question, people, money, benefactor, zim, cac, humanitarian, thought processes, projects, prices, problem, alliance, appointment, economy, create, program, beneficiary, tracy, concerns, heavens

SPEAKERS

Ron Giles, Tracee

R Ron Giles 00:00

Good morning humanitarians. This is Ron Giles. I'm here with Tracee. We're going to do a question and answer video. Today is November, the 23rd 2021. Just a little bit before Thanksgiving. With that introduction, Tracee, let's go ahead and begin.

T Tracee 00:25

Okay, so the first one is not a question but a concern. I am worried about the map for Zim benefactors, and feel that this should not be given to benefactors but kept for their your purposes. I have family in four states and plan on doing activities in the towns they live in as well. The town I live in is a population of 8000, I want to remain totally anonymous. I have only discussed the RV with one family member and several close friends. My plans are to move once the funds are available. What are your thoughts?

R Ron Giles 00:54

Okay. I think my concern would be for a small town. Yes. The concern that I have, if you're the only gym, benefactor in that town, and you start putting out some money and so forth, it could be a problem. And by deduction, they could figure it out. But didn't have to be somebody that's very knowing about our program and Zim benefactors. But you can remain anonymous, simply by saying that I am. Who has access to that map only Zim benefactors. There's not going to be published anybody else. So the only persons who would look at your city and concern themselves with going in there and beginning their CAC, another CAC in that area will be from interested benefactors. With that said, there's no names, you're going to be on it, there's no way for anybody to know who you are. So I would like way lay those those concerns. Because just the structure of it, it means that nobody's gonna know who you are. And you can be in any different location, or work your process in any different location, wherever you feel comfortable. And if you're not benefactor, and you set up some CAC, and then no in another city, then you don't even have to have your name on it. However, we would like to know about it. Tracy, did you have other thoughts on that?

T

Tracee 02:29

Yes, he has. Because we talked to Ryan. And when he showed us the map, it doesn't say them benefactor. It says Community Assistance Center locations. There you go. So it's not revealing who the benefactor is, is just saying, Where are Community Assistance Centers? So hopefully, you'll feel more comfortable with that.

R

Ron Giles 02:50

Yeah, yeah. Keep voicing your concerns, perhaps in a personal email to either Tracy or meme preferred trace error me? Because I, you know, this is something that I need to figure out. So you're welcome to email me with your concerns. And we'll have private conversations or private emails back and forth about that. Next question, Tracy?

T

Tracee 03:19

How do I download all the LWS forms to print and put in my binder for redemption exchange.

R

Ron Giles 03:26

Copy, Paste. If they're a PDF, we've tried to figure some things out for that. But there is the ones that really could should be in there. There's a menu item says, manuals for your binder, something like that as a menu item. And then you'll find all five of them there their PDFs. And that will let you copy and paste or excuse me print from the website, those documents. So if you want to download them, you just go in there and download the PDF, and then it'll start doing that for you. And those are the ones that you'd want to put together in your three ring binder. Next question.

T

Tracee 04:18

I have a question about that. I printed mine up a very long time ago. Should I reprint? are they adequate?

R

Ron Giles 04:24

I think that they're adequate. They may have some changes with names or something of that nature, they are not going to go through. I have no idea why they would want to go through all that they already know it. And just and you might have some changes in yours that are insignificant as to what's happening. So I would not reprint and go through that. So a lot of work. And there's no reason to do that. In my opinion, I can't see that they'd want to read through it all. Anyway. Next question.

T

Tracee 04:59

Why does your LWS program need to be so detailed and complicated with the contracts, bonuses prescriptions, it seems very 3D, why couldn't each benefactor and beneficiary programs be determined from a more 5D level set up individualized and customized with your alliance counselor at your meeting, on going guidance from them?

R

Ron Giles 05:22

it's an observation that that you have made. You know, right now, we live in 3d. You don't just start on a 5D level with 3D people. I think about that, if you want to start with 5D level, you're going to miss everybody that is not at 5D level, we're going into 3D level, so that we gather the people up and they get to participate in the process of changing mankind and the thinking and the processes that we're going through. They can be just as much a part of the transition as anybody. Now, please understand, I understand well, I understand where you're coming from as part of 5D levels setup. But, you know, have you got confirmation, do you know in your heart that you're 5D type person, you may or you may not. And so I find a lot of people have some pretty high level thinking about themselves, and I don't want to tear that down. But thinking that we're so much better than other people, because we have five d thinking does not serve other people. And we're here to serve mankind, and bring us into the fullness of the golden age of mankind. So we're gonna start where people are, and move forward. So first of my thoughts on that next question.

