

Community Unity Park RP#101

Complete Video Here: <https://youtu.be/p0aTJC6-xzY>

Abundance First, is an organization dedicated to building 50–200-acre sites in individual townships in the state of Florida and the parks would contain 3-7 dome-like structures on the grounds to house multiple educational and/or special interest subjects to maximize space. Abundance First would employ local contractors, architects, and workers to build the parks with the goal of boosting the local economy. Educational and creative subjects would be taught by community members.

The parks would be designed with the goal of providing individual, family, and group fun and enjoyment for people of all ages ranging from pre-school age to adult. The parks would be a safe environment with park security on duty, park lighting, and clutter free trails and pathways.

Included in the park is professionally designed landscaping with picnic areas that include Florida native plants. A 5-acre area will be designated for parking of hover cars, hydrogen cars, and flying cars. Trams could also be available to transport park visitors to the entrance of the park and back to their car lot.

Depending on the size of the park (based on population) will determine the number of play activities and learning venues will be in the park. The following is a list of activities that may be in each park.

- Age-appropriate playgrounds
- Sports area (basketball, tennis)
- Zip lines
- Rock climbing wall
- Lazy river
- Sensory exploration area (sound, color, tactile)
- Acoustic shells (singing, musical instruments, sm. band)
- Walking and jogging trails
- Food courts/trucks/restaurants/concession stands
- Exercise dome (tai chi, yoga, chi gong, Zumba)
- Music dome (personal instruments, vocal coaching, choirs)
- Fine arts stage (concerts, pageants, dance, movie night)
- Health dome (spa, light, sound, Celestial Chamber)
- Labyrinth (spiritual maze)
- 4-acre lake (kayaking, canoe, paddle boat, koi feeding)
- Small animal petting zoo (Optional)
- Creative arts dome (clay sculpting, acrylic/oil painting,

- Vegetable garden (Horticultural studies)
- Laser shows (nightlife)
- Hot air balloon rides

Anyone can tell that the list of events could be endless, so we will let our imagination and heart be our guide. Abundance First will be benchmarking the parks from a well-known and well-established park in Tulsa, Oklahoma called, “The Gathering Place”. To get a better understanding of what Abundance First proposes, please check out this web address and see for yourself how wonderful life is when you’re in “The Gathering Place” park. Abundance First wants to re-create that feeling in most of the local townships across Florida, let’s make that happen.

Majestic Equestrian and Activity Center RP#102

Full Video Here: <https://youtu.be/dMyGYXacUUQ>

DID YOU KNOW THAT 75% OF CHILDREN AND YOUNG PEOPLE DO NOT GET OUTSIDE TO HEAL THEIR BODIES AND THEIR MINDS.

SOLUTION

Our solution is to build an Equestrian & Activity Center that will provide an accessible solution available for the community to come and learn valuable skills to strengthen their bodies and their minds. There will be many options, including riding horses for balance and focus, attending seminars to teach financial skills, hunting & fishing classes, food and herb growing to promote health and healing, having access to mentorship and much more. There will also be interactive camps and groups available to learn caring for and raising animals, including goats, dogs and horses. We believe these options better shape the bodies and minds of our young people, allowing them to become confident and successful contributors of society.

MISSION

Bringing nature, health, & healing to our community. Our Mission is to educate by offering a safe, accepting, and enjoyable place for all to learn important skills, share mutual talents, and push ourselves in body and soul. We allow our community to bond, grow and heal on a daily basis. Through building relationships with animals and others and learning about healthy food, we create a more fulfilling community for all.

Plans

Riding lessons individual and group (Adult/Child)

Trail rides

Seminars and clinics - equestrian topics as well as teachings for leadership and personal growth, local professionals teaching hunting, fishing, including classes to learn the stellar quantum financial system.

Camps and classes for children focused on taking care of animals that includes interaction.

Goats/Horses/Dogs. Feeding, exercise and play, grooming, etc.

Goat yoga classes

Greenhouse growing classes. Herbs for healing and daily use, vegetables, fruit trees and plants.

Host for Community networking and connection building events. BBQ's, Holiday get-togethers and local celebrations, mentoring.

Property Logistics

Main Barn (10 stalls) Maybe more

Regulation Covered Arena

Goat Barn with paddock

Climate controlled Greenhouse - Size TBD

Round pen, training, exercise

Separated pastures

Conference center building for Community Advancement Center -seminars and classes.
CAC home base for humanitarian work

Ponds - water features for movement

Outdoor grill area, with fire pit to host large community events.

