

Wealth Mngt 3 & 4 - Oct 4 Part 2

Thu, Oct 06, 2022 7:09PM 1:06:10

SUMMARY KEYWORDS

people, ron, questions, money, wealth, society, africa, life, humanitarians, receive, projects, thinking, program, home, abundance mentality, mic, create, beneficiary, carrie, ready

SPEAKERS

Ron Giles, Carrie, Speaker, Dominick

Dominick 00:00

Ron, let's go. Let's go ahead and move forward to wealth management series number four, and that this particular series, the title has to do with the responsibility of wealth. The purpose being that the responsibility of wealth is the part of dealing with wealth appropriately. So with that, couple bullets in the beginning here, when receiving wealth, the focus is on the responsibility to using wealth wisely, and transitioning to the abundance mentality. And that wealth doesn't make us better than others, it just gives us a chance to work in harmony with others of wealth, and then well provides a better communal living experience, care to comment on those.

Ron Giles 00:42

Yeah. When you receive wealth, like said here, the focus is on the responsibility to you in using it using wealth wisely. And transition to the abundance mentality. What does that really mean? How would you use take a gift of up to \$28,000 a month? And then it goes on beyond that with the use your bonus programs? How do you turn that into a healthy way of living? So it's not a responsibility that you have to others, that you use wealth wisely. In creating your abundance mentality, the responsibility is you. If you don't use it wisely, you think it's gonna affect some other people, not indirectly, but possibly indirectly. But you're the one that's going to be suffering, because you're wondering why you can't get the abundance mentality when you're going out. And just frivolously spending your money here and there, and wherever you darn well, please, and you don't really at the end of the month, you don't have anything to show for the \$28,000 that you just spent. And so you get another chance at it for the next month. These are the kinds of things that I'm looking at as far as people are concerned, not processes, not the problems associated with other people judging me, I have to be responsible to myself, it is my stewardship myself, nobody else is going to be a beneficiary, or a tragic result of the things that I do, except for me. I'm the one that's lacking. If I'm here to get an abundance mentality, and then I have to do so according to principles. And those principles are using your money wisely. That's what these whole sets of wealth management, or wealth education management are for. So we can get a better feel for the right way of thinking about things. And I think that this is really one of the best right here is we have to figure out in our minds, what is appropriate

for me on an individual basis. One of the ideas that I need to embrace. You're learning how to use commands, you're learning how to come from your heart, and making the decisions instead of your mind. I think this is a worthy process. And I asked you do you think so too. I'm using this for me because I need that advantage in my life to be able to get the abundance mentality. So I have to conform to things conform, meaning that I take full responsibility for what I do. It's my stewardship. I've got this amount of money to make myself happy. And if I'm not happy, then why am I not happy? Because I'm using possibly using the money and appropriately. We'll see. Once you have all the toys that you want, once you have all of this out the other how many dials do you need for your children? How many boats and cars and trucks and trailers do you need for yourself? Those are those are things that are okay to buy. If that's what you want to spend your money aren't. Are you also creating things for yourself that are unique to yourself? We're looking society is looking for the persons who have the uniqueness to create things that the society needs. Not all of the things have been invented. Not all of the pictures have been painted. Not all of the dances can be made or are already there. What about music? What about sculpturing? Well about pulling up a new field for the soccer field or something like that, can you want to help with that? Can you do that, or depending on somebody else to do, these are the things that we can take, take in our hand and do it ourselves. Okay, so wealth doesn't make a person any better than others, we always, we always have looked at other people who have money. And we said, they must be smarter than I am. I'm not very smart, because I don't have a lot of money. That is not the reason. It's the brains that you have, and how you effectively use that brain. If it's disconnected from your heart, you're going to have some problems creating the fun and the joy and happiness you're looking for. But if your hearts there, and it's hard is picking, helping, if not, I'll close here the decisions that you're wanting to make in your life, then that's going to be more enjoyable for you, if you do. So. Wealth, the wealth of others is really none of your business, you don't need to look up to somebody because they have well, they'll, they'll show their wealth one way or the other. They'll either be pretentious, and continue to buy things. So people will think that they're really great. Or they'll buy you might save up their money and go around the world. And you won't see there. But that person is just finding joy and happiness in the use of his money, rather than pretentious. Giving and Receiving or taking away and buying things so that other people think that you're more than you are, that's a real psychological problem that a lot of people are going to have, and they're gonna find out that they don't need to do that. They're gonna find out for themselves, that's stupid. You don't have to keep up with the Joneses. You are now the Joneses. You set the standard. And those kinds of people who follow after the challenges people, they'll look at you and say, no, they don't care about other people, I should just go ahead and do the things that I need to do. And then I'll be happy. These are the things that are coming. Okay. And wealth provides a better Camille that have been service experience to be a yes has, that's what our communities are going to be like, we're going to make it wonderful, golden age of mankind, everybody is, is has everything that they need good food, good clothes, good experiences, good recreation. And most of all pretty good relationships. Are there any questions?

D

Dominick 07:57

I tell you, let's run let's go head on to the next section. And then we'll open it up. If people want to kind of start to raise their hands that would be awesome. I really especially like this link tie into the RSS program how just seems to naturally fit this responsibility of wealth, Ron. So with that the RSS program we know is the vehicle that allow us to gain wealth, meaning as beneficiaries and we as people dispersing the funds, and it complements a person's desire to have wealth. So with the Arsis program and the participation in the program produces this tremendous change that we're all going to see in the way people live their lives going forward.

