

Q and A from 12_7 - Part 1

Wed, 3/30 11:29PM 1:00:55

SUMMARY KEYWORDS

people, question, benefactor, humanitarian, money, trust, beneficiary, alliance, set, zim, med, pay, assistance centers, called, redeem, funds, person, rss, contract, rates

SPEAKERS

Ron Giles, Tracee

R

Ron Giles 00:00

Good morning humanitarians. This is Ron Giles. I'm here with Tracee and we're going to do a question and answer session. Today is December, the seventh 2021. The day that Pearl Harbor, the Japanese Harbor, Japanese bombed Pearl Harbor, remembering them. And glad those kinds of days were over, we got our own problems down, but we're getting through them. So let's with that, let's go ahead and start. Tracee, just just one word, to our new people. We appreciate you here and being here and coming here. And we want to help accommodate your learning curve. For love won society. There's a lot there. One of the biggest concerns that we're getting a lot of people asking how, where do I pay the \$10. So I can become s zim benefactor. You know, I've looked to your website, and I can't find where to pay that. Well, if you've really looked through the website, with the idea of learning, rather than finding where you pay your \$10, let's not talk about money so much. The fact is that the RSS program is not up and running, so there's no \$10 to pay, there's no way to register. So please be wise in in the questions that you ask and send in. Don't bypass the fact that you're gonna have to learn a lot of information in a short period of time. If you really want to stay up with the learning curve to get to the point that will be available when the RV takes place. With that, let's go ahead.

T

Tracee 01:45

Okay, first question without going public? How are we expecting this to get to everyone in need?

R

Ron Giles 01:52

To an interesting question, when you say going public, I'm not sure what that means. When the time comes, we'll go really public. But until we have the RV program up and going or the RSS program up and going, we're not there's no way to go public. So not sure how to answer that question. We'll go with the next question please.

T

Tracee 02:15

All currencies other than zim be exchange at current rates are redeemed same as him while at the angels meeting

R

Ron Giles 02:25

The Malian is going to be a place where you can redeem and exchange redeem us him and exchange your dinar and Dong and so forth at the appointment. And it will all go all of your funds will go into accounts that you open up with them in the quantum financial system. And that's the way it's supposed to be. So the rates that you get discuss it. I don't know what rates ask for for Dong and dinar. I mean, there's published rates now with this new thing. That's where the Iraqis have revalued their currency. And it's supposed to come up on the federal Treasury Department's listings of, of values. And then you've got the Forex that's fluctuates back and forth. So we're really not there to really know what's going on yet. But as far as rates are concerned, so there's nothing that's been given out from the Alliance. Let's put it that way. Next question.

T

Tracee 03:35

In your q&a on 9/27, he spoke of the Alliance having their own med bed. Can you speak more on this?

R

Ron Giles 03:44

I don't know that I spoke that the alliance has their own med beds. I don't believe that's true. So I wouldn't have said that. However, the new technology is coming from offworld. Let's say advanced societies, advanced technologically. Let's say that there's there might be eight or 10 different star nations who have developed med beds. Well, they're all being available, made available so that we can have a variety or possibilities of med beds. That's all I'm trying to say. So there's there's going to be a variety of bed beds that will be available for us. First one to come down. I don't know. Some folks are saying it's already here. If that's the case, then then that's the case but I'm not aware of it. It will be handled by the the military. That sort of leaves humanitarians out of the loop as far as being in control of them. And people are wanting to do local health clinics and so forth and, and set up a whole series of those. And I'm wondering If that's a really good use of our time, and our money unless we're coordinating with the military to provide facilities for them. But we're not going to be involved in determining who gets to use the med beds, or anything like that for a very long period of time could be three, five, maybe even 10 years before it gets down to where we humanitarians would have them available for our own clinics. So it's a good idea to it's a wonderful thing to want to do. But the technology is way beyond what we have the ability, you know, they're saying, like 18 months of training for medical people, as medical people to use the med beds. So when we're talking about med beds, please let the military take care of it. I'm going to, and I need them just as bad is not as bad as everybody else. But I need them to. So I'm looking forward to my opportunity to to heal my body. So, but there's other ways to prepare our bodies to be healed. And we mentioned a little bit about that a time or two ago in our question and answers, but we'll let that just be

what it is and, and move on. So med beds, big question. Don't know a lot more than what everybody else knows. As far as that's concerned. I don't have any inside information. But no, the Alliance does not have their own med beds. Next question.

T Tracee 06:43

Well, they're they're supposedly making 1000 a day. So I certainly hope it's not going to take as long as that for them to be available.

