

Q and A from 12_7 - Part 2

Wed, 3/30 10:39PM 57:00

SUMMARY KEYWORDS

zim, people, money, humanitarian, question, account, benefactor, quantum, alliance, business, bond, higher rates, funds, redemption, appointment, set, rss, involved, part, programs

SPEAKERS

Ron Giles, Tracee

R Ron Giles 00:00

Good morning humanitarians. This is Ron Giles. I'm here again today with Tracee. This is our part two for the day of question and answers, and it's December the seventh. So, with that reintroduction, let's go ahead and start our part two.

T Tracee 00:17

Okay, first question regarding nonprofit funding as a general manager of the funds, can I set up RSS accounts for self selected organizations ahead of time, without contacting someone in that organization first, for example, I would like funds to go to a history, or History Center or museum, pet rescue or zoo, I set up an RSS account for all three, then I gift it to that corresponding entity. From there as I meet people signing up for the RSS I give them options to sign up under one of those causes or go independent.

R Ron Giles 00:58

Well, that's kind of an interesting way of doing it. And do I say you can't do it? Or do you want me to say you can do it, you can do whatever you'd like as the benefactor. If you want to set them up on a an RSS plan a beneficiary account, where they can use that ID number and have people sign up under them, and they get credit for it. I think that's a really good idea. However, I think that you need to, I'm going to say that that's overstepping into their, their boundaries, their domain, I wouldn't do that. Personally, I would negotiate or sit down and talk to them and let them know because they're not going to appreciate what you've done unless they know what you've done. And that gives you an opportunity to set things up properly for them. Now, if that's the way you want to fund them, then that's that's okay. However, you can just put up an account for them the Zim benefactor account, and give them as much money as you want. It's up to you. But be sure that you get permission, if that's the right word to use. So that you're not overstepping somebody else's business and getting into somebody else's business. Even

though it's benevolent, it's still getting over into somebody else's business and inappropriate. That's my way of looking at it. I would be sure that I was letting somebody know before I did something for them. That requires their them to be part of it. Next question.

T Tracee 02:40

How will the Alliance know that we have dogs or that we have plans to help people in order to even get an appointment? In other words, how do we get a redemption appointment?

R Ron Giles 02:53

I would go if I were to say to you, if you want to know what the alliance is, go to the website and do the and look at the documents on alliances. The first one and two memory but there's, there's a whole slug of information about alliances, especially in the part into the blog. And there is a category Alliance. Now the reason I'm saying that is how do they know? Well, how does God know who you are? Just because he created you and all that sort of stuff, you're saying that he doesn't know who you are. The Alliance is composed of Ascended Masters, and other types of people from the heavenly realms. I'm gonna say this out loud, Jesus is in charge. You don't think he knows what's going on? You don't think he knows? That you have done? Come on. Let's let's be real about this. We're working with the heavens. And so we are involved with them, they are involved with us 100% Because our job is to bring in the golden age of mankind. And this is the major activity that the heavens are engaged in at this particular point in time. We have full support of the Alliance, we have full support of God and all of the heavenly realms, the angelic realms, the white brotherhood, you name it, they're involved with us, because this is that important. So you need to understand who the alliance is. The only way to do that is to get into the QFS and start researching. Because in my opinion, your understanding of the alliance is extremely lacking. It's not something that I'm tearing you down. It's just something you haven't gotten to yet. And you're wanting to know these things, and yet you don't know them. So get involved with it. Find out. And this is just kind of a heads up in the right direction sort of talk. Next question.

T Tracee 05:19

Is it too late to get Zim bonds? If not, where can I get some? How much should I expect to pay? I am weary with buying things online, as I've been scammed and also had my info stolen. What is being a zim benefactor?

R Ron Giles 05:37

Well, number one, it's not too late to buy Zim, if you were to send me an email asking for a link, I can send that to you where you can buy some now for as little as it gets \$11.69 today for 10 100 T notes, and it's there for you to buy. What is the Zim is being a Zim benefactor? I'd sure like to tell you in the next 10 or 20 days, continuously, you're going to have to look into the QFS2020.com. And answer that question for yourself. So I expect that you'll come back and say to everybody Oh, I found out what is in benefactor is that I found out that that's something that I want to be bad information is waiting for you just go and research it out and become familiar

with what's going on with love won society, you'll be happy that you did. And in doing so you will qualify and be in a position to do the work for the humanitarians in what the alliance is trying to get us to do, and why they're giving us the money to do it. Next question.

