To Change his account, and it will be, it'll be magnificent for him. But let's prepare for it so that we can be the highest and best good for us as as we want it to be. Thank you. You're certainly welcome. certainly welcome. And that was a good question. I appreciate the chance to talk about it.
- C** Carrie 00:23
All right. Dom, anything else before we move on to questions? Other questions?
- D** Dominick 00:29
No, I'm just hopeful that a lot of people start raising their hands because I got about 15 million questions. But I want to give everybody else.
- C** Carrie 00:36
All right. Well, let's see what happens. First of all, we're going to open the mic for I rod. I, Ron, your mics open?
- S** Speaker 00:43
I have a couple of questions for you. When it comes to the blog, I heard Kerry talking about your blog, and I, I went down to articles June 23rd of 2020. I think that's the earliest blog that you have out here. And I went into the video section, and the latest ones is August 28 2021. Now I've been documenting these because I've listened to moms every night. You have any earlier versions in what I just mentioned or not?

R

Ron Giles 01:17

No. I used to post all my stuff on dinar Chronicles. And they have changed things. I went back as far as I could, or as far as you, would you do a blog, you have to start from the beginning? Because it goes by data that's been put in there. So I had to go back to get them. And then I put it in. And then if I wanted to go back further than that, dinar Chronicles just mess things up and they're not available. Oh, they are. Okay, as far as videos are concerned, the queue and so forth. We started in August of last year,

S

Speaker 01:59

August 28 2021. There you go. Yeah, another question. I kind of upset because I try to convince my son. So, so many times. He thinks I'm baloney. I want him Bob. He's a good boy. Yes, keep trying.

R

Ron Giles 02:33

I run I can see that your emotions are involved in this? Yes, I honor that. And as every father would want their son to be similarly changed. If that's the thing. Remember that your son came here as an individual. He's your son. You're the creator of his third degree, third dimensional life. But he came here as a not because because of you Yes. But he came here for a purpose. And his spiritual guidance system is helping him to create what is necessary for him to fulfill His purpose. We don't know what that is. So as much as you want to change him as much as you want to help him, you have to honor his dominion. What am I saying? Dominion is his life. If you cross over into his life, and try and change them without permission, then you're violating his dominion. And that is crossing that's called trespassing. We do it all the time with our children especially. But we need to understand that they get a chance to live their life like we have a chance to live ours. And they're entitled to do that without harassment. Now, what you want him to do, is fully capable for him to do it. But he's putting up resistance because you're doing things to him that you should not be doing, in my opinion, and that's crossing over dominion. Where are you to say, I'm here for you. And if there's something that you would like to ask me, as we move forward, things are going to be changing in life. I will always going to be your father. I'm always here to love you and respect you. But I'm not going to do I'm not going to try and change you anymore.

S

Speaker 04:47

I did mention that to him. I did mention that to him. That point when it comes to be that I'm hoping that you'll see the lights and happier Bill helped in supporting my humanitarian projects that I have, because he's a bright boy, very intelligent. He's just been a dog for quite some time. So, yeah, I'm sorry to get emotional. I'm sorry.

R

Ron Giles 05:15

No, it's fine. Are you any different than the rest of us that are listening? No, we all have

problems like that. And so if we understand that they're living their lives to the best that they can to fulfill the purpose for what they came here for. And it may not be the same as we can. So we just have to honor that and allow it to take place. And know that they're in God's hands. I mean, whose child really is he?

S

Speaker 05:47

And I know this is going to come to be we're going to be humanitarians. And we'll have projects and goals that we want to set. We will anxious to do this. We just gotta be patient and wait for the right time that the lines fine. Capable to release the quantum financial. Thank you. I'm sorry. It's so troubling. It's troubling. So I'm sorry for the trouble. I'm sorry.

R

Ron Giles 06:10

Well, don't be sorry. Okay. Because if I am sorry, well, that made me into yours. You're sorry, person? No, don't do that. You're not sorry, for expressing the feelings of your heart. Allow that to take place and without any judgment for yourself. So don't don't get yourself into a SAR in essence, hey, I'm sorry. And I'm just not saying to you specifically, I'm saying to everybody. People say, Well, I'm sorry. I'm sorry. I'm sorry. What are you sorry about? Well, I got in your way. With that. Get in your way.

