Seraphim Wings Action Plan SP101 **Mobile living assistance**

Utilize aspects of NRELS program and it expands to provide gracious living for all individuals, including those who do not want to own a fixed-location home –

There are some individuals who do not want to own a traditional fixed-location home even if it were provided for free. Some do not want to be tied to a certain location for the minimum 5 years as they travel for their jobs such as

- § Construction workers
- § Traveling nurses
- § Farm workers

The homeless and people in developing nations may also want to live for a period of time in something that does not tie them down. We do not want to leave any of these individuals behind in our plan to raise the living standards for everyone on the planet.

For instance, we can purchase and convert empty schools, motels, etc. into furnished apartments like a hotel with housekeeping and concierge services. These can be provided rent-free (pass through – if cost is \$200/day, give individual \$200/day to pay for the rent) like the homes in the NRELS if we own the buildings and hire employees with ECAs.

We can also provide ownership options to include mobile units that can go wherever and whenever the individual wants or needs a change of location and provide free ownership if this is their primary residence. This can be done just like the homes in the NRELS, the buyer gets a new or refurbished unit that Seraphim Wings buys, and they pay with a shorter term like 5 years.

- § RVs
- § Live-aboard boats
- § Trailers

Encourage “homeownership” utilizing and expanding existing timeshare and vacation club concepts with purchasing deeds in the program. Hilton Grand Vacations Club is a good example. Your deed entitles you to a certain number of points in their program. These points can be used anywhere in the Club system (rooms include kitchens, laundry, etc.) or even converted into Hilton Honors points for any of their hotel chains in the entire world. This can be done for people who want this type of lifestyle of changing locations or continents as their primary residence. Seraphim Wings can buy the deed

and do the pass-through just like we do for NRELS. We can also expand into our own “Club” brand and collaborate with existing or developing New Earth facilities.

Ascension Academy of Light. 🌞🌈 SP#102

Location: A local island off the coast of where I am; Queensland Australia. It has amazing energy there.

Purpose: I envision it to be a **worldwide destination for people to learn how to master their abilities** (even after our memories come back). **After their high vibration stay, they can go back to their cities/countries/kingdoms and teach others.** It will be a place of rest, play, learning and connection to self and our abilities.

Eventually it will be where we can **openly connect with off world beings/ inner and hollow Earth people** to learn from them and connect with them. Wahoo! (Cue happy dancing immediately 🕺😊)

Ideas for the Academy:

- A spectacular **Tartarian style stone library** with all of the ancient texts and footage for us to learn our true history etc. This will have a wall which is transparent so you can see nature outside.
- **Giant trees with treehouses** and no ladders. You have to learn to levitate to it.
- **Holograms** which teach the TRUTH about history, science, mythical creatures and how to communicate with them and our abilities eg. Nikola Tesla, Dolores Cannon, Dr Emoto, Q teachings, Dr Wayne W Dyer, Bruce Lipton, Abraham Hicks, Louise Hay etc.
- **Outdoor auditorium** for lectures, performances - fun in general. 😊
- **Laughter pods** - filled with faces of children smiling and laughing. A recording booth to record a message to the world - i.e. tell a joke, share a feel-good story, record your slice of history for this ascension. Whatever brings you joy.
- **Practical classes** for laughing yoga, Tai chi, Chi gong, getting grounded, visiting multi-dimensions, power of water and clean food, healing plants, astrology, auras. remote viewing, lucid dreaming, fasting, geometric shapes, language of light, manifest objects, transfiguration into light, self healing etc.
- Teaching how to **connect/communicate to land and sea animals** - connect skills with park ranger/ marine biology and agriculture training.
- Epic **music studio** filled with every instrument ever made for impromptu jam sessions and for people to create music

- **A healing sound forest.** Objects and plants to touch and make sounds at healing frequencies - all visitors will be asked to bring a crystal or plant to contribute and leave a small piece of them to build over time.
- Large **healing crystal pools and waterfalls** to swim in
- **Land and sea obstacle courses** to practice abilities - telekinesis, bilocating, mastering elements, telepathy, flying etc.
- **Airport for all types of craft** - on and off world

Spirit Healing Centers **SP#103**

Cabo Healing Center

A year ago I proclaimed myself to be a Humanitarian Benefactor with Love Won Society. I expanded my written proposal into a website - www.cabohealingcenter.com. My emphasis was on building a huge regional healing facility here in Cabo San Lucas, Baja Sur, Mexico, with an Alliance Medbed wing. Much has transpired in this waiting period.

