

Oct 17 - Spiritual Q and A

📅 Thu, Oct 27, 2022 8:08PM ⌚ 58:27

SUMMARY KEYWORDS

people, male, questions, create, cabal, life, judge, spiritual, natural, female, balanced, society, caterpillar, kinds, backpack, person, change, god, trespassing, love

SPEAKERS

Ron Giles, Tracee

R Ron Giles 00:00

Good morning humanitarian justice Ron chiles. I'm here with Tracee. We're doing another q&a on a spiritual questions that people have asked. So it's a little different than the others. But let's go ahead and with the first question, Tracee

T Tracee 00:19

Oh, okay. First question is, What do you mean by divine feminine and Divine Masculine,

R Ron Giles 00:29

feminine and masculine is the pure is the pure balanced the divine essence. You separate those two and they can be become male and female. It's only in third dimension, duality. Duality means that there's opposites, north south, east west, in out all of those opposites, that comprise the 3rd dimension. And when you are a spiritual entity, you are both male and female. And when you separate into third dimension, only the masculine or the feminine energy comes through as a male or female child. And then that's what you work with for that particular period of time in, in that timeline, you were male or female, in the Divine, masculine and feminine, that's the best way, that's the only way to have balance. And in that balance is a balance of your approach for life. When the Cabal took, made a patriarchal society, that means that the men rule, and the women were set aside and, you know, the pregnant and barefoot and all that sort of stupid male macho stuff. That's what creates wars and the propensity towards wars, or other negative x activities. If it was a feminine, it would be a society build on on feminism instead of masculine ism, it would be a different way of living, it would still be unbalanced. And would not fulfill the full measure of its creation. And it's when you are balanced male and female. Now, these are some of the the, I'll say, if you go over to other religions, other ideas, other concepts, the Dow, the, those kinds of religious teachings, and so forth, down the chain. There's some great people, Wayne Dyer used to talk about that. Those are, there's a 78, or something like that 83 or something, different little phrases that are important for you to understand. And so when you if you were you and I were to get into that,

that would just be making so much sense. And yet we throw that away, because it's a part of our Christian religion. And so that's those are the kinds of things that are, are in indications that we are not a balanced society. If you're not balanced, then your left brain is more powerful than your right brain. Or something like this, the left brain is the male, and the right brain is a female. And so a left brain person has facts and figures and all that sort of stuff. And that's what society requires of us. You think that's the way that the cabal created it so that left brain people would be the ones that were raised to the top and those who have feminine characteristics as in compassion and that sort of thing? That's not you. If you come up with a neuro compassionate person, oftentimes, you're gonna get eaten alive. In the dog eat dog world of corporations, that's just the way it is. If you haven't seen that, then take a look at it. The male and the female energy are have to be together in order for you to accomplish what you're trying to accomplish. I have a person who I receive information from and with and it's the male and female activities together that have created love one society. And that was from six seven year well, I've known this person for over 35 years. And we worked together before. So this was different. Yes. And it had, it was created in the heavens by the Alliance. When we were there, we helped create it in the non physical. So here it is being manifest in the physical world to come through and its purity it had to, is good as we can get had to have a male and female energy with. When I talk about female energy, divine female energy, that is, God in its masculine energy. And it's a male on the other side, that's only a duality, that you can separate those things. Because they can't be separated because it would destroy the, the balance of that particular spiritual entity. So you have to have balance. And when you are in third dimension, and you have no idea that that's a balance, it's a natural thing, it's male and female to get together, get married, and then you're one again, that's the way it's supposed to be. But we our society says, well, a male is, is the most important part. And, you know, the, the wife is supposed to follow her husband and obey Him and all that. Garbage. And so this is why society has been built by the by the Cabal, and why we're, we're changing. Now, there's not a lot going to be said about this, I don't know, maybe there'll be more. But I know in everything that I do, I honor the female energy, and want to balance with that energy, whenever possible. And so we're starting in on that. And that's why our homepage has now got the union, the Yang. And if you are against Dow and that sort of thing, then, you know, I wish you the best, because we're going to be balanced. And those are significance of a balanced entity. That's what we're striving for. As we came here with duality, you got the male and the female. That's a major duality. That was not supposed to be that way. And so vied it if you want to, but you'll be a loser on that, because you won't be in balance being balanced, and you have a better perspective of life in the better perspective and loving. Now, each person, they may come as a male and female, but you do have male and female parts of you. And that's the left brain, the right brain. That's why you have a left brain and right brain and they're supposed to be working together. If you are balanced, then you will meet the full measure of your creation. So that's all we need to learn. But that's not, you know, show me which religion teaches that? Well, we got those that in the Eastern religions that do. But you don't see that in any of the Christian religions. Why? Because they took all of that out. took out all of the basic stuff for us to be really, really children of God. So we're going back to that. So that's, that's my understanding of male and female energies. Together, that's the fullness of the Creation energy sets available for us. And if we go from the male and the female, and then we started having problems that way, then we're not balanced. I'm just gonna say it that way. We're not balanced. Well, loved one society is going to be balanced. And you're going to, that's why we put it in there. And those who brought that forth and put it in there are inspired by God to do that. And people I want you to understand this whole program is being I'm not saying controlled, but we are working in harmony with the Alliance in total harmony. If I'm out of bounds, then they'll let me know. But everything that I do has, is validated by the Alliance. Are I won't do it. So if you have some problems with it, then you know, I wish you the best. This isn't where you belong. It's just

