## SUMMARY KEYWORDS

money, question, zim, humanitarian, people, benefactor, rss, beneficiary, alliance, funds, appointment, account, contract, program, home, quantum, cac, diagram, referral, bond

## SPEAKERS

Ron Giles, Tracee

---

**R** Ron Giles 00:00

Hello precious humanitarians. This is Ron Giles. I'm here with Tracy, we're going to do another question and answer just prefacing this particular session is, it's time for us to be sure that we have focus sufficiently on the preparations for the appointment. And the reason I say this is because a lot of learning can happen once you have your funds. In fact, it will motivate you to get all the information you need. Prior to us getting that you have to prepare to become a humanitarian. In doing so you need to get the higher rates. So you have to have a good presentation. And be sure that you're prepared for that make you and feel good about your preparations. So that's coming up once we have the funds, then you can continue to do your preparations for implementing the programs. So with that, Tracy, let's go ahead and have a beginner sessions. Number one,

**T** Tracee 01:11

Okay. First question. For the RSS program, would it be better to have a limited referrals per beneficiary, for instance, 50, or 100, instead of unlimited, I think it will create competition where some people get 1000 referrals. Meanwhile, shy people or further generations would have much less since the number of people is limited to

**R** Ron Giles 01:36

You have no idea what's happening with the RSS program, I see your point of view. But no, it's not going to happen. There is no way to limit referrals of limiting referrals. Everybody gets the chance to make as much money as they want. And I don't care. And we shouldn't care either. Next question.

**T** Tracee 02:00

As a benefactor, I know that we don't need to make a profit. But how should we title a property

such as a building bought for a CAC, if we cannot rent it, I'm thinking to put it into my operational trust. So the money will go back to the benefactors master account. This process is kind of like the loans in the NRELS program. I hope this kind of asset acquisition is in line

R

Ron Giles 02:29

Let's just make a blanket statement. And you can then assess what you want to do. Making money on our money that we get from the IRS, or from the redemption appointment will pollute our intentions. You're going to you're going to start making money. And then you're going to think of ways that you can make money and so on so forth with your money. It's not appropriate humanitarians will use the funds for the purposes for which they were intended. Having said that, if you buy something and you need to rent it out or something of this nature, then you don't need to be the one to have the get the money you can set it up is in a different sort of way. I would err on the other side of making money, I would say, I'm not going to do that. I'm not going to make money. And I'll find some way to if there's an income coming in that's, that could be construed as a profit, then I'll put that into some other program. So those are my thoughts. As long as you try to be pure, in in harmony with your purpose for the money, you'll be fine. Come from your heart, think it out carefully, but use these guidelines as you go about your activities. Next question.

T

Tracee 04:03

As you have mentioned that the QFS is going to be for the whole galaxy. Does this mean that there are other humanitarians off planet? Who will be doing the same work for the galaxy as us? Or are humanitarians only been chosen from humans living on Earth?

R

Ron Giles 04:20

I do not know the answer to that question. Has not been a question that I've inquired about. So I don't know a whole lot about others in other locations of the world, and how they're going to implement things. It's yet to be understood and and shared with us. So I you know, if I were you, I would just simply focus on getting to the point where I'm being coming being a high level producing humanitarian. Next question.

T

Tracee 04:57

I was just listening to Ron with regards to real estate Workers and agents and how they are entitled to make millions as they are providing a good service and are licensed. I know that I speak for many here, as one of the largest body of professionals is nursing, which is also licensed requires extensive education and continued training and provides a valued service. There has always been a great divide as to why such professions such as realist Realtors make phenomenal wages. Yet those who work to save and improve lives are grappling for every dollar I would appreciate Ron's input, as would many other nurses as this is an age old dilemma was such professional comparisons. I have also heard that medicine will be all but eliminated

due to natural methods and med beds. I am I've been very vocal for decades regarding the corruption within medicine. And I've heard rumors that most doctors will not be needed in the new system. How does Ron see this transition within the realm of health care?

