

Q and A from July 1st

Tue, 7/5 7:01PM 54:25

SUMMARY KEYWORDS

question, people, rv, humanitarian, benefactor, true, money, life, qf, beneficiary, rss, alliance, god, zim, dogmas, programs, understand, problems, appointments, belief system

SPEAKERS

Ron Giles, Tracee

R Ron Giles 00:00

Hello humanitarians. This is Ron Giles. I'm here with Tracee and we're going to do a question and answer session today. Today is July 1 2022. So with that, let's go ahead and begin. Especially

T Tracee 00:18

for July 1. Wow, that's crazy to think. Right. Okay, yeah. First question remaining anonymous is important for many of us who are in training and love won society. And for some, it is vitally important for personal reasons. I would like to point out the importance of respecting others anonymity, as I've seen the relaxed atmosphere within the chat spill over into the outside world, whereby name dropping has occurred, which at best is thoughtless and real concerning. In any case, I feel an NDA on behalf of the identity of LWS members would be beneficial. In the interim, leading up to the RV, it might bring the awareness of how important this is, I would happily sign one, even an online one. But I understand if this is not possible, especially this close to the RV. What do you think, Ron? I'm sorry, if this question has been asked before, and also for taking up your valuable time.

R Ron Giles 01:13

Well, bless your heart, you have not it has not been asked before. And I'm here to service and help people with their thing. So I appreciate you bringing this up. It has some, some real validity to that wanting that to be done. I'm a little reluctant to go as far as an NDA. There's no policing or anything of that nature that could take place. Unless there were some complaints that came in. Maybe we can address this in places like the questions and answers, and maybe put a statement on the website so that we don't, because anonymity is absolutely essential, especially when we go through the redemption appointments, and have this kind of money that we're anticipating. And so I understand what you're saying. There is also a relaxing with the is that poor word to use. We're going to be going through some things where these kinds of people won't make it through and we're not going to have to deal with those. Even those kinds

of people yet alone the activities that they have. I don't want to be around somebody that doesn't wouldn't follow an NDA. You might slip up a little bit. But boy, once you slip up and let it out, you don't get it's like it's cat it once it's out of the bag, you're not going to get back in that bag. And so you got to be very, very careful about that. So maybe we can talk about it more. And I have no problems in doing that. Just be sure that we're not giving outside information and inside information to outside people. So we'll see how that goes. You remind me or put it in the chat. That's a really good thing for people to understand, especially new people that are coming in. Thank you for that question. Next question.

T

Tracee 03:20

Will our benefactor appointments with our angel be an opportunity to find out the truth about what in the Torah and the Bible are true teachings from God as we are told how the Cabal has manipulated God's word to such deception that we don't know what is truth from God and what is not. For examples? The Orthodox Jews do not believe the Messiah has come yet. They refer to Jesus as a bastard prophet. So many splintered religions dogmas have been born out of anger and confusion, claiming they're the true faith etc. I understand the Old Testament principles, a New Testament message and have been very involved in teaching children and adults these concepts, even dogmas. But going forward, how do we please God with an imperfect belief system? As in benefactors, since we are being bombarded with opposing dogmas, and teachings and abuses of truth teachings?

