**D** Dominick 00:00

With regard to the questions, I want to make sure we're clear on this. We have a lot of people that have questions we want to get to everybody. When you when you are coming in to ask your question, try to keep it simple and brief. If there's another question you want to ask Ron, let's go ahead and get through all the list here and then raise your hand again and come back in and ask your next question. But let's keep it simple and brief so we can get to everybody. So Kevin, do you have a comment?

**S** Speaker 00:25

Yes. Ron, I noticed on the Jot form, that there's a place where it indicates how many times we've asked for SKR, number one, number two and number three, are we to assume that we keep track of how many times that we've requested an SKR And then we select the correct number? Or are we always asking each and every maybe different day? Where it's the first time? You know, I'm trying to say,

**R** Ron Giles 00:52

Yes, I do. And the reason that that's put in there is so that you will keep track of how many have asked and compare it to what we have. Okay, if you've made ask for quite a few, and we haven't they did or even one or two, and they didn't come, then let's raise your hand and find out what's going on.

**S** Speaker 01:17

All right. One other quick comment? Would it be beneficial? If I selected only one, one type of note? And the other two are? Should I not leave them blank? Should I just put a zero in the ones I did not select?

R

Ron Giles 01:35

Zero would indicate that you have looked at it and rejected it. I'm not sure how to answer that question. But either way will work. If there's another number, there's just a zero, then they won't populate, you understand? Okay, thanks. Thank you.

D

Dominick 01:56

Okay, let's go to Cynthia. Cynthia, I've got your mic. unmuted. If you want to come in and speak. And Chuck, I will release you next.

S

Speaker 02:04

Thank you, Ron. I'm so happy to be here. And I want to thank you so much for all that you do for us. And I just have one question. I know you're still looking for the 15,000 more humanitarians. But the fact that we're all going to be asking for more of the digital gold certificates, will that help make the time reduced? Let's see how can I say this? In other words,

R

Ron Giles 02:39

I understand that the same? Okay, we're, we're not the other 15 1000s. They're going to come on board. And because we who are already there are asking for more of the SKR through the skr program that won't affect getting the other number 15,000 in just be greater opportunities for us to get some of the millions so that we can save save up for the Alliance? Yes.

S

Speaker 03:19

Well, do you expect that to get the other 15,000 will take as long as it's taken to get this 30,000?

R

Ron Giles 03:30

You know, it's a good question, Cynthia. Here's, here's what I believe is happening right now. Okay. These 15,000 People are their hearts are yearning to find where they can do their humanitarian stuff. Yes. And that opens it up for the Alliance and anybody else to come into their hearts and lead them and direct them. And it's similar to what what's happened now. But I think that there's already the time factors gone by and I think that this will be accelerating in a way that will be remarkable for us. I'm hoping that we'll have sufficient help to take care of all of these new people. Okay, well, we've got the we've got the education system, I've been told that that's all up and running, and everything's just fine waiting for them to come to show up. So it's all in God's hands and and see we have to be safe and secure with ourselves and our money for the RV to take place.

S

Speaker 04:49

Yes. Well, when people ask, you know, like, when will all this happen now say God knows God knows, so?

R

Ron Giles 05:01

Well, we are, we are at war. So they can't tell us these things. Right? Now when I say we are at war, you know, some people don't understand what that means. Evil war against good and evil. So that's what's happening now. So once the war is over, we will be the, the gates will be open, and we'll get a lot of information that would be kept from us, because you, you can't tip your hat and show the lion or the bad guys what we're doing, right. But if they're not around anymore, then there's no reason for that information to be withheld. So it's gonna be a real rush of new information that comes through. That's kind of my feeling. And our minds will be quickened, and there will be the, the, I don't know what you know, some people call it a blast simply. It's just the movement of, of God in helping us our children are already there in the fourth wave, we're ready for. They're ready, and they're their parents are ready. And so there's a lot that's, that's taking place beyond what we understand that we are being prepared for what's coming. And I think that that's a that's an acceleration possibility right there.

S

Speaker 06:29

Well, thank you. Thank you.

D

Dominick 06:33

Great, thank you very much, Cynthia. I've got true truth warrior. I'm gonna go ahead and release you and allow you to speak and then Benli Palenko, you will be next truth warrior, if you want to tap in.

S

Speaker 06:49

Hi, Ron, I just had a quick question on the million. Um, where do we purchase that?

R

Ron Giles 06:55

Well, SKR, you don't purchase anything? They're free.

S

Speaker 07:00

Okay, so when we apply on the JotForm, that puts us in a category to where we qualify for that we don't have to go someplace to buy that million like we did.

R

Ron Giles 07:13

Okay, you're, you're finished buying bonds unless you want the higher your load users or the low ends or the others, then go ahead and buy those because that'll come from your heart to do that sort of thing. And I have no problems with you can we're just providing a Lillian's because we're focusing on the process of getting money for the Alliance. And that's what we're trying to accomplish. You don't have to pay for him. It's all free. It's all email. Quicker than anything that you can imagine as far as getting them is concerned, the SKR's, so it's going to be a real program for us.

S

Speaker 07:53

Okay, that makes sense. Thank you. You're welcome.

D

Dominick 07:58

Okay, Ben Lee, I'm going to release you. Let me see if I can find here. There you are. Badly. If you can go ahead and tap, that'd be great. And then can't see if Gail is still there. Gail, you'll be next badly can you tap your mic?

