## SUMMARY KEYWORDS

people, church, beneficiary, bonuses, third generation, minister, money, question, buy, sign, zim, ron, humanitarian, cards, download, alliance, program, pay, kinds, cents

## SPEAKERS

Ron Giles, Carrie, Speaker

---

### **S** Speaker 00:00

Okay, you're on I've been I've been on this for with passion, it's his last August. And I did the numbers on the many zeros when we first started. I could buy every house and in the US baby, you know, and just as in the numbers part of it, and then I've been watching on Izmail Perez, and who's the new kid on the block? I don't wanna name names like that. But he's amazing. And it hit me that this utillian And the zeros, just doesn't have to do with our universe is a multi universe, multiverse. And not just think about Earth. Think about all the other universes. And we're, we're, you know, how we can help me humanity in always home. That was just one little thought I had, which I believe, so. Put on zeros, and let's go. And, you know, as they say, is exciting. So I want to just want to thank you for that opportunity. I'm gonna walk. So I'll leave it at that. But God bless you. Any thoughts on that?

### **R** Ron Giles 01:17

Well, thank you. Yes. There are some thoughts. And you know, John was stretching people's minds here. I'm saying that the quantum financial system is not just for this world is for this galaxy, for intergalactic commerce. Now, what about the next Galaxy over there? Are they not a part of us? Is there some value that we have with the quantum financial system that makes that a good use for commerce? And the point is, yes, it is. It's heaven developed for that particular purpose. How big is it going to get? I don't know. I've asked about the yoga Lilia, and the number of zeros. And I say if I take \$500,000, is there enough gold to cover that? Maybe you hear a little chuckle? Oh, yeah. Yeah. Yeah. You know, you pick up one grain of sand in the sea, and you think around on the seashore. And you think that's such a wonderful thing. Oh, they look at all of the sevens on the seashore. And they can number them. We can't. We can count maybe a thimble in a year or so. But it's gonna take time to do that. And we don't have time. That's not our purpose. So there is the bigger picture that we are trying to get people to, to not see. But just prepare for it. Because it is coming. That is why I say to people, were going to redeem the bigger bonds. Yes, we are. I mean, I'm going to redeem all of my Uriel Lillian's and I said that with an S. And everybody else can do the same thing. What is that for? We have no idea. And my heart tells me the rate to get in my heart can see down into the quantum field of understanding where all things are known. And I'm preparing for that. Because my heart tells

me what's going on. If I don't listen to my heart, then my mind is going to this is the road I can see down the end of the road. But I can't see any further. There's what I see between here at the end of the road is you know, I have got everything I need for that. And then you get down to the end of the road. And it just started. And you've got all of that traffic, or all of those those old roads ahead of you. Go down each road if you want to. And then you finally get to the end and you say well, I'm finished with that. It's a now there's a whole nother world waiting for you. There's a whole nother galaxy. So there are those who have not caught on to this concept. When we talk about humanitarians are our humanitarian center not going to be part of loved one society. And those humanitarians might get the \$12 or \$12 million for 100 T No nobody in this world is saying things that are correct by saying that we are entitled to your Lillian's times your Lillian's of money. Because nobody else is Thinking about it. They don't want us to have any more than \$12 million for a 100 Tino. They don't have a clue what's coming. The cabal is is the basis of all of that kind of garbage. They don't want us to think that we can have this kind of money. They can't control us. If we have that kind of we can we can buy everything that they own. 100 quintillion is basically going to buy everything that the cabal owns everything. So they're not in charge anymore. We can buy you out sell you and and let you go broke. We don't care what about we're not caring about those kinds of things. We are on our own mission as humanitarians, the alliance is behind us 100% As the rate that you want, that your heart tells you about that it might have been 500. A year ago, now it's up to a million. The longer they wait, the higher there is going to get to they know that yeah, they do. Are they worried about it? No. Who's they the Alliance? God. So that's my, that's my little preachy thing for today, we have no limits to what we can ask for as far as a rate is concerned, we get the Zim that we can afford. We can acquire, do what we can do. Don't go overboard, be wise. But we're not under any control. We are sovereign individuals, and nobody's telling us what to do. Period. So you can join that wagon come with us a lot of fun, we're going to have some really good times. Or you can go with those guys over there. And you'll be on a different timeline. And who knows what you're going to get. We're going into the golden age of mankind, we're creating that it's who we are, it's part of us, it already is there waiting for us to recognize that it is who we are, as part of the golden age of mankind. We just need to open up our minds. I say when you open up your mind to these kinds of things, let it be true. Just let it be true. Doubt not fear not, but be believing. Just let it be true. And if you let it be true, then it will start germinating in you and become a belief system for you. And then it's grows and grows and stuff that supports that belief system will just add trillions of dollars to it. If that money is, you know, this is measured that way I don't know. You'll do not be left out. will let your mind be controlled by your heart. And open up your mind to believe these things. Because your heart and your mind working together. There's nothing that can stop. Yeah. Is that sufficient? Per the question?

