All right, so let's go ahead got a few of them here. Let's go ahead and start with Cynthia. Cynthia, I'm going to unmute you. If you'd like to come in. Mrs. Mouse, I will come to you next. Cynthia, if you want to tap your mic

S Speaker 00:18

yesterday listening to Q, I like many were left with some questions. And I think the one that was most immediate because it affects our 3d world, was that when asked if there was going to be an EBS, correct me if I heard wrong, but I got the impression from Houston, that there wasn't going to be one. And I like some others have come to believe that the EBS would be followed by truth, which so many people desperately need. So in these divided, heated time, how do you know how the truth is going to get out to kind of turn the boiling down the boiling pot?

R Ron Giles 01:11

Well, that's a good question. I think, Tracee, he doesn't know what the EBS stands for. And, and Tracee gave him the wrong word for the E and I forgot what it was, but it's the Emergency Broadcast System. And when he doesn't know that, and he got the wrong little, I don't know, if he really understood it, whatever. But the Emergency Broadcast System is designed to take over the news. Is that the right word to say? What's going on? And there will be the broadcast from for specific information. And that specific information, I think that there will be a lot of disclosure, excuse me, disclosure of what's been going on. So I would not overly concern myself with the EBS. I don't know, when it's gonna come. And the EBS will be if it's needed, it will happen if there's things and circumstances that take place that would preempt that as in actual events that are taking place. And you kind of look at that, and you can see what's going on. But I don't I don't. You know, I'm looking forward to the EBS, personally, because I think that there's a lot of things that can come out in that that will make a major difference. I do not believe that the EBS will create a lot of peace and harmony. There could be people rioting in the streets as a result of it. Because they don't want the truth. They don't want the truth to be

known to those who are still sleeping. And those are the kinds of people who will have some really tough times not only Well, two reasons, because they believe certain ways that they have been taught by the liberals. And they don't really understand what the Liberals are trying to do with their socialism and communism, a combination of what they're trying to do here in America. They don't believe that. So there's going to be a lot of problems with those kinds of people as they learn the news and may take two or three days to settle down. I do. Yeah, let it happen. Well, it happens. And then I'm not. I'm not too overly concerned, personally. All right.

S

Speaker 04:06

Thank you, Ron.

R

Ron Giles 04:08

You're certainly welcome on there.

D

Dominick 04:11

And, Ron, if I could just comment to put myself in a position to understand the fact that that we really don't necessarily need an EBS to reveal the truth. I think the fact that we all can agree here that eventually the truth is going to come out. And whether we need some type of broadcast system to do it to get it started or if it just starts to trickle I've actually heard that it's kind of going on as we speak right now, in an effort to try to start to get people to understand information is just being released and that's acting as this emergency system and, and so I just come to the to the conclusion that I would rather just wait to hear the truth, then worry about anything else. And so that's how I'm approaching it anyways.

R

Ron Giles 04:58

Well, and there's And I think that's accurate. The idea of what's in there is not known yet. So how can we really have an opinion about it? But I think that there are things that are being shown now that are, you know, some people are saying the quantum financial system is already up and running and that sort of thing. And but if you were to have a quantum, if you were to have an ABS and talks about the quantum financial system, those people who Well, I'll say it this way, there are those who have their ideas about the qf hours. And if the truth was being told by them by the EBS, wonder what's going to happen to those kinds of people, because a lot of the deception, a lot of the Cabal, garbage has been preached out about the quantum financial system and the new way things are gonna happen. And they're saying that the quantum financial system is up and running? Well, it is not. And I can give you three or four different reasons why you can see or how you can see that it is not operating yet. There's some people say, Well, there have been people who've received money. Well, the money is a gold backed currency from the quantum financial system, I don't know. And if they did know, they did receive the money from the quantum financial system, then I could be wrong. And I don't mind being wrong, if it's something that's good. We'll see. There's a lot of funds that have been confiscated by those who have been involved in the child trafficking. And then in the treasonous activities, that those those people who have had their funds confiscated out of the