T

Tracee 07:02

And the Alliance, have you designed it for a reason? So well, okay, yeah, besides that. So inflation could be seen as excess or increasing amount of money chasing a set amount of products. Now, with trillions or quintillions, pouring into economies, how can many leakage points be avoided?

R

Ron Giles 07:25

Well, I'm not sure what you mean by linkage point leakage points. The whole program is designed to bring people into the abundance mentality in other and you don't have abundance, and you don't gain the abundance mentality. So there's a lot of psychology behind what's going on. And I'm not a psychologist, I don't study those sorts of things. But I do know people who understand fully everything that's going on, that's what I tap into, and those are the people that I get my information from. So there's can be some concerns that people have. And that's okay. Those kinds of concerns will be waylaid or changed, if you want to call by the actual application and see how things are moving. Because that's where our expertise from the Heavens come through. Each of us is going to have that angelic realm counselor. And we do things according to in in harmony with Heavens as we move forward on an individual basis, as well as the general that love won society is trying to give direction to were very, very tightly knitted with the Alliance. And they've set up a program so that we can function as humanitarians at a higher than possible than we could possibly do on our own. On a higher level that will bring in the golden age of mankind. So if every person will counsel with their their counselor, and have good conversations, and get on the right sheet of music, then we can all

play our particular instruments, I call them projects, but we all get to do our particular instruments in harmony with one another and it's going to be beautiful music that we create. Next question.

T Tracee 09:34

How we'll use cars as an example although any product of limited production or big growing demand is similar, so 1000 Rolls Royce are produced only upper income people can afford. Now suddenly, many, many more people can afford it the prices bid up or Stradivarius violins or rare Chinese tea or any of 1000s if not millions of items. These are not items that can be suddenly ramped up in numbers. packet could even be organic Specialty Products initially, in fact, how many new China equivalents would be added in demand in the world economy? So that's a sure wait. Situational shortages are inevitable?

R Ron Giles 10:15

Are you? Are you complaining asking a question are pointing things out? I, I need you to understand. And Tracee, you said something about that earlier, this program was downloaded over a period of time. There's an awful lot of thought process concerns, you have these concerns, these same things that I've had. And when it comes down to it, the heavens prevail in putting forth this program. So if there's a problem, then go talk to God about it, get it into your heart and in your mind, and ask why and ask if your presumptions of these things are going to happen, that's going to cause havoc in your mind to society. It may not even be true, it may not even be there. And so I have to have faith that down the road, somebody is looking down there. And we're getting that information now. So that we're prepared, when we go down the road. I'm not sitting here and speculating what's down the road. That's not my job. And projecting what's going on here, down the road, even a year is probably totally out of line. And because it's not going to be that way in a year, we don't know. So the only thing that I can do is take directions from the Alliance. I try and explain it to people as if I was the one that did it. But the reality is, is that this is given given to us as the gift from God. In in reality, we created this in the heavens before we came to the earth. And that's why so many people are resonating with it. Because it's part of their creation. They put forth the energy to create this in the heavens before. And now you coming into view of it. And oh, yeah, this feels really good. Well, that's because you helped create it. Now, if you'd look at that, from that point of view, instead of projecting what is now down the road, then you just simply create your own faith in what's going on. And that's what I have done. I have total faith in what we are doing and in what's coming. Because we have the counselors from the Alliance who will help us. And we can avoid a lot of problems by simply just doing things according to the way that is in harmony with the heavens. Next question,

T Tracee 13:08

The stimulating of the economy causes large demand everywhere for skilled workers under demand, wages will rise. At the same time, many people would prefer to do their own thing as they already get a good wage from your package offered, as can be seen now with

unemployment benefits, causing a worker shortage. That's just a couple of many possible leakage points, can you then go into greater detail of how this flood of money is somehow prevented from bidding prices up? Did you just kind of already answer that?

