

September 13th - Wealth Mngt 1 and 2 - Part 2

Fri, 9/16 12:42AM 1:00:44

SUMMARY KEYWORDS

ron, people, god, command, life, humanitarians, create, heart, child, listening, mic, feel, questions, open, third dimension, important, speak, appointment, cue, learn

SPEAKERS

Ron Giles, Speaker, Carrie, Dominick

C Carrie 00:00
We'll go to Monica. Wow. Thank you.

S Speaker 00:03
Appreciate it. And thank you, Ron, for all of your comments. You're such a wise man.

R Ron Giles 00:11
I'm a wise guy.

S Speaker 00:13
You are. And to me, I've had to learn that. Yes, Ron, you are awesome. And it's constant reminder to speak life into yourself, not only into yourself, but into your family, your neighborhood, your community, your nation. So I love what you're saying. And, and I still read the Bible, because I've been reading it for 15 years. And I know it's been modified by humanity. So I do ask the spirit, I go within to see what I can use and what not. So I appreciate you always saying that we are a child of God, because I truly believe that. And I love how you say the commands as well. So I'm going to start seeing those more and more. But can I say I command I asked God, to put the thoughts of my mind into my heart. I just, I heard Q, I listened to about 10 of his things on various platforms. And he did say if you don't want to say command, you can say please, or something nicer. And that helped me out tremendously, because I can't command.

R Ron Giles 01:26
And I appreciate what you're saying. And you know, when he started saying that, I thought, Oh,

wow, command God. I know. I'm telling God what to do. Okay. That might be a problem for me too. However. Cute did say one thing. He said, We are children. Yes, of that prime creator, you got it. Now, Cabal has told us to create and deify those who are of higher light. And we don't, because we liked the idea that somebody presents, and then that idea becomes ideology. And then we create a set of circumstances where that person is put into a higher level in our lives than we are, because we're not doing those sorts of things. And see, Jesus says, greater things than I have done doubt shall you do? Right? You're not lying to us. Right? However, if we don't believe that we are brothers and sisters of Jesus,

S

Speaker 02:49

right heirs of Christ, right?

R

Ron Giles 02:51

Yeah. If we don't believe that we've made a god. And you have to worship a God. That's what the Cabal wants us to do. And I thought to myself, when I was approached with this, I, well, God is my Father. Right? I don't have to worship my father. I'm like him. He's given me everything. I need to be like him.

S

Speaker 03:17

But I would still never command my father.

R

Ron Giles 03:21

Well, can you see what I'm saying? And I appreciate what you're saying, I really do. But I want you to feel a different way of feeling about Prime Creator. Prime Creator is not a boss. He's not the one in charge of your life. He's the one that's supporting your freewill agency, you're free agency to do the things that you want to do. Now, I am his son. I have everything that he has in me. Right, agree that I've been taught not to allow that to really be true. I've been taught not to do that. Because you can't control somebody who knows their God. And it's not blasphemous. To think that your God, you're not that God. Well, I'm not sure that that's true, either. Because that's a separation consciousness and third dimension. That's where we have to live with. But we are all one with God. And so am I commanding myself, or my commanding ourselves? Or my commanding ourselves plus our Father who has told us that this is the right way to be. He's not somebody that wants to be worshipped. He's not a high intelligent I'm proud, and all of those kinds of arrogance stuff that we attribute to a God. And this is why I feel like what we're opening up to now is the reality that we are children of God and connect just like him. Now, it's a little bit of a stretch to be saying that we can tell God what to do. But have you tried it? Or does it work? Yeah. Yeah,

S

Speaker 05:35

we are. Yeah, I'm speaking life tremendously to this program to to you to LWS to all of us

humanitarians to do, as God has called us to do. Because we were all we all know, we were created for this purpose to serve. And we all have a deep in our heart to serve. So I know that I'm, and like everyone on this phone right now. We're here for a mighty mighty purpose. And we have to speak life, not, not death, not trials, not tribulations. And I can tell you, I've been through them, but I don't want to speak them. I want to speak where I'm going. And that's why God did give me my plan. I woke up one day in January of this year, before even meeting you and getting on Dale Ws. And he gave it all to me, the second I woke up the dream, I had the dream, then I had the vision, and then I wrote it down. And then I created and then I meet you. And I'm like what. So I know that many people here have spoken that this was where they were meant to be. So I know we are all meant to be here. And it's hard to speak life to ourselves, because we've been through so much. And we've been held down so much. But I know that God has a purpose, a mighty mighty purpose, to change this world. And to bring us into a new world where there is not going to be tears, Only tears of joy, and happiness and provision, and enough to be in abundance. So we can serve our neighbor and our neighbor includes not only our community and our state, our nation, but also other nations. So I know that we're here for a purpose. I just want to help with people speaking life, because I'm hearing a lot of negative these days, Ron with what everyone's going through. And I just love what you're saying.

