

September 27 - Wealth Management #3 Part 1

📅 Thu, Sep 29, 2022 10:41PM ⌚ 51:43

SUMMARY KEYWORDS

money, create, people, ron, life, wealthy, energy, cabal, alliance, god, exchange, thinking, positive energy, receive, questions, humanitarians, bullets, churches, misconception, greedy

SPEAKERS

Ron Giles, Speaker, Dominick

R Ron Giles 00:00
Okay, Dom, I understand we have a wealth management program that we're going to talk about today. Was it the fourth one or third one?

D Dominick 00:08
The third one wrong? It is allowing yourself to be wealthy.

R Ron Giles 00:13
Okay, I love this one.

D Dominick 00:15
Yeah, I gotta say, when I put this together on just, it's just such a great topic to talk about. I know as we go through these bullets with you that there might be some people that get their hands a little sweaty and might be a little bit nervous about discussing this. But I think if we get this to go all the way through the process of understanding, you're going to find that it's a really, really great topic to discuss. And it's, there's a purpose behind it, which I hope everybody does get. So thank you for allowing us to present this today, Ron, it's also

R Ron Giles 00:48
my privilege. Thank you. Thank you. Okay. So there you are, Carrie,

D Dominick 00:54

Carrie is going to take over after the first page. So we'll go ahead and get started. Just a reminder to everybody that we're going to run through a series of bullets that have been pinned up on the main chat room, if you want to follow along. We'll go through a couple sections and allow for questions and try to keep the questions as very specific and succinct as you possibly can. So that it allows other members to get on and, and be able to ask questions as well, this particular topic, even if you have a discomfort about it doesn't mean that you can't ask a question to Ron, and I'm sure he would be gracious, and looking forward to answering that question for those questions for you. So with that, we'll go ahead and get started.

R

Ron Giles 01:37

Okay. All right. So, yeah, So

D

Dominick 01:40

Ron, so you know, allowing yourself to be wealthy. And again, these particular bullets come right off of the website, everybody. So if you need to get a refresher, go on the website, look under the wealth management series, and you'll be able to follow this pretty much exactly to the notes that I've put in here, give or take a few changes. But Ron, with regard to this concept of being wealthy, there's a misconception out there, misconception is that money is evil, and trying to find ways to make money is bad. And then there's another misconception that says it almost makes it feel like that we're not supposed to be financially free. And then the third concept or misconception would be is there someone or something stopping us from being wealthy? Would you like to make comment on these three things?

R

Ron Giles 02:27

Yes. Well, I like to draw in a little bit of history. Who is it that doesn't want us to be wealthy? Who is it that has distorted our entire financial system to create slave and indebted servants or slaves to the Cabal? And how did they do this? Well, they they started a long, long time ago, and they have become very, very effective in this. Now they even have the churches saying filthy lucre, we need money to live by. And so if you if you think that the money that you need to live by is filthy lucre, guess what you're doing, you're creating a set of circumstances that are not consistent with who you are. You're, you're giving away your life's essence, by not being available to receive it. And in doing so, you're falling into the hands of the Cabal, and that's how they control us. Okay, so that's the concept of money. It's filthy lucre. Don't seek after it. Don't you know? How can you seek it? How can you not seek after it, if you've got a job? What is your purpose for being there, you might enjoy your job. And that's a good advantage if you do. But you're there to make money so that you can live a successful life with your family and raise them. You have to have money. If you don't have money, then you have chaos. You have credit cards that you can't pay, and eventually you're gonna have to go bankrupt. In order to get out from underneath that. Then they just stick with that long enough and they have to do the same thing again. This is all part and parcel to what they're doing. If you have money, then you cannot be controlled. And so who doesn't want you to have money? Is it God? The only one that's left is the Cabal. And they set up this the central banking system for all of this. Now, they want you to work for other people. Rockefellers made that statement. We're not teaching you things to them. help you to start a business. We're teaching you how to