R

Ron Giles 04:14

It's very good question. And somebody brought this up to me, I talk about things that nobody would talk about. Because it's just my life. It's just who I am. And my relationship with deity is foundational for my life. It's not that way with other people and sometimes I don't I lose that perspective. And if I have ever offended somebody and talking about things, please don't hold me be it's because I'm not part of your group or sort of thing. I also have the desire For us to come to a proof of way of believing things. And it's the believing in things that are true. That helps us get through what we're going to be going through. And so I'm kind of conflicted in some areas, and others, because I know that there's those who have a very strong religious belief dogmas that are difficult to under difficult for them to change. And that by the same token, if it's not true than believing in those things that are not true, is not going to help you to get through to the point where you are open to the real truth. Now, I'm not saying that one is one tenant of somebody's faith is not true. That's not what I'm saying. I'm saying there's ruins, put it in a different perspective and see if it still holds the water. Let's say, in the scheme of things that God has prepared for us, the end, in this case, the golden age of mankind that we're trying to be a part of, there's some changes that a person might have to have in order to fulfill that calling as a humanitarian. So I say, let's, let's not be over, bearing in our desire to hold on to things from the past. Let us understand that there are problems with the Cabal, who don't want us to know who we are. And so they've created an artificial person, or people or belief system that is designed to let them control us. They couldn't do that to Jesus. But they've done it to a lot of people. And if we look back in the history of things, we'll see how the way I call it the way that Jesus taught, Jesus taught, he's the way of the teacher of righteousness. He teaches us the way, don't follow me, I can show you where to go. He teaches the way for us to live and to. So they have distorted that. And it's found in our modern day religions, because that was part of the Cabal, his way of holding us into slavery. So I'm really kind of in a position

where I had to be very careful. So that I don't step on people's toes. And I try that I try not to do that I try to just be natural, with people, just to be authentic with people. I'm not trying to preach anything. I'm just trying to share it with bids, then, Oh, good. If it doesn't fit right now, just put it on the back burner or take it off the stove if you want. But the things that I know to be true are things that are coming. And getting that value of being able to be in harmony with the teachings, the real teachings is something that I've cherished all of my life. Am I better than anybody, absolutely not. Just down the road, little life further. And I have a lot of patience with people who don't have the same feelings and beliefs that I have. Because I know that they're still children of God, and that it's not my job to change, or to have them change. It's God's job. And I leave it up to him, or whatever you want to call them. And you're on title to whatever belief system you have as far as that is concerned. Whatever works for you, then that's what you need to do. But I also say doubt not fear, not believing in all things, all things shall work, to the bit to the good of those who love the Lord. So, I have a lot of people who were throwing me out of the bus, and sometimes under the bus, because it's just my the way that I feel and the way that I live my life. And I say, Well, isn't that similar to what's happening right now some of the people really knowing what's going on and some that don't. So how can we change things? We can't we just have to let God do it. Just be authentic in what we do and what we add come from love and just be yourself who you aren't really Our my biggest problem is helping you to understand that you are a child of God and have all of the things that are necessary to be like him to act like him greater things than I have done, shall you do? You know, these people who want to preach? You walk on water? Whoa, well then greater things than I have done. Shall you do? That? If you're preaching to me about Jesus, and you can't walk on water, then why should I believe you? You know, if you're going to be preaching, and teaching, and helping you become like Jesus there's a a portion of your life that's missing the greater callings. Now, is that true, I don't know, it doesn't matter to me. I just have to live by what I have. And then allow God to create the things that that that person needs to go through, and, and become the fully functioning God that we're supposed to be? My job, it's God's job at your dad's job. He'll teach you the things you need to know, to function in life. The Cabal didn't want us to do that, because they couldn't control gods they can control slaves. Were lucky. Okay, and go on to the next question.

T

Tracee 11:34

Okay, so the next question, are we able to download training videos and Q and A videos in case this website is taken down? Can I answer this one? Since I'm in tech, okay, so we have the videos on bit, shoot, and YouTube, please refer to the important links. What is the document, it's a live document, I update it every day. Well, not every day, but often. And I add groups and telegram I add videos on YouTube. And it's always on that. So save that document. And then you'll be able to access either bid shoot or YouTube and have options.

R

Ron Giles 12:20

And I think, videos,

T

Tracee 12:22

yeah, and I think you can download YouTube videos. So

R

Ron Giles 12:28

well. And you can also copy and paste or copy and keep all of the documents that we have on the on the website. So don't change them or anything like them, because I get a little bit upset with them that if you copy and paste them for your own purposes, then you don't have at it. Because the website can be perhaps am I going to allow that in my reality? I don't, I don't want that. So I'm rejecting the takedown of QFS 2020. I'm using my creative purposes and but I'm just one of many. So anyway, we'll see how things work. But we're trying to do the most we can to alleviate those kinds of problems. So let's go to the next question.