And it's going to provide a more mature and abundant living that many of us have not been able to have before the more revenue received the more a person will feel comfortable receiving more wealth. You know, we talked about the haves and have nots run but to keeping up with the Joneses will no longer exist, because everybody will be the Joneses. The RSS beneficiaries will have all they need and then each person will use their wealth in harmony for their purposes here on earth at this time. He comments

R

Ron Giles 09:10

Yeah, I do I like that and well done done. Without going through each each of them individually. When you are living according to the things that you understand to be correct. There is a compounding of the results for you have beneficial results for you. By an increase in your vibrations and increase in your spiritual essence, your spiritual power. It it comes naturally because you're paying attention to natural laws. And you're using those laws and being smarter about them to create a different way of thinking in your life. And in doing so, you you raise your vibrations yourself? How do you find that the joy and the happiness that you have looked at been looking for is not about money. It's about how you use your money to the help of other people and the enjoyment of yourself. I think it's a really a lot of fun to help other people financially. As we start talking about people getting into homes, it just, it humbles me that God has been able to have us do this for I think this is just the one most wonderful thing that you can be doing. This is my, this is the greatest joy that I have in my life. And I get to do it. And I'm thankful for that. And gratitude. So I'm grateful for what I have, and the ability that I have received from the heavens to carry on the way that I do. Because it brings me the joy and the happiness, the peak Joycean the happiness that I'm looking for. And as a result of that, I can tell you that it has changed my life. I didn't used to receive this well. It's changed all that. And there's no reason why it can't change you and your thoughts and your ideas and your and the things that you think about the things that you focus on, as we said before, focus on the good things. And that's what you're praying for. Well, that's just a correct principle that you're obeying. And then the the blessings come from that as a result of it. And all of a sudden, you have things happening in your life that you never thought would happen. I never thought I'd be an abundant person. And yet, what's happening for us? Yeah, we've got it all. We've got everything that we need to be happy, and find the joy that was created for us to to enjoy living in living in joy. So these are the kinds of concepts and understandings that will help us if we will embrace them to the point that we will make course corrections in our lives, and not have to continue to put up with the crap that we have recreated as we move forward. And I don't want those things that I had in the past that I don't like about myself, I don't want to recreate them in the newness, so I've got to change them myself. If you are dishonouring, and disrespecting your spouse, both male and female, you're never going to have a relationship that's worth having you just coexisting together instead of having the love quotient that sustains and builds and grows within you. Live in the commandments, living the concepts the commandments shouldn't have said that, because I'm not sure that's really true with the commandments that cabal left with. The real stuff that we're looking for us in the New Testament where we have all of the stuff that Jesus has told us. He's the master teacher of righteousness. And he's showing us the way he if he created a church, he will call it the way of the teacher of righteousness. Because he's helping us to understand the righteous way of living. And that's by using the Well there's two things here, by obey the certain principles, then we can avoid the problems or not obeying the certain principles and having a less than possible way of living. If you want to peak, if you want the highest, then you're going to have to do the work. But it's all there for you to do. We're not going to tell you how to live. We can't do that to every person. I don't want to do it anyway. That's none of my business. That's trespassing over my over into other people's life.

I don't want to do that. Because that destroys my abilities. So I'm not going to trespass. I don't want you to trespass either. Think about trespassing. That's one of the major laws that we break. And if we obey them, then we get the benefits of obeying those kinds of commands or laws. You'll notice when you listen to queue, if you talk about somebody wanting him to comment on somebody, he won't go there. So I'd rather not comment on that. On a personal basis, he might explain a little bit more, but on a general basis, that's trespassing. You won't do that. That's one of the best ways that I have found to judge Q on because he acts like a higher resource spiritual being. He obeys the laws, he obeys the commandments. Those are universal laws. And he's telling us, by the way he acts. Because of that, I know that he is who he says he is. Consistent with the people that I talked to you from the Alliance. So these are the things that we need to understand. We're trying to make these things available to us, we use different words and so forth. But the basic thing is, you've got to do the work. And you've got to obey the commandments, or the universal laws to receive the blessings associated with those laws, and they are there and they are for you. And when you do, then you'll get the laws you when you do, you'll find the joy and the happiness that they're supposed to bring to you. Supposed to, they will bring them to you. Because that's the way you're living. Okay, I'm open for some questions with accordion in more detail. Okay. Carrie, do

D Dominick 16:42
we have any questions?

C Carrie 16:44
Do let's go to skis and rides? Looks like maybe a first time for you skis and rides. Right?

S Speaker 16:54
Oh, thank you so much for all that you do, Ron, and everyone. Actually I push the button by accident. So but I'm enjoying listening. But thank you so much for all that you do.

R Ron Giles 17:07
I love your comments. Thank you, even though you push the button not on purpose, but you are able to give us some positive feedback. So appreciative. Thank you very much. All right. Now

C Carrie 17:19
we'll go to Leandra, Leandra. And if you push the button, green button pulsating at the bottom of the window, it will open the mic on your side.

