

May 3rd - Q and A Telgram part 1

Wed, 5/25 6:06PM 1:01:49

SUMMARY KEYWORDS

question, people, zim, humanitarian, thinking, mind, money, pay, ron, funds, problems, ideas, heart, worthy, projects, alliance, create, med, worthiness, focus

SPEAKERS

Ron Giles, Speaker, Carrie

R Ron Giles 00:00
Let's go ahead.

C Carrie 00:01
All right, well, you have the questions, right, Ron?

R Ron Giles 00:04
Or do I have a pop quiz for the LWS program?

C Carrie 00:09
Alright, so here's how we're going to do this everyone. Ron is going to ask the question. And then if you would like to answer it, raise your hand. And we'll call on two or three people or whoever, you know, maybe if somebody gets it perfectly the first time, we're on will let us know if we want to call on more, folks. So we're on it's up to you first question.

R Ron Giles 00:32
Okay. Well, first question. How do I know how much to ask for in redeeming my zim?

C Carrie 00:39
All right, who would like to answer that question? All right. Let's see. Roger. Roger, your mic is unmuted.

S

Speaker 00:47

Let's listen to your heart.

R

Ron Giles 00:51

Very good. I liked that. There are those? Perhaps don't know, have not tried that before? And it sounds like you've done that. Roger, do you have a way to that you can suggest to other people how to do that. Just just ask a question. As best you can to God, because he knows it's coming from your heart? Yes. So you're acknowledging that your question is coming from your heart and you'd like the answer from your heart. QFS question is coming to your heart to ask your heart what rate I should ask for. And a lot of people don't realize that the open communications is there, we just need to acknowledge that you can receive and that your heart will talk to you at the appropriate time. If you silence yourself, and let the let your heart talk. So usually, the first thing that you thought that comes to your mind is what your heart is going to say. And if we let our minds get out of the way, and let the heart say something, your mind is going to get involved and analyze what was taking place. And hopefully, there's no I'll say, ideas or concepts that would cancel stuff out. By I can't do that, you know, those kinds of questions which we oftentimes throw in there. And if our mind doesn't get in the way, then our heart gets to have the answer, or give the answer. So, so we can discuss that a little bit longer.

C

Carrie 02:56

And just add something to that, Ron, sometimes my answer will come right away, I'll ask a question close, my eyes get quiet. And the answer will pop up. But sometimes it comes up unexpectedly, a little bit later on in the day. So

R

Ron Giles 03:17

just our hardest, you're not hard is not involved in time. So it doesn't, it doesn't say, Well, I gotta do it really fast. And sometimes you're not open for it to be able to get the communication. So it'll sneak in as best it can. And it'll be it'll be an idea. And, you know, how is there just one idea? You know, we're looking at \$500,000, asking minimum. And I'll tell you, there's a lot of mental structure against that sort of thing. How do I know what \$500,000 for a 100? Zim note is going to be? You know, how do I, what is my mind thinking? Well, my mind doesn't even understand 100 million yet alone. 500,000 times that. And so it's a difficult task for our minds who have never, which has never had the opportunity to think about large numbers like this. We're not familiar with it. And so you're going to ask your mind is going to ask questions about that. Are you sure this is \$500,000? That's quite a bit. What about one on one that's going to be big? Why don't we ask for that? Those are the kinds of questions that come up. And then there are other people who will say, you know, I don't care how big it is. I don't care if it's 500 or a million. I just want to know from my heart perspective, Jim, your perspective Well, I should ask for now, it's, some people think, well, it's just a one time shot, I get one chance and then shut my mind up. And that's yet, but each time you visit it, there's other opportunities that have that have gone into your heart, when they take into consideration what you're asking. Now, you may not have, everybody has their own projects and the things

