SPEAKERS

Ron Giles, Tracee

R Ron Giles 00:00

Hello humanitarians. This is Ron Charles. I'm here with Tracee and we're gonna do a q&a. Today is July 18th 2022. So with that, let's go ahead and start.

T Tracee 00:13

Okay, actually, I am still purchasing Yodalillian, and I want to make sure I have enough to help the entire galaxy is this, okay?

R Ron Giles 00:28

I would say in your heart, you'll know when it's when you've got enough or when you don't have enough. So follow your heart. Let's get out of our mind so that we don't let our minds get in the way of things. And you'll be okay. For me, is just follow your heart. And they'll it'll be just fine. Next question,

T Tracee 00:52

my wife received her certificate, but I didn't go ahead and fill out another request. Because if you didn't, if anybody didn't receive certificates, and it was, it's been over 24 or 48 hours, please just fill out another one.

R Ron Giles 01:08

Good job.

T

Tracee 01:09

Okay, next question. It seems I have ended up with 175, millillion, I want to donate that to the alliance. Is it too late to get five more using those original forms? Which I tried to fill out too quickly and cause part of the problem? Or should I just stick with the 175?

R

Ron Giles 01:27

Go ahead and fill out another form for the other five would sure love to have you failed, maxed out on both 100 quintillion and millions? So get another five, there's no problem. Next question,

T

Tracee 01:43

Does the provider the funds know about the SKR's, and how the vast majority of the funds are being dispersed if these funds aren't used for a humanitarian purpose, I am liable and could never live with myself?

R

Ron Giles 01:58

Well, you don't have to worry about yourself because we got permission from the Alliance to do this SKR program. It has their full endorsement 100%. The Alliance are the ones who will be giving us the bonds or giving us the funds. So rest your heart, there's no problems. We don't do anything like this without permission from the alliance. And they want this so really, really bad. They're just excited about what we're doing. So we're in good shape. Next question.

T

Tracee 02:33

If I become a zim benefactor, and I choose to employ a project manager, can I be involved with my project manager if I choose to sometimes

R

Ron Giles 02:44

you're the Benefactor you do what you want. You're not You're not just hiring people to work with people working with people that you hire. And, and you work out the problems and, and that sort of thing. It's your job. So it's your phones as well. So enjoy yourself, have fun with them. Don't be as stringent boss, be a happy boss, and be one who's willing to work with people. So the highest degree of love between the two can happen. And that's what we're here for. Next question.

T

Tracee 03:24

I have a question about the latest from Ron are zim benefactors going to be able to work on projects off planet? Or will that be taken over by the Alliance using the donated funds? Also, will we have access to the new technologies,

R

Ron Giles 03:38

we will have full access to the new technologies. The Alliance is not the only ones that are doing things out their love won society and our zoom benefactors will be amongst those who are going to be working with other star nations or whatever, it will be an opportunity for us. And the alliance will help us to do things. The most incredible thing that we're having from the Alliance is a counselor. That's from their realms. And so we've got the best of all worlds. When it comes time we want to expand with the Alliance into the galaxies or into the universe, wherever the quantum financial system is, is set up, we will have that opportunity, not just over there, but we get we got the opportunity to help here with the new financial services centers. So we're gonna have a lot of fun. And hopefully, you'll get enough money to be able to do all that. So if you're one of those who say, Well, I've got 100 I've got 100 keynote, and I'm going to ask for 500 million. I'll give me 1.2. That's all I need. Well, that may not be to go for what you can get. It's not greedy. It's just being that much more helpful to the alliance. I, seriously, that's the way that they look at it. So, welcome to the alliance. Next question.

T

Tracee 05:09

When can I get started? How do I become a benefactor of the Zim program? I'm currently doing a couple projects for a bond holder, is it okay if I also request to be as in benefactor as well, I'd like to do some projects in Africa, India, Asia, and anywhere else that is needed. But I've put great deal of thought into several projects that are included in the Benefactor I'm currently working with the projects I have for the current trainee benefactor do not require a very long term commitment. It's just logistics, I'd love to do more long term projects in the countries I've listed above. I currently reside in Nebraska, hopefully, it'd be Florida. So I'm able to be very mobile, could you let me know if it is possible?