A little about me: I was born as a double Aquarian Starseed Lightworker. I was never allowed to have a 9 to 5 career. My lifelong work has been centered around art and the healing modalities. I was the apprentice to a Shaman Medicine Woman, a Gypsy Tarot Master, an Awareness Seminar Master and a 10th degree Aikido Master. I'm a trained Life Coach and an ordained Earth Steward and Spiritual Healer. I have been using cards in sessions to connect directly with peoples' Spirit Guides and God Consciousness for 37 years. I now offer my own unique self help 78 cards at www.spirithealingcards.com. (not yet up) I'm also the author of 10 novels and 4 self-help books. You can see my art and books at www.highwayshaman.com.

As a reader and healer, my focus has been in addressing Core Issues, the trauma and abuse people carry throughout their lives. These covid years have only added to chronic PTSD. After posting my www.cabohealingcenter.com website, I have received calls from people, afraid of the Medical establishment, seeking spiritual and physical healing. The last call was from a man with stage 4 prostate cancer, wanting honest counseling on what to do. He was very relieved and grateful for my help.

My **Spirit Healing Center** concept is in association with Janine Sprecher, a Texas hypnotherapist counselor. Our plan is to open three small clinics: one on her property in Calistoga, California, the second where she lives in Crossroads, Texas, north of Dallas, and the third here in Cabo San Lucas. Our initial treatment would begin with the love and compassion of our therapists. We'll keep it simple, offering ionized foot baths, aura healing baths, a frequency healing machine like EES, Baxter or Rife, Spirit Guide

readings and counseling, leading to core issue conversations and treatment. We have been seeking a loving person or way to receive a glad free gift of love funding for these centers.

I want to set up one holistic clinic here ASAP. I have a local Mexican doctor with 3 doctorate degrees who said he would like to work with me. He saw how effective and important my counseling work is, and knows of the real healing needs here. I gave him a reading and he had to hold back the tears.

Unification of Churches and Societies in Vanuatu, Numea, Souva, New Caledonia SP#104

Our church has a network of 120 churches throughout the Pacific Islands. The work in these numerous island communities needs to be enhanced and expanded to provide food, water, shelter, education and many other day to day needs. The dispersion of these islands through the Pacific Region, creates a logistical difficulty of reaching all these islands and providing for their appropriate needs.

Our desire is to develop a way for these people to commune with their neighboring brothers and sisters and help one another.

There are numerous facilities that are needed by the workers and for others traveling to the islands and offering needed services.

Summary of Needs and Works to be Undertaken

Purchase of old cruise ship to travel between all the Islands to include:

- Food and Clothing
- Training and conference facilities
- Medical/Natural Health Services
- Materials load and unload

Ferry for each island to go to the ship and to connect with smaller islands.

Helicopter and Heli-ports to travel to the mountainous areas on the islands.

Purchase of Private Jet for Leaders and Pastors to travel from Australia regularly.

Training facilities for the locals on food production and farming methods.

Appropriate Farming machinery to be provided.

PLAN TO HELP TO RESTORE EARTH SP#105

My name is Christine and I have been working all my adult life (36 years) as a fulltime (7 days a week) church volunteer to help people and the society at large. I have worked as a minister doing one-on-one help and overseen over 2000 church staff all over the world. I retired due to physical problems and am now working as a translator and teaching babies and preschoolers to swim.

Goal: Establish and work with already established groups to bring healing technologies to all. To eradicate drugs, illiteracy, criminality and human right violations all over the world. To clean up the air, water and soil so that farmers can grow healthy crops and animals for people to eat. Donate money and time to groups that help rebuild as per LWS guidelines and programs.