that they want to do. But there's a lot of people who don't have a clue about what's going on beyond those projects, that humanitarian is not just here for your homes for homeless, or get food for the starving and that sort of thing. Your heart is creating the new golden age of mankind. And if you allow it to tune into that, then it plows through all of those possibilities, and sees some that might be more familiar to you or more productive for you to get involved with. So sometimes the projects that we want to do, are not designed for long periods of time, homes for the homeless. How long will it take for us to get all of the homes for the homeless? If they want homes? They may not want the idea of having a home? We'll see. But for those who do want homes, and then how long is it going to take? Are we talking about two or three years, one year, six months? We don't know. So if your whole project is to get homes, and create something of that nature, then you want to determine in your mind how long it's going to take to do that. And I believe that it's going to be two or three years and all the homeless will have homes, or they'll be dealt with so that they don't have to live on this on the streets. And we are we have to honor what they want, what what they're interested in. And if we do that, in a conscious sort of way, we're here to help you not to create something that you have to take advantage of because we thought it up and our egos think here and you're going to have to take this because we have been doing this for you. And of course we're the humanitarian. So all of that has, you just have to accept it. Well, ladies and gentlemen, brothers and sisters, that's not the way it happens. You have some problems, how can I help you resolve those problems? So so the questions that you asked that you ask for each individual and each individual might have a different story. And we have to honor that. We're here to help them in their lives to become what they want to become. And so your your work humanitarians, we're we have this group that is has a consciousness of humanitarians. And so that's in our mind, but other people don't have those same kinds of thoughts and ideas, and may not respond quite as effectively as we want them to do. So this is why I've always kept saying, when you go to your appointment, and you have your projects don't think that they're funding your projects. The Alliance doesn't even look at your project, you know, they do, but they don't concern themselves with it because they know you're concerned with it. They're funding you as a humanitarian. You as the humanitarian will do the projects that you have in mind. And then you will get into other areas that your mind has not thought of yet as projects that you want to accomplish. 6000 patents are Excuse me? forgot the word. Yeah, patent, whatever, 600,000 6000 of them that are going to need to be brought out and and start started up and they're, you know, they're manufacturing prototypes and all that sort of stuff. Okay, well, once we get into that, then we'll have our pick and choose of what the what we want to do. And maybe it'll support the things that were already involved in and maybe it won't. But see how many of us Zim benefactors right now let's just throw them to just throw this out. There was a person from Who's a vice president at Wells Fargo. And somebody, and he told somebody that I have been in training for the financial service centers, financial service industry, financial services. And I have been been training how to do that? Well, now let's open up that whole possibility. What does that mean? That means that the alliance is finding the right people to take over the responsibility of doing banking, as it were, with the quantum financial system, not the bank. And so the calling into financial service centers. Okay, how many of you here have thought about your responsibility of doing something to bring that process forward? We're talking about for each of the individuals who will be doing banking, or financial services, they will have a contract, employment contracts to pay, we have to pay for them we have to do that was about all of the overhead for the banks and the buildings, and that sort of thing. And all of the other hundreds of minor stuff that come along with that, if you're not in the banking, you'll have no idea about, however, how many of you thought about that something that I'd like to be doing? It's going to be opening up, I don't know how they're going to help, the alliance is going to proceed with that. But they've got it all in hand. That's already happening for them. You know, six months of training, at least six months ago, how many people have had gone through the

