## SPEAKERS

Ron Giles, Tracee

---

**R** Ron Giles 00:00

Hello humanitarians. This is Ron Giles. I'm here with Tracee and we're going to do a q&a today. Today is actually July 22 2022. So we got the date right this time. Let's go ahead and start with question number one.

**T** Tracee 00:20

I am intrigued as to how Ron came in contact with the Alliance to start love won society, I presume they approached you first, how did it come about?

**R** Ron Giles 00:30

That's a really good question. When I started doing love won society, I was preparing for my own humanitarian projects. And a lot of the presumption was that this is not for other people. This is just for me, I had a friend tell me, you know, you want to start publicists and see if people have an interest in, in coming with level in society. And you can share, it's a platform, it's an internet platform, so you can share it. And and then, with that thought in mind, there were a lot of people started liking it. So we just improved it and improved it. And then I kind of sense to some extent, what was happening. And I began talking to my guides, I had done it for 30 years, and but I didn't know that they wanted all of this stuff done. So I started talking to them and getting confirmation and over a period of time and start getting confirmation on the the posts that I was doing. And from then it just developed into a very personal relationship. So that's how it all began. Did they contact me? First? No, I was not aware of it. But obviously they did. And then it just took me a time to catch up to where they were. So I hope that helps. Next question.

**T** Tracee 02:00

How will I be contacted?

R

Ron Giles 02:04

You will be contacted by the Alliance. I don't know how you're going to be contacted. It's very personal for every person. Some are out in the middle of nowhere, and some are in a huge complex a large cities. I don't know how it's going to take place. It'll be safe, secure, and you'll know exactly who it is it's calling you or contacting you, whatever we're gonna do it. Next question.

T

Tracee 02:33

Is it possible unnecessary to order another zoom certificate, I already have 20 plus one ad.

R

Ron Giles 02:44

That's what it is. For now. There's a possibility we'll do a second round of them. The alliance would like us to do that. We just have to get this first one done and then we'll start working on things as best we can. We still have time, as far as the redemption appointments are concerned. So but I think we've really solved the problem that people have that they buy them, gonna take two or three months for it to get it here. You just take your receipt from the seller for TV or wherever or from Australia, then you get a chance to buy the the large face valued Zim. And as long as you have the receipt, you can use that as an SKR and the Alliance will redeem using that receipt that you got from the seller before the bonds come so if they come before the redemption appointment, everything's fine. If not, then you've got the receipt that you can use for the same thing. There'll be just like the SK Rs. Hope that helps. Next question,

T

Tracee 04:00

as I have other projects where I'm focused on related to med beds, and that will need a lot of money. can I enroll in RSS only a few people for example, enrolling employees and people in need of help. But being me the one who signs up and how can RSS be implemented in Portugal?

R

Ron Giles 04:22

I'm trying to understand the question. Yes, you will need a lot of money for med beds. But do you think med beds? The entire world economy is somewhere between 80 and 120 trillion a year? Where can a 1.25 quintillion quintillion not trillion? quintillion trillion is three than quad, then fi quad is foreign and quintillion is fine. That's the progression you're getting. Six more zeros worth of money in a quintillion. Now You're not going to get overspend, you cannot, it's just almost impossible for you to overspend that much money. And yet, we're getting all kinds of money doing the, you didn't mention here in this question about the SKR's. Well as SKR is 120 million, that you can get as an SKR, and each one of those millennia and has 3 million zeros behind it. Now, I'm my masking you, why have you not thought it appropriate for you to get the SKR's for these high rates, and you'll have plenty of money to put in an account, it's

your money, it'll just be an account that you can use it for other projects. If you got 180, and you have a descender rate, like a million or whatever, you'll have so much more money than you could ever imagine. And a lot of that money can be put in that account and eventually may be used over a period of time over the next 100 years, in addition to what you get from the structured payout payout system. So maybe I'm kind of chasing you around a little bit here with some ideas and but you're not preparing yourself, in my opinion, you're not preparing yourself if you just skip the SKR program. And why you would do that I can't tell you. Now, the RSS implementation in Portugal is just no different than anywhere else. It's a platform, it's on the internet. You just reintroduce people to it have people share. And they use their their personal ID and their name. And that's the referral personal ID and Name that they go and register. Not no different than anywhere else. Next question.

