

Q and A - August 5th

Tue, 8/9 8:37PM 1:00:27

SUMMARY KEYWORDS

people, question, appointment, humanitarian, alliance, corporation, redemption, benefactors, bonds, problems, projects, government, zim, person, sk, request, email, higher, lillian, kinds

SPEAKERS

Ron Giles, Tracee

R Ron Giles 00:00

Hello humanitarians. This is Ron Giles. I'm here with the lovely Tracee and we're going to do a q&a today. And today is August, the fourth? No, August, the fifth, today's Friday, August the fifth. And we're allowed to do mistakes here and there. So with that few mistakes, and we'll go on with the next question number one, Tracy, thank you.

T Tracee 00:26

Okay, there's some notes available online for \$5 that are like a plastic with gold and silver on them. They are extremely well made and look real. They don't have serial numbers. Are these acceptable for redemption? Or are they just fakes?

R Ron Giles 00:40

Yes, they're, they're acceptable.

T Tracee 00:42

When can I start to approach people to ask them if they would like to come and work on my project right now? I'd look crazy if I try to explain it to them. If I sign an NDA does that stop me from approaching people to get them to come and work on my projects?

R Ron Giles 00:56

A couple of things. There's some history behind this. So as you get involved in some of this stuff, you'll get a better feel for what's going on. an NDA is a nondisclosure agreement for certain things that are there at the appointment. Other than that, you have no problems with

talking to people about it. You don't sign the NDA until you get to your appointment, if indeed, they have an NDA, once you have your appointment, and then they don't want you to tell anybody about the appointment. No, there are certain things that they want to be kept secret, your projects or your projects. And there's no reason to not approach people on those. However, be sure that those are the kinds of people who have a clue about what's going on with things that are happening to us on a daily basis. So there's political aspects, there's, there's all kinds of different things from gurus and so forth that are coming up, be sure that you're on the same sheet of music, the same page as you are. So that when the orchestra gets playing that somebody isn't playing Brahms lullaby, and somebody else is playing some jazz rock or whatever. So you're, you're okay to talk if it comes from your heart. But remember that sharing inappropriately with people inappropriately, meaning that they're not ready for it, and bring a lot of problems for yourself. So be very careful about who you talk to. And yet, there's no NDA, there's going to stop you, it's just your heart and your mind and, and work out the best thing. I do not talk to people about what I'm doing. Why? Because they'll, they'll give you their opinion, and their opinion is have no validity to it, as far as I am concerned, unless they know everything that I know. And then they have an opinion about it. And if that's their opinion, is negative, it pulls me away from the the oneness that I feel with what's going on. So I very seldom talk to other people about anything to do with love won society. Simply because most people are not ready. Next question, please.

T

Tracee 03:32

Okay, I'm gonna shorten this one, because it's very long. I am an engineer. So I have a good idea about how a project works. There are a lot of things that we do not know regarding projects as of yet. So it is difficult to come up with an implementation plan or costing until a lot more information is available, and they're asking about med beds and stuff. When will this kind of information be available so we can begin to make detailed plans?

R

Ron Giles 04:01

Well, that's a good question. And who knows the answer to that? I don't know the answer to that. So I understand where you're coming from wanting to know all these things. And you want to know how much it's going to cost for projects and so forth. And then you think it's important that you go and get your, your rate to take care of those projects. But I want you to understand you are a humanitarian, you don't have all of the projects in mind at the present time, nor do you have the capacity to figure out how much money it's each of these things are going to take. If you're if you're building homes for the homeless then and 27,000 other people are doing the same thing and many of them in your same area. You're going to be fighting over homeless people that live in your houses. So you've got to be smart about what you're doing. In med beds and things of this nature, they may have a, they may just simply be going away because of the blast that's coming. We don't know. So you plan as if the blast isn't happening. Med beds are the great thing. And then they get to be produced and, and manufactured and so on. There's many different med beds each star nation might have their own similar similar med bed technologies. Some say they need to take three med beds and others are one and others are where you take care of DNA you have now in Clanton, and then that, and then you put it back into the machine, and, and then that's using cleanse DNA to produce what you want for, and you may not get anything out of it, because you've cleaned your DNA completely. So there's all kinds of problems. And if I inquire about med beds, I get that every med bed has a

