I'm fantastic. You know, I love you, I call him a ranking, the brand spanking. So I put those two words together, and I call it the ranking. Because every time you really help us see what we're not seeing, I get a rink, I upgrade myself to a new perspective. So one of the things I want to really thank you for is, when I first came to LWS, and I learned about the programs, the first thing that came to me was to target, you know, lower income areas. And then I listened to one of your videos where you said that the RSS is for everyone, and why would not we not consider who is considered wealthy now? So I really thought about that. And I noticed my judgment. And although it was very subtle, it was fair, because why would I immediately think about lower income neighborhoods without thinking about everyone. So I just want you to know that the things that you share, do not go on deaf ears. You know, you're really helping us tune into what abundance really is. And another thing that I that came to me was my question, who actually has experience, true wealth and abundance? I'm not sure if anyone actually has no matter what it looks like in the old system, because there is always something hanging over your head in order to maintain what you have. So really, is everyone in that old system in survival mode was the illusion of welfare? And what we're coming into? are we experiencing what true wealth is through love energy? So this is all you know, I'm just sharing some things that came to me through listening to your videos, and you helping us tune into true abundance. And I want to thank you for that.

Ron Giles 02:24

No, bless your heart. I sure appreciate that. Those are kind words. And that just warms me. It's almost brought me to tears. Thank you.

Speaker 02:36

You're welcome. Love you all.

R

Ron Giles 02:39

Love you, too.

C

Carrie 02:41

Alright, let's go to a Lyra, a library, your mics? Open?

S

Speaker 02:46

Greetings, everybody. Thank you again. And just quickly, yes, this was very wise that you said that we create our own reality, and our thoughts and emotions dissolve. But still, there are some billion people on this beautiful planet planet of ours. And of course, we cannot control their thoughts and emotions, and we're in cohesive field. We live together, we share this planet together. And even here in loved one society, the people that we usually participate in, in the live chats, I believe, I've noticed probably three or 400 people core core people that always come to the chats. And basically, I think most of us out and have read and seen the videos of QFS2020.com And what I'm trying to say is that probably it's not us that we need the preaching can all this stuff, but the rest of the people who are oblivious, and I mean the normies and it's never confused. In every country. It's like this, most of the people have no idea about the Alliance, about the Cabal about the battle. And still there lots of protests and water for like running around the world. And also the stock exchanges are going down. And the cryptos are going down. Except XRP maybe which is kind of a sign. So who wants to do it due to I mean, this question might be blunt, but what do we do before the RV because we don't know how long it's gonna take. It might take two days it might take two weeks it might take longer, and most of us are on the Are what they're struggling with. I mean, barely meeting between the two ends, as they say. So I know prayer and commands is part of it. But we also have to be realistic, we have to pay our bills, and we need money to go to the store tomorrow. And I know a lot of people and myself or my family struggling right now. So what do we do if we have exhausted every other option to make funds, and I'm saying this, we're, we're seasoned mediators, we've been blinking meditation and spiritual work for about 12 years, we have been battling the Cabal, and the lens long before most of the people have had any idea about this. Without about the visualization techniques, I mean, me and my part. And what we are missing? Probably there is some hints some joker, you can give us here. Something is missing from the whole picture. That's my question. Thank you.

R

Ron Giles 06:10

Okay. Well, thank you. And I appreciate your your question. And as you were talking, I was kind of receiving on something that I can say, and the thought entered my mind. We say, well, these people aren't doing this. And with these people aren't doing that. We're trying to wake up everybody. And the reality is, why do we think that we are awake? on an individual basis? Yes, we might have some really good information. Do we have all of the information? Is there something that we're missing, because we think we know it all, and the others don't. And we've put ourselves in a in an elevated position between those who know and those who don't? And we find that those who don't know what's going on, they're oblivious. And they're living their lives as they normally do. And they're, they're happy. And then there's nobody following them

up. And all those sorts of things. We got problems with the world, yes. But my point that I'm trying to say is that if we quit judging the bad people, and the people who are still asleep? Why are they not waking up? Well, are the commands that we can do? Do we love them? Do we send them love? Or do we send them hatred? Or do we send them what ever it is that we feel for these people who are stopping us from getting our money? Those are the kinds of things that I feel is a is it flawed thinking? Because we're focusing on people who don't know? And we're saying, why don't you know, why don't you wake up? Why don't you? Well, turn, go to the mirror and say that to yourself in the mirror? Why are you? Why don't you wake up? Why don't you do this? Why don't you do the same thing that I'm telling these people over here to do? Why aren't you telling yourself that same thing? Because therein lies the problem, if everybody would get in the mirror and start telling everything about what they think other sheet people should be doing? What are you doing, besides telling other people what to do when in reality, we are the ones that are stopping this from taking place? We are the ones who are slowing it down. We are the ones that are working at a snail's pace, in changing our thoughts and our ideas. We are the ones that are stopping them from taking place.

