R Ron Giles 00:00

The hearts are all there. And we're what we have is gold to work with. And so we're people like you are just coming along so well. And I'm so grateful that you have decided that you're going to be part of love won society. Thank you very much. Well, I feel like I feel like I've graduated from the third from the third year now into the, you know, multiple years even further on down the road. I'm ready. Yeah, you know, it's ready to be ready, as Abraham said, it's well, and not only that, but it's coming. And we can't see around that next road or that turn in the road. But when we get there, we'll see that there's just the whole earth is going to be opened up to us, and we'll have a God guiding us and we're going to be in good shape. That's for sure. Thank you.

C Carrie 00:52

Thank you so much. Once

S Speaker 00:53

again. My privilege.

C Carrie 00:57

Alright, so we're on. Should we go on to page two? Well,

R Ron Giles 01:03

oh, because the whole nother hour. I'm sorry. Yeah.

C Carrie 01:08
Okay. All right. And we've got all these hands up for the SDR. So,

R Ron Giles 01:14
last call for questions. Yeah.

C Carrie 01:16
Okay, so if your question is no problem, if your question is about the fkr, please leave your hand up. If it isn't, we'll come back to you at the end with another question section. So I'm gonna go to a Lyra library, your mic is open.

S Speaker 01:39
Hello, hi. Actually, my question is not for the str. It's regarding the XRP Exelon. Because I've been hearing a lot of information and trading a lot of information about these digital assets. And my understanding is that there will be kind of interface or a medium between the five D consciousness where the quantum financial system operates and our 3d computers. What's your thoughts on that? I know it's not in the topic of healthcare, but just wanted to ask,

R Ron Giles 02:22
I'll just be brief. Our computers on third dimension will interface when allowed by the quantum consciousness and most often it will be a we will will be finding or we will have the ability to go into our account and make transfers and doing whatever we want to do for has if we have online banking and so we'll we'll have that now the computers themselves, the Alliance couldn't just go ahead and change things. quantum consciousness can recreate everything that they want as far as computers are concerned. So there's a lot of questions that we can ask and answer and get answers for. But unless we are talking to divine consciousness, we're not going to get we're going to get what Divine Consciousness has prepared for us so we'll we'll be able to go into them we're having the financial service centers that will be our banking our you know, the quarter bank and that sort of stuff so that we can go and do our financial banking pet we can't do within the quantum financial system and a lot of that has to do with borrowing money and and and see what else would there be I guess it's all good to get cash if we wanted to have cash. People who who are cabal want a cashless society but we don't we want to have a little cash around. There's nothing wrong with it then there's it's planned for within the quantum financial system. So the financial service centers will be available. So I don't worry about this gonna be well it is and there it is. Oh, good. That's my Allah kinda.

C Carrie 04:22
Thanks, Ron. Charles, your mic is open.

S

Speaker 04:26

Thank you, Ron, for everything you do. And Tracy sometimes talks about your rant when we're on question and answer and I say preach it wrong. We need the tough love and keep it up and we love you so much. I had two quick questions. I bought a couple Nick bought some Sicilian and a lot of aliens before this program with the SKR's came up. Now. Is there a zero format we can use to print SKRS to take with this or can we order them for those?

R

Ron Giles 04:58

No, you again you get One, one set, that's 180 and 20 quintillion. Other than that, you just take your own stuff with you. Now, if you've ordered it, and it hasn't come in yet, keep the receipt. And the receipt will be your fkr. As far as the alliance is concerned, they will redeem receipts. If your bonds have not shown up yet, they haven't. I really loved that. I really love that. I think that was just great. But you don't have to do anything. Just take your receipt with you. And so

S

Speaker 05:41

glad you corrected me, I only ordered 100 instead of 180. And you corrected me on your last question answer thing. And so can I just add add, I don't know. Okay,

R

Ron Giles 05:54

just do have allowed another form as KR and then and it will be taken care of.

S

Speaker 06:01

Thank you so much, Ron. Love you so much.

R

Ron Giles 06:04

Welcome. That's, that's precious. And I appreciate people like you and what a blessing it is to have people like you that are associated with level one society. You're the one that got the whole organization. Thank you.