S

Speaker 08:15

Now if you guys can hear me now. Absolutely. Thank you so much, Ron, for allowing us to be part of this through the RSS and the team that you have, which is amazing. And everybody else that is working the Alliance for it. When I received this email too, recently, and went through it, I was just jumping off joy because I know that we are like one step closer to to for for this to happen really. And my question is like a follow up to the previous question or comment that it was this class just to clarify the bonds that were already purchase that won't be touch. This is just like getting the SKR codes from the Alliance. This war. This one made any purchase this will be just asking for the millions or for the rest of whatever was available now.

R

Ron Giles 09:25

That's correct. Okay, great. This is all free. The what you have now even the one hundreds, go ahead and some people have purchased a lot of one hundreds and they found out that the the higher bonds are available and they bought those they think that the 100 T notes are not as important. Don't Don't leave them at home because they're small. Take everything in with you. And then you can have determination with your alliance with your agent to your counselor, how much did you put into the quantum financial system or excuse me into the donations to the alliance and how much you want to keep for the structured payout payment.

S

Speaker 10:13

Oh my god, this is so amazing. I'm so happy to to be part of this because humanity will be the biggest change that we will have. What we are leaving behind and what will be part of it is just amazing for humanity. Thank you so much for the job that you're doing. And for being so clear

amazing for humanity. Thank you so much for the job that you're doing. And for being so clear on the things and being so patient with all of us that have been going through the program learning every day, thank you so much.

R

Ron Giles 10:42

Well, you're certainly welcome. And I want you to understand that you, you personally are one in all that we have. And without you. Thank you for showing up. Thank you for being a part of us. We have you.

S

Speaker 10:59

Gracias, gracias. Thank you.

D

Dominick 11:03

Okay, thank you very much, Gail, you should be able to click in and then Patriot for humanity. You'll be up next.

S

Speaker 11:10

Okay. Hi. Okay. I don't know if I have. If I've missed the letter that Ron, Ron, that you were talking about? You said there was a letter that that we can send out to help track

R

Ron Giles 11:28

people. Yeah, it was a couple of weeks to go. And I'll have Tracy send that back out again.

S

Speaker 11:34

Oh, I can look it up. But yeah, okay. It was a couple weeks ago. Okay.

R

Ron Giles 11:38

Yeah, I'm not sure the date, but it feels like it's a couple of weeks ago.

S

Speaker 11:43

Okay. And so, because I've been trying to talk to different people now I have, but some people are just their humanity. They just don't know what to believe. I mean, you know what I'm saying? And I don't I'm not trying to talk anybody into it. But I think I let her coming from you.

You know how you put everything so nicely and professionally and everything? I think, well, that's what I need. That's exactly what I need. Okay. Yeah. Okay.

R Ron Giles 12:09

Well, I will just get him to the website. And that's all and you don't have to say you don't have to listen to me just go to the website and start yelling.

S Speaker 12:18

Yeah, that's, that's why I've got a couple of people to do. And that helps tremendously. It really does. Okay, and my other question is, have all the JotForm requests gone out already? Because, you know, I got your letter yesterday about the SKR's, but I don't see a JotForm.

R Ron Giles 12:39

They're coming out until probably this afternoon. Okay, within the next little while, but is it's the it's its own email. And it will be coming out quite often. So everybody will have a chance to fill it out. I mean, we can flood the market with drop forms. Everybody,

S Speaker 13:04

that's true. Okay, that's perfect. Well, thank you so much.

R Ron Giles 13:07

I appreciate it. You're welcome, Gail, thanks for talking with us.

D Dominick 13:11

Thank you, Gail, patriot, for humanity, you're up. And then just a quick reminder, for people that are waiting, we're gonna get to everybody. But if you drop off, and then try to come back in, you're gonna go to the bottom of the list. So if you're got a question, I would advise you to stay on so I don't drop you down. But for now, Patriot for humanity, Europe, and then cat, you'll be next. If you're still there that look like you are but we'll we'll get to you, but Patriot for humanity, if you could tap in.

S Speaker 13:40

Thank you, Ron. And thank you, Dominic. Thank you very much. I had I had maybe two quick questions, but one main one, Ron, and you've really stretched my faith. I mean, when I got the email yesterday, I was kind of reading it for hours just to try and understand what what's taking place. So my first question for you, Ron, is when you speak about when the Alliance speaks

about other humans, in other worlds? I always thought and again, you know, I don't know anything about this stuff. Are they more evolved than us? Or are they kind of like, you know, like us, but, you know, living the same kind of existence that we're living, and that's why we're being a system?

