

# Q and A - March 2nd

Wed, 4/6 6:41PM 59:42

## SUMMARY KEYWORDS

question, alliance, people, money, humanitarian, zim, earthing, trust, benefactor, problems, bank, project, create, quantum, grounding, irs, rss, faith, document, life

## SPEAKERS

Ron Giles, Tracee

---

**R** Ron Giles 00:00

Hello humanitarians. This is Ron Giles. I'm here with Tracee. And we're going to, again do a question and answer. Apparently, we have quite a few because we've opened up the job forum for a little bit. So we've got some good questions from a lot of new people. However, today is March, the second 2022. So with that, Tracee, let's go ahead and get these questions answered. Number one, please.

**T** Tracee 00:30

Okay. What about one spouse having zim? Do both spouses need to have their own Zim and their own projects? We live in different states?

**R** Ron Giles 00:44

It's a good question. I don't want to squash anybody's idea of working together. But oftentimes, in a relationship in a husband wife relationship, there is one who dominates over the other. And, on a, on a personal basis, you have a stewardship with what you have, it's your money, and you're responsible for its use, not your spouse. So if two people get together, that are married, and they have their separate funds, then they can come together and do what they want to do as far as doing a joint project. But each one of them is totally in control their funds because they have a stewardship responsibility for it. Okay, those are the justification. So I have by saying, I believe that husbands and wives should go in separately, and have their redemption appointment. If they want to have an exclusion for the NDA, then they can talk about things. And that's, that's probably the better way to go. But there's also the other element, as far as going into the appointment and being introduced to you're the person who is going to be your counselor, the Alliance agent. If you don't go in by yourself, then you're not going to get one. So you will be sharing it with the with your spouse. But I say why not have to. And there's a very strong justification for that. So my my opinion is go in a heavier, heavier sim,

but go into your appointments separately. If you want to do projects together, then come together after that after you have the money. And that'll fulfill all of the wishes of the alliance and add your stewardship responsibilities. Next question.

**T** Tracee 02:42

Is it possible that the alliance will send me a direct email to my email address I am registered with at QFS 2020. That would give my spirit of far more comfortable assurance? Can you share any specifics for this event?

**R** Ron Giles 02:56

No, I can't they have not told me how they will do it. Oh, we just I'm in the same boat as everybody out. So if they send us an email, well, what is it gonna say on there? I don't know. Do they call us on the phone? I don't know. Do they send a pigeon? I don't know. Pigeon, we'll find. Well, a carrier pigeon, we'll find out. And I understand that you're living in a life where we have to deal with the crookedness of the Cabal and the people like that. But we're moving into some better ways of living and dragging all of those concerns into our new life is probably not going to serve you. Well. The sooner you can get rid of all of that, the more happy you will be. So yeah, it'll it'll happen one way or the other. And I don't know. So I wish it didn't could tell you but they don't share that with us. Next question.

**T** Tracee 04:06

If we are to remain anonymous, but seeing that if we are all registered with love won society, how will this information be kept independent of our status?

**R** Ron Giles 04:17

Well, when in the information you saying that you want independent of our status, I'm not sure

**T** Tracee 04:24

I'm thinking their name, because you know, when they register, it's like name and email address, and perhaps that's what they're referring to.

**R** Ron Giles 04:33

Like, your name and emails, your email, your name, your location, and a lot of other information that is necessary for us to function. As in a business type of relationship get when you get the RSS Zim benefactor contract. You'll understand more about how important it is for us to have good information about you know, there are legal ramifications when you sign that contract, and liabilities that you will be under. And so we need to have enough information so that if there's a problem, we can resolve that problem. I don't want to go through legal base to

solve those problems. But if it comes down to that, if we sign a contract and you go against the contract, what remedies do I have, you've created a major liability for love won society by becoming a gym, benefactor, and then you pull out where's love won society has to pick up the ball and pay for all those people. So there's got to be ways and means to get it all taken care of. And that's going to be in the contract. And the contract been designed by the Alliance. So it'll be fair and equitable, and so far, so how do you how do you keep your independent status, don't talk to people about it. It's not going to be a problem for love won society to keep all that information. There won't be a contract until the quantum internet is activate actively working, safe and secure. So nobody is going to be hacking into our programs. Nobody. Maybe God can come and take a peek, but is on our side. So doesn't matter. I'm being facetious. We're okay. We're okay. Especially after the RV because things will change have changed so that we can have Nisar just our and and have our phones without them being confiscated or threatened in any way or s threatened in any way. So things are changing. Next question, please.

