SPEAKERS

Ron Giles, Tracee

R Ron Giles 00:00

Good morning humanitarians. This is Ron Giles. I'm here with Tracee going to be asking the questions, reading the questions, I'll be giving the answers. And so today is November the 22nd 2021. So with that, let's go ahead and proceed. So with that, let's go ahead and proceed.

T Tracee 00:21

How can we be benefactors if we live in South American countries such as my country, Ecuador?

R Ron Giles 00:35

There is absolutely no difference. As far as benefactors are concerned for whatever country they live in, if you can get onto the Internet, you can get onto our programs. There's different ways possibly, a number of different thoughts of how the alliance will contact you. But they will contact you in Ecuador. If you're a humanitarian, who'd been prepared to be a benefactor and love won society. I said that sounds like I'm excluding other people who are not part of us. And that's not my intention. Anybody who has a valid humanitarian will receive their information from the Alliance directly. So there's no difference between South American countries such as Ecuador. Next question.

T Tracee 01:27

Do you have any info regarding when the 5D solar flash may take place?

R Ron Giles 01:36

No, I have no idea. When it will happen, that'll be great.

T Tracee 01:46

When we receive these funds to help restore Earth, are we rebuilding to go back to Atlantis times and do the humanitarians use these funds before? And after the five d ascension shift?

R Ron Giles 02:00

It's an interesting question. It's all speculation, wouldn't you say? I haven't heard anything about going back to the Atlantis times. Why do we need to go back to Atlantis times? Why can't we just go on from here? There's no reason to go back and go through it all again. That's my opinion. That's my question. But I don't know. Just simply don't know. Next question.

T Tracee 02:28

I'd like to work with other dimensional beings, is this possible to connect with any now?

R Ron Giles 02:36

Well, I can't tell you that you can't, I can't tell you that you can. Who's the one in charge of your life. Keep in mind that there is dominion, we haven't talked about that much. Your Dominion is your responsibility. Having given you free agency, they will not cross over into your Dominion by coming and contacting you. If you know of somebody out there that you want to contact and give permission, I give permission for contact for those who are interested in contacting me from outer space or from another dimension. But you better put yourself under a very, you know, the light of Archangel Michael and, and and all of the heavens to protect you from anything that you might be doing. We don't know what's going on out there. We're assuming that the dimensional beings can come in and be just perfect and flap their wings bits and for any impression go sit in the corner or put them over in the corner and sit down talk? We don't know. I don't know. So it's an interesting question. I'm sure that it's one that you're contemplating. But we have no problems in working with people from other dimensions or other star nations or anywhere else. Any nation here on the earth as well as Star nations in the galaxy. Back that will be happening. Next question.

T Tracee 04:10

I think it would be super cool. Okay, I just want some direction on where to start with information. I have some Zim where do I start to learn all about this, I am new and was directed to your site.

R Ron Giles 04:24

Okay. And I appreciate the fact that you're coming on board and there's a lot to learn and there really is it's like going to school. And the best place to start would be on the website. Starting

there and read the materials. And then if you read the materials and the other videos and software will make a little bit more sense and you can bounce the balance the ideas from the videos to the written materials, see if there's some consistency there and There is. So you'll be able to do your own research and go at your own pace. I don't know Tracee, how many videos have we created training videos, there's over 60 a thing. Maybe 65, something like that. So there's each one of those We're about an hour. So you'll have plenty of things to listen to and to work with. But you are the one that needs to do it. We're providing all of the videos and stuff. You're the one that needs to listen to him and create your own thoughts about becoming as in benefactor. We're here to help you as much as we can. It's your responsibility and come up to speed and as fast as you want to you will. Next question.

T

Tracee 05:47

I'm listening to the 11/16 questions, and I heard Ron say that he will be sending out Zim benefactor contracts for a signature. I hadn't lodged in my pea brain that we are contacted to go to our redemption appointment trade in our Zim for money. And then right there signers and benefactor contract. What changed and why?