R

Ron Giles 13:39

I did. But in addition to that, if you go into the economic stabilization system, the ESS. Or you look at that, and you understand what we're doing, when we go in and sign these contracts, we buy their products. We own those products. We don't have to sell them at a price to make profit. In fact, we won't. We don't want to disrupt the whole economy. But we control the prices of what is being sold to the consumer. So when you're talking about putting quintillions of dollars into an economy, and thinking that there's going to be shortages and so forth, and that people are going to suffer from that. We own everything so we're going to give a way or sell it at a price that is commensurate with the economy to keep it going to keep it working. There's no price runaways, folks, not have love won society's involved. We don't have to make profit Those who have to make profit start raising their prices. The whole effect of what we're doing is lowering prices. I don't agree with those who say we're going back to 19, whatever prices. I don't agree with that. Why? I have not heard from the Alliance about that. It may be coming. I don't know, I haven't heard about it. But the structure of the love won Society Program will prevent that from taking place. The faster we get into involved with everybody, the faster we stop all of that garbage. So I say look at the economic stabilization system, project that into your future. It's going to be interesting to see what you come up with. And veer in harmony with the heavens, and you'll see what their way of thinking is. In the program, these problems are not going to be a problem, if you understand what's the programs are going to produce. This goes all the way up into the international commodity clearing houses and everything. We don't have to make money. If we own things, we can sell it for the price that we want. Keep in mind that the people are going to be getting a lot of money and be able to afford things but they're not going to have to spend the money, what are they going to do with their money, they're going to create jobs are going to do things in their Creator through their creation process and an offering to humanity. I think this is the most wonderful thing that could happen. Instead of having everybody programmed to the eight to five job and so forth, they get to create from their uniqueness from their creative energies. It's going to be interesting to see how people change how the economy changes, as people give forth their talents, could be singing, dancing, whatever it might be mold, or sculpting. There's all kinds of things that can happen as well as new inventions. It's going to be really fun and exciting. So we want those people to have the money and come from their heart in the things that they want to do. We're giving them the opportunity to be creators, that they are, they're going to tune into who they are. Because there's no opposition to us now that the cabal is being taken away. What can we do without all of the restrictions and all the problems that the cabal has given us, they control the money that you can borrow at whatever rates and all of those kinds of things are going to go away. There won't be a dime of interest that love won society will get from any of the stuff that we do and we don't have to we buy stuff and sell it at the price that we want I don't have to make money every every quarter I can put in 1.25 quintillion dollars into the economy and not make a dime on it. Just see that look at what that's gonna do we buy everything so we can we have the prices, we can we can ramp up the the manufacturing sector in a way that you could never believe. And there's new technologies that will help us to sustain it to do it and sustain it over a long period of time.

T

10:50

T Tracee 18:56

I purchased 30 T Zim dollars after receiving the calling. My question is if they are the correct ones or not, I would like to purchase more after listening to your videos so that I can do more as well as help more.

R Ron Giles 19:10

I think 30 t's you purchase 30 trillion Zim dollars after receiving, okay, just one or more I'm not, you know, at \$13 for 100 tea and it's delivered free. That's here in America it comes out of California I not sure how that goes for other countries. But I believe that they that many have gone to the site and got their 10,000,000,000,010 100 trillion nodes. And it's been shipped overseas and so forth around the world. So there's, there's no you know, if 30 T is if that's what you need them, but there's more available to you and I would recommend it. And when you get more you don't change the rate you want. Right In your heart, if you get a 100 T note, or if you get 1100 T notes, and you have \$500,000 in your heart is the rate that you want. Don't change the rate down. You're gonna change it, change it up. Be open to that. Next question, please.

T Tracee 20:27

I was taken care of by Thailand and the kingdom of Hawaii. So I would like to cooperate with the locals to donate to humanitarian aid. If I have any questions, can I ask the Japanese version of the telegram community for help?

R Ron Giles 20:42

If you have some connections like that, then then don't ask permission, just do it. That comes from your heart. Sometimes the seller might decide before heart can really talk to us. But go from your heart. These are things that you want to do. I was taken care of by Thailand and the kingdom of Hawaii. Yeah. Is that appropriate for you to show your love and appreciation? And go in and assist them in making changes? We're not doing things for them. We're going to assist them, they're going to help us to know what to do. How can I help? I've got some money here. Maybe there's some things that you perhaps need, how can I help you don't go down to the store and buy clothes and say here, here's some new clothes for you. What's wrong with the ones I've got? My broken, we're not, these people are not broken. They just have black opportunities in their lives. And we're here to give them opportunities. Let them conduct their own lives. We just enhance it by giving them some resources so that they can make different decisions if they want to do that. So be careful, be careful with that. But yes, go ahead and do that. If it telegram boop, and over there didn't help them. It just act as a resource for you. And then again, do not ask permission, council with your, your counselor and come to a conclusion that you feel comfortable with and that they feel comfortable with. And then you go ahead, you got councilor. Don't ask me. Next question.