R

Ron Giles 05:54

It's a real good question. And I don't know how to resolve that kind of a problem. I do know that as a tool in my toolbox, I have employment contracts that I can offer to nurses and and even perhaps doctors to help them maintain themselves during the transition, we find that a lot of these professional I'm going I'm feeling it will find a lot of these pubescent professions, professionals in the medical industry will find some other things that they can do with their knowledge and understanding to be of service. These things are yet to be explored. And so there's no quick fix for these people. And the only thing that I'm concerned about is to be sure that every person in the trend in the transition has money. So they have a potential of \$28,000 per person in in doing the beneficiary program. And that's per month, if you were married that 56,000 per year, there's a lot of people who can subsist on that until they can create a way to get themselves employed, and so on and so forth. cross trained if they need to, there's so many solutions, if you have money, if you don't have money, then there's some problems. I want to be sure that, you know, don't compare realtors and don't complain about what they're going to be making or whatever. That's just that's their, that's their chosen field of endeavor. I would never short them, I have no reason to short them. And, and it's the same way with somebody who wants to short the number of people that we can, the beneficiary can refer. There's no reason to short anything. We have so much money to get out into society. Let's make everybody very wealthy. Let them do and you're not giving it to let them work for it. And don't restrict people from getting their money if they work for. Question, please.

T

Tracee 08:13

Will we be responsible for funding other planets and people's to know I am new here. And I've followed Charlie Ward and many others over the last year or so is there a way through the manifesting that I can manifest a partner?

R

Ron Giles 08:33

Well, I'm not sure what kind of partner you're looking for if you're talking about romance, romantic relationship, obviously have nothing to do with that nor with Charlie or anybody else. So if you if this is not a good answer to your questions, and reword the question and resubmit it, and we'll be happy to deal with it. Next question.

T

Tracee 08:56

I feel that this question is manifesting a romantic relationship. And I don't think that the Charlie Ward reference has anything to do with you know, anything, and I'm going to say yes, you can manifest that. You just like I've heard Darren Hardy with Success Magazine did a whole thing on he made a vision board and he ended up marrying the person like a person that looks exactly like the woman who he put on the vision board.

R

Ron Giles 09:25

So cool. I like that idea. Yeah, yeah. And Tony Robbins was your intent. Yeah. Yeah. Don't don't limit yourself. Yeah. There's all kinds of help for that. So that's the way life is lived. finding mates and partners and and having a loving relationship coming from your heart. It's going to happen for you if you really want it to ask and it shall be given but don't say that it's got to be in this particular it Scott have a he she whatever certain traits and so on so forth, you know, put your list down, that the Lord has probably had somebody better for you in mind, so just allow the heavens to work with you. Next question.

T

Tracee 10:15

I know you have mentioned it is what is in our hearts, and it is completely up to the Alliance, which I understand. But what is your definition of a humanitarian? When you use the term? Is it someone with a giving heart? Or do you feel they need to have been or is involved with humanitarian charity work or activities?

R

Ron Giles 10:33

I think that the history is not so important, you know, like, been doing humanitarian charity work. Humanitarian is one who serves a fellow human being. If your intent is to serve, and help and nurture and come from a loving point of view in that relationship, then I call that a humanitarian. It doesn't matter to give or whatever. But there is a pay heart that it can be recognized by the heavens as one who will do humanitarian work. So when we're talking about humanitarian activities, and talking about humanitarian skill, even larger amounts of money, it's because the humanitarians will not change, and go rogue on you and go stupid on you become greedy, their hearts won't, won't go there, they wouldn't support that kind of belief system. So the alliance has chosen those with a pure heart, with the intent that they have to do service to one another. This is where the whole system that we live by is going to change. And if you have service as the bottom line, and your your judgment, if you want to call it that the value of another person, instead of it being what have they accrued as far as homes and cars and stuff like that. It's how much service those people are giving to society. And that's going to change the way that we look at, and the, the, it'll change the way that we live our lives. We're not living up for other people. We're living to help people. When I say other people, we're not living our lives as judgment of what we're doing. We don't care about that. We just come from our hearts and go about our activities. Nobody knows about it. If you do, then that's fine. We don't care. But we're not gonna go up on the stage and, and get an award for being a humanitarian reward is, is what we send upstairs so that we could build a house for ourselves. That's kind of the way I look at it. When we're finished with this life, we want to be sure that we have done a good job for other people and come from love in our relationships. That's who I call humanitarians