R

Ron Giles 14:30

Well, it's an interesting question. And the reality is, is that we have been left behind for two or 300,000 years because of the Cabal and the way that we have been, our DNA has been altered. Were we to function with our full 12 strands of DNA, we would not have anything to catch up on. Many of these other star nations are way way far ahead of us, very few are so, so terribly organized as a community than we are. And that's because we've had controllers over us who want us to want to be control, they want to control us, and keep us as slaves. And our debt system financial system is designed for us to be slaves. Well, we can't, we can't produce, we can't, we don't have enough. If we're always busy getting money, then we don't get a chance to really get into our hearts and start this whole process of becoming what we are supposed to be, which is children of God, creators of our own in our own way. Yeah, so. So we get a chance to do things. And it's I call it the dispensation of the fullness of time. So this is coming to us all these things that the quantum stuff is coming, because it's already available for so many other star nations. And they're way far ahead of us. So we get to catch up, right there waiting for us, cheering us on. So, and the love that those advanced humans have for us, is magnificent. What great examples of what God wants us to be. So we get to join them. And they're sitting there waiting, and I hope we hope these people love us, because we don't want to have any problems as we come amongst them. That's for sure. So that's why they've kept away because, you know, a lot of us are just we're not used to having love shown for us, to the extent that these people will, they're going to share everything they have with us, it's going to be a wonderful experience for all of us.

S

Speaker 17:02

Wonderful, wonderful. And I have one quick question. And it's really about the Alliance, as I read through your email yesterday. Really, I think they're waiting on us to kind of get our act together. Partly, I kind of was led to understand that when I read your email numerous times. And also, I mean, the Alliance had been doing tremendous work behind the scenes that we would never know. So I was wondering, you know, why would they need us to even deploy some of these funds to these other parallel worlds or other world? Why? Why would they need us because they can do the work run behind this.

R

Ron Giles 17:42

And what you're saying is true. However, there are laws of the universe, that they can't break those laws mean that you have to go through the residence. And we are the residents. And we are the ones that are charged with the responsibility to create the golden age of mankind for the earth. It's already being created by others in other locations, but we have to do it ourselves. They'll help us all we can all they can. But they're always going to say it's your job to do this. It's like each individual, it's your job to ascend, nobody's going to force you to do it. Even your soul, your higher self is not going to force you. They're helping you but you've got to do it

yourself. And those are the laws of the universe. So we they have to do that. And we have to accept the fact that there are things that we ourselves, only ourselves can do. And we can ask for help. And they'll give us as much help as we can as they can give us right. That we have to do on ourselves.

S

Speaker 19:02

Yeah. Go goes back to three. Well,

R

Ron Giles 19:05

good question. Yeah, it goes to free agency. Yes.

S

Speaker 19:08

Yeah. Well, thank you for answering those questions wrong because I was a bit like I was in a daze yesterday evening, when I read your email, and I was like, you know, just it was I was gobsmacked. Really. So thank you for answering those questions. Thank you.

R

Ron Giles 19:24

Well, thank you for not recording away from this opportunity. We're going to be getting Godsmack quite often, and we just have to stand up and that I didn't know this was yes, I raised my I raised my hand in confirmation of that this is something that I want and they will come to us. So it's a great opportunity for us. Never had them before.

S

Speaker 19:52

We've never had it before. And you know, I yeah, I just want to say thank you for the opportunity to kind of establish this framework with which we can do this work, not only for our fellow human beings, but for others as well. So I want to thank you. Yeah,

R

Ron Giles 20:08

thank you for showing up. I appreciate that.

D

Dominick 20:12

Thank you, Ron, thank you, thank you very much. retana. If you want to click in your mic, you should be good to go. And then Enrique, you'll be next

S

Speaker 20:25

Well, it's just great to follow this conversation and just want to be want to double check what in my mind, so today or tomorrow, expected to? We received jot forms the email, and I like, efficient, and I'm gonna go 480 of those. That means I should feel the JotForm like, 36 time, correct. In one day, possibly?

R

Ron Giles 20:59

Well, I'm not sure I haven't done the math on how many times five goes into 180. But it's gonna be quite a bit. 33? No, that sounds right. Yes. 33?

S

Speaker 21:16

I think, yeah, I think

R

Ron Giles 21:18

like that, you're right there. But as hold the job forms there. And we want you to get as many as you can up to the 180. And then you're good to go for whatever you want to do. And that's what's and then don't diminish the reach the rate that you're going to ask, just because there's large numbers. And a lot of people want to do that well, that I'm just too greedy. And so that no, two or 3 million is not a problem for the

S

Speaker 21:53

university view. And there's several of them. So I understand your point of view. And another question. And the redemption, there is certain parts of our resumes, to be donated to alliance is that the certain amount will be discussed at the redemption or you already know what the full amount we should donate.

R

Ron Giles 22:27

There's a lot of different factors involved in the in obtaining the amount, the rate in the gym, they have, in addition to what the 180 Millions. That's why you have a counselor, when you go into your redemption appointments, been asked some questions about this. And how much can I donate? And how much should I keep for myself for my own. When I say myself, you put it in that money into structured payout. And then that becomes your payment to you. And yearly or quarterly, whatever you want to do for the next 100 years. That's what you're going to use for your own humanitarian activities. The other will be put into an account that is in your name, but it will be used for other things than perhaps we really understand right now. But that's the way it's gonna work out. I'll have a huge amount of money to put in to donate to the alliance of God loves them. And the rate I'm asking is very high.

S

Speaker 23:43

**S** Speaker 23:42

Okay. Lots of work for all of us, guys. Thank you, Ron. Have a nice evening. Or afternoon.

**R** Ron Giles 23:51

Thank you. Thank you. You're a lovely lady. Thank you very much.

**S** Speaker 23:56

Okay. Bye bye. Thank you. Bye bye.

**D** Dominick 23:58

Thank you. Thank you so much. Let's go ahead and try cat you want to come in.