C

Carrie 08:26

Say yes, for John. And a couple of other we've got a couple other questions before we move on. We're gonna go to retana retana. Your mics open?

S

Speaker 08:39

Yes. Hello, there. You hear me? Yes, yes. Excellent. Ron, thank you so much. Your programs are amazing. I've been with you for over a year. I go to sleep with your material, I wake up with it. So I kind of have it in a blood already. I think you really well thought. Now. As I went through all your material I keep seeing around me in my life. How great is the slavery on every step of the

life? I didn't see that before to that extension. Now. I do see. It's horrible. It's time to finish the whole thing. I hope it will happen soon. So now to the question, which is not clear to me. For the RSS program. What kind of identity proof will have to be shown or scanned or uploaded? In order to register? Because we have IDs we have national IDs. We You have new biometric IDs now. We have passport, some people have none.

R Ron Giles 10:09

Okay, let it's a good question. Return it. And first of all, I want you to say that it's not my program. It's our program.

S Speaker 10:18

Okay. Sorry.

R Ron Giles 10:22

It's part of you said it was. So let's call it our program on.

S Speaker 10:26

Thank you. Thank you. Yeah,

R Ron Giles 10:30

we're getting into a conjunction with the heavenly realms. We haven't had this before. We have known that we could. But the Alliance, and the quantum financial system and all of the things that are associated with us know who we are. So if you go into the revenue sharing solutions and wanted, sign up and pay your \$10, now you have a thing. You have your your, okay, well, that was too easy. I can go ahead and change. Like, I can create another email and I can create another name. And I'm going to get another 10 cents per minute download, and now I can have six trusts and so on. So how far do you think that person is going to last? They're criminals.

S Speaker 11:22

Yeah. And they're going to last fourth, and two nationalities, one from Switzerland and another one from United States. And, but our control, but

R Ron Giles 11:40

I don't, you know, there's people that are going to do that. And if we can just get it across to them that God's in charge of this. You try and fool God. Good luck with that man. Yeah, that'll that'll be a boat that usually you get to sail that way. And I don't think that there's a place for

you to go. But at least on this earth, if that kind of a person. We don't have to worry about that anyway, doing because we got more money than we can spend. So let's let people do what they're gonna do. Let's let you can't judge them. And you know, God can't say, Hey, you screwed up until they screw up. But when they screw up, then there's, there's a consequence to it. It's free agency, yes. But there's a consequence for the choices that you make. And just let that take place for them. And there'll be enough of them that will learn on their own and enough of us that will see what's going on. And who I'm not going to do that. Because if they try to get to they'll get kicked out and they won't get anything.

S

Speaker 12:48

Okay, I thought it would say that.

R

Ron Giles 12:52

Yeah, be that way. Don't say?

S

Speaker 12:55

Yeah, but what will we do with people who have none, even this modern time normal cities, I know, when they refused the biometric ID. They don't want to have pages scanned. Well,

R

Ron Giles 13:09

if we're not the government, which we're not, then we're not looking over them as slaves. And they will soften their hearts towards loved one society and come and join us because this is love one's society. We're all working this together. We're all in love with it with the oneness. It'll work out. So those people who, you know, there's people who don't want to be part of it, because the government can control that's not going to be a part. When GESARA and NESARA. Become the world becomes discerner and SR compliant. Those kinds of people will be gone. So we've got problems and till then, but and, but when they're gone, they're they're calm, there's no resistance. There's no resistance to us moving forward as fast as we want to.

S

Speaker 14:16

So we will basically register let register everybody and let the quantum financial system, do the police work, they would say,

R

Ron Giles 14:27

yes. That's all we can do, because we don't have enough knowledge and which one of us wants to spend the rest of our lives policing other people?

