Hi Dr Abhishek, Thank you so much for helping me to get relief from my severe stomachache because of infection, diagnose the problem root cause in proper way so that get treated properly.. yes you are growing in career and you will grow.. you are a good human being with the humbleness and for sure because of this you would be a successful Dr in near future.

Thank you so much I got relief because you had taken perfect action on time. Also I liked you had taken suggestion without any hesitation from senior doctor to ensure the prescription and medication is going perfectly or not. Be grounded like forever.

All the very best for your future endeavour

Hello everyone

I would like to thank Dr Abhishek from the Medigo Clinic in our society.

I consulted him for the viral infection to which I got relief the very next day after starting his prescribed medication.

I would recommend Dr Abhishek for any kind of health issues.

Dr. Abhishek was a game-changer for my husband's back pain. After ineffective advice from another doctor, we turned to him for a second opinion. His personalized approach stood out; he didn't just prescribe bed rest but took the time to understand the root cause of the pain. He tailored a comprehensive treatment plan, incorporating minimal medication and emphasizing lifestyle changes and targeted exercises. This holistic approach not only alleviated my husband's pain but also empowered him to manage his condition long-term. His compassionate care and genuine concern for his patients were evident throughout the process, making us feel informed and supported. Thanks to his expertise, my husband experienced significant improvement in his back pain and regained mobility and function. I highly recommend him.

My husband went to Dr. Abhishek after struggling with a high fever for several days, along with body aches and chills. Dr. Ahishek was very thorough in asking about his symptoms and performed a physical exam. He suggested it was likely a viral infection but ran a few tests to rule out other causes. DHe recommended fever-reducing medication and plenty of rest, which helped him recover quickly. His fever dropped within 24 hours, and he felt much better after a few days. I'm very satisfied with the care my husband received and would highly recommend Dr. Abhishek to anyone dealing with a fever or similar symptoms.

Thanks a lot Doctor 🙏🙏
