

Q and A - March 9th

Wed, 4/6 7:12PM 46:38

SUMMARY KEYWORDS

question, people, zim, money, rss, work, beneficiary, humanitarian, cac, account, receive, home, problems, alliance, person, program, quantum, learn, trust, benefactors

SPEAKERS

Ron Giles, Tracee

R Ron Giles 00:00

Hello humanitarians. This is Ron Giles. I'm here with Tracy and we're going to do a question and answer period. The date is March 9 2022. With that, Tracy, let's go ahead and start.

T Tracee 00:15

If the QFS will allow anyone to deposit in my account providing they have my account number. Why wouldn't two benefactors deposit their share of the program in the same beneficiary account? That's like a beneficiary getting into the RSS system from two different people?

R Ron Giles 00:39

Yeah, when you when you're talking about depositing money into somebody else's account, or in your account, just just because they know what it is, that's not permitted, it has to be with your consent. And there has, you know, it's how can you say that with without? Well, there's a different level of communications going on with the quantum financial system? It is divine consciousness. So if you're not the one that if they don't talk to you and say, I'm putting money into your account, Do I have your permission sort of thing, then without that permission, you may not get in may not be able to transfer the money. So I'm not sure what the real question is. But the account that's associated with the RSS platform for a beneficiary, they're the only ones that can use that account when they want to draw down their money into their account, and they have to initiate them. So I'm not sure exactly what your concern is. Tisha, can you help me have I done what needs to be said or?

T Tracee 01:57

Yeah, I mean, I think we'll have a built in mechanism in the RSS software to make that not via thing, you know, so that a beneficiary can't have two different RSS accounts, two different RSS downloads, it will just be a built in stop mechanism.

R

Ron Giles 02:18

Well, it's not only built in, you know, we're going by user ID numbers and the user ID numbers associated with your email address. All of that has to be appropriate if you try and make another account, and you've already got one and you're trying to for a second account as fraud. And if you do that, then the QFS knows what you're doing. So don't do it.

T

Tracee 03:10

Yeah. And remember that? I mean, I like what you finished with, because everybody has more than one email address, right? So theoretically, if we didn't have the quantum consciousness, then people could sign up with an account under email address A and email address B.

R

Ron Giles 03:31

Mm hmm. So yeah, it's gonna, it's gonna be failsafe there. There'll be people that challenge it and try and do things but there are consequences for those kinds of people. Hopefully, they'll be gone before we get our money in the RSS program begins anyway. So we'll see how that works out. But there are there are spiritual it's, we call it spiritual divine consciousness that's involved with it. So if you're not who you are, you're not going to get in to the program. So you got to be who you are number one, and then number two, you have to only one beneficiary count per person. And if you're not 18, and you know, who knows that you're not 18? Well, the quantum consciousness knows that you're not 18 trying, going around that quantum consciousness is a futile, don't even try, it won't happen. So things have changed. We're getting more into the golden age of mankind, where fraud and that sort of stuff is not going to be a part of our lives anymore. Oh, we'll go on to the next question.

T

Tracee 04:52

NRELS tech manual indicates that each new buyer shall receive an equivalent increase in their permanent share, down to cover With the loan payment, is there any limit for the loan amount?

R

Ron Giles 05:06

Well, the loan amount is for the home. So I don't know, to me, if it's a 200,000 \$250,000 home, the minimum is well, it will be whatever it is. And for it will be whatever it is to cover the payments on a monthly basis for whatever size home that you have, there's no limitations to the amount of money for their home.

T

Tracee 05:32

So if they want to buy a \$10 million dollar home, then they can do that. As long as they have

downpayment.

R

Ron Giles 05:41

As long as they have the downpayment, we're not going to be checking that, you know, your chances to get into a \$10 million home, well, it's not going to be advertised. So I'll say it that way, the brokers will, will keep it, those kinds of homes, for their own clients, for their own people. That's my, that's my thought, I don't know that that's a good thing to do for them, but that's gonna, you know, what is it that will happen. So we just have to adjust. And there's going to be so many homes available for us to put into the NRELS, but there's going to be finite, there's, it's going to run out, because there's more people to want to use the program, the NRELS, the listing service, then there are homes, I think, eventually, then there are homes just to take care of everybody's needs. So we'll, we'll see how that all works out. But we might have some technologies that come up and start building new homes in a different way. And isn't that fun? That can be some problems, we'll just adjust the best way we can. We want everybody into a home that they love.

