SPEAKERS

Ron Giles, Tracee

R Ron Giles 00:00

Good morning humanitarians. This is Ron Childs. I'm here with Tracee, we're going to do a question and answer period. And today is July 20 2022. So with that, let's go ahead to start. I'm excited.

T Tracee 00:14

Okay. As I understand the level and Society Program activation will only happen after the global reset and 30,000 benefactors are trained and ready for their appointments. Is this correct?

R Ron Giles 00:26

Yes, it is correct. The program itself. And basically RSS program is the platform will get whoever starts or comes with us. I don't know if it's 30 or 35, or 25. We'll have the benefactors and get them trained and ready to go. And yes, so it's correct. Next question.

T Tracee 00:50

I received my returned STR certificate that I would take to the redemption appointment, I have a concern that it could be deemed not authentic as there is no date. And Ron signature does not appear above his name. Am I as a benefactor? Is this a valid concern? Does Ron have a web signature that could appear above his name on each person's form along with the date the certificate is mailed? Is this a valid concern? I am only questioning as I have worked with professional documents which have to be dated and signed or they are not valid.

R Ron Giles 01:24

Well, I understand where you're coming from, but get rid of all of those kinds of ideas. I'm

sending it to you because I have the bonds here at my home. And the alliance will re deem those those SK ours. If my signatures not on there, or if there's no date, the Alliance doesn't know or doesn't have a problem with it, because they're not from a legal system of some sort that has all of these parameters that you have to follow. I'm sending out the fkr for my because I have the bonds, and the Alliance says that they will redeem them. And if you have a problem with the idea that the alliance knows everything, then get used to the fact that the alliance is on our site. And we're not having to worry about all that other stuff. will go to the next question.

T

Tracee 02:24

Should I get my own Foundation website to mere level in society info and provide the links to RSS and NRELS websites possibly, or simply use love won society websites to send people to if I understand correctly, RSS may be the only one beneficiaries will need. Initially my directors will help them with the other program signups.

R

Ron Giles 02:46

We're going to have some other training, the QFS 2020 is designed for benefactors. And there's a lot of information in there that will not be necessary for training or other things for directors or other people. So it's simply for Zim benefactors. There will be other things that will happen. And I'm prepared so that we can focus on the RSS platform. And and the directors get a chance to have their own type of training. We have a training academy for directors, as well, as you know, we're hoping that we have chance, chance forget all of the Zim benefactors who there so that they will know what we're telling their directors. We're going to try and be really efficient at this. So not everything is known right now. But in reality, the directors don't need the training that is involved with the QFS 2020. So they're not going to be Jim benefactor. So we don't want them having that kind of understanding or, I mean, it's, it's, if you as a zoom benefactor decide to think that's important for your directors, then you can go ahead and do things that you'd like to do, but I'd rather not have any directors go to QFS 2020. It's not it's not designed for them. So. So we'll go to the next question.

T

Tracee 04:17

Okay, when we all have set aside funds for the Alliance, will there be enough funds left for Earth in the quantum financial system?

R

Ron Giles 04:30

Well, that's kind of a laughable question. And the reason I say that is because I've asked that question. And they kind of giggle yes, there's plenty there. We're not. We're dealing with people like God, who prepare for the future. Well, they're not in time. So we're on a timeline they're not. And so what we are doing what we when we are dealing with the Alliance, there's none of that stuff. We need to concern ourselves with next question.

T Tracee 05:04
Did I pass is everything I've experienced this last year in connection with training? Could I improve somehow?

R Ron Giles 05:12
That's a good question. And only you can answer that my dear. Whoever it is her mister. With put it out there, you will learn as much as you can. The proof will be in how you administer and implement the QSF program in your life has resumed benefactor. So? Those that's an interesting question, why would you ask me? I don't know. Next question.

T Tracee 05:40
Maybe they think you have magic skills that you can read into each person by via their question.

R Ron Giles 05:48
I've got my crystal ball the other day, and I haven't gotten.

T Tracee 05:53
I need one of those two. Okay, next question. What is RSS? What is the training for Okay, clearly this person is brand new.

R Ron Giles 06:04
As I can go to QFS 2020, and start your education program. And you're going to be really excited because all of these kinds of questions will be answered. Revenue sharing dot solution is what RSS stands for. It doesn't have a website yet, but it will be our web platform. Let's go the next question.

T Tracee 06:30
At minute 106. And individual had already received us cares previously and wondered if he or she exceeded the 180. My Lillian should he or she is subtract them out already received. Ron said there is no problem with the number of quintillions. And my Lillian's we have more way more than we need. If that is the case, if we received the 180 and 20. Should we request more?

