

# Wealth Mngt 3 & 4 - Oct 4 Part 1

Thu, Oct 06, 2022 7:09PM 55:56

## SUMMARY KEYWORDS

people, money, cabal, creating, receiving, home, alliance, problems, giving, life, program, trespassing, bonds, society, pay, sk, longer, free agency, revenue sharing, ron

## SPEAKERS

Ron Giles, Speaker, Carrie, Dominick

---

Ron Giles 00:00

A short update on the new home finance company, or what we're planning on doing. It's a private home funding program. It's it's taking the place of the NRELS. And so let me say that this is really a bold move. And we've been given the responsibility to continue the creation of it and to manifest it, bring it to our people first and then send it to the rest of the world. The whole idea with this financing is that we have the money, so we get to do to create the way that we're going to finance homes. In doing so, we are turning our back completely on the Cabal, and their established way of doing things. They polluted the whole county recording system. They did that they did the county recording system, that's not part of government. It's not really what governments about. But they did that so that they could they own they, they're claiming to own everything. The land, the people, the homes, the cars, anything that's private. They own that's what their position is. And so everything that they have done is designed to create a tax on what you own. And if you don't pay the taxes, then you get it taken away from you. So if you register your car, then your car is going to be found to not have the registration and and they'll find you and do you do everything that is necessary to get you to comply with their request. This is the way it is in America. I do not believe that it's any different in other countries, because you have the same cabal to be a member your country to be a member of the inner mountain or the IMF, the International Monetary Fund, your country has to be bankrupt. And you have to be able to create money from nothing. That's part of the whole program that's going away. So when we get into the funds, let's say you have a mortgage on your home, the sorry, I will require that that be forgiven. And so who owns the home and all that sort of garbage? Well, the fact is, is that they use the promissory note, they took the promissory note in the back office, told the feds who you are. And here's your bond. And so they they charged it to your bond. And then they gave the money to the bankers or the closures they paid for the house. And now you have to use, you have to move into the house, pay taxes on it. And they still own the home regardless, because of the way that they did this. So there's no private, real private ownership of homes. If you think you have a home, that's your private ownership, then don't pay your taxes on it. And see how long it takes for that to take your home away from you. So the Cabal thought they owned everything. And what we're doing is not just forgiving the mortgages, we're turning our backs on them, we're disregarding them. Meaning that we don't carry the cabals way of doing things into the new world. And so all of that system has to go down. And the way that we're going to do our private home funding

program will be indicative of the way that the Tsar is going to conduct business and laws and so forth as far as governance is concerned. Now, remember, I said governance, not government, there's a difference. With the T on there. That's the bad guys. Governance is the way it's supposed to be. And we're going back to the 1776 and the Constitution to bring that back in play Not we but everybody else is that you know the powers that be. So what we're doing is we're just pretending like all of its taking place right now. And that the, the government is not involved with this anymore. And the home ownership, if you want to buy a home, you find the person and through listings and all that sort of stuff. A person's wants to sell their home, and you just need to have the downpayment to pay for it, then you negotiate, what you're going to do when you're going to move out and leave the refrigerator and other appliances or whatever, and come to a reasonable point of sale. And that's the bill of sale is the thing that is going to work in your favor. Because one person, this is what we'd like. And the other says, This is what I'm offering. And so you come to an agreement, and you fill out the bill of sale. And then we as a loved one society will, and through our program through the primary or private home funding will fund the home. And what about the title, their title is, is his messed up, because they think that they own it, so you're never going to get a title to your house. So the way we're doing it is going through our own process. And it will end up that the the documents that are necessary for you, as the owner of the home cannot be challenged because nobody really knows about it until they go into the either the revenue sharing solutions platform, which will have evidence, your evidence of ownership and also the quantum financial system. Because there's a a an exchange of transaction that's that has the means the home is yours. And so the cabal is going away, we're disregarding them. We're telling you know, go some other planet, we don't care who you where you go. Just you're not going to have any any play in our Nisar. So we're assuming that everything has already taken place and managing it so that when the SAR is announced, there's no problems. And we're looking towards the Alliance cleaning things up to sufficient so that the redemption appointment is going to take place before the the SAR is announced. And in my opinion, I don't know if an SR is going to be announced, it's just going to be implemented. We'll see how that looks out. I could be wrong and it's okay if I'm wrong. It'll just be whatever it is, we'll be for in favor of we the people and get rid of getting rid of the Cabal. So we're already doing that with our new project. So it's kind of fun is still in the preliminary stages. And we're having certain individuals in real estate that can give us some good feedback. And then we'll move forward giving our information to our people first managing directors and training. And then we'll start publishing it on dinar Chronicles or other locations. And that will cause a major problem for a lot of people. But it will be a major solution to the greater number who are not part of the Cabal organization. Things are changing. It's gonna be fun with that. Let's go ahead and and get into some questions.

