SPEAKERS

Ron Giles, Speaker, Carrie

Carrie 00:00

SKR program one week later statement for Ron to discuss, we added hundreds of new members last week as a result of the SKR program. So this discussion is to recap the SKR program for all members, especially new members. So first of all, please restate what the SKR program is and why it's being offered and accepted by the Alliance. It's an alliance program implemented by loved one society. It's for managing directors, Zim benefactors in training, and it's to release and transact more digital gold certificates.

Ron Giles 00:47

Yes, I'd like to address please restate state that the SKR program is what it is, and why it is being offered and accepted by the Alliance. When you get to this level of the Alliance participating with us. There's more things that are available, and more things that will come up that need fixing, and the Alliance is totally aware of it. But there's a certain step by step process. And when we get to the point where we say, we need to have a bonds donated to love one society sent to me, so that I can send them out. And we were planning on doing getting a fair amount of money. And when sending them out through DHL, or FedEx, it costs 150 to \$200. For each one of those, if I send it to South Africa, they don't have a postal system that works there. So they would have to use FedEx or DHL and send to other people. If other people were asking for them from from, from South Africa. And this was just not an acceptable situation. See, I could send hundreds of bonds at one time, and then let them redistribute it. But it wasn't work because it's too expensive. And they don't have the money to do it. And if we're getting donations and so forth from ours, so we'd have to send it over there and, and do the same thing. So it didn't it wasn't working. That was from our perspective, Alliance has another perspective that they included within the SKR program. And that was that in the quantum financial system, they have digital gold certificates. Did digital gold certificate is a certificate that draws back to a kilo of gold that has a serial number on it. And that serial number is the is the backing of all that that digital gold certificate will do for in the quantum financial system. So we come along with our Zim and we redeem them. And let's just say it's the 100 keynote and because some people must be some people are are familiar with that. But that creates 1.25 quintillion dollars that we get to spend every quarter. Now, in addition to all of that, there is

500 Quintilian. That is put in that structured payout account so that we can have the funds delivered to us on an annual basis of five quintillion, so five quintillion times 100 years is 500 quintillion. That money is put into the account. It is now active. Those digital gold certificates are now active, and we can use them. But as I was getting some of these yodalillions asking for high rates. I asked if there's enough gold in the quantum financial system and then that whole system and they laughed at me a little bit. Oh yeah, we got plenty for that. Well, then I started getting the 100 yodalillion and I was getting 10 at a time That means that there's 1000 yodalillions that are being made available to me. And I said, Well, that's that's a lot of money. Is there enough gold certificates for that? And again, I got the laugh. And yeah, there is. There's gold certificates for it. For virtually, you know, let's count the sands of the sea. That's equivalent to counting the money that's available to us through the quantum financial system. In our minds, it is unlimited reliance, mind, there's a certain amount. But the fact is, is that those gold certificates have to be activated to be available to us for money. We're going through the activation program when the redemption takes place. Now, once the redemption takes place, is there another vehicle to activate those digital gold certificates? Is the question and I don't get much of an answer. It's my opinion that this is a one time redemption appointment for all of those in a window of opportunity. And each of us who are going to get funds from the quantum financial system, and from the alliance will go in and redeem at that particular point in time. Now, they can see ahead and they can say, we're not doing we're not activating enough, in order for us to move into the galaxy. And how many galaxies are there that are going to be quantum part of the quantum financial system? I don't know. I don't have the ability to count them. Even if we knew. Okay, so here's, here's the basic facts that everybody needs to understand, as we're going into the quantum financial system. Let me put it this way, the golden age of mankind is for all of God's human children, and the others, there's others species and so forth, that will be a part of it. The Golden Age of mankind is not just for this earth. The Golden Age of mankind is for all of God's creation, that has humans in it. God created the quantum financial system, it's created by divine consciousness, for the purpose of having a financial system that can work wherever, because gold is not just desirable. Here, it's desirable in all of the locations where people live. They trust gold. And in this case, they're trusting God's ability to create a financial system. So that the gold can be used for exchange. Like to get into that a little bit more later. But they're going to it's going to be used for commerce, digital gold certificates, given to each individual at their redemption appointment is going to be used not only for our projects, many people are saying, well, I want to I want to build wheelchair ramps for these people in their homes. Well, that's a great project. But you don't need billions and trillions in quintillions. Or yodalillion of money to do that. That can be done in a very short order. So those who have those kinds of projects, they don't need the big funds. Because that's what they want to do. Well, if that's all you want to do, then then this lower rates and they'll lower bonds, we'll just be just be fine for that. But when the alliance is going to expand into these places that are unknown to us, but down to God, he's creating this situation so that his purposes can be fulfilled. And the golden age of mankind will move throughout all of God's creation. Wherever there is a human the golden age of mankind. The Alliance is looking at us, and they're saying there's maybe 30 to 35,000 people but who have a calling from God to be a humanitarian, a very select few in comparison to the whole world. Indeed, for the whole, whatever it is. And they're saying there's not enough people. There's not enough Zim out there to activate enough digital gold certificates in the quantum financial system to take care of the needs. We have 35,000. If we have 35,000 people, I've used my fingers for 30,000. And it's not, I've got so much we can add hundreds of your millions to it. And we'll never run out of money for the bonds, fkr bonds. Last time I checked, we had over 7000 that have gone out. Now, not all of them have the 180 millions. But I put 7000. And then there's more coming in every day. I put 7000 times 180. And I got over 1.6 millions that have been distributed. That's getting to the point where it's a real good thing. It's a major thing for us.