R

Ron Giles 06:08

Well, I'm not sure where you got the idea that there will be a Zim benefactor contract at the redemption appointment. I I've never said that. I've always said that after we get the money, then we can afford the people to who write up the Zim benefactor contract. So I'm nothing is changed from my perspective. It will not be, it'll be an E signature, because we're not going to fly around every location. And we're not going to wait for snail mail to get everything. We'll do it electronically, and then send out the paper afterwards, so that everybody has a written copy. There's there's good ways to get this done. And we'll find the best way about the contract, benefactor contract will not be available at the redemption appointment. Next question.

T

Tracee 07:05

My question is the burning question. When will this happen? I guess the responsible thing to do is pray for the proper time for this to happen.

R

Ron Giles 07:15

Well, if you want to be in harmony, you'll pray for the appropriate time for it to happen. When you know, I don't even get anything from the heavens, concerning the wind. I don't get a lot more information and cyst available from listening to people on the internet. However, if I do get hear something from the internet, I can ask if it's true. And sometimes they'll say yes, and sometimes I can't give you confirmation on that. So we're all in it together, there's no reason for us to be pushing this. When we push, we push, it frustrates us. The Alliance is already frustrated, because they're not getting it done as fast as they want to. But there are certain things that have to happen before the RV can take place. And like I said, in my last post, the the Allman, for it to take place is a Global Currency Reset, study that find out what it's about. Because until that happens that the RV will not happen because it could happen at the same

time. That's okay. But the Global Currency Reset has to be in place before the RV takes place. So those are the only ways that I can help you to get to get an idea what's going on. Next question.

T Tracee 08:39

Could you speak of exercises we might do to get prepared for the enormous responsibilities of making all this good stuff happen? I've been blessed to help many people one person at a time, and I get excited about the possibility of helping millions at a time. Ooh, that feels good.

R Ron Giles 08:55

Yeah, I like the idea of that we can help. The most important thing that you can do is do one person at a time. It's it's like the kid who's walking down the beach and start fishing or whatever they they came and we're crawling up the and and he was over there throwing them back in. And a guy came along said you can't save them. You can't save those fish starfish. She said well, I can say this one and she threw another one back in so you do one person at a time. One person can start helping other people and you're going to get up to your 1 million people because you started. Keep in mind that we are not personally going to have to do or in contact 1 million people. But what we're doing can affect 1 million people. And if it's only 1 million people I would be very, very, very, very surprised. We'll be into the billions. Next question.

T Tracee 10:00

Can we join your benefactor group and other benefactors groups? I will want to help all the people and animals I can.

R Ron Giles 10:11

Can we join your benefactor group?

T Tracee 10:15

I think what they mean is can they work with love won society and other things? Like I mean, I know Simon Parks has connecting consciousness and I know that Holly Celiano has something. And I think that's what they're asking.

R Ron Giles 10:34

Okay, well, from that perspective, they don't have benefactors, if they're benefactors, it's the name, benefactor, Zim benefactor that's associated with level on society, if you want to join other organizations, I have no problems with that. I really don't know, if you follow their directions, through the redemption appointment, you may come up with an entirely different set of circumstances than you will if you follow through with ours. I don't know anybody who is

asking for \$500,000 or suggesting \$500,000. Present, you will not get that with Simon parks, you will not get that with Charlie or anybody else. I'm saying this because I have been told to tell people this, about the higher rates and the higher face value bonds that are available for people. And from as long as you know about it, then you know that it's there. And that's all I'm trying to do. I'm not pushing it. I'm just saying they are there. So now when you get you're in tune with your guidance system, you will at least have a basis of understanding of what they're trying to help you. So it comes line upon line, precept upon precept until you gain enough information so that they can present what they're going to present for you. And so I'm telling people \$500,000 per Zim, just to get it in our mind that there's a horrendous amount of money. We're in this tremendous amount of money available for us. Tremendous amount of money available for us if we will do the right thing. And benefit humanitarians are the ones that target the alliance is trying to get up to speed so that they're the ones that get the larger amounts of money. And those will be loved one society people simply because they're the only ones that are told to ask for it. Next question.