R Ron Giles 06:56
No, we haven't got to the point where we're requesting more. But you're saying what, what's

going ahead? What went on is that you get to get five and then you do another request and get another five and then they wanted the 100 80 million? Well, I don't I don't care about 10 million. And I get oftentimes get people say our assistant is doing what she feels is best with the information that we have given if there's a mistake of some sort, that she doesn't catch that there's 190 I'm not going to be concerned about it. And I'm letting it out. For those who are angels are counselors. If there's an extra 10, add, don't ask for it. And do another one. So you get more. No, I don't want you to do that. That's that would be inappropriate. But if there's some problems, don't worry about the right people are there to take care of it. And if you have 190, and you ask your counselor, the person who is conducting the interview, talk with him. So I didn't do this. On purpose. I'm not trying to do anything wrong. And so I just they've said that they they would mind if I did the extra. So if you think it's appropriate, then go ahead and you meaning your counselor, if you think it's appropriate, then I would certainly welcome an extra 10 million so and the alliance would love to have you have it. So we're just trying to stay in line with what has been Kevin? Is it a real strong line? Or can you bend a little bit you can bend a little bit? They know who you are, they know everything about you. So let's let's look at it from that point of view. Instead of worrying, Oh, am I gonna get in trouble for this? No. Not only No, but hell no. You're the ones that are going to be carrying the doing the work. And you've got to understand how special you are. You're the one that's called of God to do this. The Alliance's is going to support you in every way that they possibly can. And to trip you up with some little thing like this is not in there. They won't do it. It's not going to help anything. And we want to support and they want to support all of us and get has everything that they need. So they're not going to cause any problems for us unless you're not a humanitarian. And then you're gonna have some disappointment. Next question.

T

Tracee 10:06

Oh, hi, I want to just clarify something really quick. I've received tons of messages and tons of emails. So a lot of people, I guess JotForm didn't send out a confirmation from maybe the 12. And so people are sending me responses and saying, Oh, I already got this, this is extra blah, blah, blah. But the JotForm receipt is not your fkr your S care will come from Ron, from the regular email that you always get your training emails from the job forms just received, there was some sort of glitch in their software, that, uh, I woke up to 1800 emails from them. So I'm sure you guys each got yours, too. So. Yeah, that's it. And then Ron, I have a question for you that was asked of me that I said I would get confirmation, but just wanted to know, so somebody that had submitted and waited there, 48 hours never got the US care. I said, submit again. And now they have to, they have both our 180 and 20. So they have double. And they said, What should I do? I said, well, and you tell me if this is correct, I said you can either shred it, or you can just consider it a blessing.

R

Ron Giles 11:19

Yeah, and I, I think the blessing part is, I would lean towards that. And for some of those who haven't remembered that I made a mathematical error, right. And I'm saying 180. And it should have been 1800 for 30,000 people. So we are well within our parameters. And my suggestion, if there's a problem with it, take it to the the redemption appointment, and talk to your counselor about it and get their feeling for it. Because for me, I don't care. I want you to have as much as you can. And it may be in some time in the future where we open up the SKR. Again, for another round, I don't know yet, I have not been given that permission. And I've not been told that it's not going to happen. I'm just saying it could happen. Because they want us to have all

that we can. It's a matter of the quantum financial system and activating the digital gold server certificate. That is the determining factor for things. So if we're doing that, then we're well within what we're going to do. Now if you don't have bonds to do it, then you don't, but I have the bonds to support all the SK Rs. And to be honest with you, we could do 20 or 30 or 40 times as much as with the bonds that I have than what we're doing. So we're well within things. And let's just see how the future comes. We're gonna get a lot of people who perhaps just come here to get the SKR's, thinking that they're going to redeem them. Okay, how many what percentage of the people are that it might be five or 10, or maybe even 20 to 30%? We don't know. But they won't be used. If they're not humanitarian, they won't be redeemed if they're not a humanitarian. I don't want to give any false possibilities in the future, I wouldn't have said that if I didn't feel like there might be a possibility for that to happen. It's not a promise. Don't don't put words in my mouth, it's not a promise. It's a an idea that I'm just sending that you may have, we may have an opportunity to get another round of SKR for the 120 and and your counselors, the one that will determine things from their perspective or from the Alliance perspective. And so in this particular case, don't shred it, take it with you to the appointment and see what they have to say. And they will be the final because they're the ones that will redeem it or not post go from there. Let's go to the next question.

T

Tracee 14:24

Okay, regarding SKR thank you for that. My question is do I ask for a structured payout for the US care bonds? How do I use this upon redemption? It is my intention to create an account with the bonds for the Alliance's use. I want the money to be available for them ASAP, once redeemed and if you could please answer this question coming from if they have extra Zim already, or if they only have an S kr.

R

Ron Giles 14:56

Okay, in reality, it doesn't matter what Are the other if you're a new person, and in a country that doesn't have a postal system and SKR are the only thing that you have? Well, the SK our program is developing 180 Millennium, that's 300 zeros. Now, that's going to be far more far, far away far more than you can take care of in your entire 100 years. Now, the the vast sum of money that goes into the structured payout is your is like your budget for that next quarter, or next year. And that's multiplied by 100 years. And you put those large amounts in there for 100 years, you've got a lot of funds, who are going to be tied up and unable to be used. And this is why I have now said, with these extra SKR's, you're going to need to talk to your counselor and determine what you what the two of you or whatever you feel is right to put in the structured payout for your your budget for the term that you're going to be using it for. The rest of it goes into the bond or into the account, the Alliance account. Now when I say the Alliance donation account, am I saying that you're just turning over the money to the alliance? Please understand that it is your money. The Alliance will never come in and take your money. If you've done something wrong, they'll just freeze the account. That's not the problem. They will never come and take it because it is your Dominion it is your money, they will not just come and take it. Even if you said I'm this is the only donation? No, it's your money. Okay, what if they don't come over there? And, or whatever? What if you have an idea of a major project that you could do with your funds with those funds? What is the question that you ask? Well, it's your money. What do you want to do with it? Do you need to ask a permission to use your own money? And I say no. You're coming from your heart. That's what humanitarians do. We don't come from our