S

Speaker 09:01

Question here who who is with this group here? Or you're talking in general?

R

Ron Giles 09:08

I'm talking with this group here specifically. And, and others in general, you know, am I the one that's that's holding this back? Or my I'm saying to myself, and I've been saying this for a while and I finally said, you know, the national real estate listing service is not what I felt that it was going to be and there's been arguments about it and so that needs to be changed. And when I delved into that, and when I say Delft I dove into it like like the ocean to find where where the real problems are. Now see, we've been asking for people to get the higher rates Yes, that's not a problem anymore. Some people are going and buying these one has Do Lillian's and they're going to redeem them. So at the heart rates and you know, five 10 million, whatever it is, they're going to get the funds that are necessary. How, when we open up some of these new things that we're doing, we're going to find that there is an extreme place for us to be in helping people to get into homes, regardless of where they live, we can finance those people and get them into homes, if we have the money, and that's what we're doing. Now we're ready for the new stuff that's coming up. And now we can see why the alliance has pushed us towards getting these higher rates. Now they can see, we can see why the alliance is saying, Okay, open up the SKRs, and let's go for another round of 100, Native millions, and 2100 quintillion notes, a full gamut of all of it that we had had before. That's available to us. Now, let's go ahead and do that. Why? Because we are preparing for what is coming. And one of the things is coming is it homes for people. We will explain more about it when it's appropriate. But I'm just giving you an idea, we know that the money is necessary. And now we're going to find out a little bit more the next step of why. And and Q is said, take care of the earth first. cleanse the earth. First. Don't be thinking about the quantity and the galaxies and all that sort of stuff. That will happen when it's time that the Earth has to be cleansed first. And who's doing the dirty stuff. We're recreating the dirty stuff with our lack of positive thinking. We're sitting in remembering all of these things in the past. And in the present. We're pulling the past and sending it out to the future. And that's where our problem is. We got to go into the mirror and start preaching to ourselves. There's not one thing that you can say to somebody else that you

shouldn't be saying to yourself, What am I really doing today that I haven't been able to get done. And if there's something there that I don't know about, then I need to find out about it. Those are the kinds of things that will help us on an individual basis to be able to say, I've done all I can do. And now I'm in peace waiting for the RV to take place because I know when it's here, I'm ready for it. And I believe a lot of people are really ready for it. Yeah.

S

Speaker 13:07

Just quickly something to share here. And I'll be done. We've been doing energetic cleansing. Me and my partner. all around Europe, we've been cleaning ley lines, we've been cleaning aggregates, and even we went to the United Nations in Switzerland and paitent. In front of the plate, and it was all around it. It was terrible energy. And we cleanse this and we've been doing this for 10 years, and we've been training people and waking them up and we have been cleansing karma. And we have been healing them with iron whether all that. So me personally, I have done anything possible in all my strength and knowledge and everything that I had here. And still we're struggling financially and we are waiting for your adaption. And my question is, what do we do until then? Because I know very few people have done what we have done. I'm not praising us. I'm not giving us any credit. We have none what we have been called for and all that in with our own expensive set with our own two hands and knowledge and skills. So that's why again, I'm saying something is missing from the whole picture because a lot of people here have given their best and still the results are not satisfactory and the cabal is still fighting back and the allies the alliance is fighting No, it's a big war. It's it's a huge thing. Most people have no idea. But I mean, it's, I think I don't think it's our fault here in this group that things are holding back. I think that there are many factors that we have to consider.