T Tracee 22:38

I was wondering about land ownership in the new world since no one can own nature? How do you think we can proceed with being able to use and live on a parcel of land that God provided

you think we can proceed with being able to use and live on a parcel of land that God provided for us?

R

Ron Giles 22:51

Boy, we'll see what happens when we get there. I wouldn't project like that. But that's what you want to do. That's all right. You're putting parameters around gifts that God gives you. As in it's got to be this way? How do you know there's no ownership of the New World? Did somebody tell you that? I'm just asking questions. Just asking questions. Somebody thinks they know they're just asking questions. How do you know that? How do you know that's going to be true? Why would you have an alter about that now, when that may not even have any relevancy in the new world? Yes, things will change beyond what we can understand. But let's not put parameters around the change and start making up our minds now for things that we're going to be doing in the future and say this is where it's going to be because with all your planning, tell God your plans. And then hearing laugh a little bit, chuckle and then he tells you, the plants, the plants. And you're just gonna jump up and down for joy because it's something you never conceived of. And it is always going to be better than what we can conceive of, as we look in our 3D world. Serious this is it's nothing like it. Nothing here on this earth and so forth, other than love and companionship and prints and so forth, will be happening in the new world. It's just, it's just gonna change. Next question.

T

Tracee 24:48

How will we know how to get an appointment to redeem our Zim to we need to sign up to love won society or can we go alone as I trust no one nowadays not to say anything bad about anyone, but I question everything now.

R

Ron Giles 25:04

It's a good idea to question things. But how will you get the appointment? I've said this before, and I'll say it 100 times, again, if the questions come up, the Alliance knows who you are, they have a plan for you. They know your heart. They know everything about you. They know the history of as many times you've been on the earth. They know all that. And they have a counselor who is designed specifically for you. How many years to see your her need to look at your life and know who you are, they don't have that they don't have to do all that. It's just in there knowing these kinds of people are going to be dealing with. So let that be true for you. Don't resist it, just let it be true. And then change your thinking to accommodate that in your life? Well, I'll know everything that I need to know. I don't have to be asking questions about the future, unless it's specifically about how to get through the redemption process. And then you from there on that you counsel with here, you'll get them funds you need and you'll counsel with your counselor, your angelic realm, your angel, whatever you want to call it. And you'll get the things that you need to know. Next question,

T

Tracee 26:39

I am a South African currently living in Germany, will I be able to contribute in both countries to the communities?

R

Ron Giles 26:48

Okay, there's some thinking that needs to be changed. Why would you even ask that question to me? I really, I really, I'm serious about and why would you even ask me that? If you that's a mother "May I" question. And I'm not your mother. Those are things that come from you. Those are things that come from your heart. And when you I'm gonna say it this way, when you grow up and understand who you are, you will know that you are the sovereign, the one in charge of your humanitarian work. They gave you the money, because they know who you are, you'll come from your heart, they don't fund projects. You think they're funding projects. They're funding you because you're the humanitarian, and we'll do the right thing with the money. And it won't change you and your heart. And that's the key to being a humanitarian and getting the funds that you need, they will assist you. But only those who are bedded humanitarians will get the money. So if you get money, just put yourself on a different level of understanding. It's not to be pride, proud and arrogant, and all that sort of stuff. No, it's where you're operating from. It's the thought processes that come to you. Because you are a humanitarian. That doesn't make you any better in terms of in the eyes of God, you just doing the different job. And your job is to get the money and provide that for the world to make the changes that they need to make. As long as we follow our spirit, and follow our communications and so forth. But within our heart and with our cancer, we're going to be right on the leading edge of getting everything down. Again, it doesn't make us hinder better, the point of the spear is no less important, or the rest of the Spirit and all that's important than the point of the spear. But the point of the spear is piercing into the darkness with all of the momentum that has been created by the spear. So you might be the point of the spear and hardened because of your activities in your life. But you're going to be there as part of the spear and that's what we're doing shall go wherever you want to go. Do whatever you want to do according to your heart's desire. Next question.

T

Tracee 29:28

Is the country Belarus in Eastern Europe QFS compliant?

R

Ron Giles 29:34

Couldn't no wouldn't know. I can't tell you that. It's not it's not in my understanding. I say you know which countries are I don't know what countries aren't. I don't know that either.

T

Tracee 29:49

I'm still not sure about the LWS projects versus my projects. Is there a difference? If there is how do I fit into the LWS projects?