Many of our people are ordering Yodalillion and zitallillions, which is just a little smaller, and as far as the numbers are concerned, and they're getting the center aliens in the bison trillions and all of the things that the larger bonds that that they can use for the redemption appointment. Now I say to all of those I've seen to all of that the rest of us, their intention is not necessarily doing humanitarian work. It's fulfilling the requirement of the quantum financial system to activate the gold certificates of digital gold certificates. These yodalillions and there's hundreds and hundreds and 1000s of them out there amongst our love woners society people. And my say is, if you've got them, they then that's what you can use for donations to the alliance program. Now I'd like us to see the vision that's happening. I'd like us to understand our part in that vision. I have given been getting so much resistance to even a \$500,000 rate on the Zim bonds. And it's not just Jim bonds, there's all kinds of golden dragon bonds and German bonds and Russian bonds. And there's all kinds of bonds. You have to be a humanitarian, to redeem them. How do I know if I'm a humanitarian? I have to start talking to my heart. If I can learn to talk to my heart and listen to what the rate is supposed to be when I ask them, that's by tuning in to the to the spirit world and getting the answers that I need. My mind won't go there. My mind doesn't go there. My mind is here in third dimension. I'm putting up with a guy that pulls in front of me on the freeway. Those are the kinds of things that the mind is designed for. But it it thinks it's in charge but it is not in charge. And that's why we have people pulling out in front of us and you get all upset. That's the distortion that the cabal has created in our living our lives. They are teaching us to use our minds for everything. Why? Because you can't control people that come from their heart. Can't do it. There it is. That's it's that simple. So they shut our hearts down. And they teach us all kinds of garbage that they call religion. They distort it to the point that they created an image of Jesus or thought of Jesus as being something We could never acquire it never get a tune to. And yet Jesus says, Come follow me greater things than I have done, shall you do? So I have people that called to serve, educated to serve in capacities as ministers. And I asked them Well, you seem to know quite a bit. Are you able to walk on water? Do you heal the sick? And they look at me like, Well, are you crazy? That's a that's, that's not a fair question. They asked me I say, Well, you're the one that's supposed to be following Jesus. How good are you following? greater things than I have done? Shall you do it? If you're not doing then then get out of the way? And don't try and teach me things that limit me? Because that's what religion was designed to do. You think the Cabal has been around for a little while doing all that. The Cabal has been around for 1000s of years, generations of years. And we have been conditioned to their program, not God's program. Now, I have no condemnation about these people, I just simply say, it is now time for us to learn how to come from our hearts. Talk to our hearts, let our hearts make decisions. My mind can see down to that turn in the road. Can't see any further but my heart can. So what good is the mind saying and planning for 100 years when your heart can give you the 100 years that you need, and know what to do with it. So those are the kinds of things that why it was the the Alliance program give us gave us the SK ours. They're planning on us using our hearts. They're giving us a reason to use our hearts. Our hearts are begging to be listened to. But we've shut it down. I have been trying to get people to listen to to their hearts. That's the major thing that one of the major things that I tried to do. Ask your heart wet rated the new people, I haven't pounded you yet. Not really gonna pound you. I'm just going to say those who have been called of God need to stand up and be the gods that they were created to be. A child of God is no less a God than anybody and then anything else that is created by God as a child of God. Now, if that is really true, and I believe it is, if I'm a child of God, then who's my father? And if my father is the creator, is God and I'm his child. What am I doing down here doing all of this garbage stuff? Why am I not creating? Why am I being taught not to create? That's just as important that cabal knows who we are. The cabal is really, really intelligent. It's just on the other side there the dark side, we're working for the light side. They know everything that the light side knows. They know how to manipulate us they know how to control our minds. Mind they can't control