T

Tracee 06:55

I have a friend that has Zim and dinar she has plan on becoming a humanitarian benefactor, she only listens to the Guru's and has not taken the time to look into LW s program. I'm wondering if she qualifies under the gurus, if it would be appropriate for me to sign her up as a beneficiary, she is going to be missing out on so much.

R

Ron Giles 07:16

Yeah, he's in the wrong lane, from my perspective. And the lane or the line, if you want to call it there, you'll get what you get in that line, or that lane, and you can't help them. You can help them to you know, try and explain things to them. But you don't want to be an irritant or to push them the other way. They wanted to follow the Gurus question their spiritual acumen, their ability to understand things properly and be led by spirit. So only those who are led by spirit will be doing these things. And in the beginning, and if there are humanitarians who want to do stuff, then they can, they'll have funds available through some some of the Zim benefactors in programs that they're putting together. So that your friend and you go and get your benefactor, get your letter from the agent to be a referral letter to be Zim benefactor, there's one of your better people that you can start working with. So not everybody is going to get in the beginning. And it's designed that way. When I say designed is the way people will go about their activities, no force, just what they've respond to as far as spirit. And that will get them in the right place to do some of the things that they wanted. Oh, we can't save them. They can only save themselves. I guess that's the bottom line. We love them. Have them become a part of your activities that they would like? Because you'll have plenty of money to help out. Next question.

T

Tracee 09:05

Can I add to that one, I actually say encourage her to just do the basics on the program. Look at the RSS video, the CAC video and the NRA pls videos, just those three videos alone, I believe may help her see the light. Just those three videos and sit with her so you can discuss it with

her after she's done watching them. Because they're not long. Those are not long videos. The Q and A's are long. Yeah, because we limit it to an hour but those first three videos are not long. So

R Ron Giles 09:41

okay, that's a that's a good point. And that's excellent advice. I appreciate your interjection. That's really good. Thank you, Tracee, and I'm sure that they'll appreciate that too.

T Tracee 09:52

No problem. Okay, next question. My daughter and her husband are wanting to buy acreage it is way beyond under budget, I would love to have them wait for the NRELS, but they need a place to buy. Now, I am considering giving them money to buy it outright, I know they will be missing out on many blessings, if I do this, any options I am missing.

R Ron Giles 10:17

You know these, these are decisions that that you as the mother would ever have your daughter and her husband come from your heart. If they can wait, that's probably be a good idea, because you'll have the money to pay things outright. Right now, I'm not sure if you do. But I'm not going to really get involved between family members and say what I think is the best for them. Because I don't know the set of circumstances. So I can only counsel with you to go into your heart and come from there and see what your heart tells you to do. And you you'll feel comfortable with what you're going to accomplish. And if there's some missing out or something like that, and then there's always something better coming. So we just have to hang on to that as a reality in our lives and then created. It'll be just great. Next question.

T Tracee 11:20

Can I draw up an intergalactic travel project with the universities, including technology transfer?

R Ron Giles 11:28

I wouldn't be interested interested in doing anything like that until I had it in hand. You go in and project and ideas and so forth? I don't, I would go there until you know exactly what you're talking about. Your speculation will make you look like an idiot, in my opinion. Because there are things that they know that we don't know. And until we have communications and interactions with the Galactics. We don't know what's there. So be careful what you do before you know. And then you'll be much better off. This can wait two or three years, in my opinion. Next question.

T Tracee 12:15

 Tracee 12:10

When we are contacted, how will we know it's from the alliance and not another source such as a bank, scammer or other Intel source?

 Ron Giles 12:24

Well, if you don't have faith in the Alliance to do it appropriately, then I can't help you with that idea. How do you know? How will I know? I can talk to him. So I'll know from that perspective. But if the money comes, and well, when the money comes, then you'll be able to to make your determination. Again, it's always go from your heart. What does your heart tell you, if you have a lump in your stomach and you say, then that's something then that's Spirit telling you that that may not be true. But if you're coming from fear, which is what you're doing right now, I'm afraid that I won't have if you come from fear that that you fear may just happen to you. So eliminate those kinds of projections of fear into your future. Get rid of them. There is debilitating. There's no substance to it. And there's no reason for us to carry fear. In our essence, though, I would suggest that you kind of take a look at that fearful statement. And check in with your faith and see where where you really are. Because if you have those kinds of fears, the alliance is going to have a hard time dealing with you. Because you're distorted in your thinking. This is really serious stuff. And I'm not trying to make light of it. And I'm not trying to cause you any more fear. But I'm saying you got to learn how to come from faith. You've got to learn how to conduct your affairs in the faith that everything is going to work out. Just perfect for you. When I say perfect, it may not be perfect from our perception. But your life experience is going to be perfect is going to be perfect for you. That's why you came here. That's why you have a guidance, a personal guidance system to get you in the right place at the right time to fulfill your purpose. And just let yourself have that kind of faith. It's kind of a faith of a child. But that's okay. It's as good as we can do for now until we come into our own knowing and then we can know for sure but until We have some faith, then there may be little left for us to get. Because you're not qualifying yourself for the things you want by your, by your fear. So, focus on having faith with God do that to me. Just ask yourself that. Would God did that to me? If I asked for bread, and would God give me a stone? If I if you if you have no faith, and I don't know, but I don't believe that that's true. I think if you if you ask in faith, believing all things will work out for your best good. Don't there's some problems with that, that thinking and I hope that you come through and get your faith put into place. Next question.