that way. And I hope you don't leave because of it. But there it is. We're going to work with the male and the female energy. And all that we do. So I guess it's a long answer to that question. But let's go ahead and go to the next one. Well, and

T Tracee 10:31

I might add that think about the problems that happened when they took the women out of the church. You know, there was lots of problems with that, too.

R Ron Giles 10:42

They separated male and female made the priesthood out of the males and made the nunneries out of the out of the women. Neither one of them were effective. Some of the most terrible things that are associated with child stuff happened in the nunneries

 11:03

right now was just terrible,

R Ron Giles 11:04

terrible things. Terrible things. Well, that's just the separation of male and female that that the churches have done as this as a patriarchal society, very Jewish, very non spiritual, sort of things. So it's been very it's it's been changed is being put back into its normal. It's, it's perfect identity. Isn't that's the balance between male and female.

T Tracee 11:39

Okay, very good answer. Thank you for that lips. So that way, if anybody has any questions about the website, you've already done the answers. Okay, this sounds like a very long question about butterflies. Are you familiar with anything to do with butterflies?

R Ron Giles 11:58

Well, I know that you have the caterpillars going around and eating and eating and eating and eating and eating and eating. And then they spin a cocoon. And that life force energy is changed from a caterpillar into a butterfly. That's, you know that that's a beautiful experience. I think that it is similar to what we all need to go through in terms of our spiritual growth and our abilities as human beings. We don't have a cocoon that we go to and change so drastically from a caterpillar to a butterfly. And a monarch butterfly is just beautiful. But there's beautiful things out there that are as the comments result of the change that takes place in the caterpillars life. Now, I believe that we also have the same kind of change that can take place in our lives, as we put off the old that is just an either and change into the beautiful butterfly, which is, you know, as pure love. And that's what we were looking to be in this life. So I haven't read this

specifically about butterflies, but I, I believe in the whole process of change. Each of us has to change from our worldly ways into our spiritual nature. And that's when we that's how we mature as children of God and become the creators that we're supposed to be. I hope that helps.

T Tracee 13:53

Here's another question about having a chat for just like spirituality, like an extra channel on how to grow your own spirituality. So that's two questions we've had about that. So I don't know if you want me to create another channel on that just all things spiritual for loved ones society or how you feel about that.