R

Ron Giles 29:59

LWS is not a project. It's my project that I'm doing to produce a, the structures that can assist you and what you're doing. Now, in the structure of love won society is involved all kinds of different things that you can do Community Assistance Centers that structure can do anything

different things that you can do Community Assistance Centers, that structure can do anything, virtually anything of the project nature that you want to do, in my opinion. So that's just the structure. We're not here as a project for you. It's it's a way that you can enhance your projects, doing your projects, and at the same time, help us to implement the programs for other people with other people and for other people who are doing their projects. This is what we're about. But we're we're there's no projects in Love one society. It's what you want to do as Zim benefactor. Next question.

T Tracee 31:04

This is long, please explain the actual process of a \$10 journey from potential shareholder to the benefactors accounts, he or she may not be using a credit card but has the cash. I'm trying to figure out just how to get the RSS program started as a benefactor. I understand from all the info how the beneficiary can get registered for the RSS program if they had been given a registration calling card. But the card and the videos do not give any instruction to them on how they can pay the 10 bucks. The last time I tried to ask this question was for the purpose of protecting the benefactors identity. Ron's reply was to use a credit card that was not a completed and appropriate answer for somebody trying to figure out how he warned me was going to get the ball rolling for the revenue sharing program in a community. I'm not the least concerned about the \$10. But I am curious about the process to get started before hiring directors and opening a CAC.

R Ron Giles 32:04

What are you afraid of? By using a credit card to put the \$10 on?

T Tracee 32:10

Maybe they think that not everybody will have a credit card?

R Ron Giles 32:15

Yes, and I understand that. Not everybody does have a credit card. But if you want \$10 to put in there, we don't take cash. That's there's no way to do that on the internet. So you have to have a credit card. Are you the only one in town that has a credit card? Can you pay somebody to use their credit card and give them \$10. But there's a lot of different ways to solve that kind of a problem. Don't make it a problem. Don't make it a problem. There are many, many different ways to do it. As far as paying your \$10 through somebody else's credit card. There's no way that you can give \$10 to love won society and register without a card of some sort. Just let that be true. Don't question it. Solve the problem. I'm not sure how much, you know, my question or my answer was not acceptable before. Okay, I understand that. There's three things you need to register. One is this email address. One is your name. And one is a \$10 fee. If you want to register come with those vows, and also having a referral from somebody. So you'd have an idea that you've signed up under, we're trying to make it as easy as we can. And there's a lot of people that are making this a lot harder than it needs to be. If you want to drive a car, you use a steering wheel. Picard doesn't have a steering wheel, good luck to you. You got to do things the way that they're supposed to be done. And the only way that we can, we can

have you pay the \$10 is through a credit card or something of that nature. Then that's the program. Don't argue about what it is. We're not going to change. So if you find a problem, solve it. And then you'll be really happy about the fact that you're getting \$144 a day. Even if you have to pay the person pay that if the referring Zim beneficiary pays \$10 For the person who signs them up. Where's the problem with that? Who's going to know? We don't keep a database we're in the corner. to consciousness, the whole RS whole Rs are platform. And all of love won society programs are going to be in the quantum consciousness. I guess you don't want God to know who you are. Try that on for size. I'm trying to help you to understand I'm not trying to belittle your thought processes. I'm trying to help you understand that there's a different way of using your mind to solve problems. And complaining about things and wondering, well, what am I going to do is not a solving problem. It's a thought process that solves problems. So if you want to be a part of love won society, this is a way to get in the door. It's not going to be change. You have to open the door and walk through and then way to do that is to pay \$10, register and then start receiving your phones. It's that simple. Don't make it our next question.

T

Tracee 36:04

Can I add to this, we are doing a training on how to implement the RSS and the CAC programs and then we will follow that up with a how to implement the NRELS, it's coming soon.

R

Ron Giles 36:16

Yeah, it is. Thank you for adding that Tracy. It's good. Good communications.

T

Tracee 36:23

Okay, next question. I gather that you are saying this is gold back digital currency? Will we also have physical money notes to work with?

R

Ron Giles 36:33

Yes, they will. The digital gold certificates, can can go through a machine and be assigned to a particular serial number on some money. You'll go out and you'll spend the money and that person the merchant that receives the money eventually will go back into the quantum financial system, the financial system, where it will, it will be remarried to the original Gold certificate. So it's a simple process. But yes, we can we'll have cash, all cash you want. Obviously, within reason. But the point is, is that it's not the quantum financial system is here to assist us not to cause problem. If you want to buy a car used car from somebody, and you need cash to do that, there's no problem with that. And that's the way it's done. So sewer machine, digital gold certificates signed to the serial number on the on the bonds, or on the paper, cash. And then when somebody buy as redeposit in their account, it will be married back to it and the serial number on the piece of paper will be stored until it needs to be used again. Next question.

