שומר ישראל

SHOMER YISRAEL

In a world of darkness,
I feel broken,
Too much grief & loss,
How will I go on?

Same heartbreak every day,
Waiting to feel ok,
Feel lost in every way,
How will I go on?

Hashem please take my hand,
Even though it's what your've planned,
Erase the pain,
Let only love remain,

May it be a world of light,
Put an end to the fight,
And Then we'll be alright,
Shomer Yisrael.

In a world of darkness,
We won't feel Broken,
We know it's HERE you placed us,
Yisrael Chai Vekayom,

With YOUR Love every day,
We know we'll feel ok,
With YOU leading the way,
Yisrael Chai Vekayom,

Hashem please take my hand,
Even though it's what you've planned,
Erase the pain,
Let only love remain,

May it be a world of light,
Put an end to the fight,
And Then we'll be alright,
Shomer Yisrael.

Ani Maamin...

Hashem please take my hand,
Even though it's what you've planned,
Erase the pain,
Let only love remain,

May it be a world of light,
Put an end to the fight,
And Then we'll be alright...

גבורה

HERO (Feat. Frimi)

Haven't been told how life can get so hectic,
When a dream shatters on your shoulder
and it's too much to carry it all.

The force of stress is so magnetic,
Like a crashing boulder yet you must
withstand it all.

Your heart's telling you,
He will carry me through,
The climb of life,
Holding on to survive.

You are the reason,
People believe in
A brighter dawn,
You have reason
To believe,
You'll withstand the hurdles endured.
You're getting stronger,
Climbing through,
You are a HERO,
A hidden hero.

Trekking your way up the mountain to a
better you,
Fighting the hardships,
Knowing he will guide you through.

Leaning to a brighter future,
When all will be ok.
Challenges conquered,
The stormy clouds will evaporate.

You are the reason,
People believe in
A brighter dawn,
You have reason
To believe,
You'll withstand the hurdles
endured.

You're getting stronger,
Climbing through,
You are a HERO,
A hidden hero.

You're a Hidden hero,
No medals or awards,
Here you are,
Yes you will go far.

Everything has its destined
moment,
Battle the pain, be proud
and own it In
He plans it all, you've got
to believe

You're a hidden gem,
a hidden spark,
a hidden force,
HERO!

You are the reason,
People believe in
A brighter dawn,
You have reason to
believe,
You'll withstand the
hurdles endured .

You're getting stronger,
Climbing through,
You are a HERO,
A hidden hero.

באשערט

IT IS MEANT TO BE

The world is standing still,
Feelings of disbelief.
Losing hope and will,
Causing havoc and grief.
No one knows what to believe,
Our fate is unknown.

Confusion fills the air,
No one can describe.
Contagious fear,
Anxious to survive.
Even though we're in this together,
We feel all alone.

We must hold on to each other
Stronger we stand
We must come to realize
That G-d makes the plans
Tonight
Unite
Let's fight THIS
Outbreak, heartache
And darkness
We know
We trust
Hashem that
It is meant to be

We must hold on to each other
Stronger we stand
We must come to realize
That G-d makes the plans
Tonight, Unite, Let's fight THIS
Outbreak, heartache, And
darkness
We know, We trust Hashem that
It is meant to be

We must find the truth in every
circumstance,
Hashem runs the world
Nothing happens by chance,
I know deep within my heart
You designed this for me.

Misfortune hardship
Suffering calamity
Causing sadness
Worry & anxiety
But I know that there is a
purpose
It is meant to be!

We must hold on to each other
Stronger we stand
We must come to realize
That G-d makes the plans
Tonight
Unite
Let's fight THIS
Outbreak, heartache
And darkness
We know
We trust
Hashem that
It is meant to be

We must hold on to each other
Stronger we stand
We must come to realize
That G-d makes the plans
Tonight
Unite
Let's fight THIS
Outbreak, heartache
And darkness
We know
We trust
Hashem that
It is meant to be

It is meant to be...