R

Ron Giles 15:20

Okay, well, that's a perspective, if you're doing everything that you can do, then that's good. And I honor if you for them, fine tune it, cleanse it, and make it better. If you can, if you can't, then you're doing everything you can, I say there's always a lot more planning to do more information to gather more thoughts. You know, I've gone through loved one society probably 1000 times in my mind, over the last 567 years, and each time I can explain to you what's going on, and who's, you know, this is, this is why this was put in place. This is this reason. And so if you can do that, and go through those things, and come up with some really good ideas, and that's what I feel is the best way to spend your time, come up with new ideas of how you want to do things. And if it comes up with the same old ideas, then you're just re iterating that that's, you're doing your best as what you'd like to do. But we can always do better. That's how I'm trying to say, for those who are really doing good, we can always do a little bit better. But for those who are kind of coasting, you know, this is not a ski run. But on your skis, you're gonna go downhill. And then this there's a unless you're not there, it's all flat. So this isn't this is it's more like we're climbing or climbing to the top of where we're supposed to be so that we can see what we're supposed to see. And I, you know, I understand there are, you know, we've got about 20,000. And they're not all on this call. And they're probably the ones that I'm talking to. But if I say it, then maybe they'll get there to them through the different channels that have us posting on, on the website and on on the chat room for what's going on. So if you feel like you're doing fine, then push on with that. But I'm saying there's, there's there's a reason why it hasn't happened. And if we take the responsibility on a personal basis for it to be taken care of,

then there'll be more people that are pushing that and helping that to get manifest. So I'd like to thank you for your comments. And thank you for the work that you're doing. And yeah, I think you're doing a great job. We'll move on to the next slide, please. All

C Carrie 18:03

right, Ron, would you like to come back to the bullets and take some questions later or take more questions now?

R Ron Giles 18:10

Well, we've gone through the three questions, maybe let's go back to the bullets and see how things are going.

C Carrie 18:15

All right, we're up to today's society has become dysfunctional. Because of the belief that money is bad. We have a pyramid philosophy with a few of the top half who have the largest share of the earth abundance. Those working in the middle and the base of the pyramid scramble for the smaller amounts in order to just survive top of the pyramid don't feel that money is bad. And their greed allows them to get as much money as they want at the expense of others while the rest are either not allowed or accepted and don't have the means to climb the ladder of wealth

R Ron Giles 19:00

wow there's a lot that can be said with that. Not much more light to give it because it's all there. We live in a society where it is a pyramid Why do you think it's on the bill the money that we have is whose Americans there's a pyramid on there with with an eye seeing if the top of that represents the Cabal represents those people. It's a it's a it is a pyramid scheme. Scheme what does that mean? Well that's that means that it's done to us, not for us. And that's where that I look at the pyramid and I say you people are the top Let's Let's trade places and see how how we can how well it does with a major part on the top and there's no thing supporting it, the, except for it's upside down now, there's nothing to support it, it'll just fall over. Well, that's what they, they, they would like us to get rid of the bottom parts of us and then just maintain their, their pyramid scheme above anybody that's left, destroy everybody 90% of the population needs to be destroyed. That's if you read their literature, it's not a conspiracy theory. People read their literature tell that tell you what they have that gonna do. It is universal law for them to tell us what they're doing to us. And so when other people start saying, Well, look what they're saying, oh, that's just a conspiracy theory. There's another BS coming right there. So if you're not going to allow yourself to be wealthy and allow yourself to get better to the point where we have, instead of a pyramid, we have a solid base of a square, instead of a pyramid, where everybody is working, some we're going to make it to the top. But nobody's going to be left at the bottom to support those on the top. That's not the way it's going to work. Everybody will earn enjoy doing what they can. And their uniqueness of their skill sets that they offer to their communities are the things that are going to build and

maintain and create the joy that's going to be found in we're going in to paradise. Brothers and sisters, by these gentlemen. We're creating a new paradise. It's called the golden age of mankind. That's what it's all about. We're going to be living in paradise. We're not going to have any opposition to us. As children of God, we get to create the greatest world has that we've ever known. Is that fun? Is that exciting? Yes, it is. And that's what we're doing. And they're just waiting on us to get our stuff put together to the point. And maybe I'm at fault here. Maybe I'm at fault. Maybe this loved one Society Program this that we're doing should have been done a year or two ago. I don't know. Maybe we have to wait for the proper timing. Let's go.

C Carrie 22:37

All right, this dysfunctional society has created its own love hate relationship with money, which could be the root cause of not having enough money. The law of attraction says if we believe money is bad, we will have little or no money, not easy to attract money. If you believe it's bad, we can't live life to the fullest because we feel we are not supposed to have any more money.

