

Q and A from 12_3

Wed, 3/30 10:40PM 52:26

SUMMARY KEYWORDS

zim, people, humanitarian, question, money, med, higher rates, benefactor, beds, program, projects, kinds, rss, appointment, funds, notes, alliance, contracts, gold, involved

SPEAKERS

Ron Giles, Tracee

R Ron Giles 00:00

Good morning humanitarians. This is Ron Giles. I'm here with Tracee. And we're going to do a q&a Today, December, the third 2021. Should have about an hour's worth. So let's go ahead and begin. Tracee.

T Tracee 00:17

Okay, first question, can we get med beds for our project?

R Ron Giles 00:22

The answer would be no. Until further notice, maybe two or three years depends on what takes place. Next question.

T Tracee 00:35

Well, we also need to know that we could get celestial chambers. I mean, those will be about a year out, right?

R Ron Giles 00:43

It's, it's hard to know, there's a number of modalities, each star nation probably has their own column, remedies, med beds. And so they're introducing a whole series of them, we'll have a choice of which ones we want to get, but the military will be in charge of the med bed program. And it will be for quite some time because it has to be controlled, properly controlled by people who are trained, and it could, it could take a long time to train them. So how that training and how that goes, will be the military's decisions. So but for us as managing directors, RSS many

direct managing directors, or managers, we won't have the opportunity to be involved in that for some time. Our funds might be available, but we would not be the ones in charge. Next question.

T Tracee 01:46

I will say that we can open a Wellness Center, or a healing center rather, I got this off of Skye's website or from you know, that med bed room, and I can share this in our chat, like all the different things that they think that are basic that would be important to consider for that. So

R Ron Giles 02:09

okay, well, it's you know, there's there's a lot of movement. And of course, there's a great desire for these to get out. So the best way that, that the military or whomever wants to do it, that will be the way so yeah, we can we can do all kinds of things on our own. But the med bed portion of it might be something that we'll have to wait a little bit for.

T Tracee 02:33

Mm hmm. Well, this next question is relatable on that one, because it says Can an RN supervise the med beds?

R Ron Giles 02:42

An RN doesn't have training for it. So person, and RN would be a good subject to train? Yes, but they have to be trained with it. Otherwise, they can't use you.

T Tracee 02:54

Okay, question, are we able to send directors and assistants to different countries? First further afield? I have a couple who have been serving in and off Central America as missionaries, another who is bound for Bonaire in late spring? Can I have them activist people for RSS while they are on their trips?

R Ron Giles 03:16

That's a good question. But the course the answer is also I'll say, if you asked me, Can I do this? I'll say well, is that what you want to do? Because you're the ones in charge, it's your money, so you can do it. As far as love won society is concerned and what we're doing, we're not we don't have borders, it's the internet, so they have access to the internet, then they can get on and then receive their funds. We're looking for this are just our compliant governments in the countries that we go into so that we don't have any harassing of our people by the governments. But keep in mind that the QFS is is completely private and no government or their officials will have any opportunity to get into the quantum financial system and see what's

going on with people and with their financial situation. So I don't think we're gonna have any of those kinds of problems. But we'll see it's going to be interesting. And yes, you can do that. That's what you want to do. They can go abroad further afield, wherever they want to go and wherever you want to send them and start their RSS program. That's a great way to do it for people who are close to you want to make a lot of money for themselves by spreading the RSS program. Wonderful idea. See the world now and see the world. So good way to start having a life cruises and vacations and everybody wants to know what you do for a living. Especially if you have a lot of money. Although you don't wear, you know, fine jewelry and so forth issue sitting on the beach, but whatever. Yeah, it's a good, it's a good way to get it out there. Next question

T

Tracee 05:14

As a benefactor, could you provide us a model of contracts that we could use for the five programs, as well as individual initiatives from that generic form, it is understood that we could of course adapt them to our circumstances.