R Ron Giles 06:54

Well, I you know, when they're saying that there's malware replicators that are building them? Well, when I've inquired about it, it's it's individual cert, and each one has been built now, all depends on which one you're talking about. So it's gonna be very hard for us to just simply say, well, they're making 1000 of these med beds, which ones are they? Are they the ones we have to deposit our DNA in and all that sort of stuff, I don't know, I won't do that. If it if that's the case, for the med beds. I don't want my DNA messed around with before I go through the med bed thing. I'm looking for the purity, I'm looking for the Alliance sanctioned. And obviously that will happen when the med beds come out from the through the military. So they're in alignment with the Alliance. So it's going to, it's going to take whatever time it takes. And then when it happens, I understand. If they're making hundreds a day, then that's good that they're making 1000 a day, that's better. But when it is released, it will just be perfect for us at the right time, in harmony with the dictates of the heavens and in coordination with each individual's soul as they come to the earth and have their third dimension experience. So it'll all just be perfect for us. That's, that's what I believe. Okay, next question.

T Tracee 08:25

You also spoke about people going to Venus to finish their ascension? Can you tell us more about that, please?

R Ron Giles 08:33

I can tell you that I've never said anything like that. I don't know what Venus is to go through an ascension process as somebody else has been saying that not me. So I there's no comment on that. Next question. Okay.

T Tracee 08:50

If the Alliance picks you as a humanitarian, what happens if they don't pick you?

R Ron Giles 08:57

Well, that's an interesting statement. It's kind of like you're either a humanitarian or you're not.

If you're a veteran humanitarian, then you go through your redemption appointment. And they'll vet you there and say, You're the human, your humanitarian. And this is a range that you that you've asked for. This is a rate you will get in that process. If there's a person who believes that they're humanitarian, and their heart is set on the money, it's going to be very difficult for them to get through that appointment. Thinking that they're a humanitarian, when their heart is not really where humanitarian hearts are. So what happens to them? Well, I they go on with their life, I don't know. Is that a total rejection? Not necessarily in the beginning, the point of the spear are though human that human Tyrians, who will receive the funds? Now, not, not all, people are involved in the point of the spear, there's a whole spear, there's a whole shaft and the whole thing. And all of that is required. So the point of the spear can do the things that penetrate into the darkness. So if you're not called in the first round, that doesn't mean you're not a humanitarian, it's just not your designated the ones that will receive funds. But when you, if you come from your heart, you'll get swept up by humanitarians who are looking for other humanitarians to help do the work. And your heart. And the way that you're going to get involved with us, is just as much an important factor as anybody else. So we each are going to have a certain amount of according to our plan, according to our souls plan for our experiences here, let's just not be judgmental about things. If you don't get called on the first round or whatever, then it doesn't mean you're not a humanitarian just means that your calling is a little bit later. So allow this to be true, because this is the way the heavens work. And it's very difficult for me to say, there are humanitarians, thinking they're humanitarians that will go and they won't get funds. It's hard for me to say that because it's such a disappointment, if we're all involved in this together. By the same token, it has to be done in an orderly fashion. And the alliance will do that when it's fair for everybody. And each of us will have our opportunities to serve. So that's the best way that I can explain it.

T

Tracee 11:57

Is it right that your beneficiaries can only sign on to LWS once?

R

Ron Giles 12:03

That is correct. One account for a beneficiary.

T

Tracee 12:10

I have already picked my directors and office staff. I've spoken a bit only to a couple of people as my hubby doesn't believe in this. Yeah, mine either. Can I say to people that I will be working for LWS or can I use my CAC name as a future job.

R

Ron Giles 12:28

I would keep I ws out of this. There's people say well, I would like to use that to prove the will ever I will always recommend if you're going to say something, then keep it local. I work for the local CAC name it Community Assistance Center, I work for the Glendale Community Assistance Center. Or I'm working with them in doing the things that for humanitarian work. That's the best in my opinion, that's the best way to do it. But please don't use love won society. I don't

want that name out there as those who have money. Let's just let that be benefactor somewhere that lives somewhere. And we don't know. We're under an NDA. So we don't know. We're just called to do the things that we're supposed to do that they want us to do. And let that be the truth or the prevailing ideas that you're presenting as far as you on a personal basis so you can keep your anonymity. Next question.

T Tracee 13:42

With the RSS program paying a bonus and one cent per couple referral, a beneficiary could end up making millions in a year. How can we make the funds to be more balanced amount for all the beneficiaries?

R Ron Giles 14:00

Well, this is an interesting question. Let me ask this person, this question. Our job is to get the money out into the hands of the people. We provide a bonus for people to do that. And incentive \$50 for registered in your beneficiary ID number. And we also pay you one cent for every two people. What happens if somebody does the work that is necessary when I say the work I'm talking about getting a lot of people in? That's worth a million dollars. We're going to be paying that to somebody. If one person gets out there and really gets a job done and is making a million dollars a month. I praise that person for the efforts that they have gone through because look at the 1000s in Perhaps even millions of people that are going to be affected because that person is out there getting the job done. Why would I pay that person a million dollars in grateful appreciation for him spreading it out. So that that many more people can get there, we're gonna pay that to other somebody else. If one person wants to go out there and do the work, and is tenacious enough to get a million dollars a month, I have no problems paying that person, a million dollars a month, because that's the person who's getting the job done. Not say that others can't. And not to say that he's being greedy. He's not. This is an opportunity to make money for yourself, you can make a million dollar get it up to a million dollars a month, then you have done everything that's necessary to get paid that. And I have no problems with it. And I hope other people don't have a problem. See, I look at this, and I say, well, making millions per year. Do you see a problem with that? Do you see a problem paying for somebody who's done that kind of work? Who has used their personal abilities and skills to get out there and make that kind of money? I have no problems with it at all. Again, I hope you don't either. Next question.

