

September 20 - More Wealth Management Chats Part 1

📅 Thu, Sep 29, 2022 10:41PM 🕒 1:01:10

SUMMARY KEYWORDS

create, cabal, life, people, god, problem, thinking, money, free agency, recreating, heart, mentality, lack, focus, kinds, jesus, reality, change, garbage, economic system

SPEAKERS

Ron Giles, Speaker, Carrie

R Ron Giles 00:00

I'm just really excited about our opportunities to talk about the, the wealth management, especially this particular one, or the lack mentality, and so forth. So I will be really happy to just go ahead and get started on it. If there's if there's not any, Michelle, or excuse me, if there's not any hands raised, then we can chit chat for a little bit. But

C Carrie 00:24

no hands raised anything,

R Ron Giles 00:27

what I'll just, I'll just make some statements, one of the biggest problems that we have been living with and really didn't know that it was a problem, or didn't suspect anything. There is the Cabal, they are in touch with reality, they are in touch with the quantum consciousness they're in, in volved. In the knowledge, they're operating under free agency, and their free agency is being used to take away our free agency. They have been extremely successful with it. All of these many, many, many years, many of us have woken up and kind of see, you know, I, I used to say back in 2008, when they had the big problem with the finances. And a number of companies were going bankrupt. And I remember, Obama got \$700 billion, or something like that, and, and gave it to the banks to save the banks. And I thought to myself at the time, if he wouldn't take that \$700 billion and distributed amongst the people that would solve all of the problems for our economic system. But it's he put it in the banks. And of course, we know what the banks do their debt. Their concepts of us as slaves. If you keep the slaves busy, and you keep that money in debt, then you can control them. So we have a lack of money, although there's the Cabal has been printing money for for decades, for many years, 1000s of years, perhaps. But it's, you know, doesn't affect us right now. 1000 years ago, but it's a process of coming up to this day. And so we have to have two and three jobs in order to make it unless

we're fairly wealthy and on our own business, and are doing things that make money. But most people our education is never designed for us to do our own business there is designed for you to be working for somebody else. What do you think the universities are for, so you can get the higher paying jobs, it's a process of getting the slaves to where you want them educating them, but those who really have some good intelligence, are identified fairly quickly and dragged into cabal type organizations. And then they use the brains of these individuals for nefarious reasons. That's the way it's been working for years and years and years. So here we are working two jobs to make it or the husband and wife are working, whatever, and they're still not making it and their credit cards are being pumped up. And just to try and make ends meet. Sometimes they might over do it and go on a little vacation to relieve some of the pressure. Those are the kinds of things that should be available for us to do anyway. But sometimes you have to borrow the money to do that, which puts you in further debt. Well, just see the smile on the Kabbalists face with that sort of thing takes place. The trauma, the the lack of abilities to really be yourself and be who you are, are all gone. Because you're you're can't think about those things because you're overloaded with debt. What am I going to do? How am I going to pay this? What am I going to do for that? The children, they need braces and they need this and and Susie came home and she wants to have a cheerleading outfit or a pep club outfit. And we can't afford that. And so there's so much of those kinds of stresses that was put on us. This is the lack mentality. It was designed for us and they did an excellent job. If they were on the good side, we would all be a lot. We're be close to the wild, we look at the 80s. And where did they get all of their technologies from? The good ones. Where'd they get all their tech? No, they haven't, they haven't had to live with a cabal all of these years, they've been able to evolve, that's the right word to use, evolve in their spiritual and physical attainment, to the point where they have a very well run societies that are doing great things, and creating all kinds of technologies that heal people and do the nice things that we would never have here because the cabal is in charge of it. So the lack mentality is designed to be here with us. And we are subject to all of the problems that are associated with a lack mentality, because that's the only way we've had to live. That's the only opportunity we've had to live. And from my perspective, the Bible is a really good tool, but it's a collection of Gods dealing with certain individuals. You know, they didn't have a Bible, back in Jesus's time, they had writings of the prophets and so forth. And then they kept and they'd quote them and do all kinds of stuff. But it was never organized until after 203 300. And whatever it was, the Council of Nicaea all got together and decided this, we're going to make the Christians, our church, our state church, that's why it's called Roman Catholic. And those are the things in the Bible, they, they had a chance to do all the various stuff that they do. And so they created a set of circumstances where we would have a degree of knowledge and understanding of the life of Jesus and some of the things that he taught. But another instead of Jesus being a man, who came to the earth and had great talents, and, and connections with the heavens, instead of us been thinking that we can be like him, as he said, Come follow me, do the things that I have done and greater things than I have potential you do? Well, that never happened. That never happened, because we didn't know the right ways to do things. And so we've had to live without the reality of what we are supposed to be the major say, this is the biggest lie that they would not let us know who is who we are. If we as children of God, fully functioning with all of our DNA, you couldn't stop us with all of the garbage that they did. So they turned off our DNA. And then they treated us like slaves. And there we are. They created in us, the men lack mentality so that we could be controlled by them. As children of God, we were told this, we're born in the image and likeness of God. Which one of the churches is going to tell you that you are a child of God, and therefore, the family of God? Which churches teach that? If you if you think that I'm wrong, it's okay. I've been wrong before. But maybe it was the wrong things that I was believing that kept me into the slave mentality. So you think these things through and you come to your own conclusions about it? We have been duped. We have been lied to, we've been controlled. And