R Ron Giles 14:20

I think it's a really, really good idea of find or inquire about that and see if there's something else that we we need to do. The spiritual aspect. Is is not it's not part of specifically loved one society. A spiritual aspect is natural. That's who we are. Naturally, that's what we are as naturally. We're, we're love and in physical form, we're loving action. That's who we are. That's how we're supposed to be changing the love of changes from It's not necessarily maybe the third dimension is a cocoon. And we changed into something that's beautiful like a butterfly. Those are some ideas that perhaps are there to be thought out and explored. And certainly worth exploring. With don't have a lot of time in third dimension to do some of that, because we're have to live and pay for food and clothes and stuff that we need. But I think that all of that is a distortion of the way that we're supposed to be living but created by the Cabal, and we're doing away with that. We're changing. We're changing back to the way it's supposed to be. That's how we live in the golden age of mankind is in the spiritual essence of who we are. And it's natural, it came with us. It's natural. Yes. That's why I say, we're gonna have spiritual stuff, but then that's really good. But I'd rather talk about natural stuff. I'd rather talk about love, which is natural. It's not spiritual, it's natural. I'd like to go and hug a tree. Have you ever hug a tree? My tree hugger? Normally, if I feel that I want to be centered or grounded or whatever, I can go hug a tree. And I can send that tree love. And then the teacher sends it right on back to me. It's just by send it out, I get that much more. Because it's a natural thing. Was that hell? Yeah. I don't know about this spiritual thing. But, you know, we'll see. We'll talk about it toward and see these things take time? And are we going to take time to do these things? Or should we spend our time doing love on society stuff? It's? Or can they both be done? And I think they can both be done to a great extent.

T Tracee 17:04

Wow. Yeah. And based on the feedback that we've gotten about, everyone needs to grow in their light and all of that, then the My only concern about having that type of a group is that there's so many differences of opinion that I don't want people to start arguing, you know, like, if people have one religion, or, you know, that's my only thought, so maybe you can check in on that one? Well,

R Ron Giles 17:32

it's, it's, it's one of the things that would deter us from having a very effective way. You know, I was raised very spiritual, or excuse me, very religiously, I don't regret anything that I've gone through. But I don't want to go back to those kinds of things, because you miss out on so many other things. You know, you're, you're steeped in a religion, this is their dogma, this is what we believe. And you guys don't believe these things. So you're not as good as we are. And so there's a gradation, it's a way of judging other people. You know, some people say God fearing man, and we don't want to go into that, because I have before, but they're all whole ideas. That your way of thinking that you're right, that's your pontificating your points of view, and making it better than other people's. And that is totally wrong. If your religion teaches you that you're better than other people. Well, what do you think about God as looking at that religion and saying, Why do you think you're better than the my other children, just because you have some kind of a religious beliefs, and dogma that excludes other people out of your life. That's a real challenge. And so we're changing, it's changing, we're not going to be that way anymore. Unless you want to be and if you want to be, then you need to go to a third dimensional place and, and enjoy your experience. And enjoy the the reality that that you can create in the in that arena. But understand that we're the earth and the and other people are supposed to be moving into the higher realms. And so if your dogma is holding you back, then you can have it all you want. It's your free agency. But understand that there are changes that you need to go through and then those changes as a caterpillar going into a flock of butterfly. If you don't go through those changes. You remained a butterfly or excuse me, you remain a caterpillar. And what is your life experience? You're supposed to be a butterfly, and you're still a cocoon? Are you still in the cocoon, or you're still a caterpillar, I don't know what you want to do. If you're not going to let nature take its course with you, you're gonna be eating leaves the rest of your life. I guess if that's what you want. No, I say, let's, let's let ourselves let's allow ourselves to change. Let's not hold on to dogma as if it's a saving grace. And we're pleasing God to exclude others from our lives, because we judge them for their lack of ability to be good. Or in under our set of circumstances. So that's why judgment is so terrible. And why we should avoid it. And that's why we need to respect and honor a person's Kingdom or queendom. That is who they are. And that's what they've you know, we have a physical manifestation of that concept, whether kingdom, somebody sets up a kingdom, and that's when they get to be the boss over their kingdom and, and rule and reign and do all that sort of stuff and tax are people and be a bad person. It comes to that. And that's why they had to have, they had the bloodlines of the Holy Grail, which are those who have the ability to have power and not overuse and abuse it. Most people, you give them a little bit of power, and they think that they're they're the cat's meow, and everybody should bow down and carved out to them. And see that is trespassing on other people's humanity, sovereignty, whatever you want to call it, monarchy. I'm a monarch of my own. I'm the king, I'm the queen. I'm whatever I am of my own kingdom. And if somebody tries to change it, without invitation to come over, that's trespassing. That's why Q has said if we're gonna go to another planet, or another star system, you have to get permission before you go. Why? Because that's her kingdom. And you don't go into somebody else's kingdom unless you have arranged for it. Or you get you get permission prior to and that's honoring all of the higher laws that we should honor. And we want to avoid trespassing because that creates problems that's create conflict. And see I go to the Start nation and in my love whatever it is, I an invited they don't know if I'm gonna be there and blow them up with a nuclear weapon. They just don't know that sort of thing. So they don't allow it. And why should I want to do that is also the kinds of things that we're learning to be a huge galactic humanitarian humanitarians and function in a different level than we have been these people out there. They look at us, you you guys are Cabal, you're just, you're, you kill everybody that comes into if you don't understand that you want to kill them. That's, you know, what kind of a society is that? So there's universal laws that we're gonna get into. And it's those universal