R

Ron Giles 05:30

That's our intent. Yes. Each each one of the platforms, program programs will have its own set of ways of doing things. And contracts, obviously, are the basis of it. We can do generic contracts, but even generic contracts will have to be fine tuned for every time they're used. Because circumstances are different. So and country companies are different. So it's going to be interesting to see how many country companies are available for us to do these kinds of work with once the Cabal organizations, corporations will ever be annihilated because they're bad people in them. And their whole intent is to do evil. So and we don't, you know, you take a place like Walmart, do we really know what's going on with Walmart. So those are the kinds of things we just don't know until we get in. That's why we have somebody who will counsel with us. And those these kinds of things in will board, help us to avoid getting involved with people that we don't want to be involved with. So generic forms, yes, generic contracts, take money, and time to create, and to do them properly. That's what our intention is. We'll do one initially, for a company and have all the details for that particular country company in there. And from there, we'll we can make it generic so that it doesn't reflect the names and so forth to the people involved. But it's our intent to do that, and help with as much as we possibly can with people who are implementing the the ESS program and the other kinds of contracts that we're going to do. Next question.

T

Tracee 07:36

I currently have two Zims I would love to use in our area for humanitarian projects. Where do I start?

R

Ron Giles 07:44

Well, that's a good question that you have Tuesday, um, and you want to use them? Are you consider yourself a Zim holder? Or are you do you consider yourself a humanitarian? Are you interested in doing love won societies programs? Obviously, if you're you're responding to

interested in doing love won societies programs. Obviously, if you're you're responding to emails, you're have that perhaps that possibility in mind, if you have to Zim would like to be humanitarian, do humanitarian projects, my suggestion, I would obviously be involved want you to be involved with love won society thinks that best program that you could help you in doing that. Now, how do you do that love won society programs, you go on to QFS2020 twenty.com. There's menu items at the top. And you start on the first menu, QFS, RSS programs and info and start reading. Start reading the documentation become familiar with going on, I suggest that you do the reading first and then do the video afterwards. The idea is, here's the program you take watch the video after instead of moving on to the next step. But a combination of the two, do the research do everything you need to do to become familiar with a new job, or a new way of living. And that's what I recommend. And if you have to Zim I'm assuming they'll be 100 T notes, but I could be wrong. It could be 100 Neat, her attenti knows, those are decisions that you need to make. Now if you want to get involved, then you do. If you don't get involved, then it's because you didn't really want to do it. And this is so much money that it's beyond the ability of people who don't have humanitarian hearts to really get involved. I'm not trying to prequalify you or letting you know that only humanitarians and so forth. But yeah, you have to get involved. Get the higher rates in order to be able to be a part of love won society because without the higher rates, you won't have the funds to do so you'll be able liability and we won't do it. So I hope that helps QFS2020.com.

T

Tracee 10:10

I wonder how people get to this questionnaire if they haven't, you know, been on the web?

R

Ron Giles 10:19

Referrals. People don't qualify for referrals, they just tell her friends and their friends Come on, and they say, it's interesting looks like my like to get a holder, get involved with that. And then their friends don't know much more than they do. So where do they start? It's okay. We just have to let people be where they are. And then from where they are then had them in the right direction. We do not do personal training other than through the email programs. It's just impossible for us to do that. Okay, question?

T

Tracee 10:56

Do we have access to your Google Docs, or Dropbox, I'm learning as I go. And not sure. Either than PDFs. If I can acquire your videos from your website, I'm taking baby steps as I'm studying to develop my plan to serve.

R

Ron Giles 11:12

One You mean, taking, acquiring your videos from the website? You could watch them there? It's just links to bitchute. So if that's what your the question you're answering, all of the videos are on the website, so you have access to everything. And, and even if you speak a foreign language, you can go on to YouTube, and, and sign up or do the program that that helps you to

do the post scripts or subscripts in your own language so that you can hear what's going on or read what's going on. And we think that that's a great way that people like that. So next question.

T Tracee 11:59

You said they are gold or silver? Are they the gold foil notes? Or are they just the paper? Zim, 100 T notes with a gold 99999 stamped on them?

