

# Q and A - September 5th

📅 Thu, 9/15 10:51PM ⌚ 51:07

## SUMMARY KEYWORDS

people, question, charities, funds, managing director, cac, alliance, money, contract, heart, problems, building, heavens, beneficiary, halfway houses, place, humanitarian, put, buy, ron

## SPEAKERS

Ron Giles, Tracee

---

**R** Ron Giles 00:00

Hello humanitarians. This is Ron Giles. I'm here with Tracee, we're going to do a q&a. Today is September, the fifth 2022. So with that, Tracee, let's go ahead and begin.

**T** Tracee 00:12

Okay. I listen to patient history, I heard his voice in the video. And from the first chat, it seems like he is Jesus. But when I heard the voice in the video, I felt his vibrations calm and rushing like a big wave, my heart was on the verge of shaking, and shaking my body, the waves are getting bigger and better bigger, is it because my frequency is low, we have to adjust the frequencies for each other, is it wrong to feel the shaking of this vibration, and I'm going to leave it at that.

**R** Ron Giles 00:47

Okay. There's nothing that you can say is good or bad or wrong with your body's response to outside stimulation. Obviously, this is somewhat internalized as well, because that's, that's where he affects us. So don't feel uncomfortable. Don't feel overwhelmed. Just fairly feel the calmness and the peace that you feel and recognize it as you feel it is. And that will help you to navigate through everything that you're going through us on our side. And we are blessed to have him here. He's not from my understanding, he's not to open for other people, other similar types of people. But I appreciate what he's in the doesn't spend a lot of time with us, but he's going to allow some time. So that's really good for us. Next question,

**T** Tracee 02:03

since we don't know how long until we get to be with Q again, these are from two different people, by the way. Do you know Is Jesus really the Son of God? And should we still celebrate Christmas or not? Have you around ever asked him these questions? If you don't know? Can

you please ask Ron.

R

Ron Giles 02:20

Interesting? Is Jesus the Son of God? Yes. Are you the daughter of God? Yes. Not the only one. And Jesus said, Come follow me and I'll take you to the Father. He's not the only one. We all are. And the Cabal has written things so that we don't know who we are. And the in my opinion, and this is my opinion, the Bible is one of the greatest works that Cabal has done to destroy our ability to find out who we are, that's not Jesus's teachings. If we had a church from Jesus, it would be called something like the way of the teacher of righteousness. He wouldn't use his own name, you certainly wouldn't use Christ. So the whole thing is all messed up, and it's going to be changed. As we get closer and closer to the third dimension, or fifth dimension, there will be people who will have a hard time with that concept. That's okay. Maybe you need some more third dimension experiences. And your show will be in charge of that. So love won society, we're moving ourselves along into the golden age of mankind, which will be the our entrance into the fifth dimension. So let's go from there and see how it goes. There's no reason to be upset with this. We have been messed with for 1000s and 1000s of years and now we finally get to have a different way of living. And love won society will be the financial or the physical means and, and cue comes along with the spiritual stuff. But this is all part and parcel as part of the plan. So just enjoy the ride. Don't be offended. Don't be upset. If you don't, if it doesn't feel like it's right for you, then there's no reason for you to stay or there's no compulsion. It's all voluntary. So let your heart be your guide. Get your mind out of the way. Let your heart be the guide. That's why queue has said, command, prime creation, what is creation mean? That's all of us. We're all creation, we are those who have been created. So all of creation. So command prime creation, to bring us a full amount of who we are. There's nothing wrong with that. And, and that's what's happening if you do that. So you don't want to be all who you are, then that's probably not the best thing to do for yourself. Let's go to the next question.

T

Tracee 05:38

Okay, in one of the recordings, you were talking about interactions with the Alliance and that anyone could do it. You also said that you just need to know how to do it, and that it was easier to learn from someone that already knew how to do it. Does Ron offer this information on how to do this?