S Speaker 17:35

Is it like that? Can

C

Carrie 17:36

you hear me? Yeah, yes. There you go. Thank

S

Speaker 17:39

you. Good evening, everybody. Good evening, Ron. Now this is going to be WAV, this is going to be a very hard one for me to speak to you about that. I sort of popped into night of sort of a lot of the programs I spoke to before about Africa is not the same. But I listened in from time to time, because it's just such amazing energy and things that I feel when I listen. And I popped in tonight, and you spoke to me, you didn't speak to other people to notice spoke to me tonight? Because I was one of those people who didn't I keep dragging the past with me. Now, how are we going to deal with this, and this is not going to work and how I'm going to do that. And that's not going to make very much sense when I do it like that, instead of just trusting that things are changing. And that God is in control, and that nothing is going to be the same the way it used to be. And God will not put you in a position or in a place unless he thinks you are worthy of being the. And when you went off tonight, that lady asked a question you you you actually spoke to me, You gave me the answers I've been battling with for so long. And I have been making an absolute effort lately not to get caught up in other people's dramas. And if I do something to happen out of my control that I see what is the lesson in it, that I can become stronger. But the answer you gave tonight if we do not become the people that can move forward. If we cannot become the people, then we're never gonna get this blessing. They're going to keep it away from us. And if I'm part of that, then I need to change because I need to become very strong to move forward is a lot and I always believe that God put me in Africa for a reason because there's a special kind of person or personality that works in an environment that is very, very different to maybe what you used to what you think or how you use your your being is that God has put you there for a reason. And if you trust you'll open the doors and if you work he'll give you and and you keep on saying we're going to have somebody that is appointed to us to guide us and help us through this. We're not going to be alone. And I just I want to say thank you this is tinnitus been probably of all the things that I need to go through, and there's a million questions I still need to ask you. But those answers will come. But tonight was the best, best best evening, probably, since I've joined live on society. And thank you for that. I appreciate it.

R

Ron Giles 20:18

Well, thank you for your comments, that's wonderful and grateful that you are able to decipher from all that I said, the very positive things that can happen, you know, half for Africa. Africa is one of the most special people on this earth. And the most troubled by the things that have happened to them. Oh, yes, led to some major, major thing that's going to happen to Africa in changing if all of Africa will become a world player. And the African Union, not necessarily the African Union, but the other African organizations that can grab hold of universal laws and, and conduct their lives with honesty and integrity, and respect and love for their fellow beings has been the problem that Africa has had is because they have leaders who think for themselves or have about themselves and try and expand their you know, how many governments can lead,

we can talk about them all day long. But the African people themselves such as precious Thank you, when they grab a hold of these ideas and concepts, they will flourish. How Africa will be a major breadbasket for the world. You have everything there that's necessary. And laughing, and love, and with the free flow of money to to build things that don't give back. Let's, let's build 10,000 wells, and draw forth from the aquifer that's underneath all of Africa has started growing things and food they, their their ground has not been destroyed yet, like it has been in so many other countries. Very true. It will blossom as a rose. And the desert will become a place of joy and happiness and productive. Wow. I can't wait to see this happening. And it's going to happen.

S Speaker 22:52

Thank you, everybody.

C Carrie 22:58

One more hand up. We're gonna go to Monica. Monica, your mic is

S Speaker 23:03

open. Hi, Ron, then Terry and Tom, how are you all?

R Ron Giles 23:11

Doing? Well, thank you.

S Speaker 23:13

I just appreciate all of these calls. I really love hearing your voice Ron something about your voice. But I love your voice. very humbled, beautiful person. And I hardly wait to meet you. I really do hope we all get to meet you one day helped us make it through all of this mess.

R Ron Giles 23:36

I'm looking forward to doing as much as that as I possibly can.

S Speaker 23:42

Anyway, I just wanted to say I am so excited. My everything is done. Probably speaking for other people. We're done. We're ready. Our binders are ready. They're in order, according to all the training. So thank you for all the training and for answering questions on chat. Even Robert, thank you for always responding to my questions on chat. I just appreciate all the help. And I think I'm ready to move forward. I'm excited about moving forward. I believe this is God's 1000

years of peace the golden age. So yes, I do believe we are moving forward and soon. I just have a personal question. And I'm sure others on the line might have this. We've we all probably have a family member or I'll just speak for myself that is on had drug issues and is actually in jail because of drug things that he did. So the people in jail and it wasn't a major thing. But if you get caught with drugs, you're going to jail in the current time. Will there be some help for the people that are in in prison or in jail or is that That's like a ministry that will probably have to put on just to go help them out. And things. Yeah, well, I

R

Ron Giles 25:10

think that's open for humanitarians to get involved. And there will be a lot of people who will be inspired to help those who have made some mistakes and are in jail. Sometimes the mistakes are not caused by them. But they're the results of mistakes. Let's just allow them the learning process of getting back into society. And they'll get the help they need. If it's from med beds, or from the money, they'll get the help that they need, and the love that comes forth from the humanitarians. There's a lot of work to do there. And I think there's a lot of humanitarians who have very similar feelings about that. And I hope that they manifest some really great things. One of the biggest problems is people get out of jail, and they don't have money. Right? They end up back in jail. Well, we've got money for them now. Right? And they don't they don't. If a guy would robbed the bank because his family was starving to death, when he finished his that he gets the chance to go out and create something that gets his family back together. Wow, is that what we're all about?

S

Speaker 26:31

That just added another project to my list?