T

Tracee 07:07

Can you share with us how you protect yourself and how you only receive messages directly from source? Maybe tell us what we need to do?

R

Ron Giles 07:16

There is a fear associated with what you just said. How do I know? There's been so many times that we're being the I don't go to the fear. The hardest fear that we will ever overcome is a fear of death. And I have no fear of death comes it comes yay. You changed in the twinkling of an eye your your you know all of the problems you've had go away because you don't take them with you through the death passage. Okay, so you've got some fears about it. I don't have any fears about the Alliance, or anybody else getting into my channel. Okay, there's a lot of things that other people that channel and so forth do to protect themselves. I don't fear that. So I'm not creating it in my mind. I'm not creating the reality that somebody can come into my channel. I've asked for protection. And they said yes. And from then on, why would I go back against that? And rather more, I wonder if I'm gonna get in trouble. No, I've got protection. Well, I've had things that have protected me all my life. So I shouldn't be dead. But I'm not airplane accidents, all that kind of stuff. I'm here. So I have no reason to be concerned about anything else. I'm not sure how they help you except eliminate fear out of your life. Don't focus on things that you have no control over. Don't focus on things that are that could happen to you. If you think it could happen to you, then it could happen to if you just eliminate that thought process out of your life, then that thought process is not going to create some problems for you. That is the creation process right there. That which you focus on is what you will manifest in your life. If you're focusing on those kinds of problems, you're going to have some problems. And see now you you've co focused on it with this and asked me this question and I'm not trying to get at you. I'm just trying to see how help you to see how we focus on things that we don't want in our lives. And when it comes to che i didn't focus on that I didn't want that I didn't create Yes you did. There's nobody else creating stuff for you. As people kind of trying to the heavens are trying to give us guidance and so forth, but you create what you want. And if you don't want it, don't focus on it. That is a creation process. No. I suppose that's the best thing to say I, other than that I I just don't have any fear. So it never happens to me. Next question.

T

Tracee 10:33

Can I add to that, so there's a great book that will put what Ron saying into a into a really understandable perspective, it's the complete works by Florence Shinn, it is an amazing book, it was written about 100 years ago. And it's just a great book, but it's the game of life and how to play it. And she talks about how we create our own reality, she was like a, I want to say like a counselor that people in her community came to go see. And it's just a really fun read. So the other thing I will say to this is that one of my teachers taught me that in the morning, you ground yourself by visualizing a red cord coming out of your feet, or your tailbone, and when to ground you. And then you just visualize taking your hands from your feet up over your head, and like creating like a bubble around you a protection. And we did some exercises with this to show that you can't get into people's field, when you visualize and use your hands and make this little sounds up, up and you put up your little wall of protection. And that is something that helps. When also those command well.

R

Ron Giles 11:53

There's go to your heart, your heart will help you to remember or to think about and and do these kinds of things. Your heart is your if you if you're we're taught by the Cabal to do everything with our mind, they don't like us getting into a heart because they know if we do, then they can't control us. The heart doesn't have any fear the mind does. So if you're thinking with your mind, you're gonna have fear about things. If you're thinking with your heart, no, that's kind of a silly question. You know, my heart is just sitting there beating. Now, that's not the heart that I'm talking about. It's the heart, it's the center of my soul, and the center of this body, it has the ability to make decisions and help you to make the decisions, the mind is to fulfill those things. But your mind is taken over your body and they don't. The Cabal types of people have trained us to do that. And they don't want us using our mind, excuse me, our hearts to make decisions. So guess why we don't we've been trained the wrong way, and we have to change. So eliminate fear from your life. That's the best way that I can say, I give it to God, here's a fear that I don't want this, I don't. And I have done that enough. So it's just a natural thing. And I have that relationship with my spiritual structure hierarchy wherever you want. That is working with me. And it's it's so real i There's nothing fake about it. So I say there are plenty of these kinds of things that Tracee was talking about. Find your heart involved in the decision of what you want to do. And don't settle for anything less, you're a child of God, you're entitled to these things. The Cabal has no entitlement to you at all. They've just taken over your lives, our lives. So let's get rid of them. Don't have any fear. There's nothing they can do to me. And so that's the way I live my life. Is it perfect? No, I still have third dimensional issues. I drive down the street and I get upset when somebody pulls over I have to slam on the brakes. Well, that's just part of third dimension, okay. And it's frustrating because you have to put up with that kind of stuff in third dimension, but you can focus on other things. And that was is helping you to come into a greater propensity towards the ascension process. And I've talked about this before, so let's not go into too much right now in the question and answer session please.