T

Tracee 38:02

How will we interface or transition from Fiat US dollar to QFS currency?

R

Ron Giles 38:08

the fiat currency that you have is accepted into the quantum financial system. It'll go through a reconciliation. So I have this money in my checking account, I go into the financial service centers that will be coming very quickly. As soon as rb gets here. You go in there and say I'd like to transfer this money into the quantum financial system. And they'll just do it for you. Just as simple as that. But you do have to have it in a format of somehow it has to be electronic. It can't be cash well, I shouldn't say that because if you had cash and you go into the financial service centers then they can take care of it from there so it's it's a process is changing things the way we do business the way we think has worked but that's going to be it's already thought through it's there waiting for us to go ahead and do it. Next question.

T

Tracee 39:15

When we first set up our accounts from where do we draw the money to pay for house or car or dental work etc? I would imagine it's not the same as purchasing a property to bring into the system.

R

Ron Giles 39:30

Okay, um, I'm looking into the question seeing what you're talking about as far as the NRELS whatever that is the real estate listing service. Where do we draw the money to pay for our house or a car down to work? You just use a card that comes with the with the quantum financial system, if we get one that the reader they redemption appointment, then that might be good. But we're going to have a card of some sort. Now in the transition for me, I would say, go to the bank and say, I would like to buy this house over here. And I'd like to deposit my money in your account. Before I do that, and or give it to the real estate people and have them put it in their escrow account. You just simply make that withdrawal and you do it. How do you how do you do that? It's go down the bank and withdraw your money, they'll they'll facilitate that they, these people will know about the quantum financial system and how to use it and how to function with it. You also, before you leave your appointment will have an understanding of how to make purchases, using the quantum financial system. And work out some kind of a process that will work during the interim or the transition from the old to the new. Could be because banks are going to be gone. The concept of a bank not the concept, the use of the bank, the way we use them now will be gone because the banking system is going is broke, it's going out of business. They can't sustain it in the bankruptcy, then that's the changeover between the old system and the new financial service centers. It's it's going to be a transition. We don't know all of the details now. I don't, I don't suppose you do. Or you wouldn't ask question. But the point is, is that all of this is being taken care of the pivotal point is when you go into the redemption appointment. That's where you're going to get your information. Now imagine all the people who think they can put their children numbers down on a piece of paper and have somebody else redeem them for them. They're only in it for the money. They're not real humanitarians. That process won't work, you won't get any money out of it. You show up to your appointment, or you won't get any money, period, exclamation point, no, unless you're a

humanitarian, you're not going to get anything anyway. There's a front door to this whole process, go into front door, do things appropriately. Don't try and evade the system. You're going to have to show up for your appointment, to get your friends add to get set up as a humanitarian and then all your questions are going to be answered and you have somebody that can answer them. You don't show up at your appointment, you're not going to get an angelic realm representative to counseling with you got to go on the front door. The front door is the way that they've set it up. Whose money is it? They're the ones that dictate how they're going to go through this process. And if you're not getting your information from the alliance, the information you get cannot be believed or given credibility. And I'm saying that now because you as a humanitarian planning all of these big projects and stuff won't get a dime if you don't go through the front door. So allow that to be true. Just allow that to be true because that's the way it is. Next question.

T

Tracee 43:50

IRS be gone and will we go to a sales tax or transaction tax system of some kind?

R

Ron Giles 43:58

The IRS will be gone there will be a sales tax and transaction tax of some time. Yes. Yes. Okay, that's the way the government's gonna run from now on.

T

Tracee 44:12

When our presence and activities are noticed around town, how do we explain what we're doing? Is it okay to say that angels are working with the Alliance to provide humanity with a full experience of abundance and wealth so we can heal our attachment to lack I'm not gonna say that

R

Ron Giles 44:29

Your activities are your job. And you say I'm working for a humanitarian. I'm working for a some benefactors who have set up a program to assist communities. And this is my job now. You can be the man around town that's got some money, but this is my job. And you're doing your job. So that's You can be the richest person around town if that's what you want to present yourself. But you have a job to do. And you hiring other people to help you with your work. CAC directors got a lot of assistance, the people that are helping, but your job is to assist those in the community to have funds that are available for the community. And you're just there to do your job. Next question.