R

Ron Giles 06:08

Then it's a good question. And I'm feeling a little bit inadequate, to be one to help everybody to become interactive with the Alliance or with their higher selves with their life guide. Those who are in charge of you, as far as the heavens are concerned. It's a difficult, it's a difficult situation for me to handle because I have to do things on my own. And if you don't do them on your own, then you're not going to have a real good way of dealing with it. One of the most important things to understand is the heavens don't really have if you ask somebody ask heavens or the Alliance, whenever if so, and so is a good person, or as part of the part of the Cabal, or whatever the question might be? Well, my, my way of looking at it is that, well, they're just asking me for my I'm, I'm asking them, but then they turn it around and say, Well, what do you think about this? And then I tell them, Well, I think about it, and then they give me a positive

answer, or one that I need to think about it a little bit more, and then come back. But they're not inclined to be telling us bad things, or if they don't do that. So if you're getting that, so and so's a bad person from the heavens, I question whether that's really from the heavens, it's from your mind. And your mind has is part of the imagination and can do that kind of stuff. So take the thoughts of your mind and put them in your heart, I come in prime creation, to take the thoughts of my heart and our mind and put them in my heart. If you do that, it will happen. And then you'll find out a lot of different things. So let it be that your thought or your heart is helping you with decisions that you make in your life. I hope that helps. Next question.

T

Tracee 08:36

Okay. I saw a flaming object in the sky over where I live. In New Jersey, it must have been around 10pm. On Wednesday, I saw it called up I saw it and then I called out to my girlfriend. And before she looked up, it was gone any ideas of what it could be? And next, I'm sorry, confused on the mortgage or in the employment agreement? Does that come from me or the Alliance? I'd hire as many people as I could pay off as many mortgages and pay men and women to keep their businesses open, and hire anyone they need. So two questions. Sorry.

R

Ron Giles 09:10

Yeah, I think the second question, you got it, right. You're the one with money. You're the one and they gave it to you because you make good decisions. They gave it to you and you start making bad decisions, and you're going to kind of lose your grace with them. But they know who you are. They know everything about you. And so when you become a min, mountain change director in the RSS program, they're giving you the funds so that because they know that you're going to use them appropriately. So that's not a problem. Now, as far as claiming objects in the sky. Those are things that I have no ideas about. I've not had it happen to me, so I have not inquired about it, but Because what is A? Somebody over there saw flamey thing of whose car? Is that true? No. Because I don't know if it is true. Why was I would be asking, but had I the experience of that, then I have something from myself that can be put into a sentence. This is the way I feel about this. Is it true? So, I have not had that experience. So I am not sure how to tell you or answer that question, please.

T

Tracee 10:35

Okay. In regards to the NRELS I live in a booming city that is constructing numerous condo rental buildings vary from 100 to 300, rentals of one, two or three bedroom units, I am at an impasse on how to convert these units to owner condo homes.

R

Ron Giles 10:58

Well, the impasse is is that we don't have the funds yet. You're not gonna get any, any quality response from any of these people. They see they made these so that they would have a large income. And that's the way that they're planning for their retirement and that sort of thing. Well, there's opportunities to go in and buy the whole thing from them. And then they can go ahead and do a whole nother set, and we'll buy those as well. If it's in a good location, it's not

gonna be hard for us to sell. But we have to wait until we have the money to get money talks. And big money screams. So is there one wanting to be screamed at we will do that, we can do that. And keep in mind that we wanted to be sure that it's appropriate their price that we pay for things. appraisals are really good ideas. There's should be no impasse when we start in on it. And real estate people are the ones to get involved to help you to do that. Find good real estate people in the nrels program and then go from there.

T

Tracee 12:23

Next question, the only idea that I can come up with is to purchase the whole building and then offer ownership to the existing tenants via the NRELS program. And also, if you could please explain why we asked brokers to buy the houses, when we met, we the managing directors have the money to buy them and renovate them.