we have been pulled back from who we are so that they can control us. They can control children of God in their full capacities, as children of God, with all of the blessings and the things that come as a result of being part of the family of God. Which would mean we get to be creators ourselves. We create worlds with our lands, we create our own universes. That's what children of God do. Where did my blasphemous to say that? A lot of people think so. But I don't think so. Oh, Jesus. They said, Well, he was equal to God. And so he, and I think it was Paul, it was saying something about him and not allowing him thinking that he's blasphemous because he was crazy. He says, I'm, I'm God. Well, that's what they wanted us to do, they wanted to put him on a pedestal that we would never reach. So they created a deity. They created a worshipping situation. They made it so that we could never be like Jesus, and walk on water and do the things. There are certain people who can do that. But generally speaking, all those who would follow Jesus, never walk on water, never do anything my parents didn't. They had, they were very devout Christians. And I'm saying that the magic of Christianity was gone, it was taken away. And we are left with all that the cabal could do to control our lives. And so now we're looking at a change of life. We're looking at the lack mentality and saying, That's not who we really are. Are we supposed to just work for money, have our life down here and work for the money? Or do we have other opportunities to be like children of God, we're exploring that now. We're going to expand into something that has never happened on this earth before. If it has, there's no history of it. So we're creating our own history, and we're creating a new economic system. That's what level one society is all about. That's why the Alliance helped us create loved one society, because that's going to fulfill that hidden agenda, that hidden meanings that are available to us as children of God, it's going to open us up. It's like a candle printer, it's going to open up we've been put in a can and the top is coming off now. And we're going to be able to live like we want to with all of the funds that we need all of the money that we need, either. We can buy homes, we can buy, whatever is necessary. And as we grow up, and we as children of God growing up and we get to become creators, and the fifth dimension we're sending to there. I don't know where it's going to be like, he was trying to say something yesterday about it, I didn't quite get it. But in those higher dimensions, you create by thought, the words that Jesus or that God spoke in the creation, as we find it in the Bible, let there be light, there was light. And let there be water and the rest of the stuff the six, six days of work. So those are the words that children of God will speak and create worlds of their own. The requirement is that you select sterilize your creations. Because you can't just go and create something and then leave it let those people or whatever, go away. No, your job is to make them or help them become like you as the creator. And so that is the family of creators, the family of God that we're looking for. And now we get a chance to recreate what we are and who we are and what we're fully capable of achieving in our lives. And there are no restrictions because all of those who would restrict us will be taken away. And they get to go someplace else where they can continue on their nefarious activities, but only with their own people. So the bad guys, instead of cooperating and causing problems for us, they're going to be copper. They're gonna creating problems for themselves wherever they get to go. And is that a loving experience? Well, we'll see. They have free agency and they took it away from us. We'll see what they do with their own and see how they work it all out. But we don't have to be concerned about that because we're creating the golden age of mankind for this planet, this earth and I believe the golden age of man inkind gold for every where there is a human. And wherever they are in the universe and the galaxies, that's going to be a part of their lives as well. And I think it's supposed to be that way. I don't think anybody should be left out, according to their will and the desires that they have. And because there is free agency, and you have to honor the free agency, and God, let bad guys do this, because it's their free agency. When the golden age of mankind comes about, it's time for the old, really old guys to get gone, all of their old ways are gone will be gone. And we will be able to create like children of God that we're supposed to be like, that's exciting to me. And that's what we're about. When