T

Tracee 12:40

I understood the mechanism of setting up a particular amount per week, how does one decrease or increase that amount? It will be hard to remember all we did do we have to control those amounts? Or will your system be able to provide that information?

R

Ron Giles 13:00

Well, it's a it's an ambiguous question. sending up a particular amount per week, well, are you going to reverse engineer say you want \$1,000 A week? Well, it comes back to 10 cents per minute. If you want \$2,500 per week, then it comes back at 25 cents per minute per week basis. Each one cent is \$100 on a weekly basis, you can work it out the way you want. Now, if you're talking about the platform itself, the beneficiary platform that is set at 10 cents per minute, if you have a contract that you want to do with somebody, and you want to give them a certain amount per week, then you go ahead and figure out how much money they need for that, how many, how much per download, they need to accomplish that. And you can set that up per week because as as in benefactor, you have the ability to change the download for contracts and for I'm calling them benefactor accounts. But the beneficiary accounts that were let's just love won society and the platform. That's 10 cents per minute won't change. Next question.

T

Tracee 14:19

Do we have transcriptions or closed caption videos in English for any of the trainings? Let me answer that. I spent the weekend uploading all the videos on YouTube. They are all unlisted. So I will send out a again another document that has the links to save and I have been posting every single YouTube video link to that so you guys can translate into whatever language you want.

R

Ron Giles 14:47

Okay, you might just mentioned the there's some who don't know what the YouTube process is

Okay, you might just mentioned the there's some who don't know what the YouTube process is. If none of our videos will be open for public you have to have those links to get into that link to get into that video. You can't just go on YouTube and start searching around because it's not on that list of searches. It's only for love won society people. Is that correct?

T Tracee 15:18

Yeah, that's why I have all the links posted on that document that says important links to save.

R Ron Giles 15:26

Yeah, you're not going to be able to go to love won society and do a search on love won society programs and come up with something you have to have the link specifically. So there you go. Thank you, Tracy. For that's a lot of work that you've done. Wow. Thank you very much.

T Tracee 15:42

You're welcome. Would it be okay, to notify the people I've gifted currency when it happens?

R Ron Giles 15:50

Well, who's gonna not give you permission to do that? I mean, we're not in charge, you're in charge. If you want to, if you don't want to talk to him, don't you do? You're in charge. Next question.

T Tracee 16:07

Well, 500% or 500,000% dollar be enough to handle real estate and employment contracts per 100. T, in addition to RSS.

R Ron Giles 16:20

Yeah, when you get money for yourself, right now, your paycheck whenever you figure out your budget. And that's what you can do. And you're asking me if I can do all of these things. And I say it's, if it's in your budget, then do it. You'll find out kind of a perspective, all of the in the United States, there's 51 \$52 trillion worth of real estate, homes and condominiums and so forth. As 52 trillion, okay, so how many trillions would you need to give to put into your budget for doing real estate, we when you're getting quintillions of dollars every quarter, or 1.25 quintillion per quarter. So these are the kinds of things that you'll be working with in terms of making the decision about what you want to do. If the real estate people, I mean, they could go and start selling \$10 million homes, well, that 10, there's only a few of those around, but in comparison, and you have the ability to counsel with them and figure out the the market that you want and where you want to go. Market meaning the high end, the middle or the low end, there's plenty of room and opportunities and all of those areas. And in which area geographical

area, you want to set it up in what city, what state, all of those things are under your control. And you figure out how much money is going to take to move forward into another area, then you already got plenty, let's go. So it's going to be driven by the amount of money that you have and the decisions that you want to make and how you want to spend it. This can be very difficult for you to spend 1.25 quintillion per year or per month per quarter excuse me, as five quintillion per year, the whole economy for the world is at 220 trillion per year. So we're going to make a large difference. We're going to do it properly. So everything will be done in accordance with and in harmony with the Alliance. We're not gonna cause any problems. Next question.

