SUMMARY KEYWORDS

people, question, humanitarian, money, alliance, kinds, rss, zim, problems, understand, greedy, projects, ideas, home, mind, benefactor, creating, account, buy, counselor

SPEAKERS

Ron Giles, Tracee

R Ron Giles 00:00

Good morning humanitarians. This is Ron Giles. I'm here with Tracee, and we're going to do a question and answer period. Today is May the 19th 2022. We have a bunch of questions. So let's go ahead and begin. Tracee,

T Tracee 00:16

have you got the line into the alliance? And is there any certainty from them on when Australia will become misogynist or compliant, compliant in any given month ahead?

R Ron Giles 00:29

No, I have no, none of that information. I wish I did. But I don't I don't have any of that sort of thing. Next question.

T Tracee 00:40

I am a Zim holder, along with other notes. My question would be how do I sign up to become a humanitarian? Is there a link you can provide for me as I am having trouble finding the link to sign up to the RSS system to become a Zim benefactor?

R Ron Giles 00:56

Well, you're starting in the right place, you've apparently signed up at the website. And that means you're getting the emails, the next thing for you to do is to begin the process of understanding reading the documents first and then listening to the videos, the training videos, and and the question and answers, that will be the greatest thing that you can do. As you're

beginning your process, focus on the redemption appointment and preparations for the redemption appointment. That's what we always say, because once you have that in place, then you're good to go as far as getting the funds are concerned. And the rest of the information is vital and necessary for us to function with it. But that can come after the once you have your money. So that's the reason I say them. But you're in the right place. Once you've signed up for love won society registered to, becoming a training person training for a zim benefactor. That's all you need to do right now. You do not register to become a humanitarian, you either are or you're not. And your heart is the determining factor there. And my suspicion, very high suspicion is that you are already a humanitarian, or you would not be pursuing that, like you are so like to welcome you home to where you can grow and develop as a humanitarian, with global society. Next question,

T

Tracee 02:42

when recruiting city workers that have knowledge of community projects, and familiarity of working within communities, how do you show bond issue as to guarantee the salary for seven to 14 years?

R

Ron Giles 02:55

I'm not sure you have to do that. You have a source of income. They don't need even know about that. So what you're trying to do is solve problems for them. In areas where you have not had expertise. You don't you don't go to somebody and say, Well, how much money do you have for the next seven to 14 years? That's inappropriate? You wouldn't ask somebody that kind of a question. So I'm saying Why would you prepare to answer that kind of a question. There are ways that you could do things and the fact that you have a consistent flow of money for them, and it's bonded, bonded, meaning that you have substantial backup behind what you're trying to accomplish. That's why we do the bonding. So just play this out, you'll get a lot better involved. Once we have our money, everybody makes a lot of effort to get everything taken care of once they have the money. So let's wait and not wait until then. But allow yourself to just relax and tell and not get anxiety and so forth, seven to 14 years. Guaranteed salary. You know, what kind of a job do you have for a guarantee? There is no guarantees in life. So we're the closest to guarantee and God guarantees that we'll get our money. So that's the way that we have to work. And that's why we do so. I hope that's helpful for you. But I don't know of why you're going to seven to 14 years of guaranteed salary. Who has that? You go to work for somebody and if they're successful, then it's really good. We already have the money and it's going to come for the next 100 years. So we just bond everything and then let it go from there. So just let that pass is I suggested to you next question.

T

Tracee 05:02

So the main debit card from the main operational account, can we use an alias as to keep our identity private? Or put our project name with two authorized users?

R

Ron Giles 05:14

I'm going to say I'm not going to answer that question in terms of the fact that you have to

I'm going to say, I'm not going to answer that question in terms of the fact that you have to work out your own anonymity, you will have a better understanding of how to do those things, as we get closer to it. There'll be more conversations about it. And more ways that you can, can do things. So let's share them if we come across them, for ourselves. But I don't see this as a problem a lot of people do. But I don't see this anonymity as a problem. You work for somebody who has money, period, that doesn't have to be guaranteed or any of that. It just you work for these people, they have money. And you're you're working for them, and you're making decisions for things and you can have a certain limit and the decisions you make. And beyond that, you have to go and ask. And then you go and ask and sit down, have a cup of coffee, and then go back and telling me how they said yes, if that's what you're feeling. So there's there's ways to work it out. And you'll find the best ways. So a debit card, I don't know why you'd want to have an alias name. I think that I don't know, well, we'll find out more about how to become better, there's probably people in the industry that already know, and they'll come in and tell us all we need to know. So I'm not worried about it. And, you know, if you're still worried about it, then there's nothing really that we can do until we get the money and start doing things. Well, so let's go to the next question, please.

T

Tracee 06:52

As to keep our main operational account safe, can we get extra QFS accounts for our key people?