T

Tracee 07:05

My favorite idea is the conversion of apartments into condos so that instead of renting, they own it. I love that idea. That way we can offer the initial residents like the current residents of that apartment, and upgrade, you know, Okay, next question, will I be able to have alliances or angelic help to learn how to dematerialize from one spot and materialize in another? To do all the missions from the Great Creator to do more creations? Essentially, they're asking if they will be able to witness is that called?

R

Ron Giles 07:45

Teleport, teleport? Yeah, by by locate. Those are some pretty technical things. If you get to the point where you can do that. That's good. But I don't know that the angel is designed to help you with that sort of thing. You're you're going to be a humanitarian. That's why they're there. They're going to help you to be the best humanitarian that you can be. All of that other things. We don't know what's going to happen with that. I don't know that that's appropriate to tasked them with helping you to increase your spiritual acumen, if that's the right word to use. If that's the sort of thing that you're going to want to get into, then that's something you can do. Talk to him. If they'll help. I don't know. It's between you and them, not me. Don't work that out yet with yourself. Next question.

T

Tracee 08:47

I would like to know how to get in contact for the redemption appointment, our project finder is ready.

R

Ron Giles 08:55

There is no way for you to contact the Alliance, they will contact you. You're just going to have

There is no way for you to contact the Alliance, they will contact you. You're just going to have to wait patiently just like everybody else. So if you're trying to initiate these things on your own and jump the gun, it won't work. When the money is available for us when it's time for us to pull them for to pull the trigger so that we can have our funds. You will be contacted and not before there's nothing we can do. It's not us that are causing the problems. There are other problems that have to be resolved so that we are safe and secure in the use of our money and in our persons. So don't try and jump the gun. I'm going to cross the bridge before it's built. No no, you can't do that. It won't work. Next question.

T

Tracee 09:59

I am astounded healer in Australia wanting to Open Education Centers teaching the Law of One sound healing essential oils, yoga, etc. I believe money exchange is a form of energy exchange when I do work for free, some people free, feel uncomfortable and say please let me give you something they would like to make an exchange, I definitely have no interest in making money from these funds as a benefactor in five d, there is an abundance for everyone. Would it be appropriate to allow people to make donations if they want to donate? I just feel uncomfortable taking people's money. But some people love the exchange of energy, it brings them satisfaction, similar to the \$10 sign up fee for beneficiaries, I guess, what are your thoughts?

R

Ron Giles 10:41

My thoughts are that if a person wants to pay for the value that they received, offer a, a donation. If you turn it down, then you're turning down their heart, they're coming from their heart in doing that sort of thing. And so what you're saying to them is what you want to do part of your heart, I can't accept because I, I feel uncomfortable taking money from people for the things that I do. And I'm not supposed to make profits and that sort of thing. I don't, I don't prescribe to that. I think that no, and maybe I'm not a real good example of that, because I've not wanted to have the Pay Pal button on our account that we've needed to get for the funds that some funds, they help us with what we're doing. And so I need to allow people to come from their heart in donating to a love won society. And I appreciate so much everything that has been done. And yet, I don't seek that the money is not used. For me personally, it's used for what we're trying to accomplish with blood borne society. So I feel uncomfortable if it was for my own personal use, but it's not. So it won't be used for that sort of thing. So I'm opening up to the idea and making it better. So maybe I'm a bad example, that needs to change my way of thinking. And I'm trying to do that in in harmony with the correct principles of giving and receiving. Giving and Receiving should be balanced. And so the idea that you want to give to somebody, and then not be able to give you something back, that's the way life is and, and that's where dignity is found. If I have money and you won't take it for the services that you're offering for me, then I'm I'm feeling uncomfortable with receiving your gift without an I have the ability to pay for it, then I'm feeling uncomfortable about that. So giving a receiving is a principle that you need to really access into your life, if you can only give a never receive, then you're giving and receiving is out of balance. And there's always problems when things are out of balance, a mother gives more than her children will give back. And it's it's up to the parents to not be in a position where they always give and give and give and when not require the child to grow and develop and, and make the give instill in them that I can pay for my way. I don't need to be given stuff. And and then there's there's a certain amount of pride and we want to get away from pride, but there's a certain amount of dignity and being able to pay for the things that you receive. So giving and receiving is a real principle. And it's important to be in a