T Tracee 18:48

They're referring to the referral cards for the RSS. And she says, I went back and looked at the example, or samples you provided for the small card for a benefactor to create and distribute to get the word out so that a person can register to become a beneficiary through the RSS program. The card is for the new Share account registration. I'm using your example to create my cards using PowerPoint, as you suggested, then I will have them printed. One thing seems to be missing when they register, what do they enter so that I am the Benefactor funding them? I don't see any space to provide my account code or is that the referral ID number.

R Ron Giles 19:28

Okay, as the as the original top of the pyramid, whatever you want to call it. You're the one that starts the whole chain of Sim benefit beneficiaries after you. It is absolutely essential that nobody knows who that benefactor is. There's no way for you to know the people who are in your program, at least the way we've we're setting it up so far will we need to we'll get some better instructions and figure out how to do that. But right now you are anonymous. And you're going to remain anonymous unless you want to let your name and, and publish it all over the world that I'm the Zim benefactor. And then you're still not going to know the people in your program. So there's nothing missing because you don't put that in there. Now, on the card itself, there's a person who is referring another person into the program, that referrals is from somebody who's already existing in the program, they have an ID number. And so that is a referring ID number that they'll use for their registration. That's absolutely essential, because nobody can come into this, unless they have a referral from somebody is hurt again, that referral will have an ID number, use that to register. Next question.

T Tracee 21:05

And also, when we get to that point, instead of everybody needing to create them on PowerPoint, we will probably I'm assuming that we will come up with something easier so that people aren't trying to create their own cards, right? Like,

R Ron Giles 21:22

well, yes, and that's true. And what my plan is, you know, how many 1000s perhaps hundreds or 1000s of these little cards are going to be printed, we go, we go to a Vistaprint or something like that where you can go online and we can work out a deal with them to do things. Exactly

like that, where you can go online, and we can work out a deal with them to do things. Exactly my just plan it so that they can we buy them and they just do what we asked them to do. And we're not making money on it. So we can maybe have them very, very low price, maybe just the cost of shipping. You got you got to have somebody young have some skin in the game for you to make to be certain that you have an interest in it. That's how we're doing, we don't want to go around do everything for free. They're gonna have plenty of money anyway. So if they, if it's all free, then they don't think they don't have so much invested in it in terms of emotions, you know, put your money where your mouth is sort of thing, you have to have some interest in it, in order for it to have value to you may change, but it hasn't changed so far. So doing things for free is not a good thing. However, really reduced rate is a good thing. So it's like the \$10 was the \$10 go for register, that's not certainly not going to help the the, the whole system pay for itself is just a token. Meaning that you have to do it, to do it to be a part of our program. But it's very minute in terms of its ability to give you money back. That's all I'm trying to say the \$10 is your token to get in. Once you're in, then the whole program is for you. And you can do it as you want. So there's things you don't need anything other than what's on those cards. And we can use those cards, we can, we can go to Vistaprint say, here's here's the choice of cards. But you don't have to stick to those choice. But the thing you want in there is who referred you the ID number, and then you have the and then the location where you can go to find that those are the three important things that are on that card, that you don't have to follow them around and tell them about give them the card, they can go to the website and go through the training videos and do anything they want to do. And the training videos will be of such a nature that somebody can join and we'll have it on the video. Somebody joins and their their name is comes up and then the 10 sets per minute starts going into their account. They can see how it's going to work for them. Those are the kinds of things that we have in store. But go to the website, watch the training videos or the Yeah, let's call them training videos. This is the guest and then you can go to another portion of that website and and register. And then the third part of that website is where you have your personal office. That's where your money you can see your money coming into your account. So coming but the card is an important thing. I it's my idea of an important way to get it out there. It is not the only way and people will come up with other ways but those are the three things that need to be in cards in my opinion. Next question.

T

Tracee 25:04

Can I join if I have no zims or currency to exchange?