R

Ron Giles 06:59

Yes, absolutely. You can do all you want, you can have as many accounts as in the QFS as you want. And so we'll just leave it at that. You're asking if I can do things. And those are the kinds of things that you need to just simply say, and work out, you need to have all the answers to the questions now. But that's a real good question to ask for your counselor. When you go to your appointment. What do you think I do about this? What if What should I do about that? Those are the questions and open up the conversations with that counselor, because you're going to be what he's he she's going to be with you for the next 100 years as your humanitarian, establish those kinds of relationships in the beginning, and, and have conversations, that they're the ones to ask these kinds of questions, not me. Let's go to the next question.

T

Tracee 07:50

When starting in your own city, recruit all the churches first and the RSS evolution would take off like wildfire, or would it be too fast of growth and hard to service it?

R

Ron Giles 08:05

When you're talking about the RSS program, as a beneficiary, there's nothing that you need to concern yourself about at all, it will grow as fast as it will. I've asked the Alliance to be sure that we have at least 1 million people that can sign up at the same time. And of course, those 1 million people, it'll take them maybe five minutes or so to sign up. And then they'll get their own account. And then they can go in there. And as many accounts as are available, that's the

way that this is going to this will work with the with the platform. You're not going to overwhelm love won society. The Alliance, we'll be sure to take that into consideration. I think see down the road knows know what's going to happen. So we don't have to overly concern this, once you get into it, you can recruit the the churches and so forth. I'm not sure that that's really your necessity to do that. Find other people and let them make a lot of money. If you do it, then you get you make the money. And that's not what we're about. And so my point is, is that you allow those other people to get out there and get the work done. You can't do it all yourself. So you have to delegate and allow others to grow and develop in their participation in our projects. So and getting the churches on board is a really good idea. I think much more so than you really understand. It's not just getting the money, getting them the money. But there's a tremendous resource of people in those churches, who are retired professionals, and provide and they've You know, if they're retired, they have the expertise that can be available for for them to teach or whatever and for you to use them within your program. So there's more than just getting them the money. There's a lot of people there that it'd be a real good asset for you. So you're heading in the right direction. But don't worry about overwhelming love won society, you're not going to do it. Nobody's going to do it. It won't be done. Nobody. It's not a person that could do it anyway. Because, you know, right now we have 12,000. I'm saying 12,000 isn't probably not quite there yet. But we're looking for another 19,000, to become Zim benefactors. Even that's not going to overwhelm the world. We'll just do what we do and go out there. And it'll just be a lot of fun. See how it grows? The wildfire ahead with the next question, please?

T Tracee 10:58

Do you know if the alliance will assist with security for med beds and animal healing beds? Looking at this from the current frequency, a benefactor could be a target and may need our own security, especially when traveling worldwide? Even if the military was watching the med beds?

R Ron Giles 11:14

I'm really not sure what the concern here is. Can you kind of feel what that is? Tracee? Yeah. Security for

T Tracee 11:24

To me, it's mostly well sky referenced having security in the med bed healing centers. Because if say a person has a very, very sick relative, they may, like want to skip ahead in line if it's just like a general public person. And so we need to have security for the for the centers, but security for personal, our own selves. I'm just not going to tell anybody. I'm a benefactor. So they won't, you know, that way. I don't need to worry about security. But you know, I do have a Glock. Just kidding. No, I'm not kidding. But, but some people are like they, you know, they just don't want everybody to know that they have a lot of money. So they want to have, you know, anonymity.

R Ron Giles 12:16

Med beds are going to be very highly organized. And I'm not sure how, where the real problems are going to be. The alliance would know about that, and will assist us as a facet question, will they assist us? Yes, they'll be the mouthpiece for the problems that come up. And here's the solution. And I think in many respects, it will be the counselor that will have the solutions to the problems on a local area basis. We want to bring you in the alliance and do everything for us, you know, that way anyway. But I think that will, as it rolls out, it will come by packaged in a packaged way. That's my understanding, or my feeling at the present time. But I'm also going to keep open the idea that there is an event that will happen and it could be a flash flare from the Central Sun. There's something afoot, let me just say that there is something afoot that we don't know about yet, that has to do with the concepts or the ideas of med beds, whether it's an actual med bed, or some kind of situation that will be changed in the twinkling of an eye. I don't know what it is. But there is something afoot. Now, when they say something like that, then you have to kind of, well, I have to leave it up to you, because I'm telling you tell me about it. There's nothing that I can be involved with. Yes, that's true, there's nothing that we're going to be responsible for. The Alliance is going to take care of it. Let's just leave it at that and be sure that we're having our faith and trust in the alliance and, and we'll do things as we can on a local basis for an end each of our individual people that are working for us as well as for ourselves. And that's what we can do and will do and are expected to do so. But the alliance is behind us. 100% and they're represented by your counselor. So that's, that's your really good place to look for. I'm gonna say yes, they will always Yes. We'll see how it happens. Question.