R Ron Giles 12:15

It's a good question. And yet, I've said that there are the silver and the gold that are facsimiles of the original. And they are for sale in a number of different places. They are redeemable by the by the Alliance. I'm not just talking about the the gold plated or the gold in grave actual bond notes. I don't know that there's anything different about Golden laid and all that sort of stuff. I think it's a marketing scheme to get you to pay more for it. So you know, you can go to, if you email me, I'll send you a link where you can go on eBay, there's two of them, actually. One is for silver, and one is for gold. The silver right now is \$12.46 49 cents, something like that, for 10 of them for 10-100 T notes. And then they do free shipping. I'm not advertising for Ebay. And don't somebody give a bad attitude and say that I'm trying to promote, I'm telling you where you can go and buy it. You ask and I'm telling, I'm not promoting it. I have no business with these people at all. I just know that if you can get a 100 T note for just a little over \$1 each. I think you're in really good shape. That's a whole quad. And if you had a whole quad a quad means you have 1000 Zim. So if instead of a trillion, you have a quad, which is 1000 trillion is a quad Well, that's what I'm trying to say you're at that level you're way above most people, most people and and it's an it's a real good opportunity to because people have paid 1000s of dollars for their Zim that have these five and 10 quads for 13 less than \$13 some less than \$12 for one of them. You can you can get you can beat the big guys. Ask for the 500,000. If you feel that that's not enough, presume, then go ahead and ask for the 1 million presume and you're really going to be in good shape as far as doing anything that you want to do as a humanitarian. And this is a this is a gift right now for anybody that wants to really become a player. So here it is. Take advantage of it. Next question.

T Tracee 15:04

Once a benefactor has his or her money and approaches another person to sign up to be one of that benefactors directors, can that person be approached, being approached to become their own benefactor, if they prefer, instead of signing on as a director even after the system is up and running?

R Ron Giles 15:27

Oh, you're I'm really not sure. You you have a benefactor that you want to become a director? And then they want to become their own director and their own CAC program? Is that what you're asking? I'm saying the pardon me?

T

Tracee 15:48

I said, it sounds like they want they were asking if one of their directors wants to become a benefactor. But they would have to have zim to become a benefactor. Right.

R

Ron Giles 16:00

Yeah, there's a way of setting people up to do that. If you're big in have the bigger funds. I'm not sure that there's a real advantage to do that. But you can send other people to become a gym benefactor, they have to sign a contract. But but you've got to sponsor them and how and that's already under contract. So why don't you just do it, there's no reason to make a gym benefactor or a managing RSS manager out of them. Just let them do the work. Just provide the money for them. And let them go to work. Zim, benefactors a position that for those who have money, if you don't have the money, then why would you want to be a benefactor? You don't have the money to do it anyway. So why you're looking around trying to find somebody? It's a Johnny come lately. Then you talking about humanitarians? And, and passing off your responsibility to other people. And we're going to do that. Yes. But let's just be sure that we understand what the structure that the Alliance wants us to use. Stay within those bounds, and you'll be fine. But I personally don't see a reason to get other people involved in it to becoming a benefactor, and less they missed the boat and didn't get in in time. And then how do they get vetted? How do they get to be assigned to counselor from the other side of the veil, all of those kinds of things come with becoming a Zim benefactor, or in this case, it was a man manager or a managing director. So think it out. But don't try to make a whole lot of exceptions just follow through with the way that the alliance is set up, and I think would be much better off. Next question.

T

Tracee 18:04

I watched to have the same young Australian woman that must be sky whose name was not revealed who gave info on the med bed she said she was in the secret space program and use the med beds both as a recipient of treatment and an operator. She said she we could be age regress with spans of 2030 or 40 years. I can't remember if she said she didn't recommend getting age regress more than twice or three times. Sorry, there's such a bombardment of info because after a certain point, she said your brain could go a little wonky. Could you please comment?