problem has a flaw. And that's why I say, Well, God, there's all of this down here, let's just clean this up. And that's what's happening with this, possibly, with this blast. And the blast will come and it'll change everybody. But if you're not ready for it, the blast might be terminating your existence on this in this plane, we just don't know. As much as we want to know, we just don't know, we just have to plan and have faith that our heart is in the right place and directing us instead of our mind. Your heart knows what's going on. So if you're if you're doing your brain work, and all of a sudden you say, Oh, gee, I'm not using my heart. You're preparing all this stuff and waned advanced and it's, it could not possibly could not be accurate. Because you haven't included your heart, things are changing. Your brain is functioning at a third mentioned, coexistence, or at least trying to thrive or survive. And those kinds of thoughts do not, they're not relevant in the new way things are going to be happening. So you've got to instead of worrying about projects, worry about things of your shelf, getting your heart involved in your activities. If you do, then you won't have all of the problems that other people are going to have. Because the other people haven't got their hearts in the right place. So the alliance is not funding humanitarian projects. You can't give money to a project. But they are going to give money to you because you are the humanitarian that is being funded. And what you do with that is going to come from your heart, and it will be for the best good of everybody concerned. And you also have a counselor that's been given to you, to help you to be the best humanitarian you possibly can be. So do my saying, forget about your project? No, I'm not saying that. It's a good mental thing. But I'm saying there's a good possibility that the projects that you have prioritized in your spending of money may not be the the projects that are really available or necessary. And your mind will get involved in in the right things at the right time. So just allow the Alliance to to implement and unfold to you what you're supposed to do. And as a humanitarian, you'll just be really in good shape. Hope that helps. Next question.

T

Tracee 08:59

Regarding introducing new potential benefactors to the program, when I've met a true humanitarian and spoken to them regarding the program is the next step simply to have them subscribe and start the training. Is there anything else we should do with potential benefactors?

R

Ron Giles 09:15

Well, the benefactors first responsibility is to become familiar with love won societies, structures. Why? Well as the humanitarian, what are you going to do with your money? If you don't have the structures in place, then that's the next thing that you're going to have to do once you get the money if in fact do get the money. As he love won society is asking people to get the higher rates. The higher rates are part of the Alliance way of doing things. If you're not part of the Alliance way of doing things and you're not going to get a program, you're not even gonna get on acid To come to a redemption appointment. So there's a lot of factors that are that are coming into play in what we're trying to accomplish. And so there's a thought process that you need to get involved with that potential benefactors need to start in the beginning, how do you do that? Well, we recognize that there were some things that were not set in place yet. Tracee has reorganized the website so that it's designed for training. And we're going to do another video, perhaps next week, sometime, that explains how a new person can come to the website. And here's this, here's this, this is important to read this is that this and then you read the things that we've asked him to do. And then you start in on the videos and other things. And it's, it's not one before the other, it's both at the same time. We'll help you as much as we

possibly can. And we're doing things in a way so that the help that you receive will help you to get the things that in your mind that you need to do to become a good humanitarian. If they don't start with love won society, then they won't end up with love won society. And so I'm saying if you and love wone society has a way of doing things because the Alliance told us the Alliance had told somebody else and listen to them over there. Because what we're doing is for love won society, the alliance is talking to love won society, for us to prepare for the job that they want us to do. If you have a calling from God to be a humanitarian, then you belong here. Because this is where God is telling us humanitarian, this is where the alliance is telling us what to do and how to do it. And if you're not one of those people, then I don't, I don't care what you do. But if you're one of those people that have a calling from God, then love won society is your opportunity to fulfill the fullness of the measure of your creation as a humanitarian. I hope that's not being too arrogant. I'm just telling it like it is. Next question, please.

T

Tracee 12:22

Okay, my question is about what if we are contacted for the redemption? And for one reason or another, the access to the phone, internet or email is not available during that time? Somehow? I already have an answer. But I wanted to hear from your point of view.

R

Ron Giles 12:38

Well, don't be introducing problems into the process. I'm gonna say that, again, don't be interjecting what ifs into your future, what ifs are coming from the brain and they destroy your heart? Why are you asking that question? Do you believe it? Are you trying to create debt in your life? Are you trying to create that kind of stuff? In this simple way that the alliance has tried to make it work? If you get an appointment, you're going to be the one in charge. You are the humanitarian. When I say in charge have means that you get to go to the to their do your stuff and become the humanitarian. If you're not that person, then you won't even get an appointment. I'd love to help you with all of this. Well, yes, but I'm not going to even go there because it it puts me in a different frame of mind. Love gratitude. Appreciate that. And let's let's keep out of our what if scenarios because they destroy you, and then really get upset with him. So let's go and move on to the next question.

T

Tracee 13:59

Well, and it's all about law of attraction, we're creating our own reality. So when we bring in something that we don't want, rather than what we do want, then we send energy to that. Right?