Team

1 Managing Director

1 possible Assistant Director

2-3 daily barn staff

2 Horse trainer/Instructors

1-2 Yoga instructors

1 facility manager (tbd)

1-2 Camp counselors (might be seasonal)

1 Greenhouse manager

Majestic Equestrian and Activity Center RP#103

Project Summary/Outline: Entertainment, recreation and leisure will likely be one of the biggest growing sectors in the economy once we enter the Golden Age of Mankind. Our CAC will build a large Amusement/Water park in the state of Delaware. Currently, there are no large, themed amusement parks in Delaware. The amusement park will rival the size and fun of some of the largest amusement parks in the neighboring states of Pennsylvania, Maryland, and New Jersey. The park will have plenty of amusements and thrills rides, games, water rides, food concessions, restaurants, a concert pavilion for music events and more! The theme of the amusement park will be Open Source, meaning we will hold a state-wide campaign to determine the theme of the park based on the people's preference. The total cost of the amusement park will be paid by our CAC. A third-party management team will be contracted to manage the amusement park, and the total cost of admission and the cost of food and souvenirs will be subsidized by our CAC at a 25% discount of the actual retail cost of everything. This is a fun way to build community and harmony amongst the people.

Heritage Palace Spa & Resort cum Recreation Park **RP#104**

Mission statement

Creation of a State of The Art Hospitality cum Heritage and Spa project for peace, harmony and spiritual growth with recreational facilities for the entire family.

The 150 acres of ancestral land will be committed to bring prosperity and abundance to the region with 4 quality hotels, 9 hole leisure golf, organic farm, lake and walks as well as swimming, horse riding, indoor sports, go karting, and safari for all ages.

The Existing Palace would be converted to a Heritage Hotel & Spa for all ages. This Indo – Saracenic building was built between 1934 and 1939 and will contain 25 quality suites. Restoration work will take 6 to 8 months. The Palace lawns 4 in number would be reserved for traditional Indian wedding

Construction of Art Deco style additional prosperity rooms would be undertaken by a design team and helped by local artisans. This hotel complex will have large swimming pools, Ayurvedic spa and meditation center & leisure restaurant areas with recreation for the entire family.

Project Layout Map

The Team

Managing Director – Benefactor

- Personal Assistant to MD
- General Manager Hospitality
- Architect
- Interior Design & Development
- Construction Engineer

- Administration
- Finance Manager
- Purchase Manager
- Stores Manager
- Electro/Mechanical Engineer
- Constitutional Lawyer
- Security Service
- Staff

Summary

This project will be dedicated to bring prosperity and abundance to countless families and role models for other CAC projects in the region and eventually to the entire country.

HERO PARK RP#105

This is a dream of both mine and my husbands and we have participated in events similar to what we'd like to provide from our own place. Essentially, the Hero Ranch will provide a place that families with children can come and learn to fish and hunt or to just have time away from their normal day to day life. My husband also aspires to teach survival skills to anyone who is interested in joining or specifically to women.

To do this, we will be purchasing a large amount of acreage and will work the land that will support another dream of my husband and daughter. They want to raise a small herd of Brahman cattle to show.

This ranch will provide both hunting and fishing opportunities for families with disabled children to step out of their everyday lives and have fellowship with other families with disabled children. Granted, with med bed technology coming in, I'm praying disabled children will be a thing of the past, but until then, having an opportunity to get away to be a part of a group that are like-minded is a God-send.

We will be purchasing property in either Oklahoma or Texas for this dream to come true.

Depending on the location, we may also be placing a conference center for local businesses to hold meetings or trainings in a beautiful setting. In addition, we may also have the space for a healing center in which we'd have massage therapists, med beds, and/or a spa.

Fun parks with new technologies RP#106

Project:

Buyout, reactivation, redesign and restoration of old abandoned fun parks using the latest technologies and patents.

Purpose:

Our humanity has suffered under the bondage of the cabal to such an extent that just about all joy of life, inspiration and creativity as well as curiosity, have given way to "having to function", "having to make money", "obeying" and "submitting". With the revival of old, abandoned fun- parks, or even the complete new construction, we, Tatjana and I, would like to offer people again an additional place where they can relax, be crazy, try themselves out and be like the children, of course also with the children and animals, should they want to come along.

It should become a place of fun, sharing, discovery, worrylessness and fascination. We want the enthusiasm and the joy of being here to re-emerge in every single person in a simple meadow and become a sustaining force.

At the same time, we would like to teach people how to use the latest technologies. Inhibitions, mistrust and shyness can be overcome in a playful way.

For example, one attraction could be an Air-Autoscooter. If this technology is already in the process of being released, the first experiences with air cars could be made here in a protected setting. Or first experiences with levitation.

Another possibility would be to design the park in such a way that the different countries of this world show their culture and language 1 to 1. This means that everything in this themed area, including the language of the employees, the design, are original. With the help of the universal translator, which every visitor gets at the entrance area, the language barrier can be overcome effortlessly. This could also give an incentive to have no more inhibitions in the future to travel to countries, which one avoided so far because of the language barrier.

3D printers could be used to design your own vehicle, which will be at your side during your visit to the park. As well as many other new technologies, of which we have no idea yet. This park is embedded in beautiful nature. The new (silent and emission-free) technologies allow us to be in harmony with the environment.

So that the park visit is also affordable for all, friendly cash machines could be distributed in the park, which make it possible for everyone to pay the entrance fee

effortlessly. Also a note on the entrance ticket regarding RSS can lead the visitor to an RSS registration option located in the park.