תפילת אמן

ARTIST PRAYER

Brushes are arranged,
I steady my hand,
Colors of array,
The easel stands,
I've chosen this life for a meaningful display,

Please guide and navigate,
Bless the work I do,
Let all I create,
Bring honor to You,
I've chosen this life cos I know it's in my fate,

Can you hear my voice
It's Raised in song
I want to serve You
With all the gifts that I've got
You've gifted me with a lot
And I want to share it

A song comes my way,
Soothing melody,
So much I wanna say
And just set it free,
I've chosen this life, it's a higher calling's sway,

I want to reach higher
Touch and inspire
Changing the world one soul at a time
It's my mission, my duty
To share the beauty
Gifted to me and I'll pass it on...

When I step on that stage
I'm filled with purpose
To share and engage,
Lift up and surface,
I've chosen this life, it's pre-written on His
page,

I know my mission is clear
(It's) not about being "out there"
Rather touching each and every heart

So gratefully, I turn to you Hashem,

Thank you for letting me share
Beauty and wonder with flair,
And From my heart I sing,
"This is an artist's prayer"

Can you hear my voice
It's Raised in song
I want to serve you
With all the gifts that I've got
You've gifted me with a lot
And I want to share it
And I know, all that I do,
Means nothing without you.

The artist breakthrough,

Hashem clear my mind,
And pride shall subside,

Thanks for listening,
I simply gotta sing this out loud,

By serving our creator
Each each oh every one of us can sing
The artist's prayer

SING! (Feat. Esther Freeman)

Sing – take this time
Sing – feel alive
Sing – we gotta try
It just feels so right

Sing – when joy finds you
Sing – when trouble blinds
Sing – you are special
See you can shine too

Dear Friends,
We've got the music
There's no end
Take along your gift and use it

Yes, today
We have the power
to merge
Connecting in our song together

We're changing history
Singing tunes, full of glory
Time goes by so fast
Let this moment last
We're making history
Women & girls full of glory
Until we meet once more
Let our voices soar

Sing – never give up
Sing – keep your chin up
Sing – you gotta stand up
Never say enough

Sing – in the morning
Sing – when it's raining
Sing – in your own words
When your heart feels warm

Dear friends
We've got the music
There's no end
Take along your gift and use it
Today
We have the power
to merge
Connecting in song together

We're changing history
Singing tunes, full of glory
Time goes by so fast
Let this moment last
We're making history
Women & girls full of glory
Until we meet once more
Let our voices soar

Dear friends
We've got the music
There's no end
Take along your gift and use it

Tonight
We have the power
to merge
Connecting in song
together

Dear friends

REDEMPTION

Illuminating your grace
Glowing on your face
Holding your head up high
Purpose in your eyes
It's there through the storms through
the sun
Uniting us as one

Sharing our pain and fear
Wipe another tear
Hold our loved ones near

Nashim tzidkonyis
We will make it right
A further step to the light

Spreading our love
Wherever we go
Showing we care
Spreading a smile
Talking to Him
Like an only child

You are a His loving daughter, the
power lies in you
To bring the redemption with all that
you do

He's there through ups and downs
Giving you strength
You carry the wisdom and warmth
He's always there holding your hand

Let us show confidence
Women of the world
Let us spill joy and hope

Bring us to our home

WE ARE THE POWER - LIVE!

