

June 21st Telegram - Humanitarians Part 2

Wed, 6/29 10:51PM 57:55

SUMMARY KEYWORDS

humanitarians, people, create, calling, alliance, zim, society, white hats, focus, world, god, questions, managing director, redemption, mankind, understand, money, power, programs, resonates

SPEAKERS

Ron Giles, Dominick, Carrie

- C** Carrie 00:00
So we're going to talk about potential new managing directors or Zim benefactors today, everybody, the notes for today are pinned at the top of the room in case you just came in and didn't hear that. So shall I just start reading a couple of bullets here, Ron, and then turn it over to you?
- R** Ron Giles 00:19
Yeah, let's do that. Okay.
- C** Carrie 00:21
So the intent is to become a part of the humanitarian team in service to mankind.
- R** Ron Giles 00:30
Okay, let me just comment on that. Because I'm going to start emphasizing this more and more and more, the reality of the way things are, is that God has chosen certain individuals, and we'll call them humanitarians. Because that's what they are. They're called of God to receive the funds, that the larger funds that humanitarians will have to do their humanitarian work, is going to be somewhere around 30,000 people. We're close to 50. Now. So we're about halfway through finding the right people to continue to do what we're to be a part of loved one society. Now, that calling from God is as a humanitarian is the agreement that those people have made to come to the earth. And they find a love won society. And they start getting involved with it, and it resonates in their heart, not just in their mind. Yes, it's a great program and don't let that deter, but we're looking for those who it resonates in their heart, who are we who are then able to respond and become part of loved ones society's training to become a Zim benefactor, or a managing director, whatever you want to call them. You know, and I need to start using managing director because we're trying to get away from the concept of benefactor, as we

move forward into the as we start. So we want to and it could be Executive Director or managing director, it doesn't matter to me, well, it ends up path. But let's just be sure that we're moving away from Zim benefactor. But it is important. This is this is not just a quote from the Bible, or something of this nature. This is something that's very, very personal to each individual who made that covenant to a promise that they would seek out and find loved one society and become a part of it, so that they can get the larger funds. Now, is it because we're zoom benefit? We're loved one society, doing the redemptions? No. It's not just loved one society. But nobody else is going to ask for the larger rates. Telling me one person out there a guru of some sort, that is telling people that they're going to get the we can ask for \$500,000 presume they're down there to nickel presume or less than that. Because \$11,000 is where they are, excuse me, \$11 billion for a 100 T note. It doesn't make sense to have a \$100 trillion keynote. And you get \$11. For it, that isn't the way that you the Alliance works. They're giving the 100 keynotes and above, because that's an indication of the kind of money that they want us to have. It just makes logic. It's just, it's sense. It makes sense. It's logical. It makes sense. That's what the alliance is trying to do. Loved One society is involved in the Alliance way over the redemption of them. That's our claim to fame. Now, the alliance is so invested in this, that they want us to be so good at it, that they're sending angels or resurrected beings or whatever they're going to be on an individual basis for each one of those who are called a God to do this. And because of that, We have a major job to fulfill a way of getting these people with that calling to find love when society begin their projects, or just to to get their funds to do their projects. I shouldn't have said it the way I said it, I should say it this way. They want to find the people who have the covenant, to do love one society's programs, and to receive their funds as part of their calling. And along with that comes all of the other benefits. With the programs that we have, and they'll get the money they'll get, you know, it's all there. And the alliance has set it up this way. And we are the ones. It doesn't make us better. It's just our calling. I'm not trying to be arrogant, I'm not trying to promote some things beyond what is real. We have a calling from God to do this, if you want to call it a calling from God calling from an alliance calling from creator, Prime Creator, the beginning of everything that is all things that were created, and all things that were not created, just all there. That's what creator is at dad's, who is in charge of this program as we move into the golden age of mankind. I can't emphasize that any further. Because I don't have the words. We are loved beyond any comprehension that we have. And we are the ones that have been called to do this. Our job now as we have become involved with loved ones society is to use that letter if you need to use something, if you want to create your own letter, that's okay to is there's nothing sacred about that letter, it does have a lot of energy in it. And that's why it was created. So that's why I gave it out to everybody. So that something that they can use. And I believe that it will be effective in touching the hearts of the people who are called of God to do this work. So if we find out and understand who we are, find out who you are, as a child of God, that you have a calling to your father. Then that's all we can ask for. That's all we can do. Because we're we can't force people to do this. If it resonates in their heart, those are the ones who are responding to the call. So we have a lot of work still to do. But there it is. It's a humanitarian. You call it what you want. I call it a the certified Humanitarian Alliance humanitarians. It's a team. And there's only so many and beyond that. Other people are humanitarians, who they'll be really, really good at doing things that in a humanitarian way. But we provide the funds for those kinds of people. And our programs will find them just the way it's going to work out. Okay, Carrie, go ahead with the next next bullet point.