T

Tracee 06:58

Are you saying that they will buy your Zim even if people don't participate?

R

Ron Giles 07:10

I'm saying if you have Zim and you're humanitarian, then it's up to you to qualify yourself knowledge wise to become a part of our to be a participant in our revenue sharing solution. So the other thing, you're brand new, just get involved in the understanding the education, and you'll get all of the information you need. It's all there. Next question.

T

Tracee 07:37

If the Zim benefactor does not fill out and create his or her trust at the redemption appointment, will they be able to create a trust at a later time?

R

Ron Giles 07:45

Sure. It's not an hour Never. You can do that. Next question.

T

Tracee 07:52

The trust form that will be available at the redemption program. Is that a revocable trust?

R

Ron Giles 07:57

Yes, and yes.

T

Tracee 08:00

I have a question regarding my friend's father. He is 82 now but very enthusiastic to help people he's representative of a Protestant church, and has been helping people around the world, is he eligible for becoming as in benefactor? Can he redeemed Zim though he's old, his daughter is also a very energetic person, but she's wondering whether she should redeem the 200 t's in for herself or split between the two of them.

R

Ron Giles 08:27

Number one, the father is just perfect for becoming a zim benefactor. Keep in mind, we're, we're going into some new technology, with the med beds and so forth to extend our life experience here for as perhaps as maybe as long as we want to. We'll see how that works out. I'm planning on 75. I will 70-40 Next month, and I'm looking forward to another 100 years on the earth for sure. And doing my love won society programs, my humanitarian work. So the age has really nothing to do with it, because we're going to get them. We're going to have the help and everything that we need to support ourselves doing that. Let's see, I'm just quickly going through this. Is he eligible to become a Zim benefactor? Absolutely, for sure. How does he become as in benefactor, gets all the information. positions himself was Zim goes to the redemption appointment and gets the higher rates. If you don't get the higher rates, you won't have enough money to do our love won society or be a benefactor and our love won society programs. It's just simple. It's just simple math. You can you're creating a liability for yourself. If you don't have the money for the liability to take care of it. Then what are you doing becoming the Zim benefactor? We know that and so only those who have I'm going to say it this way, because it's coming in a little bit new. We're asking people at the redemption appointment to get a letter from that individual agent from the Alliance, that you have sufficient funds to be a part of the love won society programs. Period. That's, that will qualify you. And then you don't have to say how much you got or anything other than just, here's our letter, I'll call the referral letter to become as in benefactor from your alliance agent. That's as good as you can get. So you can do it that way. The the Daughter, what a wonderful thing. Here's my opinion. 200 Zim is just a lot. Let's not say it's not. For \$13, you can earn under \$13, you can get 10 of those. And they're delivered in a fairly short period of time, if you're in the States, it's from California, so it's just time to ship it to you. So you can become a Zim benefactor, or Zim holder, at least a call of Zim. Now, I believe in my own mind that each person who wants to be a Zim benefactor, or as a humanitarian, get their own funds. And they go through the redemption appointment themselves, then if they want to do something with somebody else, they'll have the money to collaborate on projects. But if you don't have your own money, and you have it with somebody else, then who's the boss, who's the final person making the decisions. And although that may not be such an important thing, it is when you get involved with money, just understand that money has a different energy to it. And sometimes people want to be the boss of the money, especially an 80 year old father is used to having his own money. So it's important that you as a Zim holder, go through the redemption appointment, for yourself to get your own money. And you will be contacted by the Alliance because they know who you are. If you're a humanitarian, and then you go in and you you do your redemption, the rates in your heart, it's personalized to you. And you'll get your funds, how what you do with the funds, is your stewardship. That's your accountability to God for what he's given to you. So you, if you get that with somebody else, then who's in charge of the stewardship. And that's why I say keep it in, it's not it, there's no value in doing it together, before you have your funds. But afterwards, you're welcome to do whatever you want. You can collaborate, do things here, do things together there, do your own thing over there. And nobody's telling you what you can do, because you are the sovereign humanitarian, position yourself to be the one in charge. And it's not an ego thing. It's a practicality thing. So that you can be held accountable for your own activities, and not for somebody else's. I hope that we'll talk about that. There'll be hundreds of questions more about that. And we've answered them before, but that's my opinion. Do it yourself, and then collaborate afterwards. Next question.