T

Tracee 13:26

Okay, if the med beds will be available for all people, what will be the purpose of the medical and holistic health industries, for example, surgeons, internal medicine, integrative holistic healers, etc?

R

Ron Giles 13:39

It's a good question. And I say, let's, you would talk about the med beds and there's that technology. What about the blast that's coming, that changes our DNA to where we're functioning with 12 strands of DNA instead of just two, there's a lot of things that are going to happen. So when we're preparing to do holistic healing, and all that sort of thing, it's a good idea for us to get involved in it, and till the time that comes when we don't have to do that anymore. And we find other opportunities to serve one another, in a loving sort of way. And some of the medical people will be in jail for what they have done with with things that recall science, that's not science, it's a lie. So there's a lot of things that are coming. And let's just not be judgmental, let's just allow things to be the way they are. And we're going to work out really good because when we get the money, you'll have your counselor with you. And they don't help you with all of the projects that you want to do. And they can see down the road what's coming and they'll help you To prepare to meet things down the road, and the things down the road are there. But there's things further down the road that they can see as well. So there's a transition and going through the transition is absolutely essential for us to do. We can't jump. And let's go God does though. thing with with light blast. And then it's under his control or control their control. Sometimes I just yeah, sorry about that. Yeah, I have a life. I've had a life before. So let's go ahead with the next question.

T

Tracee 15:49

Okie dokie. I know a benefactor cannot be a beneficiary. Therefore, that means the Benefactor cannot create the sixth trust the beneficiary can correct the trust the Benefactor will creator for items to be protected from lawsuits such as homes, cars, boats, large ticket items, is this correct?

R

Ron Giles 16:11

You've got some you've taken some liberties with that. Now, a benefactor can do a beneficiary account for themselves. They can set it up if that's what they'd like. I say, why don't you just use a benefactor account, which accomplishes the same thing. Because you're not going to be going out there and getting other people to join with you so that you can get more money out of the beneficiary program, you're not going to do that it's going to be a convenience for you. But you will, you won't need to go through benefit the bonuses and start making more money for yourself. So the ideas, in my opinion, the Benefactor account can accomplish everything that you need to have done. Because that won't be available for bonuses. So why would you need to do that when you've got all the money? There's, there's there's things to work out. Okay. So now, you benefactor cannot can create the six trust the beneficiary can correct? Yes, it is correct. I can do anyone any of the six that he wants in anything that has nothing to do with a beneficiary. They say you're you're putting parameters on things that are not that are not true. You don't understand that the Benefactor can do pretty much whatever they want to do. If they want six or 106 or 6000 Trust, they can do that. If it makes sense to them. So what is it that you're trying to say when you put limits on benefactors? And I say, they don't come with limits, they come with the ability to serve and the money doesn't change them. So let's get out of this all this idea about money. This money. I'm a Zim benefactor, can I spend money on myself? You don't know it as in benefactor is you don't know what a humanitarian is. You don't know what the funds are for? That I'll just say it very clearly, humanitarians are the only ones who will get funds from the redemption of Zim bonds. If you're not a humanitarian, you won't get any. Why? Because it won't change humanitarians. This is their calling in life. They will change when they have lots of money, a little bit. They might live in a different house. But their hearts are centered on humanitarian activities. You buy the house over there, yeah, you buy whatever you'd like to live in. Just buy things that support your way of life. And you can create your own way of life, if you've been a popper all your life and have been able to have this that the other will not go hog wild, but just go out and enjoy things that are coming. Because you now have the money and it is your money. It is your stewardship. It is your responsibility, and you make the decisions surrounding it. And nobody except God maybe is going to judge you for anything that you do. And if they do, that's their problem because they're supposed to not judge. We should not judge and we should not judge ourselves if we want a nice house or a nice car. Gotta keep up with the Joneses. No, that's garbage. You establish your own life and the old way of doing things. And that's you. That's your signature. That's what you present to the world. And you are the humanitarian. And that's why you got the funds. To move on to the next slide.

