Today's topic is on the redemption appointments, something we are all very excited about. So first section appointment, preparations will be conducted by a counselor from the angelic realm. And what should be the thought process that we have to get ready and prepare?

Ron Giles 00:23

Okay, we'll go with those first two. Yes, it will, the counselor is an agent from the Alliance, who's specifically these appointed. And I don't know as from them as probably as much as anything from us, as we in in more of the unknowing, we chose who these people are and made agreements that we would work with them, the angelic realms. Let's, let's understand really clearly, that we're not going to have the angelic realm and or that counselor or that alliance agent come in with his wings flapping and, and sitting over in the corner or something and his wings were sitting there, no, that's not going to be the way it is. They have to shut themselves down. Their light quotient has to be shut down, or else it will be detrimental to us damaging to our bodies, I might just explain something here. And this is a download I've been receiving lately. In the spiritual realms, love is the force that does everything Love is the creation energy. Now we've heard that love and light, and so forth. Well, love turns into light in the physical realms. You can't feel or see love in the spirit world. Surely you can, you can feel it, but you can't see it. It's not, it's not available for us to see. It has to become physical. And in the physical realms, it becomes light. So light is the source or is the love energy that's manifesting in the physical reality. The sun, we have a suddenly get sunburned and all that sort of thing. But there are there's the Central Sun, that is the luminous for the whole universe, or all of creation. And it has to be stepped down. Even when it comes to our sun, the power of that light. So we ourselves, were we our eyes adjusted properly for it, or we could do it ourselves, we can see that we are light. If there's a loving person over there and mean spiteful person over there, we can see the difference in the light. If our, if our eyes were tuned to them, even the darkest of people still have even maybe just a little flicker of light. Because if you don't have light, then you cannot exist. That's the That's love. We are loud or pure love. And everything that is visible to us, it comes as a result of that love quotient, which is their line. If they don't have any light, then we don't even know they're there. They're probably not. So let's

understand then that then entities that come are from the non physical, they will show up in a physical form. They will be pulsating with blood blood. And that's the way that they will show up. So you won't be able to see them or see them as something different than what they are. But they're not going to be angels with wings and that sort of thing. They're not going to be so spiritual. I mean, you will feel the love. You will feel the love when you're in the presence of that counselor. And you will know without any question or doubt that that person is from the angelic realms or whatever. Now we may be having resurrected individuals that come to us as our counselors. We might even have Archangels that would come there's some individuals that are part of our loved one society, especially one well I better not go into that. But there's an archangel that is his guide, I have not been introduced to my guide. But I have found a little bit about who it is and what it is. And boy is very, extremely powerful. And these are the kinds of help helpers that are coming for us, to help us to be the best humanitarians we can possibly be. can't overemphasize this experience, husbands and wives, talk to me about or email me and ask if they should go together or if they should go separately. And I say to them, Well, if I were the ones involved, I would say, Let's go separately, you take some, your exam, and we'll divide it and I'll take mine. And we'll go into our appointment. And we're, we're working out the race that we want, and so forth. But we will have that angelic realm or that counselor from the non physical to come to us, each of us. So if a husband and wife, I don't see the reason to go together, when you have the ability to have two from the angelic realms, or for the non physical, who are going to be your account counselors. So there's four minds there that are going to be working in harm in harmony, as humanitarians. And I think that's the greatest thing that we can have. Now, are you going to take other people with you to the appointment, not your spouse or something? Well, I would, I would issue a caution, there's going to be a nondisclosure agreement. And if anybody in all people at the appointment will be signing it, including your agent. And so that leaves you a degree of liability them on them, because if they break it, then it's broken. For both of you, right now, you might be the best of friends. But something can come up where you become mean towards each other. And I don't know that that's really going to happen with our humanitarian code. And so you want to be sure that you project into the future, your heart does have all the time and gives you the information if you're listening to your heart. And so those are just some suggestions, as far as the preparations for the appointment are concerned. Make this as clean and pure as you can. And it will be a tremendous experience for you an extreme love experience. So that'll that'll be helpful. Okay, go on to the next one, what should be the thought process, we should have to get ready and prepare? Well, it's like the greatest job that you ever wanted to have. And you now have are gonna be getting your appointment to be the humanitarian, or wherever your greatest desire is, and I hope it is to become a good humanitarian. And so in your preparations, is there anything that you want to leave out? Or not do? I will expect you wanted to do everything you possibly could. Now, we don't know how long it's going to take before the appointments are, are given out through these resources that we have discussed the Alliance. However, it could be a short, shorter period of time than it takes to learn everything about level in society. So my idea is that focus on the preparations for your appointment, get everything already. And then as you go into some of the other aspects of the programs, your mind is there already, if you can understand that. So you're focusing on a very positive thing when you're focusing on loved one society. And maybe this is probably as good a place as any to discuss a little bit about what you focus on is what you create in your life. That becomes your reality. I get a lot of people who are still listening to the Guru's and I'm not criticizing them for that. And some of them are listening to the alternative news Who's and a lot of videos and so forth. And I think I don't I don't think that's bad. But I'm not so sure that it's real good. You listen to some news about things that are going on and the arrests and all that sort of stuff. But it's kind of interesting to know about it. But we're not taking arrests and things of this nature into our I'll call it a loved one society humanitarian activities. You're not going to take them into the, into the fifth