laws, they're natural. And caterpillars that don't want to obey the law, then they don't create their vehicle to to make the change. And so that's blocking, that's blocking the natural progress, natural progression. Those are just comes from my thoughts with that. Next question.

T

Tracee 24:16

Okay, this one is more of a statement. So I'll let you just make whatever comments you want on it. It says the light the symbol that illuminates what is correct is difficult to transmit to adults because they already have a vision of reality, and some will be receptive and others will not depending on their experiences. It is the new generations that must be educated spiritually, so that the light common sense and full life become the norm. And for this, it is essential to create schools of life. Do you want to comment on that?

R

Ron Giles 24:49

What did you just in that question, What did you just tell me about your belief in spirituality your are telling me that that's the better way to live? What if a person is natural? Why do they need to change? Why does they need to change natural living and create some kind of a spiritual thing? Because you think it's better to be that way than natural. You're judging other people and assuming that you're correct and they're wrong. Those are the kinds of concepts that you carry around when you want to create schools for for essential ideas and concepts that you have. Where did you get yours? Were you not raised in the same cabal that other people were a ball life and combined conditioning as slaves? You set yourself aside because you think you're more spiritual. And you're holding on to dogma that is evidenced by your spirituality. And you think that that's the right way to be? Well, it's probably the right way to be for you. But why would you assume that another of God's children has to be the same as you? These are the kinds of things that I go through. And I wonder why people you know, you want to create a healing center. Well, that means that other people are, are broken. You You're believing that other people are broken. And they may be that's not the point. The point is, is that you're judging them and looking down at his broken, why don't you look at them as a Perfected Human Being living out their life with free agency to do the things that they want to do. That's what God created them to do in third dimension, and you're trying to change it. You're saying that you're better than the God's way of then God's way of doing things. You're allowed yourself to be who you are. And if they said to you, Well, you're not very spiritual person, you would be offended. Here, we got the natural school over here. And you spiritual people don't want to come over here because we know how to do things better than you do. And you just go over there and you're piousness and, and pontificate one back and forth to the others. And we're just living a natural life and having a great life, full of love, and both divine attributes and all that sort of stuff. And you think your spiritual ways have been away? Those are the kinds of things that I wonder what it is in the Cabal system of creating a place for us to live, that we can't get along? How many religions are there we got the Bible? How many religions are there from the chest from the Bible? Why do you think that's so? And if that's true, and it is true, you think that cabal created that for us to live that way? That's judgment, that's crossing over boundaries? It's not living a universal law. Why don't you set up something that's natural? Why don't you set up something where people can go out into nature, and feel the love that's there. See the beauty that's there. And even in a desert, there's beautiful things there. The little lands going around and doing stuff and then they go underground, where they free from the heat of the day sort of thing. And be more active at night. All of those things are a natural way of living.