mind anymore. Ladies and gentlemen, brothers and sisters, whatever, you're a humanitarian called of God to do certain things. And it is your money to do it. And there's your decision to what to do with that money. So the Alliance hasn't come around for five or 10 years, whatever it is. And then you have a project of a new creation of some sort, that you'd like to do a prototype and see if it works really good, and then set up the manufacturing and the distribution. That's what that money is for. You're Not You don't have to wait for the Alliance to do it, you got the funds. If they had the project and came to you, then you would make up your mind that that's what you want. And they'll probably turn it over to you to do it. Unless it had it needed some professional stuff, and then other people, maybe even offworlders, etc, that come and give you and help you with the technologies. If don't put things in a, in a very strict sort of way. Do no harm with your money. Don't do things that are or mean or illegal or stuff like that with it. And from there you get to have your choice of what you want to do. So don't pick yourself up on a third degree, third minor third dimension minds stuff. If your heart involved and you know, don't use your mind very much. Just use your heart for your decisions and you're going to be fine. You will be the finest humanitarian with the results that this counselor is going to give to you that you could ever imagine for yourself. You're getting God to come down and be your your consultant. That's who's representing them. to you that's God's representative given to you to do the work to help you to do the work as a humanitarian all of God given a counselor so that you can do it this is what we have been given Okay, that's enough of that. Oh

T

Tracee 20:20

well this was soft and nice so it's fine I was letting you go

R

Ron Giles 20:27

okay

T

Tracee 20:30

regarding LWS QFS and those humans making their five d ascension does the Alliance support humans ascending into five d to express their free will to manifest whatever project funding they desire instantaneously into their qf s benefactors account? If so, does LWS welcome five d humans into LWS to support projects justly? On their four d positive timeline as a tongue twister.

R

Ron Giles 20:59

Yeah, there's there's a lot of assumptions in their mind assumptions in there. Regarding all the laws Hume is making there. Which ones are not making a five d ascension? Is that my job to a judge that sort of thing? What parameters? What is the list of things that I as a human are going to use to determine whether you're a five d ascension person I'm gonna tell you, it's none of my damn business. It's personal. Damn is probably pretty perhaps incorrect to use, but it's none of my business. If you're, if it is my business, that I would be put in a position of judgment, or judging people. I don't do that. Since I'm not perfect at it, but you know, the guy pulling in front of me, he's gonna get it order to, that's probably a judgment word. And but I am not

perfect. But I'm not going to take upon myself any responsibility to judge people. And what you're asking me to do there as judged. And I'm not going to let the people that want to come in here. And if they are proven to be a worthy of a become a gym, benefactor, then they'll get a letter of the there'll be better than a humanitarian, get the funds from where we go. Other than that, I don't control things that much. So that I let those who have control over it, have the control. And it's appropriate. Next question.

T

Tracee 22:50

Please tell me how to receive Zim. Tell me you take that usually,

R

Ron Giles 22:57

they're down there at a grocery store, and you just go in and in purchasing. You know, let's let's get involved in the program before you worry about that. We have the SKR's. Now, what more do you need to know? And that's notorious. So you're brand new. And I understand that. But those are the kinds of questions that you ask before you really get involved in the program. And we're saying Don't ask questions until you've been around for a while. What do I get to be as in benefactor? It's the same thing. You're been around a little while but you know, realism, benefactor possibly is something that you want to go to. But a lot of new people are here. And there's, there's people who are trying to give you a way to do things. But if you're not going to get involved yourself. And you start asking questions. You're battling the system up when I say that, and I mean that. If you don't take the time to go and get your information for yourself, it is not our responsibility. It is not our responsibility to ask questions like this. You need to go in there and find out qf s 20 twenty.com. Start reading and start listening. Don't ask questions until you have a little bit of an experience with it. Until you get into the nuts and the bolts. Then we welcome all the questions you need to have. But the first thing you do is come where do I get them? That is so frustrating. And you're Usually in our time and our efforts for 30, perhaps 30,000 people that ask you to answer your personal question. Get involved with it.

T

Tracee 25:13

Well, let me just say, a little bit of scolding

R

Ron Giles 25:15

here,

T

Tracee 25:16

let me say something, okay? Because people are promoting the SKR outside of love won society to fund say, med bed centers, okay, that's a big push in those groups. And so then they go, and they subscribe. And we don't say anything about the SPR right away, because we don't. So that's probably why they're wondering. Okay, so that's good.

R

Ron Giles 25:42

That's good reasoning.

T

Tracee 25:43

So they're told, Oh, go over there and you can get an SKR. But if they don't have the link to apply, then they have no idea. But they've been told from the outside, that we're, well, Not we but you are giving it away. You know, so I'm guessing that this is their love Won society's given away that that's the confusion. I feel like it's happening. So perhaps, we need to change the welcome email to answer these questions in advance. What do you think?

R

Ron Giles 26:14

Well, Bob is doing some step by step for people. And he's publishing it on the channel. But they

T

Tracee 26:22

don't get the telegram. They don't get the link right away.

R

Ron Giles 26:26

No, but I'm saying, why don't we take what he's doing and start doing that in the QFS 2020?

T

Tracee 26:33

Perfect. I'll grab it. I'll ask him to send it to me that will be helpful for all of these questions from the rookies.