T Tracee 16:34

How could I be on your daily calls and receive your invites?

R Ron Giles 16:41

We don't have daily calls. And we don't have invites for things other than just what we do as far as our question and answers. And occasionally we pull out other videos as well for different elements of our programs. But but we don't have a select group of people on the inside. We don't do that. Next question.

T

Tracee 17:11

When I began searching for funds for my humanitarian project, 10 years ago, I was told by various funders that I needed a 501 C-3 nonprofit, in order to receive funds, I set one up, but still no funds, in light of the QFS and pending changes in tax laws, would it be better to close out the nonprofit and work through a corporation sole, or through a trust in the QFS.

R

Ron Giles 17:37

Those are kind of personal preferences, there are those who feel like their opinion about this is really important. And I would check to see if they're trying to make some money on there, setting things up. Even the trust, you don't have to have any of that you don't have to have a trust, you don't have to have a queue, an LLC or any other or a 501, C-3, those are things that are part of the old system. How much of that is going to survive, we don't know. If it were me, and I didn't have anything like that, put together, I would take I would go to the appointment. And I asked for the trust documents that I can fill out right then and there and established my own trust with my trustee and a trust and the beneficiaries and so on and so forth, that are associated with the trust. That's all that you would need if you need anything. And I'm saying trying to say this very carefully. You do not need any of that stuff in order for you to go through the redemption appointment and getting your funds. Anybody who says that is not part of the Alliance. And if they're not part of the Alliance, then I would question most everything that they bring out, because is probably just their own opinion, and is not in harmony with the Alliance may not be in harmony with the eyes May I don't know, nice guest if it was but if you don't get your information from the Alliance, then you may be giving out false information. And a lot of people are doing that. This is a prime example. Tony, you have to have a 501 C-3 to get your funds. absolutely absurd. First of all, and it's an exchange. It's illegal exchange from one currency to another. That's what the exchange of re valued currency is going to be. It's a legal transaction. How can they put some kind of you got to have one of this one of those on that where you can go into a bank and, and exchange currencies as a part of the business. So it's something that you have to just allow it to be true. And let it go. We'll see what happens. But we're going to have a lot of counseling advice as we move forward from our, from the angelic realms, I call it the angelic realm. So it to be an Ascended Master could be whatever we don't know. Resurrected being could be somebody in your own family, we don't know. So next question.

T

Tracee 20:37

One question is, is this all real? I have had nothing but negative feedback from my family, I feel like I am against the world. I don't want to make my family feel stupid when this rolls out. But they all think I've lost my mind, they all think I should go to a nursing home. I've gotten in so many messes in life and internet, they have all had to help me out. Please help me I want so badly to help the world and give back to all that have helped me throughout life.

R

Ron Giles 21:09

This is an interesting scenario that you're not alone with, I'm going to I'm going to answer this

question this way. When you share with other people, and you know that they're not going to be there with you share information. If you share information inappropriately, it's not going to be received by the person that you're sharing with number one. And number two, they could turn on you and persecute you, for your saying some of the things that are in opposition to what they believe this has been apparent, as we have moved forward with this whole process. People have been alienated from family members and so forth. Because one believes and the other doesn't, who's to say they're right? Each person is entitled to their own opinions and their own ideas. If there's something that's sacred to me, and I go out, and I try and tell everybody about it, I'm going to get persecuted because nobody wants me to have those kinds of experiences. So what do I do I keep it to myself. I make my plans. People, you know, you're out there, I've got my directors and I got, well identify them in your mind. But I think it's inappropriate to go and talk to him until you have money in hand to be able to talk to him about it. And so, if you share inappropriately, you're going to get people that are gonna bash you around, and think you're crazy and put you in a home, and all that sort of thing. So just keep your own counsel is the best word to use. keep your own counsel, don't share inappropriately with people who you know are in opposition to you. If you do, then you could be in for a fight that will separate relationships that didn't need to be separated. And so be careful who you talk to and what you talk about. It's better to, to have your own counsel and just have it sacred to you, instead of sharing it with other people who will castigate you and make fun of you and cause you problems. That it's hard to back out of where you are now. But just don't focus on that. As far as other people who are not of the same mind as you are. This is really this is really good. Counsel, this is really good advice. And one that you find will serve you very well. As you start going through this stuff, you're not going to tell people how much money you have. Well, I think you're crazy. How many people in the world have a quintillion dollars then be one and you're gonna have quintillion dollars. They're gonna think you're crazy. If you start talking about stuff like that. That's called sharing inappropriately. That's why we have NDA so that we don't have to come from our ego where we've been pushed down all of our lives now I'm, I've got this money that makes me something really special. Yes, it probably does. But you're not special in that way is that you have opportunities to serve the You didn't have before. So let's be wise as we get our money and do our things that will bring about joy and happiness, where if we do it one the wrong way, then it's going to bring a lot of problems in opposition to us. And we don't want that. So be wise, share appropriately with people, test it out, test the waters, stick your toe in, if they're not open for that, if you'd stick your toe in and it's freezing, and take your toe out and don't go there. That's, that's good advice. Next question.