R

Ron Giles 12:46

Don't see there's a I don't see a problem with that. The managing directors or the director, and the CAC programs can be of great benefit in doing all of those. So you don't have real estate people like a broker who's out there buying houses is going to come up with a crew and whole nine yards, everything is necessary for them to start building these kinds of things. It's not a slam dunk two point thing. It's certainly not a three pointer. And from out, you know, half court three, it's not going to be that way, you're going to have to go and get involved. And those are the kinds of people who will do that for you real estate people. But if you're if you're contracting brokers to be out there buying homes, then use the find some really good directors who have some real estate abilities. And oftentimes the real estate people who have been who real estate is really a competitive situation. And sometimes people don't aren't as good at it as they would like to be. And so they retire. Because it's they don't like the drag. But if you hire some of those kinds of people, find them as directors and tell them that you would like them to help find apartments that we can make into condominiums. And even that is a is a talent that very few pilot can find those but they're there. And like I've said before, if that's what your desire, you ask and it shall be given and they will come out of the woodwork for you. To help you to accomplish the things that you're trying to do. Just don't take this responsibility to do it on your own. Take well, I shouldn't say that. Take the responsibility that you need to do things but rely upon the guidance from the heavens. That person who you want is already being prepared to come to work for you. That's what the promise here And so certain amount of looking for yourself is important. And but don't concern yourself with the the end result. Let God take care of that. And you just do what you feel is right. And the right people will find you, or you will find them. And there you go made in heaven match made in heaven with a great employee that would be what a great person to work with. That's what's been promised to rely on that have faith on it. It'll work for you. Next question.

T

Tracee 15:41

While I was on the telegram projects room, I was talking about hopefully getting a possibly defunct bank and advertising that we can guarantee to lower your mortgage with no out of pocket costs, and pay off their mortgage. So someone replied that this wouldn't be possible as

the alliance has other plans. I asked where his information was. And he said, it's not on LWS? Is he correct? Or is he giving out misinformation, there's a

R

Ron Giles 16:11

lot of people who are maybe associated with some with love won Society, who are starting to do things. And sometimes they've got some background sufficient to be able to make decisions like that. And sometimes they don't. And I'm finding that those who think they have a real strong understanding, they'll set out and start doing things that still need to be fine tuned. And it's not a problem, you're not gonna make mistakes. But when you're listening to somebody else, instead of going into your own. Go within there we go again, and the commands use of command to take the thoughts of your heart and put a mind excuse me, and put them in the thoughts of your mind and put them in your heart. That means that you're giving the heart the, the, the front position to make decisions for you. And if you do that, effectively, then your heart's going to get you to the right place, and to the right things in the right timing and that sort of thing. Why because your heart, not your mind, your heart has access to all knowing quantum fields of understanding. That's where your heart tunes into. So you're going to get real good information from your heart. In addition to that, that's coming from your heart. In addition to that, you have a counselor that will be available for you, who also has that information from the quantum fields of understanding all knowledge. And if you don't use that person, then it's like you're using your mind and totally excluding your heart. So you have your heart and your have your counsel counselor that will help you with the decisions you need to make. I hope that helps. Next question.

T

Tracee 18:25

Okey dokey. In a business hires a busboy, can they be on the RSS? Even if they're under age? I thought you said for farm kids. Yes. But I don't know how that will work for business.

R

Ron Giles 18:45

Well, the reason I say that for a farm is because the owner is the one who is in charge of the farm. And he can hire the children if he wants to do that. And they are very good at what they do. I had an 11 year old that was driving a tractor when I was working at a dairy farm and hauling hay. And we were in charge of the whole hay process. Well, that kid really knew what he was doing. So why would you not want to hire somebody like that now? Do they have a beneficiary account? I'm not sure that that's appropriate for them to have a beneficiary account the funds that you can give them according to their dad. And so you just do a special managing directors account for them. Just an account, this is your account. This is and this is your download and this is the amount of money that your dad said you he'd like you to have. It's a simple thing to do. And so we don't confuse it with business in the city or a kid immunity that you want to have a manager or excuse me a boss on an employment contract. So there's a difference there. And there's a difference between the boss of a business and the farmer who has his son helping you. So we just, that's the best way that I can figure that out. Young people that come out of high school, they can be auto mechanic, if that's what they want to be. And then they can start in on that and become beneficiary. And you're gonna have to pay him a lot more money, if they're doing that or outsell just go do something they would like to do, like

start their own. So it's available for people to do things. And I don't I don't want to get involved with with that. But as far as pharma and his children, then I have no problems in the managing director of creating an account for that particular individual. But is he going to be a beneficiary? I don't believe so. He's too young. Next question.

**T** Tracee 21:15

When we look for a building for rcsc, if we purchase such a building, do we put it in the name of a trust an LLC, or in our personal name, if it is not an a trust, what happens to the CAC building when we die, if I purchase a building to my name, is that not make any money off of my funds due to the value of the building?