dimension. You're focusing on it now. Is that deluding, you're focusing on the real things that you're trying to make a part of your reality I get people want me to listen to this. Listen to something about Vic Fleming today, Nick flamey saying that the RVs in the gym are not going to be. And he comes up with some diatribe about counts made with the Zimbabwe, Reserve Bank, and an agreement with a they Zim bonds are a defunct currency. And there's nobody that has authority over them. It's like a historical bond. You have Russian bonds. There, nobody in Russia, that's going to give you money for those bonds, because people who sold those bonds and had the intent to redeem them at a particular point in time are not there anymore. It's taken over by the Russian revolutions. This is similar to what's happened with historical bonds. Historical bonds have no value. Why would somebody want to give you money for a historical bond that they have no interest in, unless it's marketing. And there's a lot of people out there and marketing and they make these fantastic boxes, and they're gold, and they're black. And they're, they're nicely decorated. And you look inside of them, and there's all this gold, Zim bonds that are made in China, they make a big deal out of it, but they are useless as far as bonds, meaning that there's nobody to redeem them. If there's somebody to redeem them, that they would be extremely valuable and be started selling for much, much more than they do now. Okay. So these bonds, Zim bonds that we have now, our historical bonds, nobody wants to give you money for them. why anybody would want to be trying to tell you that you cannot get them from the ally get money from the Alliance, obviously, is not in our timeline. And we'll talk about perhaps some time, we'll talk more about timelines and the shifting of timelines, and your choice of which timeline you want to live in. And that will be for your experiences. In third dimension that is part of your soul extension, you are a soul extension, a small portion of your soul has extended into third dimension. And that's who you are. Now, there's timelines that we have a choice to make. And we're coming up to the point where we either choose the what is what is called the Biden timeline, or the Armageddon timeline. My mom that's going to have a big whatever, nuclear war, continued hatred and the demise of humanity. That's a timeline. If you want that timeline, then study it. Focus on it. And then you're showing that this is where you want to be. Now, when I focus on something, it's because I want to be over there. If you want to focus on the fifth dimension timeline, and you focus on things that will increase your vibration, to the point where you can have you're creating your reality and the fifth dimension there's it's not some kind of a miracle sort of thing. Perhaps it will be I'm not really sure what it's like. Well, I have some ideas. Now we are in different timelines as an individual we have, we can be in the third dimension we can be in the fourth dimension we can be in the fifth dimension we can be even into this Six and seven dimensions as we live here, in third dimension. It has to do with your covenants, your promises, the purpose of such came here for all of this is viable. Now it's different than the Bible teaches. And the reason for that is because the Bible is teaching you how to be a good slave. There's always somebody over you in the Bible, and tell you get into the New Testament, and Jesus says, Love one another, the law is gone. The prophets have a lot of Prophets, a lot of Moses has been fulfilled in Jesus. That's a simple thing to understand. So we are not slaves. We are sons and daughters of the most powerful influence. That is the creation energy and that is love. Where we to really understand who we are, we are a physical manifestation of that loud because we are light. Let's understand these kinds of things. You can go back and listen to this if you want to. But what I'm trying to say is, what you're focusing on now is what you're going to be in the future. If you want to focus on Cabal, and use their definitions, that that's what you are creating. And in reality, there's no fifth dimensional timeline that that sort of stuff can support. Because the fifth dimension will not support anything that has anything to do with the Cabal, or the cabal is definition of things, or the legal definition of things because all of that was a part of the fraud that was perpetrated on us. Fraud vitiates a contract. What does Vitiate mean? It cancels the contract. You can't take a contract that is created in fraud and take it to a court of law. Because there's no valid validity to it. It was a fraud. And anybody that's trying to promote