banks, and the quantum consciousness has complete control of the banking system. Control, then has complete knowledge of what's going on and how money has been transferred around. So these people who think they're getting away with stuff, even though the banks are doing this, that and the other, they're going to be a sad situation, because of quantum financials, the quantum consciousness has assigned a digital footprint for every Fiat dollar in every account in every bank in the world. So there's no way to get around, if they start stealing money, that's to sting operation. And then that sting operation, if somebody steals money, there's two things that can happen. Number one, they know where the money came from, who took it where it is now. And eventually, you'll get it back. However, it could be that the quantum financial system, quantum consciousness, will return the money immediately back into the account, you wouldn't even know that it had been stolen. So there's a lot of things at play here that we really don't know. So I appreciate what you're saying that the NBS, we're learning stuff and making judgments from the stuff that we learned. And we're at war. So the stuff that's out there, very little of it is really true. And then you throw in the Cabal and the carbon, the garbage that they're doing, where where is it out there? What is it out there? Who is it that you want to listen to? All of those things are just being thrown up in the air, your heart is the only way to determine it. If you get information from somebody, put it through your heart. And now we're learning how we can use commands. Put the thoughts of my my mind, I command that Prime Creator put the thoughts of my mind into my heart. What is that going to do? You're going to start thinking from your heart. And so you're going to have a way to get around all of this that we've never had available to us. Ladies and gentlemen, brothers and sisters, whatever you want to call us. We have a way now where we don't have to listen to other people and not know if it's true or not. So the heart is the only thing and I've just loved when cu said that the heart knows everything. The heart is connected to the quantum consciousness of all information. So if you don't want to use your heart that don't if you want to continue to use your mind and trying to make up things from things in third dimension, and go ahead, you know, and I say good luck to you, too, depending on what you're trying to accomplish. Well, it's not an hour, never. Your heart will help you now. And if you don't want to turn or if you don't want to then go your way, and but it will happen for you, because that's going to happen to every person in the world. So let's be aware of the ways that we can know the truth. Now, one of the things, okay, let's go to the next question, and we'll talk about this other stuff.

D Dominick 10:41

Okay, sounds great. We have one more. Aaron, I'm going to bring you in, if you would like to ask a quick question.

S Speaker 10:49

Hi, thanks, Dom. Hi, Ron, how are you?

R Ron Giles 10:53

I'm really doing good. Thank you. Good.

S Speaker 10:57

I just wanted to comment on what you guys were talking about to be from the UK Ireland perspective for the lady that was just speaking about the EBS. For many months, we've had massive disclosure on mainstream media, everything from the partying that took place in number 10. And it's been really grotesque in your face. And it's did go on for many months letting people know, what the politicians were actually doing. While people's family members were being, you know, locked up and dying, and so forth. And I think that it brought to mind the quote of truth goes through three stages. First, it's ridiculed, then it's violently opposed. And then it's finally accepted. And recently, I mean, my life, in this last five to six weeks, every day, people around it's constant, heart attacks, strokes. It's terrible. And it's every day, and it's everywhere. So I believe that we're in this very sad and deep process of acceptance, where people are slowly coming to terms with the truth of things. And that's just from Ireland. UK perspective. So I wanted to share that. Thank you.

R

Ron Giles 12:36

Thank you. Appreciate that. It's interesting to hear what you had to say, too. Thank you for sharing.

D

Dominick 12:43

Aaron. Thank you so much, Ron. That's all the questions we have right now. And we can go ahead and get started for today. And before I turn the floor over to you, Ron, we're going to kind of go through the bullet points after Ron has had a chance to talk with everyone with his perspective here. And we'll walk through the questions slowly for Iran so you can get an understanding of them and the bullets. And then after a certain amount of sections of the bullets we go through, we'll open up for some questions, and then we'll kind of take it from there.

R

Ron Giles 13:19

Okay, with you shaved down. Thank ya. Sounds really good.

D

Dominick 13:23

Okay. Oh, so over to you.

R

Ron Giles 13:25

There are a few comments that I'd like to make about our guests from yesterday and the q&a. I've had people tell me things about this queue that are uncomplimentary because of certain things that they have preconceived in their mind and because he doesn't fit into their way of thinking about high level people. High level highly spiritualized people like like, like Q is okay, first of all, there is an assumption that they don't need money in, in third dimension. Now, would you say that Jesus is a real good advantage is a good example of a highly evolved