T

Tracee 13:51

Have I missed the deadline to submit my business plan for our humanitarian project? And where can I submit it?

R

Ron Giles 14:00

There is no need to submit a business plan to anybody. There's, it's your intent to use these things, your money for this humanitarian project, these are the things that you present in your presentation, or the appointment, redemption appointment. And, and having stuff like this already thought through is a good thing. So that's where you submit it. And you don't have to do a big business plan and be just bullet points. Now, that person standing, sitting across, excuse me sitting across the table from you, is from the angelic realms, or the other side, whatever you want to call it. They know you backwards and forwards, they know your pedigree, they know your history, they know your family has been enjoying thinking about you because it's all there for them to know. And so What? What do you what have you been doing this past week, I've been presenting my business plan or doing my business plan. Well, they already know everything that you're doing. And they wouldn't be a very good assistant or counselor, or have I'm trying to say this appropriately. They don't have that knowledge. And they're not who they think they are. Because those who know who they are, will already know that information, period. But they come there knowing everything about you. So you're going to show up present the concepts and ideas that you have thought about that is your plan. And they're there to assist you in helping assist you in getting that plan put into play and becoming manifest for you. And that counselors there to help you with that. Things are changing, don't you think that's a new way of doing things? I think it is. And I think it's just wonderful that we have that physical person that we can talk to. Next question.

T

Tracee 16:18

the current level of understanding of other people, including the unaware ones with regards to abundance, prosperity that is available for them, they might think that the RSS is a scheme are too good to be true. Can you give us a simple way or practical example on how to explain or tell my staff and other potential beneficiaries about the RSS and where the money is coming from? Though we humanitarians know where the money is coming from, I just want to come up with a simple way within the level of their understanding so that it will not create doubt or skepticism

R

Ron Giles 16:52

You're not the first one to have concerned themselves with this and you won't be the last. Each person who receives these, this kind of money needs to go through the thought processes that for them will produce something that is feasible for other people to understand what you're doing. You cannot share things in the NDA and be inappropriate. Obviously. If somebody wants to know where you got the money, say I am under an NDA, I'm working for people and I, it's my job to do this program. And that's what I'm doing. And I'm getting paid to do it. But I can't tell you anything about it. I've asked the questions. But I'm under an NDA, if I got the answer, I couldn't tell you anyway. Now, if you don't want to lie to people, I'd say I'm under an NDA, write up an NDA for yourself. And then you're under an NDA of your own making, but that doesn't matter you don't like. So we want to be sure that we're protecting ourselves. Now one of the biggest things skepticism, skepticism, well, who is going to be skeptical about free money. And who in the hell gave them is giving away free money, you can figure out something to say it

may be that these these funds are held by certain individuals to distribute us to distribute to the world. And we have been put in a position and hired to do this in an organized sort of way. We organize it and that's why they want to come and use us and what we're representing as far as our businesses are concerned. I don't know is that a good way? Somewhere in there, there's some ideas that will come out that you'll say that worked for me. Some people are using the the name of the CAC on I use the word Glendale, Glendale CAC Glendale Community Assistance Centers, I work for the Center. I am the director. And I'm paid to do a specific job. The money isn't mine. I'm just in control of it to do the things that I'm hired to do. Let that suffice if and if they worry about that, then say there's nothing more than I can really tell you. The proof is in the pudding. If you want to be skeptical, that's fine. Pay the \$10 sign up and watch the money come into your account. If you still have some problems with that don't want to do it. They'll then just give the money to a supplier to somebody else. If you don't believe it real tell come on board really quick when they see the money and can spend it. So we have a ghost out there that was shooting down now. Because we don't really understand if we're going to get a lot of skepticism or resistance to us. But the proof is in the pudding. Sit down and taste it. You don't like it. Don't eat it. And that's what we have to offer. So there's no reason for us to try and sell it to people. The initial stages, yes. But we have setup will have set up on their RSS platform where they can guess can go and watch the videos and become familiar with what's going on. And then they can go ahead and register. And if you have given them your ID, your and your referral name, then you're in good shape. They can just sit there and to their heart's content, and oh, well, I'm going to pay the \$10 get on this. And then they sign up, and then it's all done deal. So that's why we use a calling card. So the whatever part you want to call and and as part of our program. Next question.