S

Speaker 06:54

Ron, thank you for helping me out. And I know, there's a lot of people that want to speak to so I'm gonna thank you my blessings to everyone that's listening. And God bless us all. Thank you.

R

Ron Giles 07:06

Thank you, Irod.

C

Carrie 07:09

On, May I add something for Irod. We all have loved ones that do not know what's really going on. For whatever reason, their readiness, as Ron said, we're all at different places. I've got so many people in my life that I love dearly, that have been in my life for decades, who are not aware of all of this now, who I tried to educate early on years ago, when all this started. And what I've come to is that my connection with them is the most important thing, not whether or not they hear me, because if I keep pushing for them to hear me, I'm going to lose that connection. And when things do change, and open up, I won't have the ability to assist them or to be with them as they go through whatever they're going to go through as all of this becomes a big aha moments for them. So if we can all focus on the love we have for them and the connection that we have with them, rather than trying to be the educator or right or whatever. But for me that's kept those connections alive and kept the love as the focus with them instead of the information. So maybe that's a little helpful for you, I rod and anybody else.

R

Ron Giles 08:35

I think that that's very white. Thank you, Carrie. Yeah.

C

Carrie 08:39

Okay, let's go to Mr. Mouse. We're going to open your mic, and it's open now for you to ask a question. Mr. Mouse.

S

Speaker 08:50

Hi, how's everyone?

R

Ron Giles 08:53

Good, Mr. Mouse, that's an interesting name.

S

Speaker 08:57

There's a whole story in it kind of parallel skunkworks in some ways, so we get together in the future we'll be able to share, that'd be great. Okay, I actually want to share something in regards to what I wrote was going through. I mean, we all have went through different things. But when it comes to children, it's one of the more difficult, it's like when birds leave the nest, but more importantly, our prayers, and knowing that they are part of us, they're part of God. And a part of our bloodline in our our covering does protect them, to some extent, but they still have free will. I have a daughter, that's 39. And she had for years, totally were insane. And I kept praying, I kept thinking, okay, she's gonna go a different path. And then all of a sudden out of the blue, she calls us she's gonna really want to talk to you. And she had shared the same envision that we had for how we wanted to build this and have her involved with it. But she shared that from her own perspective. She didn't tie it into what she thought was insane. She said If I want to do this, this and this, and I know I'm gonna be able to do this, this and this and this exact same thing. And when we shared with her, we said that's what our vision was. She was so surprised. I guess what I'm trying to say is that often, when God has planned for us, we follow that plan. And it can come from two different perspectives where you see something is failing, because it's not happening the way you want it. God's already got that. And this comes back to us keeping a positive vision that you want your son to be with you and participate, not specifically controlling his freewill or anything like that. They talk about things too, that the more we push his parents, I had a brother that was, I didn't talk to him for 15 years. God told me to contact him. And when I was sharing with him, I was getting frustrated. And I was praying for him. And I said, you know, God keep him from this temptation. And I literally had a stomachache and didn't feel well. And that's what you know, it's bounced back, I was infringing, has infringing on his sovereignty, to make his own decision, even though I felt that was best. So there's so many levels going on with this, this is all we'll learn. As we grow and as our faith grows, this becomes more reality. And this ties in also to being able to source our humanitarians. There's many times we may not have a clue. But for some reason, you do

something and you're open to those feelers Ron was talking about the next thing, you know, you've done something that connected with somebody. So it's not what we do in our mind, and even by the old way, but by spending more time, I call it, meditation, prayer will open up that opens up your heart, and Natalie, actually talk to your son or your daughter or your family members, or whoever else you're led to meet. I just wanted to say thank you for all I hope that was a blessing to somebody and could help them make

R

Ron Giles 11:45

Mr. Mouse. Great job. Good job.