C

Carrie 08:42

Okey doke. So love won society was created and organized by the Earth Alliance. Who are

they? They are made up of three different groups, the Ascended Masters from non physical worlds benevolent extraterrestrials and their advanced technologies and the white hats.

R

Ron Giles 09:04

There we go. That's called the Earth Alliance. There's other alliances all over the place, but that's the Earth Alliance. They're in charge of the funds, they're in charge of the money. They're in charge of the quantum financial system. They're in charge of all things that have been created to the quantum consciousness, which is divine consciousness, which is the power of God moving upon the earth, to create the golden age of mankind. This has never happened before. that I'm aware of him, perhaps I'm really ignorant, I don't know or innocent or whatever. But I don't know in the history of the world where this has really happened this way. And I'm not taking anything away from Jesus and His purpose for being here, but is it all just one step after another? We've waited 2000 years for this opportunity. And we came down here to take care of it. So we're working with the right people, let's just pull it out. We're working with the white, the right people. We're not so involved in the white hats and what they're doing, and certainly not involved in the ET's, as far as our activities are concerned, but we are working with the Alliance and trying to accomplish what we're supposed to do there. Let's go to the next bullet point.

C

Carrie 10:36

Right. The Ascended Masters created loved one society on the new quantum internet. So we need to go through the plan to redeem Zim bonds that create the funds to do the humanitarian work for mankind.

R

Ron Giles 10:54

That is, so that is right on that statement, it says it all right there. Let's let's understand, I'm the first one that will tell you that I didn't create a loved one society. I'm the one that it came through. And here it is. But the Ascended Masters of this, the quantum, all of that was done. And I just was able to bring it through as my calling. And as my project. For my humanitarian work is his loved ones to sign of course, I'll be doing our own stuff when the money comes. So it's important for us to go through and plan to redeem the Zim bonds and create the funds to do the humanitarian work for mankind. If you if you understand that, that is the training that you're going through right now, you're learning how to become a humanitarian. You'll understand why I get a little bit perturbed at times, because people are not using correct principles. As they're going about their activities and training and so forth. We just need to fine tune what we're focusing on. Along with this comes the creation process. That which you focus on is what you are creating. Now, maybe as little as five or 10% of the comments that I have that come to me as questions or comments, or partly both are people who are creating things out of third dimension and trying to make that work in this project. You focus on negative things you probe, you focus on what ifs. Where is your mind? If you're coming up with? Well, yes. What if the simple answer is the alliance is in charge of those kinds of things. If you don't trust the Alliance, and you'll go to that sort of thing. So to me, it's an indication that you're not following correct principles. You're creating something different than loved one society is trying to create. Am I saying that to condemn somebody? No, I'm saying that, that we need to change