R

Ron Giles 07:40

Well, thank you. And I appreciate that. I'm not trying to talk against the Bible. i The Bible is got a whole bunch of stuff in there that I just really, really love. Yeah, there are other books that should be in the Bible.

S

Speaker 07:56

Yes, agree.

R

Ron Giles 07:58

So those are the kinds of things that we are missing out on because we didn't, somebody didn't think we needed that in order for us to be slaves. So and that was just a dig, I don't know. We were here. We came here in this life, from the non physical to the physical. For the third dimension experience, but we're still that highly evolved. spiritual being, right, we've just been crammed into this little Barney. Some are really big, some are really big. And they're busting out, I don't know if that people are highly evolved spiritual. I'm not saying that. Just being silly. But the fact is, is that we came here into third dimension out of physic out of the non physical into the physical, for the purpose of creating a new way to live in third dimension. Now I look at it from that point. Who Who was it that created a We you and I, we all did, we all created this experience before we came here, because we knew that we'd had needed to have loved one society, to do the things that we're going to do. And that was our purpose for coming here. So we came out of our non physical form, and came into our bodies, with the intention of creating and serving the rest of mankind to help them to come to a greater understanding. Now what we're not what we're doing is we're creating a brand new earth, a brand new age,

S

Speaker 09:51

he's got a new era.

R

Ron Giles 09:54

So when if we pass away when, when we pass away If we want to pass away, we can pass away and go back to the non physical and there we are. And, but there's things in third dimension that you just cannot have up there. And that's why we came here. We created the third dimension for our own joy and happiness. All along cancer, the Yeah, who said, wanted to take over? Their free agency was honored.

S

Speaker 10:26

Yeah, they've done a good job. Yeah. Those those guys from saying they're really, really good. But they're doing so. They do, they created. So what we need to do is take what is here with us, and the new things that we're learning how to do. Now, I'm not saying that you need to use the term, Prime Creator or Prime Creator, if you use the word Prime Creator, that's, that's the Prime Creator, if you use a prime creation, is everything that Prime Creator has created. And I'm part of that so I can command myself to do what I think is necessary to do. And I don't have a problem with that. In fact, one of the things I do is I command myself. I commend myself to, for certain things to have happened in my life. Yes. And that's part of me. So I'm Lord God of this being. I'm the one who's in charge of this thing, not somebody else. I'm the Lord God of my being. Right, now puts me in a pretty high position. Theoretically, unless we buy into it and allow it to be true. And then we move forward in the things that we're trying to accomplish while we're here. And in that process, we create a heaven on earth. There we go. Yes. Yes, you she was the one who was he's in charge of the earth. You got it.

R

Ron Giles 12:16

And we love and appreciate what he's done for us. Each and every one of us. Yes, yeah. And the work that we're trying to accomplish. He's always there. And always.

S

Speaker 12:31

Yeah, never forsake us.

R

Ron Giles 12:33

Yeah, this is, and Buddha and Muhammad and those all agree that this is Jesus's or it's and so he's in charge. So let's just allow that to be true for all of us. And are we Christian?

S

Speaker 12:55

It says, Yeah, but people could

R

Ron Giles 12:59

it Yes, you are not? Christ, all of us. Christ. Consciousness is the consciousness of all of God's creation. And so we become Christ consciousness. When we become it come into our Christ consciousness. That means we know that we are children of God, and we act accordingly.

S

Speaker 13:19

You got it. Practical. Command my,

R

Ron Giles 13:23

I have no problems commanding myself. Get your ass. Get yourself out of bed. Exactly. I can do that. That's part of that whole creation process or commanding process, right, because I'm part of creation. So I'm not offending anybody. I'm just using all you guys to do the help me. I command you to do this for me. So we're coming into our own power. Right here. Let's just let this be true. Well, thank you. Make us humanitarians we want to be you got

S

Speaker 14:04

it? I've asked to have an appointment with Q like many others have already got theirs. And, and I there's no more appointments. So I did send two emails already to Antonio, to get my appointment. So I don't know if there's anyone on this line that can help me get one. But I'd love to have a one on one with Q.

D

Dominick 14:23

Hey, Monica, let me jump in and say that we'll get you some information. They haven't sent out a new list yet, but they will. So okay. Yeah. You don't want to get to the next question with what a great conversation. Thank you so much.

S

Speaker 14:36

Thank you so much. Thank you, Ron. precious

R

Ron Giles 14:38

lady. grateful for you being here.

C

Carrie 14:42

Thank you. You're welcome. We're going to go to Danielle. Danielle, your mic is open.