R

Ron Giles 26:42

Yes. And now, I'm not racist. I'm not taking back anything I've said. You don't have to come in here. Just if you come in here, just to get Jim. So that you can do a med bed. Are you a humanitarian probably are. But you kind of go through the program that love won society's gone. This is a hard program. These are ours them, they will we have the zoom, we have the zoom, and we will share with you. But you've got to come in and start doing stuff her love won society. We're not some other organization. And if you want to do your projects, yes, we have sim available for you. But you've got to get involved with us, please, this is love won society. These are our zoom, and we're doing this for our people. Not to be funding some other project because I know very distinctly that if you're not a humanitarian, you won't be getting anything regardless of the Zim that you have, or regardless of the SKR's. I'll yield to what you've said. Yes, Tracee, that's true. But this is foundational. Gotta go in there and get things done appropriately. That's what I say. That's a question.

T

Tracee 28:06

I believe Ron has expressed that the alliance wishes us to ask for 180,000,020 100 quintillion, I resubmitted for the additional 179. My Lilliam, but was not sure about the Quintilian. Since this is to be donated to the alliance, I really wish to abide by their request. simple yes or no? If yes, this is true. I will resubmit for the 20 of the 100 quintillion.

R

Ron Giles 28:32

Okay, let's let's just I understand what you're asking. I understand the question, but let's just put it this way. They are giving us these these ideas. And you're saying I'm a man, and it's my fault. I've said this is for donations to the alliance. Now as you can look at it, well, I've said a couple of weeks ago, and see what I'm saying now. And the point is, is that we are maturing in this. The Alliance does not need donations. God doesn't need money. We have a quantum financial system that God has set up for us to divine consciousness that has is here to support us in our golden age of mankind. They don't need money. So let's let's quit talking about well, I got to donate this. This is I'm going to put 280 and I'm going to donate that to the alliance. Now. You are going to take all the SKR and the Zim bonds that you have, you'll go into the appointment to redeem them. That's when you have a chance to talk to your counselor and determine what that money is supposed to go to because you don't know Do I really understand I only the only thing I understand about this SKR program, it is designed to activate digital gold certificates in the quantum financial system, it also is going to give you one hell of a lot of money to do your humanitarian work. The differences is how much you put into the structured payout and how much you just don't put into the that account. That's why you have a counselor. And I'm I'm really starting to talk about that. I defer those kinds of questions and those kinds of answers to your counselor. And then it's going to be really good, because they know what they're talking about.

T

Tracee 30:48

After we donate the requested amount of currency from our donation account that the alliance may request, at what point is our responsibility towards that currency end? Will the Alliance take over full authority and stewardship, including all accounting needs and records management and reviews for that currency?

R

Ron Giles 31:07

We've already discussed that earlier. So that's a redundant question. It's not a problem. But it is a good question. And we've discussed it already. So it's your money. Third, they will take me away from it.

T

Tracee 31:22

Okay, after having listened to your SKR, Telegram chat of July 12, I have a question about the SKR's that no one has asked as of yet, I've accumulated what I call a large number of large,

valued Zims. And I have acquired your most generous offer of one at millillion Zims. Through your one and done program, while there is talking about donating all of the 180 Millions and bonds to the lions for their use, I thought it might be more appropriate to donate half of all that I have, which includes the money that I've been purchased and your generous donations to the lions for the use. I thought I was asking for a lot of money before all of this large field push came about. But now looking back, my old request was now a very small amount. Indeed, of course, I will talk about this, my counselor about this. If and when the time comes, what are your thoughts? You've kind of

R

Ron Giles 32:17

you're a counselor. Yeah, your counselors gonna take priority over everything that I talked about? Because it's a personal thing. And I'm talking to everybody. And so what I'd like you to look at, you know, half do I do I donate half of what I've got, or all of it or no, we're activating digital gold certificates in the quantum financial system for a purpose that we don't really understand. Those funds are some of the most sacred things that have been presented to us. It is brand new money, it doesn't it has not had, it's not dirty. It is clean. It is a love offering. We're going to be using that love offering to help with the commerce of Galactics and other places. So we don't know anything about money is not we're calling that money, but I'm calling that love energy. We're using love energy for an exchange of things that we're doing in commerce. This has never happened before. It's not money. It's a love energy. And that love energy is being used for an exchange. Instead of bartering. There's there's a whole lot of philosophy and understanding that is needs to come around. Because we are using our third dimension minds and our third dimension belief systems. And we really are we're introducing a brand new idea for the use of what we call money. It's a love offering. The money in the quantum financial system is pure love energy. It has never been distorted. And the alliance is going to keep it that way. So it's not my job, it's their job to make your job. I think maybe those people who would violate those kinds of things that won't be in our myths. Maybe it will be purified to the point where those kinds of people aren't going to be around. That's what I think. So things are going to be changing. And it's time for us to understand that this is pure love energy that's coming from God. And we're using it and we're calling it money but it is pure love energy. Okay, I've said that no, I was gonna say it before, but I was confounded time factor. Let's go ahead and go on to the next one

T

Tracee 35:08

is your one and done program over like completed finished for the 180 millilion zim bonds? Or can I again submitted JotForm on a daily basis to receive additional bonds for my work?