C

Carrie 09:05

Okay, does anybody have any questions about what Ron just talked about? We have two people with hands up. Anybody else? If you want to ask a question about what Ron just expressed regarding the real estate program, go ahead and raise your hands. And we'll get to that before we go back to the wealth management. Go to me out test. We'll come back to you. Mia, your mics open.

S

Speaker 09:29

Hello. Hi. Hi, Carrie and Dawn. Okay, I'm just really interested in what you just said wrong

because I was feeling really uneasy about the other program. And now I've just had a whole release come off of me when you said I'm like Oh, thank God. So I really feel that that's the right direction to go in. My spirit is like buzzing because of it. So that because I was actually thinking of why In the other program, why we were giving the real estate people so much money, which was one thing, and another thing, how complicated it was. And then in the end, I ended up thinking, Well, why don't we just give them one sum of money? After we've done the house and everything just as a bonus, you know? So, so now I'm left thinking is, are they going to be involved at all the real estate as it is, today? Or will we is that part of the Cabal thing that you were talking about?

R

Ron Giles 10:31

Well, they can be. And we're designing it so that they can be that would be the determination of the person who is selling their house, whether they want to list it through a listing service, or, or just, there's a possibility and a probability that we're going to create our own database of homes, it'll be worth thinking of having similar to the way you CAC are on the map. And only a much greater detail. So if you have a house somewhere and you want to sell it, it can you can give the metes and bounds and it'll be on the on a map, somebody wants to in that city wants to move over there, then take a look at those homes that are available in that city. And then that's by metes and bounds and you click on Where's where's the house for sale, and then you'll get all of the information that you want to get. So it's a it's a big program, it's going to take some time. And please allow us that time, but we're trying to get things done as quickly as we can. Give it to our people first, and and if there's major problems, and we'll find those out, and then we'll send it over to the world and cause major commotion, we are the only ones that have money.

12:00

I know. Because I think I'm not sure. But I think you mentioned this right at the beginning, like last year, about how things are going to be in the future. Whereas this things are so complicated. For instance, when you do buy a house, and I do believe that you said something about it will be much simpler, it'll be just like a transfer of money from one person to another. So it's just like more or less buying a car for somebody or anything off of somebody that you will say, oh, I want to buy your house. And he and the man will say yes, that's fine. Okay, it cost this much, and you just transfer the money over to him and you've bought the house. So do you think it might be as simple as that?

R

Ron Giles 12:37

Well, yes, but there has to be a down payment that the buyer comes up with? Yeah. 10% down payment for the size of the home. So

S

Speaker 12:49

yeah, okay.

R

Ron Giles 12:53

But that's a determining factor, how much you downpayment you have?

S

Speaker 12:58

Yeah, but then the process will just be very simple. Because I remember thinking when I was a child, well, why don't when you want to buy a house, why don't just go out and buy one? Why does it have to be so complicated with everything going on around and we have to pay all these fees and everything? So do you think that would still be or? No, no, no, not?