R

Ron Giles 26:36

Well, there's a lot of people who need to be involved in that. And it doesn't take a lot of time. There are those who are really good at it already, but need funding to do that so that they can stay employed and doing the really good think, exactly. employment contracts should be really good for those kinds of people. That good for everybody. But that's true, specifically that.

S

Speaker 27:01

Okay. All right. Well, thank you so much for the SK AR again, for the second one. I am ready to roll. I have so many projects, and so many ideas, and so many companies and ministries to help. So thank you, all of you for everything you've done for us and for continuing to help us remain hopeful through this time. So we're excited about the future. Thank you so much.

R

Ron Giles 27:29

You are a blessing. And so it's a great thing for us to be able to do that for you and you receive it with the love and the respect and the kindness that you're sending back to. What

S

Speaker 27:44

are the great to have a home again, Ron. I know. Thank you. You're welcome. Bye, everyone.

C

Carrie 27:56

Hey, let's go to Lupe. Lupe, your mic is open. Hi.

S

Speaker 28:03

I just have a comment. I was supposed to have done this last Monday or last Tuesday and I didn't I'm doing it today. I've had been reading I'm trying to change my way of thinking the way Ron is telling us that we need to change our thinking to skip this money that we're going to be getting. I'm like thinking to myself, Why am I not? Why am I having trouble with this? And I want you to read in a book a story about a young man that his mother makes him a detective coat. Right? And he wants to be a night and she's begging him not to because he's already had some of her family members passed. Well, then he she winds up giving him her blessing and giving him this coat. She tells him Don't ask questions and respect women. So he goes off, he tells the king and the king just go after him. And then they give him that if he can find out where the Holy Grail is and he can. It's just pretty much words that he can be united. Well, he goes on along the way. And he thinks that maybe it might be in a certain place. But his mother told him never to ask questions. So he didn't miss the opportunity. He wants it meeting the love of his life, but he doesn't want to disrespect for sprek disrespect her so he doesn't talk to her. Because along the way and after comedy for so long, he finally one day in a in somehow or another he loses the coke that his mother made him and so now he is free from the ties of his family. Things that his mother told him. So he winds up asking one man about what the Grail is. He gives them directions and he finds it and then he comes back and gets knighted. That is what's happening to a lot of people wrong. A lot of people are hanging on to the poverty to the coordinates to the real tight income that they've had in the past. And I am telling you you need to renew your If you really believe me, too, I know that a lot of us are suffering that I think I've freed myself quite a bit, to the point where I'm ready. I'm just excited about everything I'm gonna have listed to do. Just trying to get into my head that I was going to receive this much to be able to do, it was kind of hard for me. I'm happy that I now have found my way to say yes, yes, this is the only way that I'll be able to do this with all this help that God's gonna send. So I'm looking forward to it. But I just wanted to let you know that yeah, this might be the problem is that you need to cut off the apron strings, and cut off all those things in your past that have happened to you things that people have told you. And know that you're deserving of doing this. Just work for God, you're deserving of it. That's why he has a son to your chosen. And you have to remember that, that you are chosen. And again, like I always say, you know, our family members that don't listen, or friends don't listen. So we're going to come back. And we can't be telling them either. Well, you know, I told you, but you didn't listen, we have to have the heart of Christ, and bring the babies in, because that's what he would do. And that was it.

R

Ron Giles 31:12

Beautiful, beautiful. And thank you for accepting the challenge to do changing your thinking.

And that's if we all if we all do that effectively as you have, then we're going to be moving along much faster. Thank you.

S

Speaker 31:29

Somebody needed to hear this, because I know that that we all should be already ready. But I know mentally, money wise, it might be hard for some. Yeah. But I bless you. Thank you for all you're here.

R

Ron Giles 31:43

If I bless you, too. Thank you. Bye bye.

C

Carrie 31:47

Hey, go to Michelle Miller. Next. Michelle, your mic is open. Michelle? Hey, guys, I accidentally hit that. But thank you. I'm just listening today. Great presentation. Love you all. Okay, thanks, Kelly. Kelly Switzer, your mic is open.

S

Speaker 32:09

Hi, thank you. So I just wanted to say, you know, it's funny that you, you were talking about these things, because last night, I happened to be on the phone with a friend of mine. And she's, you know, not asleep. She's very much awake. And we happen to be talking about how I had gotten my next round of STRS. And how excited I was and and she, you know, listened to me for a while. And then she said, What makes you worthy of that? Like, why would somebody give you all that money. And they kind of stopped me dead in my tracks for a second. Because I didn't expect somebody who was so awake to say something like that. And I took a second to gather my thoughts. And I said, No, I'm a nurse, and she's a respiratory therapist. And that's how we met. We worked together for a long time. And we worked in a very big teaching hospital that was known for cardiac and I worked in cardiac. And, you know, I held the hands of many people who have passed away. And I thought to myself, what she just said is very much cabal thinking. If we went with that level of thinking, why would we give money to the same sort of people who have gotten us into this mess? Right from the start? We're just going to be right back where we started? Why wouldn't I be worthy of being a steward of this type of money? I've looked into the eyes of people who have been dying. And they didn't say, Oh, what about my house? What about my car? What about my financial portfolio, they said, don't leave me alone. Don't let me die by myself. And I've been with them as their souls have left their bodies and guide them through that dying process. And I kind of look at the change of the world in the same way. This is a dying process of the old regime. And it's the bringing in of the new age of the golden age of mankind, you know, and I've been there when people have been dying, I want to be there. When we bring them back to life. We wake them up from this terrible matrix that they've been stuck in and hold their hand the same way and say it's okay. It's not going to be like it was before. This is this is the beauty that God has given us that we're going to be coming into this and there will be no more suffering like that anymore. You know, I know it'll take a while to switch over people to the med beds and get people healthy again, but there