R

Ron Giles 05:53

It is absolutely possible. Now, if you're working with a zoom benefactor, you need to get your own zims, and do all of the things you need to do to become a zim benefactor, independent of anybody else. Once you get your money, then you can work with whomever you want. It may be another's in benefactor, joining forces, but you certainly have every opportunity to become a zoom benefactor yourself, I would prefer that, get your money, go through all of the processes that we've outlined. And make your presentation and ask for the highest rate you can. But don't stop with just 180 million is a real big sum. But by a few years Lillian's it doesn't matter. They want to activate the quantum financial system, that digital gold certificates in the quantum financial system. They're just sitting there waiting for us to activate them. That's what the Alliance wants us to do now. So get the highest rate get the most the highest bonds you can get, and just really have a lot of fun with this, because the alliance is 100%. Working with us. It's it's, it's exciting. From my perspective. Well, I see. Next question.

T

Tracee 07:17

So let me just ask you this to kind of clarify this question right here. So I heard you say that the money is coming from the Alliance, but then we are also donating to them. So is that what I heard you say?

near you say:

R

Ron Giles 07:37

Yes, and let's understand, we're talking about the spiritual hierarchy in the, in the Alliance, we're not talking about the so much about the you know, maybe there's some element of the ET's, benevolent ET's, very little up about the boots on the ground. Because we will affect them without them being part of our program unless they wanted to be part of our program. And they can do that. But please understand the heart, the lions, most of which are not physical human beings. They're Ascended Masters. They're resurrected beings. There are all kinds of stuff that could just simply be angels who will never have a form, or whatever, I don't understand all of that. I don't need to understand. I'm just saying we're working for the Alliance. And and we do what's in our heart to do and we'll be okay. We're in harmony. And we're not greedy. We're not weird. And some people think we're weird, but who cares? Let them be at the end of the line. When we start passing the money out. We know what we're doing. And we are being positioned by the Alliance to do the things that the Alliance wants us to do. Getting the SKR's is probably one of the biggest things that we come up with so far. To ensure that the humanitarians who have a calling from God, get the funds that they need to do the work that they have been called to do as humanitarians. It's just that simple. Next question.

T

Tracee 09:18

I found love won society early December 2021. And I've been working on preparing my documents for the redemption appointment. I have made some adjustments here and there. I will concentrate on rebuilding American Indonesia, I believe this is my calling. And I've also received my SKR certificates. So this is my first question is the structured payout term limited to 100 years? Because I consider myself very young, and I'm willing to work as humanitarian for at least 200 years and building our planet and others.

R

Ron Giles 09:45

Let me give you a perspective, the money in the quantum financial system that is being created by are redeeming the Zim or cashing into them and then we get the funds in the account. That money Money represents the highest form of love as an intermediary, or as a part of our commerce. It has never been dirtied by bad people and will not be because the alliance will not allow that to take place. Now we're putting in, we're putting in 100 years, as some people have a tremendous amount of bonds are asking a very high rate. You take that money had put it into any economy that will continue to form itself and continue to be active long after anybody else starts that has to be putting money into it. That's love in its greatest action. And maybe there's other actions, yes, but it's part of this is part of the city. Pretty bold statement. I don't mean to be that bold. But as far as thing is used for commerce, you're when that's when they're using our bonds and are redeemed currencies. You're using love quotients to be in your commerce. And what does that mean? That means your highest intentions of good are being used with the highest bonds that have loved that is their best their love. That's the love quotient that money has. You're spreading love every time you make a purchase of some sort within the quantum financial system. That love will last for eternity. And you're just spreading it around to everybody that wants it and needs it. Remember, this one thing. The Golden Age of mankind is not just for Earth. God's children, human beings are all over his

universe, or universe buried under its universe. And we're going to be a part of that. And we're sending our love through our money and distributing it every time we do commerce with somebody else. This is the golden age of mankind never going to be destroyed. Okay, thanks. Question.

T Tracee 12:45

Okay, given the level of financial responsibility as a benefactor, is it the organism organizers of the quantum financial system or in particular love won society that is working with the Alliance to provide extra protection, like a sovereign passport giving benefactors across border port immunity and clearance under UN Vienna Convention or equivalent?

