## SPEAKERS

Ron Giles, Speaker, Dominick

---

**R** Ron Giles 00:00

Reality, I hope that there's no questions or doubts in your mind that loved one societally will be a part of the quantum financial system. The Quantum financial system has to have the Global Currency Reset before that, what is our biggest indicator of that is the foreign exchange system where you can get on and deeds, you can see what this currency over here is in comparison to that one, all of that will go away because they'll all be match or equal after the Global Currency Reset. And the Global Currency Reset has to happen before the quantum financial system can be up and running for many different reasons. But the biggest is that it does not compute the difference between one currency and another currency when it's making a transaction won't do it's not designed to do it. It's designed that each currency is a par value. And when you start looking into the quantum into the digital gold certificate, you can understand what I'm trying to say you can't have a different digital gold certificate for every country, it has to be the same for everybody. That's how your money is transferred back and forth. Those are the kinds of things that take place. And the price of gold, what is the price of the kilo of gold? That is doing the supporting the digital gold certificate? How many will it support? Realistically? How much? What dollars? How many dollars is it going to go back? All of those things are at once there is a point in time that the quantum financial system is going to come online, the price of gold will be set in stone as far as a quantum financial system is concerned. Once that set in stone, as far as the quantum financial system is set and in and is functioning, then the price of gold can be the price of a commodity, we don't care where it goes, we don't care if it goes up or down or in between, it doesn't matter. I have the opinion that the price of gold will go down because people are not going to use it for money anymore. I mean, the old timers will still use it but the new people are This isn't an end, this isn't any more valuable than digital gold certificate in the quantum financial system. Why would I want to buy gold and the gold just sits over there. You may be going up or maybe going down if it's you're doing it for an investment. That's one thing but don't use it for Golden or for coins or, or currency anymore because it's not. It's a commodity. So these this is the reality that I'm trying to create. And it's exciting when this thing once we really get into it and see what is available for us. It is far greater than any of us have any concept about get on, keep your arms and legs inside. This is a ride of your life. You don't keep your arms and legs inside and sit around all the time you just go and get out there and get the job done. And you're gonna have a lot of fun. That's all I have for making a mission and to read and all that sort of stuff.

**D** Dominick 03:42

That's great. Ron. Ron, we got a few questions. If you don't mind. We'll take some Yes. Okay, so I've got Keeley, I've got Ricky and Sandra Keeley. I'm going to allow you to speak first, if you can open your mic. You should be good to go.

**S** Speaker 03:58

Hi, Ron. In the past, I've heard you talk about the alliance in terms of the heavens and from the angelic realm, per se. And in the past, I've heard Simon Parkes mentioned that you actually helped create the quantum financial system. And I was wondering, I'd rather ask you obviously, if that is true, if you've done that, and if part of your alliance that you're in contact with is actually boots on the ground that you worked with. If you did help create the quantum financial system.

**R** Ron Giles 04:36

Okay, it's it. It's an interesting question. I don't know where he got this 20 year stuff. And I don't know where he found out that or has a thought that I created it helped help Korea The only thing that I can say is that the people who he's talking to don't have an understanding of the quantum financial system and because they One of them plagiarized one of my dark articles about the quantum financial system. So they think that I know more than they do. Is that interesting? And those are the people who are talking to Charlie and Simon and perhaps more other people as well. Okay. What was your name again? Kaylee. Kaylee?

**S** Speaker 05:24

Yes.

**R** Ron Giles 05:26

When you hear about the quantum financial system, and you hear about loved one society to desert reticent name in your heart?

**S** Speaker 05:34

Oh, yes, I know, for an absolute fact, this is what I'm supposed to be doing. No doubt.

**R** Ron Giles 05:43

Okay, I'm going to take you back to before you were born. And every other one of us who the not only the quantum financial system, but the loved ones society resonate in your heart, I'm going to make this statement. We were there. And we created love one society and the

going to make this statement. We were there. And we created love one society and the quantum financial system. Because this is going to be our responsibility to bring to the earth. Now, the reason I can say that is because there are things associated with the quantum financial system that are just part of me. I knew all about gold back and how the gold backed currencies. I've written many articles on the gold standard that Nixon used. And then with a stroke of his pen, he took us off, it has no value and has no security. But gold backed currency has to have be done in a certain way. And with a somebody who's telling me that the Kryptos are going to be gold back, I say, No, not gonna happen. The computers that they're using for the crypto currencies, does not have the power to be able to do that. Distance, they don't have the gold, the way that it's organized in the quantum financial system. I don't care how much gold they have. It could be in a jar on their front porch, I don't know. Or it could be in their backyard be huge mountains, it doesn't matter. It's not valuable as like, as the gold backing in the quantum financial systems. I just have no faith in that, that I didn't Well, there, we've got a lot of different currencies, and some of them are going to make it and some of them, they're all part of the quantum there, excuse me, they're all part of the computer system that is now in third dimension and is not the fifth dimension quantity. quantum consciousness and if it's not part of that, it's not going to work. You don't have the capacity and in their computers that they have now to make it work, period, exclamation point. And I say that with authority, because that's what the alliance has said. How's that for you? So those are the kinds of things that create the reality of what we're trying to accomplish. Is that help?