be good employees, for those who are the wealthy, and you're going to spend your life's essence making them money, while you just get a pittance of what is available and for you to do that same kind of work, but under a different set of circumstances, you're not going to get the money that you need, because they are taking the money from you. Now, if we look at that, from that point of view, then we say to ourselves, money is not filthy lucre, I need finances to take care of my family. So they are lying to us. And anybody who promotes the concept, that money is filthy lucre are part of that program. I totally dismiss them. I just say that's enough of that. We're finished with you folks. Good luck and the word they're taking you where you're going to go. And if you think filthy lucre, you're gonna be tasting filthy Luca for the rest of your existence in a third dimensional way until you learn how to get along with people, and not have power or try to have power over other people. And this is the process that these people are doing. They're there, they have taken away our ability to read, receive communications from our Father in heaven, mother, father, God, they have done that specifically so that they can control us. Even the churches always have somebody that's a preacher or a minister or somebody that's coming over and teaching you from their their knowledge and their understanding of what they went through high school or go for their universities. If you don't have a degree, then sometimes you can't be a minister and some of the churches will discuss God work that way. I don't believe so. It's a personal thing. It's not an education. Yes, education is really good to learn stuff. But what is the education teaching you if you pretend like you're the one that knows about everything, and come follow me, Jesus said, do greater things than I have done? Shall you do? Well, if these people are put in a position because of their education, and whatever, and so we want them to, to preach to us on Sunday, and we can go home and go about our work and do the things that we want to do. And then come back the next week and the same person. Sarah's going to teach us another story. I don't mean to say story in a negative way, because I believe there's there's always good stuff that comes from those people. But they're not going to give us the the essence of what we need to raise ourselves up and go into the ascension process. Why? How do I know that's true? Well, how many people do you know who have ascended? How many people do they know who have ascended? And if they're teaching people to ascend, why are they not joining those people? So let's take a real good look at the waste the circumstances All right now. If you think it's filthy Looker, you're not gonna get any. Because your essence is not there to go get something that's in, out of harmony with who you are. And that's the way you're presenting your life. And that's the way your belief system works. So they're going to do things in harmony with that. That is added correct principle. That is what you are creating, that's what you're going to receive. You're creating your daily life, by your thoughts and your ideas. And your and your read, you're gonna get the hell they say this. You ask the Alliance or the universe brings forth and and if you don't ask for the right things, then you get what is kind of just coming your way. You have to be proactive, you have to make the changes you have to do things on your own. Otherwise you're just going to go to church on Sunday and then go home and and kick the dog and swear at your wife and tell the kids to get out of the house so you can have some peace and quiet and that's that's is that the life that we want is that the life that the this life that the cabal wants us to have. They don't want us to be able to do things. So when you when you approach your life's experience with there are no negative things that you have to put up with. And we focus on them all the time, we focus on making money, we focus on how we spend the money, we don't have enough for that we can enjoy that. We can't save up for a vacation, because we don't have enough money to do that. So we just have to hunker down and put up with life the way it is right now. And there's never a hope for change. Those are the destructive things that are happening to us in our life. That's why things are changing. So allowing yourself to be wealthy? Well, that's kind of a dumb thing to say, when you say, how can I allow myself to be wealthy if I don't have the money? Well, along comes love wants society and alliances and the Zimbabwe bonds and, and the other bonds that are available for us to use as well. All of that is what are has been given to