**S** Speaker 14:37  
I don't know. No way.

**R** Ron Giles 14:39  
No way. We there'll be taken care of so we don't have to worry about it. That's the nice thing about this whole program. We're on God's side. He's got those cheerleaders down there cheering us on. Maybe they're angels who knows? We call maintenance. Yeah.

**S** Speaker 15:02  
Lovely. Thank you very much.

**R** Ron Giles 15:04  
You're certainly welcome my dear. Blessings to you all. Bless you in Germany to

**S** Speaker 15:11  
Slovenia.

**R** Ron Giles 15:13  
Slovenia, so Eastern Europe. All right, we appreciate your English. good English. Go ahead.

**C** Carrie 15:26  
We're gonna go on to Alvin. Alvin, your mics open.

**S** Speaker 15:30  
Hi, Ron. I'm just want to before my questions, I just want to thank Dom, because he told me yesterday that she'll be sending me extra Zim because I can't afford the expensive one on eBay. And today, I decided to buy the gold colored Zim notes on here on our local online shopping, called Lazada. But I don't know if they are real. So anyway.

**R** Ron Giles 16:12  
If you buy them, and are going to redeem them, then the alliance will redeem them. Okay. Don't worry about Yeah, just just if you bought it, and this is what I'm going to, you know, the purchase, it's a transaction. photocopying is not a transaction, if you bought that to redeem for

your humanitarian funds. The what that I was gonna say what, what part of the Alliance wouldn't want to redeem for humanitarian and they don't exist? They will do that for you feared that humanitarian you'll get your friends?

**S** Speaker 16:55

Yeah, I think photocopying is a silly thing. quite silly. So my question is, I'm not sure if you will answer this, but um, how close are we to the redemption? The because I'm quite concerned that my Zim might be a little late before the redemption date.

**R** Ron Giles 17:23

I don't think that there's a worry at this point in time, things will take place, I still think we're still a ways away. You know, how do you do the Global Currency Reset in a day? It's got to go through the restructuring of all of the currencies and making them par value. That's a golden, that's a Global Currency Reset. Everybody's gonna see that happening. The Quantum financial system won't happen until that happens. So we do have some time and it's not it's going to take time to do that. Those sorts of things. So I how long? I don't know. There's a lot that we don't know, a lot that's been done that we don't know. That's part of the things we don't know. But the things that we don't know, or maybe already be taken care of. We just until we find out, then we have to trust that it'll be the appropriate time. And it will be Don't worry about us. Yeah, it'll be fine.

**S** Speaker 18:36

Yeah, thanks. Thank you. Thank

**C** Carrie 18:38

you. Go to Carrera Carrera. I'm hoping that I'm saying that properly. Guerrero.

**S** Speaker 18:48

Yes, yes, I'm here. from Puerto Rico. Hi, everybody. Hello. Hi, Ron, I heard you say, writing this, this call at the beginning. I thought I heard you say that you want to have the contract for us to check before the appointment? Is that correct?

**R** Ron Giles 19:10

Yes. I want to get them out as soon as I can. If I get a contract that's approved by the Alliance, there's no reason for me to just sit around and not give it to you so that you could be studying it. And you can be understanding what's going to be required of you. It'll put a lot of the information down in a package that you can look at. And that's the purpose for

**S** Speaker 19:38  
Yeah, that makes a lot of sense. I guess. I didn't think it would be that way. But definitely, that would be very useful. So thank you. Yeah. Thank you for that.

**R** Ron Giles 19:49  
You're certainly welcome. Thanks for bringing it up. Yeah.

**C** Carrie 19:55  
All right. Next, Jennifer, Jennifer

**S** Speaker 19:59  
Hi. Hello. How are you?

**R** Ron Giles 20:05  
I'm great.

**S** Speaker 20:08  
I have a question. Okay. I know somebody that is in Africa, that would like to be a humanitarian. I'm running into a little bit of an issue with getting him funds, or getting him them because he doesn't have a post office or a physical address.

**R** Ron Giles 20:30  
Yes. Is there? I'm aware of that. And, and specifically in Africa. I've got some things and ideas in my mind, but I'm not going to talk about it yet that it'll solve that problem. Okay. The Alliance is on our side.

**S** Speaker 20:51  
And that's what? The Alliance, we'll know who you are. And if you're meant to do this, it will work out in your favor. Yeah. So we'll just kind of hold off and wait until you give us word.