S

Speaker 11:49

Ron, appreciate that coming from you. That's amazing. That's true.

C

Carrie 11:56

All right. Let's go to Yvonne on the tour. Your mic is open. Hi. Hi.

S

Speaker 12:06

Hi. This is Yvonne from the Netherlands. I just sent my my question to them. And he, he asked it to run. So I want to ask one more thing, isn't it? Well, when the people from Nigeria and Africa, and that's the kind of area when they have the problems because they they don't get anything, everything. There is a group from South Africa, is there someone in that group that's, well, that's educated enough in the loved one society that can can give those people the information?

R

Ron Giles 12:59

Well, I believe that there is we look towards the telegram channels for that particular country, or language as people to talk to. And then they can private message and get better acquainted that way. It's all there. And it's pretty much what we can do. Other than that, we just have to allow them to mature and grow and God's in charge of them so and it's the same way for Nigeria or Ghana or any of those African countries, go over dated Kenya. There's, there's, there's people out there who will pick the ball up and run with it, if we are able to get them involved with as a benefactor. And we have the idea that we're going to save the world. Our programs are going to do all this and then the other. And we're going to be really big. And everybody I talked to a lot of people I talked to who say the same thing. But that's a country. The country that people live in is where they need to spend the majority of their time as he grows, then you can grow with it. But countries have to be respected for who they are. And, and we're not the saviors of that particular country. Their people are responsible for it just like we are responsible for our countries. And so we want them to become Zim benefactors, because that will give them the money to do the things that they are familiar with, that are problems with their country. And so it's not that every country is different, because there's a lot

of similarities in problems over there is or from over here or wherever. And so they are familiar with it. They have the ability to use their money to solve it. problems in that particular country where we would have to go over there and find somebody within the country to give the money to to do a direct person. CAC people. So I believe it's, I believe is very wise for us to bring these people into the reality that they can be become zim benefactors. And it'll, it'll respond to their hearts in resonate with their hearts. That will be the best way to go.

S

Speaker 15:33

Okay, thank you very much.

R

Ron Giles 15:35

You're certainly welcome. Thank you for your call.

S

Speaker 15:37

Thank you for all you do.

R

Ron Giles 15:39

Oh, thank you. I appreciate that. Okay,

C

Carrie 15:42

bye. Bye. Bye, bye. Let's go to Ms. Mouse now. Mrs. Mouse,

S

Speaker 15:49

we had Mr. Now we have Mrs. Okay. Mrs. Mouse,

C

Carrie 15:55

your mic is open. There you go.

S

Speaker 15:57

Thank you. Yes. Thank you for allowing me to speak. And Hi, Ron, I'm so glad to hear from you and be part of this. But I just wanted to add something was about this question. And a few questions back on. How do you deal with the overbearing governments and such in these third world countries that make it difficult to offer humanitarian help, I just I fall back on, I know that

if we do not have full, I guess power or full permission to do the things that we really want to do for these, for these countries in need. And that we can use the churches right away as a stop gap. It's kind of like we can just divert our plan, just a little. I mean, we have plans for Africa and, and a few islands in New Zealand and such. And we're going to try to focus on the poorest areas that need help the most. But I really believe again, that they have dominion in in their area. And they might have a pastor, or a preacher or a chief that is in charge of those are Shaman. And that if we use them as a direct connection, are they choose that, then choosing allowing us to help, we can do that in the meantime, till things catch up with the United States, because we're going to have Nisar unable to do humanitarian things in search after it's funded. But the third world countries might be a little different, might be a little slower. But I truly believe in my heart, God will have a way that we will be able to get them help soon, very quickly. So I just wanted to let people know that don't lose heart, if things are not falling as you think they will be, or you want them to be. That's it.