S

Speaker 14:51

I just I was listening to the person that just spoke before me. And I didn't I don't know how to To request an appointment with you,

C

Carrie 15:03

Ron, may I address that?

R

Ron Giles 15:06

Yeah, because I don't Sure. Okay. Antonio

C

Carrie 15:09

is the person that posts the schedule for a month at a time. The October schedule has not been released yet. But as soon as it is, we will post it in the room. So you'll you'll have access to that. Those meetings are on Tuesday, Wednesday and Thursday. They're busy on Monday and Friday doing other things. So there is a limited number of sessions available. It is on a first come first serve basis. So we just need to wait until Antonio posted the next.

D

Dominick 15:49

Can you also make a comment about the upcoming meeting this Monday with Q on zoom that people can actually ask questions to him on that as well.

C

Carrie 15:59

Yeah, Ron actually didn't already do that. But yes, so this coming Monday at 10am Pacific, which is 1pm. Eastern, we'll have a two hour session with Q were questions that have been submitted. And there are 400 of them. I think that Tracy has already. So we've got quite a backlog of questions for him from members. And that will be recorded. And we will, we will post the recording. And just in the meantime, there's so much information that he's already offered to us, both in the podcast with Antonio, and also all of the podcasts on the Hollow Earth platform. There's there's, I don't know 50 podcasts, probably. So if you're waiting for an appointment, I would highly recommend just start listening to all those podcasts, because you'll get so much information that he's presented for us over that time. So that that's basically what we can do right now.

S

Speaker 17:04

Thank you all for all of the hard work you have been putting in. I've been listening to you for

about two years. So thank you.

C

Carrie 17:15

You're welcome. All right, let's. Let's go to world changer. Your mic is open now. world changer. Hello, thank

S

Speaker 17:26

Hey Carrie. Hey, Ron,

R

Ron Giles 17:28

our world changer. Yes. We're talking to the big person here now. Oh,

S

Speaker 17:34

boy. Thank you. My question, I'm going to try to be quick because I know that a lot of people want to ask questions. So I have been listening to cue, I've met with cue. And I was introduced to all I guess, you know, everything within us and in, you know, all the truth about you know, everything that we you know, the religion and lies, and since about 2019. And when I first heard it, I was like, gosh, that's not right, that something's off here. But then I'm like, No, it's the programming, it's all the years and just unlearning and then listening to your heart. So I'm doing my best to clear out stuff emotionally. I've had a lot of stuff happen in my life, I'm only 39 years old. And, you know, no point in talking about it. But the point is that I'm trying so hard and doing my best to do everything that I can to have myself ready for this. And it's hard work, but it's so worth it. And you have to be vulnerable, and you have to humble yourself. And so at any rate, my question is this. And I've tried so hard to not screw anything up and do I try so hard to do everything right and not making mistakes. So I just puts a lot of pressure on myself to not screw up anything. So at any rate, I'm somebody who analyzes stuff I have, I just analyzed probably too much. And so when I was introduced to, you know, the I was I got off track and I thought the manifestation was in the head and que todos that it's not it's you can use your head to to carry out the things, but it comes from your heart, it comes from within. So, with that being said, I'm trying, I'm learning how to switch this because of the stuff that I was taught before. And can I not? Because sometimes you have these thoughts in your head and it's not you. But then you know, like, I'll do the commands every day I do the commands before I go to bed. I do it in the middle of the workday. I do it if I'm gonna in a moment, but sometimes you can't say those commands when you're around people because they'll think you're nuts. So I try to say things in my head. You know, just How to you know, kind of catch those negative thoughts and flip them? Is that okay?

R

Ron Giles 20:05

Absolutely, yes. Okay. All right. Don't Don't, don't be worried about technical things. Like we got to say it out loud and gotta count to five and that sort of thing. You can go ahead and give

you a command. And you can you can say them with your mouth without putting a voice behind it, that that other people can hear. Okay, let me Okay, yeah, that's true. So you're, you're saying them with your mouth. But you're not putting in the voice behind it, which is helpful. But you're commanding yourself and your self is the one that's going to be doing all this stuff. Not only creator, but not only creation, but yourself, and your spirit. Those are the four things that will help you to do what you're trying to accomplish. Now, let me just your you got emotional there. And I appreciate the tenderness of your heart. Don't judge yourself so severely.

S

Speaker 21:18

I'm trying really hard not to try so hard. I'm sorry, when other people have their time. But yes, I try really hard.