**S** Speaker 24:05

Hello sending blessings to end divine gratitude to you run down Carrie and everyone on the call. Regarding the SKR's. I have over 200 Zim. And I'm asking for an astronomical rate because I want to be unlimited. I have heard that she would you had said earlier in the call that it would be irresponsible for me not to request more zoom. Knowing that I'm asking for an astronomical rate. Does your statements still stand

**R** Ron Giles 24:43

okay. It's kind of, you know, you're a very rare person that's going to ask for those kinds of rates. And that's okay. Now, if it's if it's something that it needs to be visited with your counselor. That's something that you can bring up with the counselor and get some advice. If your heart is telling you for those higher rates and not your mind when my mind is gonna say, Well, I want to have all this and, and you're and so the mind can do two different things. One, there's too much and one is not enough. The heart is the one that gets her nails the the amount that you're supposed to have. And, and I'm not saying one way or the other with you or not. But you have a counselor who can help you to determine and then help you to see the options that are yours. And then they'll give you a chance to make a decision on what options you want to take. That's why they're given to us the counselor. Thank you. You're certainly welcome.

**S** Speaker 26:02

Have a blessed day.

**R** Ron Giles 26:04

And Blessings to you too.

- D** Dominick 26:07  
Okay, let's go ahead and try mama sue again. Mama Sue will try you and then Enrique will try you as well. I see you were back in.
- S** Speaker 26:18  
Can you hear me? Yes.
- R** Ron Giles 26:20  
It's this mama Sue? Yes, yes.
- S** Speaker 26:23  
Hi. Hi, Ryan. God bless. You do?
- R** Ron Giles 26:29  
Thank you. That's kind.
- S** Speaker 26:31  
I have a question. Because I was writing down this your ladder yesterday. And it says you have 3000 utillian, right. Yes. And it's the utillian is 18 million. Correct.
- R** Ron Giles 26:52  
It's 1800.
- S** Speaker 26:55  
Oh, it's 1800 million or
- R** Ron Giles 27:02  
even that's wrong. It's 18,000. Okay, milillion, per, per yodalillion.

**S** Speaker 27:11

Okay. 18,000. Okay. That's, I was just wondering why you're, you're offering each one of us 180 million, because if it's 18 million per trillion, then it's, it's only going to come out less than that. Much. So if you divide it with 30,000. Among so if it's 18,000 million, so that's

**R** Ron Giles 27:43

18. Yes. 18,000. Military per million per year, Lillian. If you multiply that by 30 303,000, then you get 54 million Millennium that is available for us.

**S** Speaker 28:01

Yes, that is correct. I just want to verify, because I thought I was reading only 18 million. All right. So that's, wow, that's an astronomical amount. But it's beyond

**R** Ron Giles 28:19

our understanding. They're just numbers as far as our minds are concerned, but they represent zeros. And that's what our heart wants, because they know what to do. Yeah, the heart does.

**S** Speaker 28:31

And God bless you. Thank you, Ron.

**R** Ron Giles 28:35

You're certainly welcome. And God blesses me and God bless you, my, my dear as well. Thank you for showing up. In Charge,

**S** Speaker 28:46

thank you.

**D** Dominick 28:48

Okay, well, I took my shoes off Ron to try to count that the amount of millions I still couldn't get there even with my shoes off. So that's a lot.

**R** Ron Giles 28:56

.....

You just have to add your hands in there and then use a multiplication factor. Yeah, I

D

Dominick 29:01

think I need a million more people to take their shoes off and count them as well. Okay. Let's go on to the next one. Ri K. You should be able to tap in. And then, Timothy, you'll be next.

S

Speaker 29:14

Evening, Ron. Good evening, Dominic. Good evening, everybody. I have a question. But before I have a question, I just want to share a bit of a funny story. Ron, I really appreciated how you started off the TAT this evening in terms of expressing your frustration in terms of sending currency to South Africa. I'm one of those South Africans that got very frustrated with our system postal system here. And then I listened to a chat by a lady who said that we can always ask for the help of angels and I've always had Angel Gabriel, my go to Angel. And when I inquired as to what the visual functions were of Arch Angel Gabriel, I was told, or I found out that it was actually his speciality was postal services. So after waiting for three and a half months for currency to arrive, the one day after finding that out, I had a chat with my pobox and declared that I would really like loudly in front of my postbox. I declared very loudly that I'd like the assistance of Archangel Gabriel, because I really, really, really, really still wanted to get the currency even though eBay had sort of written me off and said, Well, you know, we now deemed delivered, strangely enough, exactly the next day, I went to the post box, and there was a notice for me to go and collect the something from the post office, and it was the currency that I've been waiting for for three and a half months. So for anybody who's still waiting, maybe you should employ the services of Arch Angel Gabriel. So just a little hint. Okay. So the other question that I have is with regards to the other 15,000 people that we would like to get to become part of our wonderful family. So you were saying that we should try and send out your email and in terms of their to people that we think might be suitable. And in that way, recruit people as think we are all here, as part of love won society because we've been guided here by some mysterious forced, if we actively go out and recruit people, are we really going to get through humanitarians? Or are you seeing it in a way that God will move through us to recruit just like, we were guided to love won society? Sorry, I just want to clarify that because you stipulate quite strongly that only true humanitarians will get their money redeemed, and, you know, maybe some people if we send it to them, they might think, Oh, yes, yeah, that sounds quite nice. Lots of money involved, that kind of thing, but it's not from their heart space. Whereas I believe that we all here because before we arrived, we decided that we were going to be part of this. So I just wanted some clarification on that. If you don't mind, Ron,