R

Ron Giles 13:21

Everything will be within the revenue sharing solutions program in the back office of each individual beneficiary? Yeah, all the documents are there, everything that they need. Now, the one thing that we have determined is that the seller has to be a member of loved ones society as a beneficiary. Yeah. And so that that person would have access to all of the documentation that the buyer is using to get up to the speed where they make an offer. And then to a point of, it's a bill of sale, and all of the conditions. So the purchase when you're going to move out, when can we move in. And we think that if it's done properly, you can have you can contact the buyer, we have our down payment, it doesn't matter to him who you are, where you are. It can happen in an hour or two

S

Speaker 14:22

down to us, will it to actually just pay for the house. So will we just pay for the house for somebody, like somebody wants to buy a house? So for a million pounds, let's say, and so will it be us as managing directors that we will just pay for that house for them? Buy it for them and give it to them? Or will we still go through some sort of system where we'll download money into their account? And then they'll pay it back to us because that was the complicated bit? I think. So is that something that you're still thinking of doing or not?

R

Ron Giles 14:55

Well, it's it's similar to that but it's fine, refined and made more simple to understand. We've got a lot of the details, we put the bones together now we're putting the meat on it. And so, you know, we've got a lot to think through to be sure that we've set it up properly. And, and we're in that process now. And the alliance is just tickled to death with what we're doing. So yeah, great tickled to death. That's our term, but they don't say it that way. Yeah, girl, we're rattling the the bells up in heaven, whatever. Maybe the harsher. Yeah, really, ever. They're really excited about us doing what we're doing.

S

Speaker 15:43

Yeah. So will the land also that the house is on? Will that be owned by the person?

D

Dominick 15:47

Hey Mia, I gotta stop you. But no, no, you're okay. We love you to death. And I love the questions. But the one thing we want to make sure is that, as Ron said, We want to make sure this program is off and running without a hitch, before we present it to everybody. So I kind of wished I kind of hope we don't ask any more questions about it until it's been presented to everybody in the group because it could change we just don't know. Yeah, so Ron is doing a great job of covering what he needs to but it will be presented when the time comes. And if you guys could just be patient shouldn't be much longer before you get to see it. Okay.

R

Ron Giles 16:25

Thank you for your questions and interest in this. I appreciate it. And yeah, let's move on. We got some real good stuff to talk about today. So let's let that one go behind us. And take care of what's coming up here. Okay.

C

Carrie 16:41

Okey doke. All right. So today, we're going back to wealth management series. Number three, allowing yourself to be wealthy. The RSS program allows both a constant flow of money, and the ability to earn more through the bonuses it offers. The program shows the universe that we are benevolent and responsible in sharing this new program with others, giving and receiving puts you in harmony with higher principles. These higher principles attract abundance and joy, which is the way it's supposed to be. Consider this an inheritance for God for us to enjoy and to share.

R

Ron Giles 17:23

Yes, I'm looking at that carry. And I'm saying to myself, the one most important thing on that is the concept of giving and receiving, there's probably there's a lot of people who, especially the new ones, who haven't listened to our battery's about with the concepts of giving money to people, and then them going off and retiring and not contributing to society. If a person does that it's a universal law giving and receiving has to be balanced. It's a universal law. Like I said, Why is that so important? Well, if you're only a giver, then you have mothers give and give and give. And it's from love. And I appreciate that. But sometimes the kids don't appreciate it. So the mother's giving is out of balance, because she's not requiring to receive from her children, or possibly not. But giving to them without responsibility is receiving on their part, which can paralyze them in terms of their growth and development for mature ways of living. Giving unconditional there, they pump that up as the is a really good way to be. But I tell you that it's not you have to give and receive. And how many of you come to a person who is so giving? And you offer them a gift of some sort? And they just Oh, no, I can't accept that. No, no, I won't do that. We'll see they're giving is out of balance with their ability to receive. And if nobody can give a nobody conceive appropriately, then we have chaos in our communities. And so this plan, the revenue sharing solutions plan and the wealth management series is help people to understand that you are receiving this money as a gift from God. It is not just to be so you can