R Ron Giles 23:08

Isn't that so if we don't feel that we have the right to it, and it's not being given to us. And then we we make adjustments we try we get the second or the third job. We go into debt to to feed our family. All of those kinds of things are an indication of what we have to put up with. And now we're gonna get a chance to go away from that those who have started that and caused those concepts and other standings. That's the only thing that says has supported. The elitist is this disgusting display of the use of money. They are greedy. They want power over power and control over us. They've taken over the governments and made governments their power play. Governments have never been supposed to be this way. was always the Kabbalah has done this. So we're going to create something that's different. The Saara is a different form of government. It's not a government with a T, its governance. Govern notes. That's what they're creating in the quantum, excuse me, and then in the Psara, and usara for the world, and it's just another step or two away, it's not that far away. We've just got a few things that we need to get done. And if you can help us do that, then that's a good thing. But that's where we are. That's why we have to say, allow yourself to be wealthy because you have been taught that you're not supposed to be, I'm saying, let's get away from that thinking, I am totally aware that I am a child of God and that I am the creator that God wanted me to be his son, or his daughter, for others that are women, we have that responsibility, that opportunity and responsibility and capability of creating a brand new way of living. And they're here to heavens are here to support us. They're doing the battle the between the good, light and dark. And we've already won. There are those who have done the time travel down the road, we've already won. But we still have some things that we need to accomplish before that takes place. And that's what's happening now. Is there another question? Well, another bullet point, yeah,

C Carrie 26:01

I'm gonna actually combine two of these because we've covered the lack thinking, which results from accepting the finances we receive and not feeling that we're supposed to have any more. And I think we all know that this is passed down from generation to generation, and isn't

an easy thing to switch. However, here's the good news. Changing from lack focus to abundance focus for everyone can start with the implementation of the RSS program, it will allow people to gradually accept with total gratitude, the money they're receiving and make it part of their lives. It will will you ask for the higher rates in order to reach this abundance feeling? Will you stop saying I'm not worthy of accepting large amounts of money?

R

Ron Giles 26:57

Very, okay. I like that thought I might deserving, I don't deserve this amount of money. So people can say, I don't deserve this. I haven't work for it. And you go up to the top of the pyramid and you say, what did you do to work for this? Well, I just squashed you guys, and stepped all over you and climb the you know, dog eat dog and I eat a whole bunch of dogs on the way up to where I am. I climbed the ladder of success. And here I am. And I don't want you a part of this, because you're just going to clutter it up. Well, that's the way they feel about us. So let's just let them have their own way, and let God take care of them. If they're not going to be part of the quantum financial system, they're not going to be part of the the golden age of mankind, that that's God's way of working things through. That's where the battle is right now. And that's why it's not safe for us right now. But I think that things have gone a lot further than have gone a lot further than we have an idea about, and that's why things are starting to take place. So if we got a month or so or less for the RV to take place or not. I don't know. Are we going to have the RB, the redemption appointments before Nisar? I've been told yes. I've been told before that the alliance is waiting for just Saara and the SAR to be allowed announced so that we can do the redemption appointments. But apparently, that's redemption appointments are going to come before new Sorry, sorry. Well, what does that mean? That means that things are getting cleaned up pretty good. It's going to be safe for us to do that. But there's still a lot of people who have not woken up yet they wake up and find that what they thought was supposed to be right was around, they might have a tendency to want to fight for it. Fight us for the newness of what's going on. And it's it's going to happen. Hopefully, it's not going to be a lot of people. It's going to happen and we'll have the military take care of things and it's in the military's hands right now. There's no government that in charge. That's all over the world. Governments are, are the bad people are still being able to hold a position. But the military is in charge in every country in the world. That's my understanding, certainly is here in America. We'll see how that goes. But those are really good ideas, and really good things a way of looking at things because we are creating a new way for ourselves to live in the future, and it's going to be a paradise It's going to be paradise. It's going to be a paradise where we have fun, enjoy ourselves, and raise our families without all of the the stuff that's been presented now, all of that can go away. So let's just look for that. Let's start, instead of looking for the bad stuff, let's look at the new stuff that's coming, let's call it a paradise. What is a paradise look like? I don't really know. But I'm going to start creating a vision of what I think it should be. And then that's what's going to happen for me. Because I am the creator of my experiences. So that's why I look at, you want to go on, then carry on?

C

Carrie 30:51

Let's do let's finish this page. And then we'll open it up for questions. So the, the abundance of money is being used to help others not just ourselves, with the RSS program, it removes any restrictions in gaining wealth. So we have to remove any blockages of lack and turn to the building of abundance. The RSS program allows us to have a totally different thought and

feeling about money. It allows us to embrace the positive aspects of wealth that are and will be available to us. And it'll help us release all thoughts and beliefs and allow the truth of wealth to enter in so we can be who we really are and who we want to be.

R

Ron Giles 31:46

Yes. You know, that's, that's kind of a night Amen. Statement, my way of looking at there's not much more than I need to say.