R

Ron Giles 33:13

I don't I have no problems talking about that. There are so many different ways that the spirit moves people to get the information that they need to fulfill the purposes for their life. And they come with a purpose. And the guidance system creates circumstances that will help the person be condition for the purpose to come, that they're supposed to do. What do I mean by that? Which one of us didn't have a resonant in our hearts, the love won Society Program resonate with? I would say that there are those who do function after go after money. And that's okay. They will, they will eventually wander off into the weeds somewhere instead of staying on the path. And and that's the way that that the heavens work for us. Now, it is

required of people to be honest with themselves. And if they're, if they're looking for money and an easy way to get money for themselves and not just for humanitarian, there are human humanitarians out there that are giving away their money because that's what they feel is important for them to do. You give them more money, they don't spend it on themselves. They find other people that need it. Those are the kinds of people that will respond to our call. If we if we as recruiters, if you want to call it that. I start talking about money with them. That can be a problem. But if we say, you know, you have a heart that's wants to serve mankind, you have a heart that wants to do the right thing for and help other people. Some of the problems we have with that kind of a heart is that we cannot help as many as we want to. And so there's a way that the heavens have promoted for us or prepared for us to be able to get all of the funds that we need to do all of the kinds of stuff that is in our heart to get done. Would you be interested in that?

S

Speaker 35:41

Ron, my, sorry. My concern is, I know, quite a number of people that could possibly be suitable. Some are concerned about the age, which I'm not concerned about at all, because that that's not an issue. But a lot of them have actually gotten the vaccine. And yeah, we'll obviously there will be healing and that type of thing. It shouldn't be something that should stop us or what it's just it's, it's a choice. It's people who've chosen to, to get vaccinated or whatever chosen out of their own accord is that not something that they've chosen as part of the life paths, you know, as a possible exit point, or I don't know that they're not part of the New Earth. There's just so many elements at the moment, it's a bit confusing to navigate all of that.

R

Ron Giles 36:57

Okay. If a person takes his shot, some people are forced to take it to stay employed, but a third those who are promoting shots and take the vaccination for themselves. They may have a purpose for being here on this earth to show people that they that the vaccination will take their life. And that could be their purpose. And if that's the case, they're not finished, they can come back again. They can, good friend

S

Speaker 37:37

of mine, a good friend of mine, she's, she's a real humanitarian, she started up. She supports about 400 families, or 400 people, sorry, homeless people and whatever. But it's, she, she's fully vaccinated, she, she would be perfect because her heart is in the right place. But I can't speak to her openly about various things. And I've included her project in my project, cause of what she's, you know, I want to sponsor her. But she would be amazing if I could put, you know, to discuss this whole thing with her, I think she would run with it. But I have this not knowing should I or shouldn't I because we on our channel and everything we speak openly about the vaccine stuff and all of that. So it's, it's it's a Yeah, I feel a split that.

R

Ron Giles 38:50

Okay, let me let me see what to do. Let me suggest the fact that she's vaccinated, vaccinated and has all of the vaccinations and the boosters and all that sort of stuff. Just eliminate that

and has all of the vaccinations and the boosters and all that sort of stuff. Just eliminate that from your information that you're using to make decisions. That's a decision that she's made. If her heart's in the right place. It may be that the vaccinations are not taking effect to her and going to kill her. There are others that have got vaccinations and they're having no problems at all. So there are ways that are being done behind our back without our knowing. But I don't let those kinds of things get in my decision making process of how, how to deal with that person or not to deal with that person. I'm a very private person anyway. I don't have a lot of friends. I don't do a lot of the social things. I'm busy. With my passion, and that's what's love won society. But I eliminate the the judgment of a person who's taken a vaccination and think that there's going to be something going on with that person, I just eliminate those thoughts and say, if she's got a good heart, and she's part of God's team that's gonna get the humanitarian money and funds and be a humanitarian for the next 100 years. I don't need to be worried about that it's going to happen. And so your your, your opportunity to share is a thing that was is more important than any of the judgments and things that may or may not be a determining factor in our minds. God works in a mysterious way.

S

Speaker 40:53

I appreciate your advice. And thank you very, very much. I really appreciate it. Okay. Thank you.

D

Dominick 41:04

Thank you very much. Elsa, you are next, if you want to come in. And then Ron, we're about 10 minutes after the hour. So we can go another 20 minutes if that's okay with you.

R

Ron Giles 41:15

Yeah, I'm cooking. Yes, you are, sir. I'm in the kitchen. Hello, Elsa.

S

Speaker 41:25

Good evening to you, Ron. Good evening to you, Dominick. I love won of my soul. I've got a question. Because we are tone ratios in this degree. There is no doubt about it. And we are winning. The oldest s program has been done already in my vicinity, where I live on the street walks the side street Hawks. And those people are from various individuals in digital ascent. And now I want to know, they are openly declaring that they want their people, their family, their friends to be the same as the one they are speaking to with this grand Samsung multi choice task fun, they want that they want to be a true humanitarian. But because of the backlash, the politicians gave all of us that is not now. Very sorry. It's not welcomed, it takes them back again. But they are standing next to me, they are ready for the Odysseys programs in now my my, my question, do I open up this new alliances program with them? Because I know they will run with it. I know that, what do I do? Do I Do I keep back and then funding after the redemption? What do I know? What do I do? Please, please sit on. Thank you.