position where you can allow yourself to receive if ever if everybody was giving a nobody receiving, what would life be like so you have to have to give receive the gift with gratitude and and let that be a part of your life and then hopefully other people will do the same thing and let that be a part of their life. That's why I've always had a problem with people said we're gonna do this for free we're going to do this and this and this and we're not going to take money for it and I'm saying well, okay, there's some problems with that thinking some problems with the principles involved in that you're violating some principles that would really be a benefit to people in their lives to come from your heart but don't be don't get in the way of other people gifting you with their their joy and their happiness at what they have received from you to two way street. I hope that helps. Next question

T

Tracee 14:57

Concerning the CAC employment contracts was smaller local businesses, if they are sued for whatever reason by one of their customers, are we as benefactors protected from being held liable to by any potential lawsuits?

R

Ron Giles 15:12

Why would you be implicated in the lawsuit? You've done nothing. A lawsuit is initiated by somebody who has a grievance and they want to the grievance taking care of, you're not part of the grievance. And yet, they can include you and your name and you have to defend yourself. But this sort of lawsuit sort of thing is going away. The legal system, as we have had, it is designed to take money from people and give it to somebody else, just the way it is. So that's going away. So how many lawsuits are going to be really out there that are appropriate? I don't know. I think that things are changing to the point that we won't have a lot of that because the persons who are initiating that sort of, I call it a free payment, or extracting a payment out of somebody, I think that that's inappropriate. And I don't see that there's going to be a lot of that sort of thing. Okay. Now, having said that, if I own a business, and snows here in Utah, quite a lot. And if I don't shovel the snow on the sidewalks, and somebody slips and falls, and cracks or head open on the sidewalk, okay, that's a liability for me. Now, what if the insurance won't pay for it, and all of that sort of garbage, go away insurance, we don't want you, I have the money to take care of that person myself. And it's my responsibility. So if somebody is suing me, because I'm not fulfilling my responsibility, then there are consequences for me not doing what I'm supposed to do. And so let's be sure somebody slips and falls on my, my property. And because I was negligent, and didn't shovel the locks, or do whatever I could do, then I take upon that person, my responsibility to help to help them, do whatever I can to be sure that they're, they get all that they need to be sure that they're okay. And that's the way that we serve one another. That way, we don't extract from one another, we serve one another. And that's the same way for an automobile accident. If you get in an automobile accident, it's your fault, you kill the breadwinner that family, maybe you're the one that has to take care of the financial situation for that family. I don't know, there's going to be some things that that we're going to have to go through to get a better feel for what's coming and how to live our lives in that kind of an environment where we're service total service to one another, and not have to have any lawsuits. But there are, there's no liability. You know, I think you're coming from fear and projecting that into some of the things that could possibly take place. The Alliance doesn't project interfere with anything that we're doing. And so I don't think

it's appropriate for us to project with the the kinds of fears that we've had in the past and try and put them in the future. Just let it go. We're going to be changing and things will be a lot better. So that's the way that I see it. So let's go with the next question.

T Tracee 18:53

I've gifted my son's dad a billion dollars Zim note, he already has bought some Vietnamese Dong online will the Alliance know to contact him as he did not purchase the Zim from any of the online shops.

R Ron Giles 19:07

They don't concern themselves with purchasing. And you have to be the purchaser and all of that garbage that somebody else has thrown in there. If he's a humanitarian he can be contacted. Now, a billion dollar note from Zimbabwe is not a lot of money as far as becoming a Zim benefactor. That person would have to be highly trained in order to ask for the, you know, maybe the 15 \$20 million that they need to get enough money out of that to be a Zim benefactor, but there's a lot of slip there. So but as far as that person being able to redeem the bond, if he's in humanitarian, then somehow it'll be worked out for them to do that. That's my belief. Next question.