T Tracee 20:50

I've heard you mentioned a bond account, if I've got this right, it is an account that is compromised or comprised of quarterly payouts from the alliance that aren't spent and its purpose is to ensure or be collateral for present and future financial obligations. If this is true, does that automatically happen? Or do I open an account for this and move the money myself?

R Ron Giles 21:13

Nothing automatically happens. You have to do it yourself, this is your business, nobody's going to set it up for you. So that you're correct, the what I'm calling a bond account is a place where you can park the money that you haven't used that quarter, to send it over, just transfer it over, it's just as simple transfer over to what I'm calling a bond account, and call that account anything you want. But at the end of the quarter, you're going to get another payment. And so that the rest of the money, you can zero out your account out of that account that you're getting paid on with the next quarterly payment, just zero it out transferred over to the other one and then start moving ahead with what you're doing. Not a big deal. But you have to do it you're in charge your business, the humanitarian. Next question.

T Tracee 22:17

If per chance I actually spend more than my quarterly payout will those funds cover that additional expenditure? I guess the bond.

R

Ron Giles 22:27

If you can spend 1.2 1.525 quintillion in three months, I'd like to meet you in person it's it's a, it's going to be really, really, really, really, really difficult to be spending that amount of money doing humanitarian work, it'll be a lot easier for you to spend it doing humanitarian work than if you're trying to hold on to something and creating a legacy for yourself. Because the money that we have is so so huge in its in its quantum it's it's amount that you're not going to have a chance to go to spend beyond what you have can't anyway because there's it's no credit, and so forth given now, but you're not ignorant to get close to it. So those are kind of what they have questions that come from not understanding how much you're going to get. And how can I expect you or anybody up? Can I expect anybody else to understand that? Unless they've got into the numbers themselves? Do you know how many zeros there are in a quintillion? If you don't know, you better find out. And how many zeros in a quadrillion quintillion, the sextillion, a septillion. But not till you, unknown alien, the alien. If you don't know those kinds of things, then your curiosity hasn't peaked yet. Because those are things that you need to know and understand. Because you're going to get in a situation where you have never dealt with these things before. And now you're going to bring all of your fears of not enough your your lack mentality to this. When in reality, you have the abundance to create the abundance mentality. I've got all the money in the world that I need to do the things that I want to do. Some of that can be for your own self. Fill your cup. Do not skimp on yourself. It's your money, use it as if it was humanitarians do that. They know that they fill their own cup, create the abundance mentality for themselves. And then start doing that to other people. Helping other people gain that same confidence and belief in the future that the money will always be there. Buy needed the money will be there. If it doesn't, then I've got that over in the bond bond account and I can spend some of that if I need to. That bond account is is just going to accumulate. At the end of the 100 years, how much do you think will be in there how many quintillion think is gonna be in there? It's hard to know. It's hard to guess. You know, we're gonna get 500 quintillion over the 100 years five quintillion per per year, or 500 quintillion in that account that will be coming to us. Not all at once at five quintillion per year. So if you can spend that that fast, you're, you know, you're going to be able to walk underwater. And then consider the fact that we have nine over 9000 people now that are we are training, every one of them is in the same boat. You're not alone. You can't do it by yourself. So we get a lot of help with us. And all of these people are, are given to us by the Alliance to do this work. Isn't it fun? To headache right now, but it's fun. It's great things. Big fun. Next question.

T

Tracee 26:35

Are we having fun yet?

R

Ron Giles 26:40

I'll drink to that.

T

Tracee 26:44

Is it the CAC's mission to sign up any and all businesses in the area to employment contracts? Or just certain ones? And if so, what are the guidelines?

Or just certain ones? And if so, what are the guidelines?

R

Ron Giles 26:55

I don't think that there's really any guidelines, what we're looking for, as the service oriented businesses are serving the community, there's there can be all kinds of justification for putting businesses on employment contracts, including the business owner, put them on the seven year and double their income and that sort of stuff, and get involved in the literature and kind of feel how you want to do it yourself. It's all coming. And it's it's the information is available to you so that you can start having these kinds of questions for yourself. So, dive in, learn what it's all about, and then become familiar with everything and pretend like it's yours. And it's now and if you're just doing it, you don't go talking to a lot of people about it, because they'll think you're stupid, or crazy. And I've had others. My kids want to put me in a restaurant, because I'm going crazy. Well, then, don't talk to him about it. But if you find like minded people, and you'd feel comfortable in it, you test it by you're dipping your big toe in if they're, if it's not a freezing freezing experience, and you might be able to share a little bit. But don't be going jumping in and just because you're going to you're gonna cause some problems for yourself.