(Feat. Chaya Kogan & Shaindel Antelis)

Calling all my sisters around
Let's show the world what we're all
about
We can be the stars that are shining in
the dark
We play our own special part

Let your colors stand out and shine
This is our moment it's our time
If we let our voices blend together as one
Each new note will be our song

We have the Power
To be the spark that's lighting up the
flame
Let's make a difference
That's our mission
We can make a change

Our heart is beating
Let's start believing
That when all unite
We are the fighters
And we're forever
Sisters, you and I

Come sing along and find your key
It will fit in as harmony
We'll have each others backs throughout
the highs and lows
Each of us the star of the show

See the good in every heart
Each of us playing our part
Let's pick each other up and feel the love
within
Kulanu Chavairim

We have the Power
To be the spark that's lighting up
the flame
Let's make a difference
That's our mission
We can make a change

Our heart is beating
Let's start believing
That when all unite
We are the fighters
And we're forever
Sisters, you and I

Nothings too big or too small
So come one and come all
Let's sing it out loud
We are the warriors and
We'll see this battle to its end
Together we can
Cuz

We have the Power
To be the spark that's lighting up
the flame
Let's make a difference
That's our mission
We can make a change

Our heart is beating
Let's start believing
That when all unite
We are the fighters
And we're forever
Sisters, you and I

We have the Power
To be the spark that's
lighting up the flame
Let's make a difference
That's our mission
We can make a change

Our heart is beating
Let's start believing
That when all unite
We are the fighters
And we're forever

BEAUTIFUL

(BONUS)

Every day as I stand on the sidelines
Too afraid to let this be my time
Looking at myself unsure
Ohhh

Insecure to look at my reflection
Filled with doubt and rejection
Push aside the fear
Cuz I belong right here

I know, I am worthy
Stand proud, this is who I'm meant to be
Here I am
I am breaking free

This is your crown
Show who you are
Stand up with confidence
For who you are
You were created by the One
You are beautiful
The way you are
This is your crown
Show who you are
Stand up with confidence
For who you are
You were created by the One
You are beautiful
The way you are

Ahhh...
Looking at others you wonder
Do they feel confident and stronger
Each one a diamond
In the rough. Ohhh...

Perceive others the way you'd
want to
Be respected by those who know
you
Charm your way into
This breakthrough

I know, I am worthy
Stand proud, this is who I'm
meant to be
Here I am
I am breaking free

This is your crown
Show who you are
Stand up with confidence
For who you are
You were created by the One
You are beautiful
The way you are
This is your crown
Show who you are
Stand up with confidence
For who you are
You were created by the One
You are beautiful
The way you are

Stay strong
cuz you know
You can achieve it
You are beautiful
Just believe it

This is your crown
Show who you are
Stand up with confidence
For who you are
You were created by the
One
You are beautiful
The way you are
This is your crown
Show who you are
Stand up with confidence
For who you are
You were created by the
One

GIVE US STRENGTH

(BONUS)

I'm always in motion
Just got a promotion
To do list is under control
My family, my pride
So perfect outside
I'm filling my role

But you don't know
Behind the glow
Anxiety and despair
Is it only me
Who yearns to breathe free
Wake up from this nightmare

Hashem, please heal
And give me strength
We cry to You
Chazkeinu

I found someone who understands
You can do this
You'll pull through this
The future is in your hands
I found someone who feels my
pain
You can do this
You'll pull through this
You will rise again

Though I feel queasy
And it's not easy
I reach out for help, for guidance
I can cope
There's new hope
No more hiding in silence

I foresee
A world stigma-free
Where labels disappear
We just uplift
And see the gift
In people everywhere

Hashem, please heal
And give me strength
We cry to you
Chazkeinu

I found someone who understands
You can do this
You'll pull through this
The future is in your hands
I found someone who feels my
pain
You can do this
You'll pull through this
You will rise again

Every challenge
Is a mountain
For you to climb and build your
strength
It's not despite
Your inner fight
But because of it... that you
ascend

I feel empowered
I can do this
I'll pull through this
The future is in my hands
I feel empowered
I can do this
I'll pull through this
I will rise again

I feel empowered
I can do this
I'll pull through this
The future is in my hands
I feel empowered
I can do this
I'll pull through this
I will rise again

I feel empowered
I can do this
I'll pull through this
The future is in my hands
I feel empowered
I can do this
I'll pull through this
I will rise again