all of this extra stuff with trying to get out of this, that and the other and create certain thing. It's okay, do what you want. But be sure that you're spending 80 90% of your time on things that you want to focus on that are in the future, that you are then creating now creating for them. That is going to be your reality. You are the one who will create your own reality, that what you focus on will become your reality. These are the conditions that are necessary for us to go through. This is the creation process. You focus on it, you created in your reality. You focusing on it. So they haven't say the Alliance, whatever universal universe that brings these things to you. It almost wants to be in the fifth dimension. Let's give him that. Okay, that's what I wanted. How do they know I want it because I focus on it. And what I focus on is what they will give me. We need to cleanse our lives. We need to clear up our distorted thinking and quit thinking about things that have no value for us in the future. When you start doing this on a conscious level, your life will change and you will feel the changes that are being made. There is a brand new life for us in the golden age of mankind. That's what we are creating with loved ones society. harmonize with that. Make that your central thoughts and ideas outside of your mundane things of living life from one day to the next. You'll have those moments when you will be able to be in the creation process, focusing on the things that you really want to be a part of your life in the future. Okay, I hope this is helpful. so

C

Carrie 20:01

very much. Thank you. So we go on to the next. Well, you covered so much in there. The last two bullet points in the section was spend more time in preparation and fine tuning, which you've addressed. And then the concept of when more people are committed, the sooner it will start. Would you like to address that at all?

R

Ron Giles 20:21

The one thing I want to say as far as humanitarian work is concerned, workers, humanitarians that are getting involved with us that humanitarians have a calling from God that are going to receive the the funds. Only those who have that calling from God will be getting the funds. Am I sure about that? Yeah. Every time I ask all the humanitarians who are called of God, that to receive the funds as a humanitarian, we'll get the funds. Anybody who is not in that category, it's not that there's something wrong with you. That's not saying that at all. Because each of us will have people that are humanitarians that will be doing the work that were there to help sponsor. So let's just let it be that and and it's going to be committed to humanitarians. It's not really committed humanitarians, it's awakened humanitarians, awaken to their calling as a representative of God, that's going to bring forth the golden age of mankind. With the money, they'll be doing it with other people who are humanitarians. And and people will grow and develop as best they can. And our job isn't to be concerned about that, because they're not in charge of their lives. They're in charge of their own lives. And so we just let the heavens work with him and let them get their own understanding and ideas. I might just mention, when a person studies loved one society and begins to have a, an understanding, a workable understanding of the programs. Then they start doing things like, well, this is the way I think this is. And they read it and read it. And they'll never fine tune it a little bit here. And they might get 70 or 80% of things correct. And then they read it again. And they'll get 85 and go up to 90 95%. I don't know anybody who will be more will be 100%. Because we're always learning. But when I find people who have gone through the process, then they start thinking on their own. This is how I'm going to do this. This is how I'm going to do that. And they will

start instead of asking questions, they will start manifesting things in the physicality. The physicality could be just simply thought, ideas. There's times when I have thoughts and ideas, and I'm in bed. And I'm getting the download from the heavens in my body shakes uncontrollably. It's a magnificent experience, because of the information that I'm getting is just, Oh, it's beautiful. This is beautiful. So you're going to get to that point. All of us. All of us, humanitarians are going to get to that point. That is movement into the fifth dimension. Let's understand that there is a movement towards there. Far beyond what we really understand ourselves. Okay, so I committed humanitarians. I think it's it's more responding to the call as a human being Ontarians committed will be part of it. Okay, let's go to the next one. Gary. are happy to discuss

**C** Carrie 24:13

Yeah. So if you have a question on appointment preparations on this section, would you go ahead and raise your hand and we'll call on you and IVDM, you did have your hand up so your mic is open. I'm not sure if you actually had it up to ask the question. Let's go to Patrick and we can come back to you. Patrick, your mic is open now.