T

Tracee 25:39

I thought zooms for 50 trillion would be accepted, not just the 100 trillion. Please tell me if I'm correct, or if I'm wrong.

R

Ron Giles 25:52

You're not wrong. 50 will will, if it's a trillion part of the trillion dollar series, they they will accept it. Now, this used to be prevailing, or you had to have 100 T Notes. Well, who's saying that you have to have 100 T Notes, people are selling one or two nodes instead of 50s. You know, there's just so much garbage information that's out there. If you have if you have the actual bonds that were printed as bonds by the Zimbabwe reserve bank, they are the 2008-2009 series, AAA series. Along comes the Chinese and says we can do facsimile so those and

sell them dirt cheap. And we'll just say that they're not really valuable currencies, they're not. But the alliance in the hands of humanitarians will redeem those, even the extremely large face valued bonds. They'll say their gurus will say, well, they will, they will, if you got a large face value bond, they're not going to redeem that. They are not part of the Alliance. And they're speaking for the Alliance who will do what they damn well, please, as far as rates and and redemption is concerned. You cannot restrict them. If you don't give him your own information from that don't don't speak for them. Because that's a lie. It's a bold faced lie. So any Zim facsimiles, or the real actual bond printed on bond paper will be redeemed by the Alliance, regardless of the face value. And here's the caveat, here is the conditions. If you're not a humanitarian, and I'm saying that in a way that there are those who are going to be called to have the money, and there are those who are not, if you're not one of those who are called to have the money, you will not re redeeming your Zim period. Only those who are designated in bed as humanitarians, I call them Alliance humanitarians. If you're not an alliance, humanitarian, in the beginning, you won't get the funds. Regardless, the Zim is only for those who are supposed to get the funds. And if you're not a Humanitarian Alliance humanitarian, you won't get any. Did I say you won't get any? Yes, that's exactly what I said. If you're not a humanitarian, it doesn't matter. But if you are a humanitarian, even the facsimiles will be honored and redeemed. Those are the gold ones. Those are the silver bonds. Those are the ones that you can buy for two or \$3 on the internet on the internet. The problem that they're most people have in buying those, why would the Alliance Well, if you don't know, and you think, Oh, they that's not real. It's it's fake. It's all that all of that sort of stuff. Doesn't matter to the alliance. Why? Because there's no value in them anywhere else other than the Alliance. You can buy those and put them on your wall as wallpaper or beautiful, but if you're not a humanitarian, they will not redeem them, but if you are, they will. It's just that simple. 10s 50s one hundreds, one centillions one quintillion 100 quintillions sent to aliens or 300 zeros. They're all available to be redeemed at what rate? The rate that's in your heart. And we're encouraging people to just focus on them ponder on that. And let the heavens tell them what the rate is appropriate for them. Next question

T

Tracee 30:22

for ECS is, it is necessary to have two parties to sign the contract, one part would be my employee, but for my part, it cannot go under my personal name, what would be your suggestion? Would it be the director?

R

Ron Giles 30:41

Well, the Director Yes. When you're saying your, your personal name, it doesn't matter what organization you belong to, if, if you're signing a contract for that organization, you have to use your real name, period. Now, does that mean that that you are the benefactor? I don't know. I don't believe so. Maybe some people will connect those dots, maybe they won't. I will always use a director. And I will always use the name of my CAC program, or in that area, Community Assistance Centers in that area, as the entity that's doing this, that signing the contract, you've delegated that responsibility, it's an authorized signature, you can authorize them to sign contracts. And that's part of their employment. And that's part of what they do and part of what you do. So there's ways around things, you just have to figure out the right way to do it. But in my opinion, what I'm planning on doing is, is naming the directors, the director of the Glendale Community Assistance Centers, and his name is such and such, and he's the one that signing

I've authorized, he has the authorization to sign signatures, or sign contracts. And by the way, for those who don't know, ECS, has employment contracts, shares. Those that's the basis of the contracts that we're talking about others to way to areas that that's in that's one of the CAC Community Assistance Centers. And the economic stabilization system also has the employment contract, instead of shares because that's it connotates something different to different people, but we're calling them employment contract accounts, rather than shares, employment contract accounts will be changing that but it's gonna take a while to get through. Next question.