T

Tracee 14:57

Where do I begin? Do I start at the beginning? LWS or jump in, I've been jumping for a while now. And I resonate deeply with the cause.

R

Ron Giles 15:07

Well, where do I begin, I say to people go in and read the QFS 2020, read the documents, listen to the videos, the training there under the the menu heading of training videos, the documents are in the other things, bus or heartwrenching, has been reorganizing that. So it's going to be a lot easier for you to get into it and really understand all about the RSS because we have videos about the RSS, but they're over there and over there, and she's put them all together. So it's going to be a very, very effective change that will help people to, to focus on one thing at a time and get all that we have for that and then move on to the CAC and then the real estate and so on. So we're trying to fine tune things, we're working hard to get it to where we feel more comfortable with it, I've got to go through the documents and purge out some of the things it's a little difficult for me because I have to take a PDF and do the PDF part of it and then make the changes and then save it again as a PDF. And that's when and then put it back in on the website. So for me, I'm just not tech minded. And so it's a little bit more difficult. But we're gonna get there, we're gonna get there, because this is our passion. And this is what we're about. So thank you, Tracee, for all you do. Wonderful job. She does things in a day that takes me a month to do. So we'll go on with the next question, please.

T

Tracee 16:50

I want to help with the RSS. But I would also like to bring wellness centers to South Carolina and support emergency care for the hospitals. Can I help with more than one project?

R

Ron Giles 17:01

Oh, yeah, you could do whatever you want your money. And keep in mind that wellness centers and so forth, when the med beds come out, or the med beds, technology comes out, then it will change things. And after you're finished, after they go through that, then they're going to be healthy, and they don't need those sorts of things. So the med beds, once they get to everybody in the world, then then the clinics and so forth might not be such a viable place for us, it will see that there are things that we can do that might be a better service to mankind, so, but it's a transition. And so let's just do it right now. What we feel our heart is telling us keep in mind that there is that blast that's coming. And that blast will help those who have the heart for it to to heal their bodies. And there's there's a lot of technology that will be coming along with it and use so that we can get out. eliminate some of the problem, all of the problems, from my understanding. So I'm looking for that the med beds are really good. But I'd like everybody to happen at the same time. And that's what I'm sensing is going to happen with estimate that technology may come first. I don't know. We don't eliminate things we just include until there's no reason to include them anymore. Next question,

T

Tracee 18:30

would it be acceptable and prudent to use some of my Zim holdings to add to the same donation account for the Alliance? Or is the SRK amount sufficient given that up to 30,000? benefactors would be donating?