spiritual being. And yet, they had money. Judas was the one that was in charge of it. And they would use that money for the for righteous purposes, but there would be people who would donate to them. So even those kinds of people who came with a tremendous responsibility for the crucifixion and the resurrection, used money and somebody who says to me, well, they shouldn't be doing this or just monetizing their spiritual things. I say, Yeah, that's a good way to look at things in a critical sort of way, if that's what you want to do. And less, there's other things that override any of that kind of stuff. And for me, it was not quite immediate. But when I first heard coos voice, it resonated with me from somewhere I was in a previous existence that I had, that I knew who he was. And I had my own personal, profound love intervention, if you want to call it that download of love. For me familiarity, where I felt like I was with with my dearest friend. Then when he started talking and doing things, and I've had my personal associations with him, or on the calls, and so forth. There's a behavior pattern that I have recognized from my connections to the alliance, highly spiritualized, highly developed, human, or human, Ascended Master, whatever you want to call it. So I go to them. And I say something like, Well, can you tell me if 107 is a is for the light or for the dark? Alley? He says, Well, what do you think? And so I have to give him my ideas of what it is. And, and if it's true, then if my thoughts are true, as I explained them, then he says, Well, I like your thinking. And that's my confirmation. If it's not true, he says, Well, you might want to consider some other things. So go back and think it through and come on back. And let's, let's talk about some more. So I get a chance to look at things a little differently. And so if I have a quick judgment that's come from my third dimension experiences. And there's nothing wrong with third dimension experiences, unless you're using it to stop things from really happening in your life. But if you are, if you're not trying to stop things spiritually happening, then you'll go to your heart, it'll tell you what's going on. Q is in third dimension. When you don't live here all the time. And you have a language like English, that is designed to make you a liar, for all kinds in all kinds of sorts of ways. Then, what does he do? This is the length, he knows all the languages, but he can't use English with us, as well as he can with other languages to explain certain things that are happening. And because of that, some people judge him for that. And so you know, what a singular mean. He says that all the time singular. And what's the opposite of said as a group, there can be all kinds of groups. The oneness is a group. individuation or singularity of one proton of light. We come into third dimension because that one proton of light doesn't know itself has light. And the till it goes into the darkness as he says it's still shining. Then he has by experience found out that he is part of the light and in a singularity sort of way. That's what we are doing here in third dimension. We are individuated spiritual beings, coming from the oneness, and separating from that oneness, so that we can be born into the third dimension, which is duality domain, the left the right the up the down there in and out. The Good, the Bad, the Ugly, whatever you want to call it, there's always an opposite That's the way we have been taught to believe. And then that believing process, which is what we have been conditioned to, it's been designed by the Cabal, so that we will never know who we are as sons and daughters of God. They even put Jesus on the level of deity, why did they do that? So that we would worship to Him? If you get a chance to talk to Jesus, ask Him, do you appreciate people worshipping you? He says, it makes me feel uncomfortable. I'm their older brother, I'm the one that loves them. Why would they worship Me? Anything I have done, so can you do. But religion has put people between us and God, there's always a reverend, there's always a priest, there's always somebody in each religion that stands between you and God. Why? Because they don't want you to know who you are, because they cannot control those who know that they are a part of God. And in reality, little gods growing up to be creator, gods like our father. When you come into that knowledge, nobody can stop you. And when you get all of your things of God bless us, like your DNA, and all of the other stuff that came with us, that has been shut down so that we would never be able to do what we are capable of doing. So when they turned off our DNA, we have 12 strands, they shut off 10 of them, giving us 1/6 of what we have. So that's

why we have not progressed in our life's experience. Were we to have had all of that with us. There isn't a star nation out there that would outdo us. We have been dumbed down and restricted so that they can control us. We're still humans, which, excuse me, we're still creators. And they use the creation energy of humans to dish to use for weapons of war at that were used to destroy people. The dark side cannot create, they can only Monday manipulate. And so we're in a different set of circumstances. But we don't know about that. The dark side does. certain individuals are out there now that are just dark side and they're liars. And they're, and whatever. Well, that's, that's what Darkside people do. They don't create. They claim that they're this that the other. They don't create anything, they don't have anything other than what they've stolen. So the dark is among us. And that's where we can see these people are extremely, extremely intelligent. And they have a lot of knowledge about the stuff up there in the heavens. And they can write up things and make it sound like they just an angel. How do we know that's not true? It comes from your heart. The heart is here to protect us. So when Q doesn't have money, somebody says we're taking have all the money he wants. He's a creator, but his purpose is not here for that. His here is to help us to ascend. And they have food that they eat, places where they live and so on so forth. So they are in need of form of exchange in third dimension if you don't like it well try and do it or go around to yourself without too many. You're asked Seen him to do the same thing to do that you wouldn't do? No, we've got to quit this judgment, garbage, learn to go into our heart and find out from our heart what is true and what is not. And when he said, Go and look in the mirror, ask the questions. You're looking at yourself, and you cannot lie. Why can you not like you can, you can lie. But you'll know it's a lie. Because you can't look at yourself and tell yourself a lie. When yourself knows everything. And knows that it's a lie that you're telling. That's why you can't tell the lie. And have it stick. Go in there lie all you want, but you know that you're lying? You know it, because it's telling you that that's a lie. And you're thinking in your mind, oh, well, I'm gonna lie. So what is that first thought going to do? It's telling everything about you, to you. You cannot lie to yourself. Because you know that it's a lie, just to conception of a lie. So you go into the mirror and you start talking to yourself, you're starting to talk to your essence of who you really are. And your heart is a one that will help you to understand what's going on. Now, those who don't like Q, it's okay. You don't he's not here to be a popular person. He's here for us to help us to, for us to help us to ascend. That's his job. The fact that he's joined with level one society means something a lot bigger than we had thought about. I've been trying to teach, teach, I've been trying to share a higher vision of love won society. Cube knows all about it. He knows that this is one of the greatest things that the earth has ever had. SKR are the greatest thing that that produces an abundance of money, ready to be distributed to all of the earth is my Lilianne is 3 million zeros. You get 180 of those you're not going to have you can't spend that on all your projects, is going to sit around and sit around and sit around until you come up with a new thing. And so you've come up with something else. And maybe the Alliance comes along says would you like to participate in this project? We're going to build some antigravity machines, we're going to build some metal replicators, some advanced technology. And if you don't have the money to do that, then you'll have to say no, I'm sorry, I can't do it. And so of course, they'll know who you are anyway, so they won't even go have you go through that pain and say no. Because they're not going to ask you. And if you're not prepared, you won't even get an appointment. We're trying to stretch everybody, I'm trying to stretch you from a belief system that is full of lack, and has no abundance in it. You're just surviving, you're just above the death throes. And a old age will catch up with you and you now you can go ahead and pass away. It's not supposed to be that way. We're getting stretched to the point where we really understand who we are as children of God. We have a calling from God to be a humanitarian. How many really believe that that's true? How many of us here really, really believe it's true? You know, there's, there's this there's, our minds will have a will these these things are true. Our core values. These things are true. But we got some stuff over here to look like to but I don't know if