R

Ron Giles 18:05

That's an observation, I might just add to what you're saying. There are governments that are, are really bad, and there are people are suffering. And but there's going to be a major change. And those people will not have to suffer anymore. And those government leaders who have been putting people through all of this will have a so similar torment for their lives. It's just that's the bread on the water, it's coming back to them. And, and that blast that's coming, will will terminate those kinds of people from participating with us as we moving into the fifth dimension. So they're there in God's hands, where we don't have the money yet. So there's nothing really that we can do. There are certain things people are in, in Africa a lot, doing humanitarian things. And and trying to make it work. I have a very dear friend who is involved with a person who is doing humanitarian activities, he borrowed \$36,000 to help. And he couldn't pay it back on time. So they put him in jail. And he's suffering. They have, you know, if if you can't pay your bills, then they put you in jail. How was how wise is that? You know, there's problems with that whole concept of debtors prison. Okay, well, that shows you where the intelligence of these people are. And they don't should have the ability to make changes like they, like they should. So along comes a leveling of the playing field, whatever you want to call it, and those people are going to get what they need. But that's it's going to happen before we get our money. So that when we do get our money, we won't have these kinds of problems, to have to conflict with our missions for humanitarian projects. So that's what i i, that's just a different perspective that I'd like to share. Next question,

C

Carrie 20:36

we're gonna go to Asia star, Asia star, your mic is open now. Hi,

S

Speaker 20:43

Ron. I'm Asha. Hello, I'm great. So great to talk to you. It's about what you've been talking about this blast this thing that's just going to change everything, uplift everything? Is your opinion that that is going to happen before the RV that it needs to happen before the RV or after. And I know it's, you know, it's just what you think. But I'm wondering,

R

Ron Giles 21:17

well, I'm saying I hope I want it to happen, do I have kind of a field that it will kind of have a field that it will, the leveling of the playing field has to take place before we get our money because there's people who are going to be eliminated, who would be willing to steal our money from us and cause us other than extort money from us and put our lives in danger. I think all of that has to be cleared out before we can really get our funds and do so with the safety and security that is necessary for us to accomplish what we're going to do. So I kind of feel it sounds reasonable, let's put it that way. It sounds reasonable to me that that takes place. Prior to us giving getting our money. You know, there's a lot of people that are suffering. And, and yet, it from a higher perspective, each one of them came here to fulfill their purpose. And maybe part of their purpose is a balancing of their karma. And, and so they have to have things to balance it out. Now, that sounds a little bit detached from the situation. But in reality, God is in charge, and knows what's going on. And the third dimension is not real as far as I mean, you step out in front of a semi truck and get killed, or that's not real. I'm not saying it that way. But third dimension is not real, because it's designed to create a set of circumstances where we have experiences that we couldn't have in the spirit world. And that's a justification for the third dimension. Guess who created the third dimension, the children of God yet, because we have free agency. We created it for the experience of coming down here and being something that we're not so that through that experience, we can appreciate who we are. And you can't have that without having the experiences. The old souls have gone through it many times the new souls, they may not have gone through it enough yet. And they can get taken off the earth and the center God their souls will take them to a different location to finish what their purpose is. I don't know. Those are things that we have ideas about. And we can justify this god lovers. Well, yeah, we created all of this. So it's not God that created we created as his children. And we're experiencing it as his children. Well, we're finished with it. Let's go up into the fifth dimension. Well, what about those who haven't finished their third dimension activities and haven't had enough experience? They're young souls who have not gone through the, the cycle of birth and rebirth, the karmic wheel of birth and death? Well, I'm not in charge of them. So you can have all kinds of ideas about it. And it justifies and of course, there's people who die from the stab, jab, whatever you want to call it. And did they come here to die for that purpose? I don't know. But it could be because nobody dies before their time period. Exclamation point. So there's a reason for something involved in their passing away. You call it the jab, but it could be as some other entirely different ways, or things that are affected by it. And that's how insignificant we really are. And we judge other people for things that we don't know what they're going through. We don't know these things. That's why we shouldn't judge not. So less should be judged. Oh, and betta. That'd be really tough by the way that people judge each other. So anyway, that's my thoughts on that. Do you?