**R** Ron Giles 21:40

Well put it in, you put it in the name, I don't put it in a trust, put it in your own name, it really doesn't matter. You won't be making profit out of it that you can declare, you may be making some income but not profit. Now, what is the difference? Well, a business is looking to make money to, and so on. You're buying a building to use it for the CAC, it will raise in value anyway. But you're not going to try and sell it. Now, you have eliminated the med bed concept in your life. Well, if you die, well, if you have med beds, you won't die. So I don't care how to answer this question, because your release system doesn't include all this been given to us to take care of these kinds of things. So you need to go in and find out what you really feel about these things. There's, there's somewhat of a not going to say negligence. But you haven't addressed that particular idea, to the point where you have made it part of your core knowledge of understanding med bed technologies will be available to us. Whether it comes from a med bed that's made in some star nation over there, wherever, or it comes from God Himself, we won't know until it happens to us. So be open for the reality that we're going to be living extended lives. And oftentimes, those extended lives mean that you have the choice to continue to extend your life. And if you're having a good time and are enjoying your experience, and you'll go for that there's really nothing else to get involved with that this causes you to be concerned because we're going into the golden age of mankind. And we're moving on up into the fifth dimension reality. So the idea of death is something Okay, go ahead. What if I hate what ifs, but under a contract? We have to deal with? Well, yes. And you'll find a lot of what ifs in the Managing Director, contract with love won society. It has to be there because we're dealing with two things. We're dealing with the earth, and we're also dealing with the heavens. So there's things that we'd have to put in there that are specific for that. So I wouldn't worry about making a profit. If you sell your building and move to another location, that's just your salad and that's it. Or you could give it to somebody and then you're not making anything but a little little profit is. I don't know. Go talk to your counselor about that when they help you man It's more than that just kind of be settled with him. Let's go to the next question. Well, the

**T** Tracee 25:05

Alliance sorted out the evil from good charities, I believe few, some or most charities have been taken over by the Cabal. On the CAC website, I've counted at least 40 listings of Planned Parenthood charities and one for Bill, Bill, Hillary and Chelsea Clinton Foundation, charity, I clearly see them as evil. I'm sure there are many more that siphon money from the people.

R

Ron Giles 25:32

You found a reality that most people don't really understand charities are a way to launder money, you can give money to a charity, and there's no and you get a deduction in the income. And then it's your charity, then you just take the money from the charity, that's the way to launder money. They have been doing that for years. And we don't have to be involved with that. There's a simple little thing. When you have a charity that you would like to get involved with, go into your heart or see what your heart says. And then have a meeting with your counselor and see what your counselor says. They'll know who the bad ones are and who the good ones are. But you got to come up with the idea. And then they will support it. whatever idea you come up with, they're not going to countermand you or whatever, they'll work with you. But the final decision is always going to be yours, they will not take responsibility, away from you, and start telling you what you should do yourself. That's, that's the relationship that you're going to establish, but I'm just here to tell you that that they will not be telling you what to do. They will be counseling with you. And if you ask them questions, they'll work with you on a basis, it is very appropriate for you.

T

Tracee 27:10

Okay, so I'm glad that you actually said that, because somebody was, you know, we're doing these, like, share your project things. And somebody's like, Well, my project is to fund all the existing charities. I said, Well, are you aware of the fact that many charities are very top heavy, and very few of the actual funds raised go to support their cause? And they weren't? They weren't aware of that. And so I think this question is good that you think that the ones that are used for nefarious purposes of money laundering and all that? Do you think they'll still be in existence, so we'll have to use a great deal of discernment with them.