 Tracee 15:52

My age of 77 I am not certain how much I can be involved in a med bed facility development. Although I have selected a site and have a handwritten plan, which includes med beds and indoor pool for aqua aerobics a cafeteria, or restaurant that serves a healthy nutritional diet, education or natural healing a mind body and soul. After DNA repairs accomplished the family oriented plan, I would want retired military to train as technicians. My question, can I have a partnership trust operating this facility? I need computer training for all employees, including myself? Can I have a project in the UK? That is a twin of a USA facility? Sounds like a couple of questions.

 Ron Giles 16:33

Well, all of those. Yeah, all those sorts of things you can work out. You know, you're a little

older than I am, I'm planning on not necessarily the med beds, I'm just open for a blast of light that will reset me. Or something similar to that, or a med bed or some other technology. That is not the same bed that accomplishes the same thing. I'm open to what the heavens gonna bring. And there is there are new things afoot. That's a quote, when I asked about med beds, there are new things of float, or changes of flow that we don't know about yet. So let's just allow ourselves to move with what comes our way and know that what comes our way will be for our best good. And so all of the other things that you're asking here are just decisions that you can make and do, you're going to, you're going to go in with a plan to do a med bed facility, and you're going to do this, this and this. And we have no idea what technology is out there. So allow yourself to adjust and do things properly. We are in a position to pay for these things. And we're also in a in a position if we want to do this, then how many of those finite people are qualified, that are qualified, are we fighting over to get involved in our project? We there's you know, for every, for every homeless person, but probably 10 benefactors want to help them find a house. And so we build all of these houses for and we have, and there's nobody to take over off the street. So let's be realistic in what we're trying to do. Let's that you know, you don't want to make homeless people so you can save them. And we're not saviors. If you if a person is on the street, there's circumstances that can cause that. But some people just really enjoy that sociation. I don't know how they could do that. But if you go and talk to them, you'll get a better feel for homeless people. Until you do that, you're just speculating. Some of them are there and they want to house yes, then they lost their home and are out on the streets and all that sort of stuff. The RSS program will make major changes because most of these people have the ability to get a bank account. If they can do that, then they can get an even if they have to borrow a computer or whatever to get in. It'll work out for them that most of them have home or excuse me phones, they can get into online banking, that sort of thing. So there's there's things available for everybody. Let's just not believe that we're going to be saving everybody in the world because we got money. There are things that we can do and things that we will do. And if we're tucked into the harmony with the heavens, we'll do things in a ways that's going to be really good for the people that we serve. Instead of trying to tell we're going to build this and you're going to come and get healthy again. Or maybe they don't want that we have created agency. So be sure that we don't have an expectation as being saviors of the world. Because that's a false identifying identification. We're not savers, we've already got one, we don't need any more. So what we're doing is to give a leg up on the horse for people, we'll get them in the saddle again, help them to start learning how to live arrive this different, we give them everything they need. You know, when I say a leg up, what we give them a horse and a saddle and bridle and everything that they need, and we just give them a leg up. You know, but people can buy their own things with we give them the money. And that's where the value we come in, is in service to other people in a way that they can start making their own decisions and start being able to participate in life in the way that they want to live their lives. With the money they can do that. Without the money they've had a problem. Oh, we're not the saviors. We're just going to give them the opportunity and let him pick it up and run with it and have a lot of fun with life again.

T

Tracee 21:12

Okay, but did you answer the question?

R

Ron Giles 21:15

Can I have a partnership trust operating in the facility? Yeah, you can. Okay,

T

Tracee 21:21

can I have a project in the UK? That is a twin of the US? Yes, you can. Okay.

R

Ron Giles 21:31

Sometimes I have heard that I've answered that question, but I haven't I'm sorry.