T

Tracee 20:18

Will there be training on the new technologies? And if so, how and where will it take place?

R

Ron Giles 20:25

That will not be our responsibility? Open your crystal ball? I don't know. Yeah, open your eyes. Oh, which one? Which ones for that job? No, we don't know those kinds of things. They will come to those who are prepared. proper, proper technologies will come to those who can afford what's trying to what they're trying to accomplish. If you have problems with large numbers, you may not be the ones that they call on. But if you're if you're sailing along and your hearts in charge, you're going to be prepared for everything that comes. Don't let your mind override your heart. It doesn't work very good. Your mind is your ego. So let your heart be in charge. And you'll do really well. Next question.

T

Tracee 21:30

Next question. I can't wait to see the new technologies. Especially like the ones that you can just zap stuff, so it just disappears. I know you explained. That would be fun, you know, like clean environment. All these masks everywhere. Jeez, Louise. Okay, I know, you explained how trust could be left or passed to children once they reached 18. But not sure on the following question. If I signed someone up as a beneficiary, and they are in their 60s or 70s, if they use the six trusts what happens to their monies, in those trusts when they pass because they set them up so that they can be all? I'll be willed to someone in the family? The person I'm particularly thinking about has no children, but has nieces and nephews. Also what happens to their RSS account? weekly income?

R

Ron Giles 22:25

This is somebody and I'm not trying to pick at you. You're doing a what if and you're doing the one they have from where you are now. You've totally disregarded med bed technologies, who's gonna die after they get mad that they can technologies? So I'm wondering, why are you eliminating new stuff that's coming in your projections? Why aren't you assuming? Why are you not believing in med beds and the new med bed technologies. We're going into the golden age of mankind, and we're not bringing this kind of stuff with us. So it's time for you to change is time for your mind to change. It's time for you to start believing things that are real. Is there any problem with that? Is there any problems with the technology that they call med beds. And we have one biggest technology that's going to blast us and restore everything about this to our natural blueprint, perfected blueprint of the human body. Human body is God's body and will function as a God until you terminate it. If you allow yourself to really be who you are. The Cabal does not determined who I am. I am no longer their slave. I no longer believe in all of the garbage that they fed me all my life that keep me as an indentured servant of theirs. So when are you going to change your thoughts? New technology is coming. That's part of the process. That's what's going to raise your vibrations. If you believe in things that are true, that are coming, and you won't embrace it to the point where it's part of your belief system, and then how good is it? How many proofs do you have to have in order to believe something Faith is not doubting things. Your mind wants to have all of these different facts and figures and everything, and then that's fine. But don't let your mind create your belief systems because their lack of knowledge about certain things, just allow it to be true. And if it is true, then that will work for your best good. If it's not true, you'll find out after time. Faith is the most important thing that you can have right now and faith in the future and the things that we're learning now. They're the things that we need to embrace and become a part of our lives. So when somebody talks to me about bed bed, I say, well, there are certain things that I don't like about med beds. Some of them, you got to put your DNA in there and then mess your DNA out, and then they start a new one. I don't I don't like that. That's not the way God does thing. I like the way God does things better. I like the Blast From The light. The light is pure love. That re that puts back together everything that was taken away from the Perfected blueprint. That is your body. Don't let the new stuff take care of things and don't project stuff into stuff like this. This is all projection. And I don't know how to answer that. I really don't, because I don't believe it's true. Next question,

T Tracee 26:44

well answer it. Um, everything can be an app, everything's an asset, just like your home your car, you know, any income properties that you own, every single thing is an asset, these trusts are just the same, as well as the RV account. So you can just leave it to somebody in a will. Okay, I was funny, I was talking to Carrie. I said just so you know, I have I'm a person of few words. Okay, what can we do to help the homeless that don't have a bank card or bank account to sign up for the RSS?