it is. And then we go over and further and further onto the other side of the pendulum where there's things that we somewhere in between the good and the bad. We figure out what is bad is your core values. Knowing that you're humanitarian, and have a calling from God to receive the funds that are necessary to be a part of what love won society is going to do, if you don't get the funds, you won't be part of it. There's only so many that are called of God to get the funds in the beginning. It's not a value judgments, it's something that we came here to do. Or we starseeds. When we're up there in the heavens, do we all gather together, because we're Starseeds and say, This is what we're going to do, we're going to go down and create the golden age of mankind, we're going to need some equipment to do that. Let's create this idea of a love won society, a structure that we can use when we're there. Now God's going to give us the funds, we just need to have some structure of third dimensional structure that we can use to get the job done. We're going to have to find it on our own or they're going to share it with us some way the Spirit will like lead us and direct us to those funds, because that is our calling from God. And we as love won society are joining with other people in a collaborative way. Because there are humanitarians in there that have tremendous projects that need to be funded, and they don't know how to fund themselves. So they're coming over here to us love won society, we're teaching them the Alliance way to redeem their gym bonds. And there's no lies about it. We're not special, we just had a different calling. We prepared ourselves for this. And if we're not part of love won society, in the preparations on the other side, then there's going to be a real hard time for those people to become part of love won society. That's just the way it's going to be. Do they need to be? No, they don't. They can fulfill their colleagues as humanitarians, without by getting involved with us who have the money. And then they get to come from their hearts and do all kinds of things. It all works out for the best for everything. There is a plan. And in that plan, all things shall be given to us to accomplish what we're trying to do. So if you're worried about money, maybe you're not part of those who are going to get it. Those of us who know that we have that Callie, it already rings true into us. We know that we're going to get the font. Now we've just got to work on getting it how to we're going to get it out there. And we do that by learning love won society's programs, not just learning it. One of the greatest experience I had was when I stepped into a t 38 a supersonic jet and I went out on a solo time and practice and did some things. I felt the wind blowing across the weeks I didn't have to move. In my mind. I didn't have to move to get it to do the things I wanted it to do. It just was natural. I became one with that aircraft. There wasn't anything that I didn't know about flying and about that aircraft. And because there was everything that I knew I became one with that aircraft. It was the most exhilarating experience that I have ever had. Love won society is the vehicle it's the airplane. And when you get into the training aspect of what we're doing this because you need to know each one of those things in order to become one with love won society and function in a way that you want it to function. When you are on the other side. It's just a step by step process. And we're doing it. The the alliance has said that the training that we have prepared is it's not a matter of perfect or not every individual will have their different aspects that things that they want to do within the humanitarian process. But they all need to know how to fly the airplane. The training is there for everybody to do on a personal basis for their participation is as a humanitarian, oh, what else did they give us? Oh, oh, yeah, they gave us somebody from the other side of the veil? Who will come through? br friend? How do I know? That's true? I've been told that. How do I know? I've already had once assigned to me, I already know some of our people have already got Archangels who are assigned to them as counselors. Is this really true? Or am I just making it up? Well, I know it's true, I'm not making it up. If I didn't know the things that I know, then it could be a little bit harder to believe it. But I do know that you're going to have each each one of us will have a counselor, it may be Ascended Master, it may be resurrected, the individual who is resurrected in our families, from our families could be a relative, whoever it is, it will be extremely personal to you. I know that to be true. Been there, done that and felt it. So looking at Q is there to assist us. He's available. If

you've got an extra \$100, it'd be a good idea to put it down and go and talk to him. And he'll know who you are. So I highly recommend it. The way that I deal with my ascendant my people on the in the Alliance. They treat me the same way that Q does it come from the same place. Did you hear him say anything bad about somebody yesterday? Some people that might have been questionable? No, it just doesn't go there won't go there. If you do it on a personal basis, what do you think? And then you get a chance to talk about it. We'll go with that one. That's, that's good thinking. So there's familiarity for me. I hope that's helpful for everybody else. As far as Q is concerned. Do I have any questions in my mind that he is who he is? No, there is not. I've been with him before in other lives. I know who he is. And he's come to help us with something that's very near and dear to our hearts. And that's the bringing about the golden age of mankind, and serving our fellow human beings as well as the animals in the earth and everything else that we can affect. So with that, I'll say I took longer than I wanted to. But that's sometimes I do that. Thank you for letting me go. I'm now ready to go ahead with this other stuff.