we talk about these wealth management systems, the lack mentality and producing things to the point where we can say, you know, there's a lot of abundance here. Why can we do that? Because there's no restrictions. There's no laws against that there's no organized way of stopping us from doing that. No organized way of stopping us from being who we are anymore. Now, the problem is, are we going to take advantage of it? Are we going to take ourselves out of the lack mentality, and produce for ourselves? The abundance mentality? Are we going to do it? We think we can. I believe we can. But it's an each individual and we become humanitarians. And managing directors and benefactors will have been a cause. We get a lot of funds that we can start doing the things that God wants us to do. It's a calling from God to be a humanitarian, having received the money from the alliance. And that's our God calling, that's our stewardship. Not everybody will get that. It's not that we're better, it's just the worse more suited for it. Money won't destroy us, money won't take over our lives. The lack of money takes over people's lives, and then they screw it all up. Well, they know the right people to give the money to, and then the real people that are going to do the work will come forth. And they'll have the money available for them to do the things that they that they feel are appropriate. So things are going to be changing, lack mentality will go away. The lack mentality is here as a result of the restrictions and the processes that the cabal has created. Well without them around to be sure that we are in lack mentality, and that we're in full debt and all that sort of garbage. Without those people around. We're free to be who we are. We just have to recreate that in our minds, and then act accordingly. Did Jesus know Himself as the son of God? When he was born? No. He didn't fully understand he was an avatar. Yeah, there are a lot of stuff about him that was different than the way we've handled them. But the reality is, is that he did not. Once he knew who he was, then he did things that the Son of God would do. Are we going to follow that kind of procedure? Are we going to be the abundant mentality that is supposed to be happening to us? Are all of us all of those who are going to get the money are in a position now to receive the money? Are you going to get the money? Are you going to get what you think you're going to get? When you're thinking now, yes, I just have to have this redemption appointment so that my wife is sick and I want to get this taken care of and I want to do this and I wanted to do that. Are you sure that it's money that's not driving you or is it there? The responsibility that you have to be a humanitarian? That's the deriving your desire for the redemption appointment. Am I bringing up something that may or may not be a problem? Q has said we're not ready yet. Why are we not ready? Because our hearts are not set on the right thing? Can we do that? Yes, we can. Yes, we can change, change our thinking, we've given us a wealth of opportunities with the command. And then a lot of people don't like the commands. And I'm saying to you, the ideas that he's presenting are a pattern. And you can use the pattern with your own uniqueness, your own thoughts, your own ideas. If there's something that's there, that's offensive to you like telling God what to do, commanding God what to do? Well work it out so that you can do the same thing without offending your own belief system. Be unique with it. That is where the reality of what's going to take place will take place because you have owned it and made it yourself. It's not somebody else's word. It's not ques where it's something that you have done. And you'll find power in that you will find the power that you need, we are going to accomplish the abundance mentality. But you're going to have to refocus, and quit bringing the past into reality into the future. If you focus on the past, you're recreating it for the next mile or two down the road. Until you want to change your creation energy, then you look down the road. And that's what you want to create. Don't bring in the past, the past can't be changed. When I say that the dark side can copy and paste into the your memories of the past. And they do it in such a way that, Oh gee, I didn't realize that. I, if I'd known that I'd really hate that person a lot more. And then you go along with that, and that and that. But it never really took place because it was put into your past through a copy and paste from the Cabal. And they bring that up. And every time you relive your breakup from whatever, your childhood sweetheart or your wife of 30 years, whatever it is, and you have