R Ron Giles 27:22

Let's just get it for them. Why are they left out? Just just solve their problem for him. Give them an account with the qf s. Get him an account with her. It doesn't matter if they don't have a computer, they'll get a computer. Or they'll get one really fast. I got money. They don't want to be left behind. So let them take care of their lives. And they will. That's way I look at it. So homeless are just waiting for things to happen for them. And then they will happen. And then there all of a sudden, the RSS is program is they get sign up and they get to be having financials finances again. Maybe it's brand new form, I don't know. But there again, now let me just pick this apart a little bit this question. What can we do to the homeless that don't have a bank card or bank account to sign up for the RSS program? At what point in time? Is that taking place right now? Or is that taking place right now? Yes, it is taking place right now. And you're projecting that into the future. When the money comes, the RSS will be up and running. So we'll have quantum financial system. So we'll have a lot of other things that you know about, but you're just allowing yourself to project into the future with things that are not real or won't be real. These are the kinds of things where people are asking these questions in. You know, I'm trying to have patience with him. But you need to understand you're projecting into the future things from the past. If you want to live in the past, then go back there. Because that's where you're thinking and focusing on focus on the RSS program and all of the wonderful things that can happen for all of those people who don't have bank cards or bank accounts. They get to sign up they get to have everything that we have now. They're not going to be the list sitting around waiting till you get to them but they're waiting like we are for the RSS programs and friends to come so things are going to change. And so let's just allow that and believe in the future. That everything that is necessary to help people will be given to us to do so. We may have to go through a transition. And in that transition, we will find out what we are like as humanitarians. We'll know for sure that our hearts are in the right place. It's going to happen. So let's project it, let's focus on it and let that be our creation energy. If it's not, then you might be left behind. Let's go to the next question.

T Tracee 30:42

Will the Alliance still contact us when we see the dinar RV? Or should we just pay attention to the Lynx 800 numbers and do that separately? I don't want to offend the alliance but the dinar RV presents a very narrow window and I don't want to be sitting on my geek arse waiting for a call I might never get anyway for the Z's and watch the dinar window close on me. I think I'm a humanitarian as you present, but will they at 72. I'm not going to take a chance.

R Ron Giles 31:21

I guess I could play the answer to two or three of these questions today. You're projecting

I guess I could play the answer to two or three of these questions today. You're projecting yourself as if it hasn't happened? Or is not going to happen? Do you have any idea yet? The love and the compassion that the alliance has for you on an individual basis. You say your humanitarian, do you believe that? And you believe God and everything that's involved in what's coming as the Golden Age is resting on our shoulders. You think that they're gonna leave you behind somewhere? You think some idiot is going to start doing the RV? Before we get to do our redemption appointments? I guess you do. I think it's time to change anything, it's time to change your thoughts. I think it's time to quit focusing on things as they are now and projecting them into the future. That's why we are having problems. We're creating the past and it's recreating itself in our present time. When are we as humanitarians as children of God going to realize that we've been raised in lies and slavery when you're going to change maybe we're the ones that are holding it up. Maybe we're the powerful ones who have creation energies that will bring it about. I had a moment where I could share this morning as we're trying to go from 15,000 up to 30 or 32,000. Is that part of our process of creation is to find those people? And do you realize that the heavens are waiting for us to find those people to start the RV and the redemption process? If they're not in place, you think they're gonna start without them? And they won't get their humanitarian funds. You got to start thinking about things. Can you see why we're trying to find those other 30,000 It's not just for them, it's for us, because the RV and the Redemption will not come and tell these people are in place to receive their funds to do their humanitarian work. Am I Am I making sense to anybody? They're thinking about the RV that have to happen. Before that needs to happen before it can the quantum financial system can even be in place. With all that, you know, what are those things that need to be done? Have you read all of the things that I have written about these things? Just Sharia compliant the RV or the quantum financial system? The In the Global Currency Reset the change in the price of gold or as indicated, it's got to, it's got to and so that that kilo of gold knows how many pieces of currency it can back. All of that has to take place before the quantum financial system can be instigated a DJ whose it talks about the quantum financial system is already up and running. They don't know hell from a hill of beans. It's all speculation. Weed got to be the ones that are the leading edge. We listen all day to the to others. Which ones who you're not listening to? Which ones are leaving out the real truth and manufacturing things that are not true. We're the ones in charge of our lives. We're in charge of the quantum financial system, we're in charge of the redemption appointments. We're in charge of everything. If you don't believe me, then you ask the alliance. And then you criticize the Alliance for waiting personal long. Well, maybe you should take a little bit of that criticism. Why are you taking so long to believe in the things that are true? How much truth Have you passed over? Because you've got belief systems that won't allow it to be true in your life? I should have been a minister. You are next question.