R Ron Giles 13:10

Okay, the UN Convention and the equivalent, the Vienna accord on diplomatic immunities, all of those things will be put in a position where we are not limited by other things, those those are cabal type organizations or conveniences to, to control what they want to control. Now, if you want to be under that kind of stuff, then it's not going to happen. You'll have to go someplace else. The United Nations is being cleaned up. Diplomatic immunity has not been done here in the United States had been trampled by people who don't care about the Vienna accord on diplomatic immunities. But if you go to another country, and you have diplomatic immunity from the United States, and somebody violates that they're in real serious problems. It's a one way street. That has to be stopped. Because the diplomats that come over here to America, some of them are thrown in jail because they have money. I am so irritated with these United Nations people and that are trying to steal the money from these people. And I'm involved with some of it. So that's all going to change. So when you're talking about the nine nations Vienna Conventions, and all that sort of stuff, most of that is cabal oriented business as usual. We're going away from that. We're moving into a higher level of using love as our quotient for the economic system that we're creating which is the golden age of man. In time, so we're going to get away from that garbage. I hope that helps. Next question.

T Tracee 15:08

As a benefactor, I can take the phrase in the Bible in Leviticus it says Love your neighbor as yourself. It is important to do things out of love and with love. Because if I'm a benefactor, I must give things with love. The question is, if I am going to give as a benefactor, am I going to be a benefactor? For other races? I don't even know that they are from other planets.

R Ron Giles 15:29

You tell me? Would you do the same thing for them? For it? You're giving conditional answer so that yourself don't care. Next question,

T Tracee 15:41

am I going to be able to sit down with a member of the alliance before signing any contractual

am I going to be able to sit down with a member of the alliance before signing any contractual agreements?

R Ron Giles 15:47

Well, your alliance counselor Yeah. Next question.

T Tracee 15:52

Do I have to fill out Ron's form again, every day for 36 days? Or only one time? Sorry, I'm a little bit confused. Let me answer this. Originally, Ron said you could do five a day. But then we sent out a one and done email that said, just get it all done. You can have 20 total of the Quintilian and 100 and was 80 of the My Little yen. So just figure out what you have make up the difference? And go ahead and submit a final request.

R Ron Giles 16:23

Yeah, we don't care how many requests you have, oh, I do. But get the limit as what we're saying, protect you. If you've got some that you've already got, and you're wanting to pull them out, then go and do your own math and get the higher so that you'll be up to the limit of millions, especially the millions and then the quintillions as well. Next question.

T Tracee 16:48

I would like to see literature, I don't think this is enough education, I still work I already put requests in for money because I felt I needed to, I don't have money to spend on this. What is the JotForm? All I know is I want to help but I'm not sure this is for me, there is nobody to talk to. Okay. First of all, let me just say, Ron, that remember, we have over 100 people coming into this group a day. And this sounds like a very new person. So just want to preface that.

R Ron Giles 17:17

Yeah. And you think I'm going to download again, we understand that you're, you're new and but the most important thing, you're now in the process of receiving the training emails, along with the training, emails will come little documents, and sometimes they're pretty long documents. I've known for my long documents, but I try to be thorough, so that you really understand. Now, these are free. It doesn't cost you one dime, or one penny, or one, whatever. So it's free. 180 millennium is more than most people have have in terms of being able to redeem. So we want you to be a part of us. And to be a part of us, you had gotten to know what we are, what we're doing and where we're headed. And we don't expect you to just come in and all of a sudden know everything. It's going to take some time to get this information and digest it. And so it's not a one time you read it, it's done. Read it over, read all of the documents again, if you feel like you need to. And when your questions come up and you can't answer them, then dig back in and see where those answers can be hidden. Because they're not hidden from you, unless you refuse to to read them. So we've done all that we can possibly

do that we are aware of the solve the problem of training. And so with our hearts open to you, we we suggest that you read it with full intent to become a person of God who has the intelligence and the humanity that is involved with a humanitarian who has a calling from God to get this money. That's what we're trying to produce for you. And we hope that you can see that if I get a little irritated from time to time. It's because sometimes people read things while they're driving in their car. Then they come home and ask all kinds of questions that have already been answered in the thing that they were listening to when they were driving in a car. Now you can't do that and get all of the information you have to be focused on it. This is that big. If you want to be a humanitarian and distribute God's funds to people, you're going to have Learn everything you possibly can. It's all there for us. We just need to educate ourselves. I'm still educating myself that if I stopped educating myself and love won society will be finished. Right up until that moment. Oh, go right up until that moment that I don't. We don't I think I've gotten it all and I don't. So we love you and we appreciate you. We are growing in strength, and in numbers, and in love, and we welcome you to be a part of it. Next question.