That is sitting right there by us. And we don't we don't look at it and we don't learn from it. There's an ecosystem everybody is invited into the all of the species are invited into an ecosystem that they work out with each other. Of course, you have third dimension, there's the food chain and all that sort of stuff. But if I were to change if I wanted to change and be spiritual, I think that's a very low step down So when you talk about spiritual schools, you know, talk to other people, I don't support it, I don't support that it. I don't support teaching other things, other people about spiritual stuff. Because I don't believe in it. I believe in the whole natural thing that I'm a child of God, that's my nature. I'm a creator. Now I have to, I don't have to look at a deer and say, Hey, you're not a creator. You're an inferior being, or whatever. I don't have to be judging. You're judging people. You're not spiritually inclined. That's my way of looking at it. We ask you, what about this guy? I'd rather not come in the talk to him alone, he'll give you some reasons for that. He's not wanting to predispose your, your judgments of other people. He doesn't want to support that. Well, that person is of the light, no, well, maybe he is. How much light does he have? Well, maybe it's not really that bright. But he's got some light. So he's thinks he's doing well. Let's not judge people. Let's just love them. Let them be who they want to be. Some people live that way. And we say, well, they're not very spiritual. Why do you judge them? Who gave you the right to judge them? Are you judging righteous judgments? right use of your judgment, energy. Those are the things that we need to qualify, need to purify in our lives. So that we can really and truly become the humanitarians that we want to be. Why are we not getting our funds right now? quantum consciousness, God consciousness has taken over every bank and every account in those banks, and has this has assigned them a digital footprint so that they know wherever that money is being sent. Do you think that has to do with us not being ready? They've already done it. Why have they not shared all that with us? We're not ready for it. You think you're ready, and you're not then you got some edit hasn't happened, then you've got some flawed thinking. I'm just simply saying we have to change. And it's not over. It's not them over there that needs to change. It's us. Judging either other people and saying that they need to change their cabal and all that sort of stuff. We can have those kinds of feelings. But are we any better than they are? If we judge them? Have we not crossed over and tried to tell them the right way? And we are justified because we are right and they are wrong. And yet we're the ones over here suffering through this excruciating period of time. And they're just out there living their life. Normally, we've got the price of foods going up. And so we just have to, we just have to work it out. Which would you rather be or would you be rather be peaceful and happy or judgmental and causing problems to our way of living, but I say to you, maybe you're the one the reason that we're not we have not had the redemption, and that we have not had Nisar announced and make the changes that we're gonna make that need to be made. I'm not trying to tear us down any of us. I'm just trying to say that there is much in us that it would if we really want to go there we will change because we know that the way we are is not the right way to be. And that standard that's when you go in front of the mirror and you talk to yourself what can I do to be more in harmony with what's going on in and in love? Can I be in harmony with a love that's been here? And I'm not seeing it? Why do I judge people when I they don't meet my criteria of what I think they should be doing, suddenly your damn business what they're doing enough problems of your own and you're not looking at it well enough to see that there's problems that you're that you can change and make things better for yourself. Okay, let's go.