R

Ron Giles 18:40

She says that you can regress no more than three times age regress more than three times or it messes up your mind. That third time could be your last and and then you just kind of right on the edge of causing some problems for yourself. Those are technical things that we can find out later. But I don't think that that's such a big thing right now. You know, if you can extend you I'm 75 extend my life for a 1500 years. With one regression, then, you know, how many of those do I need to have? before I'm finished with this whole thing and want to go home to wherever I came from? Those are the kinds of questions that are speculative. And don't really they're rhetorical questions that don't really need an answer. Unless you're just laboring with it and having a real hard time with it, and can't get the answers from your inner guidance

system. So age regression med beds, it's it's a big question mark. And which med better you're talking about? Who knows? I don't know. The one that Sky has. I've inquired and she she is part of the Alliance. She's She's legitimate. But her particular med bed may or may not be the one you want to use. There may be plenty others out there want to be that's so that's the Chamber's What about going off world to those places where you can go through their, their technology and, and yet here, a lot of things are coming our way and we'll have to be we can be selective to the one that suits us the most. Now, I've been given a I'm a little reluctant to say this, but because it's gonna cause a little bit of controversy in terms of what's going to happen, but there is planned a major blast of light coming to the earth. And in that blast of light, if you are prepared, you will live through it, if you're not prepared and won't make it then they'll take efforts to take you off the earth without you really knowing what's going on. That blast of light will reset you to your divine perfected blueprint. I don't know if you have opportunities to be six foot two or blue, blue eyes and blonde hair or whatever. I don't know all of those things. But I do know that anybody who has taken the shot and is still around for this blast will be he'll the med beds will heal them anyway. But this is something and and now I'm going to get a lot of wins are going to happen. I don't know. Nobody knows that's God's timing. And it will be just perfect for us when it happens. But that's just another I'll say it's another arrow in your quiver, too. As we move forward into the golden age of mankind, we're going to be just perfect, we're going to be fine. We're going to have a lot of fun. We're going to find the joy that we have never had before. That exceeds all expectations and understanding. So..

T

Tracee 22:22

can I ask you a question?

R

Ron Giles 22:23

threw that in there? Okay.

T

Tracee 22:25

so you said something like if you're not ready, or you said something like that? How could we help people be ready? For the blast of life, we like that question.

R

Ron Giles 22:41

It's, it's a, it's a big Yes. And how can we help people? It has more to do with your soul contact for coming to the earth at this particular point in time, okay, as it is on the ability of somebody to just say, Well, gee, I've got when I say work on yourself, if you don't, if you don't care, if you're a jerk, and you don't work on trying to not be a jerk, then you're going to be a jerk. And jerks won't make it. But if you recognize that you're a jerk, and say I got to stop being a jerk to these people or to people are the mean and cruel and come. If you recognize some things of that nature, then work on it. It's your intent. But it is also a state of being where you are at the present time when that takes place. So it has a soul contract associated with the purpose for being here. That makes it hard to discuss, maybe I should have even brought it up. But I just want people to understand you're going to be healed coming up either med beds or whatever.

And we're moving into a higher vibrational rate that will qualify us to associate with those in the fifth dimension. It's coming. And doesn't matter what you believe as far as religion is concerned. There's there's no one set of religious beliefs that's more accurate than another. You're a child of God. That qualifies you for what's coming. You have another question? I feel like there's probably a questioner needs to be answered, but I'm not sure what it is.

T Tracee 24:34

Well, I just feel like I would love to be able to explain to normies or you know, people who like so many people are just sound asleep. They have no idea what's going on. They believe all the COVID crap they believe everything they see. And I think it would be super helpful if we were able to tell tell people how to best prepare their hearts for this golden age of mankind, even if they have no idea what's actually happening, like, a basic training for normies?

R Ron Giles 25:13

Well, I'd like to, you know, I would like to participate in something of that nature for myself. I mean, I don't feel like I've got everything taken care of, to be able to do that.

T Tracee 25:28

Well, if you don't feel it, then we're all doomed. Well, the encouragement?