T Tracee 20:04

When I sign up family and friends for their accounts for the 10 cent per minute download, do they make six accounts? Do they have to have? Sorry? Do they have to name them right away at the beginning? Or can they name them later? Also, how do they sign up other people as a beneficiary? Do they sign them up on their phones? Or do people have to go to a Community Assistance Center to sign up?

R Ron Giles 20:30

I'd suggest you read the RSS or watch the RSS videos. There's a there's a platform, and there's a way that the that actually works. The program? So those are the kinds of questions that can be answered if you get into the, into the videos or watch them. Because it's all there. And it's important for you to know the answers to that, and I see why you're asking the question. But I'm also saying, if I give you the answer to the questions that you can look up for yourself, am I serving you well? Or am I enabling your inability to really search and find out for yourself, I think it's important for each of us to learn how to use the programs properly, and effectively. And that means you have to do the research, you have to do the app put forth the effort to do the education yourself. We're giving you everything we can possibly do to help you to come up to speed. So if you're new, then I say to you, there are places for you to find that. And so the best question is, what video can I watch to find out if how to sign somebody up on the on the when the revenue sharing platform is available? And it's all them there. It's all in there for you. We love and appreciate you, but you've got to look at things yourself. Next question.

T

Tracee 22:12

Well, um, the beginning of this question I feel is valid as far as do they need to set up the six trust accounts right away? Or can they set up like two or three now? And two or three later? That I don't? I don't remember us?

R

Ron Giles 22:29

well, let me let me address that the I kind of jumped to the rest of it from the ending of the question. But there are no requirement for a person to to establish the six accounts or the six trust, they can do that at any point in time that they're only allowed six trusts, you don't do it at the time that you sign up. You can initiate start at that you've got a lot of homework to do to get those trust up and running with a trust account in the quantum financial system. All of that has to take place. So you'll have all of the time you want but it's not required. And you certainly don't set it up at the appointment. The appointment is for Zim benefactors, not beneficiaries. So let's move to the next question.

T

Tracee 23:27

Okay. Basically, are we building heaven on earth, starting with friends and family have transformed from 3D to 4D and finally, 5D.

R

Ron Giles 23:36

This is this is the end goal as far as the golden age of mankind. How it happens and how we move into it, we'll, we'll see it's on an individual third dimension is an individual experience. And if your body is not ready for it, if your psychic is not ready for it, then it can be difficult for you to surround yourself in 3D, or 5D Excuse me. So it's a it's a transition. And it has to be done by each individual person themselves. And yet there's help from the heavens, and there may be a blast of light and all that sort of stuff that we have taught, we're told is coming. You know, do I get confirmation, I don't really ask about those kinds of things. I just allow them to be, what they will be and how that can affect us. I just plan on keeping my arms and legs inside and I'm in for the ride. And whatever comes comes and there we are, we get to have a chance to enjoy it and move forward with it. But it's all on the individual's plate and what their their soul has designed for this particular life experience and the purpose that they came for that experience and the heavens won't get in it. intervene in that you have spiritual guidance that will get you to the right place at the right time. And I have full faith and trust in that. And that's why we have a lot of people are giving me their little, I had a dream I had this, this love won society was something that I knew about before it, I saw it, when I saw it, I knew that that was it. And that's going to be my, all of these kinds of experiences are the way that people are led by spirit. And so there's evidence of that, and that will take care of a lot of things in our lives. Just following the spirit. Even though we don't know what's happening, we just get to the right place at the right time. And things happen in such a way that we look back and say, Wow, that's a miracle. I don't know how I ended up with that. Somebody gave me this, and I learned about this, and then all of a sudden, goodbye exam. And I could do this and, and you, you look at those kinds of things. And you're being led by spirits good, though with good way to understand how Spirit works. Yet to show up at the right place at the right time with the right people. And then the magic of the blessing comes through for you. Don't friends and family, you know, we

want to be sure that they're all neatly tucked into this fifth dimensional experience, but it's on a personal basis, you have no control over it for other people. You have no control over it for your children. You try and teach them certain principles and but you let them live their life themselves. If you try and control them, it's gonna be a real problem for you. Next question.