T

Tracee 21:35

And she had nothing in there about homeless so I don't know where you came up with that. But okay. Um, something was planted in my brain. Yeah. You actually did make me think of something though. With that. I mean, California has tons of homeless I'm sure there's way more homeless than benefactors so, but I did like how you said that some of them just like being on the street there. And it's really we can't create like a blanket assumption about them. They're they're individuals that have individual desires and individual circumstances. So I did like how you said that. Okay, next question. Need Assistance within there are 3153 counties in the US to serve a critical human issue that must be rapidly resolved. My goal is to work with LWD to develop a synergy, asking for assistance from LWS to resolve the humanitarian issue in a targeted timeframe of six to nine months. Can I designate one of my operatives to become a Zim benefactor in order to network with LWS and thus obtain assistance to complete this particular humanitarian issue? And I have no idea what this question means, do you?

R

Ron Giles 22:54

Not really, but let me let me just address that. Would you want to make somebody as in benefactor? You know, this is one of those presumptions. It's a savior complex that you're you're, you're projecting here. I'm going to have somebody become Zimbabwe. Zim benefactors are humanitarians in their own right? How do you make them something that they could do themselves? Why do you feel that your job I'm just being a little bit critical here of this whole idea, you're going to save something 3153 countries, and the US in the serve a critical human humane or human issue? That must be rapidly you haven't tell told me what that is? I don't, you know, there's problems in every county. Some are the same. Some are entirely different in a different county in the rural and the urban areas and so forth. So you're trying to do a one shot care all. I appreciate where you're coming from, you're trying to be relevant in your thinking, and in your heart, but we're not saviors. And don't be thinking that these people are just going to bow to you because you've got money. You have to earn their trust, you have to earn their understanding. And it's going to fine tune you as humanitarians. You go through that. Now. Having said all that, you're going to have an alliance agent that is an angel type person, or maybe it'll be physical, non physical, I don't know. They can appear anywhere they want. That's your counselor asked him this question, or heard this question. And then you'll get a definitive answer that you can deal with. Right now. It's just projection or conjecture. So I'm not Sure now to answer this question, I wish you the best with what you want to do. But you've got a counselor that will help you to fine tune your humanitarian work. Use that resource. Next question.

T Tracee 25:17

The six trusts. This is regarding the six dress going on what you said on the march 1 chat, I understand that the beneficiary pays \$10 per trust. When that trust is activated. Does the beneficiary also get \$50 for each trust that is activated?

R Ron Giles 25:35

Yes. That is correct. That's what I said. That's correct.

T Tracee 25:40

Wait a minute. So the beneficiary gets paid on creating their own trust? Yeah. Okay.

R Ron Giles 25:49

cost him \$10. It's just a whole new it's a trust is like a fictitious person or a legal entity, a legal fiction. I call them legal fictions. It's acting as a person, but it is not a person. A trust, it has certain things about it. We deal with it that way. So I have no problems giving you \$50 per year, trust me, they'll probably roll

T Tracee 26:15

so they paid 10 And they get back. So a net of 40. Yeah.

R Ron Giles 26:20

Yeah. Okay. Would you like to more than the sick?

T Tracee 26:26

All day long if I could? Get back 50? Okay. Um, are you familiar with TLS? Have they helped you with love won society?

R Ron Giles 26:41

TLS is not involved with love won society? I'm not opposed to anything, but nobody's reached out to us. Will see, things are new, but I have not had any activity with them at all. No. I am familiar with it. Have no communication, so they're not part of our program. Next question.

T

Tracee 27:09

It seems that sense to 20 to 22, the alliance has gone on the offensive in order to address the evil across the globe. What are your thoughts? Does 100% Of Evil need to be gone? Before we can begin?

R

Ron Giles 27:23

Those are excellent questions. And I don't know the answer to that. I don't know that the alliance is saying, well, we'll let 10% of the bad guys harass are humanitarians. You know, that's the way I look at it, I in my opinion, I am creating in my life, this is for me, I am creating my reality. And how I create that reality means that I can eliminate the possibility of people who would come into my life and attempt to destroy it, I can eliminate that. I won't allow it in my creation. That's because I'm the creator of my own reality. There are those who will take exception to that concept. And that's okay. You create your reality the way you want. But I'm creating the golden age of mankind in what I'm doing. And I'm going to react to it as the golden age of mankind, which means that those people who are going to do harm are eliminated. To what degree that will happen, I don't know. There's no real good definition that I've heard from anybody telling me what the fifth dimension is like. I have my own ideas. Maybe we're co located with the fifth dimension right here in third dimension. But the we don't vibrate, it's not on our channel, we're not getting the signal from the radio station or the TV station. Because we're not on their channel. And so we can't see it. We move up into there and change channels, then we get the higher vibrations. And that's the channel that we're looking for. And that might be the third, just a simple explanation of what the fifth dimension is going to be like. I don't believe it's a place I believe it's where we exist in where we have our consciousness. So is the Alliance on the fence? Well, I don't know if it's the Alliance or the boots on the ground, whoever it is, but we're getting rid of these bad guys, wherever they are. So let's, let's be sure that we're on the right side, getting critical now. So let's just be sure that we find tuning in our lives and getting ourselves in a position that we can move on up in our vibratory rate so that we can be a vibrational match with what we want. That's coming. I hope that helps philosophy in their. Next question.