T

Tracee 45:30

That's to make sure I understand correctly. So I don't miss inform anyone the generational bonus and respect of second third generations, please confirm this. One set is added to the permanent download for each 10 new beneficiaries signed up as individuals, friends,

workmates, colleagues, as well as members of nonprofit organizations like churches, etc. Is that correct?

R Ron Giles 45:55

That is correct.

T Tracee 45:57

So the new beneficiary signing onto the RSS do they need to establish their six trust at the initial registration? Or can it be done at some later date?

R Ron Giles 46:08

It can be done at some other other date, it can, if you don't want to do it, don't do it. But you you don't do anything prior to the redemption appointment. Did you know you can have in you can have all the trust documents all set up and then register them at that point in time that you want to. But you don't do it before it exists. That would be very difficult. The RSS program is not functioning right now. It the platform has to be built. There is no money to be giving out. Just just think of one person trying to do all that, you know, we've set it up. So there's billionaires, but you know, the concept that there's billionaires who are doing this benevolent stuff, but it's it's not that's not really the case. It's and if you don't like the lie, then I don't know what tell you to do. But I'm not going to tell people things that I you know, that are gonna put me in jeopardy just because it may not be true for them. You don't tell a child, you know, the cabbage patch version is what they want to hear. They don't want to hear all the details. But you have to wait until the time is appropriate. So I hope that helps. Next question.

T Tracee 47:43

If a product is pre purchased by the love won industries, the company may lose their incentive to produce a high quality and cost competitive product, as happened in the former Soviet Union socialist economy experiment with such a socialist or communist type of economy would become viable. As people's mentality becomes drastically changed after the financial reset.

R Ron Giles 48:06

I'm frustrated with the question. As in, why don't you see that things are changing. There's stuff in the Soviet Union that caused that stuff in this in the economy now in the way that we are living that causes some very errant thought processes to exist. We're programmed for them. There's no programming. That has happened for us to really know how to move into the abundance mentality. It's just us putting the money into the hands of the people and showing them that they can have whatever they want, and there's no restrictions in their lives. No, it's a whole new way of living. And so, equating that to something like the socialists, the communists and so forth. And having those same kind of problems, who's administering theirs as opposed to who's administering ours? We're in line with the Alliance, we're in line aligned with the

heavens. There's a change coming. So it's, you know, in my mind, it's very difficult for me to even approach this kind of a question because I don't see anything about socialists and communists. They are governments. We're going into just Saara complaining governments. Are we setting up a socialistic society? By giving by distributing money I don't think that's True. Socialist is a way of governing. It's a way of conducting your economy. We're not doing that we don't tax the people, and then spend the money. This is our money. We come from love, and we do things appropriately. So it's very difficult for me to ask these projective types of questions into the future, assuming that things are going to be happening in the same way as they are now or even the way that they did a long time ago. There's a thought process that needs to be changed. Old Stuff is errant belief systems, errant thoughts, that were conditioned for us to believe those things, by the way, the Cabal was running the government and running the law, our lives. There's, there's, there's no resistance to us as humanitarians. There's no resistance to us as human beings who have a divine heritage, to acquire and maintain these kinds of errant thought processes, we have to change. As we do change, our life will open up to the joy and the happiness that's available to us. You know, I've thought about this word. I've studied the communist I've studied the socialist, it's a government for a way of governing people that taxes the people and takes away their incentives to be humans. Ours, the way we're going to do things, is we're tapping into the greatest creative thought processes that could ever be experienced. And that's you connecting back to your heritage and back to your inner understanding that you are a child of God, creator, all by yourself. These are pretty high level thinking and understandings. But that's what's coming at us. So if you want to prepare, start thinking about that. start imagining in your mind, what children of God will create, when there's no resistance to them creating. We've had a wall that we couldn't go over or around or through, that stopped us from creating. It was by purpose, it was by control and, and power over us. And then them using our creative powers to do things that are destructive. Mankind would never do things like this, we would never go on and create a, an atomic bomb that kills all the huge amounts of people and destroys things. Humans created that, because those humans were conditioned to come out of their love quotient, and not use it, set it aside over there doesn't matter those people are nothing. Those are the kinds of ideas that prevail, when you're reconditioning the humans to do things and create things that are serving self serving other people who want power over us. They, those people have no ability to create this the human creating energy, that is the the focus of what they're trying to do. They're trying to harness us and make us do things for them. A lot of difference, and what's coming. And so let's preconceive in our mind that God is in charge. And if God would do it this way, then that's the way we want to do it. If God wouldn't do it this way, then we got to look into it a little bit more. Because we are the ones. We are the humanitarians, we are the sovereigns of God, doing our job to create a brand new way of life. I'm not gonna fail humanity. I'm bringing the new ideas and concepts along with what we're doing. They're not they're not unique to me. We all have them inside of us. I'm just tapping into it. That's where I live. That's where I come from. I see the future where there's none of this communist garbage stuff and socialist ways of living. Being or being, or having power over other people and requiring them to do the things that I want them to do would come from love. Next question.