T

Tracee 20:41

I applied for over 470 million over 30 hours ago and have not received an acknowledgement or the SKR, not my junk that already successfully submitted and received acknowledgments and SKR for two, five millillion SKR resubmit the form. If you do not receive it within 48 hours, please resubmit.

R

Ron Giles 21:04

Please understand, the person who is doing this for us is a wonderful person. They're eight hours behind us. And she doesn't work on the weekends. So if you did something, and you're not got you haven't gotten it yet. Then on Monday, which was yesterday? No, today's Monday, isn't it. She's ahead of us back to work. Cuz she started work on Sunday, which is our Monday. And so she's she's already got it done, or is getting it done. But please understand that, that this is not completely automatic. And there's people behind it. And they're doing the best they can and she is a whiz, I'll tell you that she has a with. So I send my love and blessings to her all the time, because she's so great at what she does. And she starts in the morning and finishes what she's got from the night. And then when her shift has ended, then she towards the end of her shift, she'll start to do all those that she got that day. And it doesn't take her very long to get through them. So it's a it's a lot of work if you don't know what you're doing. But she's she's pretty good. She's good. So we're fortunate to have her and we're fortunate to be able to get these out. We've had 1000s that have been done already.

T

Tracee 22:28

We've had 7000 requests. So that somebody asked me, why don't we mail them. I get a lot of messages over telegram. Somebody said, Well, why aren't you emailing them? It just seems better. I said, Well, we've had over 7000 Like, how in the world could I print and mail 7000 documents. Anyway, let's

R

Ron Giles 22:54

well, just in addition to that, we're sending it to countries that don't have a postal system. And that's why we created the Q, the SKRs, the safekeeping receipts in the form of a digital fkr that we can send through the mail. And nobody can intercept it until Google or some bad guy like that starts causing us problems, but so far, we're safe. So please understand that SKR's are for those people who cannot get them sent to them. They certainly wouldn't be sending mails, we would certainly would not be sending mail. Just understand think it through, think read the documents understand why we did it. And then you'll have all of the answers to those kinds of questions that you can you can hope for.

T Tracee 23:47

You know, I should do we should put that SKR letter as a blog post on the blog. Um, because if we've sent that out like a week ago, and we've had 500 People join in the last week, we have a lot of confused people.

R Ron Giles 24:06

Well, you know, can that be copied? I don't know.

T Tracee 24:11

I'll see. I'll help you figured out. Okay, next question. In regards to Ron's recent SKR program months ago, I put aside several good loline unsettling notes as keepsakes as they didn't have serial numbers on them. Now I learned that Ron use those high denomination notes to fund his SKR program. I want to donate some notes to him for use in that program. How can I do that?

R Ron Giles 24:37

Thank you very much. It's a kind heart. I have all that I need and more. People are sending me stuff now. When they get the higher bonds, I think they don't need the 100 T notes. And so I have probably 1100 T notes that I'm not sure what to do with. What do I do? Well, I'm just going to come Are them off and take him to the appointment? And because people are getting the higher millions, and why would they want hundreds that had to be sent by mail. So please, please listen to sending Ron your old staff or I appreciate it if it's a higher volumes and I don't mind trying to get them to the people who are really going to do well. But you'd be better off keeping your your little injuries that a Lillian's and redeeming them yourself at high rates, that would be the same that the alliance is trying to get us to do a yodel million 100, or excuse me, 1 million, 2 million presume is a really high amount. But that means that we have much more Oh, and by the way, you're going to have an opportunity to sit down with your counselor at the appointment. Now, this is a brand new thing that we're doing now. And most of this is going is not going to go through the structured payout program, it's going to go in its own place that you're going to save for either your use in the future or the Alliance use in the future. So sit down with your counselor, and you'd go through how much you want to put into the structured payout. So that you can have a very efficient flow of income that's coming to you for your own projects. And then the counselor will help you with that, and then the rest of it can go to in that account, in your name it your account is still your money, the alliance will not come and take it