R

Ron Giles 21:27

It's okay, if you're never going to do something wrong if your hearts in the right place. And so just allow yourself to make the changes, allow yourself to be who you are. You're precious. You're a daughter of God. You cannot mess things up by there. You cannot, you're not trying to, therefore you're not going to just go through the things that you feel like you need to do and let that be your way of doing it. And that's the way you're you're being Integris you're coming from yourself, you're going within and manifesting from within. And that's what you're doing. There's no need to be judging yourself in any way, shape, or form. Do not do that. That will tear you down. That'll tell you are apart. We're never perfect in our minds. We're never perfect, or perfect. Because we're God's children, and he doesn't see imperfections. We think that we've done something wrong. He never sees that he doesn't acknowledge that there's something wrong. It's all perfection because you have been given free agency.

S

Speaker 22:49

Okay, okay, if one last question. Thank you so much. If I create my reality, and I'm a god, he I'm God here on this earth from God. You know, sometimes I don't know all the answers. Sometimes I need to ask God for help. I can still do that, Anna.

R

Ron Giles 23:07

Oh, yes. That's what you're doing with all your your command. You know, it's like a baby reaching up to his parents. Can you help me with a hand so I can learn how to walk? That's all you're doing. Okay.

S

Speaker 23:31

Thank you so much.

R

Ron Giles 23:33

You'll be walking to. You'll be running soon. Rolling whenever. Thank you. You're certainly welcome.

C

Carrie 23:45

All right. Let's go to Danny Martin. Danny, your mic is open. Danny Maren. All right. How about joy ups. Let's see. You've got your video camera on but not your mic open.

S

Speaker 24:08

Okay, can you hear me? Yes, yes. Yeah. Thank you so much, Ron, for all the uplifting talk. Especially in this challenging time, since it's good to hear you. So steady and so positive and so uplifting. And thank you, Kerry for reminding us about the physics behind the law of attraction. So I want you to address Monica's question. Words are energy, they are vibration, they carry energy. When we say please, we come from a weak position. This is my interpretation. If I say please is like Oh, I'm conditioned to be nice. I don't want to offend anybody. Blah blah. If I say I command I can. I feel strong. I feel comfy. And I feel sovereign. So it's a total shift in vibration. That's why it's important to adjust our attitude, our how our view on life, who we do know who we are. So that that's very important to Mises physics be behind law of attraction. It's very, very important. I belong to connect in consciousness. And very recently, we have a monthly topics, spiritual topics, and very recently we talked about this issue, because it's very important for everybody who is awake, to feel empowered, to feel confident, to feel sovereign, and to know who we are. That's the only way to lead out of this into the new world, basically, New Earth.

R

Ron Giles 25:54

Yes, acknowledge, acknowledge where you are. Acknowledge that, because if you don't, then you're, you're not being honest with your shoot, your integrity is kind of waning, a little bit. Recognize where you are, and see Monica was, Is the child that's reaching out to the parent to say, Can you help me walk? Well, that's where she's at. There's nothing wrong with learning how to walk. There's nothing wrong with getting a little bit of help from your father. There's nothing wrong with that. However, you'll grow through that you'll learn how to walk, you will learn how to crawl, you'll learn, learn how to run. And then you'll learn how to do things while you're running, that are productive for your own life. And then you learn how to create, and then you create the things that you want. And then you are in the power of your humanity, your human, your man being God, who means God, man, or God, woman, it doesn't matter. So the point that I'm trying to say, we're graduating, and always taking another step, each day can be another step. And be aware of where you are not the judgment, just say, I'm just putting my hand out to God for somehow. And you're going to say, and he's going to say, Well, you take my head, let's show you how to walk me, you kind of lean forward a little bit, you put your foot out there and then push off from the other one. And that's, that's your process of Brock walking. Of course, you don't say that to a child because they just do it normally, naturally. And yet, it's okay to ask God for a little bit of help. Because you're, you're in your mind, you're perceiving that. And then not your heart, but you're in your mind perceiving that you're not accomplishing what you really want to, if you're looking into your heart, your heart will know

exactly where you are. There's nothing wrong with being not perfect in your eyes. Because God does, God looks at you as perfection. He created you in perfection and you haven't changed. Nothing you can do can change the perfection that God sees in you. We perceive that because we judge one another and then we respond to the judgments of other people. If we got out of that, we will always not understand that we're in perfection. So I appreciate your comments. Law of Attraction is one of the best things. Thank you, dear.

S Speaker 28:44

Thank you for that deep dive. You're welcome.

C Carrie 28:51

All right, we're going to go to Alenka Alenka. Your mics open? Alenka. Alright, we'll come back and we'll go to joy boy. Blanca, okay. Alenka your first and then we'll go to joy boy.