R

Ron Giles 27:50

Yeah, some of the greatest our charities are the United Nations, and the Red Cross. Many of those, and I don't know about the church organizations, but I would suggest to you that you use your heart and your counselor, they help you to know who is who or what is. But in my opinion, and this is just my opinion, I won't be giving to any charities, I don't have time to check them out. I don't want to have to have time to check it out. They have other people that are out there, we'll be doing things that we'll be finding whatever I don't, I'm not going to get involved with charities just don't think it's right. However, you go to places like Australia, New Zealand, or excuse me, Africa. And you have people who are already involved in training and helping with children there with their orphanages, whatever, with their schooling. Those they don't call them charities, they call them NGOs, non government organizations. And you can go ahead and be involved with that. And that's really good. But you have a chance, on a personal basis, to either get people out there looking for them who you trust. And so you don't have to be doing so much of that. When I when I get into Africa, I have a set plan that I'm going to do and gets first of all, get the children off the streets and put in in them into what they call plantations. They call them plantations over there. Here, it sounds like it was a place for, for slaves and so forth. But over there a farm is plantation. And so they can you can do that and it's not a problem. And so, you you build concrete walls around your structure. So You don't have animals walking through, those are the kinds of things that are very helpful. And then they can

have living units and, and you're building a new town that can grow and grow and grow. And then you can do another town over next door to it with the same wall on one side, and then another, a one of the sides, and then you enclose it so that you have safety and security. And you have people there that can take care of problems with health and the whole, the whole thing can work out really good. And we've got a lot of people that you can work with. And you're you're there farming most of the time. And obviously, obviously, some of the most of the time, but then you want to have time to train. And those are those are things that you need to work through on your own mind in your own mind. Next question, please.

T

Tracee 30:56

What do you Oh, wait, sorry, we have heard you talk about trespassing? Could you talk a bit more about it? For example, if I share a prayer for someone on the chat? Would that be trespassing? Or telling someone to watch a video on YouTube? I'd like to know a bit more about what it really means is I think it's important.

R

Ron Giles 31:16

Well, it's it is it's a universal law that you need to understand. And of course, we don't know anything about it, because cabal doesn't want us to have that kind of knowledge. So we don't understand universal law. And people say, well, universal law that's not in the Bible. Well, of course, it's not in the Bible, they don't want you to know about it. You know, don't tell me and justify this not in the Bible, that's not true. Because you're going to find out a whole lot of stuff that's not in the Bible, that's more true than the Bible. That's I don't, I don't want to have to go there. trespassing. The concept of trespassing is that you violate my sovereignty. My sovereignty is my domain is my kingdom. My kingdom is just like, we can talk about the kings and the queens and their kingdoms, and so forth. Well, one nation goes against the other king, and that's war, that's a violation of trespass have gone up, they've gone to somewhere where they're not have not been given permission to go. When we get involved with the interstellar travel, you have to make arrangements before you go. You have to, and they have to give you permission to come into their country, or their nation, whatever it is. If you don't, then that's a violation, then they can, they could just simply suit shoot you down, because they don't know who's coming from space that could be causing them problems. So they're going to be very careful about that. And you're better be careful, your shell, don't trespass on anybody else's domain. Being them, call it what you want. queendom that's your sovereignty. And you and you can't violate that. So there's, is is asking a prayer for somebody, no, that's not violation. You're just asking for a prayer for somebody. And God knows what that's about. It's about love and care and concern. There's no violation in that. Because there's no intervention into their lives without their the God of God and their divine directions for their own personal life. You're just putting them the energy out there, that can't be used for that particular individual. It does not intervene into their lives without the full justification of God and their, their, their spiritual hierarchy that's guiding and directing them to their purpose in this life. So you're just sending out the energy and then to them to use it one way or the other. So don't don't stop praying for people, especially if they ask. I think that's enough. Next question.

T

Tracee 34:36

What do you in the Alliance know and think about the celestial chambers produced by are to be

produced by Jared Rand?

R

Ron Giles 34:50

It's a good question. Jared is a fine person and he's doing a really good job. I haven't listened to his two and three hour for a very long time. I celestial chambers is probably one of the best of those of the celestial chambers or med beds, whatever you want to call it. And I think that's really good. What has have I heard from the Alliance, there are no med beds or med bed technologies that exist without a flaw. There's problems with them. And then I'm asking for the heavens to produce that change in our in ourselves, all of us at the same time, that would put us back to our perfected blueprint of a human being perfected blueprint, that means that all of us is, is function, all of what composes me is as a person, as a body as a unit is all functioning properly. And if it is, then I have the fullness of God's creation energy that's been energized into my body. Now it's just a matter of me coming to the mind, part of it, where I come out from my heart and the mind, in my mind is being told what to do. Well, that's how things take place. So yard Ranch, probably one of the better. I don't compare those sorts of things. I don't inquire about those sorts of things. Because I'm not involved with him. Where I to be involved, that might be a good place to put some money as as as a managing director, so I wish I had a better feel for that for you. But I don't. Because there's some conflict in my mind. That's that's already there. Next question.