T

Tracee 14:40

Okay. Regarding NRELS if it only requires 5% to purchase any home, the RSS download is increased to cover the cost of the financing. What would prevent everyone from trying to buy the most expensive house on the market, especially if they get the increase in download that persists past the point of The home being paid off, why would anyone choose to buy a medium or average sized home and only get a small RSS download increase?

R

Ron Giles 15:11

You know, there's a, there's the idea that came to my mind that you have not lived in a very expensive home, they're hard to keep up, you're gonna feel comfortable in a home that you feel comfortable in. Now, to project this kind of this idea out into it, yeah, how everybody wants a \$10 million home, or a \$20 million dollar home. And so they're going to wait for until they can do that, well, if that's what their main purpose is, then let them do that. We don't have to worry about it. People will do what they're going to do. And let's just not worry about it. We have the system, we have the homes, the core of people, the main part of the people will just be happy to get into a house. Now, if they all want the \$12 million home and don't want the fixer upper over here, then that's okay, that homeowner waiting a bit, somebody's going to take that home. If it's on our program, somebody's going to buy it, period. So I'm not overly concerned about people buying the bigger ones or anything like that. So it's a good question. It's obviously it's an obvious it's an obvious question. But there's no real answer to that. I don't know, though, people who are going to be doing that. So we just have to leave it the way it is. So we'll move on to the next question.

T

Tracee 16:48

Tracee 18:10

Okay, if we massively increase the amount of money in circulation with large RSS and ECS payments, how will we increase the supply of goods and services to keep up with the newfound currency everyone will have? If everyone has millions of dollars, a tremendous amount of currency will be chasing after the same goods and services we have now? How do we prevent supply shortages?

R

Ron Giles 17:12

You know, you don't understand who we're dealing with. You don't understand the fact that we are dealing with God's representatives in the Alliance. You think they don't understand about supply shortages, and how to do things. I asked you to look into love won society's programs, and see what we're going to provide. Money is or food is is grown by people. If they don't have money, they can't grow. We're going into farms and we're financing them to be able to do the things that they want to do. So they'll produce what they need, or what we as a society needs. What about matter? replicators? What about new technologies? See, it may be that the matter replicators become so prevalent, that we won't need to be going and buying food, is that a possibility? We don't know that. So you're projecting into the future, a problem that may or may not exist, because you're taking what is now and projecting it into the future. If you do that, and plan on things, you're going to be behind the eight ball, you're not going to be prepared. So my suggestion is that you quit worrying about what's going to happen in the future. What about shortages? If there are shortages, that's a problem. And it's solved. It can be solved. So the alliance is God's representatives to his people. Plan on that being true and plan on that being taking, taking care of the problems. So let's not project in and create problems in our mind and then worry about it all night thinking, what are we going to do about all of the shortages of food, and that will be the focus of your life. If you consistently push forward are those things that you really have no control over? That's God's working and plan that he has in and that's part of the whole plan. You're not going to plan for shortages. We're going to have abundance, abundance mentality they're going for. So let's change our thinking. Let's change our thinking and start asking questions like maybe we need to have a lot of different Recipes for food. We'll have all of the food that we want, and sometimes we'll get tired. So let's get some more recipes going. Maybe we need some more books. Those are the problems that can be solved, don't you think? I think so too. Next question.

T

Tracee 20:19

I want to contribute don't want to be greedy. So I've only bought 1 trillion Zim and a million dollars. Well, that's suffice for a project or should I try to secure more?

R

Ron Giles 20:29

Why do you use the word greedy? Because it greedy for you to store water at home more than 40 gallons? Is that greed? If you store more is that what part of greed are you talking about? Breathing is that you're wanting more than other people. And there's, there's a psychology behind it. Greedy is not what we're about humanitarians, you're not greedy. We're not going to go there. So don't you go there. And don't even pretend that that's true. Now then, having said that, your heart knows what's going to happen. Your heart is involved with quantum consciousness, knowing everything, your heart, if you can ever let your heart over, override