R

Ron Giles 35:24

We discussed that a little bit earlier, and I hope you've listened to the data. We may come up with some opportunities, it may be more than 160 or 100. Underneath 18 180 was my I couldn't see it. So let's see what happens. Let's see what happens. Because there's no limits to us. The bond so we have create a new virtual limitless amount for us to use for SKR. Okay, next question.

T

Tracee 36:09

Um, I'm sick of health, I'm guessing ill of health. And I can't go to the appointment. Can I ask a consultant to come here to me? Well, I already get an advance on the day of the RV. And will I be joined by a consultant for my humanitarian project?

R

Ron Giles 36:28

Well, well, what you're looking at now, if you are ill health, you'll help with a set of help. The point that I'm trying to say is now what is happening now is going to be changing. You've heard of the light blast, that is coming. That's going to change us. Now before that, you're sick after that you're healed? So which way do you want to plan for the future? I'm trusting in God, I'm trusting in the things that I have heard, I'm trusting that things that I have got confirmation. And I'm moving forward with that. I'm not taking my sickness, I have diabetes, I have a disease in my ankle, and I have to wear a brace. I'm not taking that with me and the newness of this what's happening. So I'm not dragging all of the old garbage into the new. And I want you to see that that's what you're doing. And then you're concerned about not being able to get around, well, things are changing. So you're going to be able to get around, you're going to be able to go to the appointment. That's the way I believe. And that's the way that I'm creating for myself, I do not look at myself as a wounded person. My body has some problems, but I'm getting over those. So I'm not taking it with me, I'm creating my reality of what I want. And I'd like you to do the same thing. We're having a lot of flexibility with our counselors. I don't know how they're going to contact us, I don't know if we go to a bank, or if we get with others, some other locations for whatever, they're going to have the best place for us to redeem and have the greatest opportunity in our lives. So let's allow that to be true for you. And let's not pull all of this other garbage what ifs and project ourselves now into the future and say, How am I going to do that? Well, you cannot go and do that the way they keep going in recreating that for the future. So there are things for you to do. And you can do that. And you can be healthy and strong for that appointment. Just trust the past what's gonna happen and then allow it to be true and planned for next question.

T

Tracee 39:11

Do I need to know who my counselor is when I step into my redemption appointment? Or will I find out for sure when I'm there? Praying and getting more pain and getting more than one counselor? Is that possible?

R

Ron Giles 39:25

No, you're not gonna get more than one counselor. That's a representative God just designed specifically for you won't need not know. And I'm saying before, there are those who do know who their counselors going to be. And if your heart is actively involved in your life, to the point where you can hear those kinds of things, and there you go. You may know otherwise, I see your person and I can't tell for everybody. I can't tell for you on a personal basis, what's going to happen? Everybody else? I don't know. This go on to the next question.

T Tracee 40:08

Are bonds set up automatically within the RSS and ECS? Programs? Or is this done manually by the directors?

R Ron Giles 40:21

Are you talking about security bonds? I'm assuming that to be true. That's what you're talking about. Yeah, has to be set up by the Zim benefactor, bonding all of the activities that they do. And for me, I'm bonding everything that I do. If I sign a contract with somebody, there's an assurance bond that that will be issued with that, so that they can believe that I will fulfill any financial obligations I have to that contract. So you just do that what you feel is right. That's the way I'm gonna be doing it. Next question.

T Tracee 41:06

In the 712 training, you mentioned how the farmers are practically forced into bankruptcy in the 70s. I was chatting with Tracee about this telling her I barely remember this. My dad, granddaddy, Uncle cousins drove their tractors and trucks to Washington to protest. We were cotton farmers. So I've inherited land and rent my land to a cotton farmer, can you touch on this and explain what you know, on why this occurred? I assume it was cabal driven?

R Ron Giles 41:33

Well, there's a lot of things involved. And it's not a question and answer. There's there's stuff involved in that Thisara, just Saara, it's called on NESARA document and the in the first menu that talks about GESARA NESARA. Read through that and get an idea on things yourself. And I think it was it's very thorough, I like the what this lady has done. So I refer you to that. And you'll get a lot of inside information. That's under a gag order, perhaps for what's going on right now, especially for the introduction of Massara. Let's go to the next question.

T Tracee 42:22

I think I have I heard correctly, that the farmers claims are supposed to be paid first.

R Ron Giles 42:29

Is that true? Yes. Okay, but seeing that those are the kinds of things that happened. So long ago, what, maybe 40 years ago? I don't know, I don't remember 30 years ago. But it culminated 20 years ago, and 2000 year 2000. So but the information about it is basic and foundational to the experience. So go and read it and then you kind of get a better feel for what's going on or what has taken place. Next question, please,

T Tracee 43:07

T Tracee 43:07

the more detailed explanation as to exactly how this process will work, ie we will ask for 500,000 per one zoom, or we will somehow be allowed at exchange should be credited with more Zim to be used for our humanitarian projects.

R Ron Giles 43:24

Well, it's credited the SKR, it's not going to happen to everybody. And as Kr s is our bond, a love Won societies bonds. And we're sharing them with others without having to mail it to him. So you're going to go through the redemption appointment. This is the one I'm asking for, this is what I have. And then your counselor will start talking to you and tell you what rates and all that sort of thing are approved. There you go. Beyond me to know what's going on everywhere. Next question.

T Tracee 44:10

I just want to add to that it's beyond you to know what's going on. But it's going to be bigger than we can ever even imagine. It's going to be more than enough. Yeah, that's at least what I feel. I was listening to a q&a and heard someone talking about going into the projects room to discuss the upcoming chat for the new managing directors. Where do I go to find that or get in on any of the Friday charts for managing director?