R Ron Giles 25:37

Well, it's a it's a sort of thing, that we're all involved in what is called an eternal progression. How far along that progress path you are, is where you are. And it's not a judgment. And the most important thing is we don't judge people. If we judge people, then we're being judged by the same standard. And we don't realize how serious that is. You don't you don't, there's no reason to believe that people are broken. You know, just because they don't believe the same things we are, or we do, or whatever they may have their favorite color may be blue, that doesn't disqualify them for, for the heavens, which is paved in gold, and all that sort of stuff. We don't know what's going on in other people's lives, and we judge them and put them in categories, and then we deal with them. And that's the way human nature is. But it's inappropriate to do things that way. Because we're judging people without knowing when it's walking or moccasins for two weeks, or whatever you want to say. You don't know the circumstances. Not all jammed, people did it because they wanted

T Tracee 26:54

Right. And I think that's an important distinction because I was listening to Bryce from esoteric Atlanta talk. And she said something I loved she said something about stay out of people's business, because you don't even know your own soul contract, let alone theirs.

R

Ron Giles 27:12

Absolutely correct. Absolutely correct. Okay, and you can narrow yourself down and be doing what you're supposed to do. And yet there's still more so even that don't judge doesn't help. Never going to help you. Yeah, we do it. But it's not advisable.

T

Tracee 27:35

I love the quote that says Do not judge for God is the only judge and he waits until our last days.

R

Ron Giles 27:43

Don't judge me now. I'm not finished.

T

Tracee 27:47

Okay, you ready for the next question? Yes, please. When will the beneficiaries get debit cards knows about the Mikey, they're not going to get a debit card from love won society, they're going to get it from the QFS, because the love won society is merely a ledger, right? So it transfers money into their QFS account? Is that correct?

R

Ron Giles 28:14

That's correct. But the QFS will perhaps have some kind of a card and a future. And it may be the Dell delivered them at the appointment. What a great thing to have, when you leave the appointment is the ability to go and use it. I don't know that there's too many merchants that would take it yet there, you know, unless they purchased a Visa card programming or Visa card and put them out of business in the US the gold back currencies and quantum financial system. But all that sort of thing is available to us. But we don't know. Those are good, good questions, without an answer.

T

Tracee 28:58

Okay, if we go for higher rates, because we do not actually know how many humanitarian funds we will need in the future. And eventually humanity reaches a level of evolution where we no longer need money. What happens to the possibly great amount of funds still left in our accounts? Will we be held accountable using these funds?

R

Ron Giles 29:18

No, it's just sitting in the account worse the problem who viewed damaged the damage is if you don't get the high rates, and there's a need for the money and it's still sitting in the quantum financial system and you haven't activated all of those digital gold certificates. That is the

crime. It's not that we leave the money in the bank and used and if you get involved with the love won society's program, any money in the account can be used as a bond to secure our positions. So any of the money will always be in use, even though it's not being spent. We understand that concept. It's, it's there's no harm in having it in an account. How can you be held responsible or accountable for not spending quintillions of dollars, when there's nothing to spend the lawn or no place to help people? You can't, you can't, can't cause problems for people how God doesn't do that. We're all on the same team with God, he's not gonna judge us. You know, we say, don't judge. And we say, well, we would love to God the Judge. Well, God doesn't judge us either. And if you don't believe that, I don't care. God does not judge us. We judge ourselves. So when we go for our life review, we go through everything. And we find out what we did other people with other people did to us and we say, well, how would you like to change things? Or would you want to work on this next incarnation? That's what it's all about. That's the the cycle, the karmic cycle of death and rebirth and rebirth that the cabal did to us. And so we're getting away from that. That's just the way it's going to be. Next question.

T

Tracee 31:30

If I only have to tease him, is it appropriate to ask for a rate of 20 million per Zim dollar in order to become as in benefactor and participate in the LWS programs?