S

Speaker 25:45

Can I just ask one more thing connected to this? Sure. So you've said different times? Well, we're the ones that created the QFS. And we're and that really resonates with me? And if we're the ones that, are we the ones that created the third dimension? And is that why it's so important for us to focus on the higher realms, the fifth dimension right now? Because we actually can speed this up? And, and is that is that why like? Yeah.

R

Ron Giles 26:12

Well, I think it is, I think you're very wise in what you just said. I think that we created the loved one society because of our were accepting responsibilities to do things in the fifth dimension, or third dimension, that will help us to get into the Golden Age, which moves us on up into the fifth dimension. I don't know how many people created loved one society. I don't know how many people created the quantum financial system. But I know that we're here because we have a covenant that we're going to do what we're going to do. And we did this, we created loved one society so that we would have the tools that we need to get it down to a simple thing for me to understand. So yeah, I like I like your process. I'd like your thinking, and how to expand that into reality for us, I'm not sure. But I feel that it's correct. And we can expand on that, and then apply it to wherever things need to be applied to go ahead.

S Speaker 27:25

And a lot of us are feeling really, like we were, we're done with this, we're ready to rise. So I wonder we're feeling that it is going to happen soon. Or we're just frustrated, impatient, because we're human. Do you have any thing you want to share? Kind of kind of jump off soon? Or at least lift? Is this flash going to happen from inside is? It's going to be a connection with the heavens and the earth?

R Ron Giles 27:52

Have you listened to this Ishmael Perez?

S Speaker 27:58

No, no,

R Ron Giles 27:59

my job there. He's out there. Now. He's he, he agrees with this, there is going to be this experience. And he says it's between now. And 2023, or something like that, or 28 or somewhere very wise as far as offworld is concerned. And, and I listened to him, and he said some of the things that I know to be true. And so I have complete faith and trust in Him. If it are something that he says that is not true, and I could withdraw certain amount of my support for him, but he talks about the he talks about this blast that's coming. So this is from somebody who's spent a lot of time on the other side of the veil, or out of space, whatever you want to call it. But very fascinating, Ishmael Perez. I think he's got some books and things like this or the soul. But he's a young man. He hasn't been around far enough to really pick make these kinds of things up. Especially for me, who understands a certain amount of off work stuff. He's he says the right things to me. So I like to put in his part of the ones who would say, yes, there's going to be a blast. Talks about it openly. I hope it's true. And I think it's coming from God and however that happens. Praise the Lord.

S Speaker 29:53

So, praise the Lord. Thank you, Ron. I love you. So appreciate you.

R

Ron Giles 29:59

Thank you I appreciate your kindness and kind words to me. Thank you.

C

Carrie 30:05

We have one more question and it goes to world changer and your mic is now open.

S

Speaker 30:14

Hello, Ron, it is so nice to talk to you. I've been a faithful listener for a while now. And I chuckle sometimes when I'm sitting here typing and I'm working, and I'm listening to you, sometimes when you get frustrated, and I'm like, wrong, go wrong. It's just I am forever grateful for Tracy, who, who connected me to love one society. And when I read over the website, I had an amazing feeling in my body, I felt an amazing sense of responsibility. And, you know, I just had a girlfriend who was like, oh, yeah, here's the RV. You want to go get some Dong and this and I was like, well, she said, Get dinar. And I'm like, Well, I can't afford that did not get some zoom. I didn't know what zoom was. I'm like, Okay, I bought some zoom. A little did I know, I had no idea. I had no idea, Ron. So I educated myself. And I've been listening. And I'm still learning. And, you know, I'm committed to that. There's still some things I don't understand. I'm like, No, I, this is what I'm doing. And I will I do, I am going to, I'm going to understand this. So just trying to be patient with myself. But Ishmael Perez, I listened to his listen to one of his interviews the other night, and yeah, he resonated with me too. So really cool. He knows his stuff. My question is this. Okay, I have, you know, there's not a lot of people, I'm sure a lot of people on this, on this call can attest to this. But there's not a lot of people that I can talk to about this stuff, because there's still people around me that aren't awake. And that no judgement, it's okay. I stopped a long time ago trying to, you know, explain it, you know, if they come to me, I explain it, but if I'm not gonna force it on them, because they're just not ready. So at any rate, at these, but I know people who they have the heart of humanitarian, and they have gifts, and I so badly want to share this information with them. But I'm a little nervous, too, you know, because I'm, think I'm nuts or that, you know, this, that and the other and I guess I really shouldn't care what they think. But you know, so that's one question. And then my second question is, you know, I've been on the I learned about I quote, woke up from a girlfriend in my probably in 2012. And I've been learning the truth or side for many years. And I just recently have, you know, I'm a Christian, I grew up a Christian going to church. And so I've awakened to the spiritual truth, for since 2019. So if we create our reality with our thoughts, right? So I guess I'm confused. Because if we chose before we came here in this physical 3d world if we chose. So, I guess I'm just confused. Because if we are creating our reality, but then we chose to do this, you know, before we came here, how does that How am I missing something? Or I guess I'm just trying to understand and then I, you know, I said to myself, Well, maybe if that res if something resonates in your heart, then that's just you remembering it, it's coming to remembrance. So I know those are some loaded questions. I'm gonna stop talking now. It's that you can answer thank you so much.