C

Carrie 31:58

Alright, let's do the last little piece here on this page, and then we'll open it up for questions. The transition, okay. The transition to having an abundance of wealth means one, changing current thoughts about wealth to a blessing, not a detriment to recognizing that money isn't bad, or a curse, three, updating our thinking away from lack and into abundance, and finally, making the commitment to allow ourselves to be wealthy.

R

Ron Giles 32:32

Amen. That's that those are good points. And Don, thank you for those, the bottom of the page. We start out with allowing yourself to be wealthy, and then we go through all of this. And we say, can you see a reason why you don't want to allow yourself to be wealthy? Can you see a reason for it? Is it the lack of that allowing, coming from the conditioning that's been given to us by the Cabal who don't want us to be wealthy? So we just have to think this thing through. Now? Yes, we've got circumstances that have been created that stop us from believing some of the stuff now that we should be embracing and making it a part of our life. Now, are we going to let ourselves succumb to that mediocrity? Are we going to say, you know, this is my life, I am going to not just allow myself to be wealthy, not just allow, but it's going to be the whole part of me, the abundance mentality. And I not only kind of allow myself to be it's part of my core belief that I am worthy and will receive these kinds of funds. And in receiving them, I will create the joy and the happiness. That is my new way of living. And that's the bottom line of that whole thing. So I thank you for that.

C

Carrie 34:26

Alright, shall we open it up for some questions now?

D

Dominick 34:30

Hey, Carrie real quick. I wanted to throw this around. I didn't know if he was aware of this or not. Ron, I think the gurus have caught on to your philosophy of abundance. I heard today that they've actually raised the amount that they're going to allow pay outs 200 T notes from 33 cents pay out to over 50 cents. So they've increased it to 50 million for 100. T note from 33 million. Big, big jump for them.

 R

Ron Giles 34:54

Well, you know, I think that they know that they're done. They're losing the game. Nobody to compete with can compete with loved ones society. And by the way, if there's anybody that thinks that loved one society will fail, we have been told that loved one society will not only survive, but will be the basis of the brand new way of living. And if you're with us, then you get to be a part of that creation. And if you fight with us, you'll lose, there's nothing because loved ones society is part of the plan. Don't appeal oppose us, that's up to you poses. But you're gonna get snuffed out. Period. Now, nothing can stop loved one society from what we're doing nothing, nothing. The only thing that can slow us down is our lack of mental capacity to think things through to the point where we conclude that means it's already finished, that we are 100% successful in what we're trying to accomplish. And that's the golden age of mankind, there is no way around it, we've got everything we need to do it, get rid of the opposition, and getting rid of the bad guy. But giving us the quantum financial system and the quantum computers and the quantum internet, the quantum voting systems, the quantum education systems, we got all of this quantum stuff. That is part of the new picture. The pieces are being put in place. And we know what it's gonna be like, because we're creating it. Next question.

 C

Carrie 36:56

Go to zim Angel, next, zim Angel, your mic is open.

 S

Speaker 37:01

Always a treasure to be here and listen to Ron speak into all of you here are in amazing leadership you guys are just wanted to revisit a little bit how I joined love won society in July, after a lot of struggle and losing my son if a few months before that. And I know that he fully is a part of this. Because after he left before he left, I was in class with my students. And he said Ma'am, can I ask you, your students a question? I said yes. I said yes. And he said, I believe unconditional love. That's the only thing he asked to them. And when they said yes, they explained their own way. And he left. And then three months after that he passed away. And when I saw his notes where he was writing, he's talking about how he wants to with everything he does. He wants to bring all this money and save the whole world. Because why is there so much suffering, why these things are not so you know, all these kind of things everyone is asking. However, my personal story is that when I moved from Zimbabwe in 2002, I saw suffering in Zimbabwe. So when I came here, I was talking to the spirit of Zimbabwe and spirit of the land of America, to take care of me I mean a new land and show me the way how can I go back and serve my country has been my prayer and meditation in every day of my life. And then in 2012, then I was shown that vision of big money coming in a bit, I went in a bank withdrawing trillions and billions of dollars. And when I met a loved one society, my questions about that money was answered. They are saying God, but if I give each person \$1 billion, today, I'll be doing them disservice. What do I do? So I started my mind, okay, I'll give them \$500 a week maybe? And all that God was like when timing. So