T

Tracee 28:21

Ron said, you can ask for the higher rate of 500,000. But if your currency are not in USD, but in South African rand, do you still ask for 500,000 because the value of USD and Rand differ.

R

Ron Giles 28:35

Don't concern yourself with that. Or you're getting a rate for yourself, if it's in Rand, and it's a grant. And if there's a difference in the valuation of the RAND to the US dollar, it doesn't matter. All of these things are taken into consideration. The most important thing is that you will be given a an amount or rate in your heart. If you take the time to focus in ponder on that. This is your right to have this information. It's your future. They're going to give you that information, if you will just ponder on it and think about it. And then recognize when you get the right idea. There are some mind games that you're playing with yourself in order for you to really get to where you're supposed to be as far as a rate is concerned. \$500,000 per Zim, I have a one Zim note here \$1 Zim note, that's going to be worth \$500,000. That's hard for me to even fathom in my mind. And so if your mind is overriding your heart, which most of us have a problem with? Your mind is going to control and your your heart's going to come up with 2 million that say 2.5 million Your mind is going to say, Oh, that's too much nobody would give you that amount of money. No, but what would you do with that, and \$100 trillion times that is, is that's pathetic. That's what your mind is going to think. Because your mind has limits. If you haven't opened up to the idea of the higher rates, then it's going to be a problem for your mind and your heart to get together on something. So what I say, get familiar with the money, get familiar with the terms, get familiar with we've got, we've got to do the math, it's a it's a beautiful document on the website, do the math, find out for yourself what it's going to cost to do things. And then act accordingly. But you're starting to get into involving yourself in the thought processes about very large sums of money, you've never had that opportunity to before, we've never had a reason to do that before. But now you do. So get involved with a show that your mind is not going to give you the limit. But let your heart tell you what the rate is going to be. It's a mind game that you have to silence your pea brain to let your heart be be

heard. And if you don't allow your mind to go into the higher rates, and feel comfortable with it, then you're going to be your mind is going to be fighting with your heart. And that's not what you want. And that's why I say get involved with the money. When I first started to get involved with these higher Zim bonds. I was saying there's something in these that captivated me, and I want to know everything about them. I don't know why. But there it was. And so I learned from that experience that. And I'm saying that I'm following my inner guidance on this, to become familiar with these higher rates, these higher numbers or these higher face values, even the names of them. Never heard of sep 10, Jintilian before if you accept engine till yet has 2100 zeros behind it. One plus 2100 zeros behind it. have also the those are the larger bonds. Are you familiar with them? They're on the internet, you can buy them. If you know what you're doing if your mind would go there. I don't know if I need that much. No, you don't. And it's not really the base value of the bonds that you're looking at. It's the rate that you're going to ask for the for the face value of the bonds. And I say just because it's big, don't skimp if it's in your heart to do \$2 million per presume and you fight start finding some of these larger rates, her face valued bonds. And think wonder wonder if I should get well and in something? Yes, get it? Oh, well, if I'm gonna get that amount, then I lower my 2 million down to maybe 25,000. No, that's flawed thinking. Stay with your heart, stay with what you're which is really your essence. Open up to being bigger, open up to the greater opportunities to serve mankind. By say when you listen to the Guru's are going to give you \$11 million for 100 T No. Well, I'd like to know why in the hell you got 100 100 T note and why they would be given you a million dollars for something that they have no ability to gain back from. It's only to stop you from having the 100 trillion to do your humanitarian work. Who did these people think they are? They're taking iron are coming in our playground and telling us what to do. And I mean, saying, well, the Alliance gave us the 100 T notes because that's what they want us to get. You're going to give me \$11 million. And why would you do that? Why would they give me a million \$11 million dollars for a note that I bought for maybe 150 \$200? Ask yourself that question. And then you say to yourself, they're just trying to stop me from getting them the real money that I need for my humanitarian work. That's why I totally totally dismiss anybody who tries to limit what we're going to get because they are cabal oriented. And if they won't, if they are not cabal oriented, the information that they're getting is from people who are cabal operatives, and are in there to tell people what to do, and limit the amount of money because the Cabal knows if we get the money we're talking about with love won society, they are completely out of business. And they won't have any relevancy in the New World, per se, or they won't be here to be participating anyway. That's my belief. Okay, I've said that.