R Ron Giles 44:35

Yeah, I'm not familiar with that. Are you Tracee?

T Tracee 44:38

So on Fridays, I don't know the time because I don't get involved. But on Fridays, they have a meeting in the projects only room and it is listed on the important links document. So go refer to that join the room and then you can get in on the chat. And you can listen to the ones that they've had before.

R Ron Giles 44:59

I think It gets to kind of early on a Sunday, early afternoon on Eastern time, but yeah, it's okay. You are no more than that.

T Tracee 45:14

Okay, next question. Okay. On your questions on topics to discuss, I would like to know more about what technologies you may know about, because the last talk I got to talk to you a couple of weeks ago is telling you and everyone about my thoughts on buying all these big corporations out of the food business, and making hemp buildings to store all the good food,

and animals, and or just going and buying out all of these cabal companies that we may be able to use their goods. Because if we have tech that can get better rid of the old stuff, or if we will be able to manifest things instead, and don't need to worry about these things than I want to focus on getting the RSS out and going. I don't, I know it will explode on its own. You're asking

R

Ron Giles 46:04

for future stuff. And training to plan for it. And you know, to an extent we can plan because we have a certain amount of knowledge, but to the certain amount of knowledge, the extent of the certain amount of noise, then we can do some planning. Beyond that, we just have to kind of wait and see there, you don't turn your car until you get to the current turn in the road. And so those are the kinds of reactions that are unnecessary in the future. And as humanitarian, you have a lot of funds to do the things that are unnecessary that you'd like to do. So those are things that just let it go. If you want to, you might have find out that tamp doesn't do well in storage in buildings, I don't know. But there's just allowed things to go into the future. Understand that the cabal, controlled corporations may or may not exist afterwards, all of their assets, maybe there, maybe we'll be able to buy them up. I don't know. Do you know? Those are the kinds of questions that you need to ask yourself? Do I know what's really going to happen? Yes, I suppose it's going to happen. But do you really know? And if you do, then why are you asking your questions? And you're asking questions that? I don't know. I don't know about it. So I hope that helps. Next question,

T

Tracee 47:35

are we looking at potential front loading each account with one month accumulation, unless we have pre loaded debit cards to give out and then have the RSS system clock starts the accumulation in the queue of us, we're not any immediate, much needed help, it is a startup problem, we will have to address.

R

Ron Giles 47:56

It's a setup problem that is a call it problematic. If it's problematic, the alliance has already worked on it. And there's a solution to the problem that, but we won't know about it, we're at war. And the Alliance doesn't tell us a whole lot of stuff yet. Because we have no need to know it yet. So we're only just speculating. But the fact is, is that all of these things have been taken care of. That's what the alliance has been doing. And by the way, as soon as soon as we learn how to come from our heart, there's a better chance that the the redemption appointment can come. Period. If there's enough of us that are coming from our heart, there's no reason to wait. But if there's, I mean, we got what 1516 to 17. I don't know how many 1000. People want to be Zim benefactors. When we started, you know, a last year, how many of us would be involved? There is wisdom and what's happening. The timing is important. And if we're not ready for it, then they will let us have it. If all of the Zoom benefactors are not there, then it's a possibility that they'll wait until they are. I don't know. It'll all be just perfect. So let's just allow the Alliance to do the things that they need to do and we'll be in really good shape. Let's go on to the next question.

T

Tracee 49:33

Okie dokie? How close are we to be able to help the survivors of this world that has gone so low and so dark,

R

Ron Giles 49:43

interesting judgment that you're projecting there? How do you know that nothing is being done? And so low and so dark and then you're assuming that they will still be there when the golden age of mankind comes and I'm saying So why are you worried about that, that's the job of the Alliance to clean up the earth so that we can have our golden age. There are things that we can't do, that's part of it. And see, those are the kinds of thoughts and ideas you're recreating for our future. I see things taking, I think, I see things already cleaned up. I see the newness of what we're going into, or there's none of those kinds of people around anyway. So I don't, that's just me, and I'm trying to tell people, you create your own reality, by the things you focus on, and look what you're focusing on. That's what you're creating, for yourself in your own reality. You know, I say, God, I've got my reality, but it's not going to be the same as gone. Those people who are low and dark, it doesn't include them. God has a place for that sort of thing. It's free agency. But I have a free agency to create my reality on my own. And I'm not going to be participating in that kind of nothing in that kind of way will be part of my reality. I'm going into the golden age of mankind. I'm working on the ascension process. I don't see that. What you've said there as part of that process. Next question.

T

Tracee 51:47

With all of the anticipation, I cannot help but wonder how we will be contacted for the appointment. I know, Ron, that you said you don't know the answer, either. So would it be helpful if you or the Alliance have my telephone number? I just would not ever want to miss out on such an amazing opportunity. I trust that God knows what it would. But would it help if you also have my phone number?

R

Ron Giles 52:12

No. So why do you think that I would be helpful having your phone number? Just like you are? Yes, I can get into confirmation on things that if it doesn't come to me, I don't know about it. So if if God doesn't know your own phone number, your phone number this specific for you? What God Is that doesn't know everything? Is on the present. Well as all those on these I don't know how to determine those sorts of things. But the answer is no. Phone numbers have nothing to do with spreading it out so that God can get a hold of you for the early dentist appointment. That's That's my reality. Next question.