T

Tracee 36:51

Okay, many of our families and people in our communities have family and friends who reside overseas. Is it just a matter of the \$10 registration? Along with a beneficiary ID number? And which currency would they be receiving in?

R

Ron Giles 37:05

Okay. Is it just a matter of the \$10? Reg? Well, what does it take to become a beneficiary? \$10 is registration and the ID number and then you can share with other people. It's going to happen? I'm not sure there's a lot of things that have to take place, how much are they going

to get in different countries? I don't know yet. I haven't gotten any decisions on that. It's going to be a fair and proper way. So it's not going to be disruptive of their way of living. It'll enhance and it will grow and it will develop. But they are the ones who are going to have the the shell shocked of the newness because they're the ones that have been left out of civilization. Third World countries where the governments have taken all of their money away or from other governments who have taken away all of their assets so that they should have access to it, it's gonna take a long time for those people to really catch up. Also going to be a real hard time for those people who have done this to stay on the earth because they're not going to be allowed to be here anymore. Because we know what they do. Now, there's a lot coming. And, yeah, there's going to be some changes that will need to be put in place. But don't worry about just have faith that that the alliance will take care of the things that when I'm told about it, I'll be getting involved with it too. Next question.

T

Tracee 38:52

Sorry, I had to mute myself. It's noisy here. Do we receive our QFS card at our redemption appointment?

R

Ron Giles 39:02

That's what I'm asking. But I don't know that it's going to happen. I'm asking that they allow that to take place. Let's see. Next question.

T

Tracee 39:12

For our communities, RSS beneficiaries, do they access through their current bank card?

R

Ron Giles 39:22

They can, if we don't have the qf s card. Please understand that the banks are being sanitized is that the rest right way to say the bad people are being taken out and the good people are going to be left and they're going to be the financial service centers. told these people are who are being are going to continue the work of the banking system and the financial system. They're going to be there and they can help us so a bank credit a debit card will work just fine because you'll be able to transfer down into the bank and use your card. Anybody could, even if they're in the RSS program, until the banks are functioning as a financial service center, and you would rather use your bank your accounts in the quantum financial system, which will be the ones that they use in the financial service centers, the accounts that they will use. So you go into the service center, and I'd like to withdraw \$10,000. Okay, how would you like that? Hundreds or what? So they send it through the machine, the machine takes his digital gold certificate off of the quantum financial system and transfers it to the serial number on the piece of currency on the bill \$100 or \$10, whatever, or the humans or whatever, then you go out and spend it. And when those who do business with you want to take their money to the bank, it'll go through the machine again, and the machine will put them marry them back to their digital gold certificates. It's a simple thing. And then so the all of that is going to take place. So yes, you're going to be fine. And you'll have debit cards, from banks, that we'll use until the debit

cards from the financial from the qf s are in place. Remember, you got to have the merchants on the qf s that make it all work. But what merchant wouldn't want to be on that? It's going to be really fun. Next question, please.