because they know whose money it is. If there's a reason to have you invest in some particular project, they'll give you an opportunity to do so. And then that's how your money will be used. But for now, they're just wanting specifically to activate the gold certificates in the quantum financial system. They have no limitations that our minds can see. They have no limitations of redeeming large bonds at large rates. I've asked them a giggle when I when I get my answer. Could you can you you have enough gold to do this? Oh, yeah, we got enough gold. Just go ahead and not worry about it. So that's, that's where we're at a hope a lot of people hear this because it's really, really important. Digital gold certificates are worthless, until they have a transaction that activates them. And we've got tons and tons of gold. And they're they're backing all of the digital gold certificates. And they're just sitting there waiting for us to come in, and redeem them and activate them in our accounts for money. It's real now. And until that time, they're just going to sit there. So I don't know how many sands in the sea there are but they know they did. I don't know how many gold certificates are available. But they do. It's way beyond my ability to understand it. And so let's just do what the they asked us to do. Let's just allow our hearts to look down the road. And there's a turn in the road down there aways. We can't see beyond it until we get there. And then we look and say it just goes from miles and miles and miles and miles again. So let's just do what we're asked to do. And Let our hearts be the ones in charge of those Zim bonds and those higher redemption rates. So we're looking for next question.

T

Tracee 29:09

Since God is all loving, why do some people use the term God fearing?

R

Ron Giles 29:16

Because they do not understand what they are doing. It is God fearing. I'm going to tell you this right off the bat. Anybody who tells you to fear God has been taught their religion by the Cabal that say why they want to put the fear of Jesus in your heart. Why would you ever fear Jesus? Pure Love? Why would you ever fear God? Pure Love, you would fear them because somebody told you to do that is not natural. So when people say God fearing person and you're supposed to say Yeah, that's a good thing. I say, I won't say it out loud. It's not a good thing. Next question.

T

Tracee 30:13

I have a question about the RSS, if I want, for example, a football club, like the church stories sign up for the RSS and the bonuses. How do I do that? Can I sign up a football club that is a non human to the RSS?

R

Ron Giles 30:30

Yes, got a most clubs usually have some kind of a nonprofit organization structure. And if they're a nonprofit organization that they can get to their own benefit, become their own, it's a, that can become a beneficiary and sign up all of the people in their organizations to that and then you don't have to pay dues or things like this anymore. Then the more the merrier. And do

we care? No, we want that sort of thing, because it's getting into all of their families. And, and their, their extended people that they know, hold different sets of circumstances for a whole bunch of people. And they can all be included in the bonus programs. And they make a lot of money. And that's what we want for everybody to be very, very, very, very liquid in their financial situations. This Monday is going to be a lot of fun. So if you've got a club, you want to sign up, sign them up. It's nonprofit. It's not a corporation. It's a nonprofit. So let them go. And you're looking at the documentation yet. It's all there you can do. Next question,

T

Tracee 31:46

thought to 100 teason notes in my own on my own? Can I apply for others with the SKR's only for people in other countries?

R

Ron Giles 31:56

It's not a redundant question. But it's a redundant question. In a lot of minds, we have no problems with you getting 180 millillion through an fkr. And one or excuse me, 2100 quintillions. It's available for anybody, any were, who was part of our program, part of our training. And that's all you have to be the determining factor of whether you're a humanitarian who will come when you go to your appointment. But you'll know in your heart if you if you're if you're humanitarian, because the humanitarians only humanitarians will get funds from the redemption of Zim bonds, or any other bond for that matter. It's all brand new money, the alliances in charge. Next question.

T

Tracee 32:50

I thought I heard a while back that the large zim that we have the ones we purchase, not the free ones you sent out, will be put into a special account for us to use on larger projects later down the road. So am I understanding this correctly, the quarterly amount for the larger zims will not go into our master account that we will transfer funds from? And second, if this is correct, which zooms will be put into that special account? Or do you know,