D

Dominick 39:12

Okay. And I just want to say I so much appreciate you taking the time for this. I think everybody heard you and hopefully takes that to their, to their hearts individually. Because it's got to resonate with you with each of us individually, so you can take as much time as you need to run. Certainly appreciate it.

R

Ron Giles 39:31

Thank you for the freedom to do that. I appreciate that. Thank you.

D

Dominick 39:35

Okay. Okay, so we're gonna switch gears everyone. We're gonna go ahead and get started. Our topic again is the finishing up of discussion in the Alliance plan, and we'll feel some questions and then if there's time and we want to start the discussion of the NRA pls Ron will do so. And like I said, I'll cover this first set of bullets, and then I'll let Kerry take over from the They're, and we'll kind of take it slow so that you have an opportunity to give us an answer based on the

R

Ron Giles 40:05

bullet at a time. And we'll we'll, we'll get through it. Sounds great.

D

Dominick 40:10

Sounds great. Okay, so again, the discussion of the Alliance plan, this particular section of bullets has to do with managing director and the action steps that they need to follow. So the first set of bullets talks about an appointment with the agent counselor at redemption, and or the Alliance to in order to be funded as a humanitarian first section is asking for the higher rates. And Ron, what I'll do is I'll just give you like two sections at a time. So you can think

about okay, ask for the higher rates of Sim as a part of our responsibility as managing directors, and then the NDA. Will there be an NDA held? How will it work? And are we allowed to exclude people off of the NDA? So let's just start there.

R

Ron Giles 40:57

Okay, the higher rates, if I say \$500,000, and you cringe at that, that's okay. We don't have familiarity with \$500,000, do we? I don't. And so if I asked for, there's a 100. T note \$100 trillion note. And I'm asking for \$500,000 per zoom. That is a phenomenal amount of money that I have never had any ideas about. So naturally, it's going to be a problem. For my mind to accept \$500,000. I was I was lucky because I started out and even long time ago went through all this. Well, \$2,000 in Oh, now it's up to four, no, it's up to eight. And then it kept rising and rising, not doubling the sort of thing each time, but eventually got up to \$80,000 and camped there for quite a while. My mind was keeping track of all this. Wow, wonder how high it's gonna go. Then it went up to 125,000. And then Joseph, whoever you if you could remember him, he said, you can get any amount you want, even up to \$500,000. If that's what you think is appropriate. Now, going from 125 to 500,000, was quite a big step. So I took my mind, I said, Well, I've got a 480. You know, had others I said, Well, I'm going to 500 they'll accept that. That's Mac. And so and then it started going up from there. And so I went up to 500. And then Mooji, I got into the millions. So what is this doing? To my mind? What is my heart doing? To my mind? My mind is not does not understand those numbers. But I just said they're just zeros. No big deal. They're just zeros. The more zeros you have, the more you get a chance to, to do humanitarian work. So let's just get the higher rates. And that just seems so easy. Then I went up to a million. Then I went up to 2 million twos good maybes fives better. All this time I'm asking the Alliance. Is there enough funds in the quantum financial system, enough gold in a quantum financial system as a system to accommodate me and a whole bunch of people getting these higher rate. And I've said before, hear that laugh. They have all the money that is needed to take care of us. Even if we go up into the yodel Lillian's which is the highest that I've seen as far as Zimbabwe's bonds and and ask for those or get them and ask for the high rates for them. And they're right there. So there's there's no problem but asking for the higher rates. St. Germain said if you go into your appointment and you do not fear asking for the higher rates because they will not laugh at you, and they will not shut you down. Or whatever he said, and I'm just paraphrasing. So St. Germain knows about it. Now we know about it. So we got to function from our heart, the heart will put us in the right place. Now as we get the SKR'S and we get 180 million then We're going to have a lot more money than we need for our projects. Because we don't know really what's coming. So I have always said, and I will always say, since we did the SKR, I am saying, counsel with the agent at the redemption appointment, and determine how much money is to be put into the structured payout program that's going to be giving you your money for 100 years. Let's find out what that is. Because there's no reason to put more in there than you need. And the counselor will help you with that. Because you're going to be putting a hell of a lot of money in the into structured payout that you won't need to be there for 100 years, because you're never going to use up what you've got. So let's put that extra amount in a savings account. So your income, your budget, is the is the structured payout program money that's coming to you the extra money, it goes over there into a savings account? What is your savings account for it, it's your money. It's for whatever you want to do with it. You're the humanitarian, that the alliance comes along, says would you like to participate in that? And you're just checking it all? Now? I can do that. Yes, I'd like to participate in that would you want me to do? Well, then that starts your project. So those are the kinds of things that we're looking for that that higher rate with those higher rates? What was the second?