R

Ron Giles 31:42

To T was those 100 note? Okay, let's just go ahead and ask the question, answer the question. If you feel in your heart, that \$20 million, is what you're going to need. And you only have to 100 Tinos go for it. I'm not one to say that you have a limit over you. I'm not going to do that. And neither should you. You go into your heart and you receive what amount you feel is appropriate. And if it's \$20 million, and stick with it, and go there to your appointment and ask for it. And if in your heart, you got it right then Good job, you got your money. If in the counseling and advising that happens will happen at the appointment, it may be a little bit more revised, it could happen that way. But you you are entitled to get what you asked for from your heart. So let's just put that in that context. And then if you were to get one T note 100 T No, excuse me. At \$500,000 That's 1.25 quintillion dollars per quarter as five quintillion dollars per year, if you ask for a total of 100 years on the structured payout, they will put 500 quintillion dollars in your structured payout account, then they will give you five quintillion per year, it could be paid out quarterly for 500 years. Now, if you can wrap your mind around a quintillion let me put it in perspective. The whole world economy is estimated between 80 and \$120 trillion per year. If you don't think that adding 1.25 quintillion dollars for each of the Zim benefactors that only have one tea No 500,000 We have in training 5500 people we're going to be fighting over things where we can put the money but we don't know what's coming so that may not be true. Each individual's will meet the full measure their creation for the reason that they came here to the earth as a humanitarian at this time. It's going to work out just perfectly no condemnation if you got a few bucks left in the bank at the end of the month, my dear. Next question.

T

Tracee 34:34

I'm new to all of this and I've watched some of your videos and it's an awesome program for humanity in short, I cannot find where to pay this \$10 You talk about also, let me just continue I

am rich with love of God in the less fortunate to be able to act like I'm a millionaire is so awesome. Also, I assume my angel will help me when I present my projects. Is this correct?

R

Ron Giles 34:57

Yes. No, I'm not sure that Well, I'm not sure what she's talking about.

T

Tracee 35:02

Okay, well, she wants to know about the \$10. You can't, you don't have to pay the \$10. If you're a benefactor and the platform for your beneficiaries to pay is not ready yet.

R

Ron Giles 35:13

You're just paying, why would you pay \$10 to be a benefactor and get your \$144 per month or per hour or per day download. If you're, if you're confused in your mind, the \$10 is for people who are joining and registering and becoming beneficiaries. In the RSS program, a benefactor has nothing to do with the \$10, you don't pay \$10 to become anything. As the Zim benefactor you your responsibility is to get this him and go through redemption to get the higher rates. And then you can function at that level. So you've, you've come, you've messed up to different ideas here. Now, we'd love you to be a millionaire, and do the things and come from your heart. But be sure that you understand the program. And, you know, the humanitarian heart is one of the most valuable things that a person could have, at this particular point in time. And I honor you for that, and for the love that you have for doing humanitarian work. But you need to be sure that you've got your ducks lined up, and that you're not believing things that are not true. And that this takes time to study and get into it. Don't assume you know it all. Until you do. Then assuming you know at all, you might not always learn, be be open to learning. And you've got new ideas that are coming along and applications of the RSS program, and the other things that you might want to do with the money as far as projects are concerned. Wish you good luck. Next question.

T

Tracee 37:12

Would Ron be interested in telling us about stuff like what's to come who will be removed? And will they reincarnate on a 3 dimension or 5D i have a few places I can get information. I just wanted to hear what Ron knows to be true when he tell us about as much as he can, about what he knows about everything that's coming and going away, I trust what he says.

R

Ron Giles 37:35

Well, I thank you for that vote of trust and confidence. Those, those are the kinds of things that are reserved for the heavens to know about and I don't have a need to know about other people and about their lives. I just would like to know more about my own life and, and how to conduct that. And that keeps me busy. In other words, this is my store, I'm in charge of my own cash register. If I go over to their store and start fiddling with their cash register, then who's

fiddling with mine? No, we just stay in our lane. Do things according to the way we know. If it was important for us to know some of these things, then God will figure out a way to do it. Until then we just enjoy what's coming.

T Tracee 38:33

You know, Ron, I like what you said to me one day, just go do things that make you happy. Like you know, I go to the beach, I go on hikes, I go spend time in nature. You know, I do those types of things to keep my vibration high and try to stay out of any negativity, you know, as much as possible duck at all.