vetting process to know that they're, they're going to be good workers, and the financial services industries? Well, we're going to get involved one way or the other, confiscated money from the bad people, or providing the funds to do this, and a transition sort of way. And so when the time comes, we will be involved, we'll get our funds, and then we'll get involved in that some of us, some of us, for every one of these types of situations, who's going to pay for it? Well, if you're just thinking of doing a clinic in the neighborhood, or wheelchair ramps for houses, and somebody comes along tells you about this, and you get your 12 to 33 million for a 180. Now you're out of business, you're out of humanitarian business, you're not positioned to do the things that are available if you had the mind to do them, or the money to do them. So these are the reasons why I go to at least 500,000 And maybe a million and some who don't have a lot of Zim might want to go to 5 million. So it's the rate times the there's Zim that you have that will produce your income for the next 100 years. And if you don't tune into your heart and let your heart go, let your heart gather the information and bring it to you and then they say you know, it might be that you get to 500,000 That's a really good number. So that's what I'm gonna say that's what your mind says. Andrew banks going to tell your mind, excuse me, your, your, your hearts gonna tell your mind give some more ideas about what you might want to do and, and so you can think a little bit so and each time you might go looks like I'm really gonna have to go up to a million dollars. And in some people come to me dollars and allow that to adjust itself. We're not there yet. We're don't have to have the final results. We're going to be moving towards a final result from our hearts. And we're going to work it out between our hearts and our minds so that our minds don't get in the way of preventing us from getting the larger sums of money. This also has to do with With the large face valued bonds that are becoming available to us from different sources that we're not have not had opportunities to get into some of these large face value bonds. Quad when Jen trillion is 1200 zeros. Okay, how many times times 500,000 times 1200 zeros are there, that those are the kinds of things that people are looking at. And they're finding out that, hey, you know, I have a bunch of Zim 100 T notes that people who have who bought in the beginning thought would, they'd like to have a lot of 100 Zim notes. And so they bought a lot of them. And then they go into the higher face values in and one of those bonds is more than they have already had quite a bit more, and they could get one or two of those, what are the \$3.70 with if you go from Australia, then get them from Australia, there's another 350 days to get it here. But one of those yodel Lillian's you're going to have a hell of a time trying to find the number of 100 Zim notes, that would equal that. So if you can see how we are opening up to the greater numbers, the Alliance knows our minds, the Alliance knows our personalities. And yet, there are those who are concerned about their health. And I don't know if I can have enough, I'll get a lot of money, yes, but I don't know, if I'm gonna have the health for a long term to be able to accomplish what I need to do. So I'm gonna have to get really good people, well, you just never know those kinds of things. You open yourself up to the med bed technologies. And it's not just one med bed technology, there's perhaps a dozen or more, but it's offworld technology that's available for those who want to fine tune it and create a med bed. Jared wants to do a celestial chambers. And all of this is, is part and parcel to what is available. But we don't really understand fully what the alliance has in store for us. But if you won't think about med beds, and you won't think about 100 years, or 1000 years of not having problems with age limits. If you haven't thought about that, then you're going to factor in an age limit into the things that you're asking for. And that's not really appropriate. Because all that the Father has, is given to us to accomplish the purposes for which we came here. And if I'm 75, if I don't get med beds, I'm gonna have a hard time moving around. And so that is part and parcel to my expectation and assumption, even of what's going to take place. Do I believe in med beds? I don't know if it's med beds or just the technology that we're calling med beds? And how is that going to come? What form? I believe that God has a way of doing that for every person. And that way may be a blast of light. And we don't know that. Can we be changed in the twinkling of an eye at that moment in time? When that happens

to us? Yes, it can. And it will. If we're preparing our minds and opening up to the reality of what God has in store for us. humanitarians are the ones who are going to be carrying the weight. Nobody else can do that except for us. And if our minds are tied down to limits that we have created through cabal conditioning, we're not going to fulfill the full measure of our creation. So we have to let all of these limiting conditioning factors take over in our thinking process. I am sharing this a little bit longer than perhaps I want to but I have people who write me a letter? And tell me all the facts and problems that they're having in their lives? And I'm saying, Why did you create that for yourself? Well, I didn't create this. I'm just 75 or whatever, you and my body just, well, why? Why didn't that happen when you were younger? Well, there's an aging process that I had to go through, and that my body turned into that. And so I'm aging. And I'm, you know, I'm losing this, I'm losing that and. Okay, and what are you doing with that? Well, I'm telling you about it. Why would you tell me about that? That's what you're focusing on. The laws of creation are that which you focus on as what you create? And so I say, what are you focusing on right now? Well, how do I just go, don't focus on it, focus on the things that you want. There's med beds coming period, just allow that to be true, allow it to be true, called the love allowance, allow the good stuff to be true. Don't focus on the bad stuff. Because it's really difficult to get into anything different than that, if that's all you're focusing on. So, you know, I've got 1000, I got hundreds of things that I can focus on. And I will bring those forth, if I do that. So instead of focusing on my bad stuff, I focus on the reality that that's going to change. And in the changing, I will reduce the problems that I have to the point where they're no longer a problem. And I'll be able to have a body, that's fine tuned for the work that I need to do. This is the creation process, do not focus on your bad stuff. Do not focus on your diabetes, or your whatever it is. Don't focus on it and don't talk about it. Anybody else. One of the things, you know, the old people, they sit around and talk about all the bad stuff. Well, what do you think's gonna happen, they're gonna sit around and talk about the old bad stuff, because that's what you're creating in your life. The creation process is scientific. And until you learn the science of creation, you're going to continue to create things that you don't want, because you're focusing on them. Now it's time for us to get ourselves in order. And when I say in order, it's our minds and what we focus on. I go along and I stub my toe for two or 3 or 5 minutes, I'm going to be focusing on a pain. Well, okay, it's gone. Now. I'm finished with the stubbed toe, I'm not going to let that stop me from doing what I want to do. And so I'm going to focus on the things that I'm doing. I'm going to focus on level one suicide, do I know it completely? What do I really need to know about it? Well, probably not everything. It'll come to you as you start applying it. And every level is going to be different. And you're going to be able to do the things that you want to do according to what your heart is telling you to do. Okay, so let's, let's, let's quit talking about negative stuff. I don't want anybody to call or to email me and tell me all of these problems that they're having. And, and the solution to the problem is not the redemption appointment. If you're having problems financially, the the, you're wanting money so you can get your problem solved. They will be solved, yes. But that's not the purpose for the money. The purpose for the money is to do humanitarian work. And if you're having problems and then focus on the solution to those problems, but don't assume that it's going to be with the redemption funds. You're going to get over the problems. But the more you talk about it, the more you're creating what you don't want, because that's what you're focusing on. I have people calling me i i really need some help because I don't have money for exam. I don't did it? It's excuses. As long as you can make excuses, you'll believe in them. Don't make excuses for your lack, realize the lack consciousness is creating these things for you, and get rid of it. You focus on the good stuff, you focus on the fact that you're gonna get the funds to do that will solve the problems. Okay, well, how do I solve problems now financially, if I don't look for, you can do that. But I'm saying that there's problems there in the creation of those new things that are coming into your life, because you're focusing on the bad stuff. You're gonna have to think this thing through, you really, you're really going to have to think these things through. Now I'm