S Speaker 29:11

Okay, thank you. Now I managed to do this stuff with the with the microphones. Sorry for that. Okay, so I was very impressed by the cue saying that, like this advice, turn your attention, invert, and then listen to your inner sound. And, like sound and light. For me, this is the most important advice, because I practice this many decades ago. I believe this is the like, the Bible says in the beginning was the Word. And this word, actually, for my understanding word is this inner sound. So On residing in the heart. So let's continue this practice. I mean, it's very important for our ascending for our spiritual growth, and especially this wealth management serious. I was very glad when I read this and study one till six, I studied. Thank you, Ron, for doing this for us. And for everyone.

R Ron Giles 30:31

Good job. Thank you.

C Carrie 30:36

Joy, boy, can you open your mic on your side?

R Ron Giles 30:41

Hi, hello. Hello. Yeah, speak as loud as you can, because it's a little soft.

S Speaker 30:52

Well, I just wanted to give some advice to the lady who's crying earlier. Because I think we're

all feeling the same way or undergoing the same process. Like there are times when the our paths came back, and we can stop it in our head. So this is what I learned from cue. I learned from what he said to be an observer, like a third party, you just observe the thought coming into your head. But what I did was, instead of focusing on the negative that happened in the past, let's just focus on the positive side of what happened and what lessons that we learned because we will not become who we are today. Without those experiences. I mean, let's be real with ourselves and that space, our, the fields that we are hiding, because we cannot heal ourselves if we if we are going to run from it, if we will hide it within. So I will not mention any experiences from a past. But um, yeah, that's why it is important to stay strong and believe in yourself. Because I do sometimes doubt myself being a humanitarian, but I am trusting the process that I'm going to. And I'm hoping that the alliance will see what good things I did in the past because I didn't claim to be a saint. He also committed sins in the past before. So that's what I that's are my thoughts, my. And so the advice.

R

Ron Giles 32:39

Keep in mind that the alliance is is basically a God force. And they they know exactly what's going on in your life. So you don't have to wonder if the alliance is doing this, that or the other. They're they're, they're behind this 100%. And they're, they're screaming as loud as they can without deafening our ears. And if we were able to listen, then that would be helpful for us. But keep in mind that your God center is inside of you. It's it's not in your little toe. It's in your heart. That for God, that's why we go in, we go inside, and we find our God inside of us. And then that grows and the light starts shining and shining and shining and takes us. And so we put on our light body. And that's what Trump or excuse me, his cue is trying to help us do. It's a beautiful plan. And he's not dumb. He knows exactly what he's doing. So we just have to work with it and and find the God within, find meaning. Share. Go in and find it. As much time as you can spend inside is probably the best. go within and find your god going inside and find your God Self. Find your spark of God. And let that fire short. Bernie. let it consume you.

S

Speaker 34:23

Yes, yes, I will do that, unfortunately. Or just enjoy the process before we get there. I mean, the journey before I get to the destination,

R

Ron Giles 34:32

yeah, this was a good journey. You're on a good journey. You're certainly welcome my friend. Yeah. Thank you.

C

Carrie 34:41

Ron, would you like to continue with questions or go back to the talking points? We have about another 20 minutes?

R

Ron Giles 34:49

RON GILES 35:13

Well, you know, the talking points are good. And yet we can put off for another week for the talking points. If there's questions. I'm feeling like we're Throwing there's there's some good energy in the questions. And I'm feeling that that's a good risk. There's a good response that's available for us to go through. All righty. I'd like to open with continue with questions.

C

Carrie 35:14

Okey doke. So one Anita, your mic is open. When needed NIDA

S

Speaker 35:21

Hello, hi. Yes. Can you hear me?

R

Ron Giles 35:28

Yes. A little bit soft. So get closer to your phone or wherever you're talking through.

S

Speaker 35:36

Okay, is it better?

R

Ron Giles 35:39

Yes, yes. Okay.

S

Speaker 35:41

So, first, I want to thank you, Ron. And, you know, everyone to was helping. Let's see, I don't want to say this. But I'm kind of like there's the push data from the higher up. So first is, I want to say that I've been doing a small scale humanitarian, helping people buy houses. I'm not a realtor agent or anything. But I have done that. You know, just helping. And then another aspect is, I've been an auditors for life. And so I've been doing and like recommending, or giving out? How do you say that? offering ways to improve things. So, so far, it has been, my life experience is been good. So for the NRELS, I'm just offering my service, if you want me to look at it, you know, I can give it my two cents. So just that just to let you know that I'm offering my service. Okay.

R

Ron Giles 37:11

I appreciate that. And thank you very much. We've got a, we've got a crew on that right now. And it's not that we can, couldn't have more, but we have a certain amount. And then we manage that so that everybody gets to talk and then we come to term conclusions on what

we're trying to accomplish. Thank you for your for being with us and and your devotion for loved one society. Thank you very much.

C

Carrie 37:44

LD, your mic is open.