sadness involved with that, they're going to tell you, they're going to show you that there's a reason for you to be upset with that, and that person, and it will be much bigger than what you thought it was going to be. They have the capacity to manipulate you from the past. And if you don't understand that you will bring the past into your future. You are a creator that which you focus on is what you're going to create is this simple, but it's just that simple. And so if we're not going to bring the past with us, then we look to the future. We're planning for the future. That's what loved one society is all about. It's far our future. And so let's leave our past behind. Do you have a favorite song? What does it remind you of some things that were happening in your past? Well, maybe it's time for us to get some new changes in our mind. It's time to put some of those old things away where they belong, and start creating a new for the future of our mankind. And it's our responsibility to do that. Nobody else is going to do it for us. Nobody's going to come along say You know, you got to quit creating the past and recreating it for the future. You just what you focus on is with so there's nobody to come along to do to tell you that I mean, I'm trying to tell you but the do i Where do I come from? Well, authority do I have to speak like that? I don't know that it takes authority speak like power coming from my heart. So there's a lot of problems with things that are happening now that have a belief system that's created by negative energies in our past. If we're not willing to change then you're gonna left be left behind and you get him back and try it again some other location. We have to purify our lives, we have to get on with this. We have to learn how to be a humanitarian humanitarians who are not just going to feed the homeless, or the provide homes for the homeless, and feed those who don't have food, and clothing. Those are the port monks this? How many do we need? How many of those people are going to take up such a great amount of time for us? What is our project going to do? Is our projects going to be sustained? We talk about health clinics and things of this nature. And then we have med beds that come along. And everybody gets a chance to be in the med bed. Well, once everybody's had their med bed experience, where do these clinic clinics go? What is your next project? And when if there's something afoot that I've heard, there is something different than though med beds? What is that? I don't know. I just know that there's something else afoot. If it's God that's doing it, then it will be for all of us at the same time. So what are we going to do? Our projects can be really good. But we have to think in terms of changing the economic system that we're living in. Now. That's not just poor people. We've got to do it for the middle class, and the upper class, who don't know how to do it, who need to be trained, and changed. We're here to help him to do that. Because we don't have any restrictions, how are we going to do? We don't have the Cabal telling us we can't do this anymore. So things are going to change, we're going to have the truth of all things. We're going to have our come from our hearts, that tunes into the quantum consciousness, and the quantum fields have full understanding that nothing is withheld from us. That's where your heart is right there. Put your hand over your heart and say, this is where this my heart knows everything. And I put your hand on your head and you say, this doesn't know everything My heart does. But my head is just thinking of things to kind of get me by. But it's never has been designed as the location where you do your compute. You're where you do your real thinking. And it's not designed for you to make be making judgments or conclusions about your life. That's what your heart is for. COBOL and put that all away from us. So we're changing. We're changing. And it's going to be a wonderful and glorious experience, man is that they might have joy. We're coming into the joy that we've never had before. So let's just change our thinking, Do not be concerned about when the money comes. That means you're focusing on money instead of what's going to really happen. We all have our own personal things. Yes, I would like to have some money, haven't had money all my life. I live on a very small budget. So where the money comes, is going to be a really phenomenal thing for all of us. And we're going to learn how to manage our wealth and our understanding of the use of wealth and how it can help us to be creating joy instead of the our garbage that we've had to put up with all of our lives. So the wealth management series is essential for us to understand. It is

essential that I have all 10 of them and there's 10 of them. I've got three more to create. And unless we have those in place, we cannot launch the loved ones society's programs. That's the instructions I have from the if you don't get those done, you cannot launch the revenue Sharing Solutions Program platform. I say well what is it is if you're not ready for it yet, still coming. Okay. There's a lot of work to do. There it is. When it comes, it'll, it'll be here. But it's a precursor for us to have our redemption appointments. So when you get number eight, number nine, and then number 10. Number eight is different than what it is now. The lack mentality and the abundance mentality, we will be joined together. So there'll be another three that are going to come. Those are some ideas that I've had and thank you for letting me share this carry, I did not expect I will be taking an out half hour. Time to do this. However. I felt that I needed to share some of the feelings in my heart. And I hope that nobody is offended by it.

C Carrie 31:05

So love here, share what's in your heart. We can never be offended by it. So thank you. I'm wondering if I saw Elyra hand up, shall we see if there are a few questions about lack mentality before we go on to abundance consciousness?

R Ron Giles 31:28

Well, we kind of went through a little bit of this last time, didn't we?

C Carrie 31:32

We did the lack mentality. Last time. I was just wondering if anybody had any lingering questions?