T Tracee 41:36

With NESARA coming if the prices do go backwards, and we have all this money, what would we be responsible for having signed the contract with LWS? I guess I'm asking if we can't spend it for the people don't really understand that.

R Ron Giles 41:52

Yeah, you're you're know, obviously, and there's a whole new different way of living that's available for us. So don't brag, drag, going backwards. And all that sort of stuff. You need to learn what love won society is about. And each of the programs will ensure that there will never be a going back and prices or anything of that sort. It's all in the the qf or it's all in love won society programs. This is inspired this came from the Alliance, we do those programs, and we will have the golden age of mankind. There won't be any problems with prices and gouging and that sort of thing ever again, ever again. transition into that, but it's going to take a little bit of time, maybe we'll see that it can go as fast as we zim benefactors, get our shells in line to do the work that we're supposed to do. So I'm not even gonna address that. I'm just going to simply say things are working out for us. Appliances are adding our back. Next question.

T Tracee 43:12

My heart lies with the homeless and the less educated of Christ and healing, I realized that they must have a heart for Christ's for the med beds, I am prophetic. And many people receive healing from what I give them when it is from the Holy Spirit. I'm also an overseer, a giver to many houses of prayer. We have done that all of our marriage married life, and I have overseas ministries of ministers. So how do I project this into a document? For all that we do? We give generously to many outlets, but mainly our wallet to the homeless, or wherever the Holy Spirit nudges us to give many times one on one, we have a few zooms how do we get them honored?

R Ron Giles 43:56

Well, that's that's a good, I'm happy for you. And you know, for those who you are able to serve and accomplish things, that's really good, good job. And your any accolades that you receive are well deserved. We've got some changes that are coming as far as the gym are concerned and I think you'll be really pleased with him. I won't say much about it now, but it's coming and it will resolve some of these kinds of problems. So your two that you have now are just fine for now. And and you'll be able to go ahead and get them redeemed at your appointments. So let's go to the next question.

T Tracee 44:47

How will the Alliance or the qf avoid inflation of so many people get so much money? That's

How will the Alliance or the QI's avoid inflation if so many people get so much money? That's the most important question because if this topic is not solved the whole RV GESARA ends very soon in the greatest disaster for this world. Office ever seen, oh,

R

Ron Giles 45:03

oh, this is a brand new person, I guess, and maybe me not brand new, but you go ahead and find out everything you can about love won society. If you just simply believe that this is something that Ron Giles put together for five years, then you're going to miss it. The program will ensure that there is no inflation, that people will have as much money as they want. I'm just kind of reading into it. And as a result, not solved the whole RV GC, and is very soon as the greatest disaster this world has ever gone. Let me ask you a question. If what's going on now is the worst thing that can happen to the earth. I'd like to know which God you're involved with. I can see nothing of that taking place. I challenge you. Within 30 days, I want you to come back and ask that same question. And I'll ask you some questions. Which is a programs is a greatest first stopping inflation? Those are the kinds of questions you need to ask yourself, because you're projecting what is now into the future. And I'm not going to allow that in my future. So I won't be around when that's their next question.

T

Tracee 46:55

As a benefactor, I will be funding an RSS beneficiary and see a see beneficiary here is it important and necessary for me to go through the training on both? Or call forth well trained people in these areas once I'm funded?