talking about the older generations, because they're complaining about their, their bodies failing. Now, there's a solution to that problem, and focus on the solution. And don't talk about it with other people. And don't talk about your wounds to the things that are going on. If you really knew what was going on, you would pray and ask God for those who are having the same kinds of problems that you're having to ask God to help each one of those people. Each one, if you've got a problem, pray for others who have the same problems, that they will find the solutions to their problems. Those are the things that you can do. You're focusing your, your faith and your prayers on healing other people. Guess who gets healed along with it? Okay, we can go on and on about these things. And I don't mean to do that. But this is something that each one of us has to approach, in our own lives, be disciplined. I'm not going to talk about these things anymore. Yeah, they're there. But I don't have to focus on him. Because I'm focusing on the things that will be the solution to the problem. If we always focused on the problem, then we never get to the solution. So let's focus on the solutions to the problems and ask God help other people who have the same thing. And see how that worked for us. Okay. Yes, for the highest rates. Go ahead.

C

Carrie 27:34

We have two questions on this question. One of them is going to be Dominick and Ignis was number two, but he seems to have dropped off Ignis. If you want to come back on after Dominic, you can ask your question, Dominick.

S

Speaker 27:50

Yeah, thanks, Carrie. Ron, it's not necessarily a question. It's just a quick comment, which you answered it for me. But I especially want this out there for people on this chat. And those that are listening to the recordings to understand what you just said, which I thought was so eloquently put. And, again, if you wanted to get an example of something in your heart that resonated, this resonated in my heart, and should have to a lot of people. But, Ron, if you could, just quickly with a few minutes or a second, whatever you want to comment on? I think people will know the answer to this. But I see this a lot on the chat where I've had members actually concern themselves with the worthiness of the amount of funds that are going to be available to us as humanitarians. Now, many of us don't worry about that. But there are some that have a concern about feeling worthy to the funds that are being allocated. It's pretty much the same thing as what you just said, which I personally believe is more of a mindset of your mind and ego getting in the way than it is listening to your heart. But could you comment on the worthiness of people who just don't feel like they deserve to get the funding that's out there?

R

Ron Giles 29:07

Yeah, this is a, this is one of the salient points salient meaning is one of the major points that we have to deal with on an individual basis. Am I worthy to do this? Well, why would you question your worthiness? If God puts you there, then you'll do it. And that's your worthiness being called upon as a person who had come to this earth with a purpose. And now you're getting into that purpose? Why do you worry or worry if you have everything you need for it? That's God's job. He calls you to the position and then we'll support you with all of the things