T

Tracee 13:10

in question. I met you last December through a search I made on DuckDuckGo. i Since purchased a 10 billion Zim note, I often hear the term bond, which is not the same as a note

well notes be considered by the interviewers?

R

Ron Giles 13:32

Yes, if it's a different part of the defunct system, and Zimbabwe, or if it's a bond from a historic bond, so for the ones, they're not interested in bonds, they're not interested in doing this, that and the other and they're not going to say, well, your bond isn't as is a facsimile, or is a is a fake? They're all fake. There's no value in any of them as a as a currency. And so when I get back, all this has in eBay says that this is not money, and so on, so forth. Now it's not money. It's what the alliance is usually to get you money. And if you are smart and wise, and I've got these sources on eBay, right now, you can get 10 100 T notes per \$15. Worth and you get that positions you to become a fantastic Zim benefactor, with all of the money that you're going to need by asking for the higher rates. So it's all there for you. If you want, buy your bonds, take them in there. Do what you feel is is your positioning for your for your humanitarian work. The Alliance is has virtually no opposition to the humanitarian that presents whatever they present for their humanitarian money to redeem for their humanitarian funds. You know, let's be reasonable, you don't write down on a piece of paper, yo, Lilian, and then expect them to do that. But as I said that I'm saying, well, that's not my judgment call as the Alliance. They're the ones who are looking at your heart and they want you involved, and then they'll work with you. If you've got everything out all the other things, your plans and so forth, worked out. Don't Don't worry about the bonds, don't worry about if it's a 10 billion or you know, 10 billion, probably not sufficient to get you up into the quintillions where I feel you will need to get that 10 billion Yes, for 100 million for it. And it might get you up to where you need to be as a rate might get you up to where you need to be. Next question.

T

Tracee 16:00

Implementing and Ariella says one of my programs however, I want to help people into homes, ASAP, especially those who have lost their homes and jobs during this pandemic. I had plans before I discovered love won society where I would buy up every possible house in my area, fix them up, rent them to people, and then give them the opportunity to buy the rental at a time when they could afford the 5% deposit. Would this be okay to include this within NRELS?

R

Ron Giles 16:27

Why don't you just simply use the NRELS if you're gonna go out and buy homes, but through the realtors let them go out and find is you can find so many. But they can find hundreds and 1000s Perhaps more than you can. So you're maximizing your efforts by getting other people involved? Yeah, let's get them these homes purchased and get them remodeled. Get them and remodeling is not just in time. What about outside? What about landscaping, there's all kinds of things that we can do to upgrade a neighborhood. And I think there's nothing more beautiful than a home that is well landscaped and well taken care of the lawns cut and all that sort of stuff. Let's just open up our our hearts to the right things, and it'll work out for us. I appreciate where you're coming from. And I think you're doing fine. Next question.

T

Tracee 17:28

If I'm just interested in doing the RSS program for providing and supporting money to people and companies globally, plus using RSS program for my projects, is that okay? Doing both RSS and CAC is that are they both required to use your platform?