R

Ron Giles 25:12

Well, you know, you're asking me a question. If I don't have any money, can I get into the show? Well, you got to buy a ticket to get in. And I'm not sure that we're talking about the ticket here, we're talking about your capacity and capability to function within the love won society. If you don't have any money, then join up with somebody that is getting some money, find somebody that you can help do humanitarian work, they're going to be looking for you. They're going to be wanting to advertise for you. You're a rare commodity. So if you're a humanitarian don't have Zim and so forth, you will be useful in the whole movement of the humanitarian movement for the Alliance. So don't don't say, Well, I don't have gym so I can't do anything. When the time comes, you will be contacted and you're being prepared. Now the next question, why don't you have him? It cost five less than \$5. For you to get a 100 T note from eBay. I'm not pushing eBay, I'm just saying that that's where they have a sale for one. Zim

one 100. Sam don't, it's gold, it's not the paper. But the the the alliance will redeem that. So for \$5, you're a player. Now, if you want to spend just a little bit more than that, then you can go to 10 100 T notes for \$13. And they ship it free. Choice is yours. There's no reason not to be getting Zim period. I mean, if you breathe or, you know, if you're going to buy an Apple, or whatever you're going to buy? Don't, don't give up that, give up that cup of coffee and go buy your gym. Next question.

T

Tracee 27:06

I have created projects that require funding to love won society provide assistance, to getting projects from concept to reality and help grow a global operation that serves global communities.

R

Ron Giles 27:18

I'm going to say no, because love won society as a platform. You use a platform for the things you want to do. Love won society is not the doer here. Were the platform that you do things with. You become a benefactor. And you can be part of the RSS program and anything else. But no, we're not into the or recommending any projects. We don't do that. I've got it all. I've got all I want to do. And I'm you know, I'm using my platform, their love won society platform for my donor for my projects. That's why it has been created. And we're sharing it with you if you want to use it, then good. If you don't, then that's okay, too. We just have some recommendations that go along with it that make it unique, and that's \$500,000 presume. So, this question,

T

Tracee 28:26

well, the agro checks be included in the revaluation.

R

Ron Giles 28:32

I've had that question before, and I'm not really familiar with it. I think if I went to the redemption, that's all I had, then I might be worried. But if I have other Zim and I go through redemption, I'll take along the agro checks and ask for the same rate for them as I'm asking for the Zim. It's my way of looking at it, but I do not know. Next question.

T

Tracee 28:59

In NRELS benefits to buyers 20% discount in sales price in Zim benefactor financing can still be achieved without the use of NREALS, Legal Zoom and title companies have owner financing contracts regarding owner financing. It makes no sense to use the RSS program why create a transaction that transfers funds from a Zim benefactor to a buyer and then transfer the same funds right back to the Zim benefactor?

R

Ron Giles 29:30

R Ron Giles 29:50

Well, you see, you don't recognize as the magic behind the whole program. If the NRELS doesn't make sense to you don't use it. That's the bottom line. For those who understand it, because the greatest thing since sliced bread, the NRELS is the process. It's a listing service. And this listing in that service means that you can come up buy the home. And through the process, you have a 20% discount of this in the sales price. So you're going to make 20% plus your 5% down payment as your equity going into the house. And as you do that, then we're going to up your download per minute to cover the cost of, of the monthly payments on a 30 year contract. Now, if you think you somewhere out there, you can do something like that, I'd say go ahead. If you're a benefactor and don't want to use our program, then go do your own. It's not our problem. It's not a problem with us. We're just here for the ones who see the magic and go for it. Just an idea. But we are setting it up as a listing service. It will be on the computer so people can find homes, just like the other listing services. Only ours will be state word nationwide. And per nation nationwide. Set it up in Nicaragua for you want to or Spain or wherever. But you just have to do it according to the laws of this real estate laws of that land. Next question.

T Tracee 31:22

I'm still catching up on the training since I discovered your program recently. Well, I have time to catch up before the funds are distributed.

R Ron Giles 31:32

Yes, of course, if you're motivated, you're Galleon and really understand that. If you're not, then the RB might come along and you'll be sitting there wonder, well I should do with this money. It's up to you. Follow your heart, follow your motivations. Go where go where you feel is your time best spent. But if you're gonna humanitarian, with love won society, you're gonna have to get in and get in quick and start digging. Because there's not that much time, there's not another year or two for you to learn how to do this. This is you know, you got to learn it all in one turn like you were going to university. This is love won or RSS 101. And 156 or 27, or 240. And whatever the the names of all combined into one class. Because when you come out of that class, you better be ready because the money will come and you you're you're up and, you know, swing and hit the ball. Next question.