R

Ron Giles 14:14

Absolutely. And if you focus on it, guess what you're creating? And you're exactly correct, Tracee, if you focus on those things, what are you creating instead of what you could create? And that's by focusing on the thing, when I look at when I look at my appointment, I open the door and I will be amazed at the love energy that I feel. And they'll say to me, Welcome. Sit down wrong, and let's let's go through this process together. I will feel like I just found my best

friend. That's the way that I project into the future. Everything is going to be perfect for me. I have no questions about that. And I'd like everybody else to have those same kinds of feelings, but you're not going to do it if you project into the things, things that you don't want. So that's why I pound on people for that day anyway. I don't mean to pound at Schneider. I don't pound I don't I just help them to understand. Next question.

T Tracee 15:29

My question is not about the training, its name in love won society, and SKR, my name unwed. But my last name is different on my ID, do you think this will be a problem at my appointment?

R Ron Giles 15:44

No, they don't care about your name, they know you. You have a spiritual name. And if they were to be correct, and what they know you as then you wouldn't know who it is because it has been introduced. They don't care about your name. No, it's not going to affect anybody. Except if you're signing up and you've got an email and did it for those kinds of things, you know, fix it, but don't worry about as far as the alliance is concerned. Never Never worry about that. Next question.

T Tracee 16:21

Okay. The next question says, you mentioned the do million that we have already received, I somehow missed the information on the 2 million and how to secure it. Could you please furnish that information? I think this person perhaps jumped on after when we took them off the table. So we're not those aren't available anymore, right?

R Ron Giles 16:45

No, if you've got SKR with dumillion, then take it in and they'll honor it do million is a small one compared to the millions. As far as the if you have an fkr with a do million on and you want to change want to get the end, you only signed up for 5 million. And you want to change that to the 160 that are 100 debut that are available, then do a new SKR and then talk to him about the old one. And say you're gonna get a total of 180,000,020 quintillions. And then you take this one that might have a do million on there, then go in and talk to you, the person at the appointment and see what they think they would they'd like to do with it. We're talking about loving things. We're not talking about you they're dead that ride or did it wrong? No. Let's talk about the problem. If there's a problem, if there's a do million on there, and you'd like to do million, I don't care. redeem it. And they won't worry about it either. It's just a discussion. So fast?

T Tracee 18:07

Well, actually, I think this person actually did not get 2 million and wondered how they could. So but because we up the number of the million, there's no point in getting 2 millillion. But I also want to clarify. I want you to clarify one thing. So I have seen people like submitting the 20

also want to clarify, I want you to clarify one thing. So I have seen people like submitting the 20 and 180 requests repeatedly. And like the same tools submit that 20 in one ad request every day. And so can you address that?

R Ron Giles 18:46

Yeah, I'd like to address that. Why are you doing that you get a total of 180? Why are you asking 280 Every time you want another 180? Until we open it up again? Why are you doing that? It's not 180 pairs per as KR, it's 180 per person whose name is on the fkr. So what you're doing is inappropriate. And I hope that you figure out that that is inappropriate and quit doing it if that's what you're doing. Because you're just making a fool of yourself in my opinion, by asking for something that is not allowed. Don't do that anymore. If we opened it up for another round of SKR, then you can get new at net fkr and take it to the redemption appointment. When that comes if it comes when it comes, then you can do that. But not until next question.

T Tracee 19:51

Okay, next question. I know we will have new technologies, working with other galaxies and the government will be much less than what it is currently. But do you feel that our work will be on this 3D Earth or the new 5D Earth's?

R Ron Giles 20:06

Well, if we're working from a transition to 3D to 5D, then work within the transition. And you will be transferred, transitioning as well, from your fifth dimension, being ness to the higher Fifth Dimension beingness. And as you transition into that place, then things are going to change along the way. That's what you can expect. So, don't be asking if we're just going to stay in, or if we're going to jump up to five, the earth when you're still only at 3D Earth. So there's a transition, let's just call it that, and you'll transition along with it be just perfect. Next question.

T Tracee 20:58

But also, don't you? Isn't it more like sometimes you're here, and sometimes you're there? Like you're not like always, like you're kind of floating back and forth from a spiritual perspective, but the physicality of person would be like on 3D. And that's what we're here to repair to help. Cycle?