buy all the liquor you want or all the drugs that you want. And I'll say it this way. If you do use the money for that. It's your money and you're free to do that. Now, that came from Ron Paul You're free to do that. And the alliance is not going to withhold the money from you. If you're doing illegal things, then you might have some problems with the purchase of those things that is controlled by the quantum financial system. Those are the rules that they make, and the things that they provide. However, I'm saying, if you, let's say you spent a lot of money on alcohol, become an alcoholic, and did that today? Well, you'll find it there'll be a time when your spirit will rise to the occasion and say, This is not the way I want to live. This is there's no future in this. And so you're still getting the money? Why don't you use that money to go get yourself some healing modalities? But in saying that, are we disregarding the what the the bed beds can do? And that technology? Can that take away a person's alcohol alcoholism? I believe it can. I think that people go there because they have a problem with their something in their life. And they use alcohol as a deterrent, so that they don't have to rely to deal with the reality that they've got some real problems. Well, eventually, it'll come to them, because we're moving into the higher realms, and we're vibrating and moving up accordingly. Those who are alcoholics are going to have some problems doing that, but there's a certain amount that's going to go happen to them, regardless, because we're all trying to work, the heavens want us all to rise up and, and participate in the fifth dimension. So there are certain things that will happen to a person's life that will cause them to get rid of their alcoholism, and any dependency on drugs, drugs, is just a reaction to the cabals way of screwing up people's lives. And if you don't have those, if your lives are not being screwed up by them, then there's no reason to go that route. And so I'm saying the funds are there to help you to become who you want to be. And the creation process is one of the biggest things that can overcome a alcoholism or any other ism creation process means that you're coming from who you are, and, and are aligning with that. And that's the sort of thing that makes you healthy. So there's a lot of things that are involved with this, and the wealth management program is really important. So those of you who think that a lot of people are going to go off and not want to work. Do you know better than what the alliance has said? formulate your own opinions, but you think you know, more than the Alliance, I have a different understanding for you. I came up with this problem. Three years ago, and I asked the Alliance what's what is to stop somebody from being a lotto mentality. And so the idea was, if I get the win the lotto, then I'm going to quit my job. And you know, they always say you go to your bosses, take this job and shove it to her, the sun doesn't shine and all that it's a it's an attitude. But people will have a different way of looking at it. Only 3% of people, this is what the Lion said to be only 3% of the people will have a tendency to want to just take their stuff and not give back to society. That's taking and not giving, that's receiving and not giving. And those people will never be happy. Because they're giving and receiving is out of balance. If you wanted to be happy, give and receive, allow somebody to give to you, if you're a giver. It's been my experience that those who give a lot, have a real, real difficult time receiving things from other people. Because they think in their mind that there's a discrepancy or a less advanced person. When you receive yourself when you receive something from somebody else. Those what giving people do. I can't take that I wouldn't I wouldn't be happy with that. Why? Well I because I'm a giver, not a receiver. If they said that, then that would be true. So giving and receiving is the way of the future. And if you don't have that balance, you're going to have problems. You Your life will be chaotic until you learn how to control you're giving and you're receiving, giving, so that you can be part of the community and receiving so that you have the funds to buy things that other people have created. That's the way it's going to work. That's the way the golden age of mankind will work. And those who are not ready for that, they'll have to get with the program very soon, or they're going to be left behind. And it's not loved one sided, that has anything to do with a judgment like that, we will never control things like that. We're leaving it up to the individuals, and that's their free agency to do what they want to do. But there are consequences for the decisions that

you make. And those consequences can be very adept natural, and things that you don't really want. So each person is coming back to their own personal freedom free agency is what was given to us as a condition for creating it, the third dimension, nobody controls, you know, we get whole who we got the Cabal controlling, that's their free agency, this, you understand that, that's their free agency, they are creating a tremendous amount of karma. And it's going to be a real hard time for them to overcome the crap and the garbage that they have created. And I don't think they're gonna make it, they're gonna have to go some other place to finish out their third dimensional experience. We on the other hand, they shut us down so we don't have our God's self knowledge about ourselves. And we're going to learn how to know that we have the God's spark in us. Let's turn that into a from a fire from a spark to a fire, and let that consume us in the love and everything that's going on around us our love for ourselves, our love for God, our love for one another. And that's the way that the third dimension, or excuse me, yet, well, the third dimension should work that way, but it's not. And as we worked at, then we'll rise up to the higher dimensions go through the fourth and the fifth, maybe on up into the six, wherever you want to end up, we'll be able to do that, because we have the free agency to make the choices to do it. Okay, I the other stuff, I guess it's just nice these, let's go on to the next one. Next, we'll actually,