T Tracee 32:42

How about people with existing mortgages? Can we refinance those mortgages with the Benefactor funds to a low interest rate using the benefactors funds?

R Ron Giles 32:51

The question is shrouded in a concept that somebody is going to be over us shrouded meaning. We're used to having somebody telling us what we can and cannot do. Now, you're asking me if you can do something with your money. And I'm saying Why would you ask me or anybody else what you can do with your money, you go and spend that you go and do your projects with it.

Nobody is going to be looking over your shoulder to tell you oh, you've made a mistake. Nobody. It'll be obvious to you, if you did make this mistake, and you sit down with your counselor from the angelic realms. You have a chat. And you're going to get some real good information. If you do it properly. They're not going to make the decisions for you. And you're asking me to make a decision for you on the use of your phones. Not gonna do that. Or your phones, it's your right to do what you want with your funds. If there's a problem, it will be with you being vetted as a humanitarian. If you're not vetted as a humanitarian, you already be getting the funds. So I'm assuming that you are humanitarian, having been vetted by the Alliance having gone through their redemption process. Now, what are you going to do? My job is to let you know that you are a sovereign humanitarian. Nobody is in charge of you. Nobody's going to tell you what to do. You can counsel with your angel, but the decision is always going to be yours. They're only there to assist. They will not be telling you things that's jumping through your into your dominion and they will not do that. So I'm just trying to let you know that You are the one in charge if you want to do it, do it. It's that simple. And in that simplicity is the attitude and the way that you need to approach your humanitarian work. You're the one in charge, I can't put you in charge of that money, and then not give you the ability to use it as you see fit. And then come back and judge you because you made a mistake. That's called free agency. We're exercising our free agency as a as a humanitarian and a sovereign humanitarian free agency means I get to make the choices. It's so simple. But we have not been programmed to do that we have been programmed that there is somebody who can tell us what we can do. Somebody, somewhere, a financial person, a banker, somebody like that always tells us what we are, the government can tell us what we can and cannot do. We're getting to the point where we are, we have the money. And if we have the money, we get to spend that money the way we want to. Now we're going to have to work within the the realms of the oneness, and of society to do things appropriately and in harmony, one with another. But the decisions are ours. My stewardship is my stewardship. And I take when I get done with that stewardship, and I go back and I get accounted for it. I am accountable for the decisions I make. Because that is my job. And they're not going to castigate you or tear you down or something or even chew you out or yell at you because you made a mistake. They're not going to do that. They can't do it. It's against the rules. You can't give somebody free agency and then get upset with them when they use it. So when you get your money, you're a better humanitarian, you are the sovereign, do what you want. Next question.

T

Tracee 37:26

The amount that a benefactor will receive may be huge, but the amount must be declared in advance at time of appointment and be fixed at that moment, while the Benefactor will have an endless obligation toward ever increasing numbers of beneficiaries, which are beyond control of the benefactor, how a benefactor can manage such risk of future possible funds shortage.

R

Ron Giles 37:54

I'm gonna ask this question of the person who did this. Who asked this question. What gives you the idea that we're going to run out of money? Here's what I'm saying. Our literature shows that if you have one 100 keynote at \$500,000 present, that's 1.25 quintillion per quarter, not per year per quarter. You take that one quarter, and you take seven and a half billion people in the world that are fully invested in their beneficiary accounts, meaning that they have the beneficiary account and six trusts 300 and some odd dollars per per year. You multiply that by