T Tracee 26:50

I have a friend I have been making plans with to restructure the impoverished country he resides in while I was thinking of ways to work with his government, it occurred to me that he is as passionate about this project as I am. Because he is so impoverished, he wouldn't even have the resources to put a binder together. I feel in his heart. He is a humanitarian. But I feel he is intimidated because he has been so poor. If I sent him Zim, and his country would wind up not being just Saara compliant, I fear it would disappoint him terribly. Do you feel it's just better for me to keep the Zim and do the project myself or send him the Zim and trust the alliance will find him?

R Ron Giles 27:31

It's an excellent question. I believe that the point of the spear are those who will receive the funds from the redemption of them in the beginning, and then there are other people who will be involved in the actual implementation of the projects. And so I see where you're coming from, maybe this individual has a whole humanitarian road ahead of him, but needs the funds from you. And to work together is he could be a director in the CAC for you in that country. There's those kinds of things available. So it's not a now or never as far as money is concerned for people who are humanitarians. They can be involved in the other people's, once they get the money, then the money can be spread around. And that's when we find the hearts that are available for us to perform our labors. As far as projects are concerned, we have to have these other people involved. And the alliance is totally aware of this. So only those who humanitarians who will be getting the money will be the ones that are contacted by the Alliance and the beginning. Because they prepared themselves for that. And they're answering their call from their spirit. And the alliance is right there helping spirit for them, and so on and so forth. So it's a, it's, it's a good plan. And let's just allow everything to be done properly. Now, specifically for this individual, you're going to have to come from your heart and figure out that person can do something by getting money or if it's better for him to get money from you. You don't have to train him on the programs before he gets the money. But when he get when you get the money, then you can help him to learn how to implement what you're trying to accomplish with love won society. It's just counseling. This is just advice comes from your heart. You'll do fine. Next question.

T Tracee 29:48

I'm curious about your relationship with the Alliance. How did it start and develop? And now how do you communicate with them about the New Earth and other humanitarianism if that's a work

R Ron Giles 30:04

it's a good question and was very sacred to me as far as the experience. I've been working with it for probably 35 years, and fine tuning the, the way things are done with the heavens and how you work with him and how they work with you. There's all kinds of things. So there are those who respond to that particular call, because they've had previous lives doing that sort of thing, and are precondition for it. And, and others that are fairly new, and they're learning. If I were to try and share with you how I do things with the Alliance, and how the Alliance does things with me, it would, it would take a volumes of books to really understand. And yet, it's so simple. Anybody can do anything that I've been doing with the lions, if the knowledge that you have that you can do it, and not have doubts. It's like asking it showers you shall receive, but also spear not doubt not. If you if you ask for something new doubt, you're going to get it, you're not going to get it. It's as simple as that. We ask for things, and then we say I'm not worthy of that. So it's not going to come to me, and that just cancelled it. Because there's no judgement when you ask for something. When the when you ask, then God, the universe, whatever you want to call, it, starts acting, to fulfill that request. And it will continue, unless you cancel it with your doubts and your fears. That's why people have a problem with asking that you shall receive. They don't know that. There are rules or laws and so forth are associated with that. No one of us doubt not fear not, but be believing. That's called faith. So if you ask for something and say, I'm not worthy, then you're going to have problems getting it. Because you just canceled you're asking, how many times to ask, and then you cancel, and ask and cancel and a half. And there sit down? Well, this guy make up his mind, please, you want to get on? You know, I don't know that they get frustrated, but they just things have to be appropriate. That's not a real good answer for you, I suppose, is as far as what you wanted to get out of it. But I guess the key to working with the heavens is knowing that they're available to work with. And then you learn how to distinguish your own thoughts. And because it comes through your imagination, comes through your imagination. And then you you allow yourself to think these things through and then the Spirit comes and moves you and you think it's your imagination, but it's really the Spirit moving on, you got to discern the difference between the two. There's a lot to learn and a lot to, to gain from letting yourself communicate with the heavens, and letting them communicate with you allow them to communicate with you. And that's that's one of the biggest things as far as coming from your heart and knowing what the rate is. Allow yourself to ask and it shall receive. If you think you're not going to be good enough to get an answer to know with a surety of the rate that you're going to get, then it's going to be a real hard time for you. But it's available to you if you want to not cancel it out with your negative feelings. And wonderings about your worthiness to know just know that in order for you to be a humanitarian, you got to be able to have that. So, Deb and I need to know this information. I'm available for the answer. Come how it will. I'm available for it. I allow it to happen. And then just the right timing it'll happen it'll it'll, there it is, you find out next question.