our thinking. Because the creation process is simple. That which you focus on will come to pass. And if you keep focusing on the negative, guess what you're going to get, you're going to continue to get the negative in your life to the point that you may be disqualifying your own self from participating as we move into the redemption process. You can talk about Trump binding to be and then do all of the problems that are associated with with life the way they are right now. If you want to focus on that, you're going to create the same thing that's you're complaining about. So what is the what is the correct thing to do is to focus on what it will be like when we have our money when it's opened up to us to be starting our humanitarian activities. Tell me what it's going to feel like tell me what it's going to feel Like to have the full power of God rested upon our activities, to bless us with everything that we need to be able to bring forth the golden age of mankind. What is the golden age of mankind? Do you focus on that, even if you have a minor understanding of what is it that you're focusing on, about the golden age of mankind, when the powers of evil are contained and quarantined, and those people who will do those kinds of stuff to us, are going to be gone. Let's focus on on the fact that we are going to be free that we can be active sovereigns in our own lives, that we can be certified humanity, Alliance humanitarians, fulfilling the fullness of what we came here to do. Those who have that in their heart, know what I'm talking about. And for those who perhaps don't understand, yet, focus on the right thing and create that in your life. So if you're listening to this person, that person and listening to all of the, the stuff that's going on, there's just, you can spend 24 hours a day listening to, to videos, and to others. And it's all nice and good stuff. But it always contains problems that are happening right now that we're trying to get rid of. And I'm saying that might not be the best thing for you to do. There are certain people that I'm encouraged to listen to, to get new ideas. And there's a lot of good people out there. And it may be that I need to find more better people, but I, I'm focusing on what I'm trying to accomplish. That's my focus. And my training of of our wonderful humanitarians is the major thing that we're doing right now. And I have the greatest faith that all of you who are called of God will fulfill your colleagues. It's just a matter for us to share with other people, until we can find the people that will come on board with us. Those are the things that we're trying to create. So instead of saying, my aunt, my uncle and my cousin, they think I'm an idiot. Well just just say, they'll they'll find out that we're not idiots, they'll find out that we're trying to do what's right. They will see that eventually as we succeed and what we're trying to do. And they will come along a lot easier once we don't argue with them, but just do what we're going to do. And we're focusing on the right thing. So it's going to come to pass. This can take some time, perhaps. But maybe the time that has been spent is required because people are not focusing on the right thing. Could it be that we're focused on the wrong thing? So we're not getting it done? Could we be the ones that are responsible for it not being done? Because we're not focusing on the right things. That's a real possibility. It really is. So if we have, you know, the time is going to be shortened, let's call, call it quickening. Time is going to be quickened. If we focus on the right thing, time is going to drag out. Because what we're creating with our negative stuff is going to have to play itself out until the good stuff can come through. And that's why we're waiting. The white hats are waiting until people wake up. Welcome, maybe it's for us humanitarian is to wake up to the reality of the things that we're creating instead of the things we want to have happen. I focus on this so much oftentimes in these question and answer periods. Because that may be where our real problems lie. It may not be in who did this and what we're supposed to do with our directors and so on. So Are we focused on the fact that we're working with the best there is as the Alliance. They're doing everything they possibly can to accomplish what we all set out to do. And that's the golden age of mankind. So let's focus on those things. Let's make them proud of us. Because if we do, then we will recreate a timeline that's going to make all of this happen. So okay, let's go to the next one. Okay.

C

Carrie 20:40

So who are we looking for in these other 15,000 people, those who have a calling from God to be part of the humanitarian workers. And this is a two way calling, one way to find love one society and secondly, to become part of the loved ones society team. And to our job is to seek out others whose hearts resonate with our programs.

R

Ron Giles 21:08

Yes. And there's been a little bit of misunderstanding, and I apologize if it was, if it was my fault or whatever. We're not looking for directors. We're not looking for people in other countries to be directors for us. Yes, to a degree, if they're not humanitarians, who are called of God to have the funds themselves. So what we're really looking for now are the humanitarians. We're looking for the Managing Directors. We're looking for those who will take the money and use it for the things that are necessary in their country and their circle of influence, that that circle can grow and grow and grow and grow and encompass the entire earth if that's what is their desire. There's nothing that can stop us because the alliance is behind us 100%. We just need to allow ourselves to become what they want us to be. So we're seeking out to find we do have a we need to learn about loved ones society, we need to understand that we need to be able to do questions and answers and say the right give the right answers to the questions that come up. And people say to me that you have so much paper patience with the new people. Everyone has to go through the transition. Becoming from slaves to becoming humanitarians who have their sovereignty, that's creating write about them, and around them, that's their stuff. That's their kingdom, or queendom, whatever you want to call it. And each one gets a chance to do that. Get ourselves out of the slavery concepts and understanding that Cabal has taught us with, with all of our education, all of our lives for hundreds and perhaps 1000s of years, we have to overcome that. We have to realize that that's been taking place. And because of that, we have lack consciousness, there's not enough money, there's not enough time. There's not enough love. I don't have enough friends, all kinds of things that we can say we don't have enough farm. And you need to focus on those things that that your creation. And that's what the Cabal wants us to be doing. Because they know if we get into our own understanding and create the power that is within us create it. It is in this anyway, is becoming cognizant of it is becoming aware of the power of God that is given to His children. We are sovereigns we're not those sickening slaves that the cabal wants us to be. We take our power from God we take our directions from our spiritual guidance that resonates with our hearts. We're becoming abundant mentality. There is everything for us to create and nothing is in our way unless we let it be there. So we're looking for the people who are The humanitarians that have a calling. Now, when you send your letters out, and if you use mine, that's fine. If you use your own, that's fine too. Just when you send that letter out, you give that the power of your personal blessing that it will reach the hearts of the people who are looking for. That's what it's all about. Yeah. And while we're doing all that, we're also doing our training and becoming what we want to be. Let's go to the next one, please, Carrie,