**S** Speaker 08:33  
Yes.

**R** Ron Giles 08:34  
Yeah, you help you helped create it to my dear.

**S** Speaker 08:39  
That sure sounds nice. I hope that's right.

**R** Ron Giles 08:43  
Just let it be true. For you just let it be true. I can't believe that. That's going to be part of my new collection of information. Just let it be. And that'll be good.

**D** Dominick 08:57  
Kaylee, was that it? Did you have anything else that you needed to ask around? Nope. That is it. I appreciate it.

**R** Ron Giles 09:04

Thank you, Kelly.

**D** Dominick 09:09

Okay, Brian, we have we had Sandra she was had her hand up at them. She went away but be divined servant. I believe I lowered your mic so you can speak Sandra, I see you back up. So I'll catch you next. Be divined Are you on? Can you just click your mic?

**S** Speaker 09:26

Alright, Dominick. Thank you.

**R** Ron Giles 09:29

Hello, absolutely. Evening,

**S** Speaker 09:30

Ron. Thank you. And I'm so glad that you're back. And just the quick question, just carrying on from Kelly's question. Are you saying that we created this through our love fibration where you say that before we was born we created as if we were loved by patients?

**R** Ron Giles 09:57

We created in the love vibrations. In the spirit world, that's where everything that is physical was started as a creation, the creation, energy becomes light. And then it's in the physical becomes physical in line with light. Now, that has a lot of different spectrums, and they have a lot of different things to it. And but yes, I know that I was there when the quantum financial system was created. I don't know that I was in charge doesn't matter, I don't care. We're, as a group obviously got together and created. Why? Because we're coming into the golden age of mankind. We need this. It's been in that realm of creation in the spirit world. I don't know how, of course, there's no time there. So why do we even try? Could have been the last moment. But it's okay, because it's there. And we're resonating with it, and we're bringing it forth. That's our job. That's what we wanted. That's why we did there. So yes, it's a different concept. And I appreciate that. But the when the cabal is around, you don't get a lot of get a lot of stuff. And you can call it true. But there's so much that the cabal has created that is not appropriate, because they were trying to keep us a slave, and stead of letting us know that we're children of God, made in His image and likeness. We are children, meaning that we're growing up to be like him. And that's the way that the heavens work. We have been isolated from the idea that we are children of God, and our religions now do not preach. They do not let us know who we are. And I say that's part of the Cabal way of doing things been going on for two or 300,000 years. How long has the Bible been around? Well, those people who's written their history or in the Bible, they were probably pretty pure. Then they went through all of the different interpretations and transcriptions and and all that sort of stuff. And what part of the truth was left out? The major part is the fact that we are children of God, they did not want us to know

that because they could not control us if we gain that knowledge. And our job now is to become like our Father in heaven, like our Creator. And we get to be smaller. Chris, what do you think the fifth dimension is about? You create by thought, well, that's not what Jesus did is now what what God did creator, to the beginning, let there be light. Well, that's the creation words that he used. And everything that he had an intention for of doing that, and making that was part of that creation experience. It all happened at the same time. You could call it a big bang theory then. But in physicality, it takes time to evolve from one to another, to another to another. The ET'S have been doing this for 1000s of years. And that's why they're further along than we are. And of course, we had our DNA change. We have 10 junk DNA, column junk DNA. Well, what those 10, we would be just as far advanced as any of the other ETS or whatever you want to call it. So we're now in the dispensation of the fullness of times. We don't have to go through all that. It's coming really, really, really, really, really fast for us in comparison. We don't have to go through all of those different evolutionary stages, to be who we are to find out who we are, and then act accordingly. Once Jesus knew that He was the Son of God, He acted like the Son of God. And he was downloaded all kinds of information. You will be the son or daughter of God and see what happens and you claim it. I am this I am the daughter of God. I claim my inheritance and allow that to take place in your life. Just allow it to be true. Don't doubt doubt not fear not, but be believing. If you have doubts, don't, don't talk to me about your religion. Doubt not, fear not, but be believing, and all things shall work out for the good of those above the Lord. So that's my way of thinking. I hope it's it's okay for other people. There is that helpful for you?

15:39

Thank you, Ron, that was absolutely beautiful. Thank

Ron Giles 15:42

you. You're certainly welcome. Thank you for that compliment.

Dominick 15:47

Thank you very much. Sandra. Did you have your mic up? You ready to speak?