R

Ron Giles 19:16

 Ron Giles 10:40

That those are good questions. And yeah, you're giving me your power. And I'd like you to think about that. I do say it's acceptable and prudent to use some of the Zim holdings. Now, to add to some of the donations, you're going to have three sources to two, maybe three sources, you're going to have the bonds that you've already bought. Then you're going to get some SKR bonds or the use of them but you won't get them you'll just use the SKR's to redeem. And if you have purchased some of these larger bonds with the intent to help the Alliance activate the quantum digital gold certificates in the quantum financial system. You can buy some of these bonds I just bought 100 100 Your Lilian maybe I shouldn't have said that but I did. A little cost me a little over \$100 And it came from China, which I promised I would never do, but I inquired about it says fine. But it's going to take you six to eight weeks, maybe longer for them that they're saying maybe into September before I get them, I have a receipt that I spent the money. And this is the order, that receipt came to me from from eBay, which is your whole system. So I put that away in my stuff that I'm taking into the appointment. If those bonds are not here, by the time I go to the redemption appointment, I will take that receipt, and they will redeem what I have purchased. Isn't that fun? So there's three possibilities. So if you were to say, if we're gonna get the redemption before September, then I'm not going to buy them. But if you buy them and as redeemed them with the idea that that's just activating more digital gold certificates in the quantum financial system. That's what the alliance is wanting us to do, then we have the money associated with those redemption funds. That's our money. It's not the Alliance, we're not donating it to the alliance, we're donating it to our account and our intentions is the alliance can use it. If they like to, they'll contact you, they don't just come in and take it. That's against all universal law. They won't do that. So you're safe and secure. It's your money, it's in your account, use it. And if you find a big project that you'd like to fund, that'll cost 2 trillion zoo or quantities or Octarians, or whatever funds, it's your money to use to do that. And your heart will help you to know the right thing to do. You also have a counselor that's given to us by God so that we get the right ideas. And we get the right counsel and we get the right. It's not that they're going to tell us what to do. We're going to sit down and have a chat. What are my options here, let's talk about some of the options that I have available. And then you get a chance to choose the right one that fits with you, your heart will make that decision if you let your heart make that decision. So those are the kinds of things that we're moving into the SK our program is the greatest, the greatest benefit for mankind that has come along in a long time. Why? Because it's feeding the Zim benefactors, huge sums of money that they would not get before. And that means that that kind of money is going to be available for bringing the mankind out of poverty and into the abundance mentality. And with that abundance mentality, then we move into intergalactic interstellar travel, all kinds of things that's available to us. And we're not going to be held back because we don't know how to do that, that technology will be coming and we have to pay to get it down. So there's going to be a lot more than we think is is is coming. So let your mind dream of really fun things in the future. Next question.

 Tracee 23:36

Next question. You stayed on q&a for seven eight teen that step three share new recommended Zim bond minimum values 100 quintillion, originally, we are told to have at least 100 trillion. And that's what I purchased for my humanitarian projects takes the redemption meeting. Are you saying now that this has changed?

 Ron Giles 24:00

R Ron Giles 24:00

Yes, it's changed. We're growing up. We used to get it think in our minds, we're gonna get a little bit of money so that we can it's called allowance when you're a child, but when you get older, then you have income. And this is changing from a 100 trillion note to a 100 quintillion. So you're getting six more zeros of income coming into you. And that's where you're growing up and you're going to need more money than the then you got from an hour allowance. You know, you may get \$1 a week to go spend on some of the things that you want. Well, this is like giving you \$1,000 A week. But because of your growing up and having additional things that you need to purchase. It's like a child growing up, we get more and more and more. And then we get involved in things and we find out that we don't have enough money. Well, what are you going to do? Well, it If you listen and let your heart make the decision said you will never have to say no to anything that comes along. Never have to. Now I asked the question, is it better to have these digital gold certificates sitting idly in the quantum financial system? Or is it better for us to go through the redemption process with huge amounts of Zim activate huge amounts of digital gold certificates and put them in our accounts? Where is the value of the digital gold certificates in the Alliance, excuse me, in the quantum financial system, and used in comparison to them becoming active currency, and they go into the quantum financial systems account that we own? Where's the value of that we can use it for the things that need to that we can have? You know, are we going to create our own spaceships, anti gravity machine machines are coming, the technology is already here. We don't know about it, because nobody wants us to know about it. I know people who have already created a flying saucer. And they proved it to people it got them there. And then they went and then they came back and they go, what happened? We didn't fail. And I said, take the take the leaves I told you to put in their proper front pocket. And they I didn't put that. Yeah, you did it over there. Because that's what I asked you to do. Now you don't remember it? Because it's way out of your, your, your mind? Because you don't think don't think that here it is there it was. It's already here. It's technology. Trying to get it to Genie GM. And they came and confiscated it and took it away. Because it's going to mess up the society, the all the structure because they don't want it. And so is it here? Yes, it is already here. What are we going to do? If you don't have the money, you don't participate? All yell from the top to the mountains, or wherever I can get a microphone. Get the larger amount. Don't be stupid and think that your mind is the one that knows what's going on, get into your heart. Or you're going to be thumbing a ride. And you could have been buying your own stuff. Next question, please. Okay.