T

Tracee 35:36

Okay, we're gonna have to do one every day to get caught up on these. All right? How do we maintain a constant level of high love frequency,

R

Ron Giles 35:47

focus on love. Focus on change, focus on on some of the things that it's not to go inside and start judging and tearing yourself down. That what you focus on is what is going to be manifest, focus on love. Focus on the good things. Find things that make you happy and do those things. That's your greatest joy. Do them and do them often. And if you do, then you're flowing in the love. Love is flowing through you. Because you're recreating it and sending it out or read or send receiving it and magnifying and sending it out through your heart system. How do I learn to love myself? Well, what is it that I'm judging myself for not doing? I have some kind of an idea of perfection, and I'm not there yet. So I judged myself, well, who does that hurt? Who does that help. And so there's things that we can do, by not judging and, and focusing on the love, focus on the good things in life that are there, but we won't look at them because there's so much going on this negative. They Cabal, the Cabal are doing an excellent job, and we're just saying we can't help but then we got to be the way that we're supposed to be raised. This, the slave masters have taught us to be this way. And so we we have to judge one another and kill one another. Those are the kinds of things that we can look at differently. We can look at things differently. Allow yourself to be different. Allow yourself to be in harmony with the loving person that you are. And it has nothing to do with the May male and female energies it has to do with you. You do have male and female energy inside every one of you. Some of us are manifest more in one way than another. It doesn't matter. It's who we are. Don't judge ourselves. Just don't judge and don't judge other people. If I had one thing to say I would say if you want to change yourself and have a greater capacity for loving, and creating the love potion in your life, is to quit judging other people if you don't judge other people you're not looking at for things to judge for them. And if you look at yourself and you find things that you can help with yourself and golden in the mirror, I want to change as I like to be I'd like to have more love in my life. I'd like to be more of a an extension of God's love and I share it with other people, other children of God. I honor respect and I love them. If you're having a problem loving and respecting people Is it their fault or is it yours? So focus on love. Eliminate judgment in your life. Allow yourself to flow with love. Do the commands wake up in the morning and do the commands and feel like you this is a good time for me to change. I'm all pure and clean. Now I woke up and I've I've I didn't carry all that stuff from yesterday I feeling better than I did when I went to sleep and at the end of morning that's your rejuvenation. You're finished with your rejuvenation now you have to go back to work and do all these other things. Well, if you do the commands and learn how to love yourself with it at that peak moment in your time of the day, then you can pattern yourself to do things a lot better in your life during the day. That's why I'm looking at so how can you don't judge? Learn how to love, focus on love?

T

Tracee 40:09

So you said the commands, they also asked you the commands become mantras? Is there a mantra that one can say from the verbal mind, that becomes manifested love from the heart?

R

Ron Giles 40:26

That's an excellent question. And I look at the personality. And by being honest and true in my integrity, and my integrity, with the things that I live by, is it my integrity to I want my integrity to be strong. So I don't tell lies, and I don't deceive people. Those are some of the things that

you can that you can change and have a love quotient that's growing and developing. If you focus on, I'm just gonna say this, if you focus on being natural, there's things that you can say during the day you can you can do those kinds of things. If you want to as in a personal sort of way, use the mantra, use the commands like a mantra, if that works for you, then there's nothing wrong to say about that. If it doesn't, then there's maybe some changes that you can make, but you on an individual basis. It's not what I would have to say to you. It's not what you would have to say to other people, it's what you say to yourself. How can I do things, go into the mirror and ask, go into your heart and ask it has all the answers right there? How do I want to do this? How can I do that? Do I make this? A mantra for myself? Do it allow yourself to is to have your commands is a mantra if that's what you'd like to do. And you asked me that, because you probably have some experience within it feels really good. And you're saying, Well, I want to feel really good. Can I do this? And I'm saying, if it makes you feel really good, then do it. That's the right way to do things. See. And so hopefully that helps. On today. Well,

 Tracee 42:28

I actually have a question about that from me. So when I am either in yoga or getting a massage or doing something where I can't speak out loud. I'm wondering what do you feel? Do you feel like saying commands silently has any effect at all?

 Ron Giles 42:49

Well, Q says to say them out loud. That's the Perfected way.

 42:54

Right? But what?

