### **The Appointment Process**

**There is no requirement to use this format from the Alliance. It is only an example LWS will use.**

### **Closing thoughts**

Once you have gone through the requests and the bullet points, there is very little for you to explain. The QFS Agent. will probably not want to read through pages of information; they will only scan to see what you are presenting. Have it available to read if he/she wants.

Be positive and respectful but expect your requests to be fulfilled. Have some questions written down about how to interface with the QFS to set up new accounts and transfer or access your funds. The QFS Agent should give you a website address where it will explain the QFS and how to use it in support of your projects, so put some extra sheets of paper in your binder to take notes. They may just give you a packet of information. Unless you have not been honest in wanting to participate in the RSS program, your requests for the higher rates should be granted.