C

Carrie 06:19

And now we go to Darren Jansen, your mic is open. Darren Jansen. All right, Darren, we'll come back to you. Let's go to Patrick. Patrick, your mic is open.

S

Speaker 06:35

Thank you so much. I guess I'm just there to mention a word or concern. I put in for the I had received five already on the first order and then put in for a second winning batteries seat. Will I put it in for the the one once and done thing before I got the other five eventually can put in for 175. But I haven't received the receipt or gotten the fkr yet. ago was that? When it first came out?

R

Ron Giles 07:11

Okay. Yeah. Yeah, then then go ahead. And the Tracee is putting the job form. On the links the do it again, or just yeah, just click on that and and fill it out again and send it in. Okay, problems. That was my only concern. Yeah, we want you to have your 180. So do everything we can to get you there. Thank you so much. You're certainly welcome to pass

C

Carrie 07:44

1000 Kelvin, your mic is now open. Alvin Are you

S

Speaker 07:52

just want to clarify, because I've read and listen to the previous q&a SKR Desk ers was created because of the problems of the meaning right to third world countries. Because some of us cannot purchase gyms. But let's say I actually requested two SKR's. So maybe the other extra is null and void. But when the redemption comes, we will get something out of the 180. And the rest is for donation to the alliance, right?

R

Ron Giles 08:38

Well, you you talk to your counselor who will be the person at your appointment, who is going to be conducting the appointment and talk with him and or her whatever it is. And then you can determine what you'd like to put in the structured payout program to be sure that you have plenty of money for the projects that you might want to do. And then how much you want to put in that other account. I would call it a donation account. But it's it's your money and the alliance that they want to have people who can with large sums of money that want to be put on a project of some sort, and it couldn't be local in certain areas, then they can contact you and see if you have an interest in doing it. And that that point in time you can make up your mind and counsel with your counselor again and then come to the correct decision. So that counselor is there for your help to resource. They do speak your language so I hear different language for them than English but they will speak your language to help them.

S

Speaker 09:55

Oh, sure, sure. Thank you English. I local would Hey, thanks. Thanks.

R

Ron Giles 10:00

R Ron Giles 10:02
You're certainly welcome.

C Carrie 10:05
Ron, should we possibly go on to the second page and then open it up for questions again, at the end of that?

R Ron Giles 10:12
Let's see, what are some of the things that we're still talking about this guy was there. Yeah. Let's go ahead and do the second part two.

C Carrie 10:18
All right. Okay. So part two, keep our eyes on the prize, a discussion for all people, even new folks, we must take responsibility seriously, our responsibility seriously, the SKR is a bonus. It's not about the SK ours. It's about preparing and training as humanitarians in Loveland society, to get us ready for redemption. It's not about the fkr. It's about preparing us for our humanitarian projects, and the golden age of mankind. So please discuss what that is, for anyone who may not have heard me talk about it before

R Ron Giles 10:56
Cabal has had. It's their free agency to put us under dominion and control. They've taken away our domain, they are dominion, our control. They usurp that and taught us to be slaves. And in the slaving issues, we always have somebody that's bossing us around or telling us that we can't do this or telling you that we can't do that. And you'll notice how things are getting worse and worse and worse. That's because they know that they're finished, the cabal is finished, they're not going to they're trying to hold on with everything they have. Because there's nothing left for them once they have lost their power, because they're there in the darkness. And leaving it up to God for whomever or whatever God wants to do with those people. And that's, that's none of my business, and I don't care. So the golden age of mankind is when we will have full control and requirement or responsibility for our own individual stuff, our own domain, our it's a kingdom, I'm creating my own kingdom, and the My Kingdom has all of my stuff in it. There's nothing in there that I'm trying to control, like a person or even my family, I don't do that. And I don't control my wife or I'm married. So I don't have to worry about that. But I don't control my children. They're all grown there have free agency, they are fully accountable for the things that they do with their lives. Now, that doesn't mean that God is going to judge them, it just simply means that they will have the consequences for the decisions that they make. Consequences are not punishment, they're natural results of the things that we do. And I have a hard time with people who think that they will be judged by God. Because he doesn't judge he gave you free agency to do whatever you want to do. And so is he saying there's a well, you did this and you did not? Oh, well, you gave me the free agency to make those decisions. I did what you asked me to do. I'm doing the things that you asked me. Not the things but I'm doing what you asked me to do in that time free agency and

