

The LLL Way!

Lionheart Leafleting London offers a premium level leafleting service in the London and Greater London areas. We focus on three main areas: Integrity, Coverage and Marketing.

Integrity

It is very important for us, that we provide our customers with a reliable and trustworthy service. We have many years of experience leafleting and with this experience we are able to train up and lead Leafleteers well.

We provide mapping of the work done which includes satellite imagery, the distance covered and the time spent.

Coverage

Our approach allows us to have experienced Leafleteers working with us throughout the Greater London area. Every house is important for us and we encourage our Leafleteers to distribute to all houses.

Clients may have specific requests and we are happy to accommodate these.

Marketing

One of our strongest attributes is our marketing capabilities. We encourage our Leafleteers to chat with residents as they go and approach small businesses when leafleting. After leafleting through an area, you can be sure that your business is the hot topic in town!
