ALL TRAININGS OPTIONS CAN BE COORDINATED IN TO AN A LA CARTE STYLE “BUILD YOUR OWN TRAINING”. For example, many facilities will choose to have an active shooter/situational awareness seminar, followed by a Stop the Bleed Demo, and training scenarios.

Training is not a one size fits all answer for each facility. Therefore all training programs are designed to meet the needs of the organization.

## WHERE DO YOU START?

---

We believe in ensuring that we design our training to meet the size, demographics, location, and mission of each facility. To start the training process, simply reach out to us and we will schedule a time to discuss your facility and meet with you (online, phone, or in person) to discuss the goals, and our team will work with your team to build the training to fit your needs.

During the initial consultation, we will collect a variety of information about your facility and build the requested training to match your congregation/ location. If you are in close proximity to our location, we will send a team member to attend a service prior to our training as well, which gives us additional insight and understanding of how your facility operates.