 39:07

39:07

when society was God's saying, time is ready. And you are ready. Now you cannot keep saying

no, I'm not ready. You are ready now. And so it keeps me crying. Just thinking about the old things led to meeting you guys. And I just want to say, everything here if there is anyone doubting please, this is real. With with some of us, we've been shown, and I'm not gonna try to say I'm the one who brought the Zim bond to be part of this, but we all contributed to this. So let's take it seriously. And when Ron says, it's us who is delaying the process. He really is not pointing at anyone in particular. myself when he said that he was talking to me, you might have been talking to other others here. 1000s of us here, but he did talk to me directly later on. On, because I was holding this vibration and frequency, I was rising up high, I was excited and motivated and moving. And I'm doing that. And then things happen in the family and member, you know, things fighting in the family, those are the things that puts us down, that happens, your vibration goes down, maybe you are right about to open that door, that gate, that master key that was you, in front of us to open that door, the moment this energy pulls you down, you don't open the door, you have to go back to raise this vibration again and start over again, and come back. So that's what Ron is saying when he's saying the person who is delaying us is ourselves. It's not just the loved one society or anyone else who's doing energy work out there, when we are rising. And then we allow the the pollution of this world to pull us down. We are the ones causing the delay. So anyone who feels like they won't feel that way. That's what he really means. I take responsibility to that, because I know exactly what that what he was saying. So I am responsible also for things not me that I need to get up as fast as I can and raise my vibration and allow myself to go again, once the Alliance sees that, wow, these people are not backing down, no matter what is in their way no matter how much stones they step onto. They are limping and moving forward, the Alliance gets excited. They said they're ready. They're ready. We're ready. But when we are moving and getting data data, and we go down to this, oh, they disappointed us. Okay, let's wait for them again, to get up again. That's exactly what Ron is talking about. And thank you again, Ron, for your amazing, beautiful, beautiful, pure heart. And if we all can do our best to align with that heart of unconditional service, unconditional love, unconditional attributes of the Divine that you radiate, each one of us. Every word you speak opens our hearts, it is through the heart that we can receive the love the vibration, that's going to get us to that, where we need to open. And when my son passed, I'm not gonna say much. I'm almost less than a minute here. When my son that night, he gave me a key you guys, I'm not gonna talk about it more. He gave me a key. When he gave me the key it opened these doors that were ancient. And when they opened the whole company was like, Yeah, we're celebrating things, fill down crystals and blah, blah, blah, blah, in when I use that key. That's how I met you guys, because it's a key that's coming from the heart of the Divine. People who live our lives, they are angels guiding us saying, Hey, hurry up. I'm going to lead the way now. Hurry up. Don't delay. So let's do our best. Thank you so much. That's it for today. Love you, everyone.

R

Ron Giles 42:46

Bless your heart. Bless your heart. Thank you. You really touched me. You really touched me. Those are kind words. Those are kind words. Thank you.

C

Carrie 43:01

All right. Yeah. So let's go to AD. AD your mic is open.

S

Speaker 43:07

I just have to see a couple of things here. It's locked question. I'll leave that for the chat. However, I just want to remind myself, and that's on the first section we had the queue. One of the last things he sees towards the end of the call with him was that all of the focus is on us. The law wants society right now. And the point that I took that Ron is trying to come across today at the beginning of his dissection today, because that's pretty much just a reminder to each one of us that we need to put some time into this, we need to put some more effort into this, because we see you guys doing so much. And I wanted to also recognize Tracee for the amount of work she has done with the website to That's how much you guys are doing for us. And I think what you're asking from us today, it's not much to be asked. Let's just put more thought into it, the more effort. Second thing I wanted to do, I wanted to say that we were pretty quick response, responding to questions on the chat. And I wanted to also see that I wanted to make myself available for anybody who has a conflict with the language barrier or a different language. So if you have a part on a website that you don't quite understand, well, let's let's reach out to each other let's let's direct message to each other and ask for help. But we are the ones who I think we need to make the move on this. It comes from us. That's all I have to say and thank you for everything guys do every day.

R

Ron Giles 44:59

Bless your heart Aren't Yes, traits that are also performing at a level of Godsend as well. Dom carry, there's a number of, of us that are doing that, and what a privilege it is to have these kinds of people show up when we need them. And so, you know, I've had to carry this along for a long time. But look at what, what God has given us. You know, I'm just overwhelmed at the love and, and the appreciation that these people are, are bringing to us. And I'm certainly grateful for that. Yeah.

C

Carrie 45:44

All right, go to Michelle. Michelle, your mic is open.