R

Ron Giles 41:33

**R** Ron Giles 43:22

Okay, awesome. As I think about those people and their hearts, my question is, how to get them involved. If they have the ability to get into our website, and register and start learning about the things that are there, read this, read the documents, if it's not in their language, then figure out a way to do that. Because those are the kinds of people that were looking for, I believe, and I could be wrong or don't know them at all. But my point is says let's give them the opportunity and see with a if they run with it. Let's give them the website address and see if they'll go in and learn how to become a zoom benefactor. This is where it all begins. This is where the tire meets the road is in the education process that they need to go through. If they get involved with us and start asking for these hires Zim or this s KR program. We're then they're the people that we're looking for because they won't get it any other way. They won't get the resume and the other way that they will qualify as SKR and when the time comes they turn and redeem them and then they're all say cooking well gas. They've got the best channel that they can get to do their heartfelt humanitarian work. So don't don't let's let's pray for their opportunity for them to see the the way to become humanitarians and the love won Society Program. I mean, I don't know of any other program. If there are, then they're there. But I don't know of any other ones that would do are doing the same things that we're doing. And if their hearts are open for us, then that's a really good thing and that come join us. So, the SKR program is for them. Yes, introduce it.

**S** Speaker 45:44

Thank you.

**R** Ron Giles 45:46

Let them run, let them run, take the leash off, let them run through the whole park and have fun. Yeah, there you go.

**S** Speaker 45:56

Okay, thank you very much. Indeed. I'm going to do that. Thank you.

**D** Dominick 46:02

Thank you, Elsa. Alvin, if you want to come in, you're, you're up next. And then AJ, I'm going to bring you in after that.

**S** Speaker 46:12

How you run on just a clarification. The maximum Zim note that I can request is 5 million. Am I correct?

**R** Ron Giles 46:27

R Ron Giles 46:27

Each time, there's 180 available to you. So you fill out the job form once, then you fill it out again. And you fill it out again. And then you fill it out until you get all that you want up to 100 navy.

S Speaker 46:47

180 million, right. And of that 180 million, each one of them has an escape er, or it will be a single SKU or per 100 dt.

R Ron Giles 47:04

No, you'll get an S KR that will be for five, five at a time. And then you do another fkr for another five and Hs KR is worth five. Yes, that's the way you are.

S Speaker 47:19

Oh, it's five times 180. And then that's the number of my SKR

R Ron Giles 47:26

Yeah. Oh, divide 505 into 190. Then that's how many zoom they can get her and that's how many SKR. We were figuring it out as 33 or something like that. SKR so they can get. But let's overload the system. As far as I'm concerned. We've got extra that we can put in there. There's 54 million of those to be distributed. So we've got plenty for everybody.

S Speaker 48:01

Okay, okay. Thank you.

R Ron Giles 48:04

You're certainly welcome. Good question.

D Dominick 48:07

Yep. Great question. Alvin. Okay, AJ, and then Aaron. You'll be next AJ, if you want to tap your mic.

S Speaker 48:14

Can you guys hear me? We can all Aloha, Ron, Aloha team warmest Aloha for you guys.

Warmest Aloha, I had a question about the maybe it's very basic, but it's when we're talking about dollar amount in dollars, you know, this amount of dollar and trades to this amount of dollar, the value of a single American dollar right now that we have is it the same value that once you get redeemed, or it's a different kind of value, meaning \$1 That gets what we buy with the \$1. And what we would buy or get with the with the new TFS system dollar are the same value in terms of it's worth.

R

Ron Giles 49:05

What you're gonna get, you know, let's take a 100 T note. It's \$100 trillion. from Zimbabwe, Zimbabwe, US dollars. We call them dollars. And if you equal, you know, a US dollar or Australian Dollar Canadian Dollar, that's \$1. Now, what's going to happen is when you go in and redeem it, you're going to ask for a rate present. Now that's going to be \$1. That's going to come to your bank account in the quantity excuse me, your financial service account. It's going to be \$1 or an increment of \$1. That's the digital gold certificates that we're talking About. So it is \$1 in value. Now, if you go to the country, and in that country you redeem, then the dollar will be the dollar in that country. So if you're in Australia, the Australian dollars that you'll get. And that will be put in the quantum financial system.