\$7.6 billion, billion people Excuse me. And you won't even spend one quarter of your structured payout to pay for the people all those people for one year, you'll still have it maybe take 60% of that one quarter payment. So I need you to get into the stuff get into the math. Find out what's going on. You will never outspend or out liable eyes yourself for the income that you're getting. You can't do it. It won't happen. Now, conceptually, it might conceptually but the reality is there is so much money coming our way. We will never have to concern ourselves with money again. That is called the abundance mentality. I'm never going to run out of money. I'm planning to take care of everything that's down The road that I can't see, how do I know that I go to my heart. My heart is connected to the oneness into the All Knowing of everything. The quantum field of understanding of knowledge, my heart is connected to that. So when I allow my heart to be in charge, it looks down the road and says, you need \$1 billion for your rate for the amount of Zen that you have. Thumbs up, let's go for it. You need to connect with your essence. And when you do, you will have the assurity that you never thought possible. You don't have to question yourself, you don't have to question anything. There's nothing to question. Oh, I couldn't, I don't need that much. Well, then don't ask your heart those kinds of questions. And then the little it when you don't get when you don't get the answer that you think you should have. Because your heart's not connected to your mind. Until you perceive what's going on. You get your mind involved in you'll screw it all up. we bypass the mind when we go to the quantum consciousness and the quantum understanding of all there is our heart connects to it, we get the information we're supposed to have for the down the road, activities that are coming at us as we move there. I don't know a better way for you to to work. I don't know of a better situation that God could create for us to do the work that we're supposed to be doing. You might run out of money if you ask for \$11 for 100 Tino very rare that you'll run out of money. But I'm asking for 500,000 or more at somebody come on today and says I went had a dream. And I was told to ask for \$6 million for my 100 Tino because that's what I think I'll need. He was sharing this with me. What a wonderful dream to have, or being supported and what we're doing way beyond your capacity now to really understand. Because you've never been there. It's all brand new. But you have to open up to the idea that we are becoming involved with the heavens again, to create the golden age of mankind. Cabal being gone, no resistance to us in our creations, everything is going to be so much better than we've ever had before. Don't drag into that scenario, your hellish ideas and problems that you had with this earth. Just leave it all behind and go into the paradise and know that it will just be perfect for us. Okay, next question.

T

Tracee 43:15

Okay, this one says can you please read my questions as they are if they are shortened, Ron might not get what I meant. Okay, wouldn't it be good a good move to focus our trainings more on the fundamental law of love at this present before we get out and spread the programs from LWS, because we are the ones who will act based on love to people with all the programs from LWS and we don't want to carry on any influence from cabal and our way of thinking. Without love. There will be distrust and divisions, I think we pass our love attitude to directors so that they can practice love and their service to people. When we talk a lot about projects in the golden age or structures of all the programs, the details, our focus stays the future. We don't know the details until the time comes. It doesn't help us live now when we focus on now we can feel love everywhere and feel happy. I'd like to hear your thoughts on that.

R

Ron Giles 44:10

Well, I appreciate your perspective on this. I do questioners to a certain degree. We want things to be this way. And so we work towards getting them that way. Am I going to go out there and force people to love one another. I can talk about love all I want but it's the love energy that you produce that's going to create love that's going to permeate through all that we do. Although it may be the best thing and the way we're looking for it, we can talk about love, but we have to take people from where they are to where we want them to go. Which is simple. It's a simple idea, but it's very difficult. You can't push love on people. You can't force us. Just people will love yourself worse how to have love yourself? You know, is there a book on how to love yourself? I'm sure there's a lot of people who write on it. And there's a lot of ideas of how to do that how to love yourself. But it's in the actual doing of things that bring you joy that you serve, you learn to love yourself, what do you think is open for us, when we start serving our mankind we're gonna open up to the love. Because we're, we're producing it, we're, we're manufacturing it with our programs, and with the way that we set this thing up, it's going to affect lives, overwhelmingly, in a loving sort of way. So when you went, you want to do this in the Cabal thinking, and everything is it's all there. And I appreciate what you're asking. But I'm saying that the love will come about as a result of us in our service to mankind. And we don't even have to talk about it. It'll just happen. Next question.