T

Tracee 30:17

So do you email us when we receive the money?

R

Ron Giles 30:21

Will I know you've received the money? Are you on an NDA? Am I on an NDA? I'm not sure where that question is coming from. I don't, I don't, I won't be emailing you if I have money. When the time when I get the money, and we have our RSS program up and running, then we will let everybody know. And that's when they will already know. So maybe, maybe, yeah. So do you email us when we receive my money, we're emailing to the people who are on our list. If you're emailing, if you're getting emails, now, that's the list. Those are the benefactors, people who are training to be benefactors, and they're the workflow people working with. So when the money comes, and I'm going to send out if you want an application to be as Zim benefactor in the RSS program, then fill out the application. And you have to have that letter from the

Alliance agent, referring you as a humanitarian, having enough money to do the job that's necessary, as as in benefactor, with those with the letter in that application, then that'll be sand into love won society and will prepare the contracts and send them to you. That's where it's going to be. So maybe I jumped too quickly on that. So do you mail us? Well, we've received the money will receive your business, not because you have the money? It's because you've responded to our emails, similar to what we've got going now. All those who have received their funds, and have a letter, contact us? Let us know what's going on.

T

Tracee 32:14

So it'll be the same type of email they're already used to receiving it's just going to say something like, Okay, time is here. Here's the contract if you decide to join us, after all, or something like that, yeah.

R

Ron Giles 32:27

Yeah, that's, that's probably the way it'll be No, that's a very simplistic way. But taking into consideration a non disclosures. Even me sending an email out that I've got money or through the RSS program is, well, the RSS program up and running is an indication that their money has come. But we'll be very careful about the NDA so that we don't get ourselves in trouble with that. But to the extent that we can, we will, we will be in contact.

T

Tracee 33:02

Okay. Ready, questions? You might have addressed this before, but I have to ask for the six trust, how are they downloaded into the individual's RSS account? Is it done by the beneficiary and their RSS account?

R

Ron Giles 33:20

Yes, yes, there'll be a place for you and they'll have a trust document that you can use. There'll be one of those in there. So just fill in the blanks. As long as you have done that, the Alliance knows that. And then you're qualified to fill out the blanks and, and you have a trust. So that's all that's really necessary. We're not the QFS is not requiring documents to create an account, like the banks do. Under understand that the QFs doesn't, doesn't keep track of your money for IRS purposes, all of that going away. So there's a whole reason for that they won't be involved in our personal financial situation, because the banks have done that because they needed to collect taxes from US income taxes, and they have to know everything about the income tax. The the coziness that the taxation system has with the banks goes away. So most pernicious invasive activity that you could imagine, into our personal life is not going to be permitted ever again. From my perspective of what's been going on with the Cabal, so things are going to change there. Oh yes, each individual will be responsible for the six trusts and it will go in they'll just go ahead and register them, like you registered in as a beneficiary. In the very beginning, next question.

T

Tracee 35:04

I am in a very difficult season caregiving my sick adult son, he is in constant nerve pain and nothing helps. This has made me very weary and he is weary to the thought of getting dressed up and presenting myself on my projects is the first furthest thing on my plate. I'm not the same person as I was, how many are suffering with dying love won right now. Ron, can you discuss us? Can I answer really quick on this one, and then have you finished. So there is a very, very, very simple thing that helps alleviate pain substantially, and it is called grounding. And you can get a grounding mat for his bed. So that he can be I'm sure he sounds like probably bedridden a lot of the time with pain, and he can be grounding. And this helps alleviate pain and inflammation in a very short time. So I would look into that I will while Ron's finishing answering the question, I'm gonna go down the hall and grab my book. So I can tell you what book that I read or am reading. So that you can do your own research if you want, but they're super inexpensive on Amazon, or you can even go to the official store. I'll give you the link for that as well, which I always say to it's better to shop anywhere else. But Amazon. But anyway. So go ahead and go grab the book.