T

Tracee 35:30

So, move on.

R

Ron Giles 35:35

I could go on.

T

Tracee 35:37

Several people in the chat room have expressed talents or business connections they have to support humanitarian projects. Can you set up a place in telegram where people can post information as a resource for us to use as we move forward in executing projects? Is this the

question I emailed you, to you recently?

R

Ron Giles 35:59

It sounds like it. You know, what I, what I don't want to do is set up a situation where people can come and advertise. If you've got something that's really good, then use it. You don't need to come on here and start sharing everything with everybody. As far as projects are concerned, otherwise, every person who has Zim and as a humanitarian, has projects, how do you sort through all of those people that want to share their idea of humanitarian work? It's going to be very difficult. So just look at the practicalities of that. And people still want to come on our channels and start doing that sort of thing. I look at it, why are they trying to do this? It's not, I don't think it's appropriate. Because I could be wrong. And if I am wrong, I'm sorry, I don't want to miss inform people or send them in a bad direction. But it's not part of the training. The part of the training that we're trying to do is get you ready to become a gym benefactor. You'll have many, many opportunities to delve into a whole bunch of different activities. But if your heart hasn't taken you there, I think it's inappropriate for people to start advertising what they're doing and make it sound like that's the way to go. When that's the way to go for them, and maybe not for somebody else. If I'm, if I'm wrong, I'll admit it, if somebody can show me that, that's flawed thinking, and I'll admit it. But I want to be sure that we focus on our communications channels, things that have to do with love won society and the program. That's why it's set up another place to go and advertise stuff. And that's why I want to keep it as pure as we possibly can. There'll be other times and other opportunities and other channels. But I don't want people who go to our channels and start advertising for other channels, nor do I want them to advertise there. They're small things that they want to do. Insane that I'm I'm thinking to myself limitations. I don't like limitations, but we have to focus. And once we focus on the right things that we're trying to accomplish with our channels, with our telegram channels and so forth, then it will serve a purpose. But if we just open it up for all kinds of stuff, that people come there wanting to learn about love won society, and all they need to learn about is all of the different projects that other people have. We have a projects only telegram where you can go and share all you want. That's the proper place to share. So I've said enough, let's go to the next one.

T

Tracee 39:16

Thank you. Are centillion Zim also redeemable?

R

Ron Giles 39:22

Yes. Centillion is 300 zeros.

T

Tracee 39:32

Wow, there's a lot I haven't been trained can I train online because I'm deeply interested in knowing all I can especially the God's source involved in what best to do with the money humanitarian wise and if we can use it for personal use too, as long as it isn't extravagant.

R

Ron Giles 39:51

Well, first of all, train the online what we have produced online with our website QFS2020com We have got all kinds of documentations documents that you can read to gain greater understanding the NESARA is in there, all of the programs are in there, ways to initiate the programs and so forth. It's all there in, in the documents, as well as in the training. We've got over, what is it 45 training videos or q&a videos, it's gonna take you a long time to get through them, but I recommend it, that people's, they really want to know what they're doing, then go ahead and get that kind of training. So do I can I train online? Yeah. So if you're deeply interested in knowing everything, then it's all available for you to know. Especially we talk about the God's source involved in the myth to do with the money and so forth. Yes, that is where, let's say we're married, love won society is married to the alliance. In doing things in harmony with the Alliance, and then harmony with the heavens and all of the dictates, and the laws and the universal laws and all that sort stuff that are act as guidelines for us as we move forward. We've been given a whole lot of stuff, and a lot of information and sharing is best thing so you can know how to implement these for your own personal years now, I've said it before. And I'll say it again, now that you brought this up again to you are humanitarian, are you abundant in your thinking? Or do you think back? Now, when you say extravagant, who told you that extravagant was wrong? Who told you who told you that you have a limit of the amount of money that you can spend on yourself? You won't hear it coming from me. Because you are the sovereign humanitarian humanitarians do things appropriately, even for themselves. If you want the house on the hill, by the house on the hill, if you feel guilty about it, then wonder why you're feeling guilty about doing something for yourself. Bombs do that all the time. I can't, I can't spend that money on myself, because I'll take it away from what I'm supposed to do with the budget for our family, all those kinds of things. And all you want on yourself, it's your money. Act as if it is your money. And then when you're acting, then you will spend things on the things that you want. Well, I say don't be extravagant. I'm saying, don't buy more than you need. If you have more than you need, then give it away and buy some more stuff. Next question.