exercise it and then everything's good. And I have to suffer the consequences of the decisions that I've made. And then we sit down and we talk about it. Did you learn a lesson here? Did you learn something that when we did when we pass away, we have our we come we have our past life experience. And that's the way we judge ourselves as much as anything. But you'll have an opportunity to see who you hurt and have an opportunity to see those who hurt you. And it's gonna be painful to integrate. If you don't live the good life and haven't murdered anybody or something like that, then it's not going to be as bad as it is going to be for those who murder and rape and kill. That's just the way it is. So there's no judgement. Those who say the court Songhai. They don't know what they're talking about. There's no courts in the heavens. They they look at us as perfect. God looks as as perfect because he gave us agency we did what we want to do it, where's their imperfection and that? So those are the things that we're going to learn how to do.

C

Carrie 14:45

We go back the second one, it's up to us to learn and continue. Okay, let's go to that one. All right. It's up to us each individually to learn and continue to learn on our own. We need to learn the process. process of preparing for redemption, we need to learn the love Won society programs. And we need to make the cure fest 20 twenty.com, the place to go for the information we need, rather than emailing Ron or Tracee or posting chats.

R

Ron Giles 15:21

This is a good statement. Part of the process of preparing for what is coming is to learn how to use your heart instead of your mind. And a lot of that has to do with an attitude. A lot of that has to do with things that we believe. And there are certain things that we have a strong belief in that may be determining some things that we don't want in our life. And so it part of the preparation process is not just the redemption and having the money. But it's learning how to do the thinking of a humanitarian. We're becoming, I mean, we're being vetted as humanitarians, because we have a heart for it. Now some people are vetted as a planetarium and their heart is not up to speed, their mind is taking control. And those humanitarians who have not released their heart to be making up more of the ideas and decisions, may be those who are going to be humanitarians with other people getting the funds and, and then being a part of projects, and so forth. Everybody's worth their weight in gold or worth their whatever they're worth, what they have accomplished, they are what they have accomplished. And the heart is always there. But if the mind is still the one that's taking control, then it's going to be very difficult to be a really high highly evolved functioning humanitarian, a certified humanitarian. So the alliance can judge us as far as getting the money is concerned. But we have to show up prepared, if there's loose ends in our lives that we know are there. You know, swearing at people and you pull it in front of you or something like that down the freeway, swearing to your dogs or your whatever, or beating your wife. I hope I don't hear a person who is in our humanity, carrying projects that has the idea that they can beat their wife that is a disqualifier as a humanitarian. So if you have those, if you do those sorts of things, and just put it aside and you go into your humanitarian appointment, and you haven't dealt with those kinds of problems, you're gonna have some problems. You may not get any money. You have to, you have to be honest with yourself. If you're in it for the money, that will show up so bad, you won't believe it. They see who you are, what you are, it's a radiance. And if you have a mani radiance is similar to the green radiance. They can, they can see that as you're coming in the