is hope. And people have to know that and just to know in my heart and in my soul, that the words that I was saying to her and how I was justifying it, that there really is no need for justification. I know We are all worthy. We're all destined for this. That's why we've been cold. And I just wanted to share with anybody else who has those little cabal thoughts that, you know, hammer them day in and day out that, you know, they're not worthy that You know, if they're not going to get the coal that they're not going to be the stewards of, you know, bringing in this Golden Age, stop thinking like that, because that's exactly what they want, and stop giving them what they want. You're, you're you're feeding into that. And that's just creating this whole web of us not being able to move forward, diminish those thoughts, eradicate them through from your, from your brain altogether, and just No, no, with everything that you are, that it's going to be, you're going to be, and everybody is going to be just great. That's all I wanted to say. So thank you very much. And I appreciate being a part of this group and having this opportunity and being able to be with such like minded people who just want to do good in the world.

R

Ron Giles 36:01

Well, thank you. That's a wonderful talk. And I picked that little testimony about the way you're chanting. And that's just beautiful. Thank you for sharing. Thank you.

C

Carrie 36:14

All right, let's go to Gen. Reed. Fisher. Gen. Reed Fisher, your mic is open.

S

Speaker 36:23

Can you hear me now? Yes. Okay, good. One thing that keeps coming to mind, and I'm really learning to listen to my higher self is, is that it's really critical for humanitarians to be ready to receive. I mean, you just don't know when God is going to make that possible for you. For example, and I don't share my my own personal stories very often. In 2016, my husband and I, we were renting a home. And we had a neighbor that I befriended, and I became very close with her. And I remember telling her, I really want a home, I've never had one that that was mine. And all of a sudden, she gave me the money for my home. And the home that I live in now is because of her. Unfortunately, she passed away with this COVID thing. But I was ready to receive at that time. So in 2017, I was able to purchase my home here and I didn't question it. It was it was a gift from her. A neighbor that loved me and I loved her and in return and it's just an example of you just need to be ready to receive. It's something that's, I think, overlooked, and it kind of like a deep seated way we all still think of ourselves as not deserving. But at the time that I was in, I was ready to receive and I just wanted to to bring that out that it is important that we as our you know, as humanitarians have to live, what it is that were trying to do in the world. So that was it. And by the way, thank you so much for all that you're doing.

R

Ron Giles 38:21

Well, I appreciate that. And I appreciate who you are and what you're doing and congratulations, you've you're living your life in the way that is best for you. And your personal way of living. So good job. Good job.

way of living. So good job. Good job.

C

Carrie 38:38

Okay, great. We're gonna go to Izzy, Maria. Maybe you can get your mic going on your side is, uh, your mic is open.

S

Speaker 38:46

Okay, you can hear me. Thank you, Carrie. And hello, Ron, and everybody else, it's there. You know, I just have to tell you real quickly, since I was four years old, I had always had the desire to be a nurse. And I've been a nurse for over 40 years and have taken care of so many people. But I always felt like I wasn't doing enough. But I thought well, God knows my heart. And He knows that, that, that I'm a giving person and I can relate with the other nurses. I was talking earlier. But my dream had always been God, I want to be so rich, that I can give it away. I don't want any more. Any more people to suffer. I want people to have houses. I want people be off the streets when people be healthy. But God, I don't know how I'm going to do this. Well, I continued working through the years in the emergency room and an ICU. And so the other day, Ron, it hit me a hit me hard. I finally got my certificate from my SAR for the second one. And I was like, Whoa, this is like so many zeros, you know, and I was all excited. And then I thought, oh my gosh, I'm going to be like so rich, that I'm going to be able to help and I'm going to be able to help people all over the world. And then of course Satan always wants to attack and I started questioning well God am I going to be able to handle it. And I heard the Lord tell me, why do you question? If you've asked me for this all of your life, and even though you're 70 years old right now, I have always had your heart and your desires in me, you have served me in so many ways. You've helped so many people, and even now that you're working, you know, living on Social Security, because I've always believed humanitarian starts now. If he can trust me with little, then he can trust me with a lot. And so I prayed about it. I asked my guides, I asked my angels. And then the next morning, I thought, you're right, you're right, father got your right elbow. Yes. And so I just want to let people know that sometimes it can be overwhelming, knowing that we aren't going to be just gifted and rich and everything else. But to know that my desire since I was a very young kid, wanted to be so rich that I could help everyone. And now to know that it's going to become information. And I'm like, I'll be excuse the word be damn Satan, if you're gonna in any way attack me. And so I've accepted it. I'm walking, and I'm so excited. And you know what, I don't care when it happens. When it happens, it happens. Because my thing is that my father, God has trusted me all of my life. And I'm here for such a moment is for such a time as this. So Ron, I just want to thank you so much for the LGBs I had, I had joined the LW s, probably about a year ago. And then I thought, well, I don't have Zim how does this work? Anyway, and then friend of mine, Irma here in San Antonio, call me and asked me to be a part of it. And I still didn't know if I was going to be able to do it. Long story short, and then Carrie has helped me Tracy has helped me deal on these guys have been answering my questions. All I mean, I am just so grateful. And Ron, I know you're so busy, and you have such a precious heart. So heart of gold. But I just want to tell you that I'm not questioning it anymore. I'm not doubting it anymore. I'm accepting it in full open heart, because God told me, you asked me forward, and I have blessed you. And now you have it. So I just want to thank you all. And thanks, Kerry for giving me the opportunity to speak.