R Ron Giles 31:38

Let's let's take a few questions. If there are okay, we can move on to about it's been talent.

C Carrie 31:43

Okay. All right. So we're gonna go to Lyra first, the library, your mics open?

S Speaker 31:48

I agree, everybody. Hello. How are you sir? Ladies? Doing okay. All right. Thank you. Okay, so, just quickly, my question, and I had it for as well, but I suppose we couldn't get to it is if he could share, probably you could share technique, for instance, and manifestation or quick manifestation. And by this I mean, technique with steps and ways to do it. Because I know I've heard him many times saying go in go in the heart. And it sounds simple. But in my experience, it's not that easy. And I have been doing meditation and teaching meditation techniques, different techniques for about 12 years. And I just wanted to hear cues, opinion and your

opinion, Ron, of how you manifest what you want. And another thing that I would like to add is the subconscious mind. A human being is an essential part of the luggage that we carry with us. So basically, everything you know, it's recorded in the subconscious. And even though we do not manifest it in our day to day lives, it stays there since it is the hard drive the human mind and spirit. So I have come to realize that we have to cleanse and clear the subconscious, our own subconscious mind. And that turned out to be a very, very big job. Very serious. And yeah, a lot of patterns, a lot of programming. And, you know, we've been discussing kapow have done an amazing job programming us and putting us putting a lot of stuff that we have to remove. And until we remove this garbage out of us, it's gonna be very difficult to manifest. That's these are my thoughts and yeah, also quickly to share. I'm personally as well very much struggling right now financially, my family and waiting for the redemption, not in an egotistical way. I have 1000 programs probably already. But yeah, just quickly to share how we can move on. Thank you. bliss for everybody, unfortunately.

R

Ron Giles 34:41

Well, I appreciate your talk. And you're expressing yourself because it's one of the problems that you know, if we face reality, if we're trying to solve some problems, then you have to face the problem. And with the process problem comes The solution. The the real problem now is that we've never had a thought processes that will get us from our old conditioned thinking processes to get us to the point where we can make changes. What does that contain? What is there in our mind right now? We call it garbage. But how do you? How do you label it as? How do you label this thing? Oh, this is garbage. So let's throw that out. There are things in our minds that are part of our daily existence. And they come they come to us from our combat conditioning, yes, we can. We can label things as Cabal, and all that they gave us, but how to identify those things, and change them. And if we can identify those things that we're calling garbage, and have a desire to get them out of our system. Maybe their core values that we holding on to maybe their core values that were created from the consciousness that the cabal has given to us. And yet, they're sacred to us. They're a way that we are living. It's the way that we are living. It justifies our existence. But the problem is, those are the problems that we have to get rid of. Those are the things that are causing us to making it difficult to make changes. Now, the reality is, is that Q is crack, you can make money, money is not a thing, it can be done that quick. Yes. But those who are trying to do it that quick, don't have the belief systems, the thought processes that would create that for them. It's something outside of us. But we have to look in and find out where those things are. Now, you know, you heard that the guy comes home from work and kicks his dog and swears his wife and and then sits down in front of the TV. And that's all he does the rest of the night and bring me my dinner when it's ready, and all that garbage. Who would want to live with that? Who would want to live with that person? Is that the kind of person you want to take into the into the golden age of mankind where we're going to live? Okay, if you don't want to take that personal, what are the things that you're doing that are offensive to other people? You feel justified? How many of us have murdered our children in their dreams? By criticizing them and tell them you don't know what you're talking about? That's so stupid. Why would you ever want to do something like that? You just killed that person's dreams. You just made her, her or him another slave. Now, how are we going to change ourselves from doing that? If we don't go inside and say if I do something like this, what does it feel like? And if you don't want to live that way, then don't do it anymore. Make up your mind that you're not going to do the things that stop you from getting to the point where you can create money out of thin air. If that's what you're desiring. What about love. You create love out of thin air. That's who you are your total love, from God's perspective, but you have a free agency that's taken you a different choice. When it's time for us to say it's not doubting