T Tracee 27:55

You tell him how do I present my zims there smaller amounts than your examples, but lots of them the other day I looked at the redemption instructions need a lot of work? I was thinking of new members, if you would like I could update for you.

R Ron Giles 28:15

Guys, not sure what?

T Tracee 28:19

I'm not really sure. They're small. Oh, I know. Because we have 100 T on everything instead of the new amount. All we need update that document. Oh,

R

Ron Giles 28:31

I see. You know, if you did that, I would just really, really appreciate it and send it in to me. And and let's, and we'll incorporate that. But you know, that's, that's number 27 on my list of things to do that I have to get done. So if you were to do that for us, I would really, really, really appreciate it. And then just send the document in by email and then we'll go from there.

T

Tracee 28:59

Yeah, you're gonna get like, 1010 or more of it already done. Everybody's gonna go oh, he needs help. Oh, I'm gonna do it and everybody's gonna do it for you.

R

Ron Giles 29:10

Okay, well, that gives me options. How's that?

T

Tracee 29:13

Okay, so next question. I now have 190 million rather than 180, which was the max simply due to the confusion in the beginning? Is this going to be an issue?

R

Ron Giles 29:25

No, it's not going to be an issue. Now let's let's think this thing through. Clearly. The Alliance wants us to get the digital gold certificates activated. The only people on this earth are going to be those who have a contract or an agreement calling from God to get the funds and there's going to be 30 to 35,000 of those people. You're one of them. You think they're gonna mess you around, you think that gurmon, you think that they're not going to turn over rocks and do everything they possibly can to get you the funds that you want. You're talking about the difference of 10 billion. They don't care, I don't care. Like I told you before, we have bonds in our possession now that we can create three or four times the amount that we have available with the, with the three 130 100 trillion notes, we've already got 100 When you're Lilian notes that we already have that I pledged towards this, we have so much more, they're not going to say a thing about it. I'm not going to say anything about it. I might get trouble from some Well, you did tell me that. Bass is going to be up and take me to the woodshed. Or Roxy. I want us to have all that we can get so we're even thinking of maybe doing another round of SK Rs in the future. And double what we've already gotten out. So Tracee do how many SK RS have we delivered? Do you have an idea?

T

Tracee 31:26

Let me look really quick. And here's the thing, these are actually going to be a low estimate, because this is just the amount of people who submitted. So not all requests are for the max,

we have 8000 submissions. Okay, so that means that most most of those will I would say, a large percentage of those submissions are not for the max amount. So but 8000.

R

Ron Giles 31:58

Okay, well, let's say 7000. You know, if I were to look at what I saw, or see, I would say that 70% of the SK ours are the full amount. But I could be wrong. But at any rate at 7000 for SK ours. That's 1.6 million. My Lillian's that have been distributed. Catch a lot of that. The Alliance is just smiling from ear to ear do the I don't know if they have ears. I don't know if that smiles but if they did, and I could see them then they would be smiling from ear to ear. They're very pleased with what our people are doing. Oh, let's just continue that. Next question.

T

Tracee 32:53

Okay, I wish to find financial centers I understand I'm to ask my redemption agent or guidance, I would like to find more than one center is there a region the centers will be located in or would you know if there would be centers as there are banks now, in many areas.