R

Ron Giles 36:27

Okay. Okay. And thank you for that Tracee. Each individual have their concerns. That's just part of life. I have no idea how many are suffering with dying loved ones right now. I've lost my sister. Nobody knows that outside, unless I tell him. So I have no idea. I can't help you with that. But there are many people who are having problems right now, I understand. There are a lot of people who are not having problems right now. And I understand that too. Each person is individual and has their own lot in life to deal with. If it's a problem for you to get up and get dressed, and go to a redemption appointment, I'm not sure how you're going to resolve that problem. I really don't. It's gonna it's going to be necessary for you to do that. But maybe the alliance will make some accommodations for you. I don't know. If you get if if you're humanitarian, and you get that call from the Alliance, then ask them talk about it. That's where you really need to express your feelings and the problems that you're having. Love won society has, we're just a structure. I love to help you put love won society is just a structure for humanitarians to use for the for their humanitarian activities. And that's what it was designed for. And that's why we're sharing it. Other than that you bring to the table, your own money, and your own talents and everything that you're going to do as far as humanitarian, join with us to use our facilities or our structures, and hopefully the better things will happen that way. I wish you the best of luck or close out to you

T

Tracee 38:27

Okay, so this is actually good information for all of you listening. So there's a documentary on YouTube you can watch called the earthing movie, colon the remarkable science of grounding. And then it's in parentheses, full documentary, and the book is earthing. The most important health discovery ever by Clinton Ober (OBER), and I, at my local shop, I bought a mat that I have in my bed. And then I did get one for my husband and Amazon because I bought the last one. But this helps with everybody because it basically your body absorbs electrons from the mat, which will attach to a free radical in your body, which is responsible for inflammation. And it's all it's just the same as you would get if you were standing barefoot on the grass or the sand or the dirt. But this way, and you know, if you're in bed for eight hours a night you're

getting it as if you were, you know, connecting with the earth for eight hours. So I dude outside on the ground. Yeah, Sleeping Naked outside on the ground. Go ahead. Yeah, I ain't gonna do that. But anyways, that's what I would recommend checking out so

R

Ron Giles 39:49

and that's good. Tracee. I have had my earthing pad. It's a sheet that's interwoven with fibers that conducts electricity. I've had it for 5,6,7 years. And so I've enjoying been enjoying that all this time. It's wearing out I might need to get a new one. Mm hmm. Yeah. But I believe in the earning process. It's, it's a tremendous thing. And as if you look into it, you'll see why. Mm hmm. Thank you for that, Tracee.

T

Tracee 40:23

You're welcome. Okay, so next, our humanitarian cells are waning. Does the Alliance agent see this and accommodate for this level of suffering?

R

Ron Giles 40:34

Sure. Yeah. humanitarians are not the only ones who are suffering and not all humanitarians are suffering. When you say waning, I hope they're not whining. If you focus on the the negative part of it, then that's what you continue to have. So if you focus on the healing, and the gratitude that you're having for the Alliance, helping you to eliminate these problems, if as we go through this process of waiting, give thanks that it's already happened for you. If you start focusing on that, rather than oh, we're just having all kinds of problems, please help us. Alliance. There's they're totally aware of you. But they have their constraints as far as the the laws and rules for third dimension. And they won't go over, they won't go over those lines. The it's an eternal thing. And he can't do that, and they won't do it. So we're looking to the Alliance for saving us. Well look to yourself and your own abilities to have faith and trust in the creative process. And the creative process is that which you focus on is what you will manifest in your life. So those people who focus on the negative stuff, I'm telling you, that's not the way to do things, you're just focusing on something that the line or the universe, whatever you want to call, that entity will give you more, the more of the same thing that you're focusing on until you decide, I'm not going to focus on that anymore. I'm going to focus on gratitude for the alliances that are taking care of all this stuff, and I don't have to worry about it in the future. So create the faith. Let this let this take its course. And don't complain, because there's nobody wants to listen to complain, especially they haven't. They want you to come from love and creative energies. Next question.

T

Tracee 42:48

Are the alliances part of or working with the current banking structure, which are sending confusing messages about appointments or redemption of currency at new value? I've heard you say they are disinformation. But at the same time, they also talk about humanitarian projects for Zim holders.