your hearts. Now if you're called of God to be a humanitarian, then you will get your funds. If you're not called a God to be the humanitarians that received the redemption funds from redeeming them. You've got to you got to start learning how, excuse me, you've got to learn how to be that person that God has created you to be, and as called you to be the one many, but the one who's going to receive the redemption funds. And we're going to receive the redemption funds. So let's get our gear, get as many bonds as you possibly can. And I'm not saying go borrow money to buy bonds, I'm not saying that at all. I'm just saying Open up your minds to the reality that we have a job to do. And our job is to follow what the alliance has done. The SK our program is, is one of the greatest things that's happened to mankind so far. But it is a tool to get us to where we can do the things that we need to do as part of the Alliance team. Now, the reason I'm being so strong with this is I hear what people say, Well, I've got my I got my exam, I don't need to, I don't need to get all those big things. And because I've got plenty for Well, I want to do what is it the plenty that you have that you want to do? It's money, that's all you're thinking about is money. And I say to those kinds of people, good luck on your redemption appointment. You may come out of there with nothing other than just say, well, you try but you're not humanitarian. And we can't take it, we can't give you the funds that you think you need, or would use. You may have a humanitarian heart, but your heart is not functioning right now. Because you won't let it you keep buying into the garbage that's been been presented to us and what we've had to grow up with. And you think that's true. You You've got to learn how to come from your heart. I'm saying this is a reality. We have it in our hearts to be humanitarians. But our minds are stopping us from getting to that location in the right way. So that we can get our redemption funds and fulfill our colonies as humanitarians. I'm hoping I'm making myself very clear. And I'm hoping that I can change people's minds about their hearts. Your mind is really good at third dimension stuff, but it is not good at spiritual stuff. And if you don't want to stay in your mind, and let your heart do your thinking for you, then you're going to miss the greatest opportunity that you could ever imagine, for yourself, and you're gonna have to come back and do it a different way. Now I'm talking to the the ones who have a calling from God, I'm not talking to anybody else. You can listen. But I'm talking to those who have a calling from God. And it is time that we get in gear. Don't ever talk to me about being greedy by getting the larger bonds and the larger rates. I'll give you something to think about. If you're trying to be the one who has been chosen by God to be a humanitarian. Don't ever feed me with all your garbage that you believe to be true because it's not true. And I'm not going to go before God with my responsibility, having messed it up or something like this or not having given the right ideas and concepts in the minds that they need to come to, to be able to function as the highly evolved humanitarians that they are designed to be. And called by God to be if I had a podium I pound on a little bit, but I don't have one here on my desk. And anyway, I've said that enough. Let's go on. Alliance program. WS let me finish this carry for managing directors and Zim benefactors in training, to release and transact board digital gold certificates. There it is right there. So you want to go asking questions now or you might be three questions so we can answer and before we move on, Carrie.