S

Speaker 37:49

Hello, everyone. And thank everyone who spoke before me and thank you, Ron carrying down. This is so excellent. We've already back to Q. When we first had that initial meeting with him, I build off of that I have not had a chance to come to the Monday, Q meetings. But I've been listening to the recordings. And I can say one thing and my heart goes out to everyone because I feel the same exact way I actually had to tear down my system, like a demolition because of my beliefs, what I was taught as a child with, you know, religion and the institution of school and how to be and how to live and how to act. And Miss like everything was like a fraud and listening to Q. And when he said, you know, look in the mirror, look at yourself, you cannot lie to yourself. So I did that. And when you look in the mirror and you look deep into your eyes, you will see the real you. And then I took it further with the commands. I understand what Monica was saying about the command. So I always go with the word gay, I beseech you, oh, Lord, I beseech you is the same thing as command. But I felt more comfortable saying I beseech you. And I'm very boisterous. So I've learned how to from all of the teachings that I've learned from Ron and Carrie and Dom and Tracee, and everything that we've been listening to. I noticed that there's a big change in me since I deconstruct, just get rid of everything that I've learned. Yes, come as the Lord says that we have to revert back as being little children. And yes, there's life and death and pelvis at the tongue. So I stopped all the negativity. I don't care if the world is burning down in front of me. I have to be like if I'm pronouncing their names like me sec, shut back into Bendigo. Yes, we are all in the fire. But we have to remember who's with us. So I had to take that attitude. And then I had to start doing not just the commands, but saying the commands, but doing those commands at the law of attraction of bringing things to myself, whether it's money, or love, or just something that needed to go, right, so I started sitting in the sun, and doing the sounds, you know, the I'm with my hands up, and getting that energy in my body. And it has not just changed me mentally. But physically, it's like, I look like a whole different person. When we let go this, this type of living that we were taught, and we start living the way that we're supposed to be in identifying who we are, because I'm really learning now who I am, my dreams are no longer dark, where I can't even remember whatever. Now I can see my dreams vividly. And it's like, I'm actually there, when I wake up, and I don't have that fear anymore. So I appreciate everything that was stated today. I appreciate everything that I have learned. And I know it was the law as well that I was to be directed to love one society, it takes a lot to understand when you're new, because I remember when I was new, what I had to go through understanding what each video meant. And it was started really listening. And then that's when I started learning. So only thing that I can say to everyone, especially for the ones who have this negative thing on cue, drop it, just release it and start to embrace it. And when you start embracing it, you're going to feel different, you're going to think different. And you're going to understand what Vaughn, Dom Tracy and Carrie is trying to express to us and everyone else that's coming into the group to do the presentations, you're going to be able to see better, we have that Third Eye is the Pineal Gland. When you start releasing yourself, as Q says, you're going to start using that third eye as well. So I'm just I'm

just elated. And I'm so grateful that we have this great platform. And you We are brothers and sisters in Christ, we are the children of the Most High God and blessed and highly favored we have to start speaking life into everything that we do. I might not get an appointment with queue. But I already felt like I have my appointment that queue because the what he laid out and what has been laid out for us. We there's a lot of people on here. And sometimes I don't get a chance to speak. But I think that I have a chance to speak today. And I hope but I'm saying but resonate with everyone, because this is so important. We have to know who we are in order to go forward. Because I was stagnated. And I didn't I wasn't feeling growth. And I was like this is understand what's going on. But where am I going? And it's not a matter of oh, I'm going to be a humanitarian or just any other No. Like Warren was stating, you know, we might have, we might feel that we all but what is our heart saying? And when we do get that appointment, you know, a picture's worth 1000 words. So it's our parents, and they will be able to see right through us. If we are, who we are, what we say and who we are and what we're going to do. You can oh you can fool everyone else. But you can't fool the Lord or His angels. So yes, find out who you are. I'm still finding out. And I'm loving every minute of it. And love yourself, regardless of what's happening. Love yourself through this process. And thank you so much for allowing me to speak. And this is such a blessing mine. And we love you. And thank

R

Ron Giles 44:13

you. Oh, thank you. That's so, so kind and your words were just profound. Thank you.

S

Speaker 44:19

Thank you.