door. They've already seen you anyway, because they've been with you for the last how many years I don't know. But they know who you are. And if you're not taking care of your those things that you know you're doing wrong, and you go into that appointment, they'll remind you of the things that you've been doing wrong. And you may not be able to get some money. This is all I'm trying to say. If we prepare for the redemption, then we have everything in our life, we should have everything in our life accounted for and making very strong, constructive, assessing what we've done wrong and making some changes in our lives. That is as important and if perhaps not more important than preparing for your appointment. What are you going to do? What are you going to ask for? What are your bullet points? What are the weather, all of those things are nothing if you're not going to get the money. So their real preparation is in the personality is in the person themselves. Are you taking advantage of other people? Are you working in a business that takes is not honest with people? Are you working for people who want you to be dishonest with their customers? There's other jobs that we can do that, that we take our integrity with us to work. And when we come home, we haven't given it to somebody else. Those are the kinds of things that they're subtle perhaps. But if you're not looking at those kinds of things, and you may be overlooking some things that are going to be very detrimental to add the appointment. So when you repair, you're starting to do all of these things. Yes, there's the physical stuff that you got to know, love won societies, programs, if you're going to use them. But you're also going to have to have, you're the one that's going to be using them. And if you're all distorted in your thinking, and your thought processes, and believe things that are not true, and pattern your life after those things, and you haven't taken look at things to be sure that you're they've got the greatest truth that you can live. Those are the kinds of things that you can prepare for. But it takes self analysis. You go sleep at night, and you say, Oh, who cares? Then go to sleep? Well, maybe an extra 10 minutes or so at night might be a good time to think about how you're doing. May I treating my neighbor's right. I mean, my treating my children? Do I lie to my children, to cover up for my stupidity, and blame it on them. You can kill a child by destroying their dreams and their hopes, oh, you're not worth it. That's killing that child's dreams. If you think that's not important, you'll find out that it is. And so, you've been given the responsibilities? Are you doing them taking care of them? Are you doing them well. So that's important. I think that's good for that. Let's go ahead. And oh, by the way, please, please. Oh, and this is something I wanted to say so badly. This morning, I woke up with 93 emails. 90% of them perhaps were just thank you, oh, so appreciate this. And I read everything. And I'm assuming unless there's some bad stuff in there are bad stuff that come through, that we need to address and take care of. But please send me blessings. Don't email me, the blessings and the thank yous, just send them to us. We appreciate that. But that doesn't fill up our emails. So that, you know, I have a hard time finding the emails that are for me personally, because they're all mixed up in the same pile. And so love us, but don't email us that love, just send it to us. And we feel it. We feel it. I read every email again. And so that's just one of those extra little points that we'd like people to understand. It is not necessary to thank us for the email that was sent from November 13. Last year, as you're working your way through them, yes, we understand and we've had hundreds or whatever of thank yous for that particular one. And we know that they're there, we know that they're effective. So just go through them and send love if you want, and we appreciate that and send we'll pick it up. We'll pick up on that. That's just a collective thing that happens. But please don't email us. I would appreciate that. So Tracy, please. She's getting a lot of emails. I'm getting most of them but she's getting a lot of them and, and it's overwhelming. It really is. Okay, questions?

 Carrie 24:05

Well, shall we just the next section is all it's a long section but everything we later it's kind of

one big topic. Shall we just finished that and then open it up for questions for the end? Yeah, asking is not always learning, especially if you're trying to shortcut the process. qf s 2020 has so many resources, materials, videos, blogs, and the wealth management series to properly prepare you for your projects. Most people try to ask questions and not go to the site first. Everything is there to learn from and I want to just put a plug out now for our starting steps. document that Bob has started posting every day. It's a good thing for everybody to check that out because that if you've missed some of the steps that may create questions that could be easily answered by following those steps. And going through all the resources that Ron and Tracy have created for us. So that's just my little plug for that new document. It's called Love won society starting steps. So what happens? Yeah, what happens if we don't properly prepare for what's coming, the SKR mean nothing, as you won't be able to redeem them, you'll not be vetted as a humanitarian, you'll not be able to accomplish the goal of doing God's work for humanity. And you won't become an vetted member of Loveland society if you're not prepared to do so. And finally, asking questions can be very good if you've prepared and only if you've prepared, if you've registered for emails on the qfs2020.com Site, you've requested and received your SPR certificates. And most important of all, from my perspective, is you've prepared your heart for what is to come.