that is necessary for you to do that. So I have somebody say, if I am worthy to become a Zim benefactor, I'm really going to be happy. And I'm saying to myself, why would you even say that? Why do you question your worthiness? Does it resonate in your heart. If a love won society doesn't resonate in your heart, then you can tell me, I might not be worthy to do this. But if you feel comfortable and resonate in your heart, or in your soul, in your mind, that love won society is what you should be doing or want to do. Give away any thoughts of worthiness, just send them, put them in an email, write a letter, I've gotten all of these things, and I'm going to get rid of it, send it to the North Pole, see where the email can send it to. Because you want it out of your life. You are worthy. You're a son of God, which Son of God is not worthy of the blessings of God to be given to them. You're believing too much of this garbage that's been going around from the Cabal, they don't want you to know that you're a child of God. If they did know if you did know, and they allowed it to take place, they could not control you. Can you see the reason for this fouled up thinking? So we just say I am worthy to be what I am called to be. I'm a humanitarian and I will get the funds. I will get my read my referral letter from my counselor who will tell Doug once society through that letter that these people are eligible to become Zim benefactors. And refer them to you knowing that they have the funds and that they are vetted humanitarians. Now, if you want to question everything, question what you want, but creating, questioning thoughts and ideas. That's the creation energy and you're using it inappropriately, you are called. And you will be just say that out loud. I will be i snot if I am. If I'm worthy. That's false pride. Come on people. That's false pride. worthy that I could know you stand up, raise your hand, I'm the one that you're calling for. I'm the one that you need to have involved in your love won Society Program. I am here to serve. And that's what I'm going to be doing. Wherever you want me to serve God, I'm willing to do that. But don't discount me when you're calling out those who want to serve because I'm the one that you want. Because I know it's in my heart, and humanitarians. It's in your heart, you're worthy, you're a sovereign. sovereigns have no bosses over them. They have their own kingdom, their own domain. And nobody tells them what to do with their domain. Nobody is entitled to do that. We're going to get rid of all of this entitlement of trying to screw other people and and question whether they can do this and that the just leave that behind. And know that participating in that is limiting your resources. And you want all that you can get from the Father to do the things that you want to do, period. So let all of that go. Please don't. If you don't understand this, just please don't email me stuff about your ill health. I've got this problem. I've got that problem. I empathize with you. Everybody has a chance to everybody has their problems. That's what the third dimension is all about. If you want to ascend into a higher level, then you just give away all of those limiting factors. Again, put them in an envelope and send them to the North Pole. You don't want them if you want to keep them then keep a copy of the letter. There's ways around all of this. And it's up to us to ascend in our thinking and in the responses that we have have to live. Let's not act as if we are still slaves. We are not. I'm a son of God. Nobody's my master. If I talk to Jesus about that I'm not your master. You are the master that's creating your life's experience. You're responding to the call that the father makes to you through this spirit. Hold on to that, that sacred. And don't give it up for some stupid idea of artificial ego maniac sort of thinking, because it's not real. The reality is that you are who you are, and you're a son of God, or a daughter of God, whatever way you want to look at it. We are children of God. And those who come to this understanding are the humanitarians. And they will have that humanitarian thoughts in their minds as they go about their work. I'm here to serve. Choose me, bother. Choose me for the greatest calling you have. Because I'm here to serve. And when you do those kinds of things, you'll find that there is substance behind it to the point that you get to feel how powerful you are. And that's what you're looking for. Don't settle for anything less. Don't be mediocre in what you're trying to accomplish. Don't be asking me questions when you haven't gone through everything and read it all. And seek out your own answers. If you do, then you will have the answers that you can hold on to. If I give you an answer that just

may be diluted with some kind of concepts you have in your mind. You have to go there and do it yourself. You cannot get into the higher realms, by just letting somebody else do it, you have to do it yourself. And I'm here to tell you, as a son of God, I have no limitations, except for what I believe in my mind to be true. And if I believed in my mind to be true, then there's needs to be a change in my thinking. So if you don't feel that real strong urge for things, then go in and change your thinking, change your life change your thinking. I think we've had to do this enough. What do you think?

C Carrie 38:02

Well, that was wonderful. Thank you for all of that. I think many of us needed to hear that.

R Ron Giles 38:09

Good. Good.

C Carrie 38:10

There are a couple of questions before we move on. Shocked and ironic jock, you're up.

S Speaker 38:18

I want to ask you, I know I want to add something. And that's when we say I will be humanitarian. You put it in the in the future. I'm also one step forward to say I am already material. And I remember waking up with it and then go to sleep with it. And it's very important to be in the presence. I think that's so important. You will rise to God is in us. And we are so powerful, powerful. We cannot imagine how powerful we are. And that's very important to be in the present and to create at the moments. Because if you put it in the future, you put Yeah. Then the above they say yeah, but when When will you be humanitarian done? You don't put a date on it. And here you in the present. They say I'm already

R Ron Giles 39:15

I'm already. I love that. Very, very well done. Thank you,

S Speaker 39:22

Ron, I love you and thank you very much.

R Ron Giles 39:25

You're certainly well I love you too.

C Carrie 39:27

All right, next we have Ignis. I'm hoping I pronounced that properly in less.