R

Ron Giles 33:15

This the financial service centers will be similar to what banks are now in every location in every neighborhood, whatever in the world. And so there's gonna be major opportunities for us. They there, we do our employment contract. So employment contracts don't come from other people that don't have money and are not part of love won society. We will be doing paying for all of the the services that are being done by people that will be paying the people and they'll beginning a very large sum of money for our for their work. They're already get this, they're already being trained. Nobody knows about it, because it's not time for it to come. It'll be a seamless thing seamless, meaning that there's no big announcement. Well, why don't you I had a bounced check. So why aren't you charging a service fee? Well, we don't do that anymore. Well, there's just a small little tidbit of what's going to happen. The service centers will possibly have the name of the bank and it might be chased service center, financial services. There's all kinds of things that can take place but yes, we're the ones that will make it work so prepare yourself. Yet the bigger money we got to take over what the banks have done or and that service. I can look at the financials. I go to my credit union. I stuff Have to wait in line. And if I want to stay in the car, then I have to wait six or eight cars to get into it. Well, that's what's going to be like except for we'll be doing a lot of that stuff instead of at a bank, we'll be able to go home and do it on our computer for the in the quantum financial system, pay our bills and balance this and that the other, but if we need cash, or if we need other things, loans and so forth, we go to the financial service centers. So they will still be busy. Just like banks are now that's the service, that's a financial service. That's the financial service centers, that is coming. So there we go. The job, think about it, get the money for it, and have some fun. We won't be the ones doing the work, we'll be the ones paying for everything. How's that make us do? Next question.

T

Tracee 35:57

I did apply for the five millions when it was a graduated amount we had to use and I saw the

I did apply for the five millions when it was a graduated amount we had to use and I saw the change, and I ordered 175 to make 180 total, I only received the 175. So I had to redo the form for one ad. I don't want to over apply or cause an issue. Can you tell me how to remedy this?

R Ron Giles 36:22

Well, first of all, there's still issue. If you do just send in another SKR or if you're not completely up to where you want to be, then send in another SKR you'll be taken care of. And be aware that sometimes emails get lost. It happens on your side, and it can happen on our side too. So it's not perfect. There's no reason for it to be perfect. We just resolve the problems, nobody is going to cause you any trouble. I'm certainly not if you've made a mistake and want to get that other five and it hasn't come yet, then go ahead and do another SKR with all of our blessings, we want you to have what you need. And so the sea lions, I hope come in line with you. And we haven't talked about that. Tracee but and your assistance. So we'll see what happens. But we're not going to be so rigid about that, that we somebody would get in trouble. No, that we don't do that. We're not going to do that. The Alliance doesn't want us to do it either.

T Tracee 37:36

And I feel like if it was meant to be it, it was meant to be right. Like it just there's no coincidences. So that's just kind of my thoughts. But and then if we open it up against person who's already ready, and the Alliance is going to redeem with the Alliance is going to redeem so we just don't know, right?

R Ron Giles 38:00

Well, we, we say they will until somebody tells us they won't. Right.

T Tracee 38:06

Okay, I just tell people when they email me that they got extra eyes, I will just consider it a blessing. You know?

R Ron Giles 38:13

Yes. Okay. Yeah. Ready? Next question.

T Tracee 38:18

How do married couples fit into becoming Zim benefactors?

R Ron Giles 38:25

Well they just becomes in benefactors on their own. If you've got 20 Zahm. Or if you've got