15:53

I was thanking you for bringing the sacred aspect of this mission to light in your recent comments there to the previous speaker. It's just resonating so deep in my soul, and I thank you. Thank you for that. I just have a simple question about the redemption appointment. And and something that I think I remember from your comments about our professional appearance at that, at that time. Do I recall you saying that you wanted us to leave our jewelry behind?

Ron Giles 16:38

No, I never said that. Okay, get along with that, well, I'm trying this when I shame. You have your wardrobe, your choice. Choose the one that you feel that you look the nicest, and it has

your wardrobes, your choice. Choose the one that you feel that you look the nicest, and it has absolutely nothing to do with anybody else in the way that they dress. You're feeling like you're prepared. You've dressed nicely. If you want to wear a necklace, then do that. There's nothing wrong with that. It's not pretentious, you're just trying to be the best that you can be. So that you feel comfortable that you're prepared and showing up your shoe shopping and all that sort of stuff. It's just it's mainly for your benefit, not there.

**S** Speaker 17:29

That clarifies the point because I was wondering if there was some kind of vibrational aspect to wearing gold that helped them or kept them from perceiving what they needed to proceed. So

**R** Ron Giles 17:44

no, that doesn't make any effect. Yeah, you're certainly welcome.

**S** Speaker 17:48

They're better than that. Yeah. Thank you.

**D** Dominick 17:53

Thank you very much, Linda. I think I had you next and then AJ, I just released your mic. But if you can let Linda go first. You'll be up next.

**S** Speaker 18:02

Hi, Ron, it's so good to hear your voice again. And I'm so glad that you're feeling better. My knees are just more of a man. It's just more of a comment that this session of all of your videos and all of the chats and everything since I have been involved, has spoken to me in so so many ways and encouraged me so much. And it was meant for me to hear today in in. I couldn't even go into how many different ways and I'm, I'm so thankful that you felt well enough to speak today. Because I don't know about anybody else on here. But I absolutely needed to hear every word. I thank you for.

**R** Ron Giles 18:47

Thank you. Thank you very much.

**D** Dominick 18:51

Well, thank you, Linda. Ajay, if you're available, just tap your mind.

18:56

Aloha. Welcome back. Speaking about your voice, I kind of was the only one falling asleep to your voice. But, you know, there's more to your voice than that, too. It just has the ring of vibration of truth in consciousness. And I think no matter what you say, it still gets filtered through that. And I think that's very reassuring to people, at least for me. So I just wanted to tell you that absolutely. The the questions that I had and I think might have been covered the past and I sorry if I have to go through this again. But the historically of all the thing of all the currencies Zim was selected to be the one to be helping using that to help humanity. Now is there any like story or any anything around that that? You know, perhaps you shed some light why and how and what's what's the narrative there? Why the pigs in?

Ron Giles 19:59

Okay, it's very simple. There's there's numbers is Zim, that you have never heard about. That means it's a large amount. Okay, trillion. 100 trillion is a large amount of money. But that's one of the, you know, they used to pack their backpacks with 100 T nodes to get a bus ride across town. That's why it's defunct, now defunct, meaning that it has no value. The Reserve Bank of Zimbabwe, it will not give you or redeem those bonds for you. They they didn't even have a million trillion dollars in their economy. When they published those trillion dollar series. It was a fraudulent activity. And they got censored for it. They people didn't like it didn't like their, their own currency. They wanted us dollars. They wanted us. They wanted South African rand and they also wanted the Chinese yuan. Okay, so what happens? Well, they get, they get away with the they tried to make it work, and then tried to make it work since then. But it just doesn't work. Because nobody has any faith in a cabal government. That's pretending like they're valuable when they're not for the people. Okay, so we have 1000s and 1000s, and 1000s. And perhaps millions of these 100 T notes, not so much of the other high value, and tell the Chinese came along and started reproducing them. And when they got up to \$250,000, or one or \$250 for 1000 for 100, Tino then the lower prices that you can get from the gold and the silver brands or look alikes have those same bonds. But like I said, we redeem those for you because we don't want you to spend \$250 For one entertainer. So you pay two or \$3. And if you pay \$3.49 and \$1 Shipping for a bicentennial, you tilian Well, we'll go ahead and do that too. Because we don't want you to have to spend those kinds of that kind of money as a sacrifice in order to become a humanitarian. A yo, Lillian is just just, I have never been able to figure out how many zeros are are there. You know, you take my Lilian, my I I i, L L, I O, N is like 30,000 zeros. Now, those are zeros, 30,000 of them instead of 3030 1000. Well, bless your heart. Okay, so what has the Alliance done by doing that? They're showing us that there are funds way beyond our comprehension to go after because these need to be this, these funds need to be brought out so that they can be used for the changing of mankind into a golden age of mankind. That's just that's the whole reason for it right there. So I hope that helps.