us. And that is why they say we need to go through this wealth management stuff. We need to learn how to allow ourselves to be wealthy. Because when you go through the RSS program, and you've got your six trusts and put them in place, at 70 cents per minute download, has \$7,000 a week. Now, if that's not going to make you wealthy, I'm not sure what it is, but \$28,000 a month for your income for one person. And if you're married, then that's \$56,000 a month, you're going to get wealthy. You won't be able to spend that first little while you have it. But you may be saving up for a home. How do you allow yourself to be wealthy, meaning that I am self, I'm deserving of this. God does not have lack in his mind. And we live in lack. So what is going on with the earth? What the hell is going, Oh, we're living in hell. That's why it's here. We're not living God's ways of doing things. We're trying. But if we don't get the education to learn how to be wealthy, then we're going to have some problems because we are going to be wealthy with the RSS program. And so the idea here is it will if I can learn some new ideas and concepts and allow them to be true, or allow them to be true. If I sign up for the RSS program, I own an account in the revenue sharing solutions platform, I personally own and account as a benefactor beneficiary, excuse me, that will make me rich, rich in comparison to what I used to be, you get to the point, you'll eventually get to the point where there'll be so much money that you have that money is not important so much anymore as a major thing as it is now. It's just a way it's going to happen. It's going to happen are you going to allow it to be yourself to be a part of it in a in a proper way so that the money that you do get is going to bring you the joy and the happiness that you want? Or are you going to go out and make yourself a drug addict because got plenty money to do everything you want to do. If you want to spend it that way you can spend it that way, who's going to stop you. However, if you have a chance to get out of that, then you will because that's not the way you want to live. And people are telling me Well, everybody's gonna, people are gonna want to get their drugs and do all that sort of stuff for a while. It's not lifestyle, they're going to do it for a while, and then they're going to say, this is not, I've got plenty of money, I don't have to live like this. I can go and get myself fixed up if that's what I need to do. If I'm a broken person, then I can go get myself unbroken and become functioning in a productive way again, and then they make the changes. But you have the wealth to do them. So I you know, give me your all of those people who say wherever they can make the drunks out of people, or we're just going to make lazy people out of money that we give them. Well, we've been told that the wealth management program has to be in place before We can do our launch our RSS program. So this is a major one. Allow yourself to be wealthy. Allow yourself to have the concepts in your mind that make you make the decisions that will, I shouldn't say make you that will help you make decisions that will bring joy and happiness in the use of the funds. That's what the wealth management is supposed to be for. And so that's the beginning. What was the next one?

D

Dominick 15:35

Well know that that pretty much covered the misconception, so we can move into the bullets, if that's

R

Ron Giles 15:39

okay. Okay, sounds good.

D

Dominick 15:41

Ron. And before we do, would you mind if I took a minute just to kind of add something to this comment that you just gave us,

R

Ron Giles 15:49

I have no problems with a brilliant man adding to my stuff.

D

Dominick 15:53

And I actually got this from doing the Bullets Over the weekend, I received an aha moment. And for everyone here that when we go through this particular wealth management, number three, discussion, I totally look at this a different way now. And so here's how I look at it. Understand that with wealth involves the ability to have an abundance of money to be able to transact from to make transactions with I found out over the weekend and doing this and putting this information together and doing a little bit of research. That money is actually like energy. And Ron, you even we're even going to cover it in the next bullet. Money is actually can be considered a form of energy. The more money you have, the more positive energy you create. And so for every transaction of money, and n the amount of money that is brought in to transact with creates an abundance of energy. And so why would we not want as much wealth as possible, dispersing it amongst as many people as possible to create massive amounts of positive energy. And so where we've gotten in trouble for many generations is the fact that money has been hoarded by a small percentage of the population, not given truly to the people for the purpose of abundance, that hoarding of money and socking it away, so to speak. And suppressing money so that we can't make money to our ultimate limits, has actually suppressed and hoarded positive energy. They haven't allowed this energy to escape, because they knew what it would do once it did escape. And so now what I got out of this aha moment was, we actually should be comfortable and passionate about asking for as much wealth as possible, because for every transaction, this wealth occurs, creates transactions of positive energy. And once we as humanitarians are out there doing that around the world, that energy won't be able to be stopped, because we'll all be on an equal plane, transacting money making more money transacting that money, which then becomes nothing more than a transfer a constant transfer of positive energy. Am I kind of close on that?