T

Tracee 43:13

Okay, can you map out and drill down more details on the benefactors account setup, my understanding is we go to the appointment, we receive our main account number, the money is transferred into our QFS account, which is the motherload account, that we transfer the amount needed into our company or trust. If I'm missing something in the above process, please let me know.

R

Ron Giles 43:37

You're not missing anything. The key ofs is not an animal that you got to be afraid of. It contains your accounts. If you want another account, you set up another account, transfer over money over to it just like you would as if it you owned the money in a bank. It's there to serve you. The Quantum financial system is there as a support system for you doing your humanitarian activities. You feel like you need an account for every director and assistant director then do it. Make them accountable for the money that they use to delegate and then require accountability for the decisions that they make delegate decisions, accountability for the decisions that they make. That will keep everything in a manageable way for you. And I'll

tell you that's the best way for an employee to be able to function using their own ideas and, and creative abilities. Applying that to the work that they do. If they make a mistake. Who cares? Unless it's on his unless it's intentional. Then you have all the money in the world. You don't need to be worried about them making a mistake. They won't come from their heart, they'll do the things that seem appropriate. And if you haven't allowed them to do that, then they're going to wonder all the time, if you really do support them, but you need to let them know that they're out there doing the job that you're asking them to do, and you support them. 100%. You do that by getting the reports back. And then if there's a problem, you sit down and talk about it. That's management. You're not missing anything here, you'll be able to do what you want. Next question.

T

Tracee 45:35

In setting up a company, the benefits are the company can be anonymous Correct? Inside of a trust, it is not anonymous. Correct. As benefactors we set up company and have one trust? Or does that mean we can have a company or a trust?

R

Ron Giles 45:52

Well, you're asking a lot of if ands or you set it up your way you want to do you know, can I do this? Who says you can't? I'm not gonna say you can. I'm not in charge of you. I'm not in charge of your money. I'm not in charge of humanitarian activities. If you think I am, then, if you give me a here's my list of projects that I want to do, what do you think? I think you're fine, thank you. I don't get involved. I have no reason to I have my own projects. That's why you're the humanitarian, you get to do what you want. So if you want to set it up this way, or that way, it's up to you. It really is. Now you have a counselor at the redemption center, or redemption appointment. They're a counselor for a purpose, and made you need to use them. You ask them question? What do you feel about me setting it up this way? Oh, they'll give you an opinion, if that's what you've asked for. Next question.

T

Tracee 47:02

Is there a time limit on the number of days that we have to transfer the money out of the QFS account into a company or trust?

R

Ron Giles 47:11

Oh, that's that's almost a ridiculous question. Don't you think? The money's in the QFS. It's your money. Keep it there, waited till for 75 years, and started putting money into another account. Who cares? It's your job to do your humanitarian work. Use this. Next question.

T

Tracee 47:34

Same, it seems like the same like thread in regards to bonded accounts at the end of the quarter, the remaining funds left in the QFS account that are not used. Ron suggested to move them into a bonded account. Do we set up another account in the QFS. Do the remaining funds

them into a bonded account. Do we set up another account in the QFS Do the remaining funds go into a bonded LWS account? I don't think so. But I just want to clarify.

R Ron Giles 47:58

No, we have nothing to do with your accounts period. The only account that we're concerned about is your master account for the RSS program that set up with the computer to draw money down when somebody wants their money. That's the only count that love won society has any concern with. It's yours, and it's your private information, and we don't get involved ever with your private stuff. Next Question.

T Tracee 48:29

The rest of this one. My understanding is we have four accounts as benefactors we have our main account, which is the motherload account, then we have our company account, a trust account, and then our bonded account, is this correct?

R Ron Giles 48:44

Why would you say I have four accounts. Both are for that you can make. If you wanted to do what if you had 15 trust then you do 15 trust accounts. There's no limitations. It's the way that you want to conduct your business to support your activities. Don't be limited. We have the abundance mentality. We're going to do everything that we need to do to accomplish our purposes. By need 2700 accounts I will have 2700 accounts in the quantum financial system. I don't care. Next question.