Well, they just becomes in benefactors on their own. If you've got 20 Zim. Or if you've got your SK ours. And both of you are entitled to it. My suggestion is you go into when they when they contact you to make a Euro redemption appointment, discuss with them. There's two of us here, my wife and I, we have our own Zim. And we'd like to redeem separately. Do we need separate appointments? Or can we both come in at the same time? Now, there's, there's, there's the issue of well, who is am I going to have two counselors there, one for me and one for my husband, or whatever. Those are questions but I say talk to somebody about it, talk to the people who are making the appointment and see if both of your counselors can come at the same time. And you have a meeting, you have a committee meeting. But I believe that each of us every person who is a humanitarian husband is a humanity humanitarian wife is a humanitarian, both get your own money and collaborate with each other on the things that you want to do. Usually in a marriage relationship, one person is in charge of the money and one person is in charge of other things. And you For that dominant person financially, is in a position to tell you as the wife or whatever what to do. Because that's the way you built your relationship. And I'm saying that things are changing. And it's good for each individual to have their own funds, and be in charge of it and have a stewardship responsibility over it. That means you come from your heart for your decisions, and your husband or wife. Please understand, husbands and wives, do not try to control your spouse, period. That is a violation of the most basic of laws of the habits. Do not control over other people, you will be suffering for that. And until you change, you'll be suffering the rest of your life, maybe you'll change just before you die. But you'll have had a terrible life because you've not been conforming to universal laws. Now we're fine tuning the way we live. We're going through the ascension process. These little things like this are the things that stop us. They are resistance to the ascension process. You have to reconsider these things that you're doing that may and may not be a problem. Until you know about it, you won't know that it's a problem. Well, I'm telling you right now, you do not try and control other people, you have a responsibility to your children. But when they reach the age of accountability, and you still try and control them, you're out of bounds. So you teach them when they're young. Let the consequences of life teach them the lessons instead of punishment. You're trying to be the one to help them to avoid problems, but you're not going to avoid all the problems because life just as somebody is in charge of that so that you'll get to go where you're supposed to go and have the experiences you you need to get to where you want to be. So things are changing. So that's why I say each of you gets her own gym and go to your appointment and and have your counselor if you can arrange to have it done together, then do show. But I'm not the one to say there's a final person that says And that's who calls you or talks to you for the appointment. That's the questions that you can ask. And that person is not going to be a jerk about things. They're loving you. You are the humanitarians that are looking forward to do the work. No. Let's go to the next question.

T

Tracee 43:14

Okay, my husband Fred is going to be 92 in October, I will turn 60 this month. We just celebrated our 20th anniversary. You've been through trials and tribulations that have bonded us together as one. What advice can you provide to us that can help us understand how we should move forward? If the LWS program can only register one soul per master account?

R

Ron Giles 43:37

Well, we just discussed that in quite lengthy, so I'm not going to address it again. But listen to that last answer to that last question. Hopefully that will help. Perfect Thanks.

T

Tracee 43:50

Where will the winter exchange take place? That must be lost in translation. So

R

Ron Giles 43:59

it doesn't matter if it's in the winter or the summer they will work it out. You'll work it out. And by the way, these people are bilingual. They know they know how to speak your your language. You won't have any trouble talking with him. They will speak perfectly for you to understand what was going on.

T

Tracee 44:26

Okay, let's go where's the training for the S KR when I go to the RV meeting does the SKR change which location I must go to? Shouldn't I have SKR number all I have is a document sent via email from love Won society can you make a PDF to explain how I proceed? Assuming I will have access to them I am open to being a benefactor. How will I see the answer these questions?

R

Ron Giles 44:52

Okay. Loved won society is a closed organization. I have things here that I'm going to send to you. Now, I don't have numbers on that. Why? Because the Alliance knows everything. They know if you're a crummy criminal, they know people are coming to love won society signing up on the QFS 2020. And wanting to get them so that they can do something different than what we're doing. If they're not humanitarians, they will not get a dime out of it. Do I care? No, I don't, it's not a waste of our resources for that to take place. Because we've got too many resources to, to make up for it. Too many, we've got plenty to take care of. We're not there to care. They can't hurt us. They can't even touch us, as far as that's concerned. So if they're trying to do that, to destroy a love won society, good luck. Good luck. Yeah. Be sure you're well protected from the Alliance, because that's not going to happen. And if you get the Zim and you have not SKR from love won society, and it is not your intent to use them properly, and use the money for things that are proper. And when I say that, what is proper? If you're a part of love won society, and you're using our zoom, and you are SKR's? for your own project? How Integris is that? How Integris is it to you, when you come in and ask for our assets to do something that you want to do that is not part of our program. I hope you understand what I'm saying. Because if you are, in one degree, bogus, in what you're trying to do with blood one society and using us to get your ends unless they're humanitarian, or even at that, if you're humanitarian, you wouldn't be doing that anyway. And that's one of the your things to listen, or look at if you are trying to do that and you're not being INTEGRIS and you think you're a humanitarian, I'd say good luck to you. The Alliance doesn't put up with that kind of stuff. That's fraud. Bank can see the intent of your heart to use it for some other means. So please, please stay within the boundaries. If you sign up for love won society to get SKR. You better repent by just becoming as in benefactor and implementing all of the programs or some of the programs that you're interested in. Being kind of silly here are nice, but it's really cool. Next question.