R

Ron Giles 33:16

I do know from some asking about it, the largest hams, they don't care about the larger systems, they don't, they're all one big zim. And you ask for a rate. And that's that's your rate for all of this in that you have. Doesn't matter what size. I got some donated day, that 100 billion. And I think that's a real big amount. But it doesn't compare to a 100 trillion. But you just put them all together. Add them up if you want to do that, if you can do Lilian. So those bigger nine numbers. Most people don't have a calculator that can calculate it unless you get into the spreadsheet, and they excel programs. And then it does a great job of that. It's not just the big, big ones, it's a certain amount, and you talk to your counselor. And you you ask I'd like to put as much as I can into this, but I need to be sure that I'm not robbing myself from what's going to happen down the road away. When so if we put this amount I'd like to put this amount in there and have 20 Quinn 20 trillion coming in a quarter or something whenever you lie, then that's the part that you put in the quantity into the structured payout program that will last you

for the 100 years and you'll get that money every quarter or every annual payment divided by quarters if that's what you want. So if you're gonna get five quintillion per year, that's 500 Quintilian that has to get put into that account in the beginning at the appointment so Do what you feel you need to do. And that's why I say go talk to your counselor because they have an idea of what's coming down the road, when you may not. And then that information is going to be very, very vital for you so that you can get the funds you need for humanitarian work, and put the other money aside so that we talking about putting it in donate it to to the alliance, but the reality is, is it's still your money, it's still your money. It's just in an account. And that account, no is known to the alliance. And if there's some reason that you have sufficient income for that are sufficient to cover to do some projects, you may get called upon. Now, keep in mind that there's going to be 30 to 35,000. Zim benefactors. And we're covering the whole earth where we're also going into outer space and doing stuff in different commerce, galactic commerce. And there's going to be so many opportunities that we have no idea about yet. It's going to be fun and exciting, because we're getting excited right now at the prospects of that. And I hope that you allow yourself to believe in it. Allow yourself to believe in it, and let it come true. Next question.

T

Tracee 36:31

I have requested 156 millillion bonds and received the SKR's. That was because I had 24 of them on hand and thought that my limit was 180. Now I realized I could have asked for the 180 and have these made available to the alliance. Can I correct my mistake by requesting an extra 24 millillion bonds to get the total of 180? Yes. Okay, next question. As I'm listing at the training, I realized I could request 180, whereas I request it's five so far, is it possible to receive another request one request another 175? Yes. And let me tell you guys that I on the important links document, I Please save it, okay, because it's a live document. So every time make an update to it, you will see it, okay. And I have the request form links for the SKR, as well as the Jot form link to ask questions. And we can answer on a q&a on that important links. Document. I also am adding new telegram groups, it feels like daily for different countries. We added Kenya and Indonesia. And I think there's one other so just check those please as well. And yeah, so sorry to answer these, we just have a lot of questions, and I'm trying to answer the ones I can. Okay.

R

Ron Giles 37:51

Hey, yo, what was that I was Tracee.

T

Tracee 37:55

Faster, faster? The speed of light. Okay. Next question. Do you have a beneficiary count referral user ID for the \$10 RSS plan I want to start with is as soon as available? Not yet.

R

Ron Giles 38:07

It doesn't exist yet. So it's an idea? Where do you pay your \$10? I don't know who's going to accept to put you there. It's not it's not there yet. So those who read this, read what it says. Because it's all in there. You can't do it before the opening. And that has to have the RSS

because it's all in there. You can't do it before the opening. And that has to have the RSS program in place. First, next question.

T Tracee 38:36

Okay, and the other thing I want to announce is that, I think that we're going to do a different so every time we have a new q&a, as soon as it's available for posting, it will be sent out to everyone, because currently and then it will also be added to the queue like at the bottom of the automation, because some of you guys are joining and you're gonna say oh, q&a from September 2021 What's this and not hear the answers? Maybe you asked. So please subscribe to the bid shoot channel. Also I'll be sending out the email with the or I should say we will be sent out the email with the link as everything is updated live that way everybody will see things faster. Okay, how do I go? Good point. How do I go about printing out the entire packet as a review for myself and for future CAC directors I have already I have three already in the position.

R Ron Giles 39:34

How do I go about printing it copy and paste that's the only thing that I can say you have any other ideas?