S

Speaker 50:26

Okay, so even though

R

Ron Giles 50:27

now, let me let me just preface that statement before we go on. Before the the redemption can take place and the quantum financial system is activated, the world has to go through the Global Currency Reset. And the Global Currency Reset, all currencies are reset to a value the same value as any other currency. So \$1 in the United States, is equal to a \$1 in Canada, equal to a \$1. And it's equal to one yuan in China, it's getting close to one, Mark, or whatever it is in Germany, their country's currency will be equal in par value to ours, or anybody else's. Now then that just if you take that into consideration, and that has to happen before the quantum financial system can be activated. And you can see if it's, if it's happened already, by looking at the foreign exchange process forex, foreign exchange, if it's a one for one, then there's a likelihood that the Global Currency Reset has taken place. Gotcha. It can happen and nobody will know about it. Well, I don't know that. But it can happen. And it doesn't make a whole lot of difference within the country that you're in. But if you go into another country, and you want to get some currency for that country, you'll find that the global currency makes it. So it's a one for one. There's no exchange differences. And so that's got it happened before the quantity of financial systems comes into play. So when you're talking about dollars, it's going to all be the same. Does that make sense? Yeah,

S

Speaker 52:38

I totally I yeah, I forgot about the other currencies. I was just thinking about the current Fiat dollar. And it's, you know, continuously downgrading of its value. I get it No. Just a follow up question about the contribution to the alliance. Maybe I was not clear about it maybe I missed

question about the contribution to the alliance. Maybe I was not clear about it, maybe I missed it. Maybe it's been repeated several times, I need to go back somewhere and look at it. But Can you just elaborate a little bit of the contribution? So here we are, we get the word redemption meeting. And we ask what the rate is, and we get it? And then and then what happens relative to the contribution part of it to the alliance? And how does that,

R

Ron Giles 53:18

okay, let's, let's take 180 million, that's going to be a horrendous amount of money, if you ask for a million or 2 million, as a rate of exchange, Horatio to you know, to redeem. That's a lot of money. Not all of that is necessary for you to go into the structured payout systems that will give you a, an allotment every quarter, or it's worked out of that every every year. That's gonna pull a lot of money out of reach to be available. If we put all of that for 100 years, because at the appointment, all you're going to get for 100 years is put into that bank account, the structured payout account and the quantum financial system if you understand that process. So are they going to put in horrendous amounts of money into the structured payout system, when you would have when you would never have enough money to do what you're wanting, or there'd always be more money than you would ever be able to to accommodate. So you take that this is where you talk to your counselor at the redemption appointment. And you figure out what you want to as the things that you're going to use for your humanitarian activities. And then you put the rest of it in that account for the Alliance at your donation account. It's an number, you'll notice that I didn't really address that very effectively. Because I don't know. I don't know what each person is going to do. I don't know I'm saying get the 100 and 80 million been. There's a lot of people that won't do that. So how much how much am I going to tell him to put into the donation account? That's something that needs to be discussed with your, with your counselor. And that's why we've been given count that counselor to make those kinds of difficult decisions, because our whole future is going to be involved in what the decision is made in that appointment.

S

Speaker 55:45

I get it. I'll get it. I want one full last follow up question that you hear these things. And you don't know if it's accurate or not, you know, it's all speculative. Some, some people break confidence. Other people say it's like this, in the advanced civilization out there. I hear again, that they don't use money they use they just have gone past money need need for money? How does that relate to the kind of universal system that's being created with this with the new qf s?

R

Ron Giles 56:22

Okay, a medium of exchange is always better than barter. But a medium of exchange can be polluted, distorted, and manipulated, for those who are in charge of it. That's where we have the Cabal right now the central banking system. God says, Hey, let's create a system, financial system for the whole universe. We'll call it the quantum financial system, we will put all of the gold that we need to, to go back the currency. And that cannot be changed, it cannot be manipulated, it is under the control of God through the quantum consciousness, which is basically runs the quantum financial system. Now with that, instead of bartering where we take in the commerce is going, it's not going to go away. There's people that need things and they

exchange it back and forth. Well, if they don't have barter, if they normally use a barter system. But if we have a system of gold backed currency that could be used for the exchange, then they don't have to carry everything around and, and shop it around so that they take it. They load their barge, whatever, you know, anti gravity machine and take it over to Mars or someplace other than here, and they want to start distributing it and selling it and see what they have over there that you might like, well, you can take that over there. And they will give you money for that. The gold back currencies from the quantum financial system. So that makes it different.

S

Speaker 58:19

So this is really a revolutionary system in being introduced literally for the galaxy. I mean, it's just not just us. It's every I mean, civilizations out there their work, they're working together to create a common system so that we are unified as it as a species or as.

R

Ron Giles 58:40

Yeah, yeah. I'm probably the first one that you'll hear say this. But I'm, I'm, I'm used to saying that because I've been told about it about what's going to happen in the future with the use of money and I says is it going away? I've been told no, it's not going away. It will be established throughout the universe. A system for everybody to use for exchange wherever they go. So if you go someplace and you want it to go to Sector three dash a and you want to have dinner over there because you've got an antigravity machine, we'll take you there. You don't have to barter for a meal. They may have a man of replicator I don't know it's gonna all be like, but you've got a medium of exchange will be accepted anywhere you go. Now, is that money? I don't know. Don't talk. Don't tell me that. They're not going to use something like that because God's creating it. And if God's behind it, nobody's gonna manipulate it and distort it and and use it for their own purposes, they can use it for commerce. But they're not going to be able to manipulate because it is an manipulatable. And that's why all of the galaxy and all of the people are sitting around here. If we could see them all, there's 1000s, or billions of these ship spaceships co located in this area so that they can see what's going on and be a part of the celebration. Because we haven't had this ever before. This is No. God's in charge. Cheers, creation. He's in charge.