R

Ron Giles 18:16

Oh, you're right on it, if I can add some things to that that may be just a few little steps along the same line. I'll go right ahead. I love it. If I if I get involved in making money, let's go back. The Alliance has created the quantum financial system. The theory of the quantum consciousness, that's God consciousness, divine consciousness has created all of this stuff. Don't ask me how that happened. I just sit here and say, Oh, well, he did. So there it is. And that says, be enjoying it. Because I don't know how quantum financial quantum consciousness really does that sort of thing. But I guess it's matter and organized and they organize the matter. And there it is, and all that sort of stuff. And that's okay. The Quantum financial system is a brand new money. It's never been used before. It's made or it's an extension of the value of gold. And we've gone through this before the gold kilo that has a serial number on it. And they create a digital gold certificate for it's valued at \$1 or one yen or whatever it is. And then that's an extension of the gold and the value is there in back in the gold. So what we're doing is

creating a golden financial system. It's gold back, yes, but it's a golden financial system. Now if we consider this energy, like you did and did a marvelous job with that, the energy is not just just energy for an exchange, it is love energy. In its purest form. We have we call it some people call it filthy lucre. What a damning experience that is for you to get this kind of money. And then you think it's filthy lucre, you are totally out of bounds and totally denying the value that God has put in putting on a medium of exchange. So that when you take that money, I have a dollars worth of love here, and I go to the store, and I buy a candy bar that somebody else has created. But I'm exchanging love for that. And I'm exchanging their essence of what they did to receive the funds. But I get the enjoyment of the use of it. Every con, every transaction, then, is an exchange not of money. It's an exchange of love energy. That's an extension of Prime Creator in our financial institution, created for this specific purpose of exchanging love energy, instead of filthy lucre, for the things that we want in our life, is it not easier to create a loving and joyful experience? When we're using love energy, for the things that we want, things that we receive? Yeah, that's the way this is, there has never been this much love energy injected into a medium of exchange in the existence of mankind. It's well for us here on this earth, especially. Because we have been, it has been so distorted. We haven't, we don't even know or have a clue of what's really going to be taking place. But I'm telling you that this is the new love energy exchanging for things that we want. We created out of our loving energy, unless we're greedy, and all that sort of garbage that was created by the Cabal to stop us from having harm. And I don't want to be greedy. But I'm only going to ask for \$1,000 00, what gives you the right to ask \$1,000 When they the you can ask a million for it and get more out of it and then giving you the Zim to do that. And you don't do it, then that's a waste of your Zim. As far as the alliance is concerned, if you don't ask for the higher rates, you're not going to get them because I'm going to be too greedy. I didn't say it out loud. But Bs is an acronym for that. It is a bunch of crap. So we have the greatest opportunity to participate in a specialized way of exchanging love for everything that we do. Never happened before. We've never had money that is not filthy lucre. This is pure gold. And we're using it for to create the joy and the happiness that's available to us as children of God. Do you think God has to use that kind of money in his existence? No. And is it not just the way that we're going to go through this all and the end result? So we won't need money? Is that what's going to happen? Where do they not need money? In the higher realms, I suppose yeah, let's let's let's go for that. Let's allow that one to be true. Let's allow ourselves to say, hey, we're going through a system here that's going to change us and we are going to be in love with what we're doing and who we are and everything about what we are creating. Love is going to be the way we live and that's because that's who we are. Were pure love created by God given free agency to use that agency for whatever we feel is right. You're never going to be punished for it. You have consequences but there's no punishment from God because He gave Have you the free agency to make those choices, and he doesn't give you what choices you have to make, and he has no value judgment on the choices that you make. So don't be thinking that God's going to judge you. It's not he's not. They're not whoever it is, they're not going to judge you, you judge yourself. And therein lies the pitfall of that whole judging process. It's not God, there's no punishment. I'm going to do everything I can to go back to heaven and live with God. What do you think you're going to do? Just trying to start to destroy that. There's nothing you can do to in your life here in third dimension, which is a 70 year period out of eternity, and you think you're gonna screw it all up in one lifetime? No, it's not the way that works. Just simply not the way it works. We are going to have the pure love and use that for exchange of things that we need and want. And that's the way humanity is supposed to work. So we're, we're going into it. That's the history of the problems that were associated with this. So let's move on to the next idea.