S Speaker 39:36

I have a really big question run. Because sometimes we are in a group and then we talk about this. And my question is, if most people don't live in pounds, how is it supposed to work to give some accountants format mean, abundance comes from within, not from without? How we can we can support some people? Or what can we do that all the other people could understand this

R Ron Giles 40:16

important question, yeah, you're absolutely correct. If there are people that you're associating with that don't believe in the same things you do, then you might want to consider not participating with those people. Because you're going to have to try and change them to change yourself. Because you listen to other people and what they're thinking and your mind is going to entrain with their ideas and their AI and their concepts. And if those are the kinds of people that you want, if that's what you like, then you do, I'm trying to, I'm trying to help people to have a higher way of living. If it makes sense to you, then come join us. And, and don't, don't tear us down. Don't tear us down with negative thoughts and ideas, and, and things that you have not approached yet and worked through. So I see what you're saying. Oftentimes, we can do better in groups. But it all depends on the group. And if you're the leader of the group, then you can lead them to a different, different standard and don't tolerate things that are not appropriate. Don't tolerate people who were talking about things that we don't need to hear about. Don't, don't put up with it. And if you continue to put up with it, then they're going to tear you down. So you separate yourself from them. I can't I'm sorry, I can't participate with you anymore. I feel uncomfortable with some of the things you think and believe. We're not in harmony. And I want to be in harmony with my father. Not a group. Love won society is in harmony with the Father. So we're, we're where we need to be. And so let's be in harmony with love won society or with the lions, whichever. And if you're not in harmony with that, then I can't help you.

C Carrie 42:27

Ron, I was just going to suggest that possibly the wealth management series could be helpful to us for those people that are at least somewhat open. Maybe they haven't been exposed to abundance yet. So those wealth training videos could be helpful in those situations.

R Ron Giles 42:48

Well, I believe you're right, carry out it's a good suggestion. study and learn. Adjust your thinking, embrace the good stuff. And let the older stuff that doesn't work for us this let go. You're right. All right. point is the point is is that you are the one that can change, and you will

change according to the way that the father wants you to change. Go ahead.

C Carrie 43:19

We have a couple more questions before we move on. DM I know you had your hand up and down quite a bit. So we'll give you an opportunity now. Just open up your mic. There you go.

S Speaker 43:35

Yeah, my name is Dell DM is my initials. But I've never responded or talked before Ron. But I just want to say preach it brother. Because I did love the choir. Yeah, Amen. Hallelujah is in preacher brother while you're talking. And, you know, I'm seven years younger, so you can call my little brother. But the thing is, is that you resonated with me on so many levels. And I just want to say if everybody really would take the wisdom that you just shared with us and listen to it once in a while, I think it could be encouraged. And we all need to have that encouragement as we go through this as we deal with family members and friends and people that don't understand our hearts and so forth. So I just want to thank you for that. And it's all I have to say.

R Ron Giles 44:35

Okay, thank you, brother, my younger brother who's had a lot of around the blog. Thank you. Thank you,

C Carrie 44:48

Lisa. You're next your mic is open.

S Speaker 44:51

Oh, hi. Hi, Ron. Hello. Hello, Lisa. Firstly, thanks for all you do. And it's great meeting you not obviously in person, but you know. So my question is, as you say, governments will phase out or go, our county council rely on their funding to how do you first see the future of councils? Can we just set up private schemes to tackle things councils were providing? Or doing? That makes sense?

R Ron Giles 45:28

It does. And what I'd like you to do is keep in mind, you have a counselor to talk about these things with your council will help you to stay in harmony with the heavens. Yeah, and what a blessing that is that the alliance has come up with this idea. So that we can be the best humanitarians we can be. So how do you deal with councils? How do you separate them or set them up? How do you how do you fund them? That's part of part of the the counseling that we get. And and we just know that we're going to get the right words to get the right ideas. And

they're there. They love us, they help us. And they're to keep us in harmony and in the highest vibrational level. And so I think the alliance is just marvelous. What a wonderful idea. Send us an angel. Wow. wish I hadn't thought of that. Okay. There you go. Good job. And, you know, I sense that you're in a different country than us.

S Speaker 46:44

And I, yeah, I'm in England,

R Ron Giles 46:47

in England, and things will work out there the best way to tune in to the spirit and you'll get the right information in the council. Yeah. So far. So you're gonna do you're gonna do marvelous work?