T Tracee 46:11

The beginning of the q&a on the 11th of November, you mentioned your military service for 26 years, because it was commemoration day in the in the States. To tell the truth. I was a bit surprised to hear that because 11th of November was a special day in a way that five d Portal was open to assist us to focus on the five D, I thought that was more significant than Commemoration Day. I'm not an American. So I have different images toward the military service than Americans have. And the word of military gives me an image that the military works under the Cabal regime, and they had been to wars or invaded other countries and killed innocent people before the Trump regime. Why do those care? Those things have to be glorified, especially in LW s, we need to move to five d, and we don't want to carry on any cabal influence on our thoughts. Do you have any thoughts on that?

R Ron Giles 47:05

Well, I can see your opinion. And I appreciate that you have an opinion about it. Guess you've never been to war to know the cohesiveness such created when you're fighting a common enemy. It's an experience that you'll never have outside of the military is something that's very unique. I honor those who have gone through it. I honor those who have gone to war and watch their buddies get their heads blown off. That's very traumatic. Is there a reason why I wouldn't honor those people. Even though they were under the influence of the Cabal organization, Steven started war. It's what we've gone through, it's our heritage, I would not demean that in any way. Because my buddies have given up their life for it. It's real hard to go to a scene of an accident where helicopter has gone down and three or four people have been killed. Did very hard. It's personal. Don't be flippant about this. Don't be judgmental about this. Be accepting of everything that's been going on to get us to the point where we recognize no more wars. Cabal be gone. We're moving into something that's beautiful. So we can't just ignore what's taking place to get us to this point. Because it is all just perfect. This is what God has planned for us to do. Goes back to the Luciferian experiment and everything. And I don't know if anybody knows about that. I don't care. I understand that from that perspective. I understand why we are at

war with one another, using humans to create things to kill one another. We're the ones that create that. And that's because of the Cabal influence that is on us as creators of our father, like our father. We just use the creation energy for the wrong thing. Now we have a chance to change that creation energy and create things that are good. It's the contrast that teaches us if we just had the fluffy stuff, we'd still be in heaven. We didn't come here for that. We came here for the contrast. We found out what it's about. It was an experience and we're moving out of it into the golden age of mankind. So we all have our opinions, you know, and monitoring the fact that you're having an opinion Next and expressing. And it gives me a chance to come from my heart and explain to you why my military experiences are sacred to me. The trying, they're the worst things you could ever happen. But we're here now and we've had the contrast. And we see that this is something we do not want. So, nobles useless, they can always be a good example, a good example of a bad example. We'll we'll go on from here. Next question.

T

Tracee 50:37

Please tell me where I can find a basic copy of the trust document that you mentioned in the 11/17 q&a? Want me to answer that? I know where it is.

R

Ron Giles 50:50

Yes. Yeah. You put it in somewhere in the forum, I think.

T

Tracee 50:54

Yes, I put it in the forum. There's a category that says truss. And I uploaded the example to that. If a homeowner is already on NRELS, and the payments are already being made by the permanent download, what if the homeowner wants to pay off his or her home before the 15 years? How do they do this and still use NRELS.

R

Ron Giles 51:18

They just go ahead and pay it off. It's a transaction that you you know, it's got to be registered, recorded at the county level. And as a lien on the property, just go in and pay off the lien. They'll take care of it. And then if the five years is up from the time you bought the home, then and you pay it off, you can buy another one. But you know, there's a certain amount of propriety in here. If it's if it's a set of circumstances where homes are really hard to find, and you're buying two and three and four houses, and paying them off every five years, a new one off every five years. Do you think you're taking a house away from somebody else? This is not an option. There's ways to make money. Yes. If you feel like that's the important thing, instead of helping other people get into a home that they've never had a chance to get into. Then, you know, you're not thinking communal community. You're thinking me me i. So if they want to do that, they can just pay it off. If it's five years, then you can buy a new home. Next question, for one.

T

Tracee 52:43

TRACY GILES

Nope, that wraps it up.

Ron Giles 52:45

That wraps it up. Okay. Well, let's wrap it up then. Thank you, Tracy, for your help today. And I hope everybody enjoyed the questions and answers and we'll talk again real soon. Bye for now.
Hi