C

Carrie 24:56

Yeah. Let's see. Does anybody have a question on what Ron his coverage so far. All right, John, your mic is open. John, I

S

Speaker 25:07

want to thank Ron and Anu and the rest of the team for all you do for us. And it's not so much a question. But what Ron said, really connected, connected with me. I was an engineer my whole career. And, you know, engineers, they're totally in their head. And as much as a few years ago, I thought, all this holistic healing and all that stuff was a bunch of hooey. And then about three years ago, I started a group with healers. And I, my heart has gotten so open, and it's just unbelievable what these people couldn't do. And about a year ago, I was feeling for lack of a better term jealous, you know, I'm going, why can't I heal people. And in one meeting, one of the healers had had a real bad week, touched my hand, and I could just see that I had had took all our stress and everything from her. And I realized that when I have been in my heart, I have been able to do this my entire life, you know, I can, I can take my wives arthritic hands and hold them, and all the pain goes away. And I do this for a lot of people. And, and, you know, it's, it's amazing, when you get in your heart, and you use your heart instead of your head, what, you know, it's limitless, what you can achieve. And, and this program, you know, I've had been building plans for three years for healing centers, and, and just all kinds of things to help humanity. And everybody said, You're crazy. You don't have the money. And I said, God will provide. And this program, I truly believe will allow me to, to build a worldwide team or global intergalactic team actually to, to help humanity and get us to where we need to be in the fifth dimension. Like I said, not really a question, but wanted to share that. Thank you. Well, thank you.

R

Ron Giles 27:11

testimony of what we're trying to do. And I hope that everybody can tune into that, because it's available for us. Next question.

C

Carrie 27:23

Dennis is Mike Dennis karta, and then it'll be crypto Crone. Dennis, your mic is open. There you go.

S

Speaker 27:30

Hello. Yes. I just had a quick question. Originally, when I had purchased Zim bonds, I had been setting up a project of my own personal humanitarian what I had envisioned for quite some time before any of this came about. And then when the skr came through, I had such a drastic shift into solely setting up and following the five pro programs, the CAC, the everything all the way through the NRELS the ESS. Now, when I'm coming in for redemption, if that is solely my project, to set that up globally, and then even not just have international commodities, clearing houses, but as you said, galactic commodity clearing houses? Is that enough of a project? Or do I need something bricks and mortar develop myself?

R

Ron Giles 28:32

The most important thing is to realize I wanted to save the world. You got to start with the first step, how do I eat an elephant, one bite at a time, you take a little bite. And then you find out where the problems are and solve those, then you can move on to something else, you'll have

a new set of problems that to solve. It isn't that one step at a time that we make the many miles steps that we need to do. And so I say, Yes, start with the end in mind. But realize it's going to take one step at a time to get us there. Now all of us are going to do that. And we all have our own projects. Just imagine how effective we can be with helping the Alliance to go through this. And be sure that we're qualified and, and doing our job properly. Expanding when we can and getting the right people in the right place to do it. Then that's our job and we've got 100 years to do it. So let's go one step at a time. But now is the time for welders that but the structured payout program is the one that's going to give us our funds over the 100 years. Most of the money in these larger bonds and so forth, that money is not going into the structured payout because it ties up money for 100 years that cannot be used for anything other than that, and you have a big amount of of payout or payments that are coming out on a quarterly or annual basis, whatever, and you don't spend it. So that's a waste of money to put it into all of it into the structured payout. So what I'm trying to get people to realize now that the SKR is here, you're going to get way more money than you think you're going to need for your projects. The best one to help you to understand and go through and plan and see what your options are. And make a choice is your counselor who will be there giving you the money. What a great opportunity to get acquainted with that person. And when you do, you'll come up with some really, really good ideas. And the larger part of the money can go into an account is the money, you're still yours. Absolutely. You own that money, the alliance will never come and take it from you. They'll come and talk to you about things and opportunities that they might have. And you can request certain things. And that's the way they haven't as will work with us. But that money is yours. Don't ever forget that you are the one in charge of it's your stewardship responsibility. They're here to just give us the options of how we might be using it. And there's a lot of good things to determine that your education level how well you can do this, that the other how well you've trained your mind to think you can educate your mind and do a lot of good. And if your heart is open and doing its job, then the combination of the two, you cannot be stopped. So we counsel with your counselor, talk with your counselor sit down and and let's recent together and figure out the best way to go and how much money I want to put into structured payout. And how much I want to put in the donation. We call it a donation because you know, that's the thing, it's easier to say. But it's far beyond that.

32:29

So this counselor, this is when I go to the redemption there, they will be there and they're assigned with me and they become kind of like my best friend help me guide me through this.