R

Ron Giles 33:57

Bless your heart. Loved One society QFS. 2020. Is, is a doorway, it's a door, open the door and start reading. And fairly quickly, you'll feel the presence of the Spirit and the love within loved one society, as you read the documentations and it's by design from the Spirit. Because you came here and you have to find love one society. And so how are you going to do that? Unless a spirit will testify to you? That that is something you need to look into. That's the way that happens. Work with this. How do you get them to do that? Well, I found my the answers to some of my a lot of my questions by going to this website and reading things. And it's been very helpful because I feel it's talking to my heart And they'll say, well, they'll think in their minds, they won't say that. And they'll probably, well, that's an interesting idea. Some concepts, understanding words, or speaking to your heart, still your mind, that can just be all it needs for them to take a look at it. If they come back to you with questions, and you have a chance to talk about other things, or to help them with the questions and find the answers, oftentimes, they won't come back to you for maybe you've been persistent, and they don't want to give you the value of being right now I'm wrong. There's a lot of ego involved in what's happening, but just give them the opportunity. Share with him appropriately, and always come from love as the little prayers. Center me with love. And so that what I do is in harmony with the heavens and and let it go. Let's see how it goes. Okay, you know, if you've if fight with people and start arguing with people, and you're creating fight an argument, that's not going to get them into becoming a part of a loved one society, how's this going to work? I'm going to go back to the creation process. If I ask for something, The heavens are shuffling around and going to answer that question, or going to add or give you the what you're asking for? Because that is the promise. I'm I'm asking that I become a Zim benefactor? I don't know. That's pretty hard. I don't know if I'm worthy of that. And then the question is comes up. That's that's cancellation talk. You asked for something and say, I don't think I'm worthy to get it. There's your answer right there. I don't think I'm worthy to get or that's the last thing that you told the, the universal that you want. They're going to give you the ass asking, if that's what you want. You asked for it, and they give it to you. But if you ask for it, and then cancel it, then they're left there holding what you asked for and say, Well, what should we do with this? Let's throw back to the matter and organized and maybe she'll ask again, then we'll just pull it forward again. And and so that's the problem that we have with a creative energies, we don't understand why do we not understand it, because the Cabal will not want us to. Now tell me why the Bible preaches about churches.

S

Speaker 37:57

To keep us not realizing our power, to keep us to

R

Ron Giles 38:01

keep us away from it. They don't want us to have power. Right? They put they put man in between us and God. You got to have a degree, you can't have a degree. You can't be talking to God for people and unless you have a degree, so let's go get a degree and we get paid a lot of money and Dongs are. Let's understand that the cabal has been around for 1000s and 1000s and 1000s of years. They've rewritten the Bible for their purposes, not for God's purposes. They've left some stuff in there. They're very powerful. And I'm not condemning the Bible. I'm just condemning the religions to use the Bible as a tool to overcome other people. I left the church that I was in I'm a Christian, I have a very, very strong relationship with Jesus. I