D

Dominick 26:20

Okay, well, that actually run it takes us perfectly into the next bullet. And so I'm going to cover the next few bullets, and then we'll open up for questions if anybody would like to ask. So Ron, then, with all this conversation, as we start this, today, discussion, that what is the definition of money, it's an exchange of energy expended, we just covered that you just did a great job and expressing it. When you work, time and energy are expended in order to accomplish the tasks of that job. The reward for that accomplishment is increments of money. And then once you receive that money for the job that you have worked, then you can exchange that through time and energy to those that produce a commodity or a service that you want. So it actually becomes transactional once you earn the money. So any comments to that?

R

Ron Giles 27:08

Well, it's right on if you just start the whole process with having a bad feeling about money, and it's making it a filthy lucre, then can you see where the cabal is doing that you're playing into the cabal is way of doing things? When you're going to change? When are you going to change? Are you still a slave? Or are you a child of God? God did not create slaves. So we have it in our minds, that there are certain things we have to do. Let's cleanse our mind of all of the Aeron thoughts that are going through there. Let's do our command. I command Prime Creator to take the thoughts of my mind and put them in my heart. If we do that, then our minds will silence slowly silenced down and let our hearts start making decisions for us. That will bring us the joy and the happiness. Therein lies the community of God. Not the communities that the cabal has created, not the economy, economic system that Cabal has created. We are changing everything. And so there we go, we get to change everything. Are we going to do that? When we change everything, how much of the old stuff? Are we going to drag into the new stuff with us? What part of the Cabal Do you really love that you want to make a part of your new life? That's a good question. Because many of us don't know what we are creating because we are creating from things of the past and carrying them into the future. In the moment right now, this is a present time that is going to create the future for us. If I have to spend time thinking about the past and recreating that in the present moment right now, and then when am I going to get rid of it in the future? How many two by fours is is God have to get to slap you upside the head and get you to start thinking about what you're doing? Are you going to be one of those who are not going to make it because you haven't changed your mind? Change your thoughts change your mind. Change your Life. Now is the time to do that. Why? Because there's no opposition to us. The opposition is going away, we get to come from our hearts and create our future. I'll say each individual for their own reality. But collectively they work creating the golden age of mankind. Now, how many, let's take percentages, how many percent of humanity do you think is going to make it through this? I've heard that all of a second ascent. But those are the is all of us that are ascending to the only the ones left. And all of the others who have been destroyed or taken away. We need to we need to clarify in our mind in our thinking, what is it going to take for me to ascend? And if there's a guarantee that I'm going to ascend, then it's meant for me then? And can I ascend? Well, I, I still beat my wife and swear the people pass in front of me in the car and delay in the on the freeways. You think that that's, that's ascension process? I think you're qualifying for that. What about the way you do business? What about the way that you don't finish your work? When you're getting paid to do it? Do you think the people who are cheating and lying and stealing and doing things that they know they shouldn't be doing? But they're doing it anyway? Because they think I don't have to be honorable to those kinds of people. Well, who are those kinds of people that you're dishonouring? Maybe some of those are really good people. And you don't know that because