**S** Speaker 24:43

Wrong you mentioned awakened. I have been trying for a long time to get paying pineal gland open from 67 I don't know how each of them is probably calcified, but I'm very devoted is awakened mean that Have you done made that crossover? Or? Because I'm intuitive and I get requests, I request and get answers right away. So I don't know, to what degree you say is awakened, I'm trying to be clear.

**R** Ron Giles 25:13

Well, it sounds to me like you're already awakened. And I'm not gonna use the word a woke to megalitre. I think you're already awakened or awakening, you're on the right track. Your intuitiveness is going to increase your abilities to receive from thoughts and ideas from the heavens will open up more and more and more as this continues to flow. So I can see you're on the right dried source. Yeah, go ahead. I

**S** Speaker 25:45

was told I was trying too hard when I meditate, just to relax and let it happen. So I've been doing,

**R** Ron Giles 25:51

yeah, well, there's nothing you can do to make it happen. So except for allowing the word allowing it to happen, means that you're open for it. And you will accept what comes, doesn't have to be in the way that you understand it. Because our third degree, third dimension

understanding is opening up into the higher realms of the third into the higher realms of the fourth dimension, and then on up into the fifth dimension, it's just going to happen to us. The desires of our heart are manifesting as we move into the higher realms.

S

Speaker 26:33

Was my desire to be closed here. So I'm trying to,

R

Ron Giles 26:36

well just say, my desires to be in harmony. Because you are in harmony, see, you're on the trail, you're on the track. Your track has the train track has already been laid for you. And you're moving on down. Good job, Patrick. Good job. Thank you much. You're certainly welcome.

C

Carrie 27:01

This, we can go on to the next section, which all right, the alliance is counting on us to get the job done. Why is that? We're being trained to do the job ourselves. We are boots on the ground, the Alliance can't do it alone. They need us to get it done. And the question is, is that why we have the opportunity for the high rates?

R

Ron Giles 27:26

You know, those are really good questions. And thank you, Dominic, and whoever else is helping you with him. We're being trained to do the job ourselves, boots on the ground. Now, part of the alliance is boots on the ground. But they're mainly military. They're doing things to create the atmosphere where we as humanitarians will get our funds, and then we get to do our stuff, our humanitarian stuff, I would like to get away from the idea of projects. Every one of us has project, you know, there's this land over here that we'd like to develop. And so once it's developed, what is your next project, you and this is why I always say you are the humanitarian the heavens, the alliances are funding you. Because you're the source of all of the projects that need to take place. You are not your projects, you're the humanitarian doing the projects. And that's why they're funding you and not your projects. Now, all of the emphasis and listen to this, look at it and see what's going on. Your value in most of the people is what projects you were doing. And if you get them approved, and you get the money for them, to lead to that to that. That's not humanitarian, that's just the next door neighbor or somebody else so wants to build to help build a wheelchair ramp for that person that lives next to him. Those are the things that's the level of projects that are being done by those who don't have the calling as a humanitarian. They'll get funded. And this is really important. Because there's people want to do that fulfill the desires of their heart. We have a different calling. We have a different vision. Loved One society. If you really understand that you will see that we are changing the way we live. We are changing the way that our economy works. Building a wheelchair ramp next door is not going to do that. So we have a different calling. We have the Spiritual prowess to be able to do that doesn't make us any better. It's just a different colony's different job. And all of the jobs that need to be done are going to be done by really good people. So let's not negate that, but