R

Ron Giles 44:21

One other thing that I wanted to say. Q is in your heart, Q represents Prime Creator. So there's a little groupies down there in your heart, a group of Ascended Masters a group of Gods Prime Creator Q. It's all there. You must have a big heart. You must have big hearts for all those people to get in there. So but they're there. And the sooner that we can get into ourselves and find that God within, to where we can say, I know, my God lives within me. I know this to be true. I have his spark, her Spark, I have the spark of God within me and I'm nurturing that. Like, that's my whole life experience. And because truly it is, and we're going within, because we don't want to go without it. And so in going within, then we are including all of the good things that are available for us to accomplish. Now, we're going to come through this. And we're going to be the greatest humanitarians that this world has ever known. And it's not just because we give from our hearts, it's not because we give things to other people. It's just that we are fulfilling our godliness as an individual child of God. That's what we're doing. And so every type of preparation, every moment that we think that we are doing things that are good, sometimes you do things that are bad, let's, let's not focus on that this is let that go and say, oops, sorry about that. Be joyful, be happy with it. Don't get into judgment and tear yourself down because you feel like, Oh, I'm not gonna make it or I'm not good enough. All of that is the dark side energy flowing through you because you're thinking of the past, instead of being in the now where you are within your heart center. So let's go with another question.

C Carrie 47:03
All right, we're going to go to Brenda Hello, everyone.

S Speaker 47:08
I just Hi. I just wanted to give everybody a command. That cue gay for me because I'm around a lot of negativity. And it tended to bring me down. So que gave me this command. And however, whoever you command, I'll just do the last part. defend me all day from negativity. And it's really working. And that's all I have to say.

R Ron Giles 47:43
That's all that's to say. Yeah.

C Carrie 47:46
Thanks for that. Okay. Very good. Very Claudia. Claudia, your mic is open. Claudia, Portugal. Alright, we'll come back to you. We're going to go to Claudia's got her mic open

S Speaker 48:10
Excited thank you so much for allowing me to speak. This isn't my first time to I feel so proud of being here. And he amends here with you and I'm here on a horse at this moment in time. So we really hard here for a purpose. And everything you say Ron makes so much sense to me. I had I had three dreams long before I met you and LW s and a third time I wrote them down just because they they they made me feel really happy. But now I understand and see those dreams from a completely different perspective. And I know they were no coincidence. Because everything the people the scenario absolutely everything makes so much sense now. And I feel so peaceful when I listen to your run. And everything you say really resonates with me. You're like with a child waiting for the to open the presents at Christmas. And I have always been criticized for being a dreamer, and for using my heart the majority of times during my entire life and in fact We now I've, I found my tribe, my family through my entire life, I thought I were alone. And it is really important for me because the sense of belonging. So I'm really grateful. Thank you somewhat.

R Ron Giles 50:19
You're certainly welcome. And you are you don't belong here. What a what a lovely person. What a lovely heart. This is your home. Thank you. You're certainly welcome.

S Speaker 50:30
Thank you. Thank you. Thank you so much. You're welcome.

C Carrie 50:38
All right, JSW, if you'd like to open your mic.

S Speaker 50:43
Hello, Ron, how are you?

R Ron Giles 50:46
I'm great. But that's okay, for now.

S Speaker 50:51
I have a question. I know that we're moving on to like from 3d to five D, but or do we have to have because I've closed all my bank accounts, because I've had issues with my business with I've had some business funds that were swiped from from a business checking account. So I went ahead and just closed all my accounts. And I the only thing that I have open is like a Cash App. So are we able to open our Q Fs accounts without having a bank account? Is that still is that required?

R Ron Giles 51:25
No, a bank issue is not it's gonna be in a quantum financial system. So all your banking systems are all yours. Financial Systems can be involved there. We're going to have financial service centers, which are a repurposed banks that will serve the same purpose in our communities. So that's a brand new thing. There are banks now that are safe and secure. A credit unions are more likely to be that way. But there are places there where people are only talking about in Minnesota, there was a lady that was talking about to her credit union, they say we're financial service center. So we've been trained for it. So it's a brand new thing is going to happen. We're in the transition. Hopefully, the transition from the banking system to the financial, from the quantum financial system and into the financial service centers will be seamless meaning today, Chase Bank was a bank. Tomorrow, they say they put up some new size, Chase financial services, or Wells Fargo financial services, city core financial services, whichever one survives through the cleansing process, will become financial service centers. And each of us as managing director might have sinned on each of us. But some may have a desire to be a part of that and pay for all of the services that are there, through employment contracts. And through the RSS program, these people will be very well compensated. And because we have so much money, we need to get that out there. So we're going to, we're not going to scrimp and save or we're going to be very well. heeled bye for now finances. So we don't have to worry about those things. So we can give people \$1 an hour. As a director, that's it half a million dollars. So isn't that fun? Isn't that fun for that person to have half. And then they got their 26,000 a month and if they're married, they've got a wife, they've got another 56,000 or 28? That that's 26,000 between the two. And so can be a lot of money around.

C Carrie 54:14
Ron, we are at the bottom of the hour. We have a few more questions. What's your pleasure?

R Ron Giles 54:20
Let's take two more. And I'll try and keep them short.