S Speaker 47:00

Yeah.

R Ron Giles 47:03

Good job. Okay. Thank you.

C Carrie 47:08

All right, Ron, maybe it's time to move on. I rod, I see your hand up, we'll give you a chance to after Elsa when we open it up to more general questions. So Ron, want to go on to question number 2

R Ron Giles 47:19

45 minutes for the first one. We'll be here all night. Who will I contact when needing to discuss ideas about my project? You wrong? Absolutely not. Out counselor, agent? Counselor? Yes. Those that's the reason why they're there, if you waited for me, you'd have to stand in line. And there's, there's, you know, the last person is going to be 11,333 years blank that. So no, I'm not the one to talk to about projects. In fact, people send me their projects. And as wonderful and very advanced. Some of them are and some of them are not, but some of them are really tremendous. But I don't get a chance to read them. Because I'm, you know, I'm doing stuff for love won society nylon. So I'm doing things for everybody, rather than just one individual, your projects or your own sacred callings. And so let's just treat them that way. And, and accomplish them and then move on to something next. So that's my IDs. So yeah, use your counselor.

C Carrie 48:11

C Carrie 48:41

Question number three,

R Ron Giles 48:43

what options do I have? If a beneficiary does not want to pay the \$10 registration fee? Move to the next person. If they don't want to? And they find out what's going on? They'll come back. So it's not your responsibility to say no, then they said no. And when they say yes, oh, sorry, I messed up. I don't pay my \$10 and get involved. Okay, in paying your \$10, do you know that that's going to last you for the rest of your life, the information or the money's going is going to come to you for the rest of your life? Well, I didn't realize that in the beginning, well, then, if you want to do it now then go ahead. But I do not concern myself with people who do not want to pay the \$10 registration fee, period. And I'm not going to pay it for them, unless there are circumstances where their mind wants to go, but they can't. And so those are different than somebody who's been obstinate. If they have the chance to pay the \$10 they will all on what comes to them, if somebody else pays it, they're always going to be wishing that they had been able to just have that, that pure thinking for themselves. If they pay the \$10, and they've done everything that they need to do, and then use a use of money without going for drugs, and, and you know, that sort of stuff, negative stuff. So even even drugs are fine. You know, how do I say that and still really be true? Yeah, drugs are fine. Why? Because they're going to find out for themselves, that that's not what they want in their life, and they have the money to change. So I give the money to people and say, Go for your best, whichever you'd like. If you want drugs, that's not my business. It's your business, but it's not in my business. You Here's the money. bid your buyer drugs. You won't last long doing that. You'll either kill yourself or else you'll say I don't want this. This isn't what I want for the rest of my life. I've got money that I can change, I can go get out of this. You've given them hope, where they haven't had it before. So that's my suggestion.

C Carrie 51:30

I have a couple of questions. We have a couple questions here, I think for this section. So my Kea, my kya Redskin. Would you like to open up your mic and ask your question?

S Speaker 51:46

Ah, how are you doing? How y'all doing? I just came in late. And I'm not often in the group. I'm not often on telegram. So you just mentioned \$10 deposit. Where do you pay that?

R Ron Giles 52:00

Mikayla? Are you new with this?

S Speaker 52:03

No, I just I'm not often on telegram. So I'm just I don't know, I'm far behind. I'm just extremely far behind the emails. I have not listened to all the emails I need to get well, it's

far behind the emails, I have not listened to all the emails I need to get well, it's

R

Ron Giles 52:21

the \$10 is a fee for the beneficiary program. And so my suggestion to you is to go find out about the beneficiary program. Where do you pay your \$10? When you're registers placed there, you could just pay your Give me your card or whatever. And if somebody, you don't have a card, then see if you can find somebody that'll you can give them \$10 And they'll sign or use their card for you. Pardon me,

S

Speaker 52:55

doesn't the emails you've sent?

R

Ron Giles 52:59

That's in a platform when it's created. It's not there yet, and he saw you can't pay it.

U

53:06

Oh, I thought people already paid Okay. Okay. Thank you.

R

Ron Giles 53:10

You're welcome. Glad we got that out of the way. All right. Can't pay yet. It's not there. Can't do it.

C

Carrie 53:20

Pretty simple. All right. So should we go on to the next question?