C

Carrie 27:43

yeah, you actually pretty much covered it, but we'll read through it, the intent of our wealth is to share it and to put it into a flow of giving and receiving the giving to is to others paying it forward, the receiving is the joy and happiness we get from giving, which is in harmony with the universe, the flow is for everyone with no one left out.

R

Ron Giles 28:10

I can just simply say amen to that. Okay, all right, right.

C

Carrie 28:17

So now we're gonna go back to the pyramid philosophy, the top tier will no longer be in control, receiving the highest share of wealth, the entire pyramid, excuse me, will equally receive the abundance of the wealth, we will no longer be in a Have and Have Not community society. Financial stress goes to financial joy and happiness. And we are going to allow what the flow of funds. We're not I'm sorry, allow what flow of funds will be comfortable for you then just allow it to happen. It's your stewardship responsibility to just allow yourself to be wealthy.

R

Ron Giles 29:08

Very good. top tiers will no longer control yes, they won't, because they won't be here. All of the programs and things that they put forth that are controlling as I called trespassing on our God given right, and that's not allowed. So anybody or any thing that trespasses on another person's ability to make up the decisions for their own self and their own life, anything counter man's that it's trespass, and trespass is a moral sin. And you can tell me what you want to tell me about that. But it's in the Lord's Prayer about trespassers and trespassing and how we're

supposed to, to stop trespassing on other people. That means we don't exercise control over them. If somebody didn't ask your opinion, keep it to yourself. If somebody didn't ask for your opinion, keep it, keep it to yourself, especially if it's mean and nasty and negative. So we have a problem with that today in our society, with the division that's been caused by the Cabal, and the and the mainstream media. Certain people get their information from CNN and you talk to them. They don't want to listen to you. And yet you still talk to them and talk and try to preach them and change their mind. You are in the wrong, ladies and gentlemen, you are in the wrong to do that. And if I'm not correct, then tell me how much joy and happiness you have found in managing other people's lives and telling them what to believe. Come on, and I'm waiting for it. Nobody's gonna do that. Because nobody has had joy and happiness and making controversy with somebody else. Now you can if somebody's trying to teach you something, then say, you know, that's inappropriate for you to be discussing that with me, I haven't given you permission. What are you doing, I'm exercising control of my life. And I did not give you permission to trespass over that. So if it's your opinion, then keep it to yourself. I'm not interested in listening. There's ways for you to stand up for your rights. But there's ways that you can stand up for your rights without trespassing on somebody else. We always confuse that. When we're when we're trying to defend ourselves. We think we need to attack their position, just like they're doing TAs, what is it? Do? You're trespassing? You're trespassing over there. So they're trespassing over you tell me how much good is that going to happen. So those are the things that we need to understand and, and apply the correct principles to our lives. We're getting into where the devil LIS lives, the devil is in the details of our lives. And if you want to go there, shake hands, no, fill this hole horns, look at his tail. It's all there. That's what the devil lives in the details. And if somebody doesn't like it, then they can figure out that for themselves and make their own changes. You know, best thing is do is to pray for them. And then we have to be very careful about that in our prayers so that we're not trespassing. So and so don't be specific in your prayers be general. I pray that the people who do not understand what's going on will gain some understanding and be able to make some coarse adjustments in their lives. Now you're sending that out and it's it's it's surrounding those people and if they so choose to tune into it, then there it is. And your prayers are answered. However, if you're doing specific stuff, like I want my brother to know that his CNN is a terrible place to get his information and that's where it gets it from. So he needs to change. Well, who the hell do you think you are? To tell somebody that they need to change, maybe you're doing something just as dastardly in another area of your life. The devil is in the details and you don't know about it. So if you want to find out where your problems are, start looking. Start looking and identify and then do a course correction. The best way to do that is through command. I command Prime Creator to take away the things that are not inherent with me as a human being. Take it away. And that takes away a lot of stuff. If he'll just continue to go with them. Okay, the entire pyramid will be gone. The top of the pyramid will be gone and it will just level out to where it's one big square or pattern for the whole world. It's going to be interesting to see how if you lack it the Cabal has, has created a Lachman Tality so that they can control you, there is not enough money. So you borrow money to live. Now you are under their control. They did that on purpose, we give everybody money so that they are not under control of somebody else, we bond our account so that they know it's going to last. And so they get a chance to change themselves. And that's where money comes in. Now, if they use the money appropriately, they're going to find the joy that money can bring, if they use it inappropriately, they're going to find that the money will not bring them any happiness. And they will continue on as they had been before. But you'll find that most people will have all the money that they need. And money, the lack of money is not going to be there. So they, if they want to find more money they can do so it's all going to be there. And I think everybody in the world should have an employment contract. And she'll have six beneficiary trusts, and have a home that they got through us. I think that that's just wonderful. That's what it's all about. You'll have the money to