T Tracee 32:49

Any suggestion on who I should talk to to get ready for the trust document at time of appointment? According to my understanding, I am the trust store, I can also be a trustee. Do I need to have more than one trustee? Can a person be a beneficiary and a trustee?

R Ron Giles 33:08

You know, there's some laws associated with a rule for whatever setting up a trust. The one who sets it up as a grantor, one who runs the trust is the trustee. The one who is the beneficiary who's received the benefit of the trust is the beneficiary. So there's some things are around that, that I'm not familiar with? Shall I'm going to take real good counsel and advice from the person that sitting across from the desmi I hope they don't flap the wings, my face, but could be could be an angel could be an Ascended Master or whatever. It all depends on who they've got lined up for us. Next question, please.

T Tracee 33:53

I asked my daughter to be the beneficiary since it is NDA. I cannot really talk to her about it. Is it all right to put her down as a beneficiary? And then tell her about it after? These are all the same on

R Ron Giles 34:08

Yeah, these are these are questions you are you don't understand the difference between a beneficiary. And when the RSF program on platform is not up and running, how can you be a beneficiary? How could you designate a beneficiary?

T Tracee 34:27

I think I feel like they're talking about their trust.

R Ron Giles 34:33

My suggestion we dealt with with these things. You've got questions as you're moving forward.

write these questions down and continue on and don't, don't stop and stutter, your educational system your training, because you don't get answers to the questions, write them down, and then continue on. Eventually, those questions will be answered in the q&a phase, because we have answered all of these things before. So there will be times when you can get all the information that you need. But you have to do the due diligence to get it, you got to go to the library to find out what's in the library. And if you don't, then it's only speculation. And you hear these things that well, it's in the library, we'll go to the library and look for it. And if you don't go to the library and look for it, then do through training that we've set up and allow yourself to learn from those. And you'll, you'll get everything you need to know through what we have prepared for you. Then they're done that I know these programs backwards and forwards. The only way that I know that is because I got no, we only helped create it, but the only way that I really understand it is to get in and where it put the new shoes on, walk around in them. These, this is what you're going to be doing for the rest of your life for the next 100 years. It's not a slam dunk education system. It's something where you have to do the training yourself. But it's all there for you to do it, research it out, become familiar with it, be the professional that you need to be to be a really, really highly functioning, humanitarian. Everything is set up for us to do that, if we can just see it. So we've got all the assets with all of the help that we need the counseling advice, we get everything. It's all been done for us so that we can do the things that are being placed upon our shoulders to do and that's bring in the golden age of mankind. Next question.

T

Tracee 37:03

When I become a benefactor, I will have a master ID when I refer someone to the RSS program, do I need to get a separate ID for the referral? Or do I use the master ID?

R

Ron Giles 37:18

Well, it's a question of your own asking when you say, Should I do this? Should I? What is it what this was what to see information say to you, he says you're the master ID number you are the master, you're the top of that list. If you use your master ID number and give it out to somebody else. They won't know it's a master ID number, they'll just know it's a referral to get into the system to to register. Beyond that. I don't know what to help you with. Our referral is the referral is from somebody who's already in the program. And that referral number has an ID with it. And so when you go to register, you get the referral name and the ID and then you register and you're a beneficiary. And then the 10 cents per minute starts dropping down into your account. So there's not much more to it than that. So but use your master ID number any way you want to. Don't give it to the master ID number it has been controlled for you. But as roof responding or the referring agent, you can do that. Use it once for question.

T

Tracee 38:47

When we receive money and start to purchase property or any asset it will be registered under the benefactor. But if we apply for a trust, will it be purchased under the trust with no benefactor name involved? Basically, I'm trying to figure out a way to be anonymous, and form an LLC.

R

Ron Giles 39:05

These are these are things that you're going to have to think through to figure out the best way that for you to do that you want to do as a benefactor as the one who has the money. We want to avoid putting our name down as the one having the money. You're going to have to sign legal documentation. How many people out there that you're going to be dealing with have any idea or even a clue of what a Zim benefactor is, especially in the RSS program. So you set up a trust and you're the trustee of the trust. You're going to have to sign documents with your name. It's a legal document that you're signing. They don't need to know who you are. Other than that you're representing the trust. They don't know if the trust is big or small or anything like that unless you've told them. Now we all understand the benefactors are going to be very wealthy people. And that's perfect, my opinion. But nobody's going to know that less other people tell them and the on the idea that your Zim benefactors not going to be promoted or put out there by love won society. You're you're safe with us, as far as our documentations are concerned, how you want to set up and do business is up to you. I believe that a trust is the best way an LLC going away, off, all of the corporations are going away. Corporations, all of them every single one of them was owned by the Vatican. So that they can be in control of the world. They own USA Inc. They own state of Utah Corporation. It it's it's all part of their demented way of controlling us. So that's all going away, trust will probably remain, they will survive as an as a structure to use and as most cases is structured to use will be for anonymous activities. Next question.