D

Dominick 46:43

Yeah, no problem wrong. The second part had to do with the NDA. First off, do you believe? Yeah, do you believe there will be an NDA? And if so, how will it work? And are we allowed to exclude individuals, we would like to talk from the NDA,

R

Ron Giles 46:57

you know, I've danced around this NDA for a long time, I see the need for it. And I see restrictions that I would pull on it, if I were the one in charge. There's nothing about an accountant that needs to know your full amount of money that you have. If you're using that accountant, for a wealth management type of person, then you've got some problems. There's no need to be telling people how much you have, there is no need to tell how to tell people where you got your money. You're going to be talking with people in your pre existence before the redemption or the redemption appointment. And then you're going to be talking about these things. And then all of a sudden, you can't talk to them about it with an NDA. So I say the end, let's let's put our judgment towards the NDA until we get it. Now, here's it may be for it's only 90 days, I've heard that I've, I don't inquire about those things, because I'm not that concerned about it. But if there was something like that, I couldn't say things for 90 days. What are they trying to tell you keep your damn mouth shut about the money. That's what the NDA is saying. And you're going to learn some behavior patterns, you're going to learn the best way that you can, to not tell people that the money is yours. I work for a nonprofit organization. And they have a lot of money. And they've hired me to take care of some of that to do some of that. Because I'm a humanitarian. It's such a simple thing to say. But if you don't have the, in your mind to say it before that comes about, you're going to be confused. You're gonna get it I can't talk about that. Talk about stuff you can talk about. The NDA is there to protect you from you blabbing off and became becoming a target. Now this is in the transition because there's no target. It's no people. There's there's nobody making a target on other people. When we get safeties to have our money and have our humanitarian activity, start with the with the redemption appointments. So there's things that are going to have to happen before we get our money so that we don't have to worry about it. Do you think they're waiting for that? Do you think that's part of it? Yeah, it is. They got to clean up the whatever. Clean up the neighborhoods clean up your neighbor If your neighbor's tempted do that, then that person has to be gone from the earth, because they're not going to be allowed to do that, if it's in their heart to do that kind of stuff, their heart will tell on them, and they are taken away, he shall be the brother in law made, you know, you have peace in the Indian guys channel, there's a good possibility he's not going to be around, you're gonna miss him. As your wife gonna miss her, your sister gonna miss him. Those are the things that we just have to allow the heavens to take, take place. Because we don't have the ideas that we don't really know and understand who they are, and what they're accomplishing or whatever they're here for. Some are just here for a third dimension experience. And if they're not finished with having those kinds of experiences, they get to go to another place, it's a very loving situation. Might be sad to see some people go. It'll be sad for those who have tender hearts. But we have to allow the heavens to do what they're going to do. Now, the NDA, I don't concern myself with it, because I figured out what I need to say. I just work for a nonprofit organization that's allowing me to become a part of them. And they have a lot of money, and they've given me a responsibility. And you know, there's certain stuff, it's not free. I have to I can't just let everybody have the money, I have to go inquire I have a certain amount that's mine. And I can, I'm in charge of that. But then there's more money, and I have to go ask them for. So if you say things like that,

nobody's gonna say, Well, who do you Well, they'll say, Who do you work for? I am under an NDA. You're not going to know for me who these these people are. So don't even ask again. Because you'll get the same answer. I'm under an NDA. And I can't tell you. Now, hope you don't have to do that to your wife and whatever. It may happen that way. Can you take somebody to the meeting? I don't know. Ask your counselor. When you make your appointment, ask if you can take somebody with you. If I had my way, I'd say no, you can't bring anybody with you. Why would you want somebody? Well, we're going to do things that will get the money on your own. You own the money. It's your stewardship responsibility. They get their own money, their own stewardship responsibility. And now you can join forces if that's what you'd like to do, but nobody's in charge of that money. But you and the you get that extra counselor. If your wife goes in if your husband goes in, and as long as Oh, okay, that's where I go with NDAs. Okay. Don't take any more than you need. But that's another discussion. Okay.

D

Dominick 53:27

Okay. Wonderful, Ron. Thank you. Okay, so next two topics we'll cover in this section has to do with the referral letters to present to LWS. And then proof of funds copies. If you'd like to talk with on each of those, that'd be great.