R

Ron Giles 17:46

No, and the RSS program is standalone, what you do with that, and your humanitarian work is helped. But the I'm gonna say it this way the Community Assistance Centers is a place where your humanitarian work is done. You set up that and you have people in your community going out and helping other people in the community. And they're with contracts and employment contracts, and so on and so forth. The CAC is where a lot of your projects can be fulfilled in helping having other people help you to do that. If you're only looking at one small location or one city or whatever state then some of these other things should be alright. But if you're looking for to change a lot of location, almost see the whole world, a lot of other shoes me locations. There's a time factor involved. And you magnify your ability to get things done by hiring other people, unemployment contacts, and so forth. And doing that. However, the CAC is not a requirement. The RSS is not a requirement unless you want to use it. In order to use it, you need to have the higher rates at your redemption appointment. You need to get a referral from your agent at the Alliance agent at the redemption appointment or referral to be a benefactor within love won society. We're kind of narrowing that down because we've been given permission to do that. And we think it's a good idea. That way, there's no conversation needed between the benefactor and love won society do you have enough money to do the RSS program or any of the other programs. So all of that is taken care of by just one referral. And then once you have your money and referral, you can become a gym, benefactor and the way you go and you are on your own. We're not going to control you in any way, shape or form. You can be a Part of love won society or you can just totally go along your own. And that's okay to come from your heart. So those are the decisions you make, then, you know, you're coming from your heart. And is there any better way to do your humanitarian work? I can't think of any. Next question.

T

Tracee 20:20

Is there any contact here in England that could put forward to those in charge, a list of Zim holders who want to do what is right? For this planet and humanity?

R

Ron Giles 20:34

There will be no list of anybody and everybody named it will not be sponsored by loved ones society. So the answer is no. Not only for England, but for anywhere else, there will not be a list of Zim holders who want to do what is right or this planet and humanitarian now we there's no reason for us to have a list. With they're just come on and become Zim benefactors and, and go to work. They don't have to be on a list for some other people to look at their they'll rise. They're the cream of the crop, they'll rise to the top. Oh, yeah, Trish, no. Next question.

T

Tracee 21:23

What is the process to get the RSS program and how do I get it? I want to get it...

wanting to know, have you got the RSS computer program set up and ready to roll out to us when this all takes place, like, ASAP, I'm sure amongst all of us, there would be someone able to help out.

R

Ron Giles 21:39

It's an interesting statement, I thought we were gonna have to do it alone. And I was always saying six to eight weeks to get the RSS pro platform up and running. But I'm hearing that our conversations and the things that we say, and the ideas that we're promoting, as far as the RSS program is concerned by the number of different types of employment contracts and so forth, is information that they are using, the alliance is using, and there are those who are already creating the love won society platform, we just have to have our human input in order to make it functionable in the third dimension. So it'll just stay this all through all through the as we move up into the fifth dimension. So in my opinion, it's already being prepared is is going to be a certain amount of input required, it'll happen really quick. And it may be that that is up and running in a week or so after the RV takes place. I don't know, really don't. But it's going to be exciting to not have to wait a long time for it to be done. And it will be done properly bedded into the quantum internet, quantum consciousness, whatever you want to call it. And, and it'll have all of the security and everything that's associated with that type of an internet. So the nobody can hack our programs. It. Next question.

T

Tracee 23:28

My question is, under today's financial system, if I spend over a certain amount of money from my bank account, I have to go through some kind of fraud system with texts and codes to enter before purchase can be made, will this have to be done on the new QFS system? Like can I spend 10,000 pounds from my account and not have to go through fraud security measures?

R

Ron Giles 23:51

Your account within the quantum financial system is totally secure. There's no fraud, there's no capability of fraud going through your account. All that will be eliminated by the sentient being who's in charge of the quantum financial system. You're trying to access your account, then they'll let you through if somebody else is they want. So and there's no income tax and no reason to limit your expenditures. Now you say 10,000 pounds, well. What about those who want to spend three or 4 billion pounds and transfer it to a project that they're doing? Have no problem at all. You just go in and find out which account you want it to go to make your transfer. If it's legal, and if and all up and out then it's your decision. It's your money, it's your decision. There's no Big Brother looking over you unless you're doing something wrong. And if you are then my question your intent for being here. As a humanitarian, and so do they. But I think that's going to be weeded out in the process. So I don't think we're going to have much problems with that. Because I think most people who would be fraudulent are not going to be on the earth. I don't want them hear from my creation processes. So my reality is that I'm not going to pull all of these people who are going to cause problems for us into the new reality, which is a quantum, which is the golden age of mankind, as I see that, I don't want those people there. And they can have their fun and do whatever they want to do in some other location, but not with us. Next question.