you don't have the ability to, to know from experience that they are good. How many of them are going to change, everybody gets a chance to change? How many of those are going to change and ascend and you're just sitting here telling them how bad they are? Where are you creating for yourself? Are you creating a nice life experience, you're going to have to participate in the purification process, the total cleansing of all of the negative activities. If you spend your day thinking about things from the past, you are going to create from the things of the past for the future. It's the creation process, that what you focus on is what you're going to create in the future. If I have a complaint about our people, it's because I'm hearing them, they live hand to knee operations. And I've had this and, and my husband is passed away recently, and it's a pity party, you're going to carry that into the future, that's what you're going to do. You're gonna have your pity party. The old people get around together and they talk about their wounds and their and their heart failures and their and all the things that they got to go through in life. That's what they do. And then they then they pass away and they wonder why I thought Jesus was going to be maybe there. I don't know, that's not my position to judge. But I do know that if you get together and talk about those things, then you're going to die from the things that you've got, because that's what you recreate it for yourself. How many of those people would say, I'm an eternal individual, I don't have to die, I can ascend. So I'm not going to sit around with you folks, and hear about all your negative stuff. I gotta go find me some people that are going to send now that's kind of mean but that's what it's like, when we make up our minds to change them, we've got to change. And if we don't change them, let's go back to the old hotbox home and and recreate all of the things that have happened bad in our lives and and see where he gets you how much joy and satisfaction life you're going to have with that. I don't think you're going to have a be happy. So as I said about that, let's let's go on.

D

Dominick 34:37

No problem. Thank you. Thank you very much.

R

Ron Giles 34:39

Help me touch back.

D

Dominick 34:41

Oh, good. You're good. You're in good shape. You're good shape here. So okay, with regard to the conversation we just had about the exchange of money and how that works. So the question and comment to the next section of bullets would be so if we're earning our ability to receive and transact with money, how can that be evil, how can that be considered evil? One of the answers that you've put out there in in the video was that one of the edges could be greed. The lack of money can sometimes create an abundance of greed as well as if you try to hoard or suppress money from allowing others to get it can be considered greedy. Greed is the filthiness of money, not the money itself. And then money's not the problem, money being used for unrighteous means is the problem. care to comment on that?

R

Ron Giles 35:30

Yes it was it was saying that was that me?

Yes, it was, it was saying that was that me.

D

Dominick 35:34

It came out of the came out of the wealth management series. Yes.

R

Ron Giles 35:38

Okay. Yeah. Moments of moments of pure thinking, Okay, I understand those things. As we go through our lives. If we if we focus on the things that we've learned at a church that are that are not, you know, our highest and best good, then it's gonna be really hard to change some of those things. And sometimes people's lives are so involved with their religion, that they fail to see where there's some adjustments that need to be made. And it's in those adjustments that need to be made, that you start receiving more inspiration in your life. And if you don't respond to it appropriately, then it stops happening for you, you won't get those kinds of thoughts. Because the heavens say, well, they don't want those thoughts. They want these thoughts over there. So they start passing along to you, because that's their job is to get what you asked for, they get what you create. And so they're going to be spending over time in a negative sort of way to, to satisfy your hunger for the bad stuff. That's just the way life treat you. Once you understand that, that's the way the heavens work, or the universe, or whatever you want to call it. Once you learn how that that's learned that that is the way that they they respond to you and your requests, then you have a chance to change. And that's what I'm saying. We now have a calling from God as humanitarians. Which of the humanitarians are going to fail God and say, I'm not ready for this kind of work yet. No, he's gonna settle Why don't you think? Well, I haven't been able to do this, why haven't you been able to do that? Are you not receiving the love that you're getting for that? Well, I'm probably getting some but not enough to make me feel like I'm need to change. Well, then you need to change your life, change your thinking, change the way you do things. Because you will recreate what you've got in the past. And that will be your future for you. So things can change, if you will change. We're here to give you a very positive approach to life. The abundance mentality is what we're aiming for it we've talked about that last time. Are we really abundant in our thinking? Because there's no lack mentality? And as we ascend, we're going into a place where that's not existing. And how long do you think you're going to stay there if you haven't changed yourself? I'm carrying on here a little bit. But it's obviously something that's very important, or I wouldn't be saying. Sometimes people think well, Ron gets on these rants of these things. That is, that is the spirit that's moving through me. I hope you understand that. In effect, this is what God wants you to hear right now. Why? Because I turned myself over to the spirit and let the Spirit do the talking. And inevitably, it happens. It's happened in the past, it will happen in the future. Each of us now need to be in that position to where we are. Our proclamations of things that we talk about are coming from spirit, from who we really are instead of what we're trying to be and they're not. So, try, yeah, you know, you can't try and not succeed. How did they say that? You can try all you want, but if you don't complete it, then it's not going to work. So quit trying and get it done. Make your changes and you know what they are. I'm not preaching to a bunch of videos about preaching anyway. But the idea is that you know what I'm talking about to be true because the spirit is telling you that. Now I'm just simply saying well, you Do it when are you going to make the changes? Not one of us. In loved one society realizes that loved one says the the Saara just Saara the redemption plan. The whole, that whole scenario is dependent upon people in loved one society, making the changes that will say it's now ready to happen. Do we realize that we are the ones that we're waiting for? We are the ones that can get it done. We