communicate with him and he talks to me. It's all personal. There's things that I can share with other people, but I generally don't because it's for me. And that's the way the heavens work on a personal basis. Christianity is a negative term, until you go to three to 300 years after Christ. And they had their Ecumenical Councils or whatever you want to call them. And so the the Roman Catholic Church was started 300 years later. And they, they decided that they were going to be the church of Rome. They're going to have a church because all these Christians, these dumb Christians follow a guy that thinks he's God and Now, I'm the God. That's what they were saying. But they thought, well, if we get people who die for their religion, then let's make that their religion of Rome. I'm not trying to preach against the Bible, I'm not trying to preach against churches. I'm trying to teach against the idea that you give up your humanity, your Hume, your your humaneness to somebody else, your power as a son and daughter of God, you've given it up. And you've let somebody else stand between you and your God. That's reality to me, I gave it up was that hard. I was looked like as a sinner as a bad person. And I still can't have any credibility with some in my family. They don't know what I'm doing. I can't share it with them. And I won't share it with them. But I don't want the condemnation. So I just go about doing it. Profit is not known in his own country, because you read that you mean, you mean that snotty nosed kids down the street is a prophet? What was down the street snotty nose, but now you're telling me he's a prophet, they are not known in their own country. And if you're trying to preach something to your own family, what credibility Have you established with them to be a teacher for them? The reality is, is that oftentimes we are creating things in opposition to what we want have happened. And because we're focusing on them, instead of focusing on the results of what we want in, that's the golden age of mankind, I'm looking to the third, fifth dimension, that a lot of be is exists there already. And a lot of little bit of me is still in third dimension, which makes it difficult for me to want to be here. I'm here doing the things that we're doing. Me too, or Starseeds, that came down here to make the changes. And let's just allow ourselves to believe that that is true, and then perform as we're supposed to and feel. If we come into harmony with the heavens, if we come into harmony with the Alliance on a personal basis, then there's nothing that we cannot do, nothing that we cannot perform. Because we've got God on our side. So we just have to straighten up our lives and quit creating things that we don't want by focusing on things that we don't want. And I think that that's the key to the success that we're trying to find in our own creation in our own ability to create the things that we want. We need to quit focusing on things that are not true. We need to focus on things that are not. We need to quit focusing on things that don't make us happy. There's all out it's all out there. Depends on what you and your free agency tells you what in your heart will tell you what you need to focus on. If you'll listen to it. So your heart's the one that's, that's going to give you the right way to go. And the curation process, make it yours. And do things that are appropriate, then ask and it shall be given, seek and you shall find, knock and it shall be opened unto you. Because you're doing the seeking the asking and the knocking in accordance with the laws that were created for the promise. You do these things and the promises there. It's not just a little thing you learn in Sunday school. And quote it to people tell him that this happened. Yeah, it is. There are truths there that you need to just totally embrace. That's what I have done in my life. And that's why I can say the Alliance created loved one society, not me, because I know who created it. I know who gave it to me to write down and become loved one society. It's, it's my father. It's my OB it's God that's done this for me. So somebody in third dimension might have to go up on the stage and take a bow. I wish I could have my my entourage of those who supporting me, okay. It me and directing me to go up on the stage as well. That's what I'd like. I know, I'm gonna have to make talks and all that sort of stuff because I can do that. But I know where the background is that supporting me that to make me the earthly human that is doing it. And that's a blessing that came to me. And it's a blessing that is offered to every single human and humanitarian. Specifically, if they want to respond to the call, it's all there for us. You're a special soul. My dear. Bless you.

S Speaker 45:42
Thank you so much. Prana. Appreciate

R Ron Giles 45:44
it. My privilege, my privilege to be in your presence.

C Carrie 45:50
Alright, Ron, we have about 10 minutes to the bottom of the hour. Can we take one or two more questions to finish up?

R Ron Giles 45:56
Sure. Let's do that. All

C Carrie 45:58
right. Let's go to uh, Laura. Laura, I'm not saying that properly, I'm sure but your mic is open. Miko off, there you go.