**R** Ron Giles 21:10  
Yes to tell me you're working it out. The line source everything we're trying to work in excuse

Yes, to tell me you're working it out. The time source everything we're trying to work in, excuse me work it out in a third dimension, sort of atmosphere or level so that we can get things taken care of appropriately. I've been, I've been dealing with that with him for a little while now. And I've got to think out things and how to accomplish it and present that and if it's sounds like a good idea, then we're way we go with it.

S

Speaker 21:42

Okay. So it

R

Ron Giles 21:45

is something that just, we just have to hold off just a little while. Maybe it's a week, maybe it's a day or two, whatever. Maybe by next Tuesday, I'll have an answer.

S

Speaker 21:59

Okay. Well, thank you so much.

R

Ron Giles 22:03

You're certainly welcome. I'm gonna do that. Thank you. All right. You're welcome. You're welcome.

C

Carrie 22:13

So Ron, Dom and I just talked a little bit. We're gonna finish out two more bullets sections. today. We've got about another half an hour. And then we'll pick up the second page next Tuesday, if that's okay with you. Yeah, that sounds good. All right. So the next section is how the funding in the RSS will work. beneficiaries receive a 10 cents per minute download, or \$52,416 a year, that does not end, there is a \$10 registration fee, which you've already covered. The RSS programs allow for up to six trusts for each beneficiary for any reason they choose. And finally, each trust pays out 10 cents per minute download and does require the \$10 registration fee to set up.

R

Ron Giles 23:14

Okay, let's start at the beginning. beneficiaries receive a 10 cents per minute download. It depends on the country, you're you're in that will be adjusted to an economic system within that country. If we give 10 cents a minute, per, per minute down in Africa, who, you know, they may see \$20 in a week. And that's what they have to live on. And so you got to do things appropriately so that you don't abandon their, their humanity or their civilization, their communities and so forth. So that that'll change. And some is going to be more and some is going to be less. And some might not even get a penny. It'll be 50 cents. We'll see what

happens. We'll see how we can work that out. Yes, it's \$52,460 per year for just one of just the beneficiary program itself. It's a \$10 registration fee for the RSS program. Yes, we've talked about that the RS program. RSS program allows up to six trusts. We've mentioned that many different times and it is for any reason they choose and be sure that it's you got something in the document tells you you get to spend all the money you want to spend out on it and being flippant that they don't. But I'm also saying don't labor over this for hours on end, trying to figure out something that you can get what you want out of because it's just there for us. So And each trust pays 10 cents per minute per download. And it costs. Let's talk about that one. Maybe I've kind of gone back and forth on this. But I'm finally getting to the point where I'm saying there is no reason for you to have to pay \$10. To set up a trust. So I'm going to say, this is official, no more \$10 to set up your own beneficiary, one of six beneficiary trusts \$10 is not necessary. You will, however, get \$50 per trust that you set up, because that's what we've had in the past. So you're gonna get your \$50 for a trust and no \$10 to set up the fee, setup fee. Are there any questions for that one?

C

Carrie 26:06

Doesn't look like we have any questions right now for that.

R

Ron Giles 26:09

Yeah, it's pretty basic.

C

Carrie 26:11

Yeah. So we can go on to bonuses, bonuses, bonuses, in the RSS program and how they work. Is there something you'd like to interject there?

R

Ron Giles 26:25

No. I just love I just love the bonuses. We did a good job on now.

C

Carrie 26:31

Okay. Okay, first of all, is the thank you bonus, each signup and trust account opened, earns a \$50 per sign up. Thank you bonus. The registration bonus on the first generation is one cent per minute for each to beneficiary signups and there's a little typo. If you're following along on the bullets, those two lines go together, one cent per minute, for each two beneficiaries that are signed up. There is a user ID required for the downloads. And the second and third generation bonuses are one cent per minute for every 10 people signed up.

R

Ron Giles 27:20

Correct. We call the \$50. Of Thank you bonus because we want to thank you for signing those