T

Tracee 25:48

whether you're a benefactor or beneficiary, what about trauma and addictions? Then you receive benefactor or beneficiary of this money? Is there a way this trauma and addiction can be taken away so people can enjoy being with the money? I hope that makes sense? Me too?

R

Ron Giles 26:06

Well, it does, it does to a degree. And yes, it does make sense, I look towards med beds and the possibility of having some I call it reboot, back to your perfected blueprint. And at that way, at that level, you are fully functioning as a child of God, with all of the capacities to become just like your father. Those are the kinds of things that are we're looking at having happen, and is there going to be people who are going to get help with cured whatever you want to call it, with their addictions, and I believe so. So once we have the money available to people, then then they'll go through the processes of getting to the point where they can use that money for their own best good, and enjoy and have joy in the use thereof. So I think it's exciting. It does make sense, and I hope that it all works out. benefactor is is not equivalent to a beneficiary. So you need to be sure that you have a separation of that in your mind. We would not have benefactors who have addictions and major problems. I'm not sure that they'll we'd be weeded out in terms of we wouldn't even be dealing with him. But there's med beds available and each person is known to the alliance and their process and how they're going to work through there. If they have an addiction, that doesn't disqualify them. So from becoming a Zim benefactor, but they're the ones the alliance is the ones that makes the recommendation and referral to us. And that will be taken into consideration. From that perspective, as far as their qualifications to be a gym benefactor. Next question.

T

Tracee 28:12

It's a good one. Where do I pay the \$10? I purchased them notes last year, and I am interested in being as a benefactor and I pray I get an appointment when the revaluation takes place, and appointments become available. When I signed up on your website, it only asked for my email is there another place I need to register?

R

Ron Giles 28:32

Well, you need to do some more studying and, and I can see that you've learned a little bit about the \$10. And focused on that that's money in your pocket. If you're going to be a gym benefactor, you're going to have to learn how to be one and skipping over the education part of it is not going to cut it. You're going to have to show up in your A game playing your A game in order for you to become as in benefactor, effective, Zim benefactor. Don't try and short circuit things. The \$10 program is a beneficiary program. That's part of the platform, the RSS platform, the RSS platform is not in existence. There's no information where you can pay your \$10 or \$10 is not required to be a benefactor or anything of that nature. And I have no idea where people get these ideas from, where do I pay my \$10? Well just sit around and wait for place to put it like the rest of us do. Or you can be somebody that's preparing for doing something in the future. I think there's some priorities here that you need to take a look at, and education is one

of the most important things that you can do now. And the important part of your education is to prepare for your redemption appointment. Because if you don't get that, right, you don't get to be anything that you want to be as far as having the funds. Get the Get your preparations done, get your money, and then you can have your own education as you feel you need to. But you're going to be on the job training because you're going to be having the money and you'd be setting it up and try it and see how it works. And I recommend a couple of weeks of vacation and get used to things once you get your money. Or if you want to hit the ground running, then we'll see what we can do about getting the RSS program up and running real, real quick. Next question.

T

Tracee 31:01

Wouldn't it be better to call the \$10 fee a membership fee instead of a registration fee?

R

Ron Giles 31:07

No, it's not a member of anything. You becoming a Zubin beneficiary, it's a program. Next question.

T

Tracee 31:15

Regarding the RSS when a beneficiary adds a trust to their account, does each trust get their own account number, I asked. Because if they set it up for their child, they will need an account number for when they turn 18 years old, or how does that trust get attached to the now grown up child's account.