S Speaker 46:15
how are you? Can you hear me?

R Ron Giles 46:16
I'm doing well? Well,

S Speaker 46:19
excellent. First, I want to express my deepest gratitude for everything that you do, and for preparing us for the abundance of the New Age, and making us think more positively, and getting credit for the redemption and for the abundance, which we have been waiting for so long. So I just want to quickly to command I think we should use more consciously our creative power. And this means our thoughts, our emotions, and even our words. Because you know, when you spell a word, you cast a spell. So we have to be very conscious in our daily lives, what we say what we think and what we feel, is what our reality becomes. So in order to attract the yes, in order to attract the positive reality of the RV, of the redemption of the quantum financial system, I think we as a group, as loved one society, and everybody here who wants to

be a committed humanitarian. We have to be very conscious in our daily lives, and use this power because we are much more powerful beings than we were taught. And tonight, you mentioned Ishmael Perez, I just watched his videos. And he goes in very deeply into the Galactic wars and the creation of universes, and multiverse and billions and billions of years of history. By the way, I posted his his video with Nicholas Veniamin. So everybody who wants to see it can see can copy the link from the chat. But that's what I wanted to ask you. What kind of technique and what kind of meditation or prayer or mudra or what do you use around to keep your vibration high your faith high. And so we can attract and use the law of attraction to bring the RV and the QFS closer. Thank you.

R

Ron Giles 48:51

Okay. Okay, thank you for your asking. How to how do you keep your vibration high? There's a vibrational match, that I'm seeking to be in harmony with the Alliance and with loved ones society, and with the redemption and the whole, the whole situations happening becoming a vibrational match with that brings it on really fast. If you're there's no resistance from that side of things for us. It's there for us. It's coming. The greater number that become a vibrational match is a greater number of people who will survive what it's taking to get us here. And so how do you do that? Well, you know, when I go out and drive around, people pull in front of you and you know, I do I say bless you and you're such a good driver and no, I get angry. It So I don't like to go out driving because it makes me angry. And oftentimes, and, you know, you get killed out there. So I have to, I have to just be sure that I'm in the right frame of mind to go out and, and not swear and curse and use finger language, people. So we all have these kinds of problems, don't, I'm not gonna judge myself for that. I'm just gonna say, that's not certainly me. So I tried to get away from it. And if we're aware of what we're doing, and how negative those things are, can or can be for us to get what we want in life, then we can make our changes. But if we don't understand where the problems are, then we can't make those changes. And, and so I say, Love is good. Compassion is good. Kindness is good. Those are the kinds of things that I can say that would bring us the RV and everything faster. But anger and fear, and worry and concerns and the things that we oftentimes have to deal with in third dimension kind of lower us. Well, it's a disadvantage being here as far as that is concerned. So we just have to work through it all. And I'm not going to judge myself, if I swear at somebody, I'm not gonna say, Oh, I've just lost it. I'm gonna have to do 15 Hail Marys or 20, or 100, or whatever. I'm not going to go to that kind of pain tense. I'm just going to take it back. And I'm sorry, I did that. I shouldn't do it. We'll try not to do it in the future. But it doesn't, doesn't take away from the fact that I'm a highly evolved spiritual being that came down to the earth to have a physical experience doesn't take away from that at all. So I know who I am. And I just allow myself to be in third dimension and, and not judge and not tear myself down. So that's the way that I feel. But I appreciate your question.

S

Speaker 52:33

Yes, wonderful. Just listen to your heart for your heart. And don't judge yourself. We I think we even as lightworkers and with some experiences in life with because I'm a healer, and I've had some experience with healing and working with people. But we tend to judge ourselves quite a bit. At least I do this to myself quite often, which is detrimental.

R

Ron Giles 53:07

Yes, it is.

S

Speaker 53:11

So loving ourselves. Yeah. Thank you.

R

Ron Giles 53:16

Certainly. Welcome. Bless

C

Carrie 53:19