R

Ron Giles 43:08

Whose they? Yeah, yeah, that's a good question. If I were led to listen to all of the gurus, and all of the days that are out there, I would be totally confused. And that's where most people are coming from. So they are totally confused. The Alliance is working as we speak, as we have been speaking for years now. On the quantum financial system, as the new financial system for the world, as well as the galaxy, call it what you want. The bankers who are the bad people who have been the bad people are being extracted out of the banking industry. There are 1000s of them who have been caught in traps that the alliance has set for them. They have to set the trap and they spring the trap and yeah, you're you're the mouse here, the rat, whatever. And you're eliminated. Now they started at the top and working down through the different levels of management, to find the people who are acceptable if that's the right word to use in the new system. And they are grooming them and preparing them to be part of the financial service industry. As we speak. I was thinking we're gonna have to go through all of that ourselves as Jim benefactors, but the alliance is already doing that. When the time comes, so we get our money. There'll be some who will buy this bank and that bank and that bank over there and, and create financial service centers with the bank and the branches that's already in the play. So, when you're talking about a bank, let me make this very clear. If somebody is talking about the use of a bank in the future as part of the quantum financial system, they don't know what the hell they are talking about. When somebody tells me that the new banking system is going to be using the CIPS, that's not gonna happen. Because the CIPS is designed for the BRICS countries for their banking transfer system, taking the place of the Swiss system for the central banks. It's no better. It's no more secure, it will not be how we function in the quantum financial system. A quantum financial system has no need of a third party transfer system. The AI in CIPS stands for interbank transfer, or payment system. That's, that's not part of what the light the quantum financial system is, I want to transfer money to Tracy, I go in and I initiate a transfer of \$100. To Tracee, she tells me her account and I can just go ahead and transfer it. Nobody's involved. Nobody knows about it, except for the two of us. That's what we're going into. The reason I'm saying this is because people are coming here, and they're bringing all of their banking crap with them. And it's not going to be available in the quantum financial system. So if somebody out there tells you about that think they know what the quantum financial system is. They talk about assets, assets that back the quantum financial system, it's not assets, it's gold. If you go through my documentation, you'll see exactly what I'm talking about. I've given a lot of documents or repost about the gold standard. That's what Nixon had going when he took us off the gold standard. Because there the currency was not referred back to a Pacific piece of gold. To back that particular piece of increment of money, you read, well, I have said, I'm getting on my high horse here. Because I'm sick and tired of people coming to me and asking me all of this stuff, I written documents, after documents after posts after both. And they still go to these guys. And they believe what they're saying, and then come back to me and ask me, Well, how's this gonna work? And I've said, it's not gonna work the way they're trying to tell you won't be that way. We've got some beauty. So a lot of new people. And I just want to be sure that you understand. There is no money for banks anymore. They can't charge service fees, they can't charge this. They can't charge that they can't charge for loans, interest loans. Where are they going to make their money? Tell me whoever Guru is promoting banks, how are they going to make their money the quantum consciousness is in their intervene into the SWIFT system. And the Swiss system used to take your money and use it and overnight trading 86% of their profit was just take it away because the quantum consciousness stops the funds from being transferred to their bank accounts that do the transferring or do their trading and takes the money and puts it into the the receiving bank account. 86% of their profit is gone. What is the other 14%? I don't know it's involved in loans and interest rates and all that

sort of stuff. There's no money in it anymore for banks. Follow the money brothers and sisters, ladies and gentlemen, follow the money, see where there's no money. And you'll understand why the banks are going bankrupt. They're going to be repurposed, re repurposed for a financial system that is designed for financial services. It's all changing. It's all planned out. And if you listen to gurus, they don't know, hell from me hold Dean's about any of this. If they do, they're, they're fraudulent. Because they're not saying anything about this. I wish they would, but they won't. Okay, next question.

**T** Tracee 50:17

My question is about trust and the IRS in the past you needed an EIN to start a trust with the world of finance changing, would we still need an EIN, it seems that using the EIN would be like encouraging the IRS continuation, which is something we don't want in the future is continuation of the IRS. Any thoughts on this?

**R** Ron Giles 50:40

Sure, is the EIN is a document or a number that you need for the IRS will we need the one the IRS has gone through we need to employment identification of No, there's nothing like that that you need. There. It's all all of that structures for income tax at all goes away because the IRS is gone. There's no income tax only be sales tax that the government has to live on. And they'll have to downsize because it's a huge thing. huge monster that is sucking money out of society. Imagine when we get rid of with them how much extra funds, not only the funds that we put in, but the extra funds that they'll have that they're not now spending on the IRS and all that garbage. So we're gonna have a lot of fun in the future. But continuation of the, we're not encouraged them by using their, their EIN number, we're transitioning away from them. And we're using what we need to do so that we can still function until they're gone. And that'll be when the SAR and HSR is announced. Next question.

**T** Tracee 51:57

And I don't think you need to have ein to start a trust only to open a bank trust account or a bank account for the trust.