T

Tracee 41:42

When a beneficiary uses a trust to purchase a home through the RSS program, if the home was destroyed by fire, flood, hurricane or whatever disaster, what is the procedure for replacing the home? Will there still be home insurance after discharges are implemented? Or is there some other means to replace the home?

R

Ron Giles 42:03

There is always another way to replace the home when the home just simply costs money to replace. Insurance is a scam. If you have the money, okay, I'm selling the house to somebody. I'm paying them to buy the house from me. That's what the NRELS stands for. So I'm already paying for it. Now, do I have enough money in my bank account in my that I control 1.25 quintillion at the minimum per quarter? Is there enough in there to pay to rebuild a home that costs three or \$400,000, or even a million dollars. I'm not gonna buy insurance, I am the insurance of all of the things that I'm doing. If somebody has a problem, and that gets wiped out, their home gets wiped out. I'm going to be the first one at their door, giving them money so that they can start lining up everything that they need to get the home repair. What about large floods and hurricanes and things of this nature. You go in there with your checkbook, and you start helping people. The insurance may cover it. But they may not have flood insurance, or hurricane insurance. There could be all kinds of devastating things that the insurance companies will do so that they don't have to pay for anything. That's where we come in. We are in service to mankind. If it takes us to just go in there and start writing out checks for people, if if checks are available, we can take we can help people, especially those who don't have the insurance and we cover everything that the insurance won't cover. That's who we are. That's what we do. We have over 9000 people now that are in training for our love won society. We've

had a tremendous influx thank you to Simon parks in his putting our website on his channel. Thank you, Simon. We love to have as many people as we can part of it. Why? Because it means that there's more people helping to do all the work. That's a great thing. So all of us with these bank accounts can go in and really help you look at Texas when they had that big storm there in Houston and cause billions and billions of dollars in damage and there's probably nothing being done about it now because who's going to pay for we can go in and re remodel those kinds of things. refurbishing. So that's where the that's where we are. That's how we will function. And so we're the answer to prayers. Thank you very much. There's God give Him the glory and all that sort of stuff, I'm just tearing on an errand sort of thing. We don't need to take vows. We just enjoy doing our work.

T

Tracee 45:28

As a director, when setting up a download for an owner of a service, my plan is to set up a download for the owner at double the profit, as well as setting up a seven year employee contract. My question is, are these two distinct entries on the RSS or one?

R

Ron Giles 45:49

Okay, there's, first of all, the RSS program for beneficiaries has its separate and entrance entries. If you start doing a contract or participate in contracts, it's a different section. However, it still uses the download to pay the person the money. It's an accounting entry. And, and it's all worked out. So it's, once it's set up, it can be automatic. You don't have to play with it anymore. And that's where it's set up. So it it doesn't have to be managed. So all of the accounting that is necessary to justify how much you've been paid is all in your personal office in the revenue sharing solutions, your revenue sharing Solutions account. So I'm not sure if I answered the question that you're you're in, you're on the right. Right Track.

T

Tracee 47:01

It's one entry.

R

Ron Giles 47:04

Yeah, it's one entry there. And then that is part of the overall account beneficiary account. On the RSS program, platform. Next question, please.

T

Tracee 47:17

In your q&a on December 2, you made a comment concerning the Zim benefactors, and the comment were like this, if you're so lucky to be chosen to be a benefactor by the Alliance, and you'll receive what you were asking for, for your project. My question is, when did it become if we were so lucky to be chosen, because it was my understanding that if you had Zimmer

currency, you could redeem it and not be chosen as if it were a lottery. This is the second time I've heard a statement being referred to as being chosen to receive this money from you. And another source. So I'm wondering what's really going on.

