

Revenue Sharing Solutions

The Technical Manual

The Revenue Sharing Solutions (RSS) Action Plan is a Humanitarian's dream come true. It solves the problem of getting money into the hands of hundreds of millions of people through an internet platform. It does the work, and you enjoy the benefits of an Action Plan that keeps on working on its own.

A **Zim Holder** who joins with the RSS action plan is called a Benefactor: one who gives money away. A Beneficiary is one who receives money, and in this case, receives money from Registering with the RSS action plan as a Beneficiary.

This powerful RSS action plan is the foundation of the other 4 plans, it all starts here. The plan solves the problem of sharing your wealth with people and does so in a way that people can retain their dignity and avoid the feeling that they are on a government doll system.

The RSS platform will be housed in the Quantum Internet system and will interface with the Quantum Financial System (QFS). This makes the platform safe and secure and easy to transfer money. Being housed on the new Quantum Internet, makes it is accessible to most people worldwide. The platform has been Specifically designed for humanitarians and the type of work they are to accomplish. Given the complex problems associated with humanitarian work, the RSS platform stands tall as a real solution to many problems.

The purpose of sharing this wealth is to spread money throughout a community that can upgrade the living standards and alleviate a lot of financial stress. For years, the basic fabric in society, the Family, has suffered from the lack of adequate financial opportunities. The present financial system was created by years of mismanagement that tenders to the, “elite” privileged class that **excludes 99% of the population** from major participation. This RSS plan solves that problem and puts the funds where they are needed the most.

The RSS experience starts with the purchase of a, “Beneficiary Account,” for \$10. Once registered the platform begins to download funds into the new Beneficiary’s RSS account. When registered, that entity; whether a person, a legal non-profit, or a Trust, is called a “Beneficiary.” Through the Internet Platform, revenue is downloaded to the Shareholder’s account for their own personal use. Once the Share has begun, it continues to flow to the Beneficiary as a continuous revenue stream that lasts until there is no need for money fi that ever happens. The minimum age is 18 years of age, but a legal Trust can be registered with an RSS Beneficiary managed by a responsible parent or guardian as the Trustee for the benefit of a minor or the mentally challenged. However, an RSS Policy requires the transfer of funds to go to an Account, within the QFS, in the name of the Beneficiary account holder. Registered Trusts for a named minor beneficiary are not only acceptable, but encouraged. **A Beneficiary can establish six (6) Trusts for any reason they want.**

In addition to the Beneficiary’s Account there are other waya that use the RSS Platform for specific purposes. These additional “Shares” have their own names and are

discussed in the different Action Plans found in the other Tech Manuals. Specifically, the **Employment Contract Shares** will be used in many of the other plans.

A **Beneficiary Account** receives a download of 10 cents per minute into their account on a continuous basis, 24hours per day, 365 days per year.

- 10 cents per minute = \$6 per hour
- \$6 per 24-hour day = \$144 per day
- \$144 per day = \$1,008 per week
- \$144 per day = \$4,464 per 31-day month
- \$144 per day = \$52,560 per year

A Beneficiary may only **purchase** one **Account**. This is given at the time of registration, but you may increase your revenue by registering other individuals through the **Bonus** programs listed below.

The \$50 Thank You Bonus. To give an incentive to share with other people, the Thank You, Bonus of \$50 is given when a Beneficiary registers a new Beneficiary under his/her, User ID #. The RSS program is a private, closed organization; to register and purchase an Account, a person must be referred by an established **RSS**

Beneficiary and register using that Beneficiary's User ID. There is no other way to become a Beneficiary without that referral. There are no limitations as to the number of new Beneficiaries one may register. Keep in mind, this is a **revenue sharing** program and has no profit incentive what-so-ever for RSS. Your participation as a Benefactor is welcomed, and, yes, a Beneficiary receives a continuous minimum flow of at least \$1,008, per week.

The, “Registration Bonus” program

The Registration Bonus program is also given as an incentive to share the RSS Program with others. This Bonus increases the per minute download into the Beneficiary's RSS account, by one Penny for every two new Beneficiaries referred and registered under the User ID #. This Bonus is in addition to the \$50 Bonus but is a permanent addition to the per minute download to the Beneficiary's account. Each additional penny adds \$14.40 per day, \$100.80 per week, and \$5,241 per year. If and when you as a Beneficiary have registered 30 new Beneficiaries, it is the equivalent of adding 15 Cents to the original Share value downloading 10 Cents per minute. At a total of 25 Cents per minute download this gives \$360

per day, \$2,520 per week, \$10,800 per month, and \$131,400 per year. There are no limitations as to the number of new Beneficiaries one may refer and register.

The Generation Bonus

This Bonus is an increase of the Share download of one Penny for each 10 new Beneficiaries registered by a 1st, 2nd and 3rd generation Beneficiary that you have registered under your User ID #. Built into this Bonus is the incentive to share with larger organizations; such as a Church Congregation, or other non-profits, that have a larger number of potential new Beneficiaries. This **Generation Bonus** is in addition to the, **\$50 Thank You Bonus** and the, **Registration Bonus** program mentioned above.

The Revenue Sharing Solutions program was designed as a way to put significant funds in the hands of many, many people. The Great value to the Zim Benefactor is that the platform is automatic and needs little attention from the Benefactor. Once it is set up, the only requirement from the Benefactor is to monitor the account that pays out the funds to the Beneficiaries.

Another great value of this RSS program is found in the communities that will benefit from the infusion of funds within a community setting that affects the Family Unit. The RSS program is designed to help alleviate financial stress and thus give families a better chance to raise children to be responsible adults. RSS understands the innate desire to help others and so the internet platform was designed to give a small incentive to share with others and help them find further financial relief as well. The Bonuses will assist in accomplishing our goal of getting money into the hands of those that need more money in their lives.

We welcome your participation and hope you find joy in serving one another.