R

Ron Giles 31:35

They trust us not survive the 18. If you are set up the trust, that's your beneficiary trust, if you set it up for a child, that's fine. And you can give the proceeds to the child if that's what you want to do, but the funds will come to you or to the to the trust, and the trustee is the one who will take care of it, regardless of the age of the child. Once the child turns 18, then they can have their own beneficiary trust or beneficiary account, and create their own trusts and so on and so forth, and buy their own homes and all that with the right age. However, don't confuse the fact that you're setting up a trust for a child, a trustee will, you don't give the money to the child, the trustee will be giving it for living expenses or whatever way you want to set it up. But at a point in time, you might want to give them a hunk of money so that they can start in on their own and have a leg up on what they're going to do as far as buying home or something, whatever you feel is appropriate. If you've done a good job as a parent, you've prepared them for the financial activities in their life and, and have a little bit of I was gonna say acumen, but as far as the use of money and so forth. But the idea is here that you train them and help them to come to an understanding so that they can function financially on their own. That's what this money is for. So, but the trust will survive. And the trustee in its same form where you what you do with the money is up to the individual trustee who's created our trust or who created the trust, and the trustee who's continued to function. And the beneficiary rather than a child now becomes something else. And we don't care what it is. Get your money. Next question.

T

Tracee 33:42

NRELS, with the 2% interest on the purchase for a new home, I understand that the funds will be used for taxes. But what is meant by used for improvements is that if the home needs improvements, when the home is paid off, it's really wonderful that the funds get returned to the homeowner.

R

Ron Giles 34:03

Well, the idea is a 2% if we don't make money on our on our money, so there's no reason to charge a 2% from for our purposes. The 2% is just a slush fund for things that may happen, you may have a roof, you may go through some other things. Sometimes, if a pipe breaks and you have damage to your home, and then has to be repaired and so on and so far, so those are the funds necessary for that. There'll be a transition to where there's no taxes to be paid anyway, so So mostly it's involved in protecting your home, doing things that you need to take care of your home. So that's what the 2% is for and at the end of the process is all comes back to you. So the 2% will be put into an account and I call it an escrow account. We'll set it up properly It may be a queue Fs account that you put it into, let's see a lot of thought processes to go through as far as the implementation, but I call it problematic. It's a problem that will have a solution. We'll find that and then that problem anymore. Next question,

T

Tracee 35:20

ESS, at our redemption appointment, couldn't our counselor bring a template for each contract for the employer and the employee, so we would have it right away,

R

Ron Giles 35:34

no, inappropriate. There, they're not going to do that sort of thing for you. When I say inappropriate, the angel is there, as a counselor, an advisor, they will not be doing things for you, you have to do them. Now, some of the things that we'll be doing, we'll have some trained common law attorneys, and so forth, who will write contracts, who will be good for the new way, we're going to have our legal systems. And so that expertise will be available. But they're not going to, then the alliance is not going to go and find somebody for him and have them all done and just hand it to you. Can you imagine if you were to have a contract in your hand, and you go to the person that you want to contract with? And say, this is our contract, and they go through it? And they say, Well, what does this mean? Well, I don't know. What does that mean? I don't know. Why don't you go and find out what this is all about, and then come back later. Because you're not prepared to do a contract with us, you're on knowledgeable. And a contract is in agreement, where you have come together with all of the things that are necessary to put in the contract. The few if you don't know what's in why it's in there and what it's for, then you're unknowledgeable, and you're not functioning at the level that you need to function. So no, they will not be doing that it is inappropriate for them to do it. Because this is your job, not theirs. They're just a counselor, advisor, Assistant, a friend, a loving friend.

T

Tracee 37:36

LWS, How do we notify you that we have received the higher funds? Once our appointment is over? Does our counselor give us your email?