T

Tracee 48:13

Yeah, RSS first SKR Second. Okay, I already have Zim and SKR but I was listening to the q&a and Ron said something about yodalillion my request form did not have this on there could you help me here?

R

Ron Giles 48:29

Are your Lillian is not part of the SKR program. Yes skr program. It's not on the SKR we're requests for why? You have no idea how many zeros are in a yodalillion. We take the yodalillion. So we died, divided them up and forgot what the amount is. But there's 1000s and 1000s of millions in a yodalillion. That's what we're using. We're subdividing those up into millions. And we've got more than we could ever hope for 5650 or 54 billion. millillion that we have available for this. This first little tranche and we're never gonna get out of that first little tranche because it's a huge tranche and the number of millions in there is just horrendous. So you're the millions, if you want your Lillian's yot t a l i l i o n Yota. Lillian's if you want to get involved in purchasing that you can go on the internet. There they are. Just look out for eBay is where I'm looking at if you want to buy something, go ahead. It's going to be a value to the Alliance to activate the digital gold certificates in the quantum financial system. If you have a little chance to ask the heavens, well, can as are enough gold in the quantum financial system to do this? And you'll get the laugh and say yes. Yes, go ahead. Yeah.

T

Tracee 50:20

I can't wait for that laugh as my sarcastic husband just walked out of the room. Who's gonna have the last laugh? All right, we are running out of time. And we have three more questions. So I'm gonna go fast. Okay, and we got her usual words, Tracee, I am reorganizing my present presentation, totally understand asking for the rates for my dog and my Zim. But now that I have an LWS SKR, how does it fit into the rate and the money we will have from SKR into our structure payout and our QFS account.

R

Ron Giles 50:56

These are questions that you need to discuss with your counselor at the appointment. It's basically you the rate that you have received in your heart for the exam that you have already obtained is the rate that you use for any additional things you get through the SKR. And through the SKR's. And the if you order larger bonds and they don't come in time, you'll use your your receipts from your van the seller to they will redeem those. Those are the kinds of things that they want you to use the same rate that you have already established for the things that you're doing, because this is just for the things that you're doing. So use the same rate. Next question.

T

Tracee 51:56

And plus, when we fix the document, we can put that on there. Okay to mark, you mentioned an endowment for an animal rescue in the UK I'm planning to make a significant donation to a

an endowment for an animal rescue in the UK, I'm planning to make a significant donation to a horse rescue nonprofit. But I like the idea of an endowment better. How would I set up an endowment?

R Ron Giles 52:14

Why don't you put them on him benefactors account, abandoned benefactor account. And then it just downloads to them what you want to do, and there it is, it's done. And it's finished that you don't have to go back and visit. You don't have to do all of these endowments and stuff like that. It's just there. So use the Benefactor account, which is just use a well if you want in there. And that's a download that will come to them that simple. Next question.

T Tracee 52:50

I need the 100 quintillion Zim and they are not to be found on the internet only trillions, please advise

R Ron Giles 52:58

us the SKR and get what you need. That's the SKR if you've not looked into the S curve, because there's 20 of them right there that you can have for free. And it's delivered to you by email. It's an SKR, take that to your appointment. I just use I copied some things. And there it was. And I can take that folded it up and put it in stuff I'm taking for redemption. There it is. Fine. That's my advice. So there's that the last question, Tracee?

T Tracee 53:38

Yes, it is.

R Ron Giles 53:42

Wow, good. Good. Perfect. Good time. Yeah. And so right on time. Thank you everybody for the questions. And I hope you enjoyed the answers. And thank you, Tracee for your twinkle and your humor and your presence. It's just a joy for everybody. And people send me that information and I try and get it over to as much as I can. But I very seldom get anything that doesn't have Tracee stay mode. It is complimenting us for the things that we're doing. So era jam, and thank you for all that you do. And with that, let's let's go ahead and say goodbye for now. And we'll see you next time we have a q&a.

T Tracee 54:30

Okay, bye bye