C

Carrie 25:42

all right, we may have covered these two, but I'll just read them out. Our belief is that we have a calling from God to be part of loved one society. And we are hopeful in prayer that others to will find a home with us in loved one society.

R

Ron Giles 26:00

Beautiful. And yes, let's raise your hand. If you believe that you have a colony of God to be a part of love won society. Love won society is not wrong, Giles. Raise your hand, if you have a calling from God. And he's called on me to do love won society so that you'll have love won society to use. Raise your hand if you have a calling from God. And if you do, then you will fulfill that calling. And part of that is to find others who have that same calling, and it resonates in their hearts. It's a simple process. It takes our power of faith to pull this thing through it and that'll happen. In spite of our sometimes unwillingness to do things appropriately, it'll happen because it's God's work. And we will find that we become powerful in our words, and in our actions, because we are the humanitarians, that God has chosen to do this work. And we will be powerful in our work. I don't give a damn, if you've never had any experience doing this. I have not had a large corporation, I've not been a part of that in my life. And yet, I'm going to create it. Whatever it's necessary for me to do to fulfill my calling from God. If I don't believe that nothing's going to happen is it? And if you don't believe it, nothing's going to happen for you. When are you going to start believing in you as the humanitarian that God has given a calling to, to receive the funds. And again, our asking gear and get going on this thing. We're not going to be second place and the only thing that we do, we're working together as one. We're not in competition with anybody else. We don't take our directions from other people. We get our directions from our heart through our heart back all the way to God. It's simple process. But if we don't believe it, we don't realize is there, then it's going to be hard for us to accept it. And it's time for us to start changing what we believe in. Love one society's qfs2020.com. Love one society is in your heart. That's where the power of love one society will come from. And the power for loved one society to be successful in people's lives and making the changes that are capable of if we really do love one society really good. We're changing the economy, the whole entire economy of the world. Nobody's going to be left out. Have you found that out about level one society? Have you looked at all of the programs to see how they work and see how they can gel with one another? Yeah, we have a lot to learn and yet there's it's very simple. We're doing God's work. And we're enjoying it and we're gonna have a lot of fun doing it. Okay, so let's go to our next question or question or bullet point.

C

Carrie 29:59

All right. as well, this is maybe the most important piece, how do we discuss this information? With those who have a strong heart and a service attitude? How do we even know they have a strong heart and a service attitude, and then guide them to qfs2020.com?

R

Ron Giles 30:19

Okay, it's a calling that we have, how do we do it, we let God take care of it, we introduce the ideas. And then the power of the Spirit will, will pull them into their own calling, as is what they're here to do. So don't take out, let's not all of us take upon ourselves a responsibility to make this successful, and you don't push it. That which you push against pushing back at you. So we don't push it. We just go out there with a loving heart. And if they have questions, we can help them with things. But it's their job to find the things out and then let their heart be respond to what they feel the resonance that they feel, and then move along. We're just there to answer questions. There's plenty of information for there. We've got over maybe 80 to 90

Question and Answers period. So there's plenty of information out there for them. And it's not your job to teach them. It's your job to answer the questions. And if you can't answer the questions, then you need to learn this stuff. So you can that's a simple thing. Not simple to do, but simple process. Okay, the next one, please.

C

Carrie 31:56

How and who do we send this information to? What areas of the world should we focus on?