R

Ron Giles 26:08

Okay, I like those. And you and Dom come up with some really good stuff here. I had a lady that sent me some information where she had same, you know, she, I was driving when I listened to this, and I thought I got it all. And she screwed it up royally. The SKRfkr request. And I'm, I'm thinking to myself, well, if you're reading to try and get through it, instead of getting it in information that you can remember, then that's what you're looking for. Because if you're reading stuff, just to get through it, or listening to videos, just to get through it, and you're not focusing, you know, once you listen to it, and then you want to go back and and turn it on while you're getting ready for bed or something like that, that's fine. But oftentimes in our thinking process, we're just trying to get through it. And then we say, now that's finished, and I don't have to worry about that. And then you start asking questions, and I say, Did you read that? Did you read the article about the glossary? And all of the terms we've gotten there? Have you have you read that enough times and memorized what the terms are using, because when you get into the documentation and things, that's the, that's the glossary that we're going to be using, those are the terms, and if you haven't, take a look at it and haven't done a good job, then you may just go through the document, and you still won't understand what's really there. Because you're not prepared. And I'm thinking to myself, how better Can I do this? We have over 16,000 people, we're having an additional 100 people per day that are joining with us. Those documents are the only thing that I can do. I can't take care of all these people. I can't be asking questions 27 times, give me the answers 27 times. And then I'm still looking at another 3540 times from new people. One of the biggest things that's frustrating to me is I have an email that came in yesterday. Where do I start? How do I start becoming a part of your program? You know, you just kind of have to hit your head on. Where did you learn about us? Who told you about us? You know, I understand that there's questions there. But don't put it down on a piece of paper. If you have not started going through the program. Please, please don't do that. You're messing yourself up. If you went to school, your teacher gave you an assignment, read this chapter. And you come back to school the next day and she said, Well, I didn't understand quite understand this. Well, did you read it? Well, I thought at the end, but I didn't understand it. Or I saying that I did and I never did. What kind of a school teacher can't see through that garbage. And when it comes time for you to get your grades, you get a C or a D. What did I do to deserve that you didn't study properly. You got a brain use it. That's all that

that's all that the schooling will do. Here you have to do it yourself. There's no teacher there to respond to you. So if you do have questions, search them out for yourself. If you can't find it, then you might want to go to the telegram room and ask the questions people will show you tell you, which, where, where to find that answer. And if you, if you ask us, I'll try and give you the answer. But I'm saying to myself, why don't you just go and look for there? All of these questions are answered if you go looking for. So it's important for the new people to understand we love you, we appreciate you. We want you to get the greatest good that you can out of what we're doing. The program is there for you to learn at your pace. But don't be kept becoming an asking questions of us because you're one of 16,000 people. And we cannot just simply answer one question at a time, we can ask, we can answer a question and publish it. And that question and answer situation will be there for everybody that wants to go through the program. So that question that you're going to ask has already been asked and answered. And so you need to go and find it. If you go and find it, you will become familiar with the program. You'll get all of the things the ins and the outs and the love what to do here, what to do there. And have you read all of the documentation? Have you listened to all the videos? Is anybody aware that the videos pretty much follow the documentation? So tech manuals? Just got the information from us how we did this, the PowerPoint presentations from the documentations. So you got double whammy there. And I don't know that even the people even understand that the videos came from the documentation. That's why I say read the read the documentation first. And in reading them first, when they come up in the videos, you say, oh, I can understand that. Yeah. Yeah, just like it was in the in the tech manual. And then we've got other videos that address other things like the preparation for the appointment and so on. They're there. We've got over 100 Question and Answers. That's an hour 100 hours of questions and answers. It's a pleasure for me to do it. I love to do it. And I'm not complaining about it. I'm just hoping that it's effective for what it was designed for. Okay. What happens if we don't properly prepare for what is coming? The SKRmean? Nothing? Yes, they don't. If you don't redeem you won't use your SKR. They'll just be like the people were making false ones. They're not getting there as either. If you're not valid as a humanitarian and I'm, I have a hard time with this particular ideas, people saying how can I become a humanitarian? But how can you become a monetary? If you're not caught? If you haven't got the heart? Are you going to be a humanitarian? Humanitarian can go through things and learn what they need to know. And then they've got it. But if you're using your mind all that time, you'll go through it a dozen times. And still not really understand what being humanitarian is. Because you're letting your mind do it and steal your heart and you can be a humanitarian, you can have the greatest heart for humanitarian work that you could possibly have. But if you're not coming from your heart, I'm not gonna say what good is it? I'm just gonna say you're not using everything you've got to be who you want to be. And so this is the these are the things that were that were concerned as, you know, did I prepare? Did I did I prepare enough? Training documentations have I have I done enough so that people can do it by themselves? And I ask people sometimes there's a blog on that on the in the website. That blog I've done been doing blogs since there for almost two years. Has anybody read them? Do you understand what a gold standard is compared to the gold back currencies? I've been preaching this for years. And yet, I still find people not understanding the difference between the two. And if you don't understand the difference between those two, to the point where you can say the gold standards is about hogwash. So if I want gold, back currency, how is it going to be called back? No, the world is saying you pile your gold out there are in the back room? And then that makes my my currency good. What nation is doing that now? That's called the gold standard. Put this in there. And they say they call it asset back. Okay, where's is? Can you find out what's going on? It's in the blogs. I don't tell everybody to go read the blogs because you're gonna have hundreds of hours or perhaps 100. there that you can go back. It's it's in the category. So you can find what is the Alliance? Who are the Alliance? What's it made of? Who the people involved? And I get a lot of