T

Tracee 53:01

Do we pay taxes on the money we receive?

R Ron Giles 53:06
No, it was there's no taxes. So you got sales tax? And that's yeah, period. Exclamation point.

T Tracee 53:13
How soon after the RV? Can we buy land before it is bought

R Ron Giles 53:17
up? Well, you're gonna be the one buying it up. Are you? Is that what you're saying? And you're not, you're afraid you're not gonna get enough? You have no idea of how much land there is. Just because we have money doesn't mean that we have an inside track on everything. Certainly 1000 people have more money than anything that's ever been on the earth. What do you think they're going to do with their money? I don't know the answer to that question. Next question.

T Tracee 53:54
Where do we get a trust name?

R Ron Giles 53:58
I think they're in the Yellow Pages. I look up trusts and see if there's a column of trust. Is there a place where it says names?

T Tracee 54:12
You can just make up your own trust name. You don't have to get it somewhere. Just make it up your trust, you get to choose what you want.

R Ron Giles 54:22
Press one, there you go. There's one.

T Tracee 54:26
Yeah, and keep it private. Don't put your personal name and your trust, because then it's easy to research and find it. So just come up with a private name that doesn't involve your actual name. Okay,

R

Ron Giles 54:39

yeah. And then you got the beneficiary trusts and you can trust 12345 Or six and, or you can have your children's name, or what you're trying to ask us a question. I don't know which one is the difference between the six beneficiary trusts and what other trusts are you're trying to accomplish with.

T

Tracee 55:02

Yeah, that's true. I was thinking it was the overarching. Let me add to this without trust. Okay, so I follow David straight. And I know Ron has already confirmed that he's good of the light. And I just filed something called the Law familia God trust, it's a private trust. So you don't have to record it, you just record proof of trust so that we keep it private. And then if you're part of his website, he gives you like a, like all these templates that you can use, so it's super easy to follow and create. And you just record the proof of trust as well as the acceptance of trustee ship. And essentially, in this particular trust, it's like the top of your your umbrella protection. God is the grantor and you are the trustee, I believe and the beneficiaries are your heirs, and you put everything in there and then you can put another private trust underneath that. That is actually called the one I'm doing is called a this is the way you keep it out of the curveballs hands, it's called a pure trust. So you put that underneath the god trust and then you are the grantor not God. Basically, you're giving your assets. So anyways, you guys, I just really recommend David straight's teaching. And yeah, maybe Ron and I will figure out a way to get you more info if if you want it. But it won't be like, Don't email me, please. Anyway,

R

Ron Giles 56:46

yeah, don't email. Okay, next question.

T

Tracee 56:50

How do I get involved in the live Q and A?

R

Ron Giles 56:56

Between the q&a, the trust Tracee and I do is just on our zoom call, there's nobody else involved. It's the telegram channel, then. There's ways to get involved in that. And if you're not on Telegram, then you won't hear about it. But if you're on telegram and our channel, private channel, then you'll be able to get all the information you need. Is that true?

T

Tracee 57:25

Yes. And I'm going to be sending out the important links document again today. I just wanted to ask you a few things before I sent that out. So yeah, it's telegram Tuesdays at 1130. Pacific on 312 31. Three, so 230. Eastern. Okay, I have not received any training, I joined LWS and sent in a job form for an SKR for 250. Chisholm and one 100 diesem, I received the SKR for the Zim

bonds, I was now just able to purchase to millillion in bonds and would like to register them, they will be here before the RV, I hope. I think this person is clearly confused, because I don't know how they would send it as KR for trillions of them. But

R

Ron Giles 58:18

yeah, I would, I would say to these people get involved with the training, you're not going to get the training sent to you, you're going to go seek out the training at qfs2020.com. The emails that you have signed up for, will start you with almost a year ago, when we first started the the videos that we've done, we've done over 100 now and you're gonna get one of those every week, every day, until you get all 100 outcome. Now that's just automatic, you sign up, and that's where it starts. And then we have the the we're gonna make some adjustments to that the automation because we don't need to go back that far. Because new people coming up now and they, they, whatever, we'll work on all those things out. But obviously you have just started, but you're not going to get training from us. Except for qfs2020.com. When I say us love Won society, you are the one that has to train yourself. Everything's there for you to do that. You're no different than anybody else. We have no time. We very seldom do I don't have eight to 10 hours a day. And yet I still have my problems on a personal basis. We don't have the means to do what you are wanting us to do by giving you everything and then you just sit there and swallow it. No, you're gonna have to search it out. Because it's there. So that's what I'm saying. And by the question we know that you haven't really looked looked at what the JotForm is the SKR.

T

Tracee 1:00:15

And I think that remember, we have a lot of people from different countries, I would say that the SKR requests, over half of them are from other countries. So I think that perhaps things also get lost. So anyway, I'm going to send out a clarifying email today. So hopefully people will get caught up to speed. Regarding the recent as care information request form, I have read all the updated emails regarding this that I'm being nudged to ask this question. If Zim benefactors can request up to the amounts noted on the form and can choose to donate a large portion of those funds back to the Alliance for use in the qf s throughout the galaxies, then why doesn't the Alliance simply use those sovereign funds in the first place for that purpose? Why do we have to request them first to give them back to them? Does it have something to do with the gold certificates need to be activated here on earth against those funds?