R Ron Giles 21:22

Yes, it sure does. Yeah, we're fixing the 3d and moving it into a higher dimension. And that's still called a transition. And so it's, where are you, there's times when you're more fourth or fifth dimension, then you are a third dimension, if you're a spiritual person. But then after the spiritual part of you is, you know, might be in the morning, when you have your experience. And you have a day, and you go out and you drive around, and you do the things that you're normally doing and somebody cuts you off, well, that's gonna pull you down. If you if you

respond in a negative sort of way. This is why we are, so you're not always in one place or the other place, you're, you're capable of moving back and forth, and being and you want your valleys to be higher, and you want your tops to be higher. Well, that's a part of the work that you do. As far as recognizing that one, I didn't want to do that, and then stop doing it. So if you do that, then you'll be looking towards yourself and your body and your mind. And your thoughts will be more in line with the higher dimensions as you're working with it. Next question,

T

Tracee 22:44

I'll answer this one, should we set up a group in the signal app in case our internet goes down? We already actually have a group. If you check out the important links document, you can find the links for that. But we are not posting in there at all. So it's just a backup in case we need it, but it's on the important links document. Do you want to add to that? Okay, that's good. Next, when the Zim benefactors are called to go into their redemption appointments, is it a one time event where it's the humanitarians? One and only opportunity to request a funding amount? Or will it be possible for them benefactors to request additional funding later on, say several years down the road?

R

Ron Giles 23:28

Now there's only one appointment tall a one and done get some difference something different than it may be? It may be different but right now it's we have one appointment. And they want all of us to get as many digital gold certificates from the in the eye or in the qf s activated as many as possible. And that's why I'm not encouraging but saying if you wanted to get the by your Lillian's and take them to your appointment. Do so. It's open for you. Now the millenniums 180 malaria is really big. That's a really large sum of money. And that's why I'm also saying when you go into your appointment, you sit down and you talk here, your advisor, your counselor. And they will go through what how much money you want to put into structured payouts so that you have a certain amount of, I'll say a budget on a quarterly basis for the next 100 years. And then the rest of the funds go into that. I'm calling it a savings account. The savings account is for things that come up. Things that you bring up not just the Alliance, you might be offered an opportunity to do some technology work Well, there's your money. If you haven't prepared for that you have say no humanitarian should always have enough to say yes to whatever is required of them. And this is one of the big things that I say, as far as getting the higher rates, as far as taking the higher Zim bonds, face value of a symbol of the higher winds, the higher you can get the better. Why? Has nothing to do with the greed. And if you come to that, if you go to that, or you think about that, you're in your mind, not your heart. And that's why I have been trying to tell people go for the highest golf. It's not greed, unless your brain is involved. And if it's not greed, then what's involved, that's your heart. And you'll get prepared to do the highest and greatest good that your manatorian activities can bring you. It's a great, it's a great experience, to be able to say no, to something that's going to take a horrendous amount of money. If you haven't prepared for it, you have to say no. And I don't want to do that. I would hopefully submit you that you don't want to do that either. Next question.

T

Tracee 26:22

I am not sure if my understanding is is correct, hen want to get clarification, I thought Ron said

that the alliance is willing to exchange the trillions for quintillions. If my understanding is correct, my husband and I have 150 trillion each, in addition to other denominations, how would we process this using the SPR application form? Or do we just take the trillion notes to the interview together and the other notes and asked for the same rate?

R

Ron Giles 26:52

The ladder is the way to do it. Yeah, you're not going to?

T

Tracee 26:57

No, no, no, they don't. It's not the ladder, what they do is use the SKR form to request the quintillions in the millions and notes along they take the Chilean notes along with the SKR.

R

Ron Giles 27:14

And that's what I was saying. The letters to you've got 150 trillion 151. I guess it's 150 trillion, whatever, whatever you have. You take to the appointment, all I'm saying is we have used a 100 T note as being sufficient for the money that you're going to get for the next 100 years. I'm saying no, take the 100 quintillion notes. If you're gonna get something, get a 100 quintillion notes. If you can't afford it, why did I say that? These are free. Through the SKR, you don't have to buy anything. So you don't buy 100 quintillion notes. You don't buy 100 trillion notes. You take what you have and take that to your appointment. But when you're talking about the QFS, excuse me the SKR's, then you get 180 180,000,020 100 quintillion. That's just in addition to what you have, you don't have to be trading this for that. No, it's not trading, upgrading is what I'm trying to say. You don't trade to upgrade, you just get the higher rate, you get the higher bonds and that's available for you. That's what that's what we did in the SKR. What you have to take with you, what the SKR give you is just in addition to that asked for the same rate for the SKR bonds as you did for the other 100 T notes or whatever you've gone. That's what I've been told to say. The same bonds that you've got from your heart are the same rate you have from your heart. And that's the rate to you use for some of the higher bonds that you get and you and they will just be tickled to death as we're all in harmony with what the lions want. What that helps. Next question.