R

Ron Giles 47:12

If you don't know what you're doing, how do you know if they know what they're doing? And how do you judge them? Are they well trained from home? Let's say you're the you're the beginning stages of everything. So it's important for you to really understand. Now, I understand also, that it's difficult. You have been given a counselor from the Alliance to help you. They're going to help you with the people with thoughts and ideas and things that you want to create. We're going to help you with everything to be the best humanitarian you possibly can be. That's what the alliance has done for us. So we're going to learn everything we need to do. We're going to have the programs that are up there so that we can become a good gym director. I shouldn't say gym in front of it if you become a good director, and function and the way that you're supposed to within your community. So there it is all come. Just have faith in that, but you need to do your education, you're not going to get away without it. You'll be waiting and people will be running when they get their money. And you'll be oh, what shall I do with it now? Those are the kinds of things that you can take care of now, instead of having to wait till you get the money. Things be easier when we have the money, yes. But you need to start now in the education of what you want to do with it and what the programs are about and what they're going to do to what you can do using the programs to help in enhance your project some of the things you want to do. Next question.

T

Tracee 49:01

Two questions for today. I want to be certain before I pay to have my RSS business cards printed. Well the RSS website for sure be revenue sharing dot solutions. And second, do you have any more info on when the NRELS website will be rockin and rollin?

R

Ron Giles 49:21

So the revenue sharing solutions has already been secured by us. And we're going to we're in the processes of activating it so that one of our people who makes videos will have a place to show his videos. I think it's just wonderful idea and he's really good. The Alliance loves him. Oh Allah last year to quit Yeah. Those are your two questions and yes, revenue sharing solutions dot solutions is will be the the website And we don't know what's going on with the NRELS, website, that's going to be one of the hardest that we have to implement because of the different countries and the different ways things. Well, even from state to state here in the US, there's different ways that their laws are and emphasizes things. So we're gonna get the right people when we can afford to gather these kinds of people and create a council. And we'll go through these things with a fine tooth comb and be sure that it's done correctly.

T

Tracee 50:31

I have a question somebody sent me on telegram I want to, I just remembered. It says, I was listening to Ron's live on June 23. Part one that minute 39. He's talking about the primary principle, and he says that the alliance will divide the amount of Zim vote for the 100 years. But in another live, he was talking about the same topic, saying that the amount of Zim will be multiplied for the 100 years, I'm a bit confused which one is correct? Because the Italian group is asking in order to correct on our translation files.

R

Ron Giles 51:07

Okay, well, let's let's just go through it for just a minute won't take too long. I say I'm supposed to have said that the alliance will divide the amount of Zim and we'll divide that for the 100 years, you need to go back and understand what the structured payout system is. The structured payout system is the primary principle is the total of the Zim times the rate that you asked for. There, the money is not there at that primary principle. It's just a figure, just a total amount. And I want 10%, I can go from zero to 10% a month, or excuse me a year from that total. So if I go through what we used before, there's if I multiply my 100 T note by \$500,000, that gives me five quintillion, or 50 quintillion, I want 10% of that. So how do I get 10% they take that amount and multiply it by 100, which would be 500 quintillion. And then they give that to me on an annual basis, or quarterly or whatever I've chosen. But that \$500,000 is, excuse me, that five quintillions 500 quintillion is put into my structured payout account within the quantum financial system at the time of the appointment. And they will give me my first tranche as I leave, go, it's only going to be good for 99 years. How's that sound? I hope you understand that. Okay. I don't know what else to say about that. So no, that's just a stylish salad as structured payout program. And you'll do well. Thank you, Tracee, for your help, and everything that's been going on. And I grateful for you and for your assistance. And for what you bring to us. Thank you for the questions that we get asked, and an opportunity for us to grow and develop in ways that perhaps we didn't understand, we ask the questions. That's because I have an inner feeling of where we're going, and what needs to take place to get

there. And so I'm, I'm trying to help. And I hope that you don't give me a lot of resistance. I'm on your side. I'm on God's side. We're going to get through this and get into the golden age of mankind. Thank you for today for your participation. And we'll do it again when we get some more questions and we'll go from there. Thank you again, and well. With that we'll say goodbye. Hi.