what Q says or anything like that is why can I not do it? I'm not getting it done. What is there in me. If somebody you waiting for somebody outside to tell you, they're not going to be able to tell you because they got the same crap going on in their lives. They don't want to admit it. Neither do we want to admit that we're doing something wrong. comes a time when the desire to do things right overrides our own core belief systems that were inactive or were rated out of our desperation as human as slaves, just trying to have a life. This is why you say you go in, where do you go to go in, you go into your heart. And you learn how to control your heart, you learn how to listen to not control, you learn how to listen to your heart, control your mind, get it out of the way. It's all there for us to do. It's difficult because of where we are now and where we want to go. And not many people do that. It's not important to them enough to give up some of their garbage ideas and concepts, and incorporate new things that are more true. This is what I'm trying to say people. So I understand what you're saying, and I think you're really right on. But let's let what, what Q says be true. Let's let what's Q says put the thoughts in my mind. And take the thoughts from my mind and put them in my heart. It will change the whole way you live. You can argue you can you can tell God what you want your father to do ever been angry with God? Have you ever told him I don't like what you're doing to me? Well, okay, if you don't like it, then quit doing it. You had a question?

S Speaker 41:47

Yes, just to say that a training is required for that. And we were talking about Jeshua Jesus and the Ascended Masters you know, it's like shot Saint German Babaji and all of them, they have had some amazing capabilities, but what I have learned that they have been taught disabilities and skills in schools of mystery, and this was very intensive training, it was like kind of a Jedi training. So, yes, go with then yes, this is the first step. But then there are many following steps and in the future, and then changing the economy is one step and the other very essential step is changing the human understanding of life and the perspective that we have, and we can achieve this through spirits, spiritual teachings, and spiritual schools. And, and I mean, a new type of spiritual schools and finding it will be like, they send the coupons future prospects will bring this future temples of mankind to the present, where we can achieve our connection to the heart and to source. But it in my mind, it requires training, it requires practice, it requires discipline, and a lot of self, most importantly, self observation. Because we remove the patterns and the bad behavior or programming with self observation. I think this is the best way currently, of course.

R Ron Giles 43:43

I agree with you until we learn. Okay, what did what did you learn from your last appointment with with some powerful teacher? You learn? Well, that's a powerful teacher. But what is it that you choose from that and saying, what am I really god?

S Speaker 44:06

She's loving vibration, or her loving vibration?

R Ron Giles 44:09

Yeah. It's good. And yeah, it doesn't teach you how to do it. That's why you have to go outside. If you don't, if you're not listening to those people out there, you don't, they're all good. It's, it's not a problem. They're all good. But the reality is, if you go inside and start coming from your heart, your life will change. And if they're telling you to how to go into your heart and learn how to come from your heart, then your life can change. It's not just a warm, fuzzy feeling that you get. It's reality of changing. And those are the things that that we're facing now. If you don't know how to come from your heart, then do the commands. Take the thought As from your mind and put them in your heart, get rid of my thoughts, put them in my heart so that my heart can start telling me and making conclusions what needs to be done, how it taps into that quantum understanding of everything. And yet we don't? Is there a greater understanding from that heart than other people? Yes. Cuz it's personalized to you.

S

Speaker 45:27

I've been doing that. And eventually, eventually, I hope it will work. For the moment is practice.