R

Ron Giles 1:01:07

Yes. You've got to understand that the alliance has to has universal laws that they cannot disobey. And they won't, period. And part of that is on third dimension, people have free agency, they have to do things because they have a choice to do things. And when they when we want to give something to them. We we go in and we get the redemption. Is that from the alliance is that just part of the process of the quantum financial system? We give it to we give the responsibility or the decision making to the alliance. That's a big thing. The Ascended Masters, benevolent ET's and boots on the ground. I'm usually referring to them as the Ascended Masters of the spiritual hierarchy that's in charge of it all. But they have to follow those laws. And those laws don't allow them to do the things that you're thinking that they can

do. Period is universal laws, and they won't break them. So they're getting us involved. Why can't the Alliance take care of all the stuff that they're asking us humanitarians to do? There's laws associated with it. And those laws mean that we get a chance to use our free agency and give our service to mankind. And so don't just assume that the alliance can come and do anything they they want, they will not do that. They will not do that. They'll get us to do things by through the inspiration and the spirits that direction or a guide for us. That's the only thing that they can do for us. Not the only thing that changes things. So I hope that helps. Next question

T

Tracee 1:03:31

Remar isn't money a human construct? Haven't humans given money? It's perceived value? Because we have made money in exchange of value for goods and services in our world?

R

Ron Giles 1:03:43

Yes, that's true.

T

Tracee 1:03:45

How is it that other advanced societies and other galaxies would have a need for money via our donation to the Alliance are we moving in to a collective consciousness to a society where goods and services are provided in exchange for other goods and services? I struggle to accept that in 100 years and beyond or even 20 years humanity will still be using a cabal created exchange such as money. I welcome any shift in percent perception on this.

R

Ron Giles 1:04:13

Well, I think that you're right, it has to do with the the new golden age of mankind has to do with the quantum financial system. So I'd mentioned this a little bit earlier. About that's pure love energy to created by love for us to use love as a medium of exchange. We call it money. They haven't look at it as an exchange of love energy. So we give love energy for the things that we want and in return. They produce things that they would like to get love energy for. And that's that's the reality of what's going on. People say we're not going to use money in the future. Is there ever not an exchange of Blood that we do, we're just getting the the reality of a different way of doing things so that it conforms to the concepts of love as energy. And we're going to use it for our purposes. And it will be the greatest thing that we could ever imagine in our lives. The cabal is not part of it, we're not pulling any of the Cabal garbage into the future. But you need to understand some of these higher laws, or else you might get confused. This is a new concept for me too. And I didn't realize it, we're using pure love energy as money. It was created out of love. Put into the quantum financial system so that we could use it. And that that's what's going throughout the whole of the entirety of creation, wherever there is a human. Rest with that for a while.

T

Tracee 1:06:14

So let's go to the next question. And our new teacher, I was listening to a video he did a couple months ago. And he said that this is a stepping stone. And we're not going to be able to just snap and go from black to white, we're going to have to really work our way to you know, the next phase or whatever. But yeah, this is a perfect stepping stone. So Okay, last question. How do we go about getting an employment? Also, can I have more than one project?

R

Ron Giles 1:06:53

You're they're not funding your projects, my dear whoever it is, you're not funding, they're not funding a project. A project can be completed, what are you going to do with the rest of the money? How do we get an appointment? If you're a humanitarian, if you are a humanitarian, the alliance will already have you, as a counselor, and so forth. And then they will tell you when I don't know how that's going to happen. But you don't get an appointment. You don't do anything to get an appointment. You are contacted to get an appointment because the Alliance wants you to go to work for him. That's it different ideas. And they're contacting us that we can have the job. And they're going to give us our funds, and they're going to give us this are going to give us a counselor to help us and did that today. But if you do not have a calling of God to receive the funds. That means your humanitarian if you do not have a calling of God to receive the funds to become a humanitarian. You won't get the funds. It's just that simple. Not all humanitarians are going to get the funds. There are only a certain few. Wait, wait, wait, wait, wait, that's all.

T

Tracee 1:08:31

What do you mean not all humanitarians are going to get the funds.

R

Ron Giles 1:08:35

There are humanitarians who have a heart for things, but they don't have they won't be called upon to get the funds. We're looking for humanitarians as you met as Zim benefactors will be looking for humanitarians to help us with our work. So not all of them have the money. Got it, they won't be getting at the end of the beginning. But we're going to be finding those humanitarians to do the work. And that's for the purity of things happen. That's the boots on the ground that are going to take place only a special few specialist poor word to use. Only a certain number of people will have had that calling from God to receive the funds. And nothing nobody else will get them. They'll get to use the funds as distributed through our different programs. And to get involved with some of the activities that we're we're gonna do as benefactors and humanitarian will. They're all be there but there's only a certain few that will get the funds. And I hope that isn't offensive to somebody. I hope it isn't. Because it's the reality of what's happening. We're just lucky to be involved. Tom what Stan, I guess we're caught up

T

Tracee 1:10:03

that we are caught up

R Ron Giles 1:10:08

Yeah, well it's been a good time so a little bit longer than we normally go but hopefully it was well worth it and love and appreciate all of you for becoming part of us and and hope that we're satisfying your needs doing the best we can. With that, I guess let's say goodbye

T Tracee 1:10:32

bye bye