R

Ron Giles 37:51

It's a good question. The counselor will not give you our email, we'll establish relationships with our people as we go through the training, we'll send out and a way for you to contact us that you have your funds. And again, we're asking that you ask the agent for a referral, indicating that you have the funds sufficient to be a Zim benefactor in the RSS program, as well as the other programs that you might want to get involved within as well. i That's how it's going to work. So there's, there'll be communications with us, then when it's time for us to have when we have our contract available, then we will let all those who want to become Zim benefactors, and have their letter in hand to be able to respond and we get the contracts done. And you get assigned your master ID number and establish your master account and connect that with a quantum financial or the RSS program platform. And away we go. Next question,

T

Tracee 39:11

how has the revenue to share been accumulated? Who owns it? Humans have been entangled in a variety of soul contracts. Are the words paid indefinitely relevant? Or have they just? Or do they just appear by a habit?

R

Ron Giles 39:28

Okay, how has the revenue share being accumulated? Who owns it? I would suggest that you go to the website and do a search on on the Alliance and the whole QFS program. If you go to the blog, I've got a whole series of articles on that and you can go to the top of the page where there's those are categories on the top of that page, and you just click on the category and it will bring up all of the relevant posts that support that particular idea, do a real good search on that you'll find out all of those kinds of things your shell. Now, as far as soul contracts are concerned, a variety of soul contracts. Those are those kinds of things are very personal. And I wouldn't get involved in that wouldn't talk to other people about it. Who owns the money, the money is already there. And it is established when they buy your Zim for a particular rate. When I say buy, that's basically what's going to take place. You're showing them your Zim, they're giving it to you, and they're putting it in an account. That means that that money has been activated in the system. It's brand new money, never before used. And you want to find out what gold backed means. And if you do and read all those kinds of documentation that are on the website, you'll have a very clear understanding of who owns the money, and a why it's being given to you for specific purposes. And this is the whole process of, of what the quantum financial system as a balance is the whole system of getting money into the economy, and being activated, and so on, so forth. So you're going to have a lot of fun looking at that and finding out for yourself what the answer to those questions are. Because they're all there. The answers are. So next question,

T

Tracee 41:45

how long have they considered for the implementation of project?

R

Ron Giles 41:51

I'm not sure who's asking the question. Are you talking from the who's implementing implementing that project? Obviously, it's a Zim holder. If the Zim holder wants to be a Zim benefactor, then that's another step towards using our process processes that we have our structures for your projects. But other than that, I'm not really sure what your question is, and I'm not sure that really has a good answer. Next question.

T

Tracee 42:25

Yes, using your example of requesting 100 year term for 100, t Zim 500,000, per Zim, the primary principal being 500 quintillion, making the secondary principal payout 50 quintillion, asking for structure quarterly payout of 10% at 1.25 quintillion. So the first question is based on asking for a lot longer term, if requesting, for example, to make the math easy, 200 years, does the change in term to 200 years, lower these numbers?

R

Ron Giles 43:01

No, it won't lower the number didn't get 200 years, then that's that's good. But we don't know what's going to happen in 50 years he had alone 100 or 200? Well, I when I'm referring to that, we're in the fifth dimension, by then, hopefully, and having our paradise experience. Maybe money is not going to be required. Maybe it'll be just something you deal with. But it certainly won't have the impetus that it has now you don't have money now you can't live when you're able to create the things you need to your thoughts and so forth in the fifth dimension. There's eliminates the need for money quite a bit. I'm not sure how money will be used in I don't know. It'd be fun to see. Next question number two.

T

Tracee 43:59

Okay. It's based on the Dong and dinar account. Does the Alliance pay the total amount into the qf s at one time? Or does it also have a structured payout?

R

Ron Giles 44:12

No structured payout for the exchanges. There is for redeemed Jim bond other bonds that goes through the structured payout but as far as you're exchanging one currency for another and there's a difference in value and you get that as your profit that just put it in an account for you know structured payout. Next question,

T

Tracee 44:41

Are there diagrams to help understand things better like how the structure is laid out?