buy your food and your clothing, and your toys and stuff. But you'll also have the most essential item that you need in your life. And that's a house, a place where you're safe, and you are secure. And nobody can come and take it away from you legally. That's that's what we're about. That's what love one society is about. And that's why we're expanding. Okay, there's, there's not going to be the No longer will be the haves and the have nots, I think that that's going to eventually take place because everybody, you know, you keep up with the Joneses. And then all of a sudden you keep up you are the Joneses. set a new standard. That person's personal will be judged by their ability to give service to mankind. And how much money did they have? And how much did they give. That's not how much money do they have, and they spend it on cars and all kinds of toys and things like this, that are more important to them than service. So let's see, let's see how we change the way we live by giving service and spending our money on helping other people if that's what you feel, but you'll have plenty to not worry about you being left out or not having enough. You can do what you need to do. But somebody's lacking money, just make them a part of our revenue sharing plot, making them a beneficiary. You don't have to lend them 20 bucks, because they sign up for 10 bucks, Hey, give them the 10 bucks, if that's what you feel you need to do here, let me buy this account for you. I'll pay the \$10. And then tomorrow, you're gonna have \$144. And the next day, you're going to have another 144. At the end of the week, you're going to have \$1,000 1000 oh eight or whatever it is. So the money aspect is it's going to change. It's it's going to be phenomenal how it changes the way our financial structure is, and then it changes the way we live. And so we're not concerned about money because we have plenty for our needs. So we can become creative. As human beings. That's who we are. We create things. Imagine all that money out there and people just creating from their hearts. It's going to be really, really good. Okay, it is your stewardship responsibility. Just allow yourself to be wealthy. Yes, just allow yourself what does allow me. I'm okay to be wealthy. I'm at my greatest potential growth and development and capacity to give and receive at a very high level. If I allow myself to be wealthy, it's coming. So why not just allow it to be there and say I am a wealthy person. Is there anything wrong with that? I'm healthy, wealthy and wise. Make that your mantra. Allow yourself to be wealthy. This is all that we're trying to say to you. It's a new way of living. Allow yourself to be wealthy. Okay, move on.

C

Carrie 39:42

Okay, so our last final thought here is regarding wealth. Is it just about having more and more and more or is it about being of service and sharing with others? Something for us all to consider? And do we have any questions about giving Receiving allowing ourselves to be wealthy. abundance mentality or consciousness really abundance consciousness before we move on. There were a couple hands up, but okay, I guess we'll up okay, Diana, this is

S

Speaker 40:17

only my second chat with this whole thing and I'm trying to figure it out on my phone and I think next week I'm going to use my laptop and mic because I can't look at the notes because I'm on my phone. Anyway, what I wanted to mention was because I attended the meditation last night with Tracy and I could not tell her thank you or anything because I had the same issue with my phone. But when we talk about these commands with the Prime Creator, I can

understand it it spiritually. But I don't understand. Is there part in the LW s finder paperwork on the website on the training for that on how do we how do we know how to create a command and what we say and, and all of that.