T

Tracee 34:37

As we quickly move through the RSS and other love won Society programs, the need for a larger facility might be needed. I'm looking to build our CAC facility to also house a second story for music events, Junior Jazz programs, etc. Is it okay to run a Stacy facility out of a home or second home? Perhaps using hotel accommodations for presentations to ECS programs, etc. I'm assuming temporarily.

R

Ron Giles 35:07

Yeah, there's you got to start somewhere. So you start. And if if the if you perceive in your

Yeah, there's you got to start somewhere. So you start. And if in the if you perceive in your mind, you need a larger building and larger place or a better location, then that will come to you. But start, start where you are. The CAC program is very difficult to manage if you're not locally there. So if you if you start your CAC program, and you get to be the drendel, Director, Managing Director, call yourself what you want, you get to be the one in charge, then you'll get into it, and you'll see where there are opportunities to grow and develop. And to help other people to develop and the right people will come along, we've been promised that the right people that will work into your program is just will be just perfect for us. Wow, I couldn't have asked for anything better. That's the way they haven't worked with us. And so start where you are, don't start too big, have big ideas. But start where you are and get your feet wet. And jump into it and see what happens. You can't make mistakes. When I say you can't, you might make a mistake as you proceed. But it's not going to be detrimental to your moving forward. All of the mistakes, you may be learning curves for you so that you can know that I shouldn't have done that. Okay, but it didn't destroy, you still got to move on to all the problems move on. So you may have the idea that you want a large building with rec centers and all that sort of stuff. I think thinking big like that is real good thing. And then go for it. It's in your heart rules come about. Next question.

T

Tracee 37:05

Ron, you mentioned a long time ago that the CAC directors would get a quarterly pay increase, but that'd be automatically done by the QFS, or would the benefactors need to do that manually every quarter.

R

Ron Giles 37:16

If you put them all in on a contract, it can it can work out for for the \$100 every quarter, that's part of the contractual employment contract. If you use that, that is a structure that the platform will have. It will be automatic at that point. But if you're going to do something a little bit different, make some changes, then those changes need to be done by you. And with your ability to change things around to function. The RSS program platform is an accounting system. And it's helping you to understand where your money's coming from, and how to manage your money, when to draw down from your account into your bank account for the use of the money. Those are all things that need to be taught and learned. so forth. So

T

Tracee 38:17

but I mean, it's not the RSS. So that one is the first thing that stood out in my mind, the RSS Yeah, the one that's going to be doing that.

R

Ron Giles 38:28

Correct. Correct. And you don't have to do the one penny increase every quarter. It's part of that contract, but you can do your own. And then it'll adjust accordingly. It may be that there's an accountant that will increase their one sand every quarter and set it up the right way. Or it'll just go through the quantum or through the RSS program. But for

T Tracee 38:59
Okay, ready

R Ron Giles 39:01
We'll try and organize it so it's making it better. Yes. Okay. Next question.

T Tracee 39:09
Just asking for clarification. If you register as a beneficiary, you pay \$10. Then for your six trust accounts, you pay another \$10 each for a total of 70. But did I hear you say you get a \$50 bonus for each trust. So that's \$300 Back to you. So for each beneficiary story, you get \$350 in bonuses, if they register all six trusts, is this correct? Yes. Okay. And then they add it might be hard for some people to pay \$70, let alone try to convince them. Oh, they don't have to do all six trust at the beginning. They can wait until they see that it's absolutely paid the \$10.