T

Tracee 29:28

newseum benefactors be enrolled later on after the first wave. I guess that's the redemption. I may have there humanitarian recruits that will be willing to come online in a few years for various reasons.

R

Ron Giles 29:42

The reason I'm saying no to that you go to the redemption appointment and you get your funds and you start your your humanitarian work. Those who have not done that and go through Do that route, that whole redemption process won't have a person that's considered a counselor

for them or account or a resource. There's once once the RV takes place, you have to go to that and get a letter from them as a as a referral to me love won society that you'd have number one, you're offended humanitarian. And number two, you have sufficient funds. Now tell me where they're gonna get a letter for that? Because I'm not signing any contract with anybody who doesn't have that letter, period exclamation point. That is your gate into love won society. Tell there's no, there's nothing available for anybody else. That hasn't gone through that redemption appointment. Next question.

T Tracee 30:58

As I understand it, the receipt will be taken to the redemption and honored my question is you will be sending via email a copy of the notes as well. If that is the case, my receipt is dated last month and have not received as yet. Let me answer this one, please. Okay, so let's review this. Again, the Jot form is used to request the SKR certificate. Almost everybody who I've checked in our email system, they did it is in there, please check your junk, it says the title of the email is SKR request. Okay. So if you don't have it, after 48 hours, please submit a new request. And Brian has said that you can take that receipt to the exchange if necessary. But you can also submit a new request if you cannot find the other one. And Judge should never have taken more than like, say two or three days. So please just submit a new request anybody who had that issue, because I get emails about that every day. Do you want to add to it?

R Ron Giles 32:07

Yeah, yeah, there's two issues that are here, Tracee, one, SKR. And the other is buying Zim bonds that have not yet been delivered?

T Tracee 32:25

Because it says you will be sell a copy of the notes as well. So but you can go ahead and address the other if they were to buy bonds or ourselves.

R Ron Giles 32:41

Well, okay, she said you will be sending by email a copy of the notes as well. I'm wondering what the duplication is. And

T Tracee 32:57

receive

R Ron Giles 32:59

JotForm Okay, so, okay, okay. Yeah.

T

Tracee 33:03

So when they fill out the job form, jotform, emails them a receipt for that, what they filled out. And so that's what I believe there's, they get confused about, but then they're like, they know that we will also send an email with the actual SKR, and that's what she's saying here.

R

Ron Giles 33:24

I say I was I was off bounce, okay, you're actually correct in that you haven't gotten it in 48 hours, emails, I wish the emails and those who deal with emails will not do it properly. And that's a really good way for us to, for them to try and stop us from doing what we're doing. So if you don't get the email right away, then the fkr with the fkr, then try it again. The person who is issuing those has a form for you have your your email on that form. And she goes to that forum finds the email and there it is, and if you've got some SKR's and you're gonna have the total amounts and some of them will be okay, and you'll get some you have a limit of 180 and 2100 quintillion notes. That's your personal limit right now. Not the JotForm limit. It's your personal limit. You take five job forms to get up to that, then that's still your limit. And some people think that that's the important thing to know. That's why we came up with a one and done if you read that, you get one and done is 20 and 180. And there it is one and done. And if you have a got some before that then just subtract what you've already got and the one and done. You're finished with what you're supposed to be receiving, I guess I hope Hopefully, that's helpful.

T

Tracee 35:02

What I've been doing is when I see a receipt come through that is a request of 5 million. Now I'm responding and saying I believe that you haven't seen the one and done email, please make up the difference and submit a final request. Because then they will realize because I think sometimes people just miss things. So okay, let's move on. Okay, which Bill is more valuable? The melodeon or the Yoda, Lillian? And will the Alliance accept both? The reason I'm asking is I ordered some a Lillian and they sent me yodalillion

R

Ron Giles 35:40

to the people who are sending these doesn't matter. They think that while they're just they have no idea what a million as a yearling. Let me just put it this way. And the Lillian has 3 million zeros. A Yoda Lillian has three plus 24 zeros. Now what, how many millions? Can you get into those 24 zeros? It's It's about 180,000. So a million is much much smaller than the yodel million. And see I got donated your Lillian's not only yodeling, he's about 100 notes and 100 your Lillian notes themselves bonds themselves. So we have so much available for us to use to support the fkr program. But the Yoda Lillian is the grandfather of everything. And the 100 yodalillion bond is the biggest lie I've seen so far. I don't can't imagine them in writing to do something bigger than that. But when they send you, oh, well, we just sorry, we made a mistake and sent Yes, they will, the alliance will redeem yodalillion for you. Perfect. You know, in my stance as well, a good mistake. Thank you very much. Okay, next question.