Ron Giles 32:39

Yes, that person the counselor will be the one who is conducting your redemption appointment. Perfect. They all speak your language. whatever language it is, it will speak she he will speak your language.

32:59

Thank you. Okay.

R

Ron Giles 33:01

You're certainly welcome. Thank you for the question. Good question.

C

Carrie 33:07

All right, Ron, I guess there are no more questions right, now, we can move on to the next set of bullet points. So this has to do with with specific bonds being offered in the SKR program by requesting them on the job form, no need to purchase any bonds, they're free through the SKR program, all you have to do is fill out the Jot form with the amount of bonds and submit it, it will create an SKR certificate summarizing your request.

R

Ron Giles 33:40

That's correct. If you want you know that you can purchase bonds, you can purchase a larger bond. But you can have 180, you can have up to 180. And that's 3 million zeros per million. So you're gonna have a lot of money. And you can buy more bonds and get more to put away and activate more digital gold certificates. And I would never discourage anybody from doing that if they have the money to do so. And then you ask the high rates that you're asking, they're saying to us, have them ask for the rate that is in their heart. If the rate in your heart is comes first and you get all of these big bombs later, are you supposed to know your heart knows about all that stuff? And can give you the right ideas of what about what you're supposed to do? My heart sings to me. I know exactly what I'm going to ask for as far as the rate is concerned. And I'm getting donated stuff, bonds Probably got 1100 T notes and and maybe three or 4000 Gold Lillian's and I'm not changing my my bond or my rate for anything. Because I know that those digital gold certificates, if we activate them now then we can use them. If not, then they're a waste of time, waste of money, waste of gold. In my opinion, now I could be wrong with that may may have something for other countries or other galaxies, whatever I don't know. But I'm looking for what we can do. So that's where I'm looking. Okay, fill out the job form, yeah, fill it out. Now, people are concerned about that they fill them out wrong. The sweet lady who again sets doing this program for us, she, she worked for us, she worked for Tracee has been working for Traee for three years. And she's just kind of changing her a little bit. When she goes to work in the morning, she will do all of the fkr requests that have come in during the night. She'll do her work during the day, and then allow maybe an hour or two depending on what's coming in during the day. And then that cycle changes, but she does not work on the weekends. So if you put your your request out, and it doesn't come right away, especially over the weekend, just to understand, she does work on the weekends. It's not automated. And there's a person behind this. And they're trying to figure out what you want. And she would also like you to get up to the 180 quintillion or millions and 2100 quintillion notes. She loves to see that. And that's what she'll try and work it out so that you can get everything. So if you've got, you did to SK Rs, and you got five, which was the limit at 10, or was the way that you had to do it at that time. And then you have the one and done and you fill it out, you want the other 170 Millions? Well, that's what you put down on your bone, or your request. And that's what you'll get. And she'll try to help you to do that. So if for some reason how emails can be lost, they get put somewhere, then Google whoever might have some kind of just do another one. If it doesn't come in 48 hours, just do another woman, she'll know to duplicate because she sees what she sent to you already. So you're not going to be charged with trying to to manipulate or cheat or anything like that. We're there to get you your 280 and the and the 20 quintillion, we're there to do that. That's what the SKRs are for. That's more

important than you thinking that you're trying to cheat. We don't think that way. Our people won't cheat. And if they do, then who's going to be who's going to have the problems? It'll come at the redemption appointment. Sorry, you cheated on this that or whether? No, we're not going to do that. The Alliance is doing that. We're not judging anybody. We don't want to judge anybody. We don't want to be responsible to judge anybody. That's why when you go to your appointment, and you want to be a gym benefactor, they'll give you ask them. And if you get your funds and aren't vetted humanitarian, then you'll get that referral form. And give that to level one society and we'll make you a contract you to be a Zim benefactor, a managing director. So that's the way it's going to work. So don't worry about we're not going to say, Oh, well you put it in, you've got if you've got 100 Quintilian. And some people have tried to do that. That will shield trim it down. But if that hasn't changed, I'm not going to be fussy about it. You know, if you get a few extra if you get quite a few extra, I don't care, we've got plenty to cover it as far as what we have reserved as bonds for this program. I'm more interested in you using your heart. So if you haven't a problem feel as another jot form, a request form for the SKR and then it'll come back and you'll you'll be excited to see that you're going to get the full amount that you've that is available for you somehow working out It'll happen for us. Let's go to the next one.