S

Speaker 1:00:41

All right, every time I'm on

D

Dominick 1:00:43

ha ha. Got to step in here, buddy. You're taking a very, very sorry, we've got a lot of other people waiting. Yeah, appreciate that. You can we can ask it another time. Yeah, appreciate it. Aaron, can you come in. And then we have one more person we'll call on and that'll be it.

S

Sneaker 1:01:02

Speaker 1:01:02

Great. Hi. Thanks, Dawn. Hi, everybody. Hi, Ron. Hello. Hi, I just wanted to say that I heard very differently. Tonight, your request the Alliance request for the 15,000 people. So that really, that message got through to me. And so that has already started opening up different channels. So I just wanted to say thank you, and to commit to working towards that. That's it?

R Ron Giles 1:01:39

Well, you're certainly welcome. And thank you for responding. You're you're catching the vision of what needs to take place and is taking place. We're just setting it up so that it can happen. And with that, then God moves in and does his miracle. If we have a website, we've got the website, if we have a training program, we got the training program. People can come and join with us. And it's according to their own heart and what they purpose it they came here. And the humanitarians that caught our have a calling from God to be the ones to receive these, these Zim funds, they're going to be listening, they're going to be open for the opportunity. It may take just a little bit of time for seed to be planted, and then a seed to grow. But if we've done our job, then that's what's required of us. And now we turn it over to God and say, Here it is. We've done what you've asked us to do. And so I leave it up to you. Thank you for the opportunity.

D Dominick 1:02:59

Okay, Aaron, was that it? on your part? Yeah, that was just to say thank you. I'm on it. Thank you.

R Ron Giles 1:03:07

Okay, good job. Aaron. Thank you very much.

D Dominick 1:03:10

Okay, we have Coco Coco. Ron, it will be the last question we'll take for today. Can you tap your Meissen?

S Speaker 1:03:17

Yes. Thank you. Can you hear me?

R Ron Giles 1:03:20

Yes. Are you bringing us some cocoa

S Sneaker 1:03:24

Speaker 1:05:11

if you want me to good night, and Ron, and good night, Don, and Good night, everybody. I'm so grateful to be on this journey with you. And I feel God is moving and is brought everybody here for a reason. Because the things that have been happening to me on this journey since I've been on it. And before I even understood why I was on this journey. And I can tell you a little story. And the stories that I brought ordinary papers in, first of all, not understanding the whole situation behind it. And then I just said, oh for for me to remember if I get to be a humanitarian for me to remember the occasion, I will buy 100 Gold Zim. And to remember this occasion by and it came and I just put it down thinking hold that's going to be a token that I read. I can remember the thing. And then one day I was listening to your question and answering when I signed on to be a member of whatever and I ordered it you said you could order the higher things and I went to an order the the quintillion and the quintillion came but the person that sent it to me, instead of sending me the amount I asked for the sent me double and then triple came. And then when I sent it back to them as when I tried to contact them and say no, no, you sent me more than I asked for the said to me Keep it and and then the other day, I, when he was talking to get the higher one, I sent it and it said it's gonna take quite a long time. And in that very week it dropped in my postbox. So I think God, and the angels and everybody's moving through. And if you really want this, it's going to happen.

R

Ron Giles 1:05:24

Yes. And Wonderful. Well, thank you for sharing with that. One of the things I'd like to say is if for some reason you order, pay for an order zams. And it's from China, that which take six weeks or more. Keep your receipts because the receipts now are going to act like these SKR's. So even though you haven't got the bonds in your hands, you have the receipts, and they will redeem the receipts for you. Don't worry about it, buy what you want. And of course, the SKR, they come in the email. So I don't have to send it a long way I can send it as long as a long way. I can send it now and you'll get it within a few moments.

S

Speaker 1:06:19

And thanks for the opportunity for that. Because I was praying to the angels to give me a sign that I can reach out to the alliance and to be of worthy to the outer universe as well in my project. And it's like you've sent it for me, you know, thank you.

R

Ron Giles 1:06:40

Well, thank the heavens. This is their program. Thank you though. I appreciate your kindness.

D

Dominick 1:06:51

Okay, Ron, that's a wrap. We are good. I thank you so much for all your time and all your answering of questions.

R

Ron Giles 1:06:59

My privilege, my pop my passion. I'm doing what I love to do. And the only thing that stops me from doing is when I have to go to bed. Dom I don't have to do that now.

C

Carrie 1:07:15

Yes, Carrie, Dom. Just a couple of comments, everybody. This is a whole new topic, lots of things to share and talk about, I'd like to ask everyone on behalf of the admin to please be sensitive to not spending lots and lots of time in the chat talking about zeros talking about money. But spend your time talking about your purpose, your projects, what you'd like to do with this gift that we're getting. And then the other thing I'd like to remind everybody, we had a number of other hands up that didn't get a chance to answer as their questions, please just feel free to send them to the admin or post them in the room and we'll do our best to answer everyone. Thanks. And thank you, Ron, so much.

R

Ron Giles 1:08:06

You're certainly welcome. Thank you, Carrie. And both of you do such a wonderful job. I'm really grateful for you. Thank you.

D

Dominick 1:08:15

Our pleasure, Ron, and thank you for being here. And everyone. Thanks. We'll have a another Friday discussion with a guest speaker. So please feel free to attend our Friday chat and we will talk soon, Ron, you take care.

R