have been called a God to do that. Are we responding to the call? I see some of the most ridiculous things that happen. That people are recreating all of the negative stuff in their life. And they're wondering why the money isn't here. Or wondering why what did I do wrong to get to so we have to continue to wait. That time is not the problem. It's the events, it's the things that we have to do that we're not doing now that we need to get done before the real redemption can take place. Who's at fault that some people are swearing at the Alliance because they're waiting for something, they're waiting for us to get our shit together? I said that very forcefully, because that is the way that's happening right now. We can shorten that time for the RV to take place in a matter of weeks. If we will get our stuff together. I'm having people having problems. We got questions and questions and questions and more questions and more questions and more questions that we have to take time to answer because these people who are coming in and those who have been here are not getting them self educated as if this is something serious. And then they're swearing that alliance for not getting to giving us the money for the RV. It's not going to come until we're ready. It's not going to come until we are safe and secure in ourselves and know who we are so that we can be given the money and share that with other people. This is a reality check. Brothers and sisters, ladies and gentlemen. Magnificent humanity, terriers. This is reality. They're waiting for us to get our sales put together. We're waiting for our sales to spend time on the the qf s and 2020 and find out for ourselves what we are going to need to know to function as a humanitarian. We have been given this from the Alliance. Is it really serious to you? And then we get these these questions that are obviously from new people who have not read and even perhaps even started. The \$10 is a big one. Where do I pay my \$10 I'd like to be a part of loved ones, his hiney RS has program. There only think of the money we got to get over that. We've got to get over thinking about the money and thinking about that project. So we wanted to do and it's not up to the Alliance to provide for us. It's for us to prepare ourselves to receive it. This is a little bit of a scolding. And I've been told not to do that but I'm telling you now. If you're not going to come up to the plate, don't don't bring your bat up to the plate and expect to or not expected swing at the ball. Most of us are going to go up to the plate. Well I didn't bring my bat I guess I can. I guess I'll either strike out or walk. You know you're not prepared and it's time to get it done. It's Trying to get it done. So we can get about father's business. There's people starving all over the world, and you're blaming it on the Alliance. You are warped and distorted. We're the ones that are stopping that from happening, because we are the ones that have the calling to get it done. The reality is we're going to get it done. We're going to work at this. And work at this until we get it perfected, to the point that they cannot deny us the money and deny the RV that taking place. And denied and Asara and just sorry to be the law of the land, so that we can do our work without having these bad guys around telling us we can't do it. If we don't take it upon ourselves to do it ourselves, and then who's going to do it? There are those who will do it. If you want to be part of it, then you have to go ahead and get yourself in mind in in the group that are accomplishing. Wow, damn, I went off on that one, didn't I?