people up. But once society is just really excited when people sign up, and we start giving them money that changes their lives, we're really excited about that. The money is not being used other places, so why not put it here. Okay. So you get the \$50 for sign up. Registration bonuses for the first generation is one cent per each to beneficiaries that you sign up. They have to sign up under your user ID. In order for them. It's not necessarily your user ID, they can sign up on anybody's user ID if they know what it is. But for you to get the registration bonus, then you have to be they have to sign up using your ID number. And that's required for the downloads. I think those those are pretty nice, simple to understand. Now, the second and third generation bonuses are a little different. And so let's say it this way. I am a beneficiary and I go to the church I go to my church. And let's say there's 200 people in the church that attend most often but there's 200 people in the church and I go to the minister and I say there's there's some things that we can do to really help you to have a better financial system for the church the wavelet and I'd like to share this with you now if here's the program is called revenue sharing solutions. And the website for the revenue sharing dot Solutions Program is right here. You can look on there and open it up and and there are videos that you can watch the videos will help you to understand what's going on with this. Okay, you personally will without going through all of the rigmarole will be receiving \$28,000 per month I don't know what you receive here. It's none of my business. But we want you to stay as a as a minister for these people. And but here's the program so you You sign up, and then as a beneficiary, you're gonna get \$28,000. Now, you sign up the church, the church, then has all of the people in the congregation sign up under the church's user ID number. That way the church gets the bonuses gets all of the bonuses for that. Okay? So we have 200 people in the church, they all sign up was two times, or 200 or 100 times. Excuse me, what 150 times 200? Does that kind of like \$10,000. So that temps to the church. And then for every two people that sign up, you get another download for a penny. So that's going to be there's 200 people and signs up. That means you're going to have 100 cents increase in your download. Okay, this is for the church. The generation bonuses haven't done anything for the church yet. But they have for who? The minister, because that's on the second generation. Excuse me, our son, the person second generation that signed him up, but he's going to get as a first generation, he's going to get all of those bonuses that he gets, but he's turning the the major congregation over to the church and the churches and to get a 100 or one 100 cents per per minute download. That's just somewhere right? Close to \$500,000. Now, would your church be okay receiving \$500,000 a year? And let him well, yeah, we buy a new roof, he do all kinds of humanitarian projects that you want to do that in your neighborhood in your area, wheelchair ramps for people, all kinds of things that can happen. And imagine all of the banquets and the facilities you have here, you're going to have a place where people can gather together all the time and celebrate things. And you'll have one right here, and there's plenty of money to do all that. So the person who signs up the minister, then the church is the second generation. Okay, so the church, or the minister, well, who the minister brings in is a second generation. And that's the people. So he's got 10 cents a minute to download for oil, one cent per every 100 or 10 people. Now he's gonna get consensus a minute. Well, there's two other people's who's gonna get 20 cents a minute, have gone through this for a while. So I haven't got you set yet or confused. There's the second and third generation, the person who called him out, let's say Bob signed up the Minister, the Minister is on his first level, so he's not part of the second generation or he's not part of the second generation. The the Bob is going to get the generational bonuses on the church members that come through. And the minister gonna get the first generation bonus, which is the two once and for every two people. No, I didn't say that, right? That the Minister is going to sign up the church. And so the church is going to be Bob's third generation. And it will also be the ministers second generation and the church is going to be the one that has all of the members of the congregation on the first first level, which is one point or one San for every two people. So that's, that's going to be his two for one for two, so he's got 2200 people's is you're gonna get

one. He's gonna get it \$1 per minute. And that works out to be somewhere around 500,000. So those are the potentials for the generational bonuses. Now, it's not going to be that you're signing up a church every time. And it might be that you somebody in your organization that on your second or third generation signs a bunch of people up and you get another penny or two. Yeah, It's all helpful. And the bonus, the generation bonuses were, were created so that people will find churches and organizations and, and people like that to congregations. So that it happens, all of a sudden, you'll have 200 people in your organization now that are going to get, if there's a husband and wife, as \$56,000 a month that those people have families going to have this coming to church with you, they're attending your church. So you're gonna get a lot of money, your people are going to have a lot of money to do all kinds of activities that they want to do. So as from the religious structure, its financing the whole thing. All of your projects are done are paid for it, you don't have to pass a half or anything, the ministers getting paid, and so on and so forth. So there's a way there's a way that this is designed for, for a lot of people making a lot of money. So let's go to some questions. And still with me rambling on.

C

Carrie 36:15

All right, we are going to go to Mia first. Mia, your mic is now open.

S

Speaker 36:22

Hi, there, Ron, you're making me giggle. I've been trying to understand this church thing for ever since you started talking about it. And I think I'm even more confused now.

R

Ron Giles 36:40

Oh, that's what I do. The thing is,

S

Speaker 36:45

I don't understand what you mean by the church. I, I I don't know whether you mean the church as a body of people, the actual people, or the church as the organization? Say it's called lydney Christian fellowship or something. So that's the first thing. So I wondered, Is it possible to sign up? Like lydney Christian fellowship? And then the download would go to that organization? I can? I don't know if that's what you're saying? Is that what you actually are? You are? Okay. So then the minister will then have his own download, which will be for him and his family?