 Ron Giles 42:57

But what about otherwise? Yeah, you're saying it in your mind. And your mind. Your essence is controlled by what you say and what your mind is saying. I don't see anything wrong. And I'm open for for QA to correct me if that's or somebody who disliked that and can say no, you guys say it out loud. There's those who say, Well, no, you got to say it out loud. So I'm gonna say it out loud. And I'm not gonna say it quiet. But I'm saying, Do what you feel is right. Nobody can tell you what is right or wrong. Only you can determine that. And if people start judging you for that they're crossing over into your kingdom. Pick them out. Don't let them do that. Forgive them for cross trespassing. And, and don't trespass on other people. That's what the Lord's Prayer is talking about. So do the things that you feel are right. And it will always work out better because you're open to have Spirit telling you and helping you. If you close your mind, you are close to any values that you can gain from anything else. Because you've got it all set. If you don't believe me, just ask me. I'm perfect. You know, I'm doing everything I I'm doing everything that that I learned how to do in the Bible and I'm, you know i for i o doing that when I'm doing Jesus's way okay, it's still in the Bible. There it is. If you want to punch somebody in the eye because they punched you in the eye, there you go. It's okay. If that's the way you want to live. You Live the higher laws, then you do things differently. And that's what Jesus was

trying to tell us. So you can find a place to justify what you're doing. Or you can focus on the good things, and allow spirit to change your thoughts and your ideas. And then the natural flow from your heart will just be the natural flow, the natural flow of your heart is love.

45:33

Indeed,

Ron Giles 45:34

that net is not spiritual. It's natural. So if you want a flow, if you want flow, then do things that help you to flow. Naturally, it'll love for other people, don't judge, just send love

Tracee 45:52

and beginning to understand that we are multi dimensional beings. So my question is, are one of my Higher Selves part of the Alliance?

Ron Giles 46:01

Absolutely. Look it up. You are part of the Alliance. If you're working with them, who do you think you're working for? You're part of the Alliance. You're part of the team. You're part of the flow. Am I part of the Alliance? I asked that a long time ago. But I was told yes, you are part of the Alliance. Well, what made the party because you have been responding to your call from the inside. You were already a part of the Alliance you just didn't know. Why do we separate them from us? If they're non physical? Yeah. Okay. Some of our more physical and we that we think. But yeah, I believe that all of us who are especially those involved in loved ones society, created loved one society in the, in the pre existence where we were non physical. We knew what we were coming down here for. And we were born in the different societies, different regions was raised in different ways. We knew that we would find loved one society and it would resonate with us. And that's what we are going to use. Because we came here to be humanitarians, and pulled the mankind out of poverty and out of poverty and lack consciousness and to abundance consciousness, which is where all things should be, because we are the creators. Why am I saying that Sasquatch should be because creators came here to do things and we've been shut down. And so we're standing up now. I am no longer a slave. I'm no longer I have my own sovereignty. It's my natural way of being. It's not pretension. It's not something that you can give and take away. I am natural and I have that sovereignty that came with me. Just like the gods spark came with me. Just like who I am as a child of God came with me I'm a creator you can try and tell me that I'm not but I am because I'm a child of God. I mean the family of God a father does not create a another species. They create from their own species. And a mother's the same way. We have a Mother Father God that creates children called the family of God. We are creators. If you have some arguments with that, then that's okay. There's much more for you to learn. The Cabal didn't want us to know that because with that kind of knowledge they can we can not be enslaved. We can be but we're not going to put up with it will always change back to who we are always If all of those negativity in the in the restrictions on us are removed, we will become who we are. And that's why I say when we,