T

Tracee 37:22

Okay, I'm French. And sometimes it's very difficult to follow you. It will be good for me to have a written support for all the sessions. I have. Let me address that first. And then I'll finish the question. Okay. So we have different groups in Telegram for all the different various languages. This week, I opened one in Hebrew, we have so many I can't even tell you. And they are listed on the important links documents. The other thing is we have uploaded everything onto Youtube so that you can use the closed caption feature, and listen in your own language. That is the only reason why we put things on YouTube. And those links are also on the important links documents. And then if you go onto the website, everything's translated in PDF, which then again, you can copy and paste and put it on to something so that you can translate that we have done as much as we can that to think of because we have so many different languages. And that's a blessing, but I don't know what more we can do than what we've done to help non English speakers but hopefully, that will give you like a little reminder of what you can so that you know we can make it easier for you to follow. Okay, so with the question she has a question about the location. She lives in Sri Lanka, I'm guessing it's a she. She lives in Sri Lanka but not safely. It's a big deep

R

Ron Giles 39:01

state not a safe

T

Tracee 39:03

place. Yeah, with the DS corporation. I've want a healing quantum center and a look yoga Shahla. But after need more big and in a safe place, can I move to another country or mine when it will be better?

R

Ron Giles 39:25

Well, keep in mind that the money won't come until it's safe okay for all of us so that the RV is waiting. The Redemption appointments are and that being allowed is waiting until I don't know what percentage I'm saying 99% of all of the countries are safe. And those that one or two countries is that is not safe. They will they'll need further work from the white hats. And if it happens, and the RV takes place, those countries will not be a part of the love of the quantum financial system. That's financial death to those countries. Because who do they trade with? The financial system that only deals with certain people or certain things. And if you're not part of it, then you're not part of what's what we'll call commerce. You can you can take your boat load of oil, and go over and try and get a boatload of grain from somebody, but it's a barter system from then on. And you're gonna have to take your boat and go out and peddle your wares, or whatever to foreign countries. When you're is it appropriate for me to say your stupid government missed the boat for all of its people, and that the dictator is trying to do things that he's can't do? I mean, they need to, they need to rise up and put somebody in place that will take that will be part of the quantum financial system. And the reason why we haven't had the QFS, already, is because we're not ready for it. It's not safe for us. There are sting operations all over the place to find the bad people and get them arrested. And then when that takes place and finishes up, then that's the decision. Let's go, we'll do the redemption pointment. Now, I

don't know what countries are going to be left out, if any. But if you're left out, you haven't problem. So insert Anka. They're already taken care of a lot of that sort of stuff that's going on right now. And so just let the white hats to take care of the situation. And let's not assume that it's going to be the same way as it is now. Things will change. So you can do your, your, your yoga, yoga, and all of that sort of stuff, wherever you want, in my opinion, but it's going to take a little bit of time to get to one place the other. You can do it where you live, or you can do it in another country that's up to you. You are the humanitarian, the sovereign humanitarian. And they're working it out so that nobody can violate you as a sovereign. So hopefully that happens before too much longer. Next question, please.

T

Tracee 42:43

There's two in this one. If I am understanding my training so far, the Zim bonds are for the funding my projects and RSS projects, for my personal wealth and spending will come from adding Zim benefactors. Why is the Zim bond being used? Can I address this one, please? Yeah. Yeah, I do. So the Zim bonds that you have are used for your projects. And for your personal spending, you don't add them benefactors and make extra money. It's not like that at all. It's just your money for your projects and for your personal spending. And the Zim bond is being used because it has the most zeros, and it is for humanitarian purposes. Do you want to add something to that?

R

Ron Giles 43:41

Well, just just a point. I answered a question earlier that takes care of that. Then benefactors are people who have gone through the appointment and are deemed vetted humanitarians. And they have the funds. So I'm not sure where you're, you're you're getting adding gym benefactors you would never add, as in benefactor, to anything that you're doing. They're doing their own thing. So why is Zim bond being used? Because it's a higher value? I think that you'll get a lot more understanding of the question that you asked by reading the documentations. Because you have are skewed into your thinking process because you don't understand it. And but if you did read and go back and read or reread or re re read again, and listen to the videos and so forth, you'll do a really good job of understanding. But this kind of a question is way, way out of bounds because you haven't read anything. I've maybe read some things. Please, please go ahead. Do your reading, you'll be much happier and less confused.