Everything in this park, starting from the booking, through the payment and arrival, as well as the supply, is aimed at simplicity, carelessness, joy and acquaintance with the hitherto extraordinary and unknown. Travel packages are easily available, also with the possibility of overnight stay, in or near the park, including the care of children and animals, or companionship.

Implementation:

If an individual or even several ZIM holders are interested in this project implementation, these would be the possible first steps: - Gather the humanitarians and brainstorm.

- Discuss project idea and implementation
- Determine financing/ project accounts
- Find project management/ controlling (national/ international)

Buying up the abandoned amusement parks

- Let project "amusement park" start

Feel free to share it, publish it in the catalog as well as adapt it to your own idea, or just see it as inspiration for something completely different.

Campgrounds [RP#107](#)

Problem: Michigan has over 103 State Park and Recreation areas. It consists of 74 state parks, 12 state forests, 2 national parks, 4 National forests, and 4 National refuges. Within those areas are over 1,354 campgrounds representing 157,000 campsites. Many fill up 6 months in advance... the earliest that one is allowed to make a reservation. That doesn't include the County/Township/City Parks, 16 YMCA camps, 11 Girl Scout Camps, and 15 Boy Scout Camps. Due to limited funds, many boy and girl scout camps have been sold. Camps run on low entrance fees, low-pay or volunteer staff, and many are in sore need of updates/upgrades/rebuilds/maintenance. These areas also include visitor centers, historic buildings, and historic monuments.

Solution: Provide RSS, BOCA, and ECS for owners and staff that run the campgrounds. Offer grants to upgrade/update/replace/expand/create/maintain the facilities to better accommodate the many campers that love to use these facilities.

Grants might include bathroom upgrades, water/sewer hookup upgrades/creation, playground upgrades/updates/expansion/creation/maintenance, visitor center/camp store/concession stand upgrades/updates/expansion/maintenance, tent/cabin upgrades/updates/expansion/creation/maintenance, and other onsite recreation facilities. Offer grants to create new visitor centers to maintain the historical history of the area (lumbering, stagecoach route, resort area, indian reservation, etc) Offer grants to upgrade/update/maintain historical buildings/monuments.

Heritage Palace Spa & Resort cum Recreation Park RP#108

Mission statement

Creation of a State of The Art Hospitality cum Heritage and Spa project for peace, harmony and spiritual growth with recreational facilities for the entire family.

The 150 acres of ancestral land will be committed to bring prosperity and abundance to the region with 4 quality hotels, 9 hole leisure golf, organic farm, lake and walks as well as swimming, horse riding, indoor sports, go karting, and safari for all ages.

The Existing Palace would be converted to a Heritage Hotel & Spa for all ages. This Indo – Saracenic building was built between 1934 and 1939 and will contain 25 quality suites. Restoration work will take 6 to 8 months. The Palace lawns 4 in number would be reserved for traditional Indian wedding

Construction of Art Deco style additional prosperity rooms would be undertaken by a design team and helped by local artisans. This hotel complex will have large swimming pools, Ayurvedic spa and meditation center & leisure restaurant areas with recreation for the entire family.

Summary

This project will be dedicated to bring prosperity and abundance to countless families and be a role model for other CAC projects in the region and eventually to the entire country.

Recreational Funding Assistance [RP#109](#)

Help individuals and small groups to create Recreational areas in their specialties or interests. These areas will be used for people and possible families to gather in and share in their common interests.

The idea is to give humanity places to go and enjoy their lives of abundance. It is expected people will be learning to live with abundance and will want to develop hobbies and have different areas of interest.

4h Society will help others create safe and organized places for humanity to come together under their common interests and friendships to have constructive, safe, equal and affordable recreational areas.

Example of things I can think of:

- Sports parks.
- Swimming areas.
- Pet areas.
- Bowling alleys.
- Gardening areas.
- Remote control areas for Cars, Boats, Aircraft
- Archery area.
- Concert area.
- Drive-In Theaters
- Artwork area.
- Many more.

These things have existed in the past but have almost disappeared due to many different reasons. But it has been financial reasons that have been the core factor.

Healing Humanity RP#110

Grants for Healing Centers: Services such as, but not limited to.

- International and/or Domestic Child Sex Trafficking & Exploitation Rings
- International and/or Domestic Adult Sex Trafficking & Exploitation Rings
- Veterans suffering with PTSD
- Mental Abuse
- Physical Abuse
- Medical Healing Beds

CAC's advertise Healing Humanity project providing opportunity to Community Beneficiaries.

- **Award Grants** for Healing Centers to **Qualified Professional(s) or Entity.**
 - **Employ CAC Representative for Healing Humanity to identify Beneficial & Benign Professionals and/or Company and inform them about the Grant Opportunity.**
- **Interested Applicants submit Project Proposal.**
- **CAC Rep. will vet Applicants & Project Proposal, then present to Director for**

further discussions w/Managing Director.

- **Grants Awarded to approved Applicants for Project Implementation.**

- Will consider additional form(s) of advertising depending on area circumstances & speed to market needs.

Project will expand, contract and morph as needed by the Community.