Speaker 23:40

Yes, it does. I mean, I just, I mean, the logic that I thought would be might work is that because this is such a high, it has such high notes, high numbers in it. And this is the way to inject it into the system. And I, you know, I think there's a lot of people who know about this, and a lot of people don't know about this. And I think that they will, the chips will fall as they will based on I

think our karma and our attitude and who we are, and we will come across these and then we will use them or redeem them at the right time. So yeah, it does help. Thank you so much, Ron. Aloha.

R

Ron Giles 24:20

You're certainly welcome. Get the highest she can.

S

Speaker 24:24

We will thank you. Okay. Bye bye.

D

Dominick 24:26

Okay, thank you, Ron. We got a few more questions. So we're just stay with it. People have a lot of interesting thoughts here today. So Judy, shady, I think I released your mic, so you can just tap it and speak.

S

Speaker 24:41

Thank you guys. And God bless everybody here on this channel. And, Ron, we're glad you're feeling well. I feel the same way that Linda stated and I just want to say I'm so humbled to be on where And my question is that, okay, now all these funds that are being released, we're going to take, a lot of people are probably going to take the 100 year projects. At the end of that 100 years, is our world going to be fixed?

R

Ron Giles 25:18

Well, let's, let's say it takes us 100 years to fine tune our lives to the point where we can start moving into the fifth dimension. In the fifth dimension, we create by thought. And then it's manifest in those thoughts are manifested there that's love energy that does have been in its becomes manifest in physical form. And we don't see it as light, but it is light. And light is, is the physical man of manifestation of the love energy. You know, there's sometimes it's a little bit hard to to use those words and have it seem true, but it is. And so let's just allow that to be true. So when we're using the Jim and the others, we get to have the highest rates. And that's what's really happening now.

S

Speaker 26:19

Thank you, my friend. God bless you.

R

Ron Giles 26:21

Well, thank you for your kindness. I appreciate it.

**D** Dominick 26:26

Okay, thank you, Judy. Brenda, I've got you on tapped. And you may just tap your mic and come in.

**S** Speaker 26:34

Thank you. Hi, Ron. I just wanted to say that I'm glad you're doing better. I was a little concerned about you. And I know you from somewhere. I don't know where your name, your face and your voice are very familiar to me. From the first day, I was introduced to love one society. Wow. But I can't I doubt we have never been in the same circles. So I don't know why I know you. And why I country

**R** Ron Giles 27:07

are you from?

**S** Speaker 27:10

I'm from Oklahoma. United States.

**R** Ron Giles 27:14

Okay. Well, there's there's familiarity that we have with our our people that are in our spiritual groups, groupings. And that could be a reality. There's a lot of fun things that we can all say dream up. And, you know, for me, if I dream it up, then to me, it can be true. I don't care. So however it happened, whatever it is, it is, as far as I'm concerned, and just let it be.

**S** Speaker 27:49

Okay. Well, I have a question. Since I've only been in this, like three formats. I've gotten my presentation worked out. Finally, I had to just walk away and leave it alone, because I kept adding projects to it. It's gotten massive, but my heart is it's pulling me to other countries, I don't understand what's going on. Now. I can't concentrate on what I'm supposed to be doing here. Because my heart keeps taking me. It makes me feel like there's more of a need in other countries for me to be there, and I don't understand it.

**R** Ron Giles 28:38

Well, let's just pretend here and like you say, pretend and then we'll deal with it later. Let's pretend that you're part of a soul group. And you came down to Oklahoma. And we're born

here and raised and you had certain circumstances. Now you come in to love one society. Some of your other soul mates or soul family are over in different countries. That's why we have those feelings. Okay, we want to go there. And we wanted to do that. So you're you're responding to the love that has already been created for those people in a different situation, which is like from the heavens. Let's let's allow the heaviness to be a really, really active part of our lives. Instead of saying, well, they're up there and we're down here. No, we're all together. We're one. And if we can understand that, and then our dreams about those things that our minds can imagine things that are true, and we don't know about it yet. And then tell something comes along says yeah, yeah, I can see that. And so those are the kinds of premonitions that will come to us as especially from the humanitarian part of it to where you are supposed to be going and doing your work. It's spiritual.

S

Speaker 30:07

Okay, what? Okay, from the time I was a little bitty girl, her name is started school yet horrible things happened throughout my life. And I never understood why until now. If I picked or if I chose to go through all of everything that I went through and survived it. And I've had this the My Project in my mind for years and years and years, I just did not know how I was going to accomplish it. Because I was never in the position to have the funds to accomplish the things that I felt like I needed to correct here, like in the United States. And now I have the opportunity. And I don't want to because my projects are very, very important to me. I mean, they are in my heart, they've been in my heart for years. And I don't know why. But I don't want to forget my brothers and sisters here in the United States. But I got this strong polling. I mean, I'm being pulled to other countries. And I'm a little I don't know, I just, it's getting a little overwhelming.