T Tracee 39:42

No, the the entire packet. It is on the website and there's different PDFs you have to print them up separately. It is under the program tech manual slash Admin tab. If you open that up, you'll see RSS tech manual CAC tech Manual and so forth, please print all of those five tech manuals. In addition to the alliance referral letter, I would do at least two copies of that. But only do the tech manuals that you are going to participate in. So the first three are the most popular, the ESS, ICCH or more advanced. But just to be prepared, you might as well print all five. And your directors don't need these tech manuals, they just need to attend the director training. When that's ready. We put Okay,

R Ron Giles 40:36

I'm gonna call you, Pastor. Next question,

T Tracee 40:39

I filled out one jot form in putting one ad in the millillion and 20 in the Quintilian. Is this correct? Yes, it's perfect. Thank you. If next question, if I would like to be involved in the project of construction of flying cars and transport cars? Well, I have support from the Alliance, because it is new technology for us humans. And I'd like to know what I can address.

R Ron Giles 41:02

It's a good question. And we're gonna have to see how this comes about. I've even heard say that Boeing is already doing flying saucers, I don't know who they're selling them to get. It's something that technology is not new. And it's going to be shared with us. And then we'll get involved, who gets involved, we got to keep your ear to the ground and see what's going on. I don't know how they tell you how to do that. It just, it's just going to happen to you. And there'll be wasted for you to see and and see the new technologies. You know, we have 6000 patents that have been put aside because the they think it's going to interfere with the Cabal thought there was going to interfere. But we've got technologies coming from the 80s that we don't have a clue about yet. And that's the med bed technologies and the antigravity machines in the matter. replicators, that sort of thing. How many more those little two little things are available for us? We'll find out. Right now. We don't know how next question

T Tracee 42:10

I filled out and SKR vanished off my screen, but I'm not sure it processed. I'm happy to try again, if I need to. I thought I would ask before submitting a second one. I've not received an email saying it was honored. So I'm asking what I should do, please just fill out another form. Next question when my leaving my family behind my significant other who I love very much has mental slash psychiatric problems, I don't want this to affect him.

R Ron Giles 42:37

Oh, bless your heart, I'm not sure how to help you with that. Each individual have their their life experience. And we just have to be sure to allow each person the opportunity to fulfill the full measure their creation and the purpose for which they came and their Spirit will guide them and direct them to do that. Other than that, we just have to have patients who have thought we can work with this question.

T Tracee 43:06

And can I add to that, why I don't see why you would be leaving your family behind, you're going to be able to bless your family beyond measure soon. And your significant other will be able to go into the med beds. And that will help him very much as well. And in the near future, we're going to have a spiritual training that we're going to release and then that can help him already right now in a massive way. And you can do it together. My husband, my family, everybody is sound asleep. And so they think I'm crazy, but I don't care. I don't feel like I'm leaving them behind. I feel like I'm just preparing for a big blessing.

R Ron Giles 43:48

Nicely put.

T Tracee 43:50

Thank you, boss. Okay, next question. I have my three ring binders prepared and I'm ready. But

now that SKR was added? Do I need to modify my introduction page to add the SKR certificate and the amounts or should I just have a copy of the certificate with me at the redemption appointment? That's an original question.

R

Ron Giles 44:09

Oh, yeah, I haven't heard it before. But my suggestion would be just go ahead and add it to the aggregate. If you've got a list of the bonds that you have then put Spkr and then 125 180 billion million and 2100 quintillion. Just add them in there and show them that they're under the SKR. There's that's all I would do. Dollar we'll do. Next question.

T

Tracee 44:40

Okay, I requested us care and printed off the Confirmation form. Do we need to buy our request extra Zim for these extra funds for the Alliance? Or will my 100 Tea notes suffice? I'm asking my angel for 900 pounds presume?

R

Ron Giles 44:58

Well, I would suggest So you get all of the Zim that you possibly can. Don't think that you always have enough. If there's 180, millions available to if you turn it down, then that means that you're turning down opportunities to donate or to activate the gold certificates in the quantum financial system. Get all you can do 900,000 pounds is a good thing. A million it'd be better. To me, it might be a little bit more than you want to go. But you're in the ballpark for what needs to be done. But do not just say oh, well, I've got the 100 T note. So I'm just gonna be fine with that. No, go for the the SKR, the full limit of what is available to you. That is your gift from the Alliance at your gift from God. Next question.

T

Tracee 45:56

You had times mentioned having a bond account and the qof. So it might be because I'm outside the US, but I have no idea what a bond account is. Can you please clarify? We

R

Ron Giles 46:05

have plenty of stuff available for you to read about those have some questions. It's outlined in our in our definition, it's too hard to just understand that with just a short question and answer. It's there to support your other activities.