your mind, which is limited in its thinking, because it doesn't have sufficient information to make up proper decisions. If you'll let your heart override your mind in its limitations, then you won't be greedy. If your mind says for heart says you need 2100 T notes. And you're going to ask \$2 million for one of them, or each one of \$2 million for each for the dog present for each of the 2100 T note. Where's the greed, what your heart is not involved in great your heart looks down the road and says I'm going to need it down there. And if you're in your heart will go there. And your mind will say Oh, well, I'd be greedy. If I got that to that much money. Well, take your mind and train it so that it will follow your heart's lead. Things you're going to be changing. Don't let your mind control your heart. Let your heart control your mind. Now we're asking you to be the very best that you can possibly be. And it takes a mindset that is believing, doubt not fear not, but be believing. And all things shall work out for your best good. That's the way it's supposed to be. I say this, not a cliché, is not just something that you quote, that has truth behind it. And so these kinds of ideas that we get that counter are full faith in trust in God. He knows everything. He's going to allow us to go through problems and so forth, so that we learn. And we're going to come from a different position. But as we learn, let's not bring along all of the old garbage that we're trying to, from now into the future. I just don't like anybody using the word greedy when it comes to asking for the higher rates. Because those who think they're being greedy, and don't go to the higher rates are the ones that are going to be saying, dang, I wish I had listened to my heart. I've got this opportunity over here and I don't have the money for it. The Alliance is not going to come to you and ask you for a particular project through your counselor, because you don't have the money for it. They know that they're not coming to you. Because you thought you were being greedy and asking for more money. But in reality, your heart was not being listened to by your greedy mind. So you have all of these pretenses about being greedy. You got to change your thought processes. You've got to change the way that you think. Change your thoughts change your life. That's the real value of where we're going. And it's not just a cliché. This is reality. And we're crew At the golden age of mankind, let's just say what is involved in the golden age of mankind, and how can I participate, and be sure that I'm doing what I can to bring that about. So take your greedy concepts and understanding and ideas. And they're only in your mind, they're not certainly not in your heart. Take those those ideas and flush them down the toilet. Be in complete harmony with the heavens and with your heart and you'll be just perfect. Your your humanitarian activities will spread beyond your capacity to understand right now. So just let it go. Let all of these these questionable things go. When you say things like that, I don't believe that you believe in the Alliance, you don't believe in love won society. And so it's time for you to, to get into and learn into the in the educational processes get into what We have provided for you to understand what love won society is about, and how to function with it. And if you do, you will never come back to me with the concept of a greedy, because your minds will open up to the reality that we're going to be interacting with the galactic people in doing commerce with them. And we have no idea how much it's going to cost to do that. And so your heart does, and your heart is preparing you if you will let it most of us have problems with our minds getting in the way. Just for some clarification here, I talked about this bizintillion bond that you can buy for \$3.49 and 99 cents to see if got 600 zeros. In the last two days, I've had over 40 people who have called and asked for that appointment or for that link into the eBay who's selling this thing. Some of them have found it, they won't deliver it to them. So they've gone other places to get it. But what I'm trying to say is people are opening up their mind to the reality that they need more than they are thinking about. And their hearts are asking for the rates instead of a \$500,000 minimum. They're looking at two or \$3 million. With these higher bond face face value bonds they're preparing themselves for or positioning themselves to be the greatest that they can be. So that they can be used by the Alliance for the things that need to be done. And if we're not all doing that, then all of us are not preparing like the Alliance wants us to do. So I'll probably say this a dozen times more people keep asking these kinds of questions. Because

this is vitally important for you to understand why we're going for the higher rates. And there's nobody except for love won societies, Zim benefactors in training that will go for the higher rates, because they have no idea that they can do that. Because they're told that they get 12 to 20 or 32 million for a 100 T note. And if you've got more than one then lowers it as you go up. I ask those kinds of people who was going to give you the money, it's not the Alliance. Because you don't even believe in the Alliance, you don't even believe in what's going on. Those are the kinds of people who will be going in and asking for \$12 million or 100 T notes they're who are Who do you think this funding that? It's gotta be the Cabal, you're not going to be getting your zim redeemed by the alliance with those kinds of thoughts. You will only be called together to come in for an appointment. And then you'll be wondering why. And wondering why what good is that? You could have done it in the beginning if you had figured out where to go. And that's where your heart you're following your heart. You're following the promptings of the Spirit to get you to the right place to buy the right things that you will need to become the greatest humanitarian you can be. It's all set there for us. So just respond and perform and tell your silly mind to go away. And let your heart habits way. I'll say that probably a lot more times, maybe even today. Let's go to the next question.

T

Tracee 30:16

I have a question about the payment when to account. When does the account come to be open, and one of the videos you tell that the payments will go with Visa cards, I live in the Netherlands but have no visa card. But I have PayPal, I hope that I can pay through PayPal or just through the normal bank account. I think that many people from other countries don't have visa.

R

Ron Giles 30:40

Okay, well just understand that nobody has a quantum financial system yet. Quantum financial system is the will have the ability to have every merchant in the world sign up for them. They'll get their own account within the quantum financial system, every merchant will have their own account in the quantum financial system, or they may have a lot of accounts, depending on the size of the company. We don't have to worry about those sorts of things. And Netherlands doesn't have basic cards, what do you think the alliance will figure out something different for you folks? That will work? Yes. The answer is yes. They will do what will work. And you people are not going to be left out. That's one of the things that you worry about perhaps don't worry about it anymore, you're not going to be left out period. Next question,

T

Tracee 31:42

as a beneficiary standing up against unethical practices, will we be placing ourselves in harm's way with big companies and corporations that want to continue doing harm to humanity?