R

Ron Giles 53:43

It was the proof of funds concept was? Well, I'll do that first and remind me what it was before the freshmen. The proof of funds are just basically what I thought was necessary if I want to go buy a \$12 million home. This, the agent says Do you have a proof of funds? I can't show you the house unless you can give me a proof of funds that you have enough money to pay for this house or at least you have income. And so that requires that proof of funds and that's what I put it in there. However, who's going to be the one that you get the proof of funds from? So I do I need 10 of those. Now if I have my counselor there, I could go back and get one specifically for the thing that I want to buy. You might want to buy a cruise ship. That's bigger funds than most everybody else who wants. So you specifically asked for your counselor for this as a proof of funds. I'm going to buy this house and I'd like you to give me a proof of funds letter that I have sufficient income More amounts to take care of this. There's the proof of funds Other than that, I had it in there. But I don't, I don't think that that's going to be as important now, because before, I thought that you just have one time with the count with a person who is going to do or the redemption appointment and never meet again. But now we know we have a counselor there. So we can go back and there is somebody that we can actually get proof of funds letters from, so you don't need 10 in this account, and then 10 from that account over there, and so on. So, proof of funds is now not so important. Because we have a counselor, we came to get that font from anytime we need to.

D

Dominick 55:49

Okay, great. So the first the other had to do with referral letters that will present to you.

R

Ron Giles 55:55

Yeah, okay, good. Love won society. As a group, we have these platforms that we're creating

Yeah, okay, good. Love won society. As a group, we have these platforms that we're creating. And we would like to share them with other people. So you become a managing director, with a master ID number and a master account. Now, if you go into that position, so you don't have sufficient funds, how long are you going to last? Your RSS account can go into the billions? Very, very, very quickly. Do you have enough funds? Do I believe you and you say I have enough funds, blank go into my heart, this all that sort of stuff. But what I'm trying to say is that the vehicle to do that, so that love won society has an organization does not get the responsibility of the liabilities that a managing director has done, and they ran out of money. Love won society has to take that over and pay that. And so I'm saying, I want to know in the beginning, and I don't want somebody tells me, well, I've got I got I'm getting five quintillion a month or a quarter, and so on and so forth. I don't want to have to believe that from somebody because that's something that can you can tell a lie. So I've said, we want a letter from the counselor, the individual, the Alliance agent, who is giving you the redemption appointment, and giving you the redemption funds. Now in the appointment, you're going to be vetted as a humanitarian, and I'll say it now, I hadn't said much before. If you don't get an alliance or a call or contact with the Alliance, about you getting a hen appointment, you may not be contacted. Where does how does the vetting process start doesn't start at the appointment. It doesn't start there. They don't want you to have to come in and say, Hey, we're sorry, you are not a humanitarian vet, we cannot vet you as a humanitarian, so you won't be getting any finance. And so what I'm saying is the alliance is in charge of what you need to have to come to love won society, we're doing that with a referral letter, indicating that you have the funds, and you are a vetted humanitarian. I'm not the judge of those things. I don't want to be the judge. So I put it on the Alliance responsibility to tell me who is qualified to become a managing director in the RSS program. And the managing director of the RSS program, they can do whatever they want to do with the other five, the other four is all what they would like to accomplish their humanitarian activities. So there it is simple, and that's where it's going to be. If you don't have if they didn't give you the redemption appointment, there is a good chance that you are not a valid humanitarian, but I'm not going to be the one to be judging there. When you have one then that's when we start signing contracts becoming zoom or managing directors, Zoom benefactors, whatever. Okay, let's go okay.

D

Dominick 59:57

Okay, so there's one more piece to this section. And so I'll just put out for now that if anybody wants to start to think about questions just in this section to start raising your hands, and then we'll go ahead and start questions. So the last section, Ron is to just get your take on having a revocable trust, and copies of those. So what is your thoughts behind the trusts?

R

Ron Giles 1:00:22

My, my real thoughts are, why do you need a trust? This is not for the Trust for the beneficiary program. So I'm talking about the trust that you would say that, to put your name on to have an account in the quantum financial system, is there a need for that those kinds of needs that a trust will supply are simply just simply just simply going away. Your say your funds are safe, there's nobody can take it from you. There's nothing that you can go out and doing your normal life where you can get sued, and then them trying to find your account, all that sort of stuff is going to go away. So the idea that you need a trust, may or may not be important. Now I say a revocable trust simply because at the appointment, if you have not, if you would like a trust, and you haven't made one and paid \$250, to get one, that's not going to be as good as the

simple ones that we've got, the alliance is going to do that. They'll help us with the right trust. And it will be there at your appointment if you want to do it. And it will just be a fill in the blank I like this a person be the trustee and somebody to be the trust or and, and this is a beneficiary, and you need a name. And other than that what you really need for a trust, a little bit of stuff to say what you can do as a trustee. But you're the humanitarian, who's going to hold you to a document that's called a trust in terms of what you're going to be doing for mankind. I don't really see the need for trust. But if you do, those will be a revocable trust that you can have when you go to the appointment, fill in the blank. And you know if you want to do that, and have a name for your trust, and go from there.

D Dominick 1:02:35

Okay, Ron, that's great. Thank you so much. So I'm gonna go ahead and turn it over to Carrie. She's going to open up for some questions on the section, and then she'll kind of handle it from there.