T

Tracee 46:24

If you could please, everyone should do this, it would be helpful, I think, is RV QFS info on the QFS 2020 website if you just look under Glossary of LWS terms, and then there's the 10 year performance bond up there. And then all the other things the Benefactor bond looks like you

just keep adding and adding and adding to this glossary. So please check out the glossary so that you guys can be more familiar with terms that Ron uses. So Okay. Next question.

R Ron Giles 46:57

Yeah.

T Tracee 46:59

Well, I live in, I live in Ecuador. And I was wondering if once the money is in the qf s and Ecuador being a very small economy will be able to provide us with the money we need? Or would we necessarily have to manage through top 10 banks.

R Ron Giles 47:16

There won't be any top 10 banks, you'll have the qf pass that has no borders does not recognize borders, however, on their redemption, or excuse me, the redemption part of it. The RSS program, the downloads will have a difference between countries. But that's the RSS program, you will have whatever you need in the quantum financial system in Ecuador, it will be there just like it is anywhere else. And you will have the ability to use debit cards and things of this nature will have it all, they'll have it all planned out for us so that we don't have any problems with how to use the money. So finally, give us some money and use this, you'll learn. Next question,

T Tracee 48:05

are we limited to helping people only within our own country? Are we allowing, are we allowed to help people from other galaxies such as our home galaxy,

R Ron Giles 48:15

the money is yours. You don't have to ask permission where to go and use it. You can set up your RSS program, anywhere you want your CAC program, anywhere that you have a heart to do it. It is your money, your heart, and God will help you to make the right decisions for things. And also you have a counselor, and angelic type counselor who can help you with all kinds of information. So use that. And that might be something new to new people but get involved and find out what that counselor is supposed to be for. And and where it's where that person is going to show up. And you'll just really be excited with that one. Next question.

T Tracee 49:08

I haven't attended all of the training but in the process, what I wanted to say is the process for the new job forum, too many people giving advice and it tends to get confusing. Is it not possible to have an info group? Oh, we're only admins post. Yes. This actually is why I

suggested we do the announcements only channel which we did. Remember, I think it was Friday. Yes, yes. The person that suggested it. So thank you for your suggestion. I emailed her back and told her thank you so Okay, let's just move on. Brother sorry for your frustration sending you energy to deal with that. As I have traveled around the world I realized most of my brothers and sisters have not had a vacation ever. How can we successfully provide vacation spots humanity at little to no Charge I don't want to hold. So who can we have hold them? Perhaps a trust to humanity?

R

Ron Giles 50:10

Okay, just kind of think this through brother, all of our brothers and sisters are gonna get at least \$28,000 a month, on an individual basis, if they do the RSS program, beneficiary program together six stress, they're going to have a lot of money, why would you be giving things away, these are not going to be poor people. And yes, they will have the time to go and have vacations. Now. they'll go and they'll have they got their big wallet, and they'll go there and have a really, really good time. vacations and recreational activities are going to thrive. And that can be a major part of your program, you can set up a new, Six Flags, or whatever you want to do in locations and it doesn't have to be big, it can be smaller, whatever. But you can do those kinds of things in locations, that there's not an accumulation of people all the time, that will be funded by by the different programs that are that will the gym benefactor has a director it could be in charge of, of activities for entertainment. Or they may be putting up some of these kinds of things. And it doesn't take a lot because they get money and they don't have to have money for everything. However, our people will have money, it's not going to be a matter. Well, I can't afford to do that. When you're making \$28,000 a month, month, some people don't make that a year, you're getting on a month. And if you got to have you happily married or whenever you'd happen unhappily, you're gonna have to pay \$86,000 per month. So those are the kinds of money that you can really have a lot of fun with. So don't be giving things away. Don't plan on giving, making things free because we're not poor people anymore. Brothers and sisters, we're not poor people anymore. We're not supposed to be poor. And so we're doing what we can to help them. That's our last question for today. And so we hope that you have an enjoyable day and hope that we've answered a lot of questions for everybody. And we'll we've got a lot more questions. So we'll be doing one in the next day or so as well. Thank you and thank you Tracee for all you every time you get so you're getting really good. You're getting already been good, but you're doing really good for helping and getting us through this. Thank you my dear. Okay, everybody. Will will say goodbye for today.

T

Tracee 53:00

Bye bye.