R

Ron Giles 32:06

Well, we have we have, without going through all the names of the different countries, as we, as we do this, people sent back Well, I know some I know people in all of these different countries and that I said, Well, you're there but they're looking for a director so that they can move into those countries and not the Zim benefactor, the the the Managing Director, they're looking for their their ideas. The idea is mostly that have come back through paid back to me or that they're looking for their directors, and how do they move into those countries. And I'm saying, well, let's let those countries those people have the call themselves and then respond to the call. And then they can be doing this stuff in their. With their money. They can be the humanitarians that are taking care of their country. It's nice to have humanitarians within the country being taken care of their country. I've had people ask me well, is, is such and such a country just aren't compliant? Well, I don't know. We'll know at a specific point in time, but we don't know now. America's not just for her compliance. So how do you know what is what country is? We just assume that the white hats in the people and God are taking care of all things. And we're doing our part and they're doing their part and we're going to end up at the same place with all of the stuff getting done. That's why I look at it. I have so much faith in the Alliance. They know everything. They're working for us. And you know, maybe we we've disconnected the lions from God. The Alliance are God's people. They're his children. They fulfilled a lot of what we're trying to accomplish. Magnificent spiritual beings, magnificent spiritual beings who have gone through what we have gone through and have reached the higher realms because of their goodness and the things in the love that they've created. But that's not you know, we look at them as the way to go. Which one of us is not one of them? Which one of us is not one of them. That put aside our light and our love quotient and come down to the earth to be born again. into a situation that we volunteered to do, so that we can do God's work. I doubt very much that there's where there's very few of us that have not come from that kind of blazing glory that we had. And we shut it all down so that we can come here. I have a sense of who I was in other lives, and all the things that I believed in my mind that I've ascended before, and I came back to do this again. I'm no different than the other star seeds that are doing the same thing. Alive, allow yourself to expand your mind and your thoughts. Well, I'm not one of them. But how the hell do you know that open up to the ideas that that's true. If you believe it's true, then that is going to be your creation. That is going to be your focus that will come about and you'll be amazed at how you can change. You will be amazed at when your power personal power is turned on who you really are. Okay, let's go on to the next bullet point.

C

Carrie 36:28

What will new humanitarians need to do in order to get started? The qfs2020.com, reading all

the discussion information and all the blogs, review the videos and join in the chat room discussions, and of course, purchase Zim bonds for redemption.

R

Ron Giles 36:51

Yeah, we go yeah, that's bad. Yeah. How do you get started? We recommend that you go QFS 2020. The first menu has a glossary of become familiar, read that through two or three or four times until you kind of get a feel for what it's what's going on there. Read the other documents that are there. They're going to help you to open up to the ideas of what's going on, Mike, I say to people focus on the preparation for your appointment. Why? Focus on that first. Because we may not be fully involved in loved one Society staff before we get our funds. But if you haven't prepared well enough to understand how the redemption plan is going to work for the Alliance, then that's what you need to focus on until you have a clear cut understanding of that and how to do it. You're going to have some people ask me, Well, I've got 3 billion Zim notes. Is that gonna be enough? Well, have you read anything? Have you read I started reading about the preparations for your appointment at what is going to be required of you to ask for in order to become a sim benefactor or managing director. Those are the kinds of things that those are the questions that you should be asking yourself, do I really understand what I'm doing? Well, gee, I don't understand what the hell he has. What am I supposed to ask for? What's the primary principle? What's a secondary principle? Versus a structured payout program? You should be able to tell me Well, the primary principle is the amount of money that is comes as a result of the rate that I have and the Zim that I have. Is that money? No, it's not money yet. It's there so that I can say, I want it 10 Year 100 year payout. And I'd like and now I can see that I can have 10% of that primary principle. Not as money but as a major payment that comes to me every quarter every year for 100 years. Is that hard to understand? And then the primary or the secondary principal is the amount of money that the alliance will put into an account divided by 100. And that's how much you're gonna get every year. Do you get all of that at once? No, you get 10% of it. If I asked for to have I can ask for 9%. I'm saying Why would you do that. So they're gonna put that secondary principle into the, the structured payout program. It's an account that is created for you, or in your name. And the alliance will administer them, the annual payments to you, whether it's quarterly, or bi, bi, or semi annually, or, or annually, it's up to you. Those are the kinds of things you need to know about. And if somebody comes and asks you what is the primary principle, you better know what it is. I was a pilot. I went through pilot training. I've gone faster than the speed of sound. The sound barrier. I've soloed in that airplane, because I knew what it was about. There was nothing that I was supposed to learn that I didn't learn. Because that was my job, and my life depended on it. If you can understand the principles involved in what's going on here, this is your new life. There's nothing you can leave behind without knowing about it, you got to understand it all. It's just a process. If if this old guy played basketball all the time can go through pilot training, and fly a supersonic aircraft in one year. That's what's required of you to learn how to do with your loved one society programs. You can't miss a thing. So just say I'm going to be the best there is. I'm going to know all of the answers to the questions. And if I need to go back and study some more than I do, when are you finished learning it even as you're cruising along it? Well, we did the solo students we didn't go cruising along at the speed of sound, the fighter pilots do can do. But you're going to be cruising along at the speed of God speed for humanitarians. And doing the things that you need the need to. Okay, I've little bit longer than I anticipated. But that's