R

Ron Giles 31:54

Okay, now, let me ask you that this question is example an example of what I'm saying? You're drawing conclusions about things for the way that they are now? Why do you think we don't have the money yet? Because because our minds are set at this level. Go ahead. Tracee

have the money yet. Because because our minds are set at this level. So ahead. Tracee,

T Tracee 32:16

is that because we're getting rid of the bad people,

R Ron Giles 32:19

they're getting rid of the bad people. And when are we gonna get our money when it when the bad people are gone. So they believe that maybe we need to preach something like this a little bit harder. We're not going to get the money when these kinds of people who would do these kinds of things are still around. It's not that there have to be pure to be is still here. I'm not saying that. Because there are going to be problems. That's what third dimension is about. That's why we're throwing ourselves into the ascension process. And going up into the fifth dimension, so that we can live amongst people who are like us. And those people who are not going to change, and will continue to do these kinds of things will not be on our timeline. They'll have a timeline of their own. And I don't know what's gonna happen to them. It's their creation, not mine. We're creating the golden age of mankind. And so we're not drawing all of this stuff with us. I would never focus on these kinds of things that you're focusing on here to ask this kind of question. Why? Because what you focus on is what you create. And now you're asking me this, why we got to do this, we got to take care of ourselves. Well, that's what you're focusing on. So you're gonna have to focus on that until when I tell you change your mind and quit listening to the people who are bringing up these kinds of things, because it's not going to be part of our new quantum financial system or new timeline. It's going to be pure. But let's let it be pure. And let's not overly concern ourselves with it. There will be a transition Yes. In that transition, we'll have to do things a little differently. Once that happens, then we're going to be just fine. Let's let that be true. Okay, next question.

T Tracee 34:32

Okay. I forwarded 10 projects as in benefactors. Who should I talk to to continue the process? Do you have any Norwegian contacts?

R Ron Giles 34:43

No, I don't particularly I don't know. Yeah, I don't know. The people send in stuff and we have no idea where they live. It's an email that we have no place. We have no way to know where they live. So I don't know who they are. So can project for as some benefactors? Well, projects are really good. Who should I talk to to continue the process? Well, the only thing that you can do is wait until you have your redemption appointment. And you do talk to the counselor, who is there to answer all of your questions. That's where you should be talking. Now, prior to that, your mind is thinking of things, to how to do things. But there's no ballad, specifically available to you. Or certainly nobody from love won society that's just out there looking for people that want to talk about their contract or about their projects. Most people are having most people have a, an idea of projects that they want to do. And so that's, that's what they would that's their, their Sacred Hearts ideas. You can share those kinds of things with people, but sometimes you're gonna get stepped on. And I don't know that that's a good idea. So keep

them to yourself. How do you why do you want to talk about them? Well, maybe you can talk about somebody who you trust. But there's nobody from love won society, we don't we don't have that kind of information available and don't seek it. To find it. If we were to do that, it would take a lot of money to do. And we're just like most everybody else, we're just trying to make ends meet. Even even this month, it's well, the donations are down to the point where we just have to kind of wonder what's going on? Are we going to make it for the the information or for the money that we've got for the the needs that we have for the end of the month, we'd still no, the donations are really gone off, since we've lost PayPal. And at other square, whatever they are of you, if you're looking for ways to do it, to help us out and it'd be appreciated. That's as much as I'm going to say about that now. So, Jim, benefactors, projects, good. Continue the process. When I say continue the process, continue your thoughts and your ideas. Your mind will create some really fun things for you if you allow it. That's what it's good for. Next question.

T

Tracee 37:34

I just finished listening to sixth of May q&a, you told us to go research like you did in the beginning. My question is, where did you start to research about the alliance and this opportunity to become a benefactor? Apart from going within ourselves to find answers? You've told us to stay clear of the Guru's? Can you give us some leads, please? Where you went and what you did to find the answers. My next question is, do you have communication with the Alliance regularly? If so, how?

R

Ron Giles 38:09

Okay, this is a very good question. Love won society was created by us, there's a group of us three or four people, for our projects, for the things that we want to accomplish. And this was our structure that we are going to use. It was not to be shared, it was not designed to be shared with anybody else. I had a friend who said, you know, there's a lot of people who could, the loved one Society Program, just make it bigger, as far as capacity is concerned, and you're gonna need a lot of bandwidth and all that sort of stuff. But all of that can happen. But you need to share this with other people. When I started. In just the first one, I put on dinar Chronicles, and had a lot of good response from it. And then we put all five of the projects on there. And, and we started getting people who wanted to be a part of it. That's how it started. I have been receiving from the other side of the veil for 35 years, 34 years, something, whatever it is. And so, do I talk to them on a regular basis ever? Whenever I have a question or whenever I need to. It's, it's, it's always present. I have a companion all the time who is my counselor with the Alliance. So I can ask whenever I want. Now, can you? Yeah, you can, if you learn how to do it. If you ask for that. You'll get you'll get Get what you want. Ask and it shall be given. If you don't think you can do it, then you won't do it. You can, if you think you can, and you seek after it, and don't take no for an answer. And don't create all kinds of garbage in your mind that, that that's like a restriction for you. You can you can talk to God, you can talk to the people who are available. Your whole system is designed to do that, it's just a matter for you to make up your mind and you want to get involved. So I say that now, I understand fully that we are stretching ourselves. If my religious upbringing did not close down my ability to communicate with the heavens, same institution is now taking a different stand. But I have my mission statement, mission statement for level one society is, is indicative of what I believe to be true. As far as the heavens are concerned, we can we can read, we can respond, we can get responses from the heavens, if we ask for it. And in doing so you find the greatest piece that you can find on things,