let's quit talking about projects, because they're funding, you know, the projects, you're going to do a project, and then you're going to do another one, and then you're going to do another one. And then you're going to find out that there's 6000, patents that need to be funded and manufacturing and all that. And then that doesn't count the ones from the ET'S. How many of them are there. Don't limit your thoughts about the money, don't limit your thoughts about the rate that you're going to ask. Let your heart yell at you, it's gonna yell at you until you finally get it and your mind gets it. Let your heart tell you what the rate should be. Now, here's one of the things that I really liked to emphasize on there. Where your heart gives you a rate, it does include what is now but it also includes what will come to you in the future. If you're getting 100 T notes, and along comes a bison Talian Are you going to ask for a different rate. If you want to disappoint your heart, you will. It's not the total amount that you're looking for the total amount is what is your heart's idea of what you need. And so when that your heart speaks to you and gives you a rate, that's the rate for everything that comes into you as far as Zim is concerned, and your mind is going to be moved by your heart, take some of these higher bonds. Some of these higher bonds, or most of them are found over in China. They made them in China and sell them around the world. Some in Australia, some in a lot in the on eBay, you can go there and and some of the bonds that they're selling on eBay, 35 \$40 for your Lillian or whatever it is. A young Lillian, from my perspective is the highest bond that you can get. There's I don't know how many 1000s of zeros. And to me zeros just mean that I get to do more. I have no idea what it really means to have all those zeros. I don't own them. I'm just using them. I'm using them for my humanitarian work. So as money as they come into me into me into my responsibility, my stewardship, that's just means I have more to work with. And I can do more. I can make my heart just saying there'll be fun. So there's just a little bit of philosophy with that the alliance can't help us or do it alone. They need us to get it done. The Alliance does have the boots on the ground, but they're not humanitarians. The only ones that aren't humanitarians are the ones that are have a calling to receive the funds. So the Alliance doesn't have the personnel to do what we're going to do. If we start out with 30,000, Zim benefactors. And the Zim benefactors really get involved and do all kinds of stuff, how long is it going to take to have millions and millions and millions of people doing that? There's nobody else that can do that, except for keep we humanitarians. So the Alliance needs us if we had any concept and understanding of how much love and appreciation exist for those humanitarians who have been called to receive the funds. It is humongous. It's how much does God love you? You can't pull it. You can't pull a measurement on that Kenya. You just can't do that sort of thing. Well, that's what the Alliance feels towards us. Because together, we're going to create the golden age of mankind. They'll do their part. We'll do our part. The boots on the ground, they're part of the Alliance going to their part, the beneficiary benefit had the benevolent ET'S will be doing their part. Well, I'll get it done. Not only for the earth but for the galaxy. And how many galaxies idol No. Quantum financial system will be the financial system for all galaxies that want to be a part of us. That's where it is. Don't ever let anybody tell you that there's not enough money. Every time I asked about your Lillian's, is your pets a lot of zeros. Yeah, it is. Is there enough gold? Absolutely. Unlimited as far as your mind is concerned. So those are the things that are preparing for us or that are being prepared for us by the Alliance. And our minds just need to start gathering the greater vision of what we're trying to accomplish. The only with love one society, but for the entire world. There isn't a humanitarian out there with a calling from God to receive the funds, that we'll be asking for a one to one rate on an exam. That's a trillion \$100 trillion. There is a one of them are going to be doing that. And there isn't one of them that will be asking for \$11 million for 100. Tino if you can understand why I say get rid of all of that garbage, because it pollutes your mind. Get rid of it, take it out, put it in a box, where the garbage can take it out and let the people take it away. Because you don't need all of that stuff. You don't need the curveballs, definitions of things, you don't need any of that. If you focus on that, then that's what you get. And we don't need it. So purify your lives. Think clear

and clean and loving pots and make that your priority on a daily basis. And things will get really good. Okay, the question, is that why we have the opportunity for the higher rate? It is absolutely true. We are the ones who are getting called to do this. That's why the rates are getting up into the millions. Two or three. I've heard of some that have a 10 10 million. And I've heard others that are higher than that. Is that conceivable? Yes. Do it your heart tells you don't let your mind stop your heart from being the dominant one as far as that radius concern. Okay, that's the end of that. Yeah. There's anything else?

**C** Carrie 38:11

Well, we have the hand up. Anybody else who'd like to ask a question on this section? Go ahead and raise your hand. We'll try Aaron.

**S** Speaker 38:20

Thank you, Carrie. Hi, Ron. Hello. Just wanted to say I have a question on the first section, should I hang back until the end not hold up the process? Or

**R** Ron Giles 38:31

if it's a quick one, just go ahead.