C

Carrie 43:06

fine, we love it. I just like to put a plug in for the blogs on the 2020 site, the QFS site, I found so much incredible information reading through those blogs, and they go back quite a ways. So there and at the top of the blog page, there are categories that you can choose if you just want to learn more about a particular topic. So I love those blogs. And I encourage everybody to check those out as well as everything else.

R

Ron Giles 43:37

Let me let me ask you a question about that correct. Can you see my image? From the beginning? Yes.

C

Carrie 43:46

Well, I don't remember the dates of the first ones offhand right now. But I first started at the newest ones and started going backwards. And then I decided to go to the beginning and go forwards to get a picture of just what you're describing how did things evolve? How did they grow? How did they change? So it's a beautiful painting, really, from beginning to now of how it all was created and the thought processes behind it and all of that. So yeah, definitely.

R

Ron Giles 44:24

Yeah. And, you know, I go back and I say, Well, I didn't really understand that well, and two or three blogs later about the same subject. There's new stuff. Right, so I'm maturing, I'm in mind maturing as I go along. I'm not everything that I can be yet.

C

Carrie 44:43

You know, I think we all have to say we all are maturing as we go along. You know, those of us that have been with you for a long time even we are changing and growing constantly. So it is a process and you know as As a retired educator, there is no end to learning. When we stop learning, we just, you know, stop, we stop being all of who we can be. So I love that there's so much information that we can continually learn by all of the resources you've provided for us.

R

Ron Giles 45:22

Well, I appreciate your, you're saying that, and I'm, I'm proud of what I have done. I'm proud that I have followed spirit, and matured in what I'm trying to accomplish. And yet, I realized, there's a lot more that I need to do. And so I'm trying to share that with you so that you can realize, you know, we're not just are we, a group of fighter pilots, with a common responsibility to protect things wherever they are, wherever, whatever country it is. We're humanitarians, and we're protecting mankind. And we're creating the golden age of mankind, which will be the fullness as we move on up into the fifth dimension. This is what we're all about fun, we get to go through it, we get to see it done. What a wonderful position where we get to see it happen. So

C Carrie 46:30

part of it happening as it unfolds my perspective, for me with my CAC. And all of the work I'm going to be doing is there's so much that's going to be unfolding in front of us that we can't even imagine. And that's very exciting. And it's also encouraging because we don't have to know everything right now, as long as we are willing to work with what is unfolding before us.

R Ron Giles 47:01

Correct. And each time we make a mistake, then that's a learning process. If we do make a mistake, we will, oh, I shouldn't have done that. Well, learn from the mistakes and then move forward, you're not gonna get punished. Unless you're doing something illegal, then you might have some problems.

C Carrie 47:23

Right, shall we open it up to questions?

R Ron Giles 47:26

Yeah, let's open up and see what people have to ask the old guy.

C Carrie 47:31

All right. Okay. We're gonna start with Dom who has a question from a member. But anybody else, please go ahead and raise your hand and after Dom will start calling on you, Dom, you got it.

D Dominick 47:43

Thank you, Carrie. Ron, let me just say what a marvelous marvelous hour of conversation with you. I'm actually glad that Carrie had some comments that you guys are going back and forth, because I had to compose myself, it was so good. And I really hope everyone resonated with it like I did, I just really hope that we, after this chat, have an opportunity to just sit and take in what Ron has shared with us, and taken into our heart for ourselves. And I just want to say how much I love your writing, and how much I appreciate the comments that you shared. And I'm guessing I'm speaking for everybody on this chat. Although they can't come in at one time. We all very much love you and appreciate the comments.

R Ron Giles 48:31

Yeah, that brings tears to my eyes. I appreciate it. Thank you.