R

Ron Giles 45:36

Yeah. Don't be hard on yourself, don't judge yourself. Just say, this is what I'm gonna do. Do the commands if you want to have something to help you, I would say commands. And, and tell God what you want. You know, I have a hard time talking about God. Why? Because they said deity, who do you think created the deity? You can't tell God what to do. You're a, you're a lowlife. You're just nothing? Why can you tell God what to do? That's a deity is a powerful. He's all this stuff is just like the genie in the in the movie. That is not who our Father is. And our father and mother, they're together. See, this is what I'm trying to say. The Kabbalists created a worshipping sort of scenario for deity. They took Jesus and made him a god. And now we have to worship Him. And we know we're gonna have a hard time getting to be like he is. And so damn, what are we supposed to do? See. That's the thought processes that they really want you to have. So that's, that's a problem that we have in right now. We were carrying around with us all kinds of warped and distorted ideas and concepts about the truth. But our heart knows where the truth is. So you look outside, and you say, all of that, that they're telling you as good or as bad as it might be. I've got everything I need right inside my heart. If you don't believe that, you're going to have the struggles. Every time I've heard a really good sermon or whatever. It doesn't tell me how to get into my eye and make me feel good. But it doesn't tell me how to get into my heart cues. Come along, says here's the commands use commands. Take the thoughts of your mind, put them in your heart. Take away everything from me, that's not part of who my authentic self is. That might include brain stuff that might include belief systems that are from the Cabal, those are the kinds of things that's the depth of the level that you're supposed to be at. So just really go into doing that sort of thing. That's all I'm saying. You know, it's just a platitude. It's just nice things to say, where to go. Q. Good job. That's what most people I'm thinking that I'm saying there's truth in what he's saying. There's a reason for what he says that reasoning comes directly from your Father in heaven through Q. Who is his representative? If you don't have if you have a problem with me saying, hey, then it they're not male and female at that level. And I don't mean to diminish women at all, I praise women have the greatest love for a woman hood. That's used appropriately. So we have it available to us if we'll just do that. I appreciate your comments in 20 minutes on one, one thing. So let's go ahead and move to the next question. I'm sorry.

C

Carrie 49:21

Well, we're on May, I had just one or two quick things to that. The command I command my spirit to give me all of me now brings us our legacy knowledge, the knowledge we've accumulated over all of our lifetimes. And for Elyra that knowledge includes the steps that you're looking for. So you might use that particular command more, you know, more frequently to connect you with that knowledge. And the other thing that I learned from Q is that I was focusing on The purpose of my doing doing my programs waiting for the redemption. And he took me through a process to focus me on the purpose of my being. And he said very clearly when you are focused on the purpose, and I use of your being the resources come behind that as a match to that. And it goes back to the frequency we were talking about last week about the law of attraction and the quantum physics, of drawing to You that which you resonate at what frequency resonate. So forget focusing on who we are, in our essence. And what brings us joy and inspiration, as he keeps saying excitement, that is the stepping stone to the resources coming behind that. So then I had it backwards. And I think maybe, you know, I'm not the only one that had it backwards.

R

Ron Giles 50:57

Well, the reality is, is that there's changes that can be made. And if we're not willing to change our own thoughts in our own minds, even right down and deep into the core belief systems that are not accurate. We're going to change, we can't change unless we do that. You know, I'm getting into the national real estate listing service, I'm saying that was not fulfilling what we intended it to be. So we're going to change it, I have to change it. Because it's not in harmony with what I want to have as far as the alliance is concerned. So we're preparing ourselves to do the life's work. And so I have to change that make those changes, because it was not accurate. It's accurate thinking for the time, but it's now a new time. And it's accurate for our past, but now we have a chance to make new changes. And so that's in the reality of where we're living and creating the golden age of mankind. That's what I've been trying to say. Thank you for your comments. Carrie, I appreciate it.

C

Carrie 52:06

Segue Ron into our next topic, just for those of you who joined us after this was mentioned, the bullet points for today are pinned at the top of the rooms. And we're up to wealth management. Number two, be enjoy the abundance mentality or consciousness and the law of attraction. It's the focusing on what you want, that brings the results that you really want, I'll always have a sufficient for my needs and more focus is the key and focusing on adding more, which will then allow us to share with others. So right there.

R

Ron Giles 52:47

Yeah, we can we can we can go for one more. Let's, let's go through the law of attraction.

C

Carrie 52:56

Okay, would you like to start with that first section, then focuses, actually, is really what that section is talking about.