Organization: Truth is Freedom Foundation

Basic Plan:

1. Establish an HQ in the US and use the admin technology to build the other groups/offices/areas as per the LWS guidelines.
2. Start with Healing Centres to help people through the Energy Enhancement System (By Dr. Sandra Rose Michael) life-enhancing energy which can allow the body to heal and regenerate itself. a device that enables a person his or her own recovery on a cellular level by <https://www.eesystem.com/>. Iron out any and all bugs and then use this format to establish more centres.
3. Buy buildings or spaces for the above activities.
4. Once Healing Centres are rolling out, establish another section of the organization board for the next project Drug Rehabilitation (Using EESystem and other non-drug tools to get them off drugs) and get one established and go on from there.
5. Hire good quality honest, ethical people for all projects who WANT to help to build all the above activities. Retired people and veterans are very welcome to join the team.
6. For healing centres, all veterans and those who dedicated their lives to help others get free service, same goes for victims of human trafficking and other evil things.

Intended for: People in communities where it will be set up.

Locations: In as many places as possible starting in the US, Sweden and Hungary and expanding from there to other countries across the world by building groups who will run these centres. Intention to have this set up in each country and help those groups who would like to set up TIF-centres.

Administration: Implementation of LWS organizing plan and implementation of the Resources centres, Community Assistant Centres. (Studying all those currently)

CONSCIOUSNESS AWAKENING THROUGH CONVERSATIONS

SP#106

“Is it possible, just possible, that there is something we don’t fully understand here, about God, Life, Ourselves, that the Understanding of which, will change everything”

Quotation: Neale Donald Walsch Book 3

I can divide my life into 3 Life Spans each of 25 years – being 76 years of age right now – each one has been a specific path of various lessons learned, the last 25 years being the path of Spiritual awakening as a result of dropping to rock bottom in so many aspects of my life, being brought to my knees and asking – PLEASE SHOW ME HOW LIFE WORKS???

As things would work out, 3 weeks later I “just happened” to walk into a bookshop, and was advised to read the Conversations with God series by Neale Donald Walsch. As things would pan out, the lady only had Book 3 and I needed to bite the bullet, pay the astronomical price (in those days) of R300.00. It has proved to be the best investment I ever made in my life!

Well, the 25 year journey has been phenomenal and having been a teacher, and Mom in my second 25 years, the desire to impart this knowledge has been a burning desire for me. Now I have the opportunity to attract as many like minded folk who are willing to have a conversation, without treading on anyone’s toes, so to speak, the door will be open wide. Now I can teach again!

Neale Donald Walsch wrote another book in 2011 called THE STORM BEFORE THE CALM which encourages this type of dialogue – a brilliant way of making us all look at Life, God and the Law of Attraction, in a totally new way. Creating a New Cultural Truth.

This will take place at my CAC in the form of bi-weekly get-togethers for those who have the desire to improve their lives by understanding “How Life Works”!!

- As Humanitarians, we often neglect to nurture ourselves, so it will be encouraged for Operational managers and Directors to join but free choice.
- Starting an adventure of discovery of selves and how life works.
- We are challenged in so many aspects of life and for a very long time, what we thought we knew, HASN’T WORKED.
- Inner work is an ongoing inward reflection and all can participate. It isn’t an overnight revelation. For me it has been a 25 year journey and I am still learning.
- In an atmosphere of Compassion and Understanding, anyone, no matter what age, colour or creed etc. is welcome to join.

- Create a space for open dialogue having fabulous conversations revolving around simple questions * see below*.
- Hopefully we will find the opportunity to change our inherent beliefs which have not served us in the past.

SOME TOPICS TO BEGIN WITH

- Discuss Who/What God is
- What does God want!
- For every seed we sow (in thought, words and deed) good/and not so good WILL produce a harvest.
- How can we take responsibility for our past actions and “just let it go”?
- The Duality of Life we live in – right/wrong, good/bad, love/fear, hot/cold, dark/light???
- Free will.
- Judgment of self and others.
- Who am I??
- Let’s show the beauty of who we actually are!

Various topics will be brought forward by all at different times to expand upon.

We will have 2 weeks to ponder what was discussed, come back with their individual epiphanies and discuss, before a new topic is considered.

There are no right or wrong thoughts, all accepted in an atmosphere of compassion and love.

The meeting will end with a relaxing meditation to let go of restrictive thoughts.

THE INNER I CONTEMPLATION AND SOUND BATH CENTRES SP#107

By nature, I was always curious. I drove my father crazy by constantly asking ‘but why dad?’