R

Ron Giles 41:05

We have not, this is a new thing for us. We're busy on other things, so we can't quite a bit to it. That would certainly be open if other people were to make an attempt. And something that we don't have to create but can adopt from some really good people. And we have those kinds of people around. So it's an opportunity for you to share and share on the on the chat. And if it feels really good, then send some information into Tracy through the replying on the emails. Let's not let's not jam it up with things that we got a lot of people sell now with the SK Rs, there's a whole brand new set of people. And Tracy is just overloaded with questions about SK RS that are simple to answer. They'll just go to the website and look up the under the name. But the drop down menu the first one then there is I think it's programs. The first one there is SK Rs. There's a big long article about it. And if you read that, you'll understand what we're trying to help you with.

S

Speaker 42:20

I mean, I've been through those programs. Yes, I'm sorry for interrupting.

R

Ron Giles 42:24

And I'm just saying generally. And so those people I forgot I was gonna say, anyway, the program is there and learn about it and get familiar with it. It's for all I was gonna say, some people have even wondered, Where do I send my my bonds to so that I can pay for my, my SKR? As if they needed to do that. And I'm saying no, we have a tremendous amount of people a tremendous amount of bonds that were donated to loved one society for us to share with other people. And instead of sharing the bonds, we're sharing the SK ours that we have all of them paid for, that we're sending out there already backed by actual bonds, not persistence, specifically Millennials or 100 quintillions. But we have the larger bonds that we just break up. And that's what the alliance is allowing us to do. And so it could be it could be another round of SK ours. In a period of time. We'll see how that goes. I keep asking the Alliance, because we have all the bonds necessary to cover. But they want us to be prudent about new people coming in. And we don't want to overload those people. But we want to be sure that we get this out there because it's a potential for everybody. And its major potential. Now most of the people will be putting these new SKR into their savings account. Because they've got SKR for before that they are going to use him they're structured payout accounts. And the structured payout account is your annual allotment from the quantum financial system. And right now it's well it depends on what you got what you've got in there, but it's ended the quintillions as well. So most of the money into the structure savings account.

C

Carrie 44:48

So Ron, I'm happy to help Diana Diana, I'll send you a private message and give you some guidance for the commands

guidance for the commands.

S

Speaker 44:55

Okay, honey, thank you very much and thank you so much for everybody you to Ron By

R

Ron Giles 45:00

You're certainly welcome.

C

Carrie 45:03

Okay, hope a rising, your mic is open. Hope arising.

S

Speaker 45:08

Hi, good afternoon, everyone. My question is I, I have done a lot of the training and I'm open with everything I know there's great transitions coming. With my personal situation, I'm caring for a grandchild. That is paralyzed. And I know that there is a great deal of change in that aspect coming. But I know with 24/7 care in the transition, do you have any idea from the Alliance, if that would be something that would be open for discussion with your counselor at the time when you go in with the expectations of transitioning, and committing to the humanitarian work that you have in your heart, for those kinds of things to open up, and how, you know, if that would be a quick transition for the children that's been most heavily impacted around the world. Due to a lot of the things caused by drug alcohol abuse, you name it, there's a very, very long list. But basically, Cabal oriented type is items that's been inflicted on the children that they would be maybe medically addressed quickly during this transition.