R

Ron Giles 53:06

Okay, let's, yeah, there's some things that I'd like to say. There's something about the abundance mentality that we've been lacking in our life. Because it's a belief system in lack that's caused the problems for us. And changing your minds, change your thoughts. Change your thoughts. Change your mind, change your life. I think it was Wayne Dyer was saying something like that. Very, very good. So we have things that we don't want. If anybody's familiar with Abraham, Abraham talks about this, well, I didn't want that. Well, then why'd you create it? Well, I didn't create it because she did. Or it wouldn't be here. So you gotta realize that you're creating things that you don't want. Well, then let's start focusing on things that we do want, I will always have sufficient for my needs, and more. If you focus on that, I have up on my wall, things are always working out for me. I see that every day of my life, things are always working out for me. Therefore, I'm going to receive the things that I want in my life. And I learned how to do that. And so I always look back and say things are always working out for me. It's going to work out. It's there's nothing that I try that I can't that I can't accomplish. Focusing is the key. And I've said that time and time again, focusing on adding the more that you allow, that allows the sharing with others, focusing on things that you want to create focusing on things that are Essential to you. Now, what, what my neighbor just said about me is, has really nothing to do with me if it's negative or positive. I can focus on what I want, and focus on the things that I'm trying to create. I can take into other stuff occasionally, and I do. But I've listened to very few videos, please don't send me videos with Fleming or Jayco, or whoever, because I'm not going to watch them. They're really nice stuff occasionally. And sometimes they're just flat out lies. But I don't need to know about all of that stuff. Because that's not what I'm creating. I focus on the things that I want on the things that I am creating in the things that are in my process. So if I do not do that, then what am I recreating all the same stuff that was so easy to believe in the past? Now, it's, it's really easy to now and I'm recreating all those things that I believed in the past? Well, if I'm not happy with what's my life is going on now, then where is the problem? It's back there, bringing it forward, focusing on that stuff, and recreating it in the next moment. Or two moments, then I get to recreate it for the next three or four moments. And then I get to focus on it again and create a life out of it. And what kind of life do I have? That I didn't want? Yeah, I did create it, because that's what I was focusing on. So there's things there that are really true. Do you want romance? Go ahead with the law of attraction, or do you want to have some questions? Coming?

C

Carrie 57:03

Up? Let's let Kelly ask her question. And we'll go from there. Dan, are your mics open?

S

Speaker 57:09

I wanted to ask if it would be helpful. If we called what some may think of as garbage that has been done to us over the years without the brainwashing. If we refer to it as baggage, just old baggage or old clothes are all things we don't need anymore. And you just get rid of it. Just dump it and focus on the positive, the good what's happening now and don't do anything that

has anything to do with the past. Forgive yourself and forgive anyone in the past that didn't anything wrong with you. That's what helps me. And I thought maybe that might help others. And thank you. For all you do.

R

Ron Giles 57:51

That is magic. Thank you for that comment. Let's call it baggage instead of garbage, baggage we carry around with us. And it may or may not be. And if we go through our our baggage, then we can eliminate the things that we don't want anymore. I like the things

👤

58:09

we don't need.

R

Ron Giles 58:12

We don't need Yeah.

S

Speaker 58:13

And bless you. I love you so much. You're so wonderful.

R

Ron Giles 58:18

I appreciate that. That's kind of you to say. And obviously I feel the same way for you. Thank you. You're welcome. You're welcome.

C

Carrie 58:29

One more Kelly, your mic is open on our end now. Go ahead and open on your end. Kelly. Okay, I guess she's having trouble getting it open. Alright, Kelly will come back to you raise your hand again. And we'll come back to you when we open up for questions. Again. All right. So back to the bullet points. We're up to the law of attraction, the universal law that we use, every day of our lives, we use this whether we know it or not. And if you don't like the things that are going on in your life, then change your thinking, to attract the things that you do want.

R

Ron Giles 59:10

You know, we all have this idea. Poor woman marries this guy. That's a real jerk. And why did she do that? So they get a divorce. And she finds another guy that's just like him. It's the law of attraction. You haven't changed. So you're going to get the same thing that you had because there's no changes. You're recreating a new relationship. And you think it's gonna be different, but you haven't changed. So you're attracting the same type of person that you just got rid of.

It it's have we all seen that? Am I the only one that can see that? No, we can see it in others. And yet, we refuse to allow it to be part of our lives. And why are we having things that we want more abundantly in our lives? Well, we're attracting who we are the kinds of people, like attracts like birds of a feather flock together. If you go to the bar and trying to find a husband, you're going to find a drinker that then he's a Krauser, whatever. So why would you go there and spend all your time and focus on that? Because that's what you're going to attract. So there's, there's thinking processes that need to be changed. It's a process of thinking, Where do you want your thinking to come from? go within and see if you can activate your your heart that has been so left out in your life. Get rid of your brains thinking. Get rid of your brains thinking and making conclusions and making you choose things from that perspective rather than from your heart. So that's a key factor there. Okay.