people that will Why should I look at that? Did I want to follow Jesus? Well, I, I do too. To fall in there. Jesus is the one who is responsible for this earth. He's the one that's a head of the Alliance for this earth. And people are complaining to me. Jesus is part of the Ascended Masters. He's ascended, he's already there. And if you want to follow Jesus and learn where he is and following he's not us, us someplace that he's not actively involved with us. We're not abandoned, he's always here with us. He has the great capacity to know everybody's mind and what they're thinking. They use that to determine what's the next phase of what they're trying to accomplish. That's in the blogs. And there's a lot of other stuff in there. They talked about gurus in what they're trying to accomplish and lie to the people. On you understand, if you if you started out and had no idea what was going on with the RV and the redeeming of Zim bonds, and you started with love won society, you would have the truth in the beginning. And you would not have to go through all of the garbage that other people preach, am I am I am I being arrogant by saying that? No, I'm not being arrogant by saying that I am telling you the truth. I get it from the Alliance. Not one of my documents, has not been approved for publication by the Alliance. Now, if you can say that to a girl who's going to say that to you? And I say, well, let's see what you got here. They don't even use the term Alliance, most of them in their their stuff. Are you preparing to become a Zim benefactor? Or are you preparing to just go into your redemption appointment, get some money and make a legacy for yourself for the rest of the of the 100 years? Not going to work? So preparation is the important thing. So let's ask the question is can you can the asking questions can be very good. If, yeah, if you've prepared and only if you are prepared or have prepared? Will you understand the question? Or the answer that you receive for the question? Because it comes in a way that assumes that you know most everything else. But if that's the only thing that you're asking for, and we've got the and you've got to ask for questions for all of the other stuff. Where do you start really understanding what it's about? If you've got it all then you can under you can ask a question and you will see how that question. The answer to that question fits into everything. But if you haven't done everything else, it's still good. Gonna be a little bit confusing. And please, I understand, we learned things differently. Some people can go through this and they're finished in a couple of three or four months. And then they just kind of use the Q and A's to go to sleep by. There's others who have to sit down and study it, and, and really apply themselves focus and get out of it, where they possibly can. And then when the time comes, it will come to them as they're trying to perform. And I hope that that's the case for most everybody. So have requested and received your SKR Does everybody now know what the SKR is about? Does everybody here know what the SK are? Certificate is supposed to be for? Anybody, here's think that you have to do things all by yourself, when you go into your appointment. You have a counselor, I hope everybody understands that that person is the one to ask her questions too, about the use of the money. Don't ask me. Because I will say it this way, it's not really true. I don't care what you do with your money. You're the one that's responsible, it's your stewardship, you're the one that has to account for him, I have to do the same thing. And the things that I'm trying to accomplish are different from what you might be wanting to accomplish. That's why we have both been given a counselor. When I go in there, the person is going to redeem all of my certificates and all of the the gym that I have is going to be my counselor. And I love that person. I already do because I know. I don't know specifically who it is. But I love that person from where he comes. And he comes right, right, right from the Alliance. Out of the love of his heart to come and help me with the things that I'm trying to accomplish. So prepare your heart for what is to come. Those are really, really good things to say. And I hope that this is helpful for those who have who are new. Starting out, read everything. Listen to the videos. And then if you have questions after all that then come on, let's talk about things. Put them in a question and answer that we can do on videos. And it will be very good for everybody that way. Okay, Carrie, we've got about 10 minutes boring. Let's go ahead and open up for questions.

 Carrie 43:05

All right, we're going to go to Cynthia first. Cynthia, your mic is open. Cynthia Simmons, just push tap on that circle at the bottom of the window.

 Speaker 43:21

Yeah, I made a mistake and hit it with my ear. I'm sorry. But I do appreciate everything that you all are doing. Thank you so much.