R

Ron Giles 47:53

There's two levels of Lucky meaning, you're lucky that you came here born into this, that the other it's not luck. And if you think it is, it's an it's a way that we say things like that, that is not really real, because as a humanitarian, you were pre selected in the heavens before you came to the earth. And this is your purpose for being here on the earth at this particular point in time, that's all I'm trying to say, if you're lucky enough to be that and then you get to have the weight of all of that money put on your shoulders. Now, if you call that luck, then that's, that's okay. It's a lot of money. And it's a lot of responsibility. But its own it has to be done by humans. It has to be done by us and bringing forth the the golden age of mankind. So if you're lucky enough to be the ones that were chosen to do this, then you're welcome to get involved. Are we the chosen ones? I don't think you know, many are called but few are chosen, all of that sort of stuff. That's just third, third world. Third Dimension. Understanding from my perspective, I was called to do love won society. I wasn't called to do it. I did it in the pre existence before I got here. I prepared at all we prepared at all. All those who are going to be involved in love won society have positioned themselves from the beginning from in the spirit world. We created it so that we'd have something to do when we got down here for us to do our fulfill our responsibility. It's all part of the oneness. You I'm lucky to be a proton in the sunlight that's coming from Lucky. That's who you are. So I'm really not sure where you want me to go with this. I'm trying to help people understand what this is all about. And I'm only using the words that I know to use. So if I call it say you're lucky, then I think you're lucky, where to go, you paid the price, you've been called You've been chosen. Not that you're better than somebody else. You know, somebody has to fly the airplane takes a lot of time and effort to learn how to fly an airplane. And then you have decisions to make when you take off the land and go in between, that affects what what you do affects the lives of all of the people who are on your airplane. So some just sit back and relax and the pilots up there just pull his hair out because he's got an emergency, you won't even know about it until perhaps you get on the ground. That's a difference between what we are called to do. That's all I'm trying to say. And if you don't think it's lucky to be chosen, then that's okay. Don't care. If you want to use some other word, then that's okay. I don't care. As long as you have an understanding that this is a calling from God to do specific things. And that's what we're engaged in doing. Next question.

T

Tracee 51:33

Another one. And in regards to trust, I apologize for having to repeat this topic. Something is just not clicking with me. I recall someone said they posted a blank trust document we could use in the forum I searched and cannot find it. It's under the trust section. If one exists, would you make it available on the LWS site, please also, Would you elaborate and just give an example of six trust someone would set up to spark my imagination

R

Ron Giles 52:01

You're asking us to do your homework for you. You're asking us to do your thinking for you. You know, I'd love to spark your ideas of what you want to do for what you want to do. But that's

that's not what we're trying to do. I'm giving you the love won Society Program, the RSS program gives the beneficiary the ability and capability and permission to establish six different trusts are very simple. Trust documents. A trust does not have to be registered or anything of that nature to function as a trust. You just set up the documentation and then it is his trust, and you can function with it. It's if you set it up legal, then it's it's a legal document, and therefore it's part of law. So a trust document. In this particular case, it's a revocable, a revocable trust, that you can just set up in a moment's notice the documents there, just fill out the blanks, and there it is legal doc and sign it, give it a name, and so on so forth. That's your legal document, and you come to us for your mother lode account and all that you're going to do as far as the money is concerned, if you feel like you'd like to have it. And some people we've gone through this, they'd like to use a trust so that they don't have to have their name out there as the person who's got the money. And I think that that's why, but it's not required. Show and be rest assured that we have a transition going on. When we're finally through the transition, then all of the concerns that we have had, will simply go away or won't have any energy behind them. If we were concerned about an LLC, and we don't have the ability to create LLC, because where would you do it? Trust is a different thing. So you can have a trust for whatever you want. There will be a trust document at the appointment so that you can fill it out. There is a place on the forum where you can go and see what a trust is. And if you like it, and you could use it, or it's just an example. But it's they're putting one on the website. That that's probably something that we could do. But it's not high on the priority list at the present time. So get my get done. Next question.

T

Tracee 54:52

Well, I want to add to this one. So if you are in if you're desiring to set up an LLC You can do so through bestwyomingregisteredagent.com. That's bestwyomingregisteredagent.com. And it's completely private so that you can have anonymity. And second, you asked about the six trust someone would use. Now remember, this is a beneficiary setting up the trust, not you. Okay, not a benefactor. And it could be for maybe one of them is for vacation. One of them is for a new car. One of them is for your baby granddaughter that just was born. Maybe one of them is for your disabled? You know, neighbor, I don't know. But these are all things that you can set it up or like Ron has said before braces, maybe a college account for a kid? You know, things like that.

R

Ron Giles 55:54

So, correct. Good. Good comment. Tracee. Thank you

T

Tracee 55:58

Okay, last question. The Financial Services Center really resonated with me, do you know if we will need to purchase banks and convert them? Or should we plan on setting up our own FSC alongside of our CAC

R

Ron Giles 56:15

This is this is very good information. Haven't heard what I have heard. The banks, the bank