I would poke this or that; peel away something else; get on it and try to ride it; colour it; taste it; smell it; touch it; listen to it.

I knew instinctively that all answers could be found within.

When dad took me into natural settings, he would encourage me to be quiet and ‘tune in’.

As I grew, my powers of observation and the ability to ask the hard questions grew exponentially.

As a 6 yr old it seemed ridiculous to me that God would confine himself to the interior of a tiny marble house on an altar in what we'd been told was his temple.

Whilst I completed a catholic education in a succession of boarding schools I investigated many religious dogmas. It came to me that they all had a gold nugget of truth at their core, with everything else being window dressing and a distraction.

I kept those gold nuggets and added to my repertoire of knowledge by reading many other systems, including numerology and astrology.

Eventually I found Metaphysics, Gnosticism, and the internal journey which leads us all to the realisation that we are all creationists.

It gradually became clearer to me that if we are to truly discover the answer to self, life and the universe, we must FOCUS on the quiet stillness within us.

With this in mind, I will establish "THE INNER I" centres.

Below is a brief outline of the layout of these centres - the first one of which will be a prototype.

1. STRUCTURES

- A. Enclosed, ergonomically designed for quiet comfort, breath and vocal work.
- B. B: Open-sided, top covered, pavilion style - in a natural setting. Ideal for yoga, Pilates etc.
- C. Soundproof room catering for those who wish to bathe in the healing frequencies of music and instruments.
- D. Outdoor/indoor flow cafeteria which caters fresh produce and nourishing beverages - including juice bar.
- E. Library and discussion room where individuals shall feel free to share their unique esotericism and experiences.
- F. Speakers on various topics - (including, how to listen, how to discuss and more) will be invited to visit on a regular basis and will even be encouraged to share their knowledge with various established centres.
- G. Crystal shop.
- H. Ablution facilities.
- I. Parklands and car parking areas.
- J. Swimming pool

2. SYSTEMS

- A. Open every day 8am until 10 pm.

- B. The activity rooms will operate on a rotational basis so that as individuals or groups gather, they can begin in the exercise area and move on to each successive activity.

The aim will be to encourage a wholistic approach to one's inner unfoldment process. Each centre will release a detailed list of those individuals needed, to fill unique roles. There will also be onsite management and general accommodation, for visiting travelers.

COMMUNITY CENTER ANGLES CLUB SP#108

Luke 17-20,21

20: "And when he was demanded of the Pharisees, when the kingdom of God should come, he answered them and said, The kingdom of God does not come with observation: 21: Neither shall they say, Lo here! or lo there! for, behold the kingdom of God is within you.

The purpose of the club is to bring the kingdom of God on earth. By bringing more light upon the earth by truly living, Love thy neighbor as thyself.

The purpose of the club is to do acts of kindness and love.

Do you know someone that is elderly? Do you know anyone that is a single parent? Do you know anyone that is sick? Do you know anyone that is hurting? There are so many people in need today so Let's wake up and do something good.

We will create a structure that will pay \$2000 a month for 10 hours a week to truly love our neighbors by doing acts of kindness and love.

The Sunshine Class SP#109

The Sunshine Class is not really a teaching but more of an experience in resonating with the true nature of who we are as spiritual humans. It's a resonance with our unbounded nature that has been secretly appearing within and as everything. The class offers the same pointers that the Tao and Zen offer, but in a more personal way with direct experience.

Since our minds have been cast into illusions, dreams and false truths, these talks offer an energy to return us to what has never changed.

I have written two books on this subject resonating with our Truth. Opening Home and Living with Aliveness. The first is more of a workbook for self-study. The other is more for discussion.

I would be interested in offering discussions to the community about all of the topics listed in Living as Aliveness. These talks would be a short lecture then time to sit and take in the material and ask questions. Here are the topics.

What is this lecture

What this message says

- what is here
- what have we been experiencing
- what is being pointed out

Shifting from what we have known, to what is here now shining Important Notes in Caring for Self

These are just a few of the many amazing topics.

I really feel that people are truly right now searching deeper for real Truth. I would love an opportunity to help as many as possible.

Aokigahara Cleanse - Spiritual Cleanse Suicide Forest SP#110