 Carrie 43:28

You're welcome. Okay, cue TaskUs.

 43:35

Hi, Vaughn. And hi, everyone. And God bless you all. And thank you, Vaughn, for speaking on that. And it puts me in remembrance. What you spoke on. Two meetings ago. And I'm quoting you, you said slaves do not use their hearts. They use their brains, you have to use your heart there brings you joy and happiness to do what you want to be happy. My heart brings me joy and happiness to be happy. And that made me think when you spoke about Jesus stating, when you spoke on John 14:12, when Jesus said we can do things that he has done a greater, I think we're putting limits on ourselves because a lot of us are stuck in 3d, like myself was. And when you made that statement that resonated in my heart, because I've always, you know, did everything from the heart. And when you are a person of the heart, the way society is constructed. We wear your heart on the sleeve. That's Father, how can I say stab it tear down so a lot of people are so used to guarding their heart. And once we get to that point where you know what, this is something that God has ordained, let me focus on that. And you know, deprogram myself and focus more on what's being offered here and becoming more aligned with our Lord, Savior, Master and King Jesus Christ. I think that, you know, we will get those restrictions and limitations off of us that we can't focus because that was one of the hardest things that I had to overcome. And I always felt that, you know, there was more to life than this, as I expressed to the Lord one day, but I knew I was always doing humanitarian work, but always limited with money, but not knowing that, you know, one day that I would be in a position to be guided towards LWS, because I had went in doing a search through telegram and I came across another group. But that's not what God wanted me to be. So I didn't get to, you know, be too much on it, because he directed me to LWS, which I was very happy. Yes, there's a lot of material there to read. But those videos are very helpful. And I just hope they will help but thank you so much. God bless you all. Thank you, Vaughn.

 Ron Giles 46:03

Well, thank you. I appreciate your kind words. Very much. Thank you,

C Carrie 46:09
Patriot for humanity. Your mic is open now.

S Speaker 46:14
Thank you, Carrie. And thank you, Ron, I have an administrative question. I know we're coming up to the end of this voice chat, is really to do with the SKR's. Now I did order the 171 175 over to SKR's. received my SKR's. Thank you very much. And I received the 20 100 Quintilian. as well. Now I did send a third SK our submission. It was conducted last Tuesday evening when the whole process started. But I did not receive I have not to date received a confirmation or an SKR. So I'm just I wanted to basically leave it until, you know, Tracy and her assistant had gone through all of those requests, should I send a submission for the five that or should I just leave it and let Tracee enter assistant just, you know, send it out when they're ready,

R Ron Giles 47:13
you'll need to go ahead if it hasn't come. The assistant works normal days and the beginning of a shift. And at the end of shift she does all that she has for that period of time. She does not work on the weekends. And her weekends are our Friday and Saturday. And then and so she starts on our Sundays, which is her Monday. So there's going to be that period of time where we're not where you're not going to get into the SKRs. So if you're missing things, don't hesitate to get a form of jot form and go ahead and resubmit your request. I want you to get up to the 180 for sure. Okay,

S Speaker 48:01
no problem. I'll

R Ron Giles 48:02
dig in a bit from your heart rent rate for the redemption.

S Speaker 48:08
Oh, yeah. Amended my, my appointment my the presentation, I've amended it in light of this new process and the rate as well. So I've already kind of factored in what God wants me to grant you know, as far as far as the, the bonds and the the bonds, basically,

R Ron Giles 48:33
I would put your request amount in pencil. Okay, because you'll be surprised at how much your mind will get out of your way and your heart can start taking over. And it usually is higher. Okav. Just a warnina. not a warnina. It's iust that that's what happens with most people has

S Speaker 51:17
No Limits, as you said, no limits,

R Ron Giles 51:20
no limit limits.

S Speaker 51:22
Thank you, Ron, thank you very much.

R Ron Giles 51:23
Thank you for who you are. You're a wonderful person. And I appreciate the fact that love wants to say is collected or resonated with you and your heart that you're here to join with us. What a privilege it is for us. Thank you so much.

S Speaker 51:38
Thank you, Ron. Thank you. Thank you very much. Thank you. Bye bye.