R Ron Giles 39:52
To see. I was. Here's an example of what I was saying. Your trustee done it. And then you say well, what are they don't want to do this well, then they won't. And what does it matter to you, if it's a beneficiary, that's going to get something, they don't want it, then don't worry about it. Let them manage their life. So, you know, when you came up with it, I would say don't want to do that, well, then they don't, that's all I can say. Until they find out that there's a better way to do things that they can get more out of. So if you don't want to pay the \$7 \$70, then don't. If you can't, if you can't do the math and see that, you know, you might not have the \$70 or the other \$60 In the beginning, away in a day or two, you'll have all you need. And you can start in on your 66 Trust. You know, when we start this whole program, these people won't know about the six trust unless you let them know. And I'm not sure that that's important that we're trying to get people to, it'll eventually end up there. But I don't think that's that should be a way to get people to sign up. You know, if you do this, and you can get this, well, I don't think that's appropriate, get them on the \$10. Get them on their trust, or get, let them know that there's some trust available, and they can research it on their website, on the website, and then they can do things that they need to do. And, you know, it's it's smart enough for it's important enough for us to do a video on that that's embedded in, in the back office or the personal office. So each individual beneficiary know, we're gonna do what we can to educate. But let's not use as a sales promotion or something like this. I don't think that's appropriate. And people will do what they want to do. But I don't think it's appropriate. Next question.

T Tracee 42:05
Okay, three more, what denomination of currency will be put into our accounts?

R Ron Giles 42:13

Ron Giles 42:19

The nation upon which in which you preside? It'll be in your account or your currency.

T

Tracee 42:21

Okay. Next, should we have security at our CAC centers?

R

Ron Giles 42:30

Well, when we're getting rid of all of the bad people that would cause problems for us, you know, we're going through a transition. And there's might be a time when it's good idea to have some muscle guys there, whatever you want to call them. And be sure that nobody comes in and gets recklessly here, caused problems. But I see that going away. I wouldn't invest a lot of time and effort in a major security system. Unless your heart tells you to do that, and then check in to be sure that you're not coming from fear, but you're coming from some guidance. Let that be your, your way to make those decisions. We'll go to

T

Tracee 43:19

the next question. Last one, I want to know the details that have to do with selling, fixing, and the resale of real estate.

R

Ron Giles 43:28

You know, we go through a lot of training. And we go through a lot of hours and hours of videos and so forth. And you're asking me to summarize all of that in a short period of time with a question and answer, and I can't help you with that. I won't help you with that. It's your responsibility to know about it. And if you're not going to get involved with it, then don't do it. Don't implement the national real estate listing service. The wonderful experience are wonderful thing to happen for people to get homes. But you're the one that's responsible to understand these things. You can't do it by my suggesting this, that and the other you got to get into it. And so I'm going to I'm going to invite you to go back into the NRELS videos and watch it. It's all explained there and meticulously explained. Though, if you're having problems, read through it again, discuss it with other people who you might get to might go to the chat and find out what people other people think about it. Ask questions. That's what that chats for, instead of learning how to ascend or jump into med beds or contact the extraterrestrials it's there to learn So ask questions and people there know what's going on. So ask the questions and see what kind of answers you get. But I always have to come back to you want me to summarize that I've already done that in our literature. So I'm not going to go there. Because that's your responsibility to find out for yourself. And I apologize if that sounds offensive to you. But, you know, I have to take things like a school teacher. If I send you home and read, read these chapters, then you come back and ask me questions. That should that indicate that you haven't read the chapter? What do you want me to do? You're unprepared. So yes, you might be new, but everything is there. So I invite you to go ahead and and read the or watch the videos, and read the documentation. And then you will get your answers all of them. Well, is there another question, Tracee?

Tracee 46:05

Nope. That is it for today.

Ron Giles 46:08

That's it for today. Well, that's, let's go ahead. And and thank you, and thank you for your help. Tracee. We're kind of hampered with my Internet being down. So I can't read the questions like I normally can, but we got through that. So thank you, Tracee, for your help and everybody for the questions. And we'll do it again when we have some more questions. I'll say goodbye. Bye.