C Carrie 40:04
We have to get to questions. Ron, can we take those before we move on?

R Ron Giles 40:09
Yeah, up to three.

C Carrie 40:10
The first one is Ken. Ken Blair, your mic is open. Hello, can he had some trouble before? And it seems like it's still happening. Alright, we'll go to crypto crown she had her hand up or he had her hand up before your mic is open crypto currency.

S Speaker 40:33
Yeah, good afternoon, everyone is the serger. Ron, thank you so much for everything you're doing is so inspiring. I just want to offer a little suggestion to the group. None of us has ever seen or heard or had any kind of zillions of dollars. So we don't know what that's like. My wife and I took a small course called Money loves you money, love money. Love money, because money loves you. From Sarah McCrum. See, si r u m. And it was transformational. Because our relationship to money is totally altered. And I can only suggest can only suggest because it brings in the spiritual aspect of dealing with money. That's all I have to say.

R Ron Giles 41:34
Very good. Thank you for those comments.

C Carrie 41:37
Angela. Angela, your mic is open.

i 41:41
I have a friend who I'm trying to get some collaboration in Africa. There's a church in Rwanda, and there's some in Congo, etc, etc. And my friend is leaving she joined love Won society. But she's leaving for Africa on Thursday. Do I? Or are we can we transfer some of the bones that we have? Or do we have the people who are signing up for love won society, fill out a jot form?

R Ron Giles 42:20
Have a fill out a jot form if she's already got bonds and taking them with her, that's fine. There's no problems with that. But the job forms are available for everybody. Even if you have gazillions of bonds, the job form is available for you. So I'm gonna get one. Why haven't done that I really haven't thought about but that's gonna happen. I ran into your question.

C Carrie 42:53
I had to mute her run. I'm sorry, because of the feedback so she's not open right now.

R Ron Giles 42:58
Okay, by knocking on

S Speaker 43:00
the China.

R Ron Giles 43:02
Hi, Ron.

S Speaker 43:04
How you doing? I have a quick question. I, I put in for the 100. area. medallion. So yes, KR and your little plus I'm enjoying donating your Linnaean security and, and to Jim bonds to the alliance directly to them. My question is, Can I apply for Muslim bonds to donate to the island designs?

 R

Ron Giles 43:33

You can buy more ships, just the SKR with 180 billion that you can buy more Zim bonds if you want to do that. It's helpful for you. Hi, Ron.

 R

43:45

Yeah, I'm because I'm dying. I'm donating like forum and one of these Linien 6,000,200 Zim bonds. Okay, that's the question. Thank you so much.

 R

Ron Giles 43:56

Sorry, it was probably certainly not a problem I read. Take care now. Let's let's go on. We're getting there's an item that I wanted to discuss this gonna take a little while to do okay. All right. This might be the time to discuss negative sting operation by the lines. That's not so important. The lines will catch any of the various true the SKR program cannot be duplicated. That is true. The Ise knows that only LWS certificates will be accepted at redemption. That is true. There are those wisdom who may get small amounts of money and I don't care about those. I care about the people that's not the point. But they're not designed to get the larger amount and I don't know how deep that will go. And then Ron is a skier process secure Absolutely. The see we're getting permission to use them. If other people get while you Some, and they're doing a fictitious a or criminally, or just trying to be as good as they can be, they're not going to get it, it's us that has the redemption or use of the sky program. And we're protected and they're protected. And so everything's gonna work out fine. Now, I'd like to just bring up the person two or three times ago, question, asked a little bit about the money. And I appreciate what you said, as far as the Money, Money loves you. And you should love the money that you have and use it for the right purposes, I would like to present the idea to you that the quantum financial system and the digital gold certificates will create funds, money, medium of exchange, whatever you want to call it, that has the highest love quotient that you could possibly inject into those funds. They're not dirty, they have never been dirty, and they will be kept clean, because the alliance will not allow them to be turned into something. Why? Because it is love energy. We'll call it money. But when you go out and use a gold digital gold certificate, from those, excuse me, gold backed currencies, from the quantum financial system and you make a purchase. That purchase is you extending that love to the person who you're buying that from. We're just simply spreading love throughout what we're doing. Now, 100 years later, people saying well, we're not gonna need money, then we're not gonna, you don't know what you're talking about. Because we will always use love as a medium of exchange in the golden age of mankind. So if you don't know what you're talking about, then don't talk. But if you do know what you're talking about, this money is love in action. It is the greatest love that you could possibly find anywhere to give to somebody else as a medium of exchange. If you want to think about that for a couple of days, that's a good thing to do. Because that's where we are going. That's the environment that we're going to create and live in within the golden age of mankind. Okay, that's as much as I want to say about that. Go ahead. And let's ask this last last little bit here a little bit.