THIS IS, THIS IS VERY GOOD INFORMATION. HERE'S HERE'S WHAT I HAVE HEARD. THE BANKS, THE BAD PEOPLE IN THE BANKS ARE BEING OR HAVE BEEN ELIMINATED, THROUGH STING OPERATIONS THAT THE ALLIANCE'S DONE, THEY PENETRATED DOWN INTO THE, FROM THE UPPER MANAGEMENT DOWN INTO THE MIDDLE OF MANAGEMENT, AND ARE FINDING THE PEOPLE WHO ARE HONEST, AND WILL DO A GOOD JOB AS A PERSON INVOLVED IN THE FINANCIAL SERVICE CENTERS. THE ALLIANCE IS SETTING THIS OR ALREADY SETTING THIS UP. THIS IS A MAJOR CONCERN TO THEM, AND HAS BEEN FOR A LONG TIME THE FINANCIAL SYSTEM. SO THEY'RE THEY'RE GOING THROUGH AND THEY'RE GOING TO WORK IT OUT SO THAT THE FINANCIAL SERVICE CENTERS ARE MANNED BY PEOPLE WHO WILL ARE OF THE LIGHT. NOW, HOW DO WE AS ZIM BENEFACTORS GET INVOLVED WITH THAT? WELL, THE BEST WAY IS TO KEEP OUR IF WE HAVE AN INTEREST IN IT, THEN LET THAT BE KNOWN OUT. EVEN IN YOUR PRAYERS AVAILABLE, IF YOU WOULD LIKE SOME MONEY TO DO THIS. WE WILL BE THE ONES THAT WILL PUT THEM ON EMPLOYMENT CONTRACT THE PEOPLE UNEMPLOYMENT CONTRACTS, WILL BE THE ONES WHO PAY THE BY THE BUILDINGS AND OVERHEAD AND PAY THE OVERHEAD FOR THE FINANCIAL SERVICE CENTERS, OR EXCUSE FINANCIAL SERVICE CENTERS. NOW, HERE'S AN INTERESTING TWIST. YOU HAVE BANKS AND THEIR BUILDINGS ARE SIMILAR TO WHAT WE WANT TO DO WITH THE COMMUNITY ASSISTANCE CENTERS. SO IF YOU'VE GOT A BRANCH OF A BANK SOMEWHERE, COULD THAT BE CONVERTED NOT ONLY TO A FINANCIAL SERVICE CENTER, BUT A COMMUNITY ASSISTANCE CENTER AS WELL. JUST A THOUGHT, BECAUSE WE CAN BE INVOLVED IN THAT WE MIGHT AS WELL. THEY'RE LOCAL, THEY'RE IN THE COMMUNITY, AROUND THE CORNER, UP THE BLOCK ALL AWAY. IT'S ALL THERE. SO THAT'S SOMETHING THAT WE CAN USE. THEY HAVE BOARDROOMS, AND THEY GOT, YOU KNOW, WITH SO LITTLE AMOUNT, CERTAIN AMOUNT OF REMODELING, THEY CAN BE TURNED INTO COMMUNITY ASSISTANCE CENTERS, AS WELL AS FINANCIAL SERVICE CENTERS. BUT WHAT I'M TRYING TO SAY, WELL, I SHOULD WELL, I'M TRYING TO SAY IN THE BEGINNING, IS THAT THE ALLIANCE ARE THE ONES WHO ARE ALREADY DOING THIS. BUT WE'RE THE ONES WHO COME IN WITH OUR MONEY AND MAKE IT WORK. HOW MANY OF US WILL BE INVOLVED IN THAT? I DON'T KNOW. YOU KNOW, I'VE I PUT IT OUT THAT I'D LIKE TO BE INVOLVED WITH IT. IT WASN'T CALLED FINANCIAL SERVICE CENTERS UNTIL I RECEIVED THAT AND JUST NAMED IT MYSELF TO HER. WELL, IT'S DESCRIPTIVE FINANCIAL SERVICE CENTER INSTEAD OF A BANK. THAT WAS WHAT I HAD GREAT INTENTIONS OF DOING IS BUYING BANKS AND CONVERTING THEM OVER TO WHAT I WAS CALLING FINANCIAL SERVICE CENTERS. AND NOW I FIND OUT THAT THE ALLIANCE'S IS ALREADY DOING THAT. SO I DON'T HAVE TO GET INVOLVED IN IN THE NITTY GRITTY AND HIRING PEOPLE AND WILL GIVE THEM EMPLOYMENT CONTRACTS, DOUBLING THEIR WAGES AND ALL THAT SORT OF STUFF TO KEEP THEM BUSY. KEEP THEM INVOLVED. SO THEY'LL THEY'LL LOVE THAT IDEA. SOMETHING TO DO I NEED TO GET JOBS, THEY CAN STAY IN THE SAME JOB AND IT'LL BE HOPEFULLY SEAMLESS, MEANING THAT WE JUST TRANSITION FROM ONE TO THE OTHER WITHOUT A WHOLE LOT OF HOOPLA. WELL, IF THAT'S THE LAST QUESTION, THEN I GUESS THAT'S DONE FOR THE DAY. IS THERE ANYTHING ELSE THAT WE NEED TO DISCUSS?

T

Tracee 1:00:26

Not today

R

Ron Giles 1:00:28

okay, well, then thank you for your participation, hope it was helpful for you. And we welcome our new people with us and, and hope that you'll enjoy the training that we've done. Really get involved with it. You'll really enjoy it. Thank you for all thank you all. And thank you, Tracee for all as always for your great help. Bye for now.