T

Tracee 37:01

It'd be so helpful to see some examples of her pose tacs. And the NRA pls to understand how my program might be set up systems management is not my forte I answer

R

Ron Giles 37:15

to help you. Yeah. Okay. Well,

T

Tracee 37:18

okay, so I have been working on a page on the website. And that page is under the More tab, and it's the directors training academy. They have a lot of good information on CACs. And the second thing is we are doing project sharing some people's project is just the CAC. So please stay tuned, as I will be recording some examples of the CAC and the NRELS, we currently have a committee that Ron and them are working together just to fine tune some of the details that Ron wants changed. So that will be forthcoming as well.

R

Ron Giles 38:03

Thank you, if we're having if we were seeking funds, to build a CAC, and just the building, or the location, don't make it nice and pretty. And we forget the funds enough to do that. That's what I plan to do. I'll take videos and and show everybody well, this is this is what this is, break room this is for this room, this is for that. And this large auditorium time is thing in the back is

for a lot of people can come in on a given day and and we'll have our people there that can help them sign contracts for small businesses, because the small businesses, once they learn what's going on, they're going to be knocking on our doors. So accommodate that by having a place for them to come and we can sign them up. And you know, there's there's ways to facilitate that there's applications and that they can fill out so that all the information can be put on the computer and and so the contract is the will I will I feel is a contract is also is digital as well as physical, so you have some physical documents that you can keep, that are not subject to messing up from the internet, something like this. That's the way that contracts need to be written. And we can do the preliminaries but there always has to be a current hard copy of what we've got. So that's, that's my understanding as far as contracts are concerned. So we'll we'll do the contract. We're interested in doing them very carefully, and then make them available for managing directors. To be able to use, as well as this, their directors and learn how the legal aspects of it so that they can understand how to make a contract, and how much to offer their, their business owners and the employees. And a lot of that has to do with with businesses and the business owner and what he wants to do with his employees. So there's a lot of things that we're going to do. And when that happens, and we'll be in good shape. But we're trying to get some money to build a CAC and take picture so much. So we'll see how that goes. Next question.

T Tracee 40:42

Well, that sounds pretty amazing. I can't wait to see that. Okay, next question. To get away the dreaded meant in employment. May I suggest renaming employment contract agreements to employee contract agreements? And then Kevin had said in enjoyment, so instead of employment enjoyment, so something I don't know, what do you think about all that?

R Ron Giles 41:09

Yeah, we'll throw that to our accounts for or excuse me, IRS. The person who is building our contracts for us, and because he's already up on that sort of thing. You know, I knew word for government is governance. O T and governments governance. Okay. That's good. No, yes, that's what we're addressing that. So let's move on to the next.

T Tracee 41:43

Once I'm up and going as in benefactor, and have set up CAC in my local area, I'd like to put together mobile teams who had traveled to areas where I see holes on the map to provide financial and housing assistance to those lesser accessible places of which there are many within Australia. I see myself financing housing, by buying holiday combinations to create halfway houses as places for people to live for as long as they need to, who feel overwhelmed by the minute download to catch their breath and beneficiary assistance to indigenous communities by setting up CAC's. In these Outback places, do you have any ideas or suggestions about this proposal?

R Ron Giles 42:25

Well I think it's an excellent idea. I see that as being very viable. So I would do the same thing

well, I think it's an excellent idea. I see that as being very viable. So I would do the same thing myself. halfway houses. It's a concept and understanding from those who are not in the house halfway houses. I'd rather call them something different. Make it more personal. Yeah, get people into homes as quick as we can. And even if we have to pay some rent for people to get into a home, let's just to see, once they have the beneficiary account, they're going to get a lot of money. They can get their own homes, they can get a rent their own places. And oftentimes, renting is much preferred by people, because it doesn't lay down a taking root sort of place to live. But until they find a place to put down roots, then they want to have the flexibility. And I understand that. But keep in mind that the beneficiary program will give them enough money to do that, especially if they're married, there's two adults in the family. Next question.