D

Dominick 46:25

Yeah, actually, Ron, I'm gonna I'm gonna make you laugh, I think on this one, because we're at a point right now where I'm wondering if there are any questions. So I hope they are I hope there are plenty of questions, but now that was fantastic. And if anyone has questions, please raise your hands for Ron. And if not, we'll just go right into the next section. But Ron, I thought it was awesome. Well said we've got we've got some hands up. Okay. Yeah, let's go to Patriot priestess. Your mic is open.

46:59

Hi, Ron. Ron, I just wanted to say that was that was awesome. Thank you, I want to give you some confidence with my own personal story. So I've been with lump one society for about eight months. And I got started and jumped in pretty quickly as far as getting my projects in order and trying to understand the programs. So I feel like I have a really good understanding. And I want to also, thank you for giving us confidence with the rates, because you mentioned it so often. And you usually give us some great advice as far as digging down. And then with the addition of queue as far as being more confident in in our authority for you know, the jobs that we're going to have to accomplish. That's been really helpful. But anyway, to make a long story short, I had no problem writing down the 500,000 in my plan and putting it on my introduction sheet for my write request. As we continue to move through the programs, and I attend continually attended the calls, which I've been on every one that I could possibly be on. I changed it probably four times, well, I just want to tell you that I've been here eight months, and I'm well up in the millions for my rate. And I have no doubt that that is what I deserve. And that is what I need to accomplish all that that I've I need to accomplish. So I just hope that maybe there's somebody out there that's questioning it that will today go in their introduction page and change the rate.

R

Ron Giles 48:38

You know, patriot, precious, precious, that's a beautiful word for you. Nicely, nicely put, and

S

Speaker 48:45

pray for me, I'm in the town that the storm is going to hit?

R

Ron Giles 48:49

Oh, well. Let just just let it just pass over. What you've said is is really true, and I appreciate it.

S

Speaker 49:00

And so much for all you do, we love you.

R

Ron Giles 49:03

There are new things that are coming. New things that are coming, we are not stagnant. They are meaningful, and they are going to require the higher rates for everybody in the world to have a house. Yeah. The NRELS program has been changed. So

S

Speaker 49:28

I know that you guys are working hard on that. And I'm excited to see what it ends up with. But

um, I'm excited to be part of all the projects plus I would love to I want to donate to the alliance. So I'm like how am I going to possibly do that with 500,000? You know, I'm trying to make this calculation in my head even though there's so many zeros I can't do it anyway. But um, when I started to think about and I was like yeah, there's there's there's no way I need to get up to to where Ron is thinking and a multimillion so anyway, yeah, that's what it needs to be.

R

Ron Giles 49:57

And then with all was said and done. We're going to go through another series of SK ours, starting on

S

Speaker 50:06

Sunday. That's exciting. Thank you.

R

Ron Giles 50:10

Yeah. And you don't lower your rate with the new stuff. Just leave it there. And that's what I that's what the Alliance wants us to do. The rates that you have already chosen from your heart or God into your heart are the rates that you should charge for every redemption bond that you want to take in and redeem?

S

Speaker 50:33

Well, thank you so much for your guidance, which is the main reason for my comment, but I just wanted to tell you that that I've changed it many times. And I feel like that it was from learning. So everybody does need to put their heads into what we're doing instead of, you know, memes and other things that are really not necessary for where we're going.

R

Ron Giles 50:53

Yeah, we get on the chat room and find out where, where things where people aren't, you know, there's, there's a lot that a lot of conversation is being avoided, if it's avoided as the right word, that they're not going to that could really be helpful for us to understand some of these higher principles, these higher ways of doing things. So I look at the, the, it's not a condemnation, I'm just saying there's a lot that we can do. There's a lot more that we can do. And as we get a little bit more down a little bit more, and then a little bit more. And then finally, we've eaten the whole elephant, one bite at a time. Absolutely. We didn't gain 2000 pounds. Thank you for your comments. I appreciate it, my dear.

S

Speaker 51:41

Thanks for letting