R

Ron Giles 42:08

RON GILES 42:38

Oh, thank you, kindly for your kind words. Man. We were it's a pleasure to do it for all that we do for people like you what a blessing it is to do that and have that kind of, well, I'll call it giving and receiving. I'm giving you what loved one society has, and you're giving me back what you receive. And I received that kindness. And it just comes in warms my heart. So thank you very much. You've moved me.

S Speaker 42:40

You're so welcome. Thank you so much, sir.

C Carrie 42:45

Okay, we have two people, Maria Lin and Jen Reed, who who wanted to speak, your mics are open. Can either of you open on your side? Okay, Maria.

D Dominick 42:59

Carrie, before we let them speak, Ron, just let you know, we've got a really nice break in the wealth management for and there is no way Carrie and I want to give up on these questions are such great questions. So we're just going to carry the rest of the time with questions if that's alright with you.

R Ron Giles 43:14

For me, that's just perfect. Okay,

D Dominick 43:17

good. Just wanted you didn't know. All right,

C Carrie 43:19

let's go to Gen read. Can you open your mic on your side?

S Speaker 43:25

Hi. I didn't realize that I still had my hand up. So I apologize. But I do appreciate everything that everyone is doing, especially how much effort you're putting forth. Carrie, I just want you to know that I really appreciate all your time. And, and Dom and Ron and, Tracy, all of you guys. It's just amazing. But I can't see how to lower my hand on here. So I'll try to do that.

C Carrie 43:54

I'll do it. I'll do it for you not to worry. And I'm gonna say thank you on behalf of the there's a huge team behind us. I know that Dom and I and you know, Janice, some of Tracy of course, are front and center. But please know there is a huge team behind working every week on behalf of all of us with love and dedication. So on behalf of all of them, I'm gonna say thank you for your lovely comments and appreciation. So we're gonna go to PJ, PJ your mic is open. Okay, change. Yes.

S Speaker 44:35

Okay. Well, hello to everybody. And Ron. I have a really strange question. I have many questions, but I'll ask them through email or JotForm. Okay, but the most crazy question I may have is I've heard stories about people living off planet humans. Will they also be able to become beneficiary errors?

R Ron Giles 45:06

Sure, they show up and write their name down and get a referral. We don't care.

S Speaker 45:15

Because they might not have the same currencies that we have here.

R Ron Giles 45:20

Well, we're cut out. All right. Okay, well, there's ways to do that. So let's just let that we don't we don't restrict as far as loved one society, we don't restrict somebody shows up, and then they get what we have to offer. So all right, if they're, if they're off planet or whatever, then you know, maybe they're off planet families. Here. Who knows?

S Speaker 45:50

Yeah. Ask another question, please.

R Ron Giles 45:54

Yes. Be short. Yeah.

S Speaker 45:57

Okay. Um, there are also many people who have a lifestyle that they don't really need or want too much money. But if they're signed up, do you expect any complications with people who

are more overweight?

R Ron Giles 46:14

Like, don't discriminate between the very rich, the rich, the very rich, the very wealthy, or the poor, or middle class, wherever every one of us needs new money in this society as the way that we're moving forward. So there's no restrictions. We're not going to control in any way, those who want to be a part of loved one society, especially in the beneficiary program. level. So yeah. It doesn't matter to us.

C Carrie 46:56

Okay, let's go back to Jennifer, in for your mic is open again. Hello, can

S Speaker 47:03

you hear me this time? Yes. Yes, Jennifer. Sorry about that. My headset wasn't working. I just had a really quick question. I hadn't tend to try to go to Africa. And I was just wondering if there was going to be any type of wealth management training for, you know, other countries, for people who are not humanitarians?

R Ron Giles 47:28

It's an interesting question. But we don't have the facilities to do that at the present time. That takes a lot of money. And there's languages and that sort of stuff to take care of. We're just going to have to go from where we are to where we want to go and solve the problems along the way. That's probably the only thing that we can do. Unless I am not aware of something. It's not because we haven't, or we don't want it to happen. We do want it to happen. And the circumstances are something that we might not have control over. But sometimes we do have control. So we're going to make it work as best we possibly can. So Africa is a real target in my heart for Yeah, me too.

S Speaker 48:16

I want to go to Africa. Yeah, but I was just curious, because it's, you know, for for some of the people that are there, they've, they're coming from absolutely nothing. You know, they have nothing. And I mean, for us to have wealth management, it's one thing but for them, it's going to be something different.