R

Ron Giles 44:47

Not yet. I suppose we'll find something that or have gone through that I'm having a rough trying. Couple. As it is. When I say trouble we're trying to see think things through. And if there's somebody who's done some kind of a diagram, then that's, that's helpful, then we'll pull it up. Let people take a look at it. But then no, there's no diagrams. I think I've heard this question before from somebody that wrote me privately. Good idea, but I'm not one to do.

T

Tracee 45:26

Well, and we have the diagrams in our trainings and the PowerPoint. So if they watch the videos, they should be able to see, at least for the platform.

R

Ron Giles 45:38

Well, I agree with you and I'm, I'm dying, the word diagram didn't trigger the fact that we have all kinds of stuff in PowerPoint presentations, which are the videos. So you really want to understand and watch the videos, because all of those I don't know how better to diagram something than the way we've done it in those videos. And it may be a language problem, I don't know that you're going to have to put on your big boy pants and start getting into it and understanding it. Don't take no for an answer within your mind. You only want to understand that. Don't go there. Just stick with it until you understand it. And then you'll have one of these. Oh, that's how it works. Then on your good shape, but you got to get to that point by putting forth the effort yourself. Nobody else is going to do it for you. Next question.

T

Tracee 46:44

I am at odds with a website. If this is the only portal I am in trouble. I'm relying on things you've said not worry, because we're covered. The website fights me and never provides the numbers. It promises. Can you help?

R

Ron Giles 46:59

Oh, sure. I'm sorry that the websites hiding you just read it. And understand it doesn't have a personality of its own. Nobody's trying to fight you. With weird comment, next message, or next question.

T

Tracee 47:17

and messaging to suggest that Ron send out an email to the ZB list with the instructions I have created. Oh, I sent this to you via email. So let's go Yeah. Okay. I have 10 Bees him currency, will it be considered to the same level as him bond at the Benefactor meeting?

R

Ron Giles 47:41

Well, 10 billion Zim is Zim bond. So it's the same as go into your appointment attend B is not sufficient amount of money unless you ask like \$100 million for your rain. To get you up into the amount that you're going to need to be a gym benefactor. So I this person, I would suggest that you get some more exam. And if you send an email to me, I'll forward you a link to where you can get 10 of them for \$15. And there's another link for 10 For for \$17. Although they're blue, and there's no difference between them as far as value is concerned. But if you'd like the gold, then they're 15. If you like the blue, then they're 17. But send me send me that I'll give you the link send you the back then like next question.

T

Tracee 48:40

Last one, and we're caught up if I understand well, just Zara will be out first before the Q FS is coming out. Am I correct?

R

Ron Giles 48:50

Who knows? Who knows? I don't know. I hope we get our money. But first, but besar is a big deal. I don't know I don't know how that's gonna roll out maybe it's already here and we just don't know about it until they make a clean error pointed out oh, this is this is what's happening now. But as long as we have the IRS and all those people that just are is not happen. When it does happen then those people will be gone. Those organizations will be gone. We will change a lot. The NESARA cannot be so you cannot have what we have now as still being GESARA compliant. So there's a lot of changes to be made. I hope we don't as as humanitarians. I hope we don't have a long time to wait for all that to take place before we get our phones. But it's not my level of understanding so I don't know. Hopefully it'll come first we will come first. So with that last question, we're finished, my dear. Alright, so let's let that be for as it is for now and, and re emphasize, prepare for your redemption appointment, make that your priority, gain all the information you need about that first. And then when you get your fonts and you can go back and and learn how to implement the programs. So with that in mind, thank you, Tracee for all your kind deeds and words and advice and so forth. And I appreciate that. And I appreciate all of the questions and so forth that were given today. I hope that we're doing a good job for you. It's our desire to hence answer your questions. And so with that, let's we'll send our love and appreciation to you all. And that's it for January the sixth. 2022 got to do that in the beginning. Thank you, and goodbye. Bye