C Carrie 51:43
Next, we're going to go to New wala perpetual hearts, Ireland, your mic is open.

S Speaker 51:49
Hello, Carrie. Hello, dearest Ron. I, I'm just overwhelmed with tears of joy. And pure belief and trust. And I didn't think I'd cry. But I knew that Northern Ireland, Northern Ireland needs a mention. For me, very small place hardly recognized. I grew up in what we call the troubles, which was actually 40 years of civil war. I started school at 11 when they were literally bobbing the street blowing it up as I walked up to school, where people were being shot. And it is a very frightened country. And I am here holding the light out of pure belief and everything you're doing here had that I am now fully committed to has totally inspired my faith. And I want to say thank you.

R Ron Giles 52:54
You're certainly welcome. It's my pleasure to talk to people like you. Thanks. So

S

Speaker 53:02

there's so much we can do. So much to be done. I appreciate everything. And I just needed to let my voice say that directly to you.

R

Ron Giles 53:13

You needed to let it out because those kept inside doesn't do anybody good. But now that you've you've spoken to hundreds of people, and that's helping them as well. Good job.

S

Speaker 53:25

Yes. Yes. So thank you.

R

Ron Giles 53:28

Good job, Northern Ireland.

S

Speaker 53:31

Thank you. Good luck, everyone.

C

Carrie 53:36

Thanks so much. Miss mouse, you're going to be our last question. Mrs. Mouse.

S

Speaker 53:44

Oh, my goodness, what a what an honor. Ron, everything you said, I totally resonated with you about the importance of your the website qfs2020.com. It is so instrumental in so important for all of us to go through it up and down, sideways, upside down whatever, to the point where we have it in our head, just automatically, perfectly. And even at the point where you think you know it, I encourage everybody to go through the quizzes. And if you have a spouse or a friend that you're doing this with, as you can go through those quizzes, you might be stumped, you could surprise yourself. And then the other thing I wanted to mention was that we had invited a few people to be with us on this journey. And it's such an honor to be able to share it with others. But if you find yourself where you feel that you have this down pat and you feel confident, maybe you can become a mentor to them and be assistance that if they might have questions You can help them get to the point where they have this. They're just, you know, they're knowing it in the quizzes or just being very competent in the information, I guess that's that's what I want to relay. And it's been such a blessing because even though I think I know something, I pick something up every time I go back through it. And so I just wanted to share and thank you so much. Oh, and Mr. Mouse wanted to just add something. I run everybody I'm sorry, interrupting. But I felt this is really important because of my heart. When we started this,

we thought this is fairly easy, because we're well informed and our heart was open before we started, and was being business owners, it's easy to say, Oh, this is easy. But this is loved one society university, that you have to treat that with that respect. And then not only is your mind going to be awakened if your heart is going to be awakened, and that takes everybody different times, although somebody in their normal, called 3d world think, Oh, I learned quick, that you're learning the dynamics in the 3d world to be able to understand and embrace what the alliance is doing. And also connect with all of our family here. That's something else that opens up over time. Just wanted to share that. And thank you, everybody. Thank you, Ron.

R

Ron Giles 56:20

Thank you, Mr. Mrs. Mouse, that's a closed parenthesis all are joined together. And thank you so much, appreciate it.

C

Carrie 56:30

In that light of what Mrs. Mouse was saying, if you have friends that you are exposing to love won society, please remember this new wonderful document that your training team has produced for you. It's called Love won society, LWS starting steps. It's pinned at the top of both rooms. And Bob is graciously posting it a couple of times a day. So look for that document. And there's a lot of good information in there for all of us to make sure that we are prepared even if we think we are there might be a step in there that we missed. That could help us prepare. So with that, Ron, any last words you'd like to share with us?

R

Ron Giles 57:12

I just like this 10 My love and appreciation for all of you. And I'm wishing you a good day and success in the things that you're trying to accomplish, especially the opening of the heart.

C

Carrie 57:27

Alright, thank you so much, Ron. Thank you, everybody for joining us. We will have another training session on our Friday training call. It is 11 o'clock Eastern time every Friday and then we'll see you back here again. With Ron next. Thanks everybody so much. Have a great rest of your day wherever you are in the world. Goodbye