T Tracee 49:33

Okay, moving on. Do we take we're almost done. Okay, we got to get through this. Do we take them and in our to the meeting or just copies of each?

R Ron Giles 49:45

There's no reason for a copy, take them in there. When you're finished with them, you will redeem them or cash them in and then you'll give them away. Why would you make copies of that? Next question,

T Tracee 50:01

Can we get med beds for our projects and Can RN operate them?

R Ron Giles 50:09

I think we had this same question a couple of days ago, the med beds are going to be controlled

I think we had this same question a couple of days ago, the med beds are going to be controlled by the military, for the foreseeable future, we will not be involved in it other than perhaps, when we go in there we will have that opportunity to, to use the med beds ourselves. But the idea that we're going to buy med beds and set up clinics all over the world is not not thinking that it's flawed thinking, let's just say it that way, the military is going to be in charge. So just let it go. If there's other opportunities come in the future, then that might then you can specialize in something if that's what you want to do. But it is not in the purview at the present time because military, that the med beds will be controlled by the militaries of the world. They are qualified, they've been training for this and have been in training for a long time. Some are saying that takes 18 months to train a person to be a technician with a meant that don't it's going to be 18 months before we have a chance of doing anything. But I think it all for the foreseeable future will be the military's situation and we won't be involved we may be asked to help finance it or something like that. But they're still elected fuse will be involved. Next question. Oh, can an RN? She has to be trained.

T

Tracee 51:40

our dinar our dinar only for humanitarian work? Can we give them to kids?

R

Ron Giles 51:54

Sure. Just give it to? What do they do with it? Who knows? But you can give it to him.

T

Tracee 52:00

Okay, last question. I was listening to a video from Mark Keshawn. Christopher, talk about blockchain technology. Is this synonymous with the quantum financial system? Or is it the technology that will allow people to access their funds through the new financial service centers back to the quantum financial system, he never mentioned the QFS once.

R

Ron Giles 52:24

Well, that's probably because he doesn't know anything about QFS. Blockchain technology is third dimension technology is very highly advanced. And but the concept of a chain of information block of information being transferred all at once is is new technology. But when you get into the quantum financial system, it uses that same basis. The Quantum, the blockchain will take care of transactions or record transactions 40 times 40 times into the future and for the name, you'll have a history of the 40 that you go back and find out where the money came from. The Quantum financial system knows everything. The quantum consciousness, Divine Consciousness is the source of the quantum financial system. It knows everything and a record just as if it is the Akashic Record. Because in our understanding, it is the same thing. Maybe some minor differences, if you get into it, but for our purposes, the quantum financial system will retain records of every transaction indefinitely. The blockchain does not do that. Blockchain is third dimension quantum consciousness, divine consciousness. How do you define that? It's not the same. So whoever's talking about things like this blockchain technology, they have no idea of the quantum consciousness, the divine

consciousness that is being applied for us to do our work in bringing forth the golden age of mankind. That is essential for you to understand. There is a purpose behind all of this. And it's set up for that purpose. All of the other things that are being touted around and about and we're going into blockchain and we're going into Kryptos, and all of that sort of stuff. It couldn't happen, but it's not part of the quantum financial system. Please understand that. That's all third dimension stuff. And if you think third dimension is better being drawn into the higher realms. Oh, that's kind of laughable. And then but people will say that because they don't know, it is simply because they're ignorant. I don't know this mark Kishan Christopher. I don't know anything about him. But I do know about the quantum financial system. I do know about the alliance. And that's where we're going. And everything else is just temporary. Even Starlink is temporary. To get us through the transition to where we're in, fully engulfed in the quantum consciousness, which is our God's source. That's where we're going. Is there anything less than that in the third, or fifth dimension? I don't think so. That's where we're going. That's where we're doing. This is all this is what it's all about. We're not just helping the homeless. By enhance, we're not just helping people find food, or clothing. We're changing the entire way the economy runs. Because the Cabal economy was designed for the elite. Those elite are being taken off the earth. And very little, if anything they have created we'll survive. It's all going to be brand new. Now we get to be a part of that. Isn't that fun? With that, let's, let's end this session, part two, for today, December the seventh. And thank you, Tracee for your help. Welcome. Send everybody our love and appreciation for being a part of our programs. So with that, we'll go ahead and end