especially when things happen to you that are destructive to you. And you'll want to find out why that took place. There's always an answer for it. And the answers may come after a lot of turmoil, a lot of problems. But the answer will always come. And you'll be able to be at peace with it. Just take some a little bit of time to do that. I'm not sure how to, I can't help you with much more than that. It's part of who you are, and why you came here. And who you are and why you came here. And your purpose for being here is being opened up to you. And included with all of that is the ability to communicate what they haven't. And for them to talk to you. Just ask for it. That's where we're going. It's yours by asking. And it's ours, because we need it as we as we open up the golden age of mankind and create it here on the earth, it's going to have to be that way. That's why we're having a counselor from the other side of the veil. If you can use that as an indication of what the heavens want for you. They're overcoming a lot of stuff by just simply giving us a counselor from the other side of the veil. That's indicative of what the alliance has tried to get us to learn. Use that as an example. Because it's being given to us as a gift from God. And I'm I'm saying this because we were shut down 1000s and 1000s of years ago to the point that we couldn't accomplish what we were came here to accomplish. Somebody was always over us and gave us ideas and concepts that were not true. Had we not had that we would eventually have become ascended anyway. Because that's who we are. But because we did not have that there is a dispensation of the fullness of times meaning we should have been up to speed in our spiritual aspects of us. And responding in such a way that we would be like those the greater people. Well, we're getting that now. Because they did that to us. And we're getting recompense for the fact that we were screwed out of us having a real good life. But now it's coming. That's the way it is. And that was the plan that's prepared for us. And so we get to make good beer. I hope that helps to understand things. I don't know how to help people. Without a response in their discussion. It's a little difficult. Anyway. Glad you're back tracee. Let's go on with the next question.

T

Tracee 44:50

Okay, is there going to be a problem with business owners hiring family and friends for jobs only on paper, they work with big salaries. but in reality are no show jobs that get paid anyhow, because it's not the owners money being used on employees. Let's say I hire five buddies on for office work on top of the current employees who actually are when they're working as the owner, I don't care because I'm not paying the employees paycheck.

R

Ron Giles 45:19

One that's a warped sense of values right there by take five buddies and put them in an office and they don't know what the hell they're doing. Who am I helping? No Am I accomplishing

T

Tracee 45:32

that's not what I feel like this means what I feel like this means is that they're not actually going to the office, they're not actually working. They're just getting paid as if they were employees. Just so that they can, you know, give more money to their friends and family. That's what I think that

R

Ron Giles 45:54

this is, this is all about money for that person. And I'm, I'm wondering if you're gonna get any money anyway, because humanitarians don't do that. humanitarians will know the proper way to deal with these kinds of people. When you focus on money, and the lack of money, well, I'm gonna give everybody money. I can give a billion or a million dollars a month to every one of my buddies. Wow, what a wonderful person have you. Not much of a humanitarian because you're using the money in a frivolous sort of way. So that your buddies can have a legacy and bow kowtow to you. And you get to be on the top of the hill, and all that sort of stuff. And I'm just trying to say this is warped sense of values. Not humanitarian thinking. And when you do those kinds of things, and you think that kind of way, you're in jeopardy of not getting money because that's not humanitarian activity. You are not proving yourself as a humanitarian by that sort of activity. You're part of the reason why they're not giving money to all the rest of the people in the world. The Redemption of Zim is only for humanitarians, vetted humanitarians who have asked for sufficient funds to be humanitarians as to be as in benefactor. You know, I hope that I'm wrong with this assessment of, of the person who brought who asking these kinds of questions. But I'm very afraid that you're going to be very, very disappointed. Because if you start hiring your buddies, and just and they won't even go into the office, you're just hiring people. I question whether that's the way that humanitarians are supposed to be working. I had a guy that was really upset with me, because he said, Well, I'm gonna get I'm gonna give all of my buddies \$20 million dollars apiece. And I said, Well, I don't feel that that's humanitarian activity. And he got upset with me. Why can't I give my my buddies \$20 million apiece? I don't know how many buddies I don't care how much money it is. That's not what you do with humanitarian money. We're not here creating a legacy. We're not here creating a life experience for our friends. If they can be involved in activities that they are suited for and can contribute at that level, then those are the people that we put on contract. But if you put somebody on a contract because they're your buddy, and you don't expect them to do anything who you're serving with question who you're serving? I'm going to just leave that question at all alone for now because I feel sorry for what's going to happen if you don't change. Next question.