R Ron Giles 38:54

Yeah, there's, there's a lot of fear that is generated by religious belief systems where you may not make it to heaven. And that's a big thing. If I don't get to heaven, I'll go to hell and all that sort of I would really love to help you to understand that that's, that's not true. We didn't come here to this earth to prove ourselves, they'll go back to where we live. We came here for the experience of third dimension, which is not part of where we live. We came here for this specific purpose. You know what the hell was I thinking? I oftentimes say that to myself for coming here. But that's the reality. We came here for the experience. We didn't come here to go back to to make Kevin again. We're not kicked out of heaven to come here. We are who we are. We're eternal beings. And sometimes we come down and have a little bit of a life in the body. And other times we don't that's just natural. This is the way things are naturally. So, please Well, from my perspective, I didn't come here to prove that I'm worthy to go back to be with God. I came down here for the experience of experiencing things that I was not. So that by the experience, I can understand what I am, the proton of light does not recognize it is a light until that proton is taken out of the surrounding mind and put into the darkness where it glows. Then, by experience he knows or she knows that they are the light. And that's what the third dimension is all about, in my opinion. Next question.

T Tracee 40:55

Can I send up so that a certain amount of Muslim would be dedicated to working through the LWS and structured payout, but that another designated amount could be used for other projects and platforms outside of the LWS possibly drawn from a different account?

R Ron Giles 41:11

Well, I'm going to say no, the answer to that question is no. You don't set aside Zim for doing love won society stuff. You set aside money that you receive from redemption of Zim, you can do whatever you want with that, because you're the humanitarian. You know, and I had a discussion with some people just recently, that we're talking about how they're going to do, they're going to get funded on projects. And I say, the Alliance doesn't fund projects. They fund the human humanitarian and the humanitarian funds projects that are in their heart. subtle difference. major difference, though. So let's say your your project is going to be to feed the hungry and clothe the people who are naked, and they're not going around naked, but you

understand the idea? Well, once once they've got the close once they've got the food once they've got a house to live in, what are you going to do? Move on to the next one? Yeah, I understand that. But your project can be completed. So the humanitarians are completing projects. They still have money to do more projects. So if the Alliance says we're going to fund this particular project, well, when you're finished with the project, what do you do next? If that's the only funds that you got, they don't do that. They plan ahead, the alliance is giving you the money, because you are the humanitarian, you're going to do the projects that are in your heart to do that's the way the whole thing gets taken care of. The Alliance has no interest in funding a project. None whatsoever who's going to do they give the money out who's going to do the work, they don't have money for a project and are looking for people to do it. They're looking for people to do projects, and give them the money to do the projects. That's the way it works. So when somebody said to me, well, the alliance is going to fund your projects, and then they'll give you an end, you can get another rate on the same Zim so that you can do some of your own stuff that you want to do. I say, who came up with that garbage. I call it garbage because it's just convoluted thinking. If you know what the alliance is, they're gonna give the money, redeem the money. Redeem the bonds give the humanitarians money, they will do the projects. Love won society is here to enhance your ability to do those projects. And in that process, you will find many, many, many, many more projects that you never even could think about. Because you're getting into the community and you're solving problems within the community that may or may not be identified by humanitarians who are just driving by the street. So the Alliance sees everything. And some of these, these ideas that people come up with of limiting or working it out so you can have some of your own money and the rest of it supposed to be going for this, that and the other You're the humanitarian, your cup has to be full, fill your cup, by the house on the hill by the car that you want, do what you want to do, it's not taking any money away from anybody else. Just do it. Fill your cup up to overflowing, then you can share. You can share your abundance with other people. And that's what this is all about the abundance mentality if you don't have the abundance mentality yourself, how can you help others create that same abundance mentality? No, you can't do it. So fill your cup up. Take a couple of weeks off. I know one person is going to take her husband out to dinner and retirement party. So there's, there's, yeah, you got to take care of yourself. And you are have all of the people in the world who's more important than you have all of God's children, which one is more important when we can think of Jesus might be a little bit more important. With him, he'll call you brother, he'll call your sister. And he wants you to know that you're equal with him. In the sight of God, we just have a different job to do. Next question.