R

Ron Giles 46:48

Here's, here's a comment for you about the problems in society that are caused by the Cabal. Now I appreciate where you're coming from, you're coming from your heart because your heart is tied, being tugged at by these kinds of circumstances. The real way to get rid of that is to discredit and this assembled the cabal in our own individual minds. What do I mean by that? The Cabal did this. Where did they do that? Is it in the history? Is it present? Is it in the future? The Cabal owns the history, they own it. Because most of your thoughts. I don't know what percentage, but a very large percentage, your thoughts are things about history. And the children have had this kind of history. But it is history. They're suffering from it. If you focus on that, what are you creating in the present time for the future. Now the Alliance wants you to do everything possible to help wherever you can. But they are not interested in you focusing on it to recreate it for the future. And so the only way that we can do that is just quit talking about the past. Now you have a child that's had some problems in the past. Well, if you're focusing on that, then you're going to recreate it for the future. Not only for yourself, but your that child but for other people to have the same experience. Now, I'd like to be more clear about that. I don't really understand how it does, how it affects on a single person as opposed to a group of

people or a lot of people. But I'm simply saying that if I don't want any of that in my life, I'm not going to focus on it. I will not tolerate it in my existence. So now that I've made up my mind and my decision on that, and I allow that to be true for myself. I don't have to go back and visit for any reason. Whether it's my one of my own children or grandchildren, I don't go back there and revisit that because that's what I'm carrying with me into the future. And why would I want to do that? I'm not perfect at it and I don't expect everybody else to be perfect. But if we can learn that that is the proper way to go. And that the reality of our thoughts creating Our next moment of thinking, then we're getting rid of the bad stuff that's we are thinking about and carrying forth into the future. And we can just simply let that go. Now, is this is this rocket scientists science, I don't know. I just know that the creation process that which you focus on, is what you manifest. Now, if we believe that and make exceptions for things that are tugging us on the heart, then we can deal with the one there are two things that happened. But if we're looking at the overall, we're participating in the continuation of those things, the alliance is getting rid of it as best they possibly can. So why do we hold on to it? Bed beds, the technology of med beds will take care of all that stuff. Why don't we listen to that? Is that not a cure all for all those kinds of problems? I believe it is. But we're not letting it take over. If we didn't recreate by our focusing of the bad things into the future, we would have the med beds now. We would have the redemption now. We're just slowing it down by not doing things appropriately. Appropriately means you quit creating you quit focusing on the bad stuff. We're not creating the bad stuff into the future. So why create? Why focus on it? Why don't you focus on the golden age of mankind? Why don't you focus on the fact that everybody's going to have the all the money that they need a house to live in a home, your children will be much more balanced in their lives, because there's no traumas that that can come through. There will be traumas, I'm not saying that. But we can deal with them and a whole lot differently. By adopting new concepts and new ideas and new understandings. We don't have to be devastated by those children. In the past, they're being taken care of, they're in God's hands. I don't have to do anything for them. I do what I can. But the reality is, is they're God's children, he's totally aware of them. There might be some kind of a purpose for what they're going through that will develop them into what God wants them to be. And the more that we participate in it by recreating it for the future, what are we doing to our future? Let's let the Cabal turn your back on the Cabal turn your back on everything that they have done. Just let it be gone. As if it did not exist, if it has never existed, because it's not going to be who we are in the future. So when are you going to make that change? Do you have to have the evidence of it? Or are you going to go through the process of creation and letting all of that old stuff go away because you're not thinking about it anymore. This is a major problem that we're having right now a major, major problem even with our humanitarians with all of the heart of a humanitarian, they are creating things now that are going to persist in the newness and they're in the Alliance to say we can't allow that. So we can't pull the trigger on the RV and and the other things that are supposed to take place because they will just recreate it for the future. So we have to wait. We have to wait. I'm not talking about the people who are asleep. I'm talking about the people who are awake, the prime movers of society or creating a society from the old and projecting to the new. I'm talking to our sacred humanitarians who have service in their minds. Let's let's work with our projects, if their solutions to problems and their solutions but if right now we are not working Need a failing grade brothers and sisters ladies and gentlemen, managing directors directors all of us we need to start looking into our the way our minds think we need to know how the creation process works. Is this something new or if I've been talking about this for a long time it hurts when I go to the the Alliance, they say you're not ready yet. You want me to tell them that? Someday they're gonna have to know. It's gonna break their heart. Yes, that's probably to maybe their hearts need to be broken and mend in a different way. I hope we can change. I hope we can take everything that we have and make it different. So let's go with him for now. I'm sorry, I'm playing left field