R

Ron Giles 31:49

I feel I understand what you're saying. Things happen to very highly evolved spiritual entities, as they come down into the fifth dimension, or third dimension from wherever they came. And it could be the fifth or sixth or 20, I don't think there's a 13th dimension. I mean, it doesn't matter. You came here to do things specifically for the earth, you're planting things. You're creating healing karma, for things that perhaps have happened to you in your life prior to or to the lives of those who are are dealing with that now, those people may have been that did bad things to you may have had things done to them. And now they're getting a chance to heal that because of your willingness to let them be a part of your life. As a higher evolved being. Those are the kinds of things that I think about. And I just know that everything that happens to me in my life happens for a reason. And if you want to really understand what I'm trying to say, then go back and read the mission statement for loved one society. Things happen to me and if I just get angry and upset, then I don't fulfill the fullness of that experience by pondering on it and recognizing that all things work towards towards my best good. It may be that I have to learn how to deeply forgive. Those are the things that I look at and I say those things happen to me for this purpose. And I let that be true I pondered in my heart and then the Spirit will speak to you. And in the speaking to you, you will feel the presence of the love energy that is being touched in your heart and it helps you to grow does

S

Speaker 34:11

yeah I am working on forgiving some people in my life very hard it what they did to me or what I allowed I felt like really damaged me now I don't feel damaged. Now. I feel like I went through what I went through because I chose to go through it. And I chose to go through it for a reason. And

R

Ron Giles 34:47

well look at those people in your life that you have problems still with that did damage to you, or you perceived it as damaging and say you are here for your purpose and I'm here for mine. We joined purposes for this particular experience. I grew from it and you grew from it. Let's just let it go. Let it go. Just let it go. Let it go for you. There's no reason for you to remember it any longer because it's pulling, it's becoming detrimental in the memory of it. So forget it, let it go. And heal yourself. And then healing the self means that you're coming back to love. No fear, no hatred. No bad feelings. Let love prevail in your life, and that will heal you. Thank you. You're welcome.

S

Speaker 35:50

You have a great day.

R

Ron Giles 35:52

I'm gonna do that. And you too.

D

Dominick 35:55

Okay, thank you, Brenda. Appreciate it. Ron, we're just crossing over the the hour here, we've got about another 30 minutes. We can

R

Ron Giles 36:05

go ahead. If we can just maybe do a maximum of three questions after each one, then we might get through this. Yeah, that's not to say that I'm having to worry about those other people because it was good. Yeah, you know, the sixth and seventh question was still perfect, but let's just kind of. So here's three so we can get through it.

D

Dominick 36:28

Okay, so here's the thing we have the next section really kind of starts digging into the appointments. And then if we if we start on that we may not finish it. And so would it be better to address a specific topic I have for you, and then start next week fresh, right in the appointment process itself? And then we can cover everything? What do you think about that? And then we can open it up?

R

Ron Giles 36:53

Yeah, let me just take two minutes on this one. Take someone to the appointment. Okay. I shouldn't Yes. So we don't. You've got here, directors, group, family members, so forth. I have a problem with groups of humanitarians who want to go together to an appointment and come out with some money. Who's the leader? Who's the one in charge? who's the head of your stewardship? If there's nobody, that's the head of your stewardship, that's why I say if you're working with somebody get your money first, then you are in complete control of your money. And if you say no, then it says no. If it says yes, then you go ahead with it. And you always follow your counselor. Those kinds of events. So you know, there's, there's some problems that are still out there with groups of humanitarians that feel that they need to all work together. And I say, go to your appointment, get your become familiar with your counselor. And then you can work with other people. If you want to. It's your choice. And there's nobody, that's a hell of the group that's going to be in charge of your money. Your stewardship, don't give it to somebody else. So from then let's go ahead with things to think about.

D

Dominick 38:30

Yeah, right. And Ron, and thank you for that. It's, it's just so important that we all understand and have an understanding of the process for our appointments. And so this kind of leads me to a topic, if you would mind. It's a little off script. But it's so relevant to what's been discussed by you today that I thought I'd just put it out there and get your comments on it. And that is that everything that we have heard today at this point, and the main reason I'm going to put this out there is we have a lot of new people on the chat today. And probably a lot of new people that have not heard the appointment process in the way that you've presented it compared to how other particular individuals out there are presenting appointment processes. And so for a comment if you could run the spiritual side of this is so strong and in my heart right now listening to this, that I don't hear this being said out in in the world currently right now through other gurus and other individuals that are speaking about redemption or currency exchange. It just seems to confuse a lot of people. This to me does resonate with me, and I think it resonates with a lot of people. And if you could comment for me, the process of trying to understand what the other side is talking about, because they're dictating specific rules. for how you need to comply to go to your appointment, whereas it seems like with LW s, we are putting the materials out there for us to go learn on our own. And so could you on that run the relevance of this business strong to me, compared to everybody else's does not?