R Ron Giles 48:40

Yes. And see where there's a difference between being a managing director and, and having directors and those, that's probably the biggest area as we do our CICS is the directors in finding the good ones. And because of their they will help us to get to everybody in a way that

is beneficial for those who are living without. So my, my way of thinking is that God's in charge, and he's going to put in the hearts where the people want to go. And, and there's some areas that might not have as much publicity as needing some help as Africa. What about India? What about the Asian countries? There's a lot of different ones, but the Lord, I say the Lord. And I don't mean to be that in a religious sort of way. Let's say God is in charge of it all. And we'll get the people and inspire them to go where he needs them to go to do the service that they have to render to these people. They will be beautiful. And the desert It will blossom as a rose. It'll be just wonderful. And I'm looking forward to that.

S

Speaker 50:06

Me too. Thank you so much.

R

Ron Giles 50:08

You're certainly welcome. Thank you.

C

Carrie 50:14

Sorry. But Bob has a comment. So Bob, go ahead. Well, then we'll go back to the other questions.

D

Dominick 50:22

Hello, Ron, thanks very much for your time today in your your discussion? I do. Okay, I do have a very short discussion, that'll end up with a question for you for the benefit of many of the members that I deal with as an admin. So hopefully, this short exchange will help answer a number of questions that people have been talking about. Okay, so. So over time, we've learned that we're building many of the details of loved ones society along the way, as evidenced by the fact that we're retooling the NRA pls program, from lessons learned, and we're turning it into something better. And recently, there have been things put out through Tracy and through our normal communications that began to reference other projects. And I think we've all learned over time that other projects actually means projects that are not directly related to your five, your big five loved ones Society programs. Because those big fives are actually your project. Is that correct?

R

Ron Giles 51:44

They are, yes. Okay, that's what I created for our project so that we could enhance what we're doing. And we decided to share it. So yes, that's correct.

D

Dominick 51:57

Okay, so as, as you're doing that a number of people have been inspired to create very large

scale programs that are similar to love one society, but don't share the name and perhaps are being implemented slightly different. And they may end up being parallel to your programs and loved ones society as we as we move around the Earth. So here's a question that has come up from a number of members that I deal with as an admin. And that is, at some point, as the creator and overseer of loved ones society, are you going to consider asking other members of our organization, whether they be benefactors or beneficiaries, to actually help you execute your loved ones, Society programs, and the big five programs that are part of it?

R

Ron Giles 53:05

It's an excellent question. And it's somewhat of a dilemma for us. Let's, let's just take Bob and Carrie, she has me DOM and Carrie, those who are are indispensable, we have to have them for these live chats, and so forth in the way that they get, get it all set up. And I look at that, and I say, those are the kinds of people that I would want to as far as loved ones society is concerned, I'd like to have them come and work for us if that's the right word to say, or be a part of it. And yet, I have to realize that DOM he's got a wonderful program, that her project that he's put together, do I ask him to come and work for us and doing our projects? Or is he want to do his own? And it's in my opinion, his that's in his heart? And is it all or nothing or 2040 or 60 ad or 20 ad whatever it is. I'm going to be grateful for the help that we get from our managing directors who are now going to have projects of their own when they get money and and believe that allows us to get to that point of the redemption appointment, when we will have the funds that we can find others like them that, you know, I've been told that they will come out of the woodwork ready to work. They're already being prepared to spirit and through the experiences of their life can carry a big load. And so I'm sure it'll all work out the way it's supposed to But yes, loved one societies is going to be bigger than I can control myself. And I've got some people that are being in charge of love and industries already, and so on. And they've already been here with me for three and four and five years. So the larger positions will be taken by those people. But how do we do the rest of it, we'll just have to see what the Lord has provides does provide. And I don't want anybody to feel that they have to come with loved ones society instead of doing their own projects, because they came here with those projects and getting funding and just are helping us out until they can, until we can function more on our own. It's a dilemma. And yet, I'm certainly not going to be the one to coerce them into doing something beyond what loved one society is doing. Let them do their own thing, if that's what they prefer to do. I hope that's helpful.

D

Dominick 56:06

Yes, well, thank you very much, because you've answered the basic question. And that is that you would entertain people who were willing to come and, and be brought on board to a loved one society, if that's a good term, in order to help you execute your programs. And at the same time, as we move forward, like Dom, I've also created a very large scale program, and I've been sharing it with people. And at some point, and now is not the day. But at some point, as we evolve and grown, we may want to consider establishing linkages between these programs, such as loved ones society, or teach me to fish, or my program, which which I call the reverse Corporation. Because they're all doing good things in similar ways. All kinds of marching to the golden age of mankind. And maybe we maybe we do, like you say, you know, we do part time and all of the various groups. So thank you very much for your time and your thoughts. And I realized that, you know, these are all ongoing things that we will continue to figure out as we move ahead. Thank you.

R

Ron Giles 57:29

Yeah, thank you, Bob, it's a good idea to bring these things up. I've had some people that are on the inner circles with us, who have said, my major project is to help loved one society grow and develop like it's supposed to. So it's not as if we're going to get rid of a lot of people. But I'm going to let people do what they'd like to do. And, and work it out that way. So that we are in complete harmony with the Alliance, which will help those people to be inspired to do their projects, like you have done Bob, and, and others. And so it's, we're all working together for the same thing. So it's important for us to realize that and understand it, and they don't show favoritism to other people or to us or something like their loved ones. Society will be huge. But there will be the right people that will carry it forth, especially with this new financing project for homes. Thank you, sir. Thank you, Bob. Thank you.