T

Tracee 45:05

And maybe this is a non English speaker, so it's just not translating them well. Okay, so the next part of this question is, you've stated in your q&a that we can eyes that it is the Alliance who is contacting us for appointments. Do you believe that nefarious people will try to contact us to try and get our bonds and currency?

R

Ron Giles 45:26

That's just projecting into something that your mind is coming up with, you're coming from fear. It's not just the people that we're talking about, there is an influence that is protecting us. It's an energetic influence that is protecting us from any of these kinds of nefarious activities

it's an energetic influence that is protecting us from any of these kinds of nefarious activities. Now, what nefarious person is going to contact you unless they know who you are? So you're, it's, you're asking a nefarious question about people thinking that those people are just waiting to jump on you, and you're the only one around to do it. So they're gonna do it on you. No, it's not true. The Alliance is taking care of us. And when the appointments come, the kinds of people that you're talking about, as far as nefarious stuff is concerned, will be eliminated. They will have no ability to call you and, and try and contact you and tell you all kinds of No, all of that will be gone. I would not tolerate that. If I was in charge. Those people are going to be gone. I'm not going to allow them to be messing around with our people. That I think their alliances waken is the same as the same feelings. Don't come from fear. trust and have faith in God that everything will work out just perfect for us. I hope you introduce yourself to that concept. You'll love it. Next question.

T

Tracee 47:09

Do you feel that we are at a point in time that we could take a stand and stop paying our mortgage? I understand the Chinese are doing this already putting an end to Evergrande.

R

Ron Giles 47:20

I'm not gonna get involved in that. Not paying your mortgage means you could be foreclosed on? How many more years? Do you think we're going to wait until the everything takes me? If I can't imagine it taking till even the end of this year? But how do you know? Are you paying your taxes are the things that you're supposed to be doing being done. So that you your life can be maintained as it is until the changes take place? Don't push it, there are certain things that you can do. And those things are being taught by people that know what they're doing. And we'll see how that turns out. But I would never say don't pay your mortgage. You're just causing more problems than you want to handle? Potentially. So pay your mortgage, quit worrying about the Chinee quit worrying about all those other things. The Chinese are doing it, you're paying all that. Who cares? It's not you. And what are the Chinese? And are they a part of the Communist Party? Are they part of the righteous? Chinese? I don't know. And if you know, then you can make a determination and you don't even have to ask a question. So let's go on to the next one.

T

Tracee 48:54

Okay, once the Alliance interviews have happened, we will set up the RSS and CAC's we will do so in sovereign country states and our jurisdictions. What advice do you have for us benefactors?

R

Ron Giles 49:10

Enjoy yourself, start at home, start your CAC at home, start your RSS program at home and then move out when you're successful with one and then you move to another and then you're successful with that you move to another. So you're gonna have to train people to be CAC directors and assistant directors and being able to get involved with governments and doing things like that. If you think you can do that in less than a month, and then you're going to start

another CAC over there or whatever. I say good luck. I don't think you have a real assessment or ability to assess what is current take. Start at home, get familiar get experience and then move on. So and in Fastest you find the right people and get them trained as fast as you can move on to the next CAC programs, we are going to have director training for CAC's. And that training will be available for people to go to. So we're doing the best we can. But I want you to take a realistic approach to things. I'm going to do CAC's all over the world, well, how many hundreds of years have you got to do that? Because you're going to have to find the people or get it all set up, and so on, so forth. So be realistic in what you're going to do start one step at a time, that that one step at a time will take you anywhere you want to go. But if you're trying to take miles at a time, and you are only got steps, then you're gonna have some problems in your thinking. And we're trying to be wise in what we're what we're telling people, and I hope you'll listen to us. If you don't then go from your heart and and do what you feel is appropriate. The Alliance, if they if it is appropriate, the alliance will support you. Let's go to the next question. This may be getting close to the end.

T

Tracee 51:21

Yep, we are getting close. Let me answer this one I deal with LWS is beginning. But I can't find out how to change my address on the CAC has my home address, you can easily go log into the website and hit edit. And you can edit it right there. Not a problem. Because some of us I mean, well everybody's location is proposed, right? Well, what if you don't get the building that you proposed? Or what if something changes, so you can go in and edit your pin? Okay. This will probably be the last Would you please talk about whether the funding received as a benefactor is taxable? If so, would you elaborate more on the corporate social structure as an asset protection for this benefactor? Would you recommend to protect benefactor identity, even though we do have strong beliefs on what is coming? You probably mentioned corporate solar on one of your q&a. And I don't remember which one,