R

Ron Giles 40:20

Well, let's call everybody else's a slave mentality where somebody is over you and some of these people have taken upon themselves to responsibility to be your lectures and demand and that sort of thing. Is that Cabal? behavior? If that's cabal behavior, then Who do they think they're trying to, to keep in their fold? It's as simple as that. If you listen to stuff, and I listened to one a week Fleming's today, and I'm not trying to pick on the klemming. Specifically, I'm just saying that he's an example. Please told us that we're not going to redeem our Zim. Then there's some kind of a contract to the Zimbabwe government made with with the Chinese government that precludes us from even presenting our stuff to be presumed to be redeemed. Who gave him the authority to do that? What cabal agent was it that decided that they're going

to have, they're going to create a contract with the Chinese government? A cabal government from Zimbabwe signs a contract with the Chinese, that affects a completely defunct currency, and starts telling us what we can do with it and what we can't, does that mean, we can scrape it off or pull it off the wall that we use it to create wallpaper with? Because it's the fountain as valueless? These people who are doing this are cabal oriented, that's the way they do business. They want us as slaves. Now, we are sovereigns. We're becoming Alliance humanitarian sovereigns. A sovereign is the person who's in charge of their own kingdom. Domain, King of the domain is your kingdom. Queen of your domain is queen of your dominions. Anybody who tries to overcome or interfere with your domain is breaking universal law. Now I'm asking you for an opinion. It's a rhetorical question. So I don't need an answer is Vic Fleming crossing Dominions by the things that he says, By to the people who are listening to him for his Intel. And I say Vic Fleming's Intel is telling about him. Now can we start separating the Cabal garbage? From what the alliance is doing for us the alliance has given us the correct way to redeem our bonds, or Zim bonds. And for those who have other historical bonds, it's no different for them. If you're a humanitarian, you'll get your bonds. redeemed, if you're not you won't. I know people who have historical bonds with piles and trinkets and gold, Buddhists and all that sort of stuff that live in Vietnam. And this person asked me to help him and I says, I would love to help you. But where you are, you need the Alliance to help you. I'm not qualified It's outside of my purview, it's outside of my lane. I'm in level one society, and you're going to be doing stuff with your money that is necessary for you to develop your country of Vietnam. You need to deal with the Alliance, and then you will have your own person to counsel with, I'm not sure how, if I get involved with this kind of thing, then I get very upset. Because I do not like what the cabal is doing has done to us, and is continuing to do to us with these puppets that think they know what's going on. They don't, they don't know hell, from a hill of beans about the quantum financial system. They have no idea about the Zim redemption of bonds, they have no idea what to do with these large sums of money. They're going to stop us from having that as much as they possibly can. Because they are slave owners. They're the ones who think that they own the slaves and have to be in a position to control them. And I say you have absolutely no authority over me. I have my domain. And if you cross over my domain, I will call forces for the powers of heaven to stop you. Because that's a sin against me. Do you think that the alliance there excuse me, the gurus, who are preaching these things have any idea of what I'm talking about? I say, No, they don't. They're only puppets. They have puppeteers who have taught them to do these things. They're only puppets. Now the puppeteers are gone. They have been taken off the Earth, the heads of the organizations, there's no general authority or a situation where they're getting information from the same source. So if you look at Fleming, and I, again, I'm not trying to pick on him, can you see how he has changed? Can you see how his lies have affected people. And he continues to lie and affect people. And now he's moving into a different level of control. Judy Byington has done the same thing. They're doing videos and they're on posting their Bidy videos and they won't have any problems with bid shoot or any of the other or YouTube are kind of having trouble with them because they're preaching the same thing. So they that bit shooter and YouTube want him to do at any other organization is like that. They have a an open field, they can do what they want to do. Does that make sense? I say yes, it does. It makes absolute sense to me. Their top leaders are gone. So they're creating their own identities as the ones who are in authority. This is the this is the mentality of the Guru that g n n, small g and n guru news network. Now, with all of my disgust for these people, I asked the Alliance what can happen why don't you stop this? Why do you let them continue to do what they're doing? When you know that what they're doing is wrong. Piece my son. They are fulfilling the full measure of their creation. They are fulfilling the full measure of what they came here to do. That's why they're involved. There'll be a time when the rug will be pulled and they won't be have the boys anymore. When that happens, it might be that we are starting to get into the redemption in ourselves, and it's coming. Like I mentioned before, the