 Tracee 55:13

How would you recommend a good way to communicate with the Alliance on a daily basis to meet their needs, and stay on the right path?

 B 55:22

R

Ron Giles 55:23

prayer asking it shall be given. That's the operating idea that we have right now in front of us, we're going to learn how to ask and it shall be given. There's things and ways to do that, that are productive, and the heavens are opening up and giving us a dispensation where things are changing. And in that dispensation, we'll have changes that we can make to bring about the golden age of mankind, going to be a wonderful experience.

T

Tracee 56:00

To we have any information about anything to clean the soil fast enough, before going into the ESS?

R

Ron Giles 56:09

There's, there's information available to us, some people going into hemp, the hemp plant reconditions the soil and takes out a lot of the garbage that the pharmaceuticals have been using for fertilizer, and to kill bugs, all of that can go away. It's not just the plant, there is other technologies that are coming that we can use. And those technologies are already at the doorstep, if not already revealed. So if we can get rid of the pharmaceuticals, and their opposition to us doing things the right way, then if we get rid of them, then we'll be free to do what we need to do and repair the soil and repair the earth for that matter. Next question.

T

Tracee 57:03

I want to be a beneficiary of Zimbabwe, I want to be a member of the RSS platform, where do I register? And what links do I need to join?

R

Ron Giles 57:16

It seems like you've already taken the first few steps. But didn't know that that's really what you needed to do join a love won society or register on the website so that you can get beyond the emailing. I would go through the documents first, get an understanding of what's going on. And to do that you go to the QFS2020.com. That's our website. And start in the beginning of the on the menu and just read, then you get into the training, the training videos are all there. And if you go through all of that and learn everything you need to know, then you're going to be a real good gym benefactor. And it's not that you have to do things on your own. But you have to pick up the ball and run with it, you have to be the one that shows up to class to learn everything. You're the one that takes your your homework home and do everything and there's no teacher there to tell you to do all that stuff. But you have to take the initiative to do that yourself. And learn what you need to do to become a beneficiary or a benefactor in a love won Society Program. You want to be a beneficiaries. I'm not sure what beneficiaries of Zimbabwe means we're using their defunct currencies, as a way a vehicle for us to get money through the alliance. And that's where they've set it up. I'm not sure what that means to be as beneficiary of Zimbabwe. We're doing the work will help Zimbabwe. We'll go over there. And there'll be people who will set up the RSS program there and the CAC programs and in all of Africa and all of the countries of the world. That's what we're all about. So where does it start? It starts by

you going on to the website and start reading, gaining an understanding. Ask yourself questions about how old I am. How would I do the CAC program where I live? Who are the directors that I'm looking at? What does the director look like? They don't come with name tags. We have to put a name tag on the right people. So we're the ones that are in charge of that. If the thought process is everything's going to be handed to me are that could be a real problem for you. But ask and it shall be given. I've been told that the people will come out of the woodwork waiting, having wait did for us to come along and they will be engaged with us and start doing the work. And it's a beautiful thing. And I might just mentioned that when I did it, here's Tracee picked up the ball and run with it in a way that I couldn't do. So we're collaborating for the things that we're trying to get done. Asking it shall be given, I wish everybody could get a Tracee, or be a Tracee. So in saying that, I do honor her, and know that she was prepared by God to do this. So it's all in place. We just have to abide the time until those people come into our lives. And they come in at just the perfect time. So Well, that's the end of our q&a today. Thank you for your patience with me and me trying to figure out the questions and giving an appropriate answer. I don't mean to ever defend or offend people. I just want to be sure that we're on the our thought processes are the biggest problem that I'm having right now is people who, who do not have the right thoughts. And from those thoughts are projecting things into the future that will not they won't show up because we're not dragging the past into the future. So I hope this has been helpful. And we'll have some more q&a days in the future. Thank you for your participation.