 C

Carrie 48:14

Last section. Okay. All right. Will there be enough gold to support all fkr bonds requested? Please discuss briefly the donation of SK ons to the alliance? Why would we want to do that? Helping outside of our planet and a discussion with our angel counselor on what is appropriate?

R Ron Giles 48:37

There you go. I like that. And now, wouldn't it when somebody says why would we want to do that? And I'm used to asking you, why would we not want to help other human beings wherever they live? Well, we're not want to have them in the golden age of mankind. You know, we are individuals in third dimension. When we go back out into the third dimension, and go back into the Celestial realms. We join with the others who are already there. And it becomes one again, we separate ourselves out to be born into third dimension, and some of the other dimensions as well. And so that's the way this is always going to work. So if it's somebody else's baby is that not somebody is that not? Is that baby, something that you won't love, doesn't matter. Our love is extended to everybody. So we're going to be helping other human beings. And that's the most important thing that we can do. And it doesn't mean that they have to be living on this planet. And it doesn't mean that they're humanoid body is can be just a little bit different. It doesn't matter. There are children of God and they deserve your love, just like you are deserving of their love. So we got about five more minutes, so it's got some questions.

C Carrie 50:23

Let's see, let's go to Harlan.

S Speaker 50:26

Hello, first of all, it's an honor to talk to you, Ron. Well, thank you. Between when the SKR first came out, and then they got switched to the one and done I ended up with 190 million millions. Is that going to be okay?

R Ron Giles 50:47

For me? It is yeah. I don't think anybody will mind. Okay. This one to me, just just just just target it's not going to be a problem for you. If you're the person, your counselor says, well, we should only have 190, then just subtract 10 off. It's not a big deal. Okay. You spend that time with your counselor to be sure that you're in harmony with what's going on? And they'll that'll be fine. Okay, we're going to make

S Speaker 51:19

sure don't want to get in trouble. You know, so.

R Ron Giles 51:24

No trouble there, brother.

S

Speaker 51:27

Okay, appreciate it. No problem.

C

Carrie 51:31

Thank you, Monica. Your mic is open, Monica.

S

Speaker 51:37

Oh, my goodness. Hi, Ron. Oh, Monica. I haven't been I haven't talked to you before. So but I've listened and listened and listened. And then I just, my goodness, I just want to thank you for this whole thing. I just, I know it's been in my heart to do this for my entire life. And I've went through so many things. And I'm sure every single person on this line has went through so many things in life that now we're going to go to get to go back and share the love with people that have been through similar things that we have. So I can't even imagine this. So thankful, I listened to one of your most recent calls. And it talks about once the money comes in that you're going to actually use an accounting firm. And I had written that into my plan. So just run it similar to a business where I'll have an accounting firm helping me manage the projects that are going on worldwide. And I love that. So I think we're gonna have to wait, though, for the Cabal to tell us who to use and who not to use for the Cabal to be gone. So we'll know the good companies to use. So just kind of wait until we start talking to people. Is that what it is?

R

Ron Giles 53:11

The KPMG. I inquired about that. They said that was a good one to use.

S

Speaker 53:22

Okay, thank you.

R

Ron Giles 53:25

It's not from actual experience. I like the idea of the accounting parameters, because they can produce reports for us to see how we're doing.

S

Speaker 53:37

Exactly and monitor each project for us. So I was glad to hear that.

R

Ron Giles 53:44

Yeah, it's just a good accounting process. It's a good way for you to manage. And go ahead.