R

Ron Giles 37:31

Well, he can be that or he can, he can go up and be the one that introduces to the Litany church and signs them

S

Speaker 37:37

up. Yeah. So as part

**R** Ron Giles 37:41  
of his downloads are his generation on his second generations.

**S** Speaker 37:47  
Okay, so he'll sign up, and he and he will have his own money, then he can sign up the Lydney Christian Fellowship, which is like an organization, and the money will be downloaded into that church organization. And then who will find the people, the minister can then sign the people up?

**R** Ron Giles 38:05  
Well, who signs them up? But it's they want to go under the, the user ID of the church? Because, yeah, the user ID means that the church is going to get all those funds. And we we wanted to be sure that the church is being funded so that they don't have to pass a hat around or the plate and, and continue to you know, if you if you need a new roof over your church building, then there you go. It's coming. Okay, you've already in the bank. So

**S** Speaker 38:40  
yeah, I've got it. I've got it.

**R** Ron Giles 38:44  
have enough money to buy a new lawn mower to cut the lawn. How's that?

**S** Speaker 38:49  
Okay. All right. I think I've got it now. Ron. It's taken me months to realize that so. Oh,

**R** Ron Giles 38:59  
yes, I got one person. Great. Go ahead. Thank you.

**S** Speaker 39:05  
Okay, bye. Bye.

R Ron Giles 39:08  
Bye bye for now. Yeah.

C Carrie 39:11  
All right. We're gonna go to Suzanne and next to his mic is now open. Suzanna. You just need to click the mic at the bottom, that big circle that's flashing at the bottom. There you go. Go ahead.

S Speaker 39:27  
I just wish everybody and I would like to ask one question for the cards. If you have your RSS Golen. And let's say I'm going to introduce it to church with 200 members in the congregation. Do I have to have 200 cards or is it just okay if the minister makes maybe a copy to his members and uses the ID number for the church? Or do they have to come every time I went to our center to get more cards,

R Ron Giles 40:05  
the minister would be wise. If there's 200 people, five hundreds is a round number for cards from printing shops, easy to easy to do. So he has the cards that he can give to his members before he even introduced.

S Speaker 40:24  
Okay, so then they get to go home and not our son.

R Ron Giles 40:27  
Say that again, please?

S Speaker 40:27  
Would he be printing more cards? Or would he come for those cards to our center, that's still my

R Ron Giles 40:30  
Oh, he wouldn't be printing the cards, the cards, the cards are only for information, like a calling card. And this is who I am I here's my card, I'm in business to sell you insurance, don't slam the door in my face. But it's just like a calling card on the card has the information that

they need to go home and use their computers and sign up has the user ID number which would be the churches and has the the location, the website so that you can go ahead and look it up and get all the information that you need. And it has the church's name on it. So that all of that is just part and parcel to things. And I think that the church should buy 30 or \$40 and get the signatures so that they that the people will have with that card can go home and and look up the website and go in there and look around and then they also have the information to register.

S

Speaker 41:47

All right. Thank you.

R

Ron Giles 41:49

Certainly welcome.

C

Carrie 41:52

All right, let's go to RK and we Okay, sorry. That's okay, go ahead.

S

Speaker 42:00

It caught me off guard. Ron, and all of you for all that you've done so far through getting us all here. Because it's really, we've learned a lot, a great deal. And I appreciate it with all my heart is like, I don't know how I found you. But just certain avenues along the way led me and I love everything that you send out a look for first thing in the morning, as well. So my husband's in on it, my daughter listens to it. And I was really wanting to know, what sense? What is the best way to take care of your child? What terminology would you use with the trust? Would you get our beneficiary? How would you take care of one child versus your everything else you have to do with humanity? What would you suggest?