**S** Speaker 38:35

It's a difficult one, I think in terms of when you're talking about keeping the vibration high, which is something that I work full time on, and my difficulty. And I'm sorry for the the controversy around this. But my difficulty is when I come in contact with the sharing, which is quite a lot. I my vibration drops quite a bit. And I feel like I'm always trying to claim something back. Can you speak to that? And anyway,

**R** Ron Giles 39:11

yeah, just a short couple of sentences. You're the one in charge. And you tell your heart, you tell your body you tell whatever. You're the Lord God of your being your body. You're the one that can tell that do not respond negatively to this shedding and other things that are similar to that. Just pass it by, you don't have to respond to it. And it is my desire and my will and my command to you to let that just go away. Try that and see if that helps.

**S** Speaker 39:55

Yeah, okay. I did a little bit of that today. So thanks for validating that you Thank you.

**R** Ron Giles 40:01

R Ron Giles 40:01

You're certainly welcome. Right on. sweet lady.

C Carrie 40:07

Good to Patricia. Next.

S Speaker 40:09

Hi, Ron, beautiful to hear you. Thank you. My I have I'm very strong in in my knowing that I am humanitarian. I'm not able to pinpoint projects or ideas. I've put in my binder all the things that I'm passionate to be a ping pong ball with you bounce around and help where I can. My passion with all of this is spiritual governance. The separation of being governed by spirit needs to be bridged. And my passion is to be involved in that, can you put me in a direction where I could start learning more?

R Ron Giles 41:03

Yeah, let's tweak that a little bit. When you call it spiritual governance, for yourself, that means that you have given you a power to something outside of you that is governing you. Fair enough. Fair enough. And so don't worry about governance. You are the governor, you are the one in charge, you're the president. You're the POTUS of your life. Okay, so don't allow yourself to be become a slave or remain a slave. Because you are the sovereign. And when you take upon yourself, your full sovereignty, you will feel a change. It's just magic for you. And from then on, then your, your essence of who you are, will start changing to where those outside influences are like water off the duck's back. Even if it's somebody that you're close to, that has a negative way of dealing with things, your job is never to change them, never. They're living their life according to what their spirit is telling them. And if the Spirit is working with them, then they will change. If they don't, then the Spirit is working within their purpose for being here on this earth, and the third dimension. And you cannot get involved in that. That's crossing dominion. And that's not your job. It is a sin to do that sort of thing. What is the Lord's Prayer say about trespasses. Something about forgive those who trespass. Forgive me for my trespasses as I forgive other people's trespasses towards me. That's not just idle words. That is a realization of a command that's given to universal law. You cannot do that. And how many of us are doing that right now? And how many of us are successful in doing that right now? I don't see any hands course I don't see any anyway. But the point is, is that it it doesn't work. You let Spirit work with him, not you. You're getting in their way. You're creating a drama. That is not necessary. That has no real is not. It's not effective in changing people's lives. So you let spirits into their lives. You pull up your boundaries. And if somebody's starting to trespass on your boundaries, then you as the Queen of your kingdom or your domain, you don't let them trespass, trespass over into your life. And there are people who don't have a carrier concerned about doing that because they don't understand these universal laws. Set up your boundaries, maintain them, and you have to be doing a really good job. That's, that's what I have to say about that.

S Speaker 44:44

Thank you, Ron. I love how Spirit works. Because there's definitely a message coming back to me and everything that you said so I will take that on. Perhaps I wasn't clear on My question, but yet I received a really good message in there. For me personally, my, my governance may be the wrong word. My passion is that those who are work with education or health or anything to do with the human race on this planet, from now on, involve, involve spiritual guidance involve the loved one that's involved the universal laws on this planet, because it hasn't run that way before.

R

Ron Giles 45:37

Your absolutely correct. But you know, how many of the higher elements or individuals archangels, angels, all of the hosts of heaven, if you want to call them that, I don't know what you want to call them. They're all working on it. And I think that they have the ability to do that. If we change ourselves and are in harmony with what is going on, then they will be successful, we will be successful. Right, and they're going to be successful anyway. If we think we have to help them, and spend our time doing that, then who's going to spend the time for you personally? It's only you. You're the only one that can do that. So don't you bide your time? Yeah. Thank you. Bless you, my dear.

C

Carrie 46:33

All right, we can go on to the next section, which is the point process and we'll break this in half. I think there are not any limitations on the amount of funds that the Alliance wants to give us. The overall plan is to design and construct a new world economy. We are humanitarian we as humanitarians aren't our wits I'm sorry. We as humanitarians are what's important, not the project, which you've covered already. And there might be more projects out there that we're not aware of yet. So would you like to wait?