S

Speaker 45:50

Hey, everybody. Good afternoon, Ron. I just would like to share my thoughts, and again, on Zoom angels and a thought 100,000%, if I may, and I just want to share this. And hopefully, it will help some of you to broaden our minds a little bit. But if you were just just for example, guys, if you were building your dream house, would you would you want the builders to hurry up? And because you wanted to move in early? And get in? Would you want them to shortcut your wife's dream closet that she's always wanted, you know, for 20 years? And that's that dream kitchen? Or your barbecue pool area? And you know, that, you know, huge dream house? Would you want them to the shortcut any of their work? Because you want to get in? No, you want. And, and and you're because you're paying good money for this, this is your dream home. Right? So all, you know, are you, you worked hard for this, to make this happen for you and your family. So I just I just wanted to, you know, Ron, I think that's what the lions and and God's trying to show us, too, that maybe there's some lessons that we still need to learn. You know, we obviously we got a lot more to learn from Ron and, and everything being created. But I'm, and I'm not trying to preach, I'm just saying what came to me because I just

feel like, you know, we're more in, you know, we're all in need, everybody's in need. I mean, what would we be doing right now, if we didn't have LWS? I mean, you know, what would you be doing for your family, in your, you know, you're broke, you got to go do whatever you got to do the same applies now we all got to still go do what we got to do. But I, I also know in my heart of hearts, that God's not gonna let any one of us store or do without as, just like, he doesn't let us Pharaoh do without. So I just wanted to maybe I hope that will help us to, you know, just we got probably a lot more lessons or something. And it's only to make us better, I believe, for what the jobs that we're fixing to be, you know, doing and it's all jobs that I don't think any one of us has ever had. Right? So I know. So I gotta I want to learn a lot and crave learning a lot and gonna need a lot of lessons. So I just wanted to bring that out. And I wanted to tell you again, Ron, you are wonderful. And look what you created, sir. I mean, look where we're at, this is amazing. What's going to happen. So thank you again, for another beautiful week of wisdom and lessons. And I just wanted to share that with the group. And I love you all and appreciate everyone that you carry everybody you're working for nothing. I don't, you know, I want to help out and give if y'all need help, please reach out and I'll do whatever I can to help us all to you know, I don't know, I'm on disability, I'm broke. You know, I'm not doing no better than anybody else. But I am in so much happiness and peace, energy and just excited for for the world because we all know what's happening in our own families think we're crazy, right? So we know more than what's going on the most. And when it all comes out and everything comes out. I just feel like we just were the ones that like a stand like we see every day in the chat you get that you've been chosen for a reason. So maybe we just got a little bit more to learn, you know, and I just wanted to bring that and again, thank you, Ron. So glad to hear your voice her and be here with you and your energy just it it invokes mine more and brings out the light and I know and all of us so thank you.

R

Ron Giles 49:58

You're certainly welcome to hear and thank you For your kind words, it's a greatly appreciated and yeah, we're building our own house and is do we we move in without the kitchen finished? Do we? Do we wait and don't we at least wait until the stove gets delivered so we can fix dinner? Yeah, lots of good things. Good thoughts. Thank you, dear.

Let's go to joy boy. Joy boy your mic is open. Oops, sorry, one second. Oh, no, just a minute, I ride hang on Joy boy, your mic is open.

Hello, I just want to thank Lavon society for everything. I really love this group. And I do hope that the time is near. I mean, I can see what is happening globally, nations are waking up not just in America, but also in Europe. Italy and Poland are also now waking up hungry. They people are now see how elegant NATO is. And the current establishment of the EU US administration. Which I'm not sure if it is a shoe. But all I can say is that the cleaning is ongoing in the UK, I am really optimistic that things will change. The global order is changing. And I hope when it changes, the new global order will be equal to all nations. So let's just hold on and manifest the things that we want, especially the redemption. I just want to share my technique.

So I use my imagination. Along with my commands. You can be creative with your commands. You can also make it funny like I command ms pay me to pay all my debts. So we can flex it. Now, way we want. So when we imagine we manifested faster. So that's all. Thank you.

R

Ron Giles 52:34

You're certainly welcome. And thank you for your comments. I appreciate it.

C

Carrie 52:39

Okay, John, your mic is open in Iran, would you please raise your hand again, so I can call on you next. John, you're up.