R

Ron Giles 42:59

Well as a beneficiary, or excuse me, as a beneficiary, there are certain things and as a benefactor, there's other things, you're the benefactor and you want to take care of your daughter, then you can set up a benefactor account for her. And you can pay her weekly sum of money working out so she gets enough money to look, I can learn how to spend money, if they need to be taught. But the responsible thing is that they they spent the money and then well, I've got to wait for a little bit longer, and I get some more. Well, as long as they can learn those kinds of things, then that's going to help them that's something that a benefactor can do. Now the beneficiary that's it's a, they want to use one of their trusts, then they can use the Trust for the child. And, and then the parent, one of the parents can be the beneficiary, excuse me can be the trustee. The child can be the beneficiary. And you work things out that way so that the child can have the growing up spans expenses that they need to grow up appropriately band into instruments, uniforms, baseball gloves, bats, that sort of stuff. baseball

hat when you when you go someplace you might want to, you know go to a sports thing and then you might want to buy a code or shirt or stuff like that, that everybody else is getting and why aren't we getting it dad because I don't have the money for it. Well, now you do.

**S** Speaker 44:40

Exactly. You see everything. I'm glad God puts you on this earth for this time and now and everybody else is helping you with loved ones society and all the new members. We have a big job ahead of us. And I'm excited.

**R** Ron Giles 44:56

Well, thank you for your kind words, Jennifer and yes, go God is in charge of doing any works to his people to get his stuff done.

**S** Speaker 45:06

So it's beautiful. Thank you.

**R** Ron Giles 45:09

You're certainly welcome. And thank you for being a part of us.

**S** Speaker 45:14

I'm honored, honored, honored. So are we. So are we bless all of you. Thank you for listening. You're welcome.

**C** Carrie 45:26

All right. RK. RK your mic is open. Hi, can you hear me?

**R** Ron Giles 45:33

Yes. Okay, I can hear you loud and clear. Hi,

**S** Speaker 45:37

I have a question, just to clear up something about the second and third generation bonuses. So using the example that you gave with the congregation in the minister I'm going to have, so there would be the minister. And then his first generation would be the entity of the church

itself. And then the people, the members of the church would be the ministers. Second generation, my question is the third generation. So if you took those, those members of the church for the Minister to receive the one cent per minute, per 10, people, would those 10 people have to come from? Let's say, ma'am, all from member a, to get that third? Or could a couple come from member a, a couple from member B? And once they add up to 10, then that third generational bonus of an additional one cent would occur? Does that make sense?

R

Ron Giles 46:49

Yes, it does. And I'm sitting here thinking, I wonder if I've done that wrong. But like, I don't think I have, but I'm gonna, I'm gonna go through that. But until I go through it and change things. The okay, you set up the minister and the minister, and that's your first generation. What he does is sets up the church. And then the church signs up all of the members of the church. That's his third generation. Okay. So they,

S

Speaker 47:30

the members are the third or the second, when they be the second

R

Ron Giles 47:35

saying that yours as the one who signed up the middle? Oh, yes. So so the Minister is your first. And then the church is your second generation and the third generation, if you can see, this is why we're paying that three generations for the churches thing. So the church signs up all of these people. Now, the Minister's third generation will be the people who he brings in from his, from his people from the church, excuse me, the church people. And that may not be very many. It could be a lot of people, but it's, it's per individual rather than all up. So he said that, and that's where my frustration is. That I gotta find a better word to say that. I'm really going to have to go through this because I'm feeling like I messed up. But until I change it, and that's the way it is.

C

Carrie 48:40

Okay, so you're, what you're saying is that, for the Minister to receive that third generational bonus, 10 people would have to be signed up under one of the congregation members. Is that am I understanding that right? Yes. Okay, that is all. Thank you very much. Okay. Crystal with a question, and she may be our last one today. Crystal, your mic is open. Thanks. Now, I'm

S

Speaker 49:11

a little confused, because I thought earlier in the conversation with someone asked about another church, the church was the primary sign up, and that was supposed to sign the people up underneath the church. So when we signed the church up, and then the the minister, and the congregation would all go into the church.

R

Ron Giles 49:32

Well, it all depends on how you want to set it up. Because, okay, there are certain churches that that have a board of directors that hires the minister and fires Minister if they don't like him, right? And they pay his salary. And so the person who's going into that organization Let's say Bob again, then he might be talking not to the minister, but to the board. And the board of directors may be an entity that they sign up collectively. I don't know how that, you know, they'll have to work out that difference. And then, and then you, you may have the minister, but the minister may not be part of that chain of Zim benefit, or gym beneficiaries, because he's an employee, now, they could offer him a go back to the person who signed it up and find a director or something, it has to come from a director. And then they can do a, a, an employment contract or contract for the minister. It all depends on how the church is set up. And then you have some churches that that have huge organizations, with smaller entities in the local areas. And if they get involved, I'm not sure how they're going to work that. But I think each individual church over here, just across the street sort of thing should have their own their own people in their in this organization of person, second and third generations. That's my idea. But okay, it's just the way that I would do it. But other people can do it differently. And to accomplish the same thing, the thing like we wanted to go for generations is because the person Bob, if it doesn't work out, so the he gets something other than just one person that signs up, then there's no value for him to go around and do all that. Right. So we we don't want Bob to get left out. We want to have him have the third generation, which is the people. Awesome. Thank you. You're certainly welcome. Thank you for the question. Have a great day. You too.

