

ALATTIA KITCHENS AND ALAMINUMS

Alattia Factory is a leading manufacturer in the design and production of kitchens and cabinets, in addition to aluminum and glass works. The factory strives to offer innovative and practical solutions that meet the needs of individuals and commercial projects, while maintaining high quality and excellence in manufacturing.

Vision

Alattia Factory aims to be a leader in the kitchen and cabinet industry, as well as aluminum and glass solutions, with a focus on meeting modern market demands and keeping pace with technological advancements in design and manufacturing.

Our Mission

To deliver comprehensive and effective solutions in the furniture, kitchens, aluminums, and interior and exterior décor. We are committed to achieving customer satisfaction through the quality of our services, innovation, and professionalism in execution.

04. Glass

05. Maintenance and repair

Kitchens

Alattia Factory specializes in designing and manufacturing modern kitchens that fulfill customer requirements in terms of aesthetics, quality, and functionality. High-quality materials such as wood, stainless steel, and aluminum are used to ensure durability and style.

Cabinets

The factory provides custom-made cabinets for homes and commercial offices in various sizes and designs, focusing on optimizing space usage and catering to individual tastes.

Aluminum

The factory manufactures windows, doors, and structures using high-quality aluminum, known for its durability and weather resistance, ensuring a longer lifespan for products.

Glass

Alattia Factory offers various glass installation services, including glass windows, doors, and custom glass facades, using reinforced glass that is resistant to external factors.

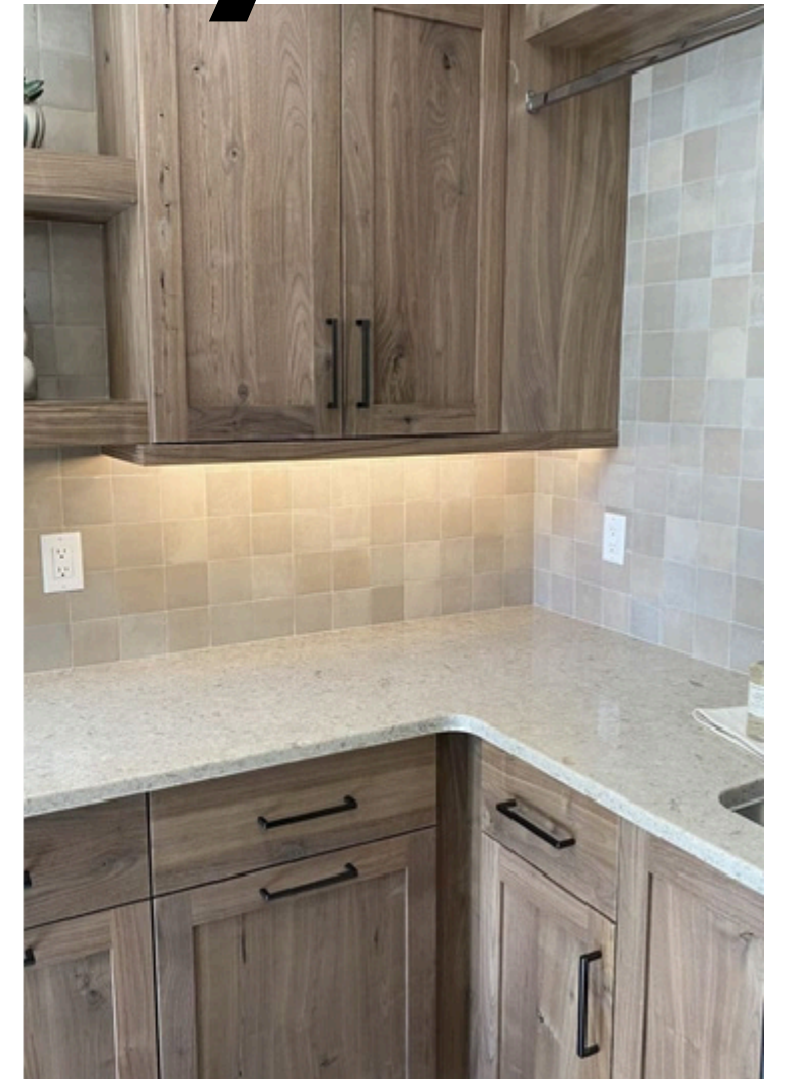

Maintenance and Repair

Offering maintenance and repair services for aluminums products to ensure their continued efficiency.