R

Ron Giles 47:17

Yeah, well, most of those things have been discussed earlier. We can spend time redoing it, but I don't think that that's important. Let's go on to the white lines. Where,

C

Carrie 47:30

okay, the alliance is aware of our lack mentality, and what is expected of us to get the job done. This is why we'll have an assigned counselor for each of us. We get the funds and then do the work we're here to do. And some of us definitely were brought here for this very moment.

R

Ron Giles 47:51

Yeah, I just have to say amen to that. The Alliance is aware of our lack mentality, the alliance is totally aware of our conditions that have been given to us as a result of being slaves to the Cabal. They're helping us to move through that. And first of all, if we understand that there is a

problem, that we have been conditioned that way, we do have lack mentality. We have oftentimes there's not enough money, there's not enough time, there's not enough, there's not enough. The problem with all of that is that we're focusing on it. And in focusing on it, we continue to read constructor or create those things in our lives experience. And we don't want to do that. So we have to, to listen to what our thoughts are. Listen to what our words are. And once you come to the understanding that you have a lack mentality, then you'll start listening to those words, and you'll start using different words. Your child says, Mom, I, I would we don't have enough money for that there. That's not the right thing to say. We have money and we use it in different ways. If we can work out some way to get that now let's try and do that. What are the things that you feel like you might be able to do, of course, their age has to do with that too. But those are the words that we use, that we're not aware of, that if we become aware of, then we change and that's part of the going from lack mentality to a neutral area and then into the abundance mentality. The abundance mentality is the primary reason for all the money that we're getting in the world, for the world so that the magic is already there. We're just working with it and making it work for us. Is there another question?

C

Carrie 50:06

Anybody have any questions on this topic of the appointment process? All right, well, we're going to turn this over to Dom Now to continue. So Dom, are you there?

D

Dominick 50:22

Okay, Ron. So the next section we want to cover is make it our mission to read and reread the documents. And then listen to the videos on the [qf s 20 twenty.com](https://www.youtube.com/watch?v=qf_s20). Site. Basically, there's no shortcuts for learning. We develop and are developing our divine power that is really us. And then to remind everybody that this is a reality, it's not pie in the sky or something that is just thrown out there. This is the this is a reality that's going to happen. So you care to comment, run.

R

Ron Giles 50:55

Yeah, so I love to love one society is a voice has a voice. I'm the speaker. But your voice is just as powerful as mine, in terms of changing yourself, in terms of changing or becoming in harmony with the Alliance, and that's what your desires are. Okay, so I say, start on the Reading First, this is, is that important? Not really. But I feel like if you've had that, you've done a certain amount of exposure to the ideas and so forth, then the videos seem to have a better feel for you. Because sometimes, you know, in the original videos, when I was trying to do the PowerPoint presentation, or reading the PowerPoint presentations, I'm not a real good reader, my eyes don't work real fast. And so I, I don't believe they're up to a standard that I feel comfortable with. And so, but that's what we have now. And that's what we're going with, until we do it again, with perhaps some other help. But I think that what we're looking at here is a process of education. Now, how often do you spend time listening to those videos? Or the question and answers and so forth. I hear from a lot of people that that's what they wake up, and they go to sleep listening to it. And that just my voice puts people to sleep. I've had people on the phone that go to sleep while I'm talking. Larry, the point that I'm trying to say is there's no shortcuts to learning. And I think that's an absolute truth. You have to spend the time you

have to put forth the energy. And it's not just the time to do it. It's the time that's effective for you to do it. And while you're there, spend the time as if you were you're like as a job, or whatever you want to do it. Job sounds like it's something you might not want to do. This is something that I hope that your education will be an a joy and an exciting adventure into learning new things. If you approach it that way, then this is going to be a lot easier for you loved one society is not really hard to understand. There's the nomenclature the birds or the the words that we use glossaries so far, they're all there and that has to be kind of memorized in order for you to really put it in a sentence and use it for yourself as how your efforts in what you do as far as the time that you spend there are it is necessary for you to put not just the time but the effort in your mental thinking. And remember things. quiz yourself if you feel you need to. We're trying to do question and answer we'll come up with some of those things in just a short while.