D

Dominick 48:35

So I have a question from one of our very good members who've been with you for a long time. And it's interesting because it ties so totally endless what you were speaking of. So let me just go ahead and a little backstory with it and then ask questions. So this member stated that she has been in contact with specific areas in the world. And those are the two mine that she mentioned, were South Africa and in Nigeria. And her comment was basically all around the world. There are certain areas of the world that are just so under strict guidelines from the governments that control their them, the people. They're humanitarians in areas that she's she's contacting, but yet the officials in those countries are just so restrictive that they monitor everything that these people do. And so the opportunity to become an LW s member is hard because they're not able to access information like we all are. And I actually very much appreciated her saying that. So even though the they're humanitarians and they would like to be a part of loved ones society, they're being held back from their government, their tyrannical governments. So with that information, Ron, here's a couple of questions she had asked how How could we possibly contact these people, if they really can't join at this point but are interested eventually to be a part of LW s. And then as a result of this taking a while with other countries and their governments stepping down, once everything is revealed? Do you see that the redemption process could take a little longer to get these other new people acclimated? Or is there a chance that she made this offering and suggestion? Is there a chance that once everything is revealed, and these people want to come on, that we first train them as directors, and then support them as managing directors that they want to have a project to? Do we offer that as a way to fund them after they've had a chance to train under our programs, if that makes sense.

R

Ron Giles 50:48

But it does, and there's a lot of places in the world who have very restrictive governments. And you think that the alliance is not aware of that. Now, I have said that the white hats are in charge everywhere. What is the evidence of that? Well, you have people becoming having look alikes, clones, whatever you want to call them. And because their main people have been taken and under have been tried for their crimes and against humanitarian, so forth, and and they're either gonna get mall or they have been executed, as those who are not, who've been involved with child sex trafficking and that sort of stuff. Well, those kinds of government people are, are being left there as an example of the badness that's going on in the world. How, how can how can we wake in the people, I don't know how to do that. Now, if I can just share with you a belief system that I have about the big event that's coming. And that event is going to change every person on the earth. And if you have not prepared yourself for it, those who were doing these kinds of negative things with the government, so forth, if they're still alive and not clones, they will be terminated, they will be taken out from participation with us the quantum, as we go into the golden age of mankind, how's that can happen? Well go ask their father, who is their father, that's God, the Creator of all things. There's a reason for those people to be around as a negative influence, we wouldn't have that if they didn't have it shouldn't be loved them when we think about the things that they have done. But we're in duality, we're in the third dimension, which is duality, duality, we have a north we have a south, we have an east, west and up and down, in and out. That's duality. We come here as men and women. They're trying to mess that up. But in the spirit world, we're androgynous. We have our male and female together. And it's, it's the whole and so we come down here to Earth, and we are born a male or female. And so those are the kinds of things that we have to go through. Because

there's a reason for third dimension to exist. And all of us who are participating in that are the ones who helped create it. That's why we can create our own reality if we want to, we know how to do that. So there's a lot of things that we're going to learn now, as this unfolds and we get into the elimination of those who are opposing this process of going into the fifth dimension. They will not be here but the this blast of air or light or whatever it's going to be is going to be so powerful that it will change us. If I inquire about med beds, and this one over here that went over there All of them have problems. There's solutions, yes, but all of them have problems. That can't be fixed by the most powerful creator that would have ever known or had an experience with. That's the force that I believe is coming towards us. Now, it's a loving force. And if there are people who are not believing in love, that force will destroy them. If they believe in love, if they believe in the higher ways of being, then that powerful love energy won't destroy them, they'll, they'll bask in the light, our bodies will be changed. Is it going to be like the med beds, I believe it will be better than the med beds. That's my own personal opinion. And so I believe in the Alliance, I believe in the higher forms of, of life. And those, that will is going to be what's going to happen for all of us if we prepare ourselves for there are masters are involved in this. Creating the right things to have happen. And that's a good thing to take into your own personal belief system, allow it to be true, because it is true. When I say allow it to be true, don't throw up any resistance to it. Don't, don't go through your doubts and your fears. Doubt not, fear not, but be believing in all things shall work out for the best good of those that love God. So allow it to be true. Allow the good things to be true. Embrace it, believe in it. And then with experience, you will create the faith in it. But if you reject it outright, you're not even get a chance to do that. So are there powerful entities things is the love energy. Do we really understand what that is? Do we understand that love energy in the non physical is manifest into the light? Do we understand that? We don't really need to it's just happens. But if we believe in it, then we're in a position where that can happen for us. So