R Ron Giles 1:02:46

Sounds great. Hi, Carrie.

C Carrie 1:02:49

I won. So nice to connect with you today and have you here. So we have a number of hands up, we're gonna go to Irod. Irod your mic is open.

S Speaker 1:02:59

I'm sorry to do this. But Ron, you have touched me because what you said about the mirror, I'm going to let everyone know my name is Ismail Vegas. I was Iraq. I've been teaching martial arts for over 40 years. And I teach my students that we are a lotus petal of beautiful flowers that grow in dirty water. So we have to go above all that dirt around us. And the mirror pod that I use all the time in the last 40 years that you should look in the mirror and ask yourself who you are. And what kind of person you are. Are you a good person? Are you honest person? Are you a deceitful, you have to look at yourself and find out who is what is your purpose in life. So I don't want to apologize for my emotion. But

 1:03:51

I've been doing that for 40 years and you brought that up about mirror. I never heard anybody say that before. So you touched him very much, Ryan.

S Speaker 1:04:01

I'm not going to apologize to you. I've apologized for my emotions. But that's what I was talking

about to my students for the last 40 years about being a good person and being a lotus petal, you're beautiful amongst all the dirt around you and look in the mirror and ask yourself what is your purpose? And who are you? Again, I'm sorry to change the subject from the questions I'm supposed to be answering or asking my policies wrong. Thank you so much for touching my heart again.

R

Ron Giles 1:04:28

You're certainly welcome Irod, thank you for your comments are very appropriate. Next question.

C

Carrie 1:04:37

Let's go to Mark. Mark. Your mic is open. Mark Janek.

S

Speaker 1:04:42

Okay, thank you very much. I first like to thank you, Ron, for your comments about the Q and A session. Thank you very much for that. I'd like to ask the question about the calling cards, what do you put online? referred by the put your name, Ron Giles or you can put LWS, for instance?

R

Ron Giles 1:05:15

Well, that I'm not sure what you're referring to as far as corn cards. And I've heard that possibility of doing something that is not sponsored and part of the quantum financial system. So there's a lot of information out there that people are starting to pass around about cards and coins, you know, this 1 billion coins and all of that sort of stuff. It's all a fraudulent activity, in my opinion. I have not checked it out. But well, if you're trying to do that we're trying to do the quantum financial system, which I am I going to choose is the one that I will go with. And the other is proximate because it's not designed by the Alliance or creator god for us to have as a financial system. So I'm not sure exactly how they help you with that. Mike, my question would be, what is it for? And if buying those and I was suggesting

S

Speaker 1:06:27

about calling cards that also called referring cards or the business cards, or?

R

Ron Giles 1:06:34

Okay, oh, I'm sorry. Yeah, I messed up on that.

S

Speaker 1:06:42

I wasn't too precise. Sorry about that.

R

Ron Giles 1:06:45

Yes. Okay. If you're doing some calling cards, there's some samples on the website that you can use, but if you're making your own, I would use your name that you have signed up on love won society for as a beneficiary. Yes, and then start sharing those cards. And the most important that the things that are most important are number one, that you're giving them a card that has the website, the RSS platform website, so that they can go and do their own looking, and then that you have your name on there, and that you have, and let them know that you have to be referred. And this is by somebody and I am the one that is referring you, you just need to use my and I'm you're referred by and so on. And that will help them to register. All right,

S

Speaker 1:07:44

if I want to keep my anonymity so I don't want to disclose my name, my use, say the name of my organization

R

Ron Giles 1:08:01

I see what you're saying. The most important part is your your number, your ID number as as a referring person what name you put on that is not as important because it's going to go with the identification of the of you as a person and and what am I I don't want to stick my neck out here and say that that's not important because I don't see now how that's necessary to have your right name on there. Because you have your ID number which will be the one that is credited for that particular individual. And then that's part of the program that's part of the bonus program see and who gets a \$50 for the thank you bonus that has to be if you have the ID number then that's where it will go regardless of the name is there so okay, I'm gonna I'm gonna say that now but let's let's listen up as we go along and see what sticks by but I can't see it changing it from that.

S

Speaker 1:09:16

I see it if you want to choose, would you put Ron Giles or LWS

R

Ron Giles 1:09:29

That's a good question that I have not thought about that. But see, I'm gonna be the only one that sends it and they won't know who I am. So they won't know me as Zim benefactor or managing director or anything like that. But it will start with my name and my the first person I do is will be could be my name and my. It will be my master account number, but they will Don't know what as a master account number, so they won't know me as the person who's

giving the money away, unless I tell them. So, you know, on your cards, we have nine billionaires who are giving money away and I got mine. I'm making \$144 a day and \$1,000 per week. And I can show you how to make more if you're interested.

 Speaker 1:10:27

All right. Okay. Thank you very much for that.

 Ron Giles 1:10:30

Thank you. You're certainly welcome. Yeah, I apologize for