S

Speaker 53:53

And can we also use companies to develop software for us?

R

Ron Giles 53:59

You can do what you'd like.

S

Speaker 54:00

Okay. Okay. Yeah, because I know a company that develop really good software to help us manage each of the person each the each of the projects, all the way down to the actual person.

R

Ron Giles 54:16

Yeah, I would suggest when you do that, to put them under contract employment contracts for all of their employees, and for them to make a lot of money, double the work they've been making before, but them under that kind of a contract. And you're already starting in on the ESS program, as well as the community assistance programs that can be pulled in under contract. The more under contract, the better it is. You got

S

Speaker 54:46

it. So then I don't have to manage payroll, right.

R

Ron Giles 54:50

You don't have to do it. You don't have to miss it. That's correct.

S

Speaker 54:53

Thank you, God. And then one more question on the CAC's. I know Tracy, it's There's a map gonna come out? How do we make sure the CAC is because I already have my cities, you know, kind of in my head that God gave me to take care of? And how do I make sure how do we get on the map?

R

Ron Giles 55:15

Well, it's going to come out at the appropriate time, I'll tell you, the people who are doing this are brilliant. Excellent. You know, they've got it color coded, and you got a flag here, and the flags are color coded to, I'm thinking of coming here, I, I'm planning on coming here. I am here. Those are the kinds of colors that they have so that people can get an idea. And then on a larger map, there's, there's the open areas that you can see that don't have opportunities for or that have opportunities, and nobody's taking them to have CAC CAC. It'll be really good. But it's only as good as those who will use it and will be appropriate with it.

S

Speaker 56:04

So we've got it. Well, I appreciate everyone. Yes, it'll be it'll, it'll help humanity more, we map out who's helping who, and who still needs help. So thank you for doing that. And

R

Ron Giles 56:17

we will always maintain anonymity. So it's not it's not enough given so that people can determine who you are.

S

Speaker 56:26

Okay. Well, thank you so much. Oh, my goodness. Nice

R

Ron Giles 56:32

to talk with you. And thank you for being so kind and being with us. Your presence is very welcome. Thank you.

C

Carrie 56:39

Thank you. George, you're up.

S

Speaker 56:44

Oh, great. Can you hear me now? Yes. Yes, towards Ron, it's been a few years, it's so good to be able to communicate with you again. I've been following of course, like a lost puppy. But I know I'm not lost. I've been found.

R

Ron Giles 57:01

yourself. Okay, good.

S

Speaker 57:03

All right. Yeah. So on the fkr stuff that I submitted the application, everything went really smooth. Of course, I ordered the maximum amount when we finally got to the one and done. And my question was having the 20 quintile 100 quintillion notes, I believe you had mentioned that we should discuss with our counselor, how many of those we should want to keep for our structured payout amount on that verse versus the, you know, versus putting all almost all of the 20 notes in the donation part. So that's just the simplicity of the of my question,

R

Ron Giles 57:57

okay. And it's very easy to answer, the 20 and the 180. And all of your other bonds will be gathered together and submitted, and you've given them a rate that you want for them. And here's the here's the bonds. And then when you get your funds, that's when you start talking about how much you want to put in a structured payout. And how much you want to put in the account so that you, you can do things that might come along. Now, it's not just for the Alliance, that that accounts available. It's your money, it's your money. And if you find a patent or something like that, that that you'd like to activate and do something, then that money is available for that as well as the that's money that is not coming on and on a quarterly basis and so forth. It's money that's coming now. And it can be done in grants, so that you can manage it properly. And so let's be aware of the fact that the alliance is not going to inhibit us from doing what we're going to do as far as our projects are concerned. And because there's some what we don't we don't know what's coming to me. And it may be that we're gonna have to start manufacturing, anti gravity machines. And if there's one you know, there's there's some ones it's a little bigger a scooter there's one a little bigger and then a little bigger until you get saved a semi truck and and maybe the size of two semi truck or whatever and it can go from earth to someplace out in the universe somewhere, I don't know. Well, those are the kinds of things that we will be called upon to do. And it will be it will just be awesome for us to be able to participate in those kinds of things and work do show with a lot of good idea