Global Currency Reset is one of the biggest that you'll find that's in preparation for the quantum financial system, don't let anybody don't let one person on this earth tell you that there's money in the quantum financial system, there is not, there is not one digital gold certificate that has been activated. We in our redemption of our system, through the appointments that are authorized by the Alliance, when we go in that transaction that we make with them as selling our bonds to them, our money will be put into account that is the beginning of the quantum financial system. Anybody else doesn't know what the hell they're talking about. At all, say that to any one of them and find out in a very short order, if they know anything about what they're talking about. I don't get called up to go on to places like that anymore. I'm not so cordial and allowing them to do things that are not right. And so I have to just pretend that they're going to be taken care of at the appropriate time by the Alliance, or believe it's going to happen. But it's none of my business. My getting into their domain by judging them. I'm fearful that they're there, the answer is yes. So I have to be careful what I say and what will I do. But for the love that I have for our people. Don't let the doubts and the fears that these people are doing create a problem for you and all of us who are underneath the umbrella of the Alliance. We, if you're listened to those people, you're going to be confused. Especially if you have an inkling that they may be true. just dismiss it completely. Get rid of this thing.

**D** Dominick 52:38

Yep. Thank you so much for clarifying. I think in summary, this entire chat is all about us claiming our dominion and preparing ourselves in our appointments for that. And as a humanitarian, that's all that really matters is getting ourselves ready for that.

**R** Ron Giles 52:57

Absolutely correct. That's our job.

**D** Dominick 52:59

Great. So Ron, we've got a few more minutes where I'd like to just open it for final questions. I do have Bob, that is going to come in and ask you a question or make a comment for you to just respond to but if anyone has any final questions, we'll take them now. And Bob, you want to come in?

**S** Speaker 53:20

Yes, sir. Ron, it's good to hear your voice.

**R** Ron Giles 53:23

Well, thank you, Bob, I appreciate that.

S

Speaker 53:26

The question that I'm going to ask is really a result of monitoring the channels and the discussion. And it is it is related to the discussion you were just having about the guru news network and some of the things that are being said. But over the over the course of the last two days, there has been some discussion in both the chat and the projects channel about the relative values that people can expect the bringing currencies into their appointment, things such as Zim, dinar, and Dong, and what you may get as a relative return for humanitarian works based on those and I think people are being affected by, you know, the Guru's news network. So could you please provide some insight for the group of the relative redemption rates for each of these different kinds of notes, and how that resulting value could affect your potential to do humanitarian work?

R

Ron Giles 54:37

Wow, that's a good question. Bob. Really good. The Alliance has chosen you because you're a humanitarian. Now, if you continue down that road, as a humanitarian, you're going to be fine. But the humanitarian can cross trembles stilts on the side of erode and go out into the bushes in the fields and run into the water and all that sort of stuff. They can do that unless they're paying attention. And keeping themselves focused. I have a very narrow lane of loved one society, I stay in that lane. If I get out of that lane, I feel uncomfortable or hurt. So I have to get back in that lane. I'll go out of that lane, if it means that I can help somebody to learn. But I don't go out there against those people that I have mentioned before, I don't do it to do that. I do that to help people to understand that their messages are not from the alliance. And we want to stay in the lane where the alliance has put us and allow us to be and we're traveling down the road. Now, if I'm traveling down the road, and I go off road, I'm not destroying myself, but I could come but I'm not going down the road as fast as I could. So I have to get back on and then be sure that I don't be letting myself go off in the bushes or in the field again. And sometimes there's a there's a ditch there. And having a collision with the ditch going at our godspeed could be very damaging to us. So let's not go out of our lane. And you know, sometimes that means that we don't listen to the news we don't. We don't listen to the girls. You know, there's others that I'm told to listen to that have some really good. Jane decodes what Michael J. Cole is one. Janine, there's one, Terrell by Ginny. And I really kind of confined myself to those areas that I feel have some some valuable information that will fill in some gaps that I don't have. Keep in mind that when I talk to the alliance, it's my going there and asking questions. If I don't have the right questions, and I don't get the right answers, I don't get downloads and telling me well, we're going to do this on such and such a date, we're going to do this on such and such a date. That's that's never a part of our discussion. It doesn't work that way. So I'm not going to come out with some kind of an idea that China and Jim Bob way have signed a contract and they're going to do this, this this. The alliance would never say anything like that, number one, number two, I would never say anything like that. Because I don't have those in my mind to go and get confirmation from the Alliance about that kind of information. So I can keep myself pretty, pretty pure and the as part of the Intel process, but I don't I don't preach to people about these things. I stay closely within the things that are having to do with the loved one society and the guidance that we're getting from the Alliance through the spiritual realms. And I say which would you rather have? Would you rather have that? Or would you rather just go over there and find out what they're talking about and seeing the you know, what pedal they're going to end up in, or destruction that they're going to be a

part of, you know, there's nothing about that contract that has anything to do with us. But it has everything to do with the people that they're talking to. And so, just let him talk. And I let that take place. Does that help? Dom? Well,

S

Speaker 59:22

sir, can I just bring all

R

Ron Giles 59:24

maybe I'm sorry, Bob. Yeah, no, no, no.