R

Ron Giles 53:26

Okay, let's do that. One is a suggested number of years to set up for the structured payout, redemption at redemption, I recommend 100 years, some people are going for 200 years. Some people say, Well, I don't want to do it for the rest of my life. Well, really. I would, you might be it. You might have problems getting money with that kind of Ananda attitude. But it doesn't matter. You can do 10 years, or 100 years. And that's the openness of what we can do. That's those are our choices. And so I recommend 100 years. And being a humanitarian receiving the funds for 100 years, without any depreciation in that those amounts of money. You know, we're going to get ourselves to the point where we have enough money so that we don't even concern ourselves with money anymore. Isn't that a great thing? In a lack mentality in the civilization, that's what the Cabal has created. And so money then is so important,

because without it, you cannot have a life. And that's what they want. They can control you because you can't control yourself. That's called debt slavery. Haven't got enough money so you have to borrow becoming That's a, that's a downward spiral that is going to end with, you know, in the grave. So there's, there's ways to do this. And so I think 100 years is a good is a good

C

Carrie 55:16

amount. All right, Ron, go ahead with the next question.

R

Ron Giles 55:20

Is the qf s the same as having a bank account? How is it different? Well, you have a bank account, and that's the financial system that you're associated with it at time. The qf has comes in, that's the new financial system at that time. So how is it different, it's the brand new, and you've got it. Just as for for those who are Zim benefactors and going through the redemption appointment, you'll get that set up, then others who don't go through the redemption appointment, we'll have different ways to set it up. And that's going to be with our platform, love won society's platform. And then you'll be able to adjust and get an account with them. It's just like a bank. Yeah. Are there any questions associated with this? My Zim does not have a serial number, will I be able to redeem them? Why fakes don't have serial numbers on them? The gold and the silver do not have serial numbers the others do. If there's no serial numbers, then they're fake. Okay, they're fake was, why are you Why do we want these, the alliance is not interested in fake or real. It's a fake money anyway, defunct money system with a zoom. And the others are just participating and trying to make a little bit of money on the side. And I don't care about that when, when the real stuff is 250 to \$300 apiece, and I can get 10 for 14 or \$15, delivered to my door, then that takes all of the all of the garbage out of what's going on with inflated prices. And that way anybody can be involved. Anywhere, anybody can pay \$5 and get a zip. If you can't, then email me. And let me know that you can't get it where you live. I have extras, I'll send you some notes for the people who won't get there delivered in their country. And there's a number of places like that. But I don't it's just put two in a letter, send it to you. There you go. They don't even get care about a letter, small letters. So let's just work it through that way. Serial numbers, the alliance has no care and concern about the the the Zim or the benefit, or whatever you've got. They will redeem it because they're not interested in that they're interested in you humanitarian, and they're interested in you as a humanitarian, getting the funds that you need to do your work. And so when they came through with this, it opened it up for a lot of people who couldn't afford two or \$300 for one zoom now. Yeah, you can get 1014 \$15 now. So why is him this? Not? That? Number seven? Who do I give my mother lode account number and PIN number. So if I were on vacation? Well, that is a very personal thing for you. Now, you're the one in charge of your money. You're gonna give your money away to somebody else. And the responsibility. I'm not sure how that's all going to work out. I suppose if he went on a vacation, the alliance would allow the person that you have assigned to access your account and continue on if that's what you need, but there's better ways to do things and that better ways, automatic ways. And we want to encourage you to find those and use them. If somebody if you were to pass away or somebody you know i i have my son as is my overseer if I want to go away. But he's not involved yet to the point where he really understands so I can't die in nobody would take over at a rate. That's, that's none of my business. That's your business. So don't be asking me if I would take over

something. That's No, no, don't do that. Number eight, who are the nine billionaires that you speak about in the calling cards, I have friends that are billionaires, meaning that they will be getting their Zim redeemed and so forth. That's all that is. And I've said it before I'll say it again, it's a marketing tool. Nobody believes in trillionaires or quadrillion heirs, or quintillion heirs. You're not talking to the right people, if that's what you're doing. Billionaires is beyond trillionaires, or her beyond millionaires. So I put billionaires because that's above what most people can think about. They got a lot of money. And the way that that will work. Well, there I'm gonna pay the \$10 to get in there and let's get as much money as we can. We'll get out there and do the bonuses and we're gonna make this amount and all this. Let's have that so that when they go broke, we'll still be okay. It's kind of an it's just a way of thinking that's, obviously is consistent with the way we've been raised, but it'll never go away and part of our in part of our preparing people to understand, we will talk about bonds. And all of this is bonded. And so it's going to last for a year to the end of your life.