C Carrie 54:24
All right, we're gonna go to Patriot for humanity. Your mic is open.

S Speaker 54:31
Thank you, Carrie. Thank you, Ron. How are you today, Ron?

R Ron Giles 54:34
I think I'm great. Yes, you're

S Speaker 54:36
great. You are great.

R Ron Giles 54:41
Thank you for agreeing.

S Speaker 54:44
Because it's true. I'm not going to be longer. I just wanted to make a statement that the this place of existence that we call Earth has been through such darkness and destruction for eons now, and so all of us As all of us that are on this line here today and have been for the last year or so, we haven't got time to lose it now, we were so close. And for me personally, that's what really propels me forward, that we get the opportunity to make it the way it needs to be the way God intended it to be. So there's, there's no time to like, we can't lose it now. So that's all I wanted

R Ron Giles 55:27

to say, Well, I appreciate what you're saying. And yeah, what we believe is the things that we're creating. So we believe that the, the way things are going to work out is the golden age of mankind. That's what I'm looking forward to. So we're not going to lose it. The Earth has been always been the same. There's just been treated so terribly by the bad people who have been here. But along comes the humanitarians, and we're going to treat the earth like his paradise, we're going to create create the paradise here on the Earth. We're going to have the kingdom of God come back to the earth in its glory.

S

Speaker 56:06

Halloween. When we're better together, we're better together.

R

Ron Giles 56:12

Yes, that's true. I love that we're better together.

U

56:16

Yeah. Thank you.

R

Ron Giles 56:18

You're certainly welcomed here. Thank you. Thank you. Michelle,

C

Carrie 56:23

your mic is open. Michelle, angels are us.

S

Speaker 56:27

Good afternoon. My favorite Yoda, Master, we love you. And thank you for everything that you do for everybody. Um, I've wanted to chime in on something you had said in the beginning, talking about bars. And the reason I wanted to comment on that is because, you know, I, without going into stories, but you know, had a hard life, drink a lot younger, and, you know, to hide the pain and so forth. But what I have found with being with Elda us and again, off of what somebody else said to I don't know how I got sitting here when it happened, it still amazes me. And I thank God for that every day because I divine intervention. But back to the bar, you know, my husband still loves to drink. And people enjoy drinking. And I may have one once a year, but I haven't drank like I used to probably eight years now. And I love that. But it Ron, you're so right on that because you know, it all the people in that kind of arena, nothing's wrong with it. But the majority of them are unhappy, and they go there to you know, get rid of stress and all that. And it's not productive. And today, my husband still wants to go the bar and shoot pool. And if I'm into shooting the game of Paul, navy, but mostly 95% of time, sorry, I it's

just not for me anymore. And I'm grateful for that. And I'm bringing that up because not only as elder us being with young people and learning what was learning, it has so opened up me to who I truly am and looking within and I believe wholeheartedly every day if we just you know, let all that excess noise of what's going on out in the world. Spend time with yourself and enjoy what you're doing and with LW s have focused on what we're doing. It's it's a beautiful I wake up so excited every day, I wake up happy, I am joyful. I'm not that 24/7 But I tried to be I'm just wanted them happy go lucky people. And but I've found so much more peace here and I just wanted to express that and thank you, Ron, you're awesome. We'd love you and everybody here, the admins, everybody's wonderful. And it's it's really I know, it sounds simple. I mean, it's hard in some people's eyes to finish really simple. We just have to, you gotta want to be happy. And you gotta want to do everything we're doing here and all the other noise turn it off because you will be so much happier. So thank you

R

Ron Giles 59:12

welcome and thank you for your kind words I appreciate that. And don't judge yourself if you go to the bar just enjoy and find the greatest joy that you can while you there. And you know don't protect participate in the problems that are associated with the drama and all that sort of stuff just go out there and enjoy yourself and you can be in a bar and just be the most spiritual person out there.

S

Speaker 59:37

Oh, I do I have I do and I'm sorry to interrupt but i i do I'm just saying though, the time she died there's times when I can see it in his eyes. There's a little bit more fun than I appear to have. But yeah, no not drama going there at all. I'm not saying that and I enjoy seeing people and stuff and I've never had a problem meeting friends, it seems to always happen. I enjoy life. So, again, thank you. Thank you.

R

Ron Giles 1:00:05

You're certainly welcome. Blessings to you, my dear. Back. Yes, yeah.

C

Carrie 1:00:12

Well, I guess we're at the end. Just a couple of announcements. We are going to have a training call on Friday in the project's room at 2pm. Eastern. And then we will have our second Q and A with Q on Monday, and that'll be at 1pm. Eastern and that will be a zoom call. We will send out the Zoom link for that. And then we'll be back again next Tuesday with Ron to finish or go further.
