassionate leadership skills and traits through project-based learning. Projects include creating a habit for monarchs (along with the Wild Kratts brothers), working with the local animal shelter, improving green spaces, and organizing a food drive.

Sign Up for Both Sessions at a Discounted Rate!

BEST VALUE

The Wonder Within and Roots & Shoots with Jane Goodall (Sessions 1 and 2) \$1995

10 Weeks, June 15th-Aug 20th, M-Th 9:00-11:45

Finding Art in Nature \$170

Choose from 3 Sessions: June 15-17, July 20-22, or Aug 10-12, 12:30-2:30

Does your child enjoy getting messy, making art, and exploring with natural materials? If so, this is the camp for them!

Gardening With Ms. Nicole \$170

Choose from 3 Sessions: June 22-24, July 27-29, or Aug 17-19, 12:30-2:30

Your child will be emersed in the world of plants and gardening. The hands-on projects will be centered around children's books that inspire a love for cultivating the earth.