**R** Ron Giles 52:08

That is true. That is true. Okay? You never You don't need to register a trust for it to be a trust. You do if you need the EIN if you want a bank account for your trust, but there's no ei answer. You have a bank account, you can have an IRS or excuse me QFS account or your trust, and you just establish it, there's no need for numbers.

**T** Tracee 52:38

Okay, does the transform really have to be so exhaustive and large, wrapped in complicated legal language? Would it be sufficient just one or maybe two pages in a document, which would include the essential info state or country, trustee, beneficiary, amounts, purposes, signatures

include the essential info state or country trustee beneficiary amounts, purpose signatures.

R

Ron Giles 52:57

That's about all you'd need. From my perspective, these large documents are designed to prevent you from having taxes and that sort of thing. So they've made a monstrosity out of trusts, and they're selling them for \$150. Notice, it's a profit source for them. The simple trust that we're going to do is a revocable trust. And it's remarkable because you can change when you need to anything in there. And again, you don't register it, the Alliance knows that you've created one, we just ask that you do things according to the document is done so that you don't see. It's in the trust document, the Alliance, those that and you put things in there the way you want to set them up and how to use the money and so on and so forth. You follow that. And then that means that the money will be that will come to you as a result of that we'll be bringing you joy and happiness instead of sorrow. Tuck yourself into the honesty portion of it, and do the trust according to the way that you want, and then set it up that way and then do it that way. And there'll be no problems. So it's got to be a simple trust. And it's, if Well, indeed, you'd have six trust, so you have to do, but just be sure that you do it appropriately. That's all I'm saying. The Alliance notes if you don't. Next question.

T

Tracee 54:34

I am wondering if and when the cell phones go out and the internet goes down and we flee to another state for fear of a nuclear attack. How will we be contacted by the Alliance My plan is to run for the mountains. And as we know the mountain remote locations that don't pick up cell phones, nor internet service any thoughts? This sounds like the other part of this if a nuclear attack is imminent Should we have multiple ideas on project since the earth scenario will be much different than what we are originally thinking? I guess I'm thinking out loud and wanting to prepare for multiple scenarios, just in case since we do not know what life throws at us. There's not going to be a nuclear attack. That's just

R

Ron Giles 55:19

Yeah, nuclear has been eliminated any any thoughts and ideas of a nuclear weapon, they will not be detonated. It's against the law against the universal law right now. And because it's too destructive, so it's not going to happen. Let's go back to the scare tactics. People will wake up when they're scared. Now you've you've bought and bought into this with your question, I can see that. And the cell phones and all the problems we're gonna have with the internet going down, and so on so forth, it's not going to be that way. It's a scare tactic. It's a false flag that's been published by the good guys, as well as the bad guys. It's designed to wake people up. It's designed to let people know how bad things are. Because they normally just go to work, come home, watch television, maybe it's CNN, whatever. They learned their stuff. And then the next day is the same as yesterday, and tomorrow is the same as last Thursday. It's all the same as last year awake. When you are awake, you see that there's different ways of thinking about things. Now, don't project into the future. Have faith and trust in the future. If you have fear, you're going to create more fear. It's a principle that you just can't argue with. People try and where is it God them. They're still fearful. And they still are in fear. Because the things that they were fearful about, have not gone away, create something different. We've already gone through that only need to go again. So let's call that a wrap. And, you know, I'm feeling a little

bit uneasy with the way I talk today. And yet, there's times when you need to say things in a way that people will listen. And those who are no, they're not familiar with this. But the fact is, is that I don't agree with the Guru's we've created love won society, in harmony with the Alliance, and the things that I get come from the Alliance. That's what makes us unique, we are under the umbrella and in coordination with the Alliance. I can't see any other organization doing that at the present time. If they did, I would honor that. But I don't see it. So please, allow me my little rants and raise until the kinds of questions that come through, are about structure rather than about events or things that are happening on how to do this in the future, with a presumption of that things are not going to change. And that's what I think I feel it is my job to help you to learn how the things are going to change, you're not going to be the same way. There's no reason to fear. We've asked God for bread, he's going to give us bread, you're not going to give us a stone. Our prayers are gone up. Our prayers have been answered. So let's just allow that those prayers to be answered in a way that is for our best good. And that will always be what the alliance will be doing for us. So thank you, Tracee, for your input today. It was very helpful. And some ideas that I didn't think about. We are a treasure, my dear. And so with that, let's thank you for all your people and all that you're trying to accomplish and trying to lead, direct and train and, and help in any way that we can. So allow us to make some mistakes at times but know that our hearts are in the right place. With that, we'll say goodbye. And we got some more questions maybe for tomorrow.

 Tracee 59:39  
Yeah, for sure.