S

Speaker 52:47

Hi. Hi, Ron. This is amazing. Yeah, I'm like dumbfounded. I had a question sort of off. And off question on are we going to hear from Q again, and I've been out of the loop for a couple of weeks moving back and forth. And so if you've already discussed that, sorry, but I was just wondering,

R

Ron Giles 53:10

we heard from him about two weeks ago. And Monday, chat. So that was we're looking forward to him coming in again. He's told us he'll come once a month. We say that's not enough. And he says well for now values. Okay. So we'd like to get him to come more often. But let's just do when he does come, let's enjoy what he says and start implementing those kinds of things. If there's some changes that we can make. There's there's many of us who talk to him on a personal basis. And yet some directions and things that were him his perspective perspective of what we need to do. And, and how and but usually that's on a personal basis. Occasionally we get some stuff about loved ones society, but he doesn't really do much about loved ones society just loves our people. And, you know, my connections with alliances where I get most of the information that I need to run a loved one society. I'm finding that cue shows up occasionally and listens to what we have to say and what a blessing that is. So he's, he's here with us. And he's probably listening to this conversation to some extent maybe doesn't listen to everything but just to see what's going on with us and kind of feel our spirits and our and the love that we have for one another and, and I think it's it's really good, but we're hoping that again next month, we'll see what happens. Okay. Can you say Thank you appreciate you.

C

Carrie 55:03

All right, we'll go to Iraq for our last question or comment. I read your mics open,

S

Speaker 55:09

have a common. Ron, thank you so much. First thing I want to say to you, when I get to meet you, I'm gonna give you such a big hug the whole bottle Scalia death test.

R

Ron Giles 55:21

Be right back.

S

Speaker 55:26

I've been putting up some nice comments, because I think we have a bunch of extraordinary humanitarians on this talk on both projects and chat. With us, I used to tell my pupils and my students that when it comes to problems, I said, we don't have problems, we have challenges. And any challenge that we put our mind to we could resolve. So I usually tweet and try to perfect everything I know, from the level one society keep on getting more detailed, and going back into the videos to re educate myself. And I know the newcomers have a lot of questions. And for what for Ron and Carrie, and Janice and Tracee, and yourself as these questions. We're all motivated. But we cannot give up, we just try to take a challenge. And take that challenge. And we resolve the challenges broken into small little bites, because we could accomplish exactly what you were planning us to do. And that's definitely I know what's going to happen. And I don't manifest the bad things that ever happened to me at all. I just want to look forward, and you are such a great motivator. I'm telling you, you buddy, be careful when I meet you, you're gonna get hurt really bad. Am I gonna take Okay, so, and thank you, Charlie and Dom Dom, oh, god bless them. I took him I took a few months with my little brother, on Mudra, roll him. And we're all ages, you know, and I look forward to the Tuesdays and Fridays and in all the meetings that are going on. I mean, I can't stop thinking about it at night, I listen to all the videos, and I bring my computer to the bedroom and just, I'm such infatuated with the psychological work. And he was the one that can be happy. And we just have to be patient, because it is going to happen. Okay, so I think he's only my blessings. God

R

Ron Giles 57:15

bless you. I read. Thank you. Thank you. Appreciate it.

C

Carrie 57:19

Thank you, I write. So I want to dovetail off of iRODS comments, we will be in the project's room on Friday with a live chat at 2pm. Eastern and this Friday, we're going to be talking about transitional housing for one topic. And another topic, we'll be setting up a simple website, and there will be some additional resources discussed and provided as well. So before we close, Ron, do you have any last words of wisdom for us today?

R

Ron Giles 57:55

Well, the thing that I'd really like people to know is everything I do for loved one society, I do it because I love our people. What a privilege it is to have created loved one society as a structure. But the real joy that I'm finding is the people that it attracts. And we've got some of

structure. But the real joy that I'm finding is the people that it attracts. And we've got some of the greatest people this world has ever known. They're not famous, and so on, so forth. But they're just great people that are the, the core of what's going to take place as far as loved ones society moving into the rest of the world, and then doing what we're supposed to accomplish by sharing the wealth, and sharing the joy and the happiness and the love. I do love all of you people. I really do. So I'll say goodbye for now. Thank you, Carrie. And thank you DOM for all that you do. You

 Carrie 59:02

say? I'm gonna say thank you for DOM because I know he's off now. But we so so appreciate everything you share with us. We love it when you get on fire from your heart. So please don't ever stop doing that. Because it's very inspiring for all of us. So we'll see you all here again next Tuesday. And we'll finish up with wealth management, number three, and then probably start Wealth Management number four. And again, we look forward to seeing you on Friday and I just got a little update on Friday. We're going to be talking about the webpage and Francis is going to be with us about the forum and the map. So please join us that's bound to be great information.