when the cabal is completed, and we get the chance to be who we are, we will create a brand new life for ourselves. Because we're looking for joy, and we're looking for happiness. And it's not found over there in the fear based understandings of the Cabal has created for us. Doubt not fear, not be believing, and all things shall work hard for the best good of those who love God. Doubt not, fear not, but be believing. That's why I say Allow yourself to believe in these things. Allow yourself some of the things I talk about are different than what you have heard before. Well, don't just judge it and throw it away. But it's on the back burner until there's some more influencing thoughts and ideas that will come that will help you to say, oh, maybe that's worth listening to. Allow yourself to be believing. Allow yourself to be one who is on the side of changing back to who we are. Don't try and drag all the Cabal stuff with us because it's not there, it won't work for us. I have a backpack, it's full of rocks. I carry it around with me. Those are my sacred rocks. Those are the things that I thought were important. So I put them in my backpack. And one time I had an experience with Jesus where he co located with me. If I make a sudden jerk then like he didn't expect that I can feel my that you know, and then I got there and then it re aligned that he talked to me about my backpack. And he said you've got some things in there that pretty heavy. Would you like to have a an easier load. And instead of walking through life with a full backpack of rocks that are not meaningful to you or not necessary for you to have? Don't you start eliminating some of those rocks? Look at them, take them out, look at them. This is a rare two is it important to you, if it is it, put it back in. But eventually, you're going to get to the point where you don't have a lot of rocks and boy you're going to be easy to move around, it's going to be easy to move around. And the lighter you are the less rocks you have in your backpack. Backpack can be tenants of faith they're not accurate. They can be friendships with people that we think are really good people but behind us then they do the stuff that's not appropriate. Well those those are the kinds of rocks that are there and if you figure out they're not serving you then you get rid of them and you don't have to carry that much load around so empty your backpacks have things that are not sacred to empty your backpacks of things that are not effectively in your life so that you can change find some new rocks to maybe to put in maybe instead of rocks you can carry ferret feathers around just the backpack carry what you want in there doubt not fear not a baby leaving and all of these things shall work out for the best good of those who love God my like to think that I love God enough so that I can do that. So look at your you know I'm I'm just really grateful for the love and the people that are God said to be a part of loving society. Gracie and Dom and I don't want to say names because there's so many of them. They helped me to find rocks that I have been carrying around for years, and I don't need to carry those anymore. And so I, I, it's my desire to change, it's my desire to, to lighten my load that I'm carrying around. So I don't have to carry the things that are just weighing me down, and not lifting me up and letting me a sand. Here they come. So take a look at them. If they just support your where you're going, then keep them if they don't, then throw them away. You have any other questions?

T

Tracee 55:42

While we've hit our hour. And so I would just like to do a quick little housekeeping. So, okay, when you guys submit questions on a jot form, I download a spreadsheet. And that's what we work off of. And the RSS questions, I email you back the answer, because usually I know the answers to those, these spiritual questions or natural questions is Ron likes to say, are on a spreadsheet, and I'm seeing these comments about SK ours and all this other housekeeping type stuff that needs to go on the other spreadsheet. So I did not read the question clearly because it's just not where we're at. So if you want answers to other questions, you need to email me info at qf s 20 twenty.com. Or please fill out the appropriate jot form. The Links can be found on the important links document and I update it every day pretty much. So if you guys

could do that. Also, you guys keep your questions a little bit shorter, so that we don't have to spend a lot of time reading a long story. And make sure there are questions and not just comments, because that's what we're here for. We're here to answer your questions and help all of us with this ascension process increasing our light our vibration so we can bring forth the redemption appointments sooner so we can get to work. So that is all I have to close this out.

R

Ron Giles 57:17

Oh, that's very nice. Well, yeah, I will very nicely said Tracee. Thank you. Loving appreciate you. You're just such a special person. And such a great help for all of us. You're you're sharing your love beautifully. And that's who you are. And what can we expect from you wouldn't expect love. Love you back? Yeah, well, it's it's a good thing. And there's many of us that are this is happening for very effective time. Thank you, everybody for being a part of us today. All the things that we talk about are helpful for you. And I just don't judge you. I gotta quit judging people. Tracee, remind me you're just judging, snuck it off. I'll change. But thank you, everybody, and we'll do this again. So until we do then, hope you have a good day and make some changes in your life that you feel comfortable making. Thank you. Goodbye