T

Tracee 49:31

An RSS scenario question if a director under me signs up someone under the RSS program, who then uses the RSS account for some severe criminal activity, and then their QFS account gets shut down? What happens if they come back to my director and demand answers on why their account is shut down? I'm worried for my director safety since the criminal may be on edge especially after knowing they won't ever have access again to that kind of money due to their criminal activity.

R

Ron Giles 50:02

Now, this is another one of those questions of the present projecting into the future, you're not going to get the money if those kinds of people are around. So they're going to be gone. Let's not include those people in our lives, let's not pretend that they're going to be there. What am I going to do if they're there? Well, I don't want the money, if I'm going to always be accosted by people trying to steal it. The Alliance knows that. And they're not going to let that happen. Those kinds of people are going to be gone. So again, we're having one of these, bring all of the garbage into the future, and then try and figure out what we're going to do in the future with all

of the garbage. It's not going to be there. So don't worry about it. If you focus on it, it will be there in your life for you, but not for me. And you may be I'm there timeline over there. And we're in the timeline that will take us up into the fifth dimension to the golden age of mankind. We're on timelines here, brothers and sisters, ladies and gentlemen, there are different timelines that you're choosing right now. And your activities are showing which one you want to be on. You are creating it for yourself. Nobody's gonna do it to you, you're doing it yourself. You're the one that is creating your timeline, your reality. If you focus on this, that there are criminals in the future for us to have to worry about, then you're creating yourself in a timeline that were there will be created, that were the big criminals, and they will have those kinds of things. If you don't want them in your life, then don't create them by focusing on them. Stay in the proper timeline. It's really important that I, you know, I don't want to be called a jerk for being, you know, up here pounding on the pulpit. But if you're not going to change, then you're going to be the same. And you focus on the bad stuff, you're going to recreate focus, or you're going to recreate the bad stuff in your life. That's the way the creation process works. That which you focus on, is what you create. How many questions are there here where people are creating a negative experience for themselves? Because that's what they're focusing on? And those I gotta have this as this question answer. Let's get down into the reality of things. You focus on positive stuff, if I ask for something to be for something in the future. If I focus on the reality that it's going to be there, and how much joy and happiness, it will bring me and all of the details that I can conjure up in my mind, then that's the creation process in action. And that will come about unless I cancel it by bringing other stuff in that are negative. Control your mind, control the things that you focus on. And when you're focusing on things that you don't want, then then you are guilty of creating things you don't want. I wish I could tell that in a way that people can understand. I really do. I really do wish I could do that. And because I have a hard time helping people to understand that I feel inadequate. I feel that I am failing. Because we're getting the same thing that's being produced and every time we come up for a love won for a question and answer. We get the questions like this again and again and again. Does anybody listen? That what you focus on is what you are creating. You want something and focus on that and focus on having that your mind doesn't know the difference between reality and that which you're creating in your mind. So create things in your mind that They're positive. That's the focus that you need. That's what you need to understand. And so let's, let's, again, let's put these kinds of things away, don't bring the garbage into the future, because then you're going to have to deal with it. And that's not going to be on the timeline that I'm on. Because I won't tolerate that kind of stuff in my life, I will not focus on it, I will not create it or recreate it, it's going to be different. And we have the ability to do that. We just need to understand the coop the processes. That's what I'm trying to help with. Wow. Next question, please.

T

Tracee 55:52

Okay, two more to keep people we so this, I think is from the same person to keep people we sign up for the RSS program out of trouble and keep them from losing their accounts from being shut down. Can you list some more examples of what they are not allowed to do is telling them don't use the account for any criminal activity enough, and not trying to open multiple accounts enough. Maybe giving many examples like situations we see on the evening news, maybe better for people to understand there is all kinds of people out there. But what is the best way to make it clearest for them, I want to see good people be made out of the RSS program to give them clearest, the clearest advice possible as to not thinking they can trick the

system. I just don't want to see anyone do something careless, that they would risk losing their RSS account forever. Also, depending on the severity infraction, can an RSS account ever be restated? If so, who do we see?

R

Ron Giles 56:51

It's a good question. And, you know, who can use? Who can? How can you ever get somebody reinstated? I don't know. I don't know those sorts of things. Yeah. Maybe we'll find out. But again, this is another example of what I'm trying to say you're creating a whole set of circumstances that are negative. Why is it you're creating that? I don't know. I just don't understand. Those people are the going to be there and your life, if that's what you continue to focus on? And how are you going to help somebody if you're focusing on the negative? I'm not sure how to answer that question. Because it's not going to be here, the same question is not going to have the same circumstances once we get our money, because those kinds of people are going to be gone. And I certainly hope that our people are not going to be gone with it. With them. We have a chance to make a change in our lives. So let's do it. Let's go to the next question.