C

Carrie 58:41

So we have a few more. We have a few more hands up. We're getting close to the bottom of the hour.

R

Ron Giles 58:48

Can we take more than two more?

C

Carrie 58:51

All right, let's go to Patriot for humanity. And please be brief. So we can close on time Patriot for humanity. Your mic is open.

S

Speaker 59:00

Thank you, Carrie. And thank you, Ron. I'm gonna be very brief. So Ron, I want to thank you for today's chat. I was speaking with a friend last night. And really, I was just saying we're in a season where there's a paradigm shift, things are going to really well, things have already shifted. If people are in tune with the Spirit, they can sense that there's already been that shift. But I want to thank you for reminding us to basically revisit all of us to revisit our own thoughts about what we're worth or what you know, whether we think, you know, you know, or whether we can receive the abundance that God has. That's all I'm gonna say. And so I want to thank you for that, for allowing us to continue to grow in that area and really be a mirror to kind of look within and to do that self examination. I want to thank you, and as we move forward, going forward. Do you think there'll be opportunities to maybe if people are minded in obviously, they want for some teaching to take place on some of these laws that really impact our lives that we're not really aware of. Do you think that?

R

Ron Giles 1:00:10

RON GILES 1:00:10

Well, there's been a lot of questions about that. I'm saying, right now let's, let's get the format and what we're trying to do accomplish and get a thing off the ground. And then maybe we can dive into some of those more spiritual things. I would, I would like to think that I have knowledge about a bunch that stuff for 30 years worth of looking at. But I always find new things, and understanding from very highly evolved people who are talking and I think that those are the people who we really need to listen to with some of the stuff that's coming in. You know, there's a lot of people that bring stuff out. And sometimes it's really good. And sometimes it's lacking in its application. I like people who are oriented towards an end in harmony with the Alliance. If I have something to do with it, that's, that's my preference. But I'm not going to tell people they can't listen to whomever they want to listen to. That's

S

Speaker 1:01:24

for sure. No, definitely. And I'm just looking like way ahead. Because as we all change, and grow and develop, there is going to be a need I see just in the future, there's going to be a need for that. And maybe obviously, for those who are already with us working with the Alliance, they kick it off. And then we kind of, you know, take the baton, and continue that. So thank you very much, Ron.

R

Ron Giles 1:01:48

You're certainly welcome. And thank you for bringing that question up. That was good.

C

Carrie 1:01:55

Okay, last question for today. I'm gonna go to Robert, who had his hand up before to Robert, you'll be the last one for today. Your mic is open.

S

Speaker 1:02:04

Oh, thank you. Quick one, one. And all ELS is land development and building and so on school part of the program.

R

Ron Giles 1:02:14

Well, the program really was designed for that. But there's nothing exclusive. When we go into the private home funding, there will be a lot of opportunities to for us to find builders, and developer, land developers and so forth to build new homes. We want to be responsive to the needs, but we also want to be responsive to nature and be sure that we don't start building homes where it doesn't seem like it's a good place. We weren't aware of that. So yeah. But there's there's places to build homes. And there's there's great developers that are poised ready to do that. So we just them and they can their homes are already sold. We just need to get the right price. And then when people find a home that like one of those homes will fund that for them. Right? Well,

S Speaker 1:03:19
I'm just asking for part of my projects work to build new homes. And I found four big projects already with like two or 300 houses that are just starting, that I would would have would have bought. So that's why I'm asking.

R Ron Giles 1:03:37
Yeah, that's always open for that. And especially if you're a managing director and also a homebuilder. You have carte blanche, you can do what you want. Just be having fun.

S Speaker 1:03:51
Yeah. Well, I'm a foundation guy for 30 years. That's why.

R Ron Giles 1:03:56
Okay, foundations are good. Yeah. Well, we can't build a house. Well, my

S Speaker 1:04:01
family of all builders, so that's why I'm jumping on that bandwagon. Awesome. Thank you so much. Thank you.

R Ron Giles 1:04:11
You're certainly welcome. Bless you, my son, my son. Bless you, my friend.

C Carrie 1:04:22
All right. So

R Ron Giles 1:04:24
sounds like a good day.

C Carrie 1:04:28
No, I've just had a couple of announcements. We will have a Friday training in the project's room at 2pm. Eastern time this Friday. And we're going to be covering a couple of topics. One of them is transitional housing. And I believe we might also do some role playing that has been

or them is transitional housing. And I believe we might also do some role playing that has been asked for by some members. And then we'll be back here again, of course next Tuesday with Ron to finish up or to continue. Really there's more on the wealth management. And Ron Any last words you'd like to share before we say goodbye for today?

R

Ron Giles 1:05:05

Well, it's been a real privilege for me to be here and participate. When I'm involved with loving people, and we have the best loving people and exchange of love, and concern, love one for another, and it's just been a privilege for me to participate. This is the, you know, I've spent years bringing loved one society to where it is, this is the reward. It's not the actual application and how it's gonna go forth. But this getting to meet the people who just come from complete love. It's a privilege and an opportunity for me that I never thought I would have. So thank you, everybody for your participation and your kindness towards me and our program and sent forth my love to you. So thank you.

C

Carrie 1:05:55

Thank you, Ron, so much. And thank you everybody who joined us today we're getting larger and larger numbers of people in these chats with Ron, which is wonderful. So we thank you all for taking your time to join us and we look forward to