T

Tracee 43:50

Are We lumped in with one of the other two groups or are we going to be processed separately the RV has been sectioned off in groups T one, t two T three T four a, t four B and T five, are we able to make appointments with T for a or b? Or are we going as a special group outside of this structure? If an 800 number is put out by the gurus, can we call for an employment through that line? Or does LWS has other means?

R

Ron Giles 44:22

It's an interesting question and obviously one that comes from one of our new peoples.

T

Tracee 44:30

Well, we've had a lot of new people. So

R

Ron Giles 44:33

yeah. And so let me talk let me say something about the T one sets on the internet. All of that was put together by people who wanted to, you know what is T A compared to t b or T for a compared to T for B? While T for a oh the big guys and T for me are just the rest of us. And a tear fire fire Even some public. And, okay, if you want to go with Kerberos, then you're going to find that this is important for guru. For people who follow in numbers to come up with an 800 numbers, is going to be pulled out by gurus, we call for an appointment to that line or, but we have a different way of doing things entirely different way. The Redemption of funds is not for everybody. The Redemption, where we go in and take our bonds and redeem them is only going to be for those who have a calling from God to be a humanitarian. That's all there is to it. So all of these ghosts come up with, there's nothing that they can say, because there is only a certain group of people who will be getting redemption funds. And we're not doing things that any guru says, you will be contacted directly by the Alliance in a way that you do not perhaps now identify, they it's a surprise. And they will call you and and you can make your appointments. And that's the only way that it's going to work as far as the alliance is concerned and who has the money, money talks. And if you're not part of the Alliance, or doing things the Alliance way of redeeming your bonds, you're not going to get to redeem them. It's that simple. So if you want to be with gorillas, then they'll give you their way of doing it, but they don't have any money. Period. Exclamation point. Tears for a are the big people who have 1000s and

1000s of 100, keynotes. They many of them have already been gone in, they've gotten SKR. That will never be funded. Because they're not humanitarians. There's a line of demarcation between bond holders in bond holders. And that is, if you're a humanitarian, a vetted humanitarian, you will be getting funds. If you're not, then it doesn't matter how much you have, how many zim? How many are the rates, I've heard, some of these big people are asking for five cents per per zoom. Great job. Get these get these big SKR's. They're not humanitarians, they won't get a dime. Sorry. This is a way for you people, you knew guru or excuse me, you cabal type people to have funds into the future, you're going to be eliminated. The Alliance knows where every dime is. And you're not going to get any of it. Period, unless you are a vetted, humanitarian certified by them. And if they are certified by them, they'll give us a letter indicating that you have all this necessary to become a human managing director. That's where it's going to happen. So I would suggest that this person and others who were similarly involved with the guru stuff, go to love won society and get started on your projects or on your trainee and see how see where the differences. Okay. Next question.

T

Tracee 48:57

What happens if I only request 50 years? I'm assuming this is for the structured payout program. Will all my recipients of the RSS program have their funds cut off after the 50 years?

R

Ron Giles 49:13

You will have your friends cut off? Okay, this is another worthy of question. What if I only want to do it for 50 years? What should I do? Well, that's none of my business. If you don't want it for 100, then let's have if you don't want it for 100, then I don't have much to say. But if you want it for 100, I can show you how to do the whole thing for 100 years. You want to cut it off at 50 then cut it off at 50 at 50. You won't get me getting any more funds from the structured payout. You can ask for 1010 years, 25 years, whatever you want. And then you got to check your mind have God put the thoughts of your mind into your heart and then ask the question again. Because if you're only asking for 50 years, then you're cutting off everything. Perhaps before we get to the fifth dimension, perhaps you're going to be causing problems for a lot of people. Why would you do that? I don't know. That's why I just really don't like well, if questions. Okay. Is that that's the last one, Tracee. Yes, sir. Okay, well, that's it for today, then, folks. I hope you have a pleasant day. And until we have another set of questions to ask, we'll, we'll come back then. And until then, you'll have a good time and keep training and keep getting involved in the education programs that are available to us. Love you all and appreciate your being a part of Loveland society. With that, let's say goodbye for now. Bye bye