C

Carrie 52:12

All right, one last question for Nina. Nina. Your mic is open.

R

Ron Giles 52:20

Hello, can you hear me? Yes. Hi, Ron, how

S

Speaker 52:24

you doing? Nice to find? Ya, Ron, I just want to say I am confused. And so are I'm sure. Quite a few of us. Can I just suggest one thing? One thing? Yes. I'm a creator. Okay. Now, with that being said, I can create a lot. And while ago listening, thank you for listening to all this is messing with my creativity, let's just say. So, yes, I will be out and about handing out cards, meeting people talking to people, because that's just me. That's the type of person I am. Now with that I will have management to direct them to, I will say, You know what, here's my card, contact management, and have them have you set up with whatever it is you need. Let's just confusion right there. And our management team will be trained for all of this at the offices that we have. Does that help anyone?

R

Ron Giles 53:27

Well, you're going to how are you going to pay your team?

**S** Speaker 53:30

I will pay them through the funding I have.

**R** Ron Giles 53:36

You'll pay them employment contracts? Yeah. Yes, of course. Because each one of them will have to sign somebody up in order to get for every two people get 505 \$50 Thank you bonus, but then they have to have two people. So

**S** Speaker 53:53

what if we were to just cut them a check for a bonus, let's just cut you a check. Just regardless of whatever bonus, here's a check for you today, for this week, or this month and just let it go. It's just, you know, let's just have some fun with this.

**R** Ron Giles 54:10

The problem you're gonna run into is the ID numbers, the personal ID numbers that are set up for them to be a referral to be comm.

**S** Speaker 54:21

Okay, so how about I give you how about I give you 10 People under your name? Here's 10 people for you 10 People for you that walk it. Does that. Okay? Does that sound simpler? Yeah.

**R** Ron Giles 54:33

It does. And I love your ingenuity. membership, you know that people are not going to be walking, walking in and talking to you, they're gonna get referred to by somebody else. And it may be that the 27 people that you were thinking that are going to come through the door have already signed up under somebody else because they were referred to somebody else. Okay, that's

**S** Speaker 55:00

fine. Have that referral to that person right there. I have 100 referrals for you. Okay, got it. Okay, good. And the other one only has 10. But guess what, everybody will get paid the same for me. I mean, that's what I would feel like, I will pay you all employees the same, even though you have 100. And you have 50. Is that okay? Does that make any sense?

R Ron Giles 55:21

I'm just, I'm saying, Are you going to do a Community Assistance Center? Program?

S Speaker 55:30

Yes. Yes, for sure.

R Ron Giles 55:33

Okay. It sounds to me like you're trying to do it in terms of by getting people to become beneficiaries, rather than businesses. And then that's what you're, you're welcome to do it the best way that you'd like. But I'm, I'm saying, if you're focusing on the revenue sharing solutions program, and creating beneficiaries, that's going to take place, regardless of what you do. And you could better spend your time with the CAC send the directors training them, you're 20 people or 10 people that you were going to give a contract to. They may be out of work in a very short period of time. Now, the contract is a download per minute. Well, those are the kinds of people want you to call them directors and have been part of the the CAC program, because they're going to be out there talking with people and let them sign people up with their own personal user IDs. Just an idea, just

S Speaker 56:43

Okay, I just need you to just throwing some things out there as well. So, okay, okay. Thank you.

R Ron Giles 56:49

You're welcome. I'm sorry to confuse you.

S Speaker 56:54

I feel that some others may be as well. I just want to chime in a little bit, maybe just to help if I can. Well,

R Ron Giles 57:00

the more we talked, the better.

S Speaker 57:02

Right. Okay. I appreciate it. Thank you. Thank you, Ron.

Ron Giles 57:06

You're certainly welcome, my dear.

Carrie 57:09

All right. I think we have no more questions and we've covered everything on the first page of our bullet points for today.