R

Ron Giles 52:23

I have a corporation. So a love won society is a corporation. So I am the sole of the corporation. That means that I'm the only one in charge, I don't have a board of directors, I don't have to have any of those kinds of things. I don't have to have meanings, and do everything that corporations do to justify myself as a corporation, it was set up that way. Having said that, the owner of all the corporations in the world is being compromised. When I say compromise, there is no USA Inc. anymore. The corporations were owned by the Vatican, including the USA Inc. Every state in our country in America is a corporation, the government of that state is a corporation. Corporation is the name of the corporation for you guys, the state of Utah State of Utah is a corporation. That's the name of the corporation. They are functioning as government, all corporations will be disintegrated when the Sarra comes in or just sorrow for other countries. So what has gone before will have very little to do with what's going to happen afterwards. So I'm doing everything now is in in because that's what I that's what I have, I've got it seller, is it going to be important for me to be a corporation. So in the future, I have no idea if a corporation they're going away. What isn't going away would be organizations and a new, whole brand new system of government that does not allow corporations to be a part of a governmental entity that goes right down to the county, the city, the state, whatever. They're all corporations and they're all going away. So when the Shara happens since origins are the sorry, happens, all of those people resigned. And we have new elections to elect all of those

people. The Cabal, form of government that they screwed us up with is all going way, we're reverting back to the Republic. It's going to happen that way to one degree or another in every country in the world, especially those who have not had plans, it'll be a major change that's coming for everybody. So taxable no

T

Tracee 55:22

question about that. Oh, finish ahead. Sorry. Go ahead, finish your turn. It's not

R

Ron Giles 55:28

taxable. There's only one tax that says the income to or excuse me sales tax. So how can they tax your benefits another point, if they put money into your account, if the Alliance puts money into your account, who's going to come and know about that? That's why the government's have always had the ability to go into a bank and find out how much money you have in your bank account. The Quantum financial system, if you don't own it, you don't get in period. I don't care who you are. You may be law enforcement. I don't know about the angels, they may get in there. I don't know. I don't think so. Because this is sacred to you, as the owner of this is your possession. There is a higher being that will cross over into your dominion that is against universal law. They won't do it. Nobody's going to get into your account and know that you even got the money there to give you some kind of attacks. It's not going to be there. Those are the changes that are coming. Did you have something to add to that?

T

Tracee 56:42

Yeah, I wonder like so friends stunts, my health coaching business under an S corp. My husband's landscape company is a C Corp. What are you thinking that is going to happen to like those small little corporations like that?

R

Ron Giles 57:01

I'd like to have a better feel for it. But I don't. But I think it's going to go into some kind of an organization or trust, that would be the function of a call it a legal fiction, legal fiction, meaning it's not a person. But it's it's something that's legal. Not a person. So it's a legal fiction. And I think most of those who are being gone away with because that was the way that the cabal use so that they can screw people.

T

Tracee 57:31

So do you think it will just automatically switch to like a sole proprietorship or something like that? Because a lot of cars are held in a corp. Okay, well, just a question.

R

Ron Giles 57:45

It is a question and what's available and said, Well, you can't the corporation is gone. What would you like to do? And this is your choice. It may come down to that. But the government's who are doing that sort of thing are going to be downsides as well. So I don't know if you would have somebody asking you the question. You the, the Alliance, maybe somebody will come in, that's our governments might send out and see what you want to do. It'll all be done in an appropriate sort of way. And it's certainly not going to be of negativity for us as as, as it has been with the Cabal, because the Alliance doesn't do that sort of stuff. So it's going to be really good. And it's going to be really easy. And that's what I believe to be true.

T

Tracee 58:36

Okay, cool. Yeah. I mean, it's not like they're gonna hurt us. You know, they're just hurting the nefarious government corporations that, you know, there's two of everything. It's, I've learned so much about this, like, so for instance, I'm in Santa Clara County. So Santa Clara County is de jour, which is like the government piece, but county of Santa Clara is the which is the Corporation, which is the, you know, the bad part that's under the corporation, the United States. So they all are subsidiaries of that corporate piece, you know, that interesting, California versus California state.

R

Ron Giles 59:23

And all of that has to change because that's the ball organization and we're getting rid of those people and their means of controlling us so it'll be fun. Yes, yeah. Well thank you Tricia for your all your help today and and sometimes I don't quite understand the question and you read it better because my eyes don't read and I don't listen to everything. I listen, I hear it but I don't I don't comprehend it. Is over there and my brains over here but Thank you, okay. You're a jam for all of us and, and so greatly appreciate it. That's our q&a for today and I send you love and blessings and hope that everything works in your best interest today. And with that, we'll end and we'll come back when we get some more questions. That's it for today.

T

Tracee 1:00:25

Thank you