S

Speaker 59:27

That's quite all right. Maybe I didn't maybe I didn't put emphasis on on the particular point. I was I was trying to get to, and that is over the course of the last couple of days. There's been a lot of discussion on the chat rooms about bringing various currencies into your your interior redemption appointment, and, and the comment about what you might expect to receive in order to do humanitarian work from these various current to use

R

Ron Giles 1:00:01

Dong and dinar are add those currencies are still active in their countries. So the revaluation means that if you buy those currencies, and then they revalue them, then you make a profit. There's nothing wrong with that. It's just business. The point is, is that you're talking in terms of symbols in the ocean, compared to what the Zoom is. Now we've gone from a 100 T note that's going to produce at 500,001.25 quintillion every quarter. What do you think it is now? With billions. And some of those bonds that we have no idea how many zeros there are. Things are changing. And I've said, Well, it seems to be that only level one society, people will be asking for the higher rates, he says, You're absolutely correct. Nobody else has it in their mind. Their minds won't go there. Their hearts would go there in a in a flash, but they're going to be in harmony with who they are and what they're trying to accomplish. So I let those people follow whoever they want. And they'll end up with a place that is designed for those people who follow those people. And it's okay. They're going to go through their experience. Now, if I if I say, I'm going to ask \$26 for a dog. Well, where did I get that idea? I don't know where it was somebody that went up and let go goes up and up and up and up. And eventually ends up there? Well, I don't know that then the Dong is going to be worth \$26. When I go in there, I'll take all my Dong and dinar. And I'll say, I would like to a good rate for those the highest rate that you feel is comfortable. As far as the Zim is concerned, I'm asking for this array. And it's into the millions. And so they're going to give me what I asked for it because it's in my heart. And my heart's already told them that and so there's, there's worse the discussion. So we're talking. Go ahead, so. So sir,

S

Speaker 1:02:27

it sounds like the reason why, and you actually said this earlier, the reason why we're using the

it sounds like the reason why, and you actually said this earlier, the reason why we're using the zoom for the very large rate of reduction of redemption, is that it actually is a defunct currency, and it really doesn't exist. As far as money goes, it's just pieces of paper. But if you walk into your redemption appointment with other currencies that are still active, you will end up with whatever the value is of those currencies, after everything is reevaluated. Is that more correct?

R

Ron Giles 1:03:05

Well, I would agree with you. And then I would say, they may just give you a little bit more than they normally would other people say we're talking about the Alliance money. Here, we're not talking about fiat currencies, that you take those same things and you go into a bank, and the banks are going to cleanse themselves to where they might be participating. I don't know, the one that's real close to where you are, might be working on that. And I may not, I don't know. Some of those banks have been cleansed. And they're starting to train for financial service centers. You go into one of those banks, and you might get a better rate than other people. But for humanity, excuse me for humanitarians. We'll get our call from the Alliance or call or whatever communications of some sort from the alliance. And we'll have to go in and have a redemption there. And they may give us more money for the currencies. Currencies would be the Dong dinar and so forth. Not the bond. Maybe give us a better rate, but we're going to get when we go in as humanitarians, we're going to get gold backed currencies in the quantum financial system. They're going to possibly maybe, probably will just be getting fiat currencies. But I don't know any bank that's going to revalue those currency, they had 22 years to do it and then done it yet and they don't have more money now than they had back way back when they're running out of money. 86% of their profits have gone because the SWIFT system has been compromised by the quantum consciousness. They don't have that much money anymore. And the money that they're getting He now is, is being used up in their overhead paying all of their people and paying for their big buildings, so forth. So there's gonna be some changes, Bob, and we'll see how that works out. But know that we are loved and appreciate it. And they're going to do as good as they can for us, which is appropriate.

S

Speaker 1:05:25

Well, sir, thank you very much for your comments. I think it helped clarify a lot of chatter that was going on in the rooms in the last in the last two days or so. So thank you.

R

Ron Giles 1:05:37

You're certainly welcome, Bob. And thank you for all your work, too. I certainly appreciate it. All of you, who are monitors in our telegram channels is just beautiful. So grateful. We have created a loving affair for everybody to come and participate in. And isn't that the way this is supposed to be fourth? I believe it is.

D

Dominick 1:06:01

Well, Ron, what a great way to end. And we will, we will call it a day and pick up next week. Want to thank everybody's questions. And Ron, especially for you, you're back on your game. So it was a great, great discussion and appreciate the time.

R Ron Giles 1:06:19

Well, it's my privilege to be able to remind myself through this, of the important things that this is all about. I appreciate the opportunity to come and share. It's helpful for me.

D Dominick 1:06:34

Okay. All right, folks. With that, we'll call it a day. And thank you so much to everybody for being here. And, Ron, especially to you. Thank you for your time.

R Ron Giles 1:06:44

My privilege and I love you all and send that love to you, wherever you are. Thank you.