T

Tracee 58:00

Last one, my wife doesn't know I'm training daily to be as in benefactor humanitarian. My husband doesn't either he's very out of the loop. I learned early about the NDA with his role. So I kept my mouth shut on this subject at home. I don't even talk about the subject at work. Even as I train daily, my wife knows I like to read research world news and play games like chess, strategy games and other games like that. So she thinks I do that when I come home from work. Perhaps this is great cover. But when the time comes for me to go to the appointment, and I sign the NDA, I'm sure when I start humanitarian work, she will then have some questions as not to break the NDA. Is it acceptable to just tell her I have a new job as a humanitarian? And if she asked where all the money is coming from, I'm thinking of saying I'm under NDA to protect me and our family. So I cannot say, Does this sound good? Or maybe we need to say something a little better. I asked this question also, because maybe others and benefactors might be thinking the same?

R

Ron Giles 58:59

It's a good question. And, and I appreciate your perspective on this. A sharing with people who, and I'm gonna say it inappropriately share with people inappropriately. We're so excited about something. When you get excited about something, and you want to tell everybody in the whole world, get up on the top of your roof and shout it out to everybody. That's what we want to do. When we find something that's really good. But we have to learn how to share appropriately. That means that there's a certain amount of information that those people can accept and others that they will reject. So we kind of test the waters stick your toe in first, talk a little bit about this or about that and see how they respond to that. And if you can, then you can open that if they do then you can open up a little bit more and a little bit more and tell you can give it all But if you share inappropriately, you're going to be castigated are going to be treated unfairly, you're going to be judged as an idiot or whatever. They're all there. All of that is available to the other side, to do to us to tear us down. And so we just have to learn to share

appropriately. If somebody you cannot change somebody's mind, they have to change it themselves. When you get your money, do the things like well, I've got I've gotten, I'm working for some people, and I have a nondisclosure agreement. So I can't tell you those kinds of things, I can't tell you about it, I just know that it's here. And here it is. And your wife doesn't need to know what the amount of money is. Even even your, your accountants don't need to know the total amount of money that you have. It's none of their business, each individual is a different, has a different set of scenarios are going on in their lives. I don't know what the relationship between this man and his wife is. I have no idea if son told us, so I can't really tell you about that. If your wife is a no lol and an arrogant and proud, then you can have some problems. But if they allow you to go wherever you want to do and do what you want to do, then that's the kind of person that you can share a little bit with, and probably have done and it's been okay. And yet there are things that you can I mean, the things that I've gone through, I can't share with people. Because I'll be considered an idiot. And for those people, then they can stay over there because I don't have to deal with them. Because I'm an idiot, see over here, and I'm getting things done that they don't even have a clue about. A prophet is not known in his own country. Why? Because they won't let him be who he really is. Because he's what they have thought he was in the past. If you want to carry that around with you then carry it around. But I don't talk to my family very much at all. I have no reason to. They don't understand. I try a little bit and they don't understand. And they go back to their own beliefs and say, Well, I know this and this, okay, okay. Okay. Good. That's, that's your thoughts and ideas. And I might not agree with it, but it's okay. Those are your ideas, not mine. I have different ideas. And I'm over here, but the important time you want to find out, then you can come and talk to me, and we'll talk about it. When you get the money, it yells at people, you are now the big person. That's a whole different way of dealing with people. And it's an it has, it's, it's fraught with all kinds of problems that you don't, you're gonna have to learn how to deal with, we're going to deal with them, we're going to make some mistakes, and allow ourselves to make some mistakes and not the same one twice. Let's learn how to how to navigate through this. And we're gonna have a counselor to help us. And that counselor will be our greatest gift that God has given us to be able to do our humanitarian work. What a great gift that is for all of us. So we get a chance to be really good. I hope this is helpful. There's the details of Taiwan and exclusion. I can talk them I list has for an exclusion for your wife so you can talk to her and not break your NDA. And yet there are things in the NDA that she doesn't need to know even the the though you can tell her about. So we have the ability to hold our counsel without giving it to somebody else that's going to throw it away and make a mockery of it. And that's what happens when you share inappropriately. We share when it's when we feel prompted and and then we're quiet when we don't. And that's the way that we keep our counsel and that's the way we keep some civility in our relationships with people that don't agree with us. There is One person that I argue with about Pollock ticks, and liberals and all that sort of stuff. Because I don't talk to him about, talk to people about that. Because if they don't have an interest in it, then I don't share it. Sometimes I don't really understand where people are coming from. And I apologize if I don't. And if I've made some judgments here about people, please forgive me. But I feel like I have a very strong point of view to share. And that's what I've hopefully done today in an appropriate sort of way. indicating that there is something different that's coming. And our ideas in where things are now. Let's just keep them back there and walk away from them. Because things are changing to the point that not very much of what's back there will be coming with us. Okay, thank you, Tracee for all that you've done. This is the last question for today. And let's enjoy a a good week, the rest of the week, and we'll have some fun and, and yes, thank you, Tracee for all you do, what a blessing you are to all of us. And we're we're going to get it through. We're going to get it done. We're going to hammer this as much as we possibly can to knock out the bad parts and solidify the good parts and move forward with that. Thank you, dear. You're welcome.