T

Tracee 46:27

I have Zim that I would like to give to friends and family. Can I do this and how?

R

Ron Giles 46:35

I would not gift Zim to people. And the reason for I have a very strong reason for that. What do they know what to do with it? If I gave a 46,004 wheel drive car to my grandmother for her birthday, and she only goes to the store to church on Sunday? Do you think that's over? Does she think that's a real good gift to give to somebody like that? They don't know what to do with it. You give a gift to Zim to somebody are only thinking about money? You're not thinking about humanitarian stuff? Because why don't you go through the the appointment redemption appointment, ask for the higher rate that they would have nothing to do with it wouldn't call

that's just pure greed and all that sort of garbage that people will throw up? Why don't you just give them the money? Once you get it? Or help them in our programs? hire them, get them on men involved? I don't think it's a real guy idea for people to be giving Zim to people who don't know what to do with it. That's my own opinion. But I'm obviously it's a very strong opinion. There's not enough time to train the people now that haven't the one to do something with it. Yet alone, giving Jim to somebody else and trying to give them six months to a year of education in a short period of time expect them to be highly functioning humanitarians. You're only thinking about the money and and if you want to share the money then share the funds, not the Zim. That's my next question.

T

Tracee 48:24

Okay. And this, I think, is why they're asking because it says I understand that I can only exchange to 100 T bonds. So the rest are useless to me, or am I following the wrong guru?

R

Ron Giles 48:39

You're following the wrong girl who ever said that? I don't have a very good opinion of I don't want to be denigrating. I'm boiling inside with that kind of garbage. We've heard it for years and years. There are no limitations to humanitarians. So you gurus, you're not talking to the real humanitarians, you're talking to those people who are only interested in money. Now let's let's make it very clear. When you're talking to humanitarians you don't talk about they're only going to give you they're only going to redeem two and if you have more than that, then it's a sliding scale where you're going to get down to nothing and if you have more than 10 then you ought to just go ahead and give it to somebody else and let them start all over and get the higher rates at the bottom first too and all of that garbage. That is so Cabal, it stinks. It says pool, that swamp gas, that's where these people coming from. So I'll give them enough that the girl that told you that don't believe those people that Don't talk to the people who are not humanitarians. Next question.

T

Tracee 50:06

I can't wait to get started on my reverse pyramid scheme, if I only have 10 T. I can't read that 10 T, it's like a icon or something. Yeah, well, less than 100 Cheese am Can I still ask for 500k presume?

R

Ron Giles 50:25

Ask for whatever you want. If I only had one, or 10 T notes, it's \$500. Why would you be asking for \$5 million? Get it right up there to where you're equal with other people. What you have is no has an or what you don't have doesn't determine the rate you're going to ask. You want to be sure you're getting enough money out of the appointment to do your humanitarian work. And I would highly suggest to you this person who asked this question, if you want to really be a player, you can take \$12.49 69 cents, something like that. Shipping is free. And you can get 10 100 T notes. It'll take you about less than a week to get it if you're in the in United States. And I don't know how long it takes together other locations. But you're not talking about a lot of

money to get a whole lot more done with your humanitarian activities. It's too easy to do. Just too inexpensive to not do it. And it brightens up your whole life gives you a whole new opportunities. No more little cloud over your limitations over here. You've got the tail butter, the tiger by the tail, you've gotten everything you need to really become the humanitarian that maybe it's your heart just wanting you to become there and directing you to do that. Okay, that looks like the last one. Tracee. Oh, am I correct?

 Tracee 52:07
Yes, you are.

 Ron Giles 52:09
There we go. Well, for today, then. That's good. Thank you everybody, for being here with us. And thank you again Tracee for all of your good work. And we'll see you next time we had get some more questions. Okay, have a good day.
